**FIRST CHURCH OF CHRIST
SCIENTIST**
Oxford, Michigan

The spiritual demands of "Sacra-
ment" will be brought out in the
communion service to be held this
Sunday at all Christian Science
branch churches and societies.
Bible verses to be considered in-
clude the "new commandment"
given by Jesus: "as I have loved
you, that ye also love one another"
(John 13).

Related passages from the Chris-
tian Science textbook will speak
of Jesus' complete obedience to
God's will: "This is the new un-
derstanding of spiritual Love. It
gives all for Christ, or Truth. It
blesses its enemies, heals the sick,
casts out error, raises the dead
from trespasses and sin, and
preaches the gospel to the poor,
the meek in heart" (Science and
Health with Key to the Scriptures
by Mary Baker Eddy, p. 33).

8:30 and 11:00
Nursery is provided.
Sunday School 9:45

News Notes from Clarkston High

John Merkel

An exhibition of the talent pos-
sessed by some of the students at
the High School will be presented in
a few weeks.

In preparation, many students are
already rehearsing the acts they're
going to present during the try-outs
to be held next Monday.

The acts vary widely. Some stu-
dents will be singing, some a rou-
tine of dancing and a few enter-
prising students will put on an or-
iginal.

Rumor has it that a few teachers
will also put on a skit, even better
than the ones given in previous
years.

This year's "Talent Show" should
provide entertainment to suit the
taste of anyone who cares to come
and enjoy it.

For the best part of this school
year, several students have had
to share lockers with other students.

Lately, however, there has been
evidence that this congection will
not last much longer.

Two rows of new lockers are be-
ing installed down at the far end
of the building.

One row has been completely
installed and the other is still in
its first stages.

No students have been transferred
to the new lockers as yet, but it
is believed that they will be trans-
ferred soon after the second row is
completed.

The cast for "My Fair Lady",
is going to be announced soon.
Everyone who tried out for the
musical is nervously waiting.

With all the parts in "My Fair
Lady", it is certain that most of
the hopefuls will get at least a
small part.

Our only Saturday basketball
game for this season is going to be
held at Bloomfield Hills this week.

Here's hoping that our boys aren't
too tired from defeating Clarence-
ville's Trojans Friday night to do
the same to the Banons.

After we defeat the Trojans Fri-
day, there will be a victory dance
over at the high school.

On the other hand, if we're beat-
ed, the dance will be a good place
to console yourself and your friends.

Part of the final examination for
the students in the high schools
three Chorus classes will be the
tryouts for League Choir.

They are studying the music in
class. Out of the numerous League

songs, they will have to sing their
parts out of about three songs.

I've been asked what happened
to the second school paper I men-
tioned in an early column.

It's been dropped. The second
Publications class is learning how
to write articles, etc.

The riding ability of several of
our male faculty members will be
on exhibition soon in the Jr. High.

Mrs. Telleen, who is in her first
year of teaching, is our interviewer
this week. She commutes from Ann
Arbor to teach English here. She
teaches English to all levels except
12th grade.

Besides English, she is qualified
to teach French and Math. That's
quite a variety of fields.

She received her Bachelor of
Arts degree from Lawrence Universi-
ty in Appleton, Wisconsin.

Discover the difference in the '65 Chevrolets (As different from other cars as they are from each other)

CHEVROLET — As roomy a car as Chevrolet's ever built. Chevrolet Impala Sport Coupe

When you take in everything, there's more room inside this car than in any Chevrolet as far back as they go. It's wider this year and the attractively curved windows help to give you more shoulder room. The engine's been moved forward to give you more foot room. So, besides the way a '65 Chevrolet looks and rides, we now have one more reason to ask you: What do you get by paying more for a car—except bigger monthly payments?

CORVAIR — The only rear engine American car made. Corvair Corsa Sport Coupe

You should read what the automotive magazines say can touch its styling. They say if you haven't driven a new Corvair Corsa with a 180-hp Six Turbo-Chargaarged! think there's nothing else this side of the Atlantic that you just don't know what you're missing.

Drive something really new—discover the difference at your Chevrolet dealer's Chevrolet • Chevelle • Chevy II • Corvair • Corvette

YOUTH trained at Mackinac sets a new pace, purpose for America

Last summer 2400 youth from every section of the U.S. and Canada attended the Conference for Tomorrow's America at Mackinac Island, Michigan. They say to America:

Our aim is to build tomorrow's America and tomorrow's world as different from today's as a rocket is from a rowboat. By 1966 half the population of the U.S. will be under 25. The rest of the 20th Century is ours. What kind of America and what kind of a world do we want? We do not want the hypocrisy, corruption

and complacency which our parents' generation has accepted. We are not satisfied with more money, more comforts and conveniences. We want a great purpose for our lives and for our nation — more satisfying than materialism and more revolutionary than Communism. We want men and women great enough in heart, mind and muscle to match the marvels of our technology. We refuse to be a problem generation. We want to be remembered as the generation that dared not only to go faster and harder, higher in space, deeper in the ocean, but who banished hate, fear, greed, poverty, war and famine from the earth.

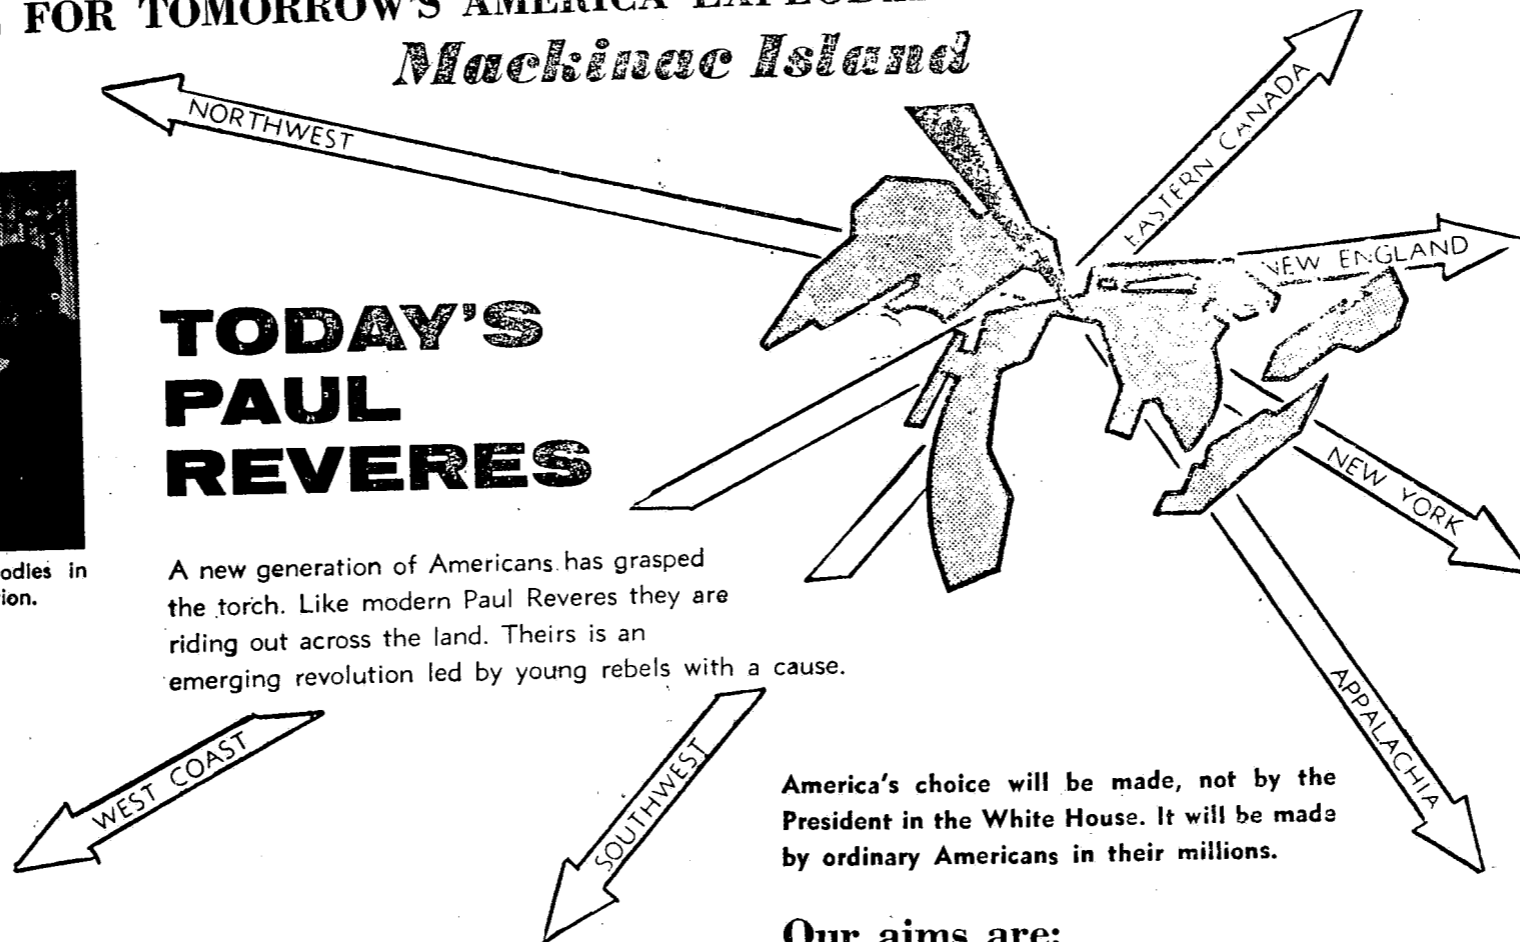

THE CONFERENCE FOR TOMORROW'S AMERICA EXPLODED FROM MACKINAC TO THE NATION

Four presidents of high school student bodies in Seattle area prepare their Northwest operation.

TODAY'S PAUL REVERES

A new generation of Americans has grasped the torch. Like modern Paul Reveres they are riding out across the land. There is an emerging revolution led by young rebels with a cause.

Mayor Robert Wagner of New York receives delegates to the Conference for Tomorrow's America. He asked their help with the youth problems of New York.

We asked ourselves

"What answer do we have for people who give in without a fight or thought in the face of Communist temptation, if we give in without a fight or thought to sex temptations, liquor temptations, hate temptations, or the first temptations.

We need to ask ourselves what image of America are we going to give mankind?

Is it the Hollywood image—sex and violence?

Is it the Pentagon image—reliance on hardware and bombs alone?

Is it to be the Madison Avenue image—you can tell a slick American anywhere but you cannot tell him much?

The CIA image—pulling secret strings in other countries, and sometimes the wrong strings.

The Wall Street image—trust in the mighty dollar?

The Mississippi image—violence, intolerance and hate?

These are the images the world sees today.

Or shall it be the image of Abraham Lincoln? A figure of justice, charity and honor lived out personally and nationally against a global background.

We all of us have something of Abe Lincoln within us. Something, perhaps, of Bobby Baker, too, with his love of sex, money, selfishness and personal position. Why don't we begin to pattern a great and united society by taking time at the start of each day to throw Bobby out and let in the eternal spirit of Abe which can yet give perspective and corrective to a perplexed generation?

Indian families welcome Peter Howard, in charge of the world program of Moral Re-Armament, following his address to a meeting of 800 Pueblo representatives in St. Catherine's Indian School Auditorium, Santa Fe, New Mexico.

Published by Regnery, Chicago, at 75c. Available at bookstores and newsstands.

America's choice will be made, not by the President in the White House. It will be made by ordinary Americans in their millions.

Our aims are:

- To build homes in which families learn to live together.
- To demand schools and colleges which build faith and character as well as brains and skills.
- To produce films, plays, books which give a new purpose to America and mankind.
- To challenge promiscuous parents, cynical teachers, watered down religion and polluted politics.
- To make absolute honesty, purity, unselfishness and love the standards of America.
- To raise a force of young Americans more disciplined and revolutionary and more dedicated to building a world that works than any Communist, Fascist or other materialist.

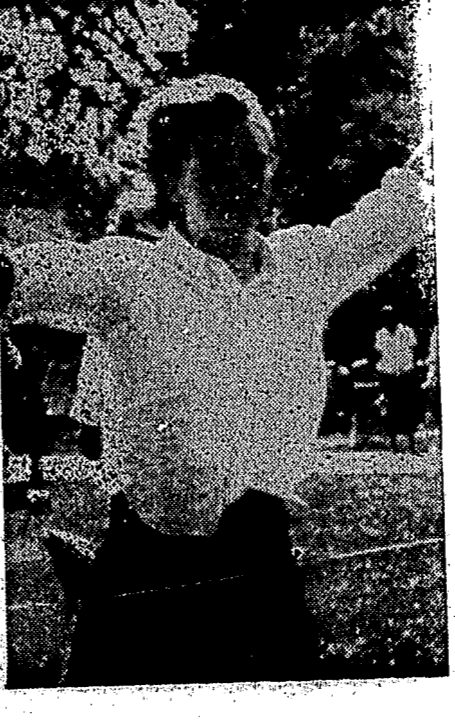

The Colwell Brothers and Bob Quesnel (on the drums) are sweeping through West Virginia in a series of school assemblies and television appearances.

"Design for Dedication," Peter Howard's American addresses, with Foreword by Cardinal Cushing, has already sold 250,000 copies. Peter Howard told the Conference for Tomorrow's America: "America, morally re-armed, will capture the allegiance of the entire world, Communist and non-Communist alike, and will lead man into an age of justice, sanity, freedom and lasting peace."

GOVERNOR ROMNEY REPORTS

In my second Inaugural Address last week in Lansing I pointed out some of the accomplishments we have made recently that have brought Michigan new confidence and recognition.

Two years ago at the last inauguration I said "we must restore the confidence of the nation and the world in Michigan" but that we could not regain the confidence of others if we ignored our problems. The record since then speaks for itself.

We have paid our debts and kept our commitments. We are closer to the goal of "equal rights for all citizens", regardless of skin color, religion or national origin.

We've reduced the partisan bickering in state government that had long hamstrung the efficient and effective operation of government. We have applied the law justly to all groups alike, without fear or favor.

Inauguration Day marks a fresh starting-off point for state government. We intend to apply the lessons we have learned in the past to solutions to the problems of the future. And the achievements of the past will be used as the building blocks for future progress.

And so we start out anew. A new year has begun and it is my intention to maintain continuity in our record of progress. It is my hope that continued progress will span many more administrations to come.

The state is faced with many pending problems. A soaring traffic toll, the educational needs of the future, burgeoning urban growth and juvenile crime are problems

that must be dealt with squarely, and with an all-out effort to find solutions.

The erosion of moral character and family life are evidenced in climbing crime rates and mounting youth problems.

What we need today in Michigan and in every other state is a fundamental re-dedication of purpose by citizens generally and by their public servants.

We desperately need a renewed vision of the effective and lasting role of the individual, family private institutions and government in conquering the complex human and social frontiers on the horizon.

It will be my purpose to do all that a Governor can do to shape governmental policies and programs that will stimulate more effective private effort, more proper public effort — a joint public and private effort where needed.

My present responsibility exists from the role of government. I am concerned not **WHETHER** government will function but **HOW** it will function.

I have often said that states have no rights; only people have rights. States have responsibilities.

I believe that only through a direct and dynamic application of our historic decentralized federal principles at the state and local levels of government can we hope to accomplish the ultimate fruits of our society.

In Michigan we have provided a valuable tool for that purpose in our new state constitution. We must apply that tool to its maximum extent if we are to remove the archaic conditions that enmesh our local governments in conflicting and expensive conditions and if we are to approach our state responsibilities positively rather than as an excuse for protection of the status quo.

The question we must ask is: How can we best utilize the talents and abilities of people? And then, how do we employ this participation of individuals so that meaningful contributions to government and (the betterment of the human condition) are made?

As we plot New Directions for the Future and plan the course of state government, we will need

New Sales Tax Chart Issued

R. I. Nixon, Detroit District Director of Internal Revenue, today issued the following table for use in preparing 1964 Federal income tax returns. Mr. Nixon emphasized

the dedicated energies of everybody—the citizens, the businessman, the legislator, the Governor. It will require thoughtful search, much toil—and courage.

Our only pledge—as elected representatives of the people—is to serve the people. Our interest: the common welfare.

If as public officials and as citizens we can truthfully serve our state and each other, then we will have in all honor served the Creator who made us all, for, "He that is in the service of his fellow men is in the service of his Creator."

that the table has been revised and that any chart issued or published last year should not be used in preparing 1964 tax returns.

This table may be used as a guide to arrive at the average amount of Michigan State Sales Tax of 4 percent which may be claimed as a deduction in the absence of definite proof of payment. Mr. Nixon pointed out that the table takes into consideration taxes paid on the purchase of large household items, but does not include either gasoline tax of six cents per gallon or the sales tax on the purchase of an automobile. These items must be itemized separately and may be taken as a deduction in addition to the amount shown on the sales tax table.
