NOW'S THE TIME to save more truck dollars on the more-for-your-dollar trucks!

Your truck dollars are worth a whole lot more at your Chevrolet dealer's right now! First off, you get a head start on saving because summer's the saving season. Then, with a harder working, easier riding Chevy truck, you're set to save every mile you haul. And, finally, at trade-in time, you can expect an extra dividend because of Chevy's traditionally higher resale value. What could be better?

Summer's the season to get extra mileage from your dollars on the trucks built to give you extra miles of hauling. With Independent Front Suspension, Chevrolet trucks keep going thousands of miles longer because far less destructive jar and shake are transmitted through the truck. Chevy I.F.S. trucks work harder, too, in areas where other trucks have to be pampered. And, with Chevy's wide choice of thrifty 6 and hardy V8 power. you can tailor your truck exactly to your job. So how can you miss-especially now during the summer saving season?

HOW MANY TELEPHONES do you think Michigan Bell serves in our state? The first three people we asked guessed "five hundred thousand," "two million" and "a million." Before you make your guess,

here's a clue: in 1935 there were already more than half a million. Well, today there are almost three million! This shows how your telephone company has been building to bring modern, complete telephone service to you-when and where you need it.

๛

EVER HEAR OF A TELEPHONE FARM? It's not like most farms because what's "planted" there by Bell Laboratories' engineers doesn't grow. But the farm does help us analyze and improve various types of underground telephone equipment. Into acres of ground go some 11,000 different items - wires and cable for example -that must be engineered for many years of dependable,

trouble-free service. Selected areas are dug up at intervals of from 1 to 32 years to check the equipment's resistance to underground conditions. This helps us in our continuing search for ways to make your telephone service even more dependable.

THE INSIDE STORY. "What do they carry in those little green telephone trucks?" you may have wondered. Well, each truck carries some 400 separate items-from an extension ladder to screws and plastic wood. Every one of Michigan Bell's more than 2,000 installationrepair trucks is stocked in the same way. In an emergency, where trucks must be rushed from one part of the state to another, any installer-repairman would be

completely familiar with the layout of whatever truck he was assigned. These little trucks provide him with all the tools and equipment he needs to give you fast, efficient one-stop service when he visits your home.

The high flying Cardinals picked up three wins last week and now have a commanding lead over the second place Yankees. The Yankees have a string of six straight wins. These two teams clash on Tuesday evening for what should turn out to be a bang up game. A. Getzan's Red Wings play

some of their best games against the first place Cards. Last week these two teams met for the second time this year and the Cardinals had to come from behind in the last innings in both games for the wins. The Red Wings had leads of 4 and 5 runs but could not hold back the hitting attack put up by the first place Cardi-

THESE ISSUES ARE OF VITAL IMPORTANCE:

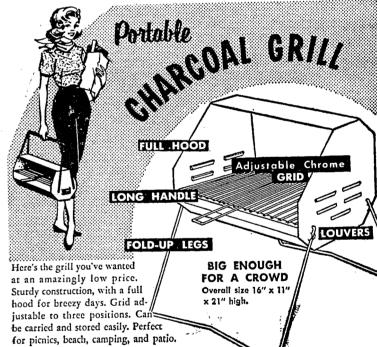

- 1. We must eliminate all of the cumbersome and contradictory amendments which have been added to the constitution over the years.
- 2 We must streamline and consolidate governmental functions so as to provide more effective and economical methods of operation.
- 3. The legislature must remain a representative branch, and not, as many have suggested, be reapportioned to give Wayne county virtual control of our legislature.
- 4. Changes must be made in the Judicial branch to make it more effective and truly non-partisan.
- 5. We must do everything possible to retain the industry now in our state, and to encourage new industries to locate
- 6. Local government must be strengthened and made
