Among the Clarkston Jaycees' helping install new buoys in Deer Lake to mark off the safe swimming area were (from left): Don Cooper, Lew Wint, Kelly Burnette, Chuck Curry and Chuck Robertson. Also

shown is the phone which has been placed on the beach especially for emergency calls, through the efforts of the Jaycees'.

Jaycee's Continue Support of Water Safety Program

The Clarkston Area Jaycees again this year under the direction of Charles Robertson have started their water safety program at the Deer Lake swimming area.

The local Junior Chamber of Commerce has purchased 13 water buoys at a cost of over \$200 which are being used to mark the swimming area to the many boaters and water skiers that are using Deer Lake.

Jaycees were assisted by Sgt. Robert Newman of the Oakland County Sheriff's Department Safety Division in the placement of the buoys. A permit has also been requested from the State of Michigan Boating Control Committee which, if granted, will make any violations of the swimming area punishable by law.

Local Jaycees are very disappointed because in the short time that the buoys have been in several have already been broken and destroyed. Local residents are urged to report people that are seen tampering with these safety buoys which have been placed for the benefit of all swimmers.

The telephone has also been connected again and will remain at the beach until late fall. The phone, which is paid for by the Jaycees, may be used without depositing a dime to reach the operator in case of an emergency.

Father Presents Son with Diploma

Mrs. Jessie Weber lived one of her proudest moments when she watched her son, Mr. R. A. Weber, member of the Clarkston School Board, present her grandson, Thomas Weber, with his high school diploma at the Clarkston High graduating exercises.

Mrs. Weber was one of the first to graduate from the new Clarkston

High School, (now the Community Center) in 1912. She was president of her class as was her son, when he graduated.

The weekend was filled with activity for Mrs. Weber. Saturday evening her grandson Jim, and his wife, gave his father, R. A. Weber, a birthday party. Sunday the Webers held "open house" for their son, Tom, and Monday evening, graduation exercises.

Club Meets

On June 13 the Clinton Valley Barracks 2803 had a most delightful meeting at the home of Mr. and Mrs. Harold Rioux on the Davidsburg Rd. Weather conditions were most pleasant, hospitality above reproach, and the pot luck dinner provided by the Sisters of the Auxiliary was a veritable banquet. This first of a member of outside general meeting, is a forerunner of several more to follow. The next to be at the home of Mr. and Mrs. Bruce Green, on Bald Eagle Lake.

Movies were taken by the barracks commander as well as the vice commander. The line up of cars on the grounds was inspiring, no less than 18. Shows the membership has a lot in common by such a turnout, in fact the most progressive in our district.

Local Teenagers to Attend Wolverine Boy's State in Lansing

Two high school boys will represent Clarkston at the 1964 session of Wolverine Boy's State, sponsored by the American Legion of Michigan, Commander John Lynch of post 63 announced today.

Named to participate in this annual American Legion workshop on the organization and operation of state government are Rick Funk and Ron Lippert, sons of Mr. and Mrs. Richard Funk of 6184 Cramlane and Mr. and Mrs. Harold Lippert of 5385 Drayton Road.

The 1964 Wolverine Boy's State will be in session from June 18 to June 25 at Michigan State University. At the 1964 Wolverine Boy's State the Clarkston youths will participate in the organization of political parties, campaigns, elections and the enactment and enforcement of their own laws within a mythical 51st state.

Boys State is one of the outstanding youth training programs of the American Legion, Commander Lynch said. Not only do the youths learn the functions of government, but also they see the importance of the role a good citizen plays in discharging his citizenship responsibilities. They soon discover how a good government depends upon the active interest of every citizen.

Commander Lynch expressed his appreciation to the members of Campbell Richmond Post 63 for the sponsorship of Rick and Ron to Boys State.

Rec. program Under Way

Recreation activities are moving along this week at Clarkston Elementary under the supervision of Kathy DeLange and Dave Coulter.

Dave is busy with the older participants on the baseball diamond and other sports. Kathy is working with the younger groups playing games, reading stories, and helping with craft projects or "safety" this week's theme. The special activities Kathy and Dave have planned are making safety posters all week, a bike check today by a policeman and a bike rodeo tomorrow downtown and then back to the school so all can test their cycling skills.

Kathy and Dave are both busy registering participants, getting sign-ups for the softball leagues, and encouraging all school age children to join the activities and fun.

Any school age child is welcome to Clarkston, Pine Knob, or Andersonville any week day from 8:30 to 12:30. There is no charge as this is sponsored by the township.

After visiting the three playgrounds Tuesday I can say all is going well and everyone who comes is having a good time.

The second two weeks will be on the par 3 course. The final two weeks participants will play on the regulation nine hole course.

The program will be concluded with a tournament open to all participants.

An organizational meeting will be held June 20, at 1:00 P.M., at the Clarkston Junior High School.

Letter to the Editor

My sincere thanks and appreciation to the whole organization and especially Keith Hallman, Lucille Kroninger, Mona Hart, for a very well executed Polio Clinic. It gave me, and I'm sure the whole community, a feeling of pride and security knowing Clarkston is capable of such an accomplishment.

'My Three Angels' Scheduled for This Week-end

Shown during rehearsal of the Clarkston Village Players' coming production, "My Three Angels" are (from left) Harry Fahrner, John Witherup and Walter

Forbes. Curtain time will be 8:30 p.m. this Friday and Saturday in the Little Theatre.

The Clarkston Village Players invite you to be a member of the audience on June 19 and 20, 1964 at 8:30 P.M. in the Clarkston High School Little Theatre to witness MY THREE ANGELS by Sam and Bella Spewack. Our motto is "leave 'em laughing" and this we guarantee to do. For those who laugh until they cry, we suggest an extra

supply of handkerchiefs. This three act comedy takes place in sultry French Guinea and centers around the general store at the prison compound. Felix Ducotel haphazardly runs the store, aided by wife Emille and daughter Marie Louise. Uncle Henri and nephew Paul arrive, the handsome Lieutenant enters the scene and all are unwittingly

managed by three amiable, but mischievous convicts, even Ruttery Mme. Parole.

The cast includes Harry Fahrner, Janet Rose, Walt Forbes, Lewis Wint, Billie Crowley, John Witherup, Pete Rose, Marie Lutz, Carl Wampfler and Vince Lutz. Tickets are available at the door.

P.M. performance on the 4th, or the 2:00 P.M. performance on Sunday, the 5th of July.

The tickets are very reasonable for a circus of this type and either

adult or children's tickets may be purchased at Ronk's Barber Shop or from any fireman.

How to be smarter than your wife
(on the subject of Savings Bonds)

Of course, there's no question about who's smarter at your house on most subjects. But to remove any doubt as to who knows more about U. S. Savings Bonds, the Treasury Department presents this little quiz. You take it first so you'll know all the answers and then pop it on your spouse. Great for the morale.

1. A Series E Savings Bond reaches maturity in:
 5 years 7 1/2 years 10 years
2. The money you earn from Savings Bonds is exempt from state and local income taxes.
 true false
3. You have to be an American to buy U. S. Savings Bonds.
 true false
4. Americans owned more Savings Bonds in:
 1943 1953 1963
5. Uncle Sam will give you a new Bond free if:
 You accidentally toss it in the washing machine
 The neighbor's dog swallows it whole
 A thief steals it
6. It's hard to redeem a Savings Bond.
 true false
7. A Bond that costs \$18.75 will:
 Grow to \$25 and stop
 Keep on growing if you don't cash it in
8. You can have somebody else buy your Bonds for you.
 true false

ANSWERS

1. 7 1/2 years is correct.
2. True. What's more, federal tax on E Bond interest may be deferred until the Bond is redeemed.
3. Generally speaking, true. You must be either a resident; a citizen living abroad; or an employee of the U.S., military or civilian.
4. In spite of the fact that Bond-buying was nearly universal during the war years, the correct answer is 1963.
5. You're right no matter which answer you checked.
6. False. Any bank will redeem your E Bond anytime after the two-months' holding period.
7. A Series E Bond will keep growing for 10 years past maturity. Extension is automatic.
8. True. A perfect example is the Payroll Savings Plan. You can buy Bonds for other people, too. In fact, they make excellent gifts.

Keep freedom in your future with U.S. SAVINGS BONDS

GOVERNOR ROMNEY REPORTS

Once again, it's high school commencement time in Michigan and before the next few weeks are gone, some 110,000 Michigan young people will have walked across their high school auditoriums for the last time.

Graduation from high school is one of life's most exciting events. The good times shared, the memories, the friendships formed during high school, all come flooding back to mind when the proud graduate accepts his diploma.

When I received my diploma from a high school in Salt Lake City, Utah, I felt much like you must feel at facing a somewhat uncharted future.

Because I couldn't possibly attend even a small number of all the graduation exercises that are taking place in Michigan this June, I would like to take this occasion to extend by sincere congratulations and best wishes for success to each graduate receiving a diploma this month.

Your commencement speaker will probably point out to you the world you are entering. You will be impressed with the fact that it is a rapidly changing world, a world of promise and also a world of hidden pitfalls.

As governor of your state of Michigan, let me add a few words to what you have heard already.

You graduates have reached an important first goal. Many of your earlier classmates have not joined you in reaching that goal. The high school drop-out rate is still astonishingly high: about 1 of every 4 students fails to complete the 4 year high school program.

I would urge you, the class of 1964, to continue your education. Approximately 35% of high school graduates will go on to college and another 8% will continue some kind of post-high school training. I wish we could raise these percentages even higher.

Learn as much as you can, as best you can, in college, on the job, in trade schools or in extension courses. Retain the knowledge you have; this cannot be taken from you. As you continue to learn and use the knowledge already gained, you will be ready to take your place in society as forthright leaders and as responsible adults and concerned citizens.

Don't be afraid to confront things head-on. Face the difficult with confidence and courage. Develop your talents and abilities to the full. The tragedy of wasted energy and untapped talent is a tragedy America cannot afford.

Many of you are already planning your careers. Money or great wealth do not mean success. To succeed, you do need drive and

initiative; you do need a will and a desire to succeed. The important thing is to do the job you face as well as possible.

Sergeant Shriver, as director of the Peace Corps has said: "The only thing I ever wanted to be was the best at anything I got into".

When the door to opportunity is open, even a crack, don't be afraid to push it all the way open so that you may walk through. But first you must earn the right to walk through that door.

It is popular to say that the hope of America lies in its youth. But I want to add something else: To be leaders in your state and community and even the nation, you must work at it constantly. You cannot afford to lag in the fast-paced world we live in. You cannot afford to get by with the minimum effort.

You are a tremendous force for good — a force for good. Your role in keeping America strong is already being set for you.

Have faith in your country and in this nation's institutions. As has been said, "youth without faith is a day without sun."

Decisions will confront you more rapidly now. Some will be very hard to make. Your earlier education and training should have prepared you to make some of these decisions more easily. You face an age of decision.

Where are you going? Your high school education is a valuable tool. But job competition is keen and tomorrow even more training and education will be required. You should equip yourself to face a competitive world.

Now, as you enter college or join the work force, or start making your own homes, I urge you to participate fully in helping to keep America strong. Your citizenship rights are a precious commodity.

In Uniform

James J. Zimmerman, 22, son of Mr. and Mrs. Frank J. Zimmerman of 12040 Big Lake Rd., Davisburg, has begun basic training at the Naval Training Center, Great Lakes Ill.

The nine-week training includes naval orientation, history and organization, seamanship, ordnance and gunnery, military drill, first aid and survival.

During the training recruits receive tests and interviews which determine their future assignment in the Navy. Upon completing the program they are assigned to service schools for technical training or to ships and stations for on-the-job training in a Navy rating specialty.

Naval training produces the power in seapower by supplying qualified personnel to man the ships, planes and shore stations of today's Navy.

Marine Lance Corporal Larry W. Bedford, son of Mrs. Rex J. Van Dewater of 5517 Rowley Dr., Waterford, is participating in "Lock-on" training as a member of the First Marine Division's Second Battalion, Fifth Regiment, Camp Pendleton, Calif.

"Lock-on" is the name given a six-week period of intensive training.

Have fun and enjoy your youth. Work hard at your career. Do the best job possible at all times and you will be rewarded for your efforts. Class of 1964, Michigan salutes you.

Watch for Child Killers

Be careful with pesticides, especially around children. But don't overlook the 1,000 other dangerous chemicals that have been available around the home long before DDT and other sprays came on the market.

Pesticides rank well below such potent "killers" as aspirin, bleach, disinfectants, certain patent medicines, drain cleaners, kerosene and others. Total deaths from pesticides have been running between 80 to 100 a year — all from improper application or handling of compounds containing insecticides.

Nose of these deaths can be attributed to the consumption of pesticide-contaminated food.

Extreme care should be taken with all poisons, especially those that are so familiar that some folks forget their danger.

The Michigan Department of Health says most of injury or death cases among children coming in contact with pesticides can be avoided simply by keeping the chemicals under lock and key. Care should also be taken to keep children out of reach of the poisons while being used, and empty containers should be disposed of safely.

Gordon Guyer, chairman of Michigan State University's entomology department, adds this note: "Research has virtually eliminated the danger of residues from correctly applied pesticides. About \$2 million is spent screening each material to make sure it's safe before it is used. Less than one out of every 2,000 insecticides that are ever developed ever reaches the market."

But all of this effort is wasted if the farmer or homeowner is not careful in his use of these chemicals.

Telephone Lines

By CHARLES B. WOODHEAD, Mgr.

IF YOUR PHONE could talk, it might have a bit of a Southern accent! For one important part of most phones today is a small fluffy ball of cotton. The cotton is tucked into the hollow part of the hand-set, to prevent vibrations and echoes from the mouthpiece reaching the earpiece. This tiny addition contributes greatly to the amazing clarity with which today's phones transmit voices across town or over thousands of miles with equal ease.

"WE'RE ON OUR WAY!"

Planning a trip? Before you pack up, pick up the phone and let folks know when to expect you. You'll avoid the disappointment of finding them away from home when you arrive. And of course it's equally important to phone ahead when a hotel or motel is your destination. And when you arrive, why not phone the folks at home? They'll be glad to hear you arrived safely. It doesn't cost much to keep in touch by Long Distance—use it often.

Let's Go Fishing!
BY BOB BREWSTER

HOW NOT TO CATCH A FISHERMAN

When man catches fish, that's fun. But when man catches man, that's painful.

While the number of injuries caused by errant fishing lures and their needle sharp bars is not great, the possibility of trouble is always present.

As a reminder, Mercury outboard fishing experts encourage anglers to observe a few simple rules that may prevent a trip to the physician.

When fishing in a boat, always cast at right angles to it. Never whip your rod sideways. If you do, your partner may suffer the consequences.

Don't leave plugs lying around on seats. Keep them in the tackle box with the lid closed. The anguish of a posterior dumped into an open box is most frightful.

Unless you've mastered the trick of lifting a bass by the lower lip, never grab a fish with a plug in its mouth. Either hoist it aboard with the line or use a landing net.

If your lure gets hung up on a tree or bush, don't try to yank it loose. It might come shooting back like a deadly missile.

Instead, jiggle it gently. If that fails, move the boat over to where you can free it by hand.

Finally, study the habits of your companion. If he's safety conscious and thoughtful, cherish him highly and return the courtesy. But if he's not, you may be wise to find yourself another partner.

Hooked, Mercury reminds, are intended for fish, not people. Let's keep it that way.
