New Business Opened At Walters Lake

Grogan Radio and T V Service

The Walters Lake Repair Center, Grogan Radio & TV, is the new business recently added to the Walters Lake area. Owner, Operator, Walter F. Grogan, did most of the manual work on his small shop himself, which is located next to the Walters Lake Grocery.

Mr. Grogan, his wife, Evelyn, and their four daughters, Cynthia, age 13; Kathryn, age 10; Evelyn, age 9; and Sharon, age 7 moved to this area September 1 from Detroit. The girls all attend Clarkston Schools.

A commissioned officer in the service, Mr. Grogan was captured near Bastogne during the Battle of the Bulge, December 19, 1944. An interesting incident, which took place while he was in the service is included in the book

"The Story of the Bulge", by John Toland. While bringing back the mail in the retreat, Mr. Grogan was stopped by the Germans and almost talked them into letting the mail truck go through.

The Grogan's became acquainted with this area in 1946 while Mr. Grogan was an Instructor and Assistant Camp Director of Clear Lake Camp near Oxford.

They originally owned a home in Detroit where Mr. Grogan operated his own TV-Radio Service at home, as a side line. The family purchased land at Walters Lake in 1951 and started to build their home, here, in 1954. They spent their week-ends and summers at their cottage at 4729 Monterey, Sunny Beach Country Club Subdivision, which is now their permanent home.

Local Merchant First To Give

Mr. Rudolph Schwarze (Rudy's Market) of 9 S. Main was the first person from Clarkston to send in a contribution for Christmas Seals in the 1961 Campaign which continues through December.

The contribution is part of the \$150,000 goal needed to carry on the fight against Tuberculosis in Oakland County.

A total of 200,000 Christmas Seal Letters have been mailed to residents in Oakland County.

Ron Clair, executive secretary of the Oakland County TB Association, urged everyone to use the colorful Seals bearing the double barred Cross of Lorraine.

"The 1961 Slogan, 'Use Christmas Seals... Fight TB... Protect The Family Circle,' tells the story succinctly," Clair said.

Clair was especially pleased with the response to this year's appeal. "The returns are coming in at a faster rate than last year and if they continue we may reach our \$150,000 goal," he said.

The Oakland County goal is double that of last year because of an intensified effort to tuberculin skin test every school child in the county.

Contributions are used for health education of children and adults; X-rays; the tuberculin tests; services to patients in local hospitals; and for medical research, locally and nationally.

Consumers Power Company To Reorganize

David H. Gerhard

In a move to serve customers better by bringing management closer to them, Consumers Power Company will reorganize its Southeast Division as four divisions, effective January 1.

Each of the four districts now making up the Southeast Division will become a new division headed by the present district manager as division manager. Charles F. Brown will be division manager of the Pontiac Division, with headquarters in Pontiac; Wilfred L. Whitfield, division manager of the South Oakland Division, with headquarters in Royal Oak; George L. Mayhew, division manager of the Macomb Division, with headquarters in East Detroit; and James P. Thomas, Jr., division manager of the West Wayne Division, with headquarters in Livonia.

David H. Gerhard, now division manager of the Southeast Division, has been elected assistant vice president by the Consumers board and will go to the General Offices in Jackson to work with Claude A. Mulligan, vice president in charge of divisions, rates and customers' services.

Mr. Mulligan said the reorganization of the Southeast Division as four separate divisions will bring management closer to the customer and promote improved standards of service in the fast-growing Oakland, Macomb and Wayne County areas.

Gilbert - Leak Wedding

First Congregational Church in Saginaw was the scene of a beautiful candlelight wedding on Saturday, November 18, when Suellen Gilbert daughter of Mr. and Mrs. Donald Gilbert of Saginaw and Keith Lanier (Lanny) Leak, son of Mr. and Mrs. Kieth Leak of Middle Lake Road, Clarkston, spoke their marriage vows in a double ring ceremony before the Reverend Harry G. Sutton.

Miss Gilbert, escorted to the altar by her father, Mr. Donald Gilbert, was lovely in an imported brocade gown, fashioned with modified scoop neckline, elbow length sleeves, empire bodice & tapered, controlled, floor length skirt extending into a court train. A matching brocade crown secured her bouffant butterfly veil. She carried a bridal bouquet of sunburst roses, white feather mums and stephanotis.

The bride was attended by her sister, Mrs. Ian Dunscombe, as matron-of-honor, and three bridesmaids, Mrs. Gus Birtsas of Clarkston, Miss Nancy Vandette of Saginaw, and Mrs. Dennis Tibble of Ann Arbor. Their gowns were of antique gold satin poi de soi, with brief sleeves scoop necklines, shirred midriffs, and bell-shaped skirts. They wore matching bandeaus and circle veils, and carried gold and bronze mums and lemon leaves.

David Leak of Detroit was best man for his brother. The groomsmen were Gus Birtsas, Richard Johnson, Richard Huttenlocher and James Huttenlocher, all of Clarkston.

For her daughters wedding, Mrs. Gilbert chose a gown of green brocade with matching accessories and a corsage of green and gold orchids. Mrs. Leak wore eggshell and gold brocade, with gold and bronze accessories, her corsage was of gold and bronze orchids.

Following the ceremony, a reception was held at Nye-Smiths Inn. White mums and sunburst roses decorated the table for the buffet supper, which was followed by dancing.

The bride is a June graduate of Albion college and a member of Zeta Tau Alpha sorority. Lanny is a graduate of Albion College where he was a member of Sigma Nu Fraternity, and is now a senior at Detroit College of Law and a member of Delta Theta Phi Law Fraternity.

Following a trip in Northern Michigan and Canada, Mr. and Mrs. Leak will reside in Royal Oak, where the bride is a member of the faculty of Parker School.

551,000 gas customers are in the Southeast Division," he said, "and in the City of Pontiac we have a large and growing use of electricity. The volume of business is becoming far too great for one division organization to handle. We expect the growth to continue."

The Pontiac Division will consist of 380 square miles, including the cities of Pontiac, Rochester, Walled Lake, Keego Harbor, Lake Orion, Sylvan Lake, Wolverine Lake, Orchard Lake, Clarkston, and Lake Angelus, and these townships: Avon, Commerce, Independence, Oakland, Orion, Oxford, Pontiac, Waterford, West Bloomfield and White Lake.

Mr. Gerhard has been in charge of the Southeast Division since 1953. Earlier he was division manager of the Saginaw Division for seven years and, before that, of the Central (Alma) Division. He joined Consumers as a radio engineer in Jackson in 1925, later becoming a power sales engineer. He had studied electrical engineering at Ohio State University.

"BOBBINS" FROM BOB

by Robert Wilson

Due to the concern of many of my readers over the article about the "mouse invading the shop," I thought I'd better write a continuation, even though the incident happened a few weeks ago.

Many people have asked if we ever found the nest. Well, last week, while going through the drawers of "standing forms", looking for a certain job, I reached in to pull out a drawer when I touched something soft. Of course, type metal isn't soft. I knew something was in the drawer. As I pulled out the drawer, I discovered a mass of paper, string, and heaven only knows what all, to the back of the drawer. Realizing what it was, I got a paper bag and started to throw the "nest" into the sack. As I reached for a second handful, I felt something move—you've guessed it, a mouse. I grabbed it quick and threw it in the sack. What I did with it after that, I'll leave to your imagination. The main reason I won't tell what I did with it is that a woman told me, after reading my first article about the mouse, she couldn't sleep that night. When she did doze off she dreamed about the baby mouse I did away with. Because I don't want to be responsible for anyone losing any sleep, I will close with this reminder—"If you have mice, keep them!"

Typesetters Note:
This does not mean we have no mice around here. I saw two of the darn things last night.

HERE'S WHERE YOU GET THE GOOD WORD ABOUT THE '62 JET-SMOOTH CHEVROLET

Jet-smooth ride 542 front fender underskirts rich new interiors 543

Jet-smooth ride, n. 1. The cloud-9 feeling of comfort that people in Chevrolets enjoy wherever they go. 2. A supple Full Coil spring flexing at each wheel of a Chevrolet to absorb road shock. These are teamed with over 700 noise and vibration filters throughout the automobile to help eliminate the noise and vibration ordinarily transmitted by metal-to-metal contact. The total effect is a ride of supreme quiet and smoothness. 3. The reason why so many Chevrolet-owning families leave home ever so happily. 4. A habit-forming pleasure for which no cure is known, wanted or sought.

new V8-skedaddle, n. 1. The result of touching an accelerator that's linked to one of Chevrolet's new V8 engines (also known as "six-skedaddle" when engine is Chevrolet's trusty 135-hp. Six). 2. The moving power of Chevrolet's 1962 V8 engines. There are five of them, ranging from a standard 170-hp. version up to an optional-at-extra-cost 409-hp. powerhouse.

Body by Fisher craftsmanship, n. 1. The closest that a body manufacturer has come to the care and skill of the jewelry maker. 2. The art and science of forming metal into the strong, solid body structure of the 1962 Chevrolet. 3. Something you won't find in any other car in Chevrolet's field.

deep-well trunk, n. 1. The giant warehouse built into the rear of a 1962 Chevrolet. 2. A trunk that loads at the bumper level and has a capacity of 29.7 cubic feet. It is built with an extra-deep recession in its floor so that it can easily accept odd-shaped outside objects.

comfort-high seats, n. Thought by many to be the most comfortable things to happen to the bottom side of the human lap since dad's overstuffed armchair.

front fender underskirts, n. 1. Sturdy steel linings that are under the front fenders of 1962 Chevrolets to add extra protection against flying stones, mud, slush, road salt and that old bugaboo, corrosion. 2. One of many ways the Chevrolet is built to stay beautiful.

rich new interiors, n. One of the principal reasons why people step into the 1962 Chevrolets and promptly feel luxurious all over. **One-Stop Shopping Center, n. 1.** Where people go to get the most car for their money and get exactly the kind of car they want. 2. A concentration point for the 33 cars Chevrolet offers for 1962. These come in three lines: The elegant new Jet-smooth Chevrolet, the new-size Chevy II, the sporty new Corvair, and the new Corvette, with new refinements, new V8 power. 3. Where '62 values are way up but prices are the same—or less—on comparably equipped models. 4. The place where you enter a new world of worth in automobiles. 5. Where most Americans go for a pleasant, instant cure for the moment the new-car bug bites them.

MYSTERY PERSON?????

Have you looked at our school lately? I don't mean the building itself; I mean the student body. Have you noticed that quite a few students do not follow the rules given to us at the start of the school year? Dr. Greene and Mr. Floyd Vincent, the school superintendents, made these regulations for our own good and safe being. Why, then do these discourteous students break them? The rules were written for them, too.

Pupils that walk down the halls with no belts on, their shirts out, or their collars unbuttoned are breaking these precepts! Look at your place of learning; but more important, look at yourself.

Our mystery person this week is well liked. He is a new Clarkston student this year, but this does not stand in his way, for he has made many friends already.

Mr. X is sixteen and in the eleventh grade. He is 5 feet, 9 inches tall and weighs 130 pounds. He has brown eyes and hair.

A guitar that is out of tune is his pet peeve. He enjoys playing his guitar and working on his car. In the future he would also like to make a record.

His favorite subject is wood working. Who is the MYSTERY PERSON?????

JOURNALISTS ARE AWARDED

Quill and Scroll is an organization designed to unite the outstanding writers of high school level. The true name of the organization is The International Honorary Society for High School Journalists.

In order for a writer to be accepted into this society, he must be recommended by the sponsor of the Publications class and approved by a board of directors.

The students accepted from Clarkston High School were Sharon Gotschall, Sue Jackson, Lona MacNeill, Marcie Fox, Janet Tisch, and Alicia Lawrence.

These girls received pins which have their titles on them. They received membership cards along with the pins.

PLANS FOR INITIATION AND INSTALLATION OF OFFICERS MADE BY FHA

By Kathy Poehman
 While sewing in the hems of the choir robes the FHA held a business meeting to discuss the initiation of new members and the installation of officers.

After a brief discussion the date of the initiation was set. It will be on December 5, and the guests will be the West Bloomfield FHA chapter. Punch and cookies will be served and games will be played.

The installation of the officers will be completed in the Little Theatre on January 9. It will be a very formal occasion and the girls' parents may be invited to attend.

THE AIMS OF OUR ART DEPARTMENT

Our Art Department tries to provide each student with a wide variety of experience with materials and processes associated with creative activities in art. Because of this wide variety each student, sooner or later, finds something which he can enjoy.

We attempt to encourage the appreciation of the world around us — nature, our own work, and the work of other people, both present and past. An introduction to the history of art fosters acquaintance with our cultural heritage from people who have lived before us.

But the principal emphasis in all classes is on self-confidence, versatility, and appreciation.

Through planning and carrying out various projects, students gain self-reliance and self-confidence. By developing skill with materials and processes, beginning students provide themselves with the means for profitable enjoyment of leisure time. Students in advanced Crafts or Painting and Drawing classes are encouraged to provide themselves with a well-rounded background of information related to their chosen specialties so they will be prepared for future independent study and work in the areas of their special interest.

GENERAL MOTORS OFFERS SCHOLARSHIPS

Senior students at Clarkston High School are eligible to compete for 100 four-year scholarships offered by General Motors under its National Scholarship Plan, according to Mr. Milford Mason, school principal.

The competition is open to young men and women who are high school seniors and U.S. citizens. Interested students must make applications for both the GM Scholarships and the Scholastic Aptitude Test of College Boards.

At least one GM award is offered in each state. The District of Columbia, and Puerto Rico. High School seniors awarded scholarships under the GM National Scholarship Plan are able to pursue any course of study in any accredited college or university.

Selection of award winners in the GM National Plan is made by a group of leading educators representing various parts of the country.

General Motors also offers other scholarship opportunities. Under its college plan, 305 four-year scholarships are awarded annually by 182 colleges and universities located in 50 states and the District of Columbia. A list of the participating colleges may be obtained from the principal's office.

Selection of award winners under the College Plan is made by the respective colleges and universities. Students wishing to be considered under this plan should apply directly to the college of their choice. Awards under both plans range from \$200 to \$2000 per year, depending on the student's needs.

STUDY HABITS CLASS

It is believed that many of you do not understand the tools and techniques which are necessary for the development of proper study habits. Members of our faculty realize this and want to help you develop study habits which will aid you now and in the future.

We have organized a program for your benefit in this area. Here is a wonderful opportunity for each of you to discover the various tools and techniques which are necessary in the development of good study habits. If you apply what is presented to you during these meetings, your school grades should improve.

There are eight sessions, and each session will be taught by a different member of the faculty; this will allow you to hear at least nine different faculty members regarding study habits. You should, of course, attend each session, but we realize many of you will be unable to do this for one reason or another. You are free, therefore, to attend any number of sessions you so desire.

Each session will begin at approximately 3:00 o'clock. The time of each session will vary from one half hour to forty five minutes. Faculty members who are in charge of each session will designate the day, time, and place of their particular session. All sessions will take place somewhere in the high school building. There could be one or several sessions held during a given week.

Session 1 begins in the little theater on Monday, November 27th, at 3:00. The time and place of session 2 will be announced at this meeting, and also will be announced on the public address system.

If you plan to attend these sessions, please sign the Study Habits Class List at the counselor's secretary desk before Wednesday, November 22.

Faculty members who will teach the course are as follows: Mr. Thomas, Mrs. Wilkinson, Mr. Lytle - Mr. Thayer, Mrs. Campbell, Miss Gibler, Mr. Bonner, Mrs. Branch, Miss Klausner. P.S. There Is No Homework In This Class.

Furniture Refinishing

by BOB WILKIN

All over the country, people are beautifying old pieces of furniture in their dens (and cellars, backyards—even on the fire escape). Comfortable in their oldest clothes, they're having the time of their life and thoroughly enjoying America's rapidly growing avocation of furniture refinishing.

Here, in question and answer form, are the steps to follow in returning some ancient attic hideaway to a life of beauty and utility.

Q. As a craftsman, sharpening a pencil is quite an accomplishment for me. Nevertheless, I'd like to take a stab at fixing up some furniture pieces Grandma left us. Where do I start?

A. No need to feel diffident on that score at all. The place to start is by digging out some old clothes and a pair of rubber gloves.

Q. That's all I'll need?

A. Nope. If you decide to use anything other than the combination - solvent - remover two-step system which contains all the materials necessary in one package, you will need a solvent and lots of steel-wool pads. Really to be equipped for a variety of stripping methods, it would be well to have a cuticle stick (or other small dowel-like instrument) cut on a bias. This is for getting down into recessed areas without scratching. And, unless using the packaged process mentioned above, you'd better have a putty knife at hand, preferably one with rounded edges.

If you're working on super fine surfaces, you'll be glad you took the time to whittle out a wooden scraper to work with. This should insure a no-gouge finish job.

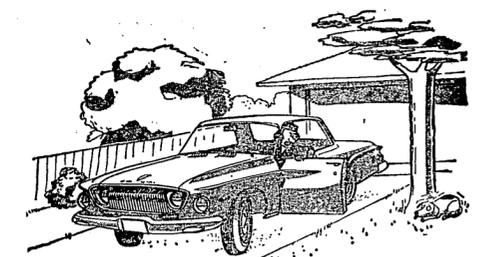

Q. Where's the best place to work?

A. Outdoors is best. Then comes the cellar with its concrete or stone floor. If you work in a room with wooden floors, avoid several thicknesses of newspaper around.

And, oh yes — don't forget to open the windows a bit. All solvents are toxic to some degree.

In the next article we'll talk about the kinds of solvents available and the sort of work they're used for.

MICHIGAN IS TRANSPORTATION

Take rail transportation! Twenty-one railroads serve 81 of Michigan's 83 counties with a great network of 6,675 miles of mainline track and fast freight service to the markets of the nation.
 Take highway transportation! In Michigan, trucks and autos travel over the longest toll-free interstate highway in the U.S., 200 miles of Interstate 94 in the important Detroit-Chicago industrial corridor. Michigan is the No. 1 state in non-toll freeways in use and under construction.
 Take air transportation! Thirteen freight and express carriers serve, including charter connections,

133 Michigan airports—placing any Michigan industry within hours of its customers anywhere.
 Take water transportation! The St. Lawrence Seaway has made Michigan ports a direct gateway to the markets of the world. Based on tonnage of exports and imports the Michigan Customs District is the second largest in the United States.
