Buy Lines for Good Shoppers

Spring is the time for the smelt run in Michigan advises the Consumer Marketing Information Agent, Mrs. Josephine Lawyer.

Whether you dip or buy smelt, they are best when fresh. Fresh smelt have a rich flavor attributed to an oil in the flesh. This flavor is lost when the oil evaporates.

Delicate flavor make smelt one of the choicest panfish. Smelt are usually rolled in flour, corn meal, or cracked meal and fried in plenty of fat. A mixture of one-fourth butter and three-fourths other shortening or bacon fat gives excellent flavor. Fry golden brown, about six minutes.

Most smelt are about seven to eight inches long and it takes ten or eleven to make a pound. Buy enough, for most people eat one pound or more. Speed and rapid handling are important whether cooking smelt immediately or freezing. Refrigerate smelt immediately after buying or catching.

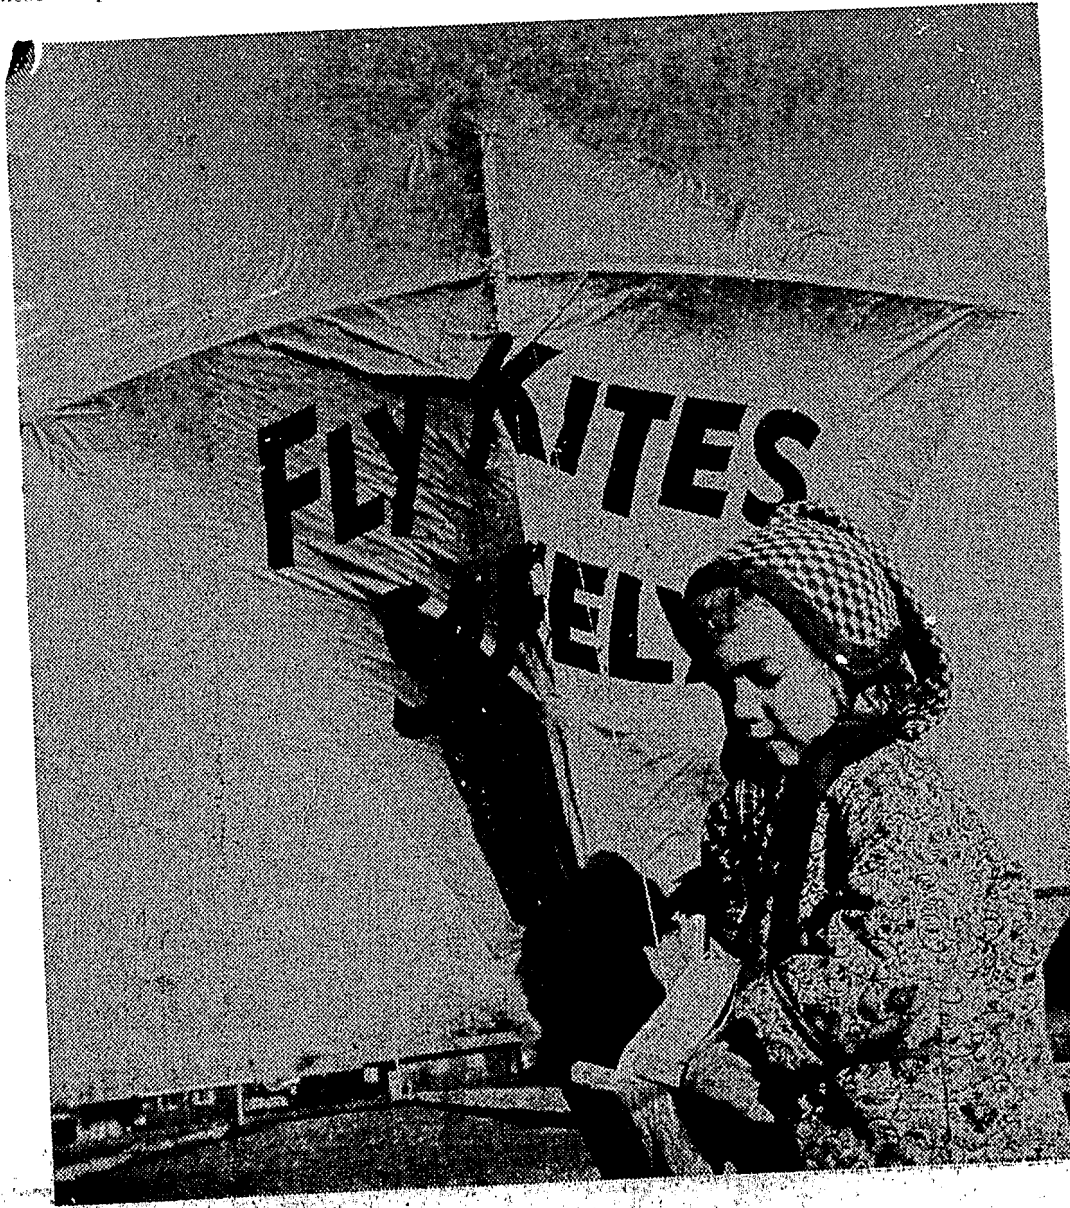

The 1958 smelt catch in Michigan was well over six million pounds and most streams entering Lakes Michigan and Huron produce them. Heaviest smelt runs are found around Escanaba and Manistique; Manistee and coastal areas of Benzie county; Charlevoix; and along Lake Huron from Presque Isle to Bay City when water temperatures rise to about 40 degrees F., usually mid-April to the first of May. Smelt runs are almost always at night as the fish move into tributary streams to spawn.

Watch Where That Kite Is Flying

The little girl with the great big kite is Collette Offer, four-year-old daughter of Mr. and Mrs. Edward V. Offer of 30107 Bentley, Livonia. Her father, a safety coordinator for Detroit Edison, uses the ten-foot-high kite to call attention to Edison's kite-safety program. The kite has been flown at Detroit area playfields to remind youngsters that kite-flying can be fun and safe to if these simple rules are followed:

- 1) Always fly kites in open fields - away from overhead wires and away from streets and roads where traffic is an additional hazard.
- 2) If you build your own kite, use wooden kite frame. Wood is a non-conductor of electricity.
- 3) Use "plain" kite-string. Avoid all tinsel wire or cord that has any appearance of being metallic.
- 4) If the kite catches on a pole or tree, do not risk an electric shock or a bad fall by trying to retrieve it.
- 5) Never fly your kite during an electrical storm.
- 6) When you're running to raise or keep it in the air, watch your step rather than your kite - it may save you a bad bump or tumble.

Offer says, "Use the proper materials and observe these rules and you'll keep the fun in and the danger out of flying kites."

QUESTIONS & ANSWERS

HOW DO YOU HANDLE A ROOM THAT'S HARD TO HEAT?
The quick and economical answer is to supplement the present system with flameless electric heat. It goes exactly where it's needed most, and independently, automatically adjusts for any degree of warmth. One of the modern units illustrated below can end your part-time shivering for good. Here's the simple way to turn a problem area into a cozy, liveable one.

WHAT'S THE BEST WAY TO HEAT A NEWLY FINISHED UPSTAIRS, BASEMENT, ENCLOSED PORCH OR BREEZE-WAY? Electric heat's the answer since it imposes no burden on your present heating system and assures real comfort at all times. You can keep the room cooler when it's not in use, then feel it warm up quickly at a touch of its independent thermostat. Several types of electric heating units are available, all easily installed at mini-

mum cost and with minimum disruption of the household. You might also consider a room heat pump. This one unit, installed in a window or wall, gives you winter heating plus summer cooling.

WHAT IF YOU'D LIKE TO CONVERT THE WHOLE HOUSE TO MODERN FLAMELESS HEATING? Once again electric heat comes to the rescue. And every room will be under separate heating control — readily adjustable for the comfort of the people who are in it, when they are in it. You ought also to consider the ultimate in modern climate control—a central electric heat pump for both winter heating and summer air conditioning. Often existing air ducts can be the distribution system for a heat pump. In any case, good insulation, plus storm doors and windows, is recommended.

Guidance Corner
★ ★

by Terry Thomas

In the last Guidance Corner article we discussed the seven major responsibilities of a high school guidance program. Today we are going to discuss the vocational information area.

Let us begin by saying that it is not our objective to pinpoint a career choice for every student that attends Clarkston High School. Our objective is two-fold. One to make available to each student information regarding entry jobs in the local area, information about the present labor market and future trends. Our second objective is to have each student evaluate himself in terms of his academic strengths and weaknesses. To provide each student with the opportunity to learn more about his own interests and abilities and to evaluate them in terms vocational requirements.

A Guidance Department can provide occupational information in a variety of ways. Clarkston High School provides vocational information by the following methods.

1. Vocational Guidance Classes All ninth grade students must take a semester course in vocational guidance. There is also a semester course offered during the senior year in which job application forms are completed, occupational booklets are read and review of technical schools, apprenticeships programs and military information is presented.

2. Counseling Interviews A student may visit with a counselor at any time for occupational information or for assistance in formulating vocational plans. Each student in the eleventh grade is called to the counselors office for one interview dealing with vocational plans. Each senior has at least two vocational planning interviews.

3. Classroom Information Each teacher in Clarkston High School has his own vocational file. In the classrooms of business education, industrial arts, home economics and art, a considerable amount of vocational information is posted on the bulletin boards. Each teacher keeps a file including information on advanced training schools and occupations dealing with his particular subject matter area.

4. Extra-Curricular Activities Activities which are sponsored by the school have considerable vocational value for students who are interested in particular occupations. The following are some examples of activities that are available to any student in Clarkston High School. These organizations meet after the regular school day.

1. Future Teachers Club, The Medics, The Science Club, The Art Club, The Future Homemaking Club, Counselors Secretaries, Forensics and Debate, Chorus, Band, Social Studies Club, Publications, Audiovisual Aids, Library Assistants, Communications Club, Dramatics.

5. Tape Recordings Many recordings are available to any student or parent who wishes information on a variety of occupations. They are played in the classrooms when appropriate or may be borrowed under the Guidance Library Program. The following recordings are available.

1. Discussion with graduates of Clarkston High School who are now freshmen in college. Discussion involves study habits, scheduling of one's time, use of the library, homework. Differences between high school and colleges, in regard to class room routine, regarding the grading procedures, English Themes, etc.

2. Dentistry as a career, Dr. Harold Ford.
3. Nursing as a career.
4. Mortuary Science as a Career,

Mr. Lou Wint.
5. Insurance as a Career, Mr. Gus Birtas.
6. Interview with Miss Matti-grace Sharpe who is Assistant Director of Research and Womens Employment for the Detroit Edison Company.
7. Careers in Saleswork, Walter Norberg, manager of Kresge Store.
8. Opportunites in Barbering, Frank Ronk, owner of local barber shop.

9. Working as a Service Station Attendant, Jim Fuller, operator of local Standard Station.

10. Telephone Operators and their jobs, Mrs. Melda Terry, Michigan Bell.

11. Jobs in Carpentering, Mr. Koester.

12. Beauty Culture, Mrs. Weeks.

13. Pharmacy, Keith Hallman.

14. Bank Teller, Duane Schultz.

15. Portrait Photography, Harold Sayles.

16. Baking, Lavern Boutell.

6. Films and Filmstrips, A variety of occupational films and filmstrips are shown in classrooms throughout the school year.

7. Guest Speakers Resource persons are invited to speak to the students in regard to their particular occupation throughout the school year.

8. Library Occupational File and Books A complete vocational file involving thousands of occupations is available to every student in Clarkston High School. The library also keeps a file containing information on every school in the state of Michigan. This includes business schools, colleges, technical schools, night schools, nursing schools, barber colleges, etc.

9. Field Trips These trips are arranged annually by many classroom teachers which provide the student with the opportunity of observing occupations and training programs in actual working conditions.

10. Displays The counselors have a display case in which they place information involving employment opportunities, trends of employments, and unemployment figures, job getting techniques, etc.

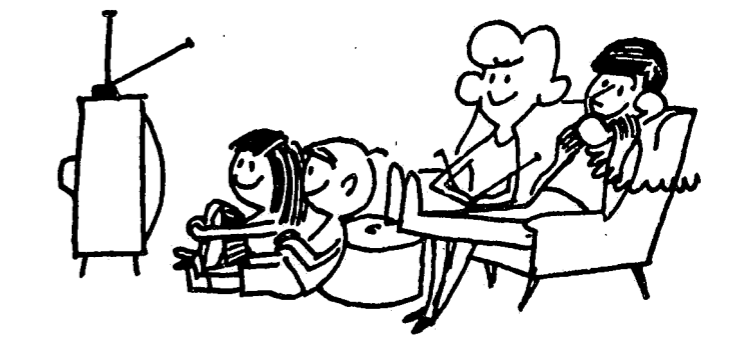

The Guidance Department of Clarkston High School is doing its very best to provide occupational information to the student. We feel, however, that there is always room for improvement. If any members of the community has suggestions or ideas which will improve this office of our guidance program please contact any of the high school counselors.

UNLIKE MOST APPLIANCES, your telephone will be repaired whenever necessary without extra charge to you. This applies, with normal use, even to complete replacement. This assurance, always in force, is just one reason why telephone service is one of your biggest bargains. Should you have any telephone service problem, simply call Repair Service for prompt, courteous attention.

LIVING'S AS EASY AS 1-2-3... with handy extension phones to save trudging, time and temper. A space-saving wall phone in the kitchen, for instance, makes Mom's chores lighter, her days brighter. Or a lovely Princess telephone in the bedroom gives privacy by day, protection at night. And the whole family enjoys added convenience with a step-saving family-room extension. Ordering an extension telephone is as easy as 1-2-3, too! Just call our Business Office, or ask the man on the telephone truck.

THOUSANDS OF IDEAS for ways telephone people might do their jobs better! Where'd they come from? From Michigan Bell employees themselves, who submit their ideas through our Employee Suggestion Plan. Since the Plan was introduced sixteen years ago, 7,000 ideas have been accepted and put into use. In 1962 alone, 500 operating improvements resulted from employee suggestions, ranging from such a simple thing as an improved wire clamp to a major improvement in pole-setting methods. These practical ideas help us bring you the best possible service at the lowest possible cost.

From Paris For Easter

Mrs. Robert Sergent

Flying by jet from Paris, Mrs. Robert Sergent arrived at Detroit Metropolitan Airport last Friday in time to be with her family, the Lester Westlakes of Jossman Road, for a family gathering on Easter Sunday.

Mrs. Sergent, the former Carolyn Westlake, looks chic and slim and, if possible, even younger than when she graduated from Brandon High School in 1959. She and her husband, Robert Sergent, A/1c of Toul Rosieres Air Force Base, live off

base in the village of Thiaucourt, France, just three hours from Paris. Carolyn said that the jet trip from Paris to New York took 7½ hours and that is was fifty-six minutes from New York to Detroit and then two hours home to Ortonville where she surprised her sisters who weren't informed that she was coming. She thought that her trip to France in 1960 on the steamship Flandre was a little more pleasurable because she could move about but she is very happy to be home to visit her family and her friends. Mrs. Sergent expects to return by jet to Paris on the 19th of May. He husband will have at least another year at his present assignment.

Old Settler Passes

Ortonville mourned the passing on Monday, April 15th, of Lloyd Algoe, 78, who was born and lived most of his life on the family armstead on Sawmill Lake Road, Brandon Township. It was Mr. Algoe's grandfather who surveyed the townsite of Ortonville.

Fifty-two years ago on January 12th Lloyd Algoe and Cora Miller were married at Goodrich. They worked the farm on Sawmill Lake Road until a few years ago when they sold the property, including the lake bearing their name, to the Conservation Department for a recreation area, and retired to 4458 Irish Road, Davison.

Mr. Algoe had been ill for the past two years. The last two weeks before his death he was in the Genesee Memorial Hospital.

He was a past master and life member of Ortonville Lodge No. 339 F & A. M.; a life member of Chapter No. 205 Order of the Eastern Star; a member of the Goodrich Grange and the Genesee County Farm Bureau.

Surviving are his wife, Cora, and daughter, Mrs. Leona Hutchings, who was recently elected Trustee of Brandon Township.

Services will be at 2 P.M., Thursday, April 18th, at C. F. Sherman Funeral Home, Ortonville, Reverend Muri Nichols officiating. Graveside service and burial will follow at the Ortonville Cemetery under the auspices of Ortonville Lodge No. 339 F & A.M.

Groveland Twp. Board Meets To Visit United Nations

Mr. William Scramlin, whose election is still to be confirmed by a recount of the votes, presided over his first Board Meeting last week.

It was moved to continue to hold the regular township board meeting on the first Monday of each month at 8:00 p.m. at the township hall.

The Treasurer will continue to deposit monies in Genesee Merchants Bank of Ortonville and Citizen's Commercial Savings Bank at Holly.

It was moved to pay all bills and salaries only at regular Board meetings. The Board will discontinue the practice of paying a Constable to attend the Board meetings.

The business of appointing a Liquor Inspector was tabled until the next meeting as Dale Hitchcock was absent because of illness.

A six-drawer filing cabinet is to be purchased for the use of the Township Clerk, the treasurer to use the filing cabinet now being used by the clerk.

A motion was made to allot Olive Branch and Mt. Bethel cemeteries each \$100.

The Board tabled the paying of dues to the Michigan Township Association until after the election recount.

Three young men Barry Young, Paul Pangus and James Schank, will go as delegates from the Ortonville and Seymour Lake Methodist Churches to the United Nations in New York City, traveling with fifty other youth from this Conference.

Barry and Paul (president of (MYF) will represent the Ortonville Church. James is sponsored by Seymour Lake.

They will leave by train from the Michigan Central Station in Detroit on Wednesday, April 17th, and will return Sunday, April 21st.

While in New York they will spend the most of their time visiting the United Nations but there will be time for other sight-seeing.

Barry Young

Area Resident Dies

Floyd W. Marshall, age 69, of 805 East Glass Road, passed away April 9, 1963. Services were held at 1 P.M. on April 12th at the Assembly of God Church, Goodrich, Michigan, with interment in the White Chapel Cemetery.

Surviving besides his dear wife, Mabel, are his son, Leo Wray, sons Wendell and Willis Marshall; brother Kenneth Marshall; and sisters, Mrs. Estella Spencer and Mrs. Clara Wright.

Brandon Recont's Diamond Corner

A recount of the votes for the office of Brandon Township Clerk was held Saturday, April 13th, beginning at 1:30 P.M.

In an atmosphere of quiet tension, the Board of Canvassers confirmed the election of Democrat, Lucille Saunders. Their tally showed a total of 424 votes for Galen Whipple and 437 for Lucille Saunders.

The Board consisted of caller Marvin Featherston; Mary Lou Sutton and Mary Sutton counting for Lucille Saunders and Betty Owen and Bernadine Miller counting for Galen Whipple. Alex Solley and Lucille Saunders were watchers.

Only one ballot presented a question.

Mr. Whipple took his defeat gracefully saying that he would be glad to meet with Mrs. Saunders to explain any of the bookkeeping procedures about which there was any question.

Starting on a sour note, Brandon dropped their first baseball game of the season (non-league) to Imlay City with the score 1-0.

However, all was not so dim as Paul Pangus turned in a fine four-hit pitching performance for the losing Black Hawks. Paul struck out ten Imlay City batsmen and gave out only four walks. Several times Paul succeeded in pitching his way out of trouble. Box Score: Brandon, 0 runs, 3 hits, 3 errors. Imlay City, 1 run, four hits, 1 error.

Brandon will play Imlay City at home on the 23rd at 4 p.m. The game will be played at Hawk Field north of the football field. On the 26th the first league game with Linden will be played at Ortonville.

Because of the rising cost of baseball equipment and official's charges, the Athletic department will charge a nominal fee for attendance at baseball games. Passing the hat at games has not proved successful. Students in grades 7-12 will pay 25c. Adults 50c. Children below seventh grade free. A flat rate of \$1.00 per car will be charged but a car leaving the parking lot must pay to re-enter.

The baseball players would appreciate your support as an audience stimulates them to play their very best. Reporter, Mrs. Clyde Hartwig.

GROVELAND HILLS EXTENSION

Mrs. Clyde Hartwig and Mrs. Jack Spencer of Groveland Road were co-hostesses last Wednesday when the Groveland Hills Extension Club met at the home of Mrs. Hartwig.

Officers elected for the coming year are: Chairman, Mrs. Dale Burt; Secretary-treasurer Mrs. Joseph Roman; Safety Chairman, Mrs. Jack Spencer; Leaders, Mrs. Rita MacDiarmid and Mrs. Lester Westlake; Reporter, Mrs. Clyde Hartwig.

Personality Peeps

by Grace Kohn and Emeline Hamilton

Billy Graham commands our attention to-day. From the above specimen we say he is one who senses the needs of others and would appeal to their emotions. A natural crusader, he directs his efforts toward humanities.

Dear Friend,
As a result of our recent tel... have fallen far short of our... urging you who...

He is loyal to his ideals; he would fight like a "soldier of the crusades" in the days of yore. However, direct and cultural as he is, he will employ words rather than the sword. Our writer is visionary and optimistic. He dreams of the time of a better world. He is deeply hurt by those who might ridicule this goal, but is determined to make it a reality. He plants the seeds of christian understanding deep in the minds of men, and expects to reap a harvest of souls. Further he is confident of the results that will emerge from his efforts. This crusader will time his crusades well because of an "inner light" or over-soul. This intuition (truths that come unbidden) was exploited by Emerson and few are heir to it in the manner in which Billy Graham is. For a beautiful Ostrich plum pen and your "Candid Shot" please enclose \$1.00 and send a specimen of your handwriting to this newspaper.

Are you interested in the fate of "Bozo", the appealing little pup whose owner we tried to find last week? Well, so are we! After keeping him for over a week, calling him and advertising in the paper, here is how things stand. Claude and Beth Owen thought he might be theirs and came out to look, but he wasn't the "Pal" they have lost. Several other persons who answered the ad were also disappointed. We then gave him someone who promised to find a home for him - and did and then the real owners heard of our search and came for him. We do hope that they are successful in getting him back because he is such a charming little scamp.

The California Test of Mental Maturity has been given to grades 7 and 9 at Barnard School within the past two weeks. Immediately after Easter vacation the Differential Aptitude test Battery will be given to the eighth grade.

The Methodist Vacation Church School Institute will be held Thursday, April 25th from 9:30 A.M. to 3:30 P.M. All persons who desire to teach vacation bible school are welcome to attend. Bring a sack lunch.

We were fortunate in having our mother and father, Mr. and Mrs. James Sweet of Traverse City and our sister and family from St. Clair Shores all together for Easter Sunday for the first time in many years.

The Brandon Junior Class members are working like beavers this spring to earn money so they can relax a little during their senior

year. They have been selling candy, washing cars, selling baked goods and are now making plans for the Prom which they say will be THE social event of the year.

Mr. and Mrs. George Gray of Croup Road entertained their daughters' and families for Easter Sunday dinner.

Mr. William Buckingham, fire chief of Brandon Township, reports that although they have had several calls to grass fires this year, the number of runs has been less than last year at this time.

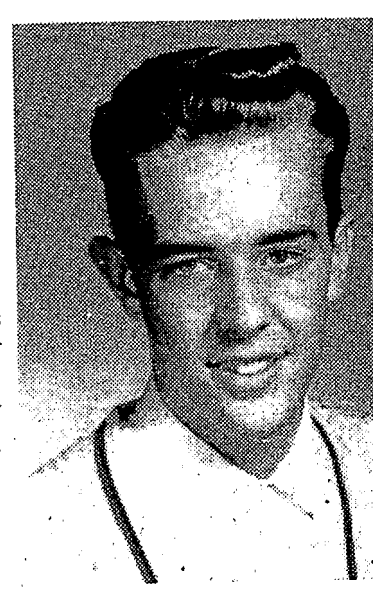

While nearly everyone is enjoying the warm, sunny spring weather, the farmers are hoping for rain for the oats (tame) they have sown.

Alex Solley says that he will vote for us for anything for which we want to run in 1965 but that there won't be a township election then which we should have known if we had paid more attention to our newspaper reading and not so much attention to newspaper writing.

Maxine (Brandon Laundromat) offers as a rebuttal to last week's item that apparently her customers' husbands like their wives chubby because the women drink the pop and eat the caramel corn but they don't use the vibrator.

Neighbors of Mrs. Fred Hauer of Jossman Road called to have coffee and cake with her to honor her birthday which was on April 15th.
