Communion Sunday

World-wide Communion Sunday stresses ecumenicity and the essential unity of God's children. We will celebrate Holy Communion, together with the Christian Churches around the world, in recognition that Jesus draws all his sheep into one fold. This service of worship is called different names by different Christian groups. It is the Supper of our Lord, reminding us of his last supper with his first disciples. It is the Holy Communion, which being literally interpreted is the Sacred Fellowship. It is the Eucharist, the giving of thanks to God for all his mercies, but especially for the great gift of salvation in Christ Jesus. It is the Mass, the mysterious re-enactment of the sacrifice of Calvary. It is the supreme Sacrament, the outward and visible means to

Pine Knob Sign Unveiled

Mrs. Robinson, wife of Dr. Harley J. Robinson, who released the 435-acre site to the developers of Pine Knob, has just unveiled the huge redwood sign, located in front of the ski lodge under the huge redwood sign, located in front of the ski lodge under construction. Left to right here are: Leonard W. Jarosz, president of Pine Knob Enterprises, Duane Hurstfall, Independence Township Supervisor, Mrs. Robinson and Dr. Robinson. At extreme right, is Reno Ministrelli, of Southfield who is a vice president of Pine Knob Enterprises.

LIKE A SKIER POISED FOR FLIGHT

The prow-like concourse and delta-wing design of the big lodge at Pine Knob, shown in the architect's rendering, seem to set the mood for winter fun just ahead. Nearing completion, the lodge is part of more than \$1,000,000 year-round recreation park being developed north of Pontiac, Mich. The facility will open in advance of the 1962-63 ski season. Housed under the timbered, cantilevered roof will be nearly an acre of public rooms, including a lounge bar, restaurant-night club, skiers cafeteria, ski shop, and locker rooms. A 1500 car paved and lighted parking lot adjoins the lodge. Window walls of the concourse and both wings provide an unobstructed view of the ski runs. Open air observation wings flank the two-story concourse which bridges an underpass leading from the parking lot directly to the ski area.

"BOBBINS" FROM BOB

(Taken from The Brooklyn Exponent, Brooklyn, Mich.) One of the reasons a newspaper man is seldom lost is because he usually has many subscribers telling him where to go.

The above statement holds true with your editor. It seems a pity that the only time people take time to call the News Office, is when they have a gripe. Nothing is ever mentioned when we carry item after item, pictures, etc., on activities of local organizations, but just let us leave out one of the items due to lack of space and whamo! Not one, but two callers proceeded to let us know that their news was more important than this, or that item which did appear. Explanations seemed out of order, or at least it seemed to be.

We do not purposely leave items out of the paper. Lack of space makes it necessary. To decide what to and what not to print is a problem. It boils down to putting in the items of organizations which have possibly been left out in previous issues. Who can determine which organizations news is the most important. It is only natural that any person belonging to a certain club, feels their news is the most important. The complaining club, which brought this article on, felt that their news was more important than the skating news which appeared. Or at least this is the way the person calling felt. It so happens that the Clarkston Rollerade has received very little recognition in this paper therefore we felt their item was very necessary.

We welcome club news, all club news, but it must be understood that at times items must be edited, sometimes omitted, due to lack of space. One of the best ways to be assured that your items will appear, is to ask the non-advertisers why they are not advertising in the Clarkston News. If we could add a few more regular advertisers, two more pages could be added to your Clarkston News. It's up to you. Hit the non-advertisers hard. Ask them why they aren't advertising in your Clarkston News. It's up to you! Five hundred new subscribers have been added to our subscription list since we took over a year ago. Someone must be reading the paper. Don't forget, if you want a bigger and better paper you'll have to work with us.

The progress of this paper is only possible through the efforts and enthusiasm of its readers.

Bruce A. Stigall, electrician's mate fireman USN, son of Mr. and Mrs. Jesse F. Stigall of 5417 Mary Sue, Clarkston, is serving aboard the escort ship USS Lester which is participating in the joint international naval exercise "Operation Unitas III," in progress off both coasts of South America.

The four-month exercise involves units of the U.S. Navy and the navies of several South American countries. The primary mission of the exercise is to develop the anti-submarine potential of the various units participating.

Albert D. Cohoon, radarman seaman, USN, son of Mr. and Mrs. Russell J. Cohoon of 6280 Pine Knob, Clarkston, is serving aboard the destroyer USS Forrest Sherman, operating in the Mediterranean as a unit of the Sixth Fleet.

The Sixth Fleet is America's

first line of defense in the Middle East. Composed of nearly 50 ships, it is a modern, well-balanced unit, capable of operating indefinitely at sea without shore bases in the Mediterranean.

While with the Sixth Fleet, the Sherman will visit ports in Spain, France and Italy.

Use Your Brights At Dusk

"Don't go roamin' in the glomin' with your parking lights on," is the admonition of the State Safety Commission to fall and winter drivers. A law passed in 1961 specifies that when it is dark enough to turn on lights they must be the regular driving lights. The dim and often obscure bulbs provided for parking lights do nothing for the motorist's own visual alertness and provide uncertain warning for other motorists and pedestrians alike.

The parking light is usually located closer to the dust and mud of the highway and the least likely to receive attention either

from the driver or service men. Parking lights are deliberately low powered to conserve battery energy. This modest gleam, seen through layers of road grime in the twilight, frequently deceives the passing motorist or crossing pedestrian as to his distance and his percentage of making good on the next move.

Early evening bicycles are a special danger this time of year. Parents should insist that their children know elementary traffic laws before the bike is bought. Most towns and cities have bicycle ordinances which require that bikes be licensed just like Dad's car. This is good because it helps son or daughter to regard it as a vehicle—which it is under state law.

Lights and reflectors are a must in twilight and dark. Unless it is necessary cycling in the dark is a dubious activity. There is no armor around a cyclist or a pedestrian. In any contact with an automobile it is no secret who gets the biggest bump.

Scouting out of driveways and parking areas and free coasting on down hill streets are a sure way to head for trouble. Even in daylight the pedaler must be alert to things on all sides, stay as far to the right as possible while still being wary of persons emerging from the driver's side of parked cars.

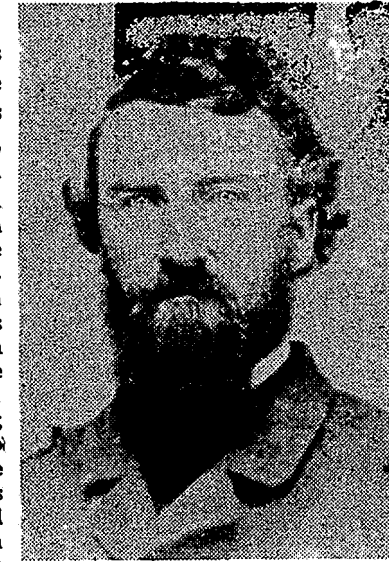

Motorists should be prepared for the hundreds of young two-wheelers who ride to and from school everyday saving the taxpayers the cost of school buses and helping to keep physically fit. But parents should also share the responsibility for seeing that their young charges know and obey the common rules for safety.

Another Day

By Connie Lektzian

Doctor Robertson reined his white horse over to the side of the road and watched the troops march past. It was September, 1865, five months since Lee had surrendered to Grant but would be years before all the Union troops had left the South. The doctor, his discharge papers safely packed away, wearily began his journey back to Michigan. As Surgeon of the Eighth Michigan Cavalry, he was entitled to some means of transportation from Tennessee, if it was available; and he had been fortunate to receive a horse, for most of the men and some of the officers when they were discharged had to make the homeward trip on foot. Whatever railroads had not been demolished were used to bring in fresh troops or take back the wounded, and any soldier able to stand up and walk got home under his own power.

The Eighth Michigan Cavalry had taken part in Sherman's march to the sea, and he recalled many skirmishes when he had been the only physician to administer to the wounds of their men, and for three months during the summer of 1864, Doctor Robertson was a prisoner of the Confederates. In the two years of his service, he had witnessed scenes of such destruction and suffering that he would never be able to forget them, and he looked back over the events that had led to his enlistment. Born Charles Gray Robertson in Glasgow, Scotland in 1830, he had come to America with his parents when he was 7 years old. They had settled in Oakland County, finding the way to the site of their land claim by following blazed trees, for there was no road or even a path thru the

Dr. Charles Gray Robertson

forest. Shortly afterwards, the father of the family died and Charles remained on the farm until he was sixteen when he decided to prepare himself for a professional life. With limited funds, he had to teach school in the winter in order to pay for his own schooling in the summer. He studied so long and hard, that his mother, with a pioneer distrust of people who kept late hours, threatened to publish his name in the village if he didn't get to bed earlier.

He had served an apprenticeship with a doctor in Mt. Clemens and attended lectures at Ann Arbor before starting practice in Waterford, where he also operated a drug store. In 1853, following his marriage to Jessie Newton, he became Assistant Surgeon with the 61st Mines in the Lake Superior region for 3 years. Never satisfied with the amount of technical knowledge he had, Doctor Robertson continued to study.

With the loss of his little two year old daughter he was made even more keenly aware that the learning required to set up a practice was not sufficient to meet the problems of a physician. In 1862, he realized his ambition, he graduated from Buffalo University of Medicine with his degree. With a wife and two other daughters, it had not been easy, for most of his patients, themselves poor, had given him his pay in the form of a peck of potatoes or a slab of bacon.

It was a long and weary journey from Tennessee to Michigan and each day was a private battle to obtain food for himself and his horse, and shelter at night. There were many on foot that cast a covetous eye at the doctor's means of transportation, and Charles Robertson was constantly on the alert to keep his horse from being stolen. Arriving home, he had a pleasant surprise. Not only was his family safe and sound, but his wife, with what must have been penurious thrift, had saved all of her husband's Army pay. For the first time in their married life, they had a considerable amount of cash. For ten years after the War, Doctor Robertson practiced at White Lake, and for 3 years at St. Clair; and in 1880, the family, which now included a son, Milton settled in Clarkston. Thanks to Mrs. Robertson's thrift, they were able to purchase a house, still standing at 10 Robertson Court. The doctor's offices were in the building, since burned, that stood in the vacant lot next to Gentry's Colonial House, where in later years, Doctor Sutherland was taken in as partner. And the white horse? He lived for years — the pet of a grateful family.

Gary Robertson, son of the Gray Robertson's of Clarkston, will graduate from Wayne State Medical school in June of 1963, just a little less than a 100 years after his great grandfather started his homeward journey from the Civil War.

Independence Township News

In connection with recent minutes of the Township Board meeting it was interesting to learn that Township Supervisor Duane Hursfall recently met with representatives of the Clarkston Gardens Subdivision Association, and at Mr. Hursfall's suggestion they visited the Oakland County Road Commission in an effort to have stop signs placed at the intersection of Almond Lane and Church St.

Even though the street area has become a source of concern to the residents living there, it is not always a simple correction that can be attained in short order," Says Mr. Hursfall.

"The problem has been brought to my attention and I recognize the desire to eliminate it however,

said Mr. Hursfall" such measures often require the cooperation of several agencies and we can only pursue the course of action to be taken".

If stop signs could be installed at the intersection mentioned, it would certainly resolve some of the anxieties if the people living on those streets.

Also — New Registrations for voting in the November Election are coming in at a good rate. It is quite apparent that there are quite a number of new faces that have moved into the area. It is estimated that by October 8th at 8:00 p.m. (the last day for new registrations) there will be 4,500 qualified electors within the Township.

Guidance Corner

Open Letter to Parents by Terry Thomas, Director of Guidance and Counseling, Clarkston Community High School

If a guidance program is to be most effective, it must have support from all school personnel. This includes the custodial, clerical, and the cafeteria staff as well as members of the student body, faculty, and administrators. It must also have the support of the community.

Before one can contribute in the most effective manner, we believe it necessary to review the program in its entirety. In a school guidance program it is impossible, however, to specify exactly what transpires in each area.

dards but whose test profile is in the lower 10 percent.

8. The girl with all her tested abilities below average, except in simple speed and accuracy tasks where she is in the upper-most ten per cent.

9. The girl in the "socially acceptable" secretarial course who is failing because she has below average language skills and whose better-than-average strength in numerical ability, space perception, and mechanical comprehension has never been recognized.

Proper use of parent, teacher, counselor conference could possibly prevent some of the above examples from saying later "I wish I had known." Since counseling is a democratic process of joint planning and decision making by school, pupil, and family, time is needed to help these identified boys and girls think through their opportunities and their social responsibilities.

IMAGINE THAT!

Now We're Even Demonstrating Manure Spreaders!

Yes, sir, we're not afraid of getting our hands dirty... nor our Case Spreader either! To prove it we'll come out and haul manure for you with a new Case Spreader. And we'll give you the "slam-bangin'-est" spreader demonstration you've ever seen! Only a Case dealer DARES to make that offer—all at no charge.

We won't pull any punches. You can hook on to the Case Spreader yourself. Notice how easily it pulls... how fine it shreds... how evenly it spreads. Two things are sure: (1) you'll never have to "baby" this spreader, and (2) you'll never again have to spike-tooth new seedings to break up manure chunks!

Call us! We'll head your way before you can say, "Case Spreader!"

Many Jobs Depend Upon The Way You Save Your Money!

Sent out of town, it helps no one in your community. But when you save in our bank your dollars help people to buy cars and improve their homes. They help merchants carry better stocks, business men to finance equipment and sales. Loans from our bank expand purchasing power which makes more jobs... greater prosperity for all.

Opening the Scriptural selections is this verse from Isaiah: "Fear thou not; for I am with thee; be not dismayed; for I am thy God; I will strengthen thee; yea, I will help thee; yea I will uphold thee with the right hand of my righteousness."

A correlative citation to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states: "What ever is governed by God is never for an instant deprived of light and might of intelligence and Life" (p. 215).

The Golden Text is from II Timothy: "God hath not given us the spirit of fear; but of power, and of love, and of a sound mind."

 A PRAYER

Our Dear Heavenly Father,
 We thank Thee for thy gift of grace;
 We thank Thee for thy love so free.

May we remember that ancient tree
 Until we see the glory of His face.
 Help us to keep our faith and love;

Let us not a stumbling block be.
 Give us the quiet peace of a dove
 And joy for all to know and see.

Let us humble be to glorify Thee;
 If we sin, let us know whom to blame.
 In the knowledge of Thee, let us happy be;

And Thy will be done in Jesus' name.
 Amen.

Today - Wide-Track Pontiac '63

Obvious, isn't it, that Pontiac's come up with another beauty this year. Fresh over-and-under headlights, clean profile—but you can see that. There's a wider Wide-Track,

too, and a full line of Trophy V-8's. [That ought to be enough to make those other cars turn green.] And we haven't mentioned such happy touches as self-adjusting

brakes. So what, pray tell, could be keeping you from a new Pontiac of your own? A small suggestion. Don't run down to see one. Gallop! **Wide-Track Pontiac**

For Safe Motor Trip Follow These Rules

FLINT, Mich. Your vacation trip this summer will be a lot safer and more enjoyable if you will get plenty of rest each night and limit your driving to 10 hours per day.

These are two of the most important rules followed by Buick test drivers in compiling a record of 3,000,000 miles without an accident at the General Motors Proving Grounds, Milford, Michigan.

A. E. McManama, general supervisor of Buick's road test department, lists the following as musts for Buick's driving team:

- 1 **Good living habits**—plenty of sleep and rest, and a good frame of mind with no worries while driving.
- 2 **Break up monotony**—stop for coffee or gas, at regular intervals, get out and walk around. Never go more than two hours or 150 miles without a stop. This keeps you fresh, alert and at your driving peak.
- 3 **Limit your Daily Driving**—ten hours of driving per day is the limit. After that you are asking for trouble.
- 4 **Car maintenance**—it's a must to keep your car in top mechanical condition.
- 5 **Drive a tidy Car!** Loose articles, litter, packages, etc., can be dangerous. Keep the inside of your car neat and tidy, everything packed in convenient places where loose items can't slide around. Packages piled on the rear window ledge become missiles in case of a collision, and they also block the view of the driver behind you.
- 6 **Follow road conditions!** If the sign says 40 m.p.h., believe it. If it says, "Slow, dangerous curve," take the highway department's word for it. The signs are placed along the roadway for your help, and they have a good reason for being there. Dusk and dawn are poor visibility driving times. Use extra care then.

"These are the rules we follow," points out McManama, "and everyone of them can be accepted by the motorist. Strict adherence to them is the best insurance we know against accidents."

MILFORD HANDS CLARKSTON THIRD DEFEAT

Clarkston kicked off to Milford, and they carried it up to their 35 yard line. On fourth down they found themselves back on their 15 yard line and were forced to punt. The Wolves took the ball and moved 40 yards on the first play, but they ran into trouble and lost the ball on downs.

At the start of the second quarter Clarkston got in one play and fumbled with Milford recovering on the Clarkston 20 yard line.

Two plays later the Redskins Jim Ward went around end to score. Clarkston took the kick off, but fumbled and Milford

recovered again. The Redskins made short work of Clarkston's fumble and went over again to score, to make it 13-0 at the half.

After the half Milford kicked off to Clarkston but again the Wolves fumbled and Milford capitalized with another tally. Milford's final TD came late in the third quarter with a 25 yard pass play. Clarkston's lone touchdown came just before the end of the game with Randy Armstrong going up the center on a 20 yard run. Milford 26, Clarkston 6.

Well football fan's it looks as if West Bloomfield is running away with league honors this year, but Bloomfield Hills and Northville are still not to be overlooked. Clarkston plays at home this week against Clarenceville and they may get their first taste of victory.

Repeat Vows

Alice Lucile Amos and David A. Lissner exchanged wedding vows and rings Saturday, September 8 at the altar of the Mulford Evangelical Free Church in Muscatine.

Parents of the couple are Mr. and Mrs. George Amos, Muscatine, Iowa; and Mr. and Mrs. Herbert Lissner, Clarkston, Michigan.

Miss Ruth Ann DeFlon of Oak Park, Illinois, was at the organ playing wedding music preceding the ceremony. She also accompanied Mrs. Floyd Amos, sister-in-law of the bride who sang, "O Promise Me," "A Wedding Benediction," and "The Lord's Prayer."

Mr. Amos gave his daughter in marriage.

She wore a simply styled floor length gown of white bridal satin fashioned with a scoop neckline and three quarter length sleeves. The bell skirt was accented at the waist with small bows. Her fingertip veil was caught in place by a pillbox headpiece of bridal satin.

She carried a cascade arrangement of yellow sweetheart roses and white shredded spider mums accented with English Ivy.

Attendants included the maid of honor, bridesmatron, bridesmaid, best man and two groomsmen.

A reception followed the ceremony, after which the couple left on a two week trip to Colorado.

Out of town guests attended from Clarkston, Pontiac, and Almont, Michigan, as well as several other states.

Letter To The Editor First Services Held Clarkston Jr. Miss

Some years ago, before the Clarkston School District was consolidated, I was on the board of one of the rural schools which was closed as the territory was absorbed by the new district.

We bought the text books from the publishers and sold them at cost to our pupils.

The children sold the ones they were thru with to those entering the next higher grade. (We did not change texts every year. The new methods are developed, the facts of arithmetic, spelling and grammar do not change much.)

I know of no law forbidding this practice and I think it would be a fair question to put to prospective School Board members, as to whether this policy appeals to them or not.

After all, the parents have control of the Board by their vote but hardly any of them make the effort required to attend the school elections.

Subdivision Dance Here Soon

Witches and Goblins will be out early this year at the Clarkston Gardens Improvement Association Dance Saturday, October 20th, from 9:30 till 1:30 at the Waterford CAI building on Williams Lake Rd. Everyone is welcome. Tickets will be available at the door. Fenton Weaver's Orchestra will provide the music and door prizes will be awarded.
