Letters To The Editor

I am writing concerning the school financial statement which you published a few weeks ago. This letter is late only because I hesitate writing a letter to a paper. I noticed in my home town paper (which I receive weekly) that their school financial statement carried the appraised values of the buildings, sites and equipment. Also the number of buildings, classrooms and teachers, teachers salaries, number of pupils and number of pupils per teacher. By doing this it gave me a good view of what part of the tax dollar in my home town was being spent for.

Now I live in Clarkston, and have a child in one of the schools. Why wasn't the above information in the Clarkston schools financial report? I was under the impression the items I mentioned, according to law, had to be published.

In your "Bobbins From Bob" column you have implied that you would bring us all the news. Well, here is the law, being broken, and you do nothing. Have you been taken in by the school board. What other reason could there be for you not publishing this material so vital to parents of children in school.

Just Wondering

(Editors Note)
There are many publication laws which are very complicated. I strive to abide by these laws, but it isn't always possible.

The reason for the items you mentioned not being published was the fact that they were not turned in with the schools financial report. As a matter of fact when I first received the copy, the Revolving Funds and Internal Accounts were not included. Upon checking, I found they were to be published. I contacted the school and obtained this information. When I asked why they hadn't included the number of buildings, teachers, etc., as you already mentioned I was told they were compiling that information for publication at a later date.

You may be sure that in the very near future the information you desire will be published.

Dear "Bobbins from Bob"

Times are changing, and old values don't seem to be good enough anymore. People are considered old-fashioned when they cling to the tried and true.

If you stand up for your flag, you're a flag-waver; if you fight for your land, you're selfish because you're putting yourself before the good of all the people; if you are conservative, you're halting progress; if you point

Local U. F. Drive Launched At Dinner Mon.

The Independence Township United Fund drive kick-off dinner was held Monday evening at the Old Mill Tavern in Waterford, with a record attendance of 120 volunteers and guests.

The dinner was sponsored by the Clarkston Rotary Club, Clarkston State Bank, the Pontiac area United Fund and an "anonymous personal friend." It was stressed that these four donors paid for the kick off dinner, not funds from the local drive.

Reverend Jack Giguere gave the invocation. Following the dinner, Mr. Lewis Wint, Independence Township U.F. Board Chairman, as moderator introduced Dr. Ernest F. Denne who is the 1962 campaign chairman. Dr. Denne stated, "Let's put, our shoulder to the wheel and give it a good spin."

Mr. Wint, owner of the Lewis Wint Funeral Home, humorously mentioned that all the doctors and professional people moving into the township weren't doing his business any good. He then earnestly told of the need in the township for a visiting nurse, which may be possible through the efforts of the women volunteers during this year's drive.

"Tink" Ronk, introduced as Mr. Clarkston, who will head the commercial solicitations, told of the importance of reaching the \$5,800.00 goal set for Independence Township.

The head of the Women's Residential Solicitation, Mrs. Richard Kroninger, explained that without the hard work of the volunteer solicitors, the goal could not be reached, or possibly surpassed as it was last year.

Fire Prevention Week In Progress

In conjunction with Fire Prevention Week (October 7-14), a special arrangement has been made by Chief Don Beach of the Independence Township Volunteer Fire Department with Walter Kidde and Company, Inc. for a limited time discount sale of the Kompact, Kidde's new 2 1/2 lb. pressurized dry chemical fire extinguisher.

The Kompact, a regular \$12.95 retail item, will be sold at the fire station, 3 East Church Street and Canvassed door to door by Department members from October 8th to October 15th at the special price of \$9.00. Sale proceeds will go into the Department Fund to help defray operating expenses for the coming year.

In making the announcement of the Kidde arrangement, Chief Beach said, "This is a fine opportunity for our people to acquire a really dependable fire extinguisher way below list and help ease the Department's dependence on the tax rolls at the same time. On both counts I recommend the purchase of at least one Kompact by every household and business establishment in town."

According to the manufacturer, the Kompact is ideal for home, boat, camp, automobile and workshop fire protection. Made completely of corrosion-resistant materials and measuring only 14 inches in length, it features obvious, one-hand operation and an automatic, tamper-proof lock.

Recharge of the Kompact is simple and inexpensive. After use, the expended cylinder is unscrewed from the valve, discarded and replaced with a fresh one. The extinguisher is then ready for the next fire emergency. Spare cylinders may be purchased with the Kompact at \$3.95 each.

The Kompact's extinguishing agent, dry chemical, is non-toxic and harmless to humans, pets and plants. It is rated by Underwriters' Laboratories as having eight times the fire-killing power of carbon tetrachloride and twice that of carbon dioxide.

The Kompact is also approved by the U. S. Coast Guard and meets Interstate Commerce Commission safety regulations.

was presented a check for the U.F. from Pine Knob enterprises in the amount of \$5800. The check was presented by Leonard Jaross, president, and Al Kachin-terprises. The donation gave the U.F. a 10 per cent "head start" on their U.F. Drive. An additional \$1,555 in advanced gifts have already been contributed.

Reverend Alexander Stewart, speaker for the evening, told briefly the importance of community spirit in a drive such as the United Fund Drive.

Mrs. Virginia Loveland of the Pontiac United Fund staff, briefed the workers on the job they had to do. It was stressed that although many husbands give to the U.F. where they work, it is equally important for the housewife to give if possible.

The final speaker, Mrs. Carl Bradley, executive director Pontiac U.F., stressed the fact that the United States is the only country that sets aside a few weeks, each year to work for the betterment of their fellow man.

Mr. Foyd Vincent announced that the area schools were well under way in their campaign or funds for the U.F. Drive.

Introduced as the father of the Independence Township United Fund Drive, Merle Bennett, who spearheaded the advanced gifts,

"We have four separate insurance policies on our home, furnishings, and personal possessions, including a liability policy. I checked our policies with my neighbor who has a Homeowners Package Policy and found that he pays less in premiums and has more coverage than I have. Would I save money by buying a Homeowners Package Policy and canceling the policies I have now? Three of them expire soon, anyway."

GO JET-SMOOTH '63 CHEVROLET — IT'S EXCITING!

smooths bumps better than a bulldozer
If all roads were superhighways, Chevrolet's remarkably smooth and silent ride might be just another luxury. But as most town and country roads will demonstrate, this is one Chevrolet advantage that's mighty easy to get excited about. (The way those four deep-coil springs put the kibosh on bumps, you'd almost think Chevrolet was working for the highway commission.) The '63 Bel Airs, Biscaynes and Impalas are equally easy going on upkeep. Brakes are self-adjusting. New Delcotron generator s-t-r-e-t-c-h-e-s battery life. Even the rocket panels on the Body by Fisher are self-washing and ventilating to cut down on rust. Your dealer's waiting to tell you lots more.

In Uniform

Danny R. Moore, seaman, USN, son of Mr. and Mrs. Ted Moore of 6548 Northview, and Richard E. Price, fireman, U.S.N., son of James R. Price of Clarkston, are serving aboard the destroyer USS Barry, a unit of the recovery forces which the U.S. Navy and

U.S. Marine Corps assigned to the Atlantic Ocean area for the third manned orbital flight into space.

The organization of ships and air units, Task Force 140, were stationed in the Atlantic to locate and recover Astronaut Walter M. Schirra.

A similar organization, Task

Force 130, was on station in the Pacific Ocean, where the landing took place.

Boarding three ships at Long Beach, California, the marines stormed ashore 1,000 strong to end the exercise. It was the first of its kind at the base in two years.

Marine Lance Corporal Garry L. Bandy, son of Mr. and Mrs. Thomas C. Bandy of 5461 Oak Park Rd., Clarkston, took part in a surprise test to evaluate the ability of the First Battalion, First Marine Regiment, from September 16 to September 20 at Camp Pendleton, California.

The battalion, reinforced with artillery, reconnaissance, anti-tank, tank, amphibious tractors, and medical units, made an am-

phibious assault on Camp Pendleton's beaches.

Are The College Doors Beginning To Close?

By the year 1970 the number of students who wish to enter college is expected to double. Colleges will not be in a position to handle this anticipated increase unless they expand their present facilities. Construction of new colleges and universities as well as year round college programs may help to some degree, however, some colleges are beginning to feel the pressure already as evidenced by the changes in some college admission policies. High school grades are still the best indicators of college success; yet, there are many colleges in the State of Michigan who are asking for entrance examinations from all applicants regardless of grades received in high school. Several colleges have stated that all applicants who do not have a "B" average, in academic subjects only, must take the entrance exams. There are many colleges in Michigan which are as yet not crowded; but, your son or daughter may not be able to gain entrance into the college of his or her choice.

We believe the trends in college admittance policies are important issues and should be brought to your attention. Changes in college admittance policies may be brought to your attention. Changes in college admittance policies may change at any time. For the past three years articles have appeared in the Clarkston News and other newspapers and magazines, concerning this situation. Television and radio have also had programs which have been concerned with this problem. If you have any questions regarding college admission, please contact the high school counseling office, Maple 5-5841.

College is expensive and the cost is increasing each year. Although newspaper stories about the cost of college in the past few years have concentrated

on the increases in tuition, this represents only a part of the bill. Board and room are big items and since they are necessarily scaled to the rising cost of living, it is not always possible to forecast accurately what they will be.

Although averages are relatively meaningless, recent studies show some ranges that are indicative of the costs involved. The lower figures usually are for junior or municipal colleges, while the higher ones refer to private schools.

Tuition ranges from \$300 to \$1,200 a year. Room and board goes from \$400 to \$600 in state-supported schools to \$300 to \$1,000 in private schools.

Books and supplies cost anywhere from \$25 to \$200.

Fees go from \$15 to \$75, depending on the course of study. Laundry, entertainment, transportation, etc., average out from \$100 to \$1,000, depending on the student and whether he lives at home.

It would be pleasant to think that there won't be further increases, but every indication is that tuition will continue to rise. And the increases of the next decade will take place in tax-supported colleges as well as independent colleges.

Therefore, any planning that is done now for a prospective student who will be entering college five years from now or later should take almost inevitable increase into account.

To quote from "Higher Education Planning and Management Data 1959-60,"

"A combination of average tuition, room and board figures (is) \$710 for men and \$714 for women in public institutions and for non-resident students \$919 for men and \$923 for women—year of attendance at a public institution will cost an average of approximately \$1,425 for resident students and \$1,840 for non-resident students. For private institutions the average will be approximately \$2,435 for men and \$2,530 for women."

The average cost of attending college in Michigan for one year is \$1,500.

Averages show trends in col-

lege costs and not much more. In order to determine what planning is needed, the student and parents will have to make all the basic decisions about the type of college, he will attend, whether he will live at home or in a dormitory, the course of study he's embarking on, and the type of college atmosphere that would be the most meaningful to him.

On the basis of those decisions, the family can then find out the probable cost of several colleges and decide which one is possible for their child to attend. Perhaps some compromises will have to be made in order to be realistic.

Once the student has narrowed his college choice to two or three institutions, then the specific cost can be determined. The college bulletins are helpful. So are conversations with the high school counselors, college admissions officers and with students on the college campus.

An early, helpful step is to make a sample budget.

This will bring to light factors that go into costs as well as those that can help pay the bill.

Contact high school counselors for additional information in regard to college financing.

It's Time For ... EYE CARE

Dr. Newton K. Wesley
20/20 VISION

Contrary to popular opinion, 20/20 vision does not always mean good eyesight. 20/20 refers to central vision—the ability to see at 20 feet the normal letter which most people can see at that distance. One could have lost side vision and still have 20/20, so this does not give us the complete story of the eyes.

What about the muscles and how they function? Does each eye work well independently? How about the vision when the two eyes are teamed together? Do they work well? You will notice the optometrist or the ophthalmologist makes you see double when he examines your eyes. This is to determine how each eye works alone.

What about near vision? Do you see normally at near? What about the effect of close work on your eyes? Do you work with comfort and efficiency? Or do you have strain when you do close work?

The National Eye Research Foundation recommends an eye examination every six months. By observing this rule, we can be sure our eyes are getting the best care we can give them. If any disease is present, it may be checked in its early stages.

The ability to see is a rare and precious possession. See to it that you do not neglect it.

ALPHA DELTA KAPPA

Founders Day Banquet

On Thursday evening, October 4th, Devon Gables was the scene of the annual Founders' Day Banquet of Alpha Delta Kappa Honorary Teachers' Sorority. The group came into being in 1947 at St. Louis, Missouri. Rho Epsilon, Zeta Ki, and Alpha Lambda Chapters were represented.

Mrs. John Landon of Springfield, president of Epsilon Chapter, introduced the president of Rochester's Xi Chapter, Mrs. Irene Moss. She, in turn, presented Mrs. E. Cleo Wiley, Grand Vice-president of the North Central Region who brought greetings from the sorority's Grand Chapter.

Miss Margaret MacKenzie introduced the speaker of the evening, Mrs. Ruth Golden, first Michigan state president of Alpha Delta Kappa. Mrs. Golden, author of the recently published book *Improving Patterns of Language Usage*, talked about her trip to Italy, France, Switzerland, and Austria. The guests were also entertained with colorful 3-D pictures of Mrs. Golden's travels.

CLARKSTON EVENING EXTENSION MEETING

The regular meeting of the Clarkston Evening Extension Club was held Wednesday, October 3 at the Clarkston Community Center. Mrs. Chester reported on the council meeting she attended, while Mrs. McCrum reported on officers workshop, which was attended by six members: Mrs. Roger Thompson, sec. treas.; Mrs. Chester Adams and Mrs. Paul Kittridge, project leaders; Mrs. Arthur Kelley, reporter, historian; Mrs. Alfred Willockx, attended for the chairman; Mrs. Ronald Collins; and Mrs. Kenneth McCrum attended for the safety chairman, Mrs. George Mann.

The following safety tips were offered by Mrs. Adams and Mrs. McCrum: 1. You can sterilize a piece of an old sheet by laundering it, drying it in your dryer, then sealing it in a plastic bag. If you do not have a dryer, place the cloth in a 350 degree oven for one half hour. 2. Dial soap is better to use than mercurochrome because mercurochrome loses its strength.

Mrs. George Mann and Mrs. Mike Thayer served cider, doughnuts and coffee.

Ways To Kill Any Organization (taken from the American Junior Red Cross Journal, Feb. 1959.)

1. Don't attend meetings, but if you do, arrive late.
2. Be sure to leave before the meeting is closed.
3. Never have anything to say at the meeting—wait until you get outside.
4. When at the meeting want to do everything, then go home and do nothing.
5. The next day, find fault with the officers and other members.
6. Take no part in the organizations affairs.
7. Be sure to sit in the back, so you can talk freely to another member.
8. Get all the organization will give you, but don't give the or-

ganization anything.

9. Never ask anyone to join the organization.

10. At every opportunity threaten to resign and try to get others to.

11. Talk cooperation, but don't cooperate.

12. If asked to help, say you haven't time.

13. Never read anything pertaining to the organization.

14. Never accept an office—it is easier to criticize than to do things.

15. If appointed to a committee, never give any time or service to it.

16. If you receive a bill for dues, ignore it.

17. Don't do any more than you have to, and when the others willingly and unselfishly use their ability to help the good cause, along, then howl that the organization is run by a clique.

18. If you are a member of the organization, don't let anyone else know it.

meet Tempest '63...today!

**how's this for exploding the myth that cars
have to be expensive to look it! Tempest '63**

Maybe you can tell the difference between Pontiac's Tempest (especially that Le Mans) and the high-priced jobs. Besides having a 4 that acts like a V-8, Tempest sports a new 260-hp V-8* that acts like nothing you ever got your hands on before. And besides its beautiful balance, Tempest has Wide-Track this year. And self-adjusting brakes and a tachometer* and fetching style and all kinds of niceties that'll make your Tempest smoother and tougher. About all it doesn't have is a big fat price tag. Vive la difference! Pontiac Tempest

*Now We're Even
Demonstrating
Manure Spreaders!*

Yes, sir, we're not afraid of getting our hands dirty... nor our Case Spreader either! To prove it we'll come out and haul manure for you with a new Case Spreader. And we'll give you the "slam-bang" test spreader demonstration you've ever seen! Only a Case dealer DARES to make that offer—all at no charge.

We won't pull any punches. You can hook on to the Case Spreader yourself. Notice how easily it pulls... how fine it shreds... how evenly it spreads. Two things are sure: (1) you'll never have to "baby" this spreader, and (2) you'll never again have to spike-tooth new seedlings to break up manure chunks!

Call us! We'll head your way before you can say, "Case Spreaders!"

Man's dominion over everything that would alienate him from God, good, will be emphasized Sunday at Christian Science services.

Paul's healing ministry will be featured in the Bible readings. The Lesson-Sermon entitled "Are Sin, Disease, and Death Real?"

will include Paul's words to the Romans: "For I am persuaded, that neither death, nor life, nor powers, nor principalities, nor things to come, nor height, nor depth, nor any other creature, shall be able to separate us from the love of God, which is in Christ Jesus our Lord."

This correlative citation will be among those read from "Science and Health with Key

to the Scriptures" by Mary Baker Eddy (p. 303): "When the evidence before the material senses yielded to spiritual sense, the apostle declared that nothing could alienate him from God, from the sweet sense and presence of Life and Truth."

Witnesses To Attend Assembly

The Pontiac North congregation of Jehovah's Witnesses announce plans today for attending a three day assembly to be held at the Lamphere High School in Madison Heights, Michigan.

The meet scheduled for October 19-21 will bring together some 1500 Witnesses of Jehovah from 18 neighboring congregations. Among the 450 local residents attending will be the Robert Irvin Sr. family, the Charles Shear family, and the Larry O'Dell family.

"The purpose of these tri-annual assemblies", said Mr. Joseph LaBarge, presiding minister of the North Congregation, "will be to learn how we all can more effectively 'spread the Word of Life' to others".

WOLVES PULL OUT LAST SECOND VICTORY

On the opening kick off Clarenceville received the ball on their own 15 yard line and went all the way to score. With 21 seconds left to play in the first quarter, Clarkston's Dan Craven hit Ken Miskien for a 35 yard pass play to score. Clarenceville moved down to the Clarkston one foot line, but fumbled and

the wolves recovered. Clarkston's John Williams was hit hard on the last play before the half and left the game with a leg injury.

With 6 minutes and 40 seconds left to play in the third quarter Randy Armstrong went over for Clarkston's second TD, but failed to convert the extra point. Gary Gearhart found lots of running room and went around end to score. Gearhart's conversion was good and this left the Wolves trailing 14 to 13.

With only 37 seconds left in the game Clarkston scored on a pass play from Craven to Dale Calkins to give the Wolves their first victory of the season.

West Bloomfield is still rolling along on the top with Bloomfield Hills following along in their foot steps. Brighton came on strong and pushed Holly into the ground with a 35-19 win. West Bloomfield travels to Brighton this week and the Barons may be in for a surprise. This will be the game to see this week.

Clarkston plays its homecoming game this week. The Wolves have picked up a little strength in their victory last week but Holly has had the rough part of their schedule early in the season. Sorry its homecoming, but the broncos STAMPEDE.

THIS WEEK'S ACTION.

Letter To The Editor

(continued from front page)
out what is bad in any one religion, you're a bigot; if you try to follow the examples of your forefathers, you're behind times.

If you want someone to vote for your bill, you must vote for theirs whether you believe in it or not. You must give up your values, your convictions to get ahead. Any means justifies the end. This seems to be the rule not the exception.

It isn't a pretty picture, is it? Granted that we have always had some whose values were not good. Even in the Garden of Eden there was a devil.

At the present time higher education seems to be the goal for the youth of this nation. This is a fine thing if as children, they are taught true values and convictions at home, at church and at school.

What good is education if a person uses it to get ahead by any means? Having a degree does not mean that he is honest, that he is wise or that he has great knowledge. It does not mean that if he has knowledge, he is honest enough to use it wisely.

My premise then is this -- that children should be taught true values in the home, the church and the school.

Our children are the future leaders of the United States. They're the voters of tomorrow and tomorrow and tomorrow. How will they vote? Will they make deals to get the legislation they want or will they stand on their own convictions?

The P-TA stands for just such a premise.

It's so easy to find a good excuse for not attending PTA meetings. Parents say that they don't go because the teachers they want to see aren't there. Teachers wonder why they should go if the parents don't attend. It's sort of a vicious circle, but it doesn't need to be.

The P-TA stands for educating the parents so that the standards of home life can be raised through the programs that are presented. If a parent feels that he doesn't need to be educated, then perhaps he could help someone who is less fortunate by sharing his knowledge.

The P-TA raises money, not for the school, but for educating the parents. It conducts workshops so that even the least educated person can hold office. It's an association where all people are equal. Parents and teachers can associate on a common ground when the P-TA meets at the school.

People don't appreciate good things sometimes until they are deprived of them. A certain faction would deny a near-by town a high school P-TA. Is that what the parents really want? Will they be believed that there is one less meeting to attend? What goes next, the churches?

I believe that a united effort of parents and teachers can do much to give good values to our children. I believe we should work together to help them raise their standards and goals. I believe that united we stand and divided we fail. What do others believe?

EXCEPTIONAL CHILD

In the education of handicapped children, there are two concepts, fundamental to all education, which are so basic that they are frequently overlooked. The first of these is that public education is one of the inalienable rights of every child. This concept allows for no exceptions, even among the handicapped. The second is that handicapped children are essentially like so-called normal children. They are children first, and handicapped children second.

Any plans for the education of handicapped children must be based on recognition of both their basic needs as children and their special needs as handicapped children. Frequently, the special needs of these children are such that they can be met best with those services we term "special education."

Sound educational principles dictate that these special education services should be applied only when they are demanded by the needs of the child. The regular classroom is the best educational environment for any child to meet his basic needs. Achieving social and emotional maturity is not easy even for the child without disabilities; it is frequently very difficult for the handicapped child. It can be attained only through relationships which build mutual confidence and respect.
