Township Takes Action to Solve Unsightly Property Conditions

Emphasizing a concentrated effort to eliminate and/or improve unsightly conditions in the area, court action has been undertaken by Independence Township against two local residents.

Scott Goines of Pine Knob Road, ordered to appear in circuit court April 6 before Judge Frederick C. Ziem, has been charged with violating the township junk yard ordinance. Charged with violating the zoning code ordinance, Robert Brown, also of Pine Knob Road, is to appear April 6 for a show cause hearing before Judge Stanton G. Dondoro. Prior to court action both men, according to Township Clerk Howard Altman, had been repeatedly warned about unsightly property conditions and asked to cooperate.

Altman stated, "In certain instances abandoned or junk autos do exist and in some cases there is perhaps a violation of our ordinance; however, we realize the problems of individuals in correcting or dealing with the accumulation of junk autos." He continued, "the township wishes to work with these people who are willing to co-operate in helping themselves correct a most difficult situation."

According to the clerk, extensive meetings have been conducted with various township departments attempting to find a feasible solution to the problem.

Education Millage Increase Slated For Discussion

Four different viewpoints will be presented today when the Oakland School Board considers the financial future of the county program for the education of handicapped children.

Scheduled to appear before the board are Mrs. Walter Barningham of Waterford, member of the Special Education Citizens Advisory Committee; Superintendent G. V. Harrison, Farmington Schools; Dr. Mary Blair, representing the State Department of Public Instruction; and Dr. Paul F. Thams, Oakland Schools director of special education.

Dr. William J. Emerson, County school superintendent, said a half-mill tax, which last year yielded \$1,100,000 is no longer adequate to do more than continue the 393 special education programs now in operation throughout the county.

The purpose of the tax, passed in 1954 by public vote, is to cover construction costs of special education classrooms, to pay the difference to local school districts between state subsidy and the actual cost of running the programs, and to provide specialized services at the county level to certain kinds of handicapped children.

In the decade that education of exceptional children has been a county concern, the number of programs has increased from 56 in five districts to 393 in 29 districts, Emerson said.

There are 143 rooms for mentally handicapped, 30 for crippled, blind and partially sighted, and deaf and hard of hearing, 14 rooms for children with severe behavior problems and eight for those with perceptual handicaps. Other programs employ 92 speech correctionists, 16 teacher counselors for physically handicapped junior and senior high school students, as well as 55 visiting teachers and 23 diagnosticians.

Only commitments made prior to February, 1964 have been added since a hold-the-line policy was made by school district superintendents last year. No rooms have been added; no additional teachers have been hired. In this time, the county superintendent pointed out, 10,985 more children have entered the schools.

Emerson said the board of Oakland schools had several alternatives. It could call for a vote on increasing the special education millage; it could attempt to get local school districts to divert funds from existing programs for normal children and devote it to the education of the handicapped, or the offerings to handicapped children could be reduced.

The board meets at 4 p.m. in the offices of Oakland Schools in the County Service Center.

Research Director Slated to Speak

Dr. Mortimer Adler, director of the Institute of Philosophical Research in Chicago, will speak at Oakland University Monday, March 29, at 8 p.m. Appearing as the fifth speaker on the Scholarship Committee's lecture series, he will speak on "Education and the Quality of Man."

Concluding the 1965 slate of speakers will be British educator, Sir Eric Ashby, who will appear April 6.

Full Enrollment Of 3,000 At Community College

A survey estimating that approximately 1,725 June graduates of Oakland County high schools will enroll at Oakland Community College this fall was presented to OCC Board of Trustees last night.

A total of 12,969 questionnaires were sent to the 47 high schools in the College District and the estimate was made on the basis of 37 responding high schools which enroll 10,321 seniors, or approximately 80 per cent of the seniors enrolled in Oakland County high schools, Dr. Joe U. Davenport, campus dean, disclosed.

A total enrollment of approximately 3,000 is expected this fall.

The questionnaire dealt with the two main classifications to be offered by the College: the Transfer and Technical programs.

The Transfer program is designed for those students who plan to complete a baccalaureate degree by transferring to a four-year college or university after successfully completing their initial two years at the community college.

The Technical program is designed for students who seek the knowledge and technical skills needed to enable them to find constructive, satisfying employment. Accounting, Automotive Technology, Data Processing, Dental Assisting, Marketing and registered Nursing are examples of technical courses which will be offered.

The following staff appointments were approved by the Board at last night's meeting:

Philip D. Conklin, presently with the College as a Kellogg Fellow, as Associate Dean-Registrar.

Thomas J. Krupa, Hazel Park High School Counselor, as Assistant Professor-Counseling.

James J. Kane, Clawson High School Counselor, as Instructor-Counseling.

Keith L. Shuert, Assistant Professor, Monroe Community College, as Assistant Professor-Mathematics.

Mrs. Reta Simons, as Assistant Professor-Counseling.

Nobody ever gets anything for nothing, but a lot of people keep trying.

Clarkston News Photo

Engaged in going over last minute preparations and records prior to the Clarkston area blood bank next Wednesday are Mrs. Delmont

Walter, seated at the left, Mrs. Russell Colton who will be on the nursing staff and Mrs. Ralph Kenyon of the telephone committee.

Blood Bank Plans Completed

Final preparations for the March 31 Clarkston Area Blood Bank, to be held at Independence Township Hall, are nearing completion. Under the leadership of the Clarkston Community Women's Club, area residents may make their donations between the hours of 2-5 p.m. and 6-8 p.m. Assisting the Red Cross

doctor and nurses will be local nurses and grey ladies.

Co-chairmen of the program, Mrs. William Kreiner and Mrs. Elwood Johnson, are hopeful that over 100 pints of blood will be donated, topping last year's collection of 99 pints.

Those eligible to donate must be between the ages 18 and 59 (18-21 year age group must have written parental or guardian consent) with eight weeks having elapsed between donations.

Women's Club members will serve as registrars and Mrs. Bruce Embrey will be hostess. Coffee and homemade cookies will be served to donors at the Bloodbank. Coffee is being furnished by the Red Cross and cookies donated by Women from First Methodist Church, Episcopal Church of the Resurrection, First Baptist Church, St. Daniel's Mission, and Dixie Baptist Church.

Publicity has been arranged by Mrs. Wallace McRay, Mrs. Janet Lookadoo, and Mrs. Frank Lambert. The Clarkston Senior High School is providing for and arranging

the distribution of information sheets for each elementary child in the school system to take home. Funds for these sheets is provided by the P-TA Health Fund.

A Women's Club telephone committee is phoning past donors to make appointments. Anyone within the Clarkston area who wishes to donate, as well as people from other areas who would like to donate for credit at their own local bloodbank, may obtain information and appointments by phoning Mrs. Kreiner 319 5-1209 or Mrs. Johnson MA 5-3891.

College News

Peter Wilford is a new pledge of Tau Kappa Epsilon fraternity at Hillsdale College. He is the son of Mr. and Mrs. Jerome Wilford of 91 N. Main, Clarkston.

Really now, isn't the most curious thing in the world a woman who isn't?

Police Crack Down On Ten Juveniles

An epidemic of trespassing and malicious destruction of property has resulted in the arrest of 10 juveniles this past week.

According to Clarkston Village Police Chief Robert Philips, a concentrated effort is being carried out by the department to correct a long existing problem and that those apprehended will face prosecution.

The abandoned property, located on Holcomb Road, had become a gathering place for young area residents the chief stated.

"Lullaby Production" Set for This Week-end

Clarkston News Photo

Obvious enjoyment of their work is splashed on the faces of the "Lullaby" cast at Clarkston High School. Shown, left to right, are Sherry and Lee Moore, senior student Ted Hollis and Mrs. Terrence Thomas. Tickets for the play, to

be presented this Friday, Saturday and Sunday at 8 p.m. in the high school theater, may be obtained at the door. Proceeds from the affair will go toward costume rental, costs for the April student production of "My Fair Lady."

Lost Decibels of Oakland To Present Teleplay Soon

On April 7, at 8:30 p.m., the lost decibels of Oakland County, are presenting to the public a teleplay starring Ben Casey, Dane Clark, and June Reed. This play was originally shown on TV earlier this season as one of the regular Ben Casey programs.

Admission is free at the service center building of the Michigan Bell Telephone center, located at Northwestern Highway and Southfield Road, Southfield, Michigan.

The name of the play is, "A Woods Full of Question Marks", a story about an 11 year old deaf girl, and her families problems in educating her.

The "Lost Decibels", is a group dedicated to the education of deaf and hard of hearing children. We are chartered in the state of Michigan and are a charitable, tax exempt organization.

Presently we are sponsoring our second year of free summer school education for these children and are in the midst of raising funds to pay

the costs involved. This program is operated and staffed by the same personal employed by the boards of education of Oakland county throughout the regular school year.

Managers Meeting March the 29th

Waterford Township Recreation Department has scheduled a March 29 manager's meeting of the Men's softball league. Agenda items of the 7:30 p.m. meeting at the Community Activities Building will include league sponsor registrations, team fees and uniform requirements.

Starting date for the season will be May 10 with practice sessions to take place at the Drayton Plains softball park on Dixie Highway.

Each team may carry a maximum of 16 players, five of whom may live outside the area. Deadline for entering a team is April 23. For further information call OR 4-0376 or 674-0056.

Fire Department to Have New Training Program

Action taken by the Independence Township Board at their meeting last week established a fire department monthly training session. The program, to go into effect immediately, is for the purpose of instruction in the operation and maintenance of Township fire equipment. Rules and regulations providing for the attendance and duties of

fire department personnel attending the sessions will be set up by the firemen. It was decided that attending firemen would receive three dollars per meeting.

Authorization was given by the board to prepare bids for the purchase of a pumper tanker for the fire department, a chassis for the pump, three radios, hose and two fire repellent suits at a total cost of \$4,000.

Other business coming before the board included the approval of a request by Albert and Thelma Billis to transfer ownership of a 1964-65 SDM licensed business with living quarters permit, at 10081 M-15 from Iva M. Roy.

Township bills in the amount of \$3921.95 were approved.

Piano Duo to Appear April 3

Whittmore and Lowe, the two-piano team who are among the few serious music performers to sell over one million records, will appear in concert Saturday, April 3 at 8:15 p.m. at Pontiac Northern High School under the auspices of the Oakland University-Community Arts Council concert series.

They are the only soloists ever to have premiered two major concertos with the New York Philharmonic in a single concert. At present they average about 70 concerts per season across the United States.

The duo will perform Valse nobles Op. 77 by Franz Schubert; Ma mere l'Oye (Mother Goose Suite) by Ravel and Brahms' Variations on a Theme of Haydn. Also included will be contemporary selections which they have recorded in their popular album, Ravel's La Valse will be the closing number.

Tickets will be available at the door or by calling Oakland University 338-7211, Ext. 2176.

Wednesday, March 31, 2-5; 6-8 p.m.

Fire Report

Independence firemen were called out twice during the past few days according to fire department records. Tom Blazey of Paramus Street was assisted in a flooding condition at his home and a fire was extinguished at the residence of Jesse Martin, 6061 Sashabaw.

The Martin home fire which began in the basement and spread through a heat duct to a first floor bedroom, was attributed to faulty wiring in a basement wall. Total damage loss is not known.

Open House Announced

An open house honoring their move to new offices will be held this Sunday at 23 South Main St. by King's Insurance Agency. The firm, formerly located at 15 South Main, invites the public to attend.

Area Girl Scouts Need Volunteers

Clarkston News Photo

THE HIGH ROAD

L. W. PRENTISS, Executive Vice President
AMERICAN ROAD BUILDERS' ASSOCIATION

Strengthening the Backbone

The 41,000-mile National System of Interstate and Defense Highway will be, when completed, the new "backbone" of our national highway network. Although it will comprise only about 1.2 percent of our total highway mileage, it will carry at least 20 percent of the total traffic.

In designing and constructing such a system, it makes sense to look into the future and make allowance for traffic growth. From the beginning of the Interstate construction program, highway engineers have been particularly careful to give thought to tomorrow's traffic in the design of each segment of the system. These route locations will probably be main highway locations for many decades to come.

The design concepts worked out in the 1950's have proved to be sound. Now about half completed, the Interstate System is proving to be even more essential than was originally anticipated. The benefits to highway users and the economic and social benefits which affect users and non-users alike are exceeding the early estimates. For example, we now see that the Interstate System will save 8,000 lives per year—double the original estimate.

Before 1956, there were relatively few miles of highway in existence built to Interstate type standards. As this kind of

News Notes from Clarkston High

John Merkel
Last Tuesday evening a panel of adults and students discussed various high school and student problems. Seniors comprising the student panel were Rave Coulter, president of the senior class, Gary Eitch and Kris Smith.

The Explorer's Club of Clarkston High School got into full swing last week and has more events coming up.

Last Thursday a group of students led by Mr. Rupert and Mr. Rice visited the main office of the Community National Bank. Friday, a group of students attended the movie, "Black Like Me."

Another project of the Explorer's Club was begun Tuesday after school. Several high school students, who had signed up previously, participated in a chess tournament.

Matches were played according to the Master's rules.

A play night was held in the high school gymnasium last Thursday from 7:30 to 9:30 p.m. What is a play night? That's when the gymnasium is open for students to use for basketball, volleyball and other indoor games. Records are played outside in the hall for those who would like to dance. All in all, playnights are generally a good place to relax and have fun.

Keep to the edges of the walls if you have occasion to come into school after regular classes have ended. . . . Due to the snow outside, the track and tennis teams are getting into shape by running around the halls in the upper level of the school. Warm weather will once again find the teams working outdoors.

March of Dimes peanuts were on sale last week after school and during the lunch hour. Thursday they were in tough competition with the Future Teacher's bake sale. Their competitive battle ended in a tie, namely, both of them won with a sell out.

The familiar bucket brigades were out in force on Monday. The cause this time was "Inger Week", named for our exchange student Inger Ljung. Each class had four buckets carried by student government representatives. The winning class will be announced Friday and receive an extra ten dollars, with the money slated to bring future foreign exchange students to Clarkston High.

Saturday will be SPRING. We will be happy when "warm" spring is here. No more boots, snow pants, coats, hoods and mittens. No more ice in the water. The snow and mud will be gone. Shawn says "I am sick of the cold."
Good by Measles, too.

Tomorrow is the greatest labor-saving device of today.

Loads Restricted

The Michigan State Highway Department recently announced it is imposing limits on the movement of "special permit" oversize vehicles on state highways.

Howard E. Hill, Acting Director said the move was prompted by ever-increasing requests for special permits.

Restrictions are necessary to preserve pavements, prevent damage to highway structures, protect motorists, and assure normal traffic flow, Hill said.

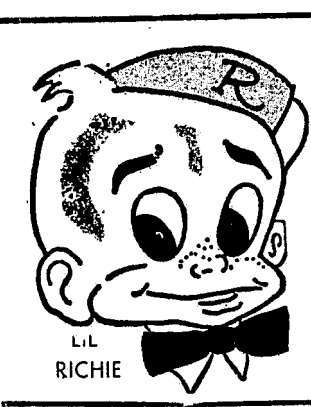

Special permits will not be approved for any vehicle or load in excess of 12 feet wide, 100 feet long and 14 feet high, Hill said. Most of the objects in this category have been prestressed beams, girders, roof trusses and building panels prefabricated and assembled by manufacturers, Hill said.

Other types of equipment, such as heavy machinery, also are being manufactured both in Michigan and in other states without prior permit clearance, he said.

"The policy statement is being sent to known manufacturers and transportation firms in an effort to forewarn them," Hill said.

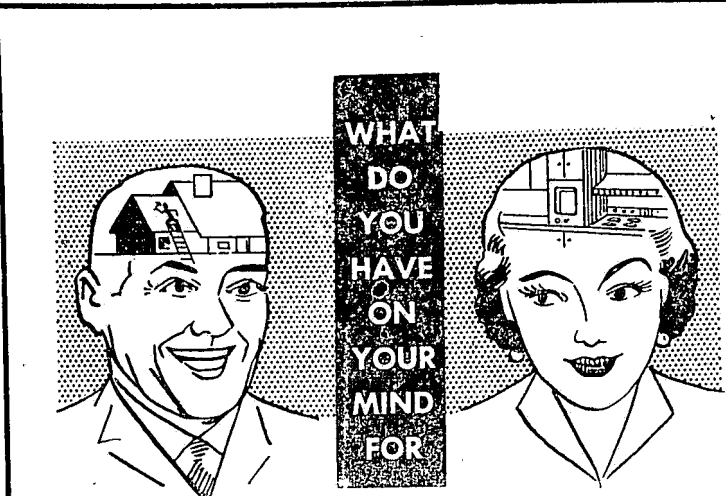

"The Highway Department has been given authority by law to exercise reasonable control over such movements and we are taking this step at this time to preserve the highways for the motoring public.

Detroit Edison Representative Record Construction Year for Michigan Bell At Mother Daughter Banquet

Jim Maitre from the Detroit-Edison Company paints 'invisible' faces on brownies and scouts attending the Clarkston Area Girl Scouts Annual Mother-Daughter banquet.

The 'invisible' paintings became 'visible' later in the evening when Fred W. Ready, lower picture, special applications coordinator for the Detroit-Edison sales department, turned the overhead light's off and went through the audience with a 'black' light. This proved to be extremely humorous as the scouts and their mothers discovered they were covered with what appeared to be green paint.

This very entertaining program, entitled "The Facts of Light" proved to be very interesting to the 312 who attended. The banquet was held at the Jr. High School cafeteria last Thursday evening.

Mr. Fred W. Ready

Senator Hart to be Honored in Pontiac Airmen Needed

Oakland County Democrats will gather in Pontiac Saturday evening March 27, for their eighth annual dinner honoring U. S. Senator Philip Hart.

Senator Hart, who lived in Oakland County when he was elected to the senate in 1958, will bring Democrats up-to-date on pending legislation in Congress.

The dinner is scheduled for 6:30 P.M. at the John F. Kennedy Junior High School, 1700 Baldwin Rd., Pontiac.

Co-chairmen of the affair are Mr. and Mrs. James Paterson, Hazel Park.

Reservations may be made by calling 543-0010, the Democratic office in Berkley MI 7-0018, or the Pontiac office, TE 4-0971.

The United States Air Force announced today an extensive increase in its pilot training program beginning July, 1965.

Over 1400 new pilots are needed and must be obtained from civilian sources. Sergeant LeRoy Bancroft, local Air Force Recruiter stated, and applications are urgently needed at this time.

Applicants, between the ages of 21 and 26½ are required to have a college degree, good vision, and pass the aptitude examination.

College Seniors may apply seven months prior to graduation.

Details may be obtained by writing to TSgt. LeRoy Bancroft, USAF Recruiting Office, 53½ West Huron Street, Pontiac, Michigan by calling Federal 2-9116 for an appointment.

Michigan Bell Telephone Company reported today that in 1964 it spent more money than ever before on new construction and at the same time instituted rate cutbacks and service improvements adding up to more than seven million dollars in annual customer savings. President William M. Day said in the company's Annual Report that the "continued vigor of Michigan's business and industrial activity" made it necessary to increase the 1964 construction program three times to meet demand. The final figure for the year was \$107 million, highest in Michigan Bell history and \$2 million above the previous record set in 1957.

Road Upkeep Costs to Rise

State highway maintenance costs will move upward off a five-year plateau and begin to increase about three per cent per year in the next decade, a State Highway Department, veteran warns.

H. J. Rathfoot, chief maintenance engineer for the state's network of roads, told a 50th annual Michigan Highway Conference audience a road maintenance cost spiral beginning after World War II levelled off in 1953 at \$20 million annually.

The surge of new road construction and the rebuilding of many old routes during the 1950's not only held total maintenance costs in line from 1957 thru 1963, but actually reduced the per mile cost of maintenance of roadway surfaces by \$300, he said.

Such factors as increasing labor

and equipment costs due to general inflationary trends, plus an anticipated doubling in the annual travel mileage by 1973, point to an upward trend in future maintenance costs, the 31-year-veteran of highway maintenance in Michigan predicted.

Snow removal, extended use of traffic signs and other safety measures such as pavement edging, and expansion of rest area facilities will further add to maintenance cost factors, he said.

"Any large increase in cost of maintenance during the next 10 years will depend mostly on the extension of such items of traffic services," Rathfoot said.

He predicted that by fiscal 1973-74, the state's highway maintenance program will cost slightly less than \$23 million annually.

"In 1964 we were able to reduce rates and introduce service improvements that save our customers \$7.4 million a year," Day said. "Such changes since 1960 are now saving our customers about \$10 million annually -- twice the amount we are receiving from the last increase four years ago."

(The \$10 million figure does not include an additional savings of more than \$2.2 million to Michigan Bell customers in intrastate long distance rate reductions which became effective Feb. 1 of this year.)

In 1964, Michigan Bell completed or began work on five new buildings and building additions in 26 communities. With average company investment brought to \$863.5 million the number of telephones Michigan Bell served at the end of 1964 totaled 3,428,939, a net gain of about 170,000.

Dr. Ernest Denne

OPTOMETRIST

GLASSES FITTED
Complete Optical Service
Rx Safety Glasses
Phone 625-1815
22 S. Main St. Clarkston

On the average day throughout the year, Michigan Bell handled more than 17 million calls, and for the entire year switched more than 158 million long distance conversations -- both record figures for the company.

Improved earnings, Day said, also "permitted innovation, experimentation, the introduction of new services, and a wider choice for customers."

Among the new services were Metro 21, an optional calling plan that knits 80 communities in metropolitan Detroit into one giant local calling area, and Budget Service, a low-cost offering which allows 20

outgoing calls a month at a charge of less than 10 cents a day. Besides reductions in intrastate long distance rates, costs to many customers were further reduced through enlargement of base rate in many exchanges and inclusion of more communities in extended area service plans.

As for new devices, the year was highlighted by the introduction of Touch-Tone telephones, instrument fitted with 10 buttons instead of the conventional dial. With a Touch-Tone set, customers can "tap" out a telephone number more than twice as fast as dialing one.

IT'S A FACT...

EVENTUALLY, A FUEL CELL IN THE BASEMENT COULD SUPPLY ALL THE ELECTRICAL NEEDS OF YOUR HOME.

SCIENTISTS ARE NOW DEVELOPING DEVICES CALLED FUEL CELLS THAT USE HYDROGEN, NATURAL GAS AND OTHER FUELS TO GENERATE ELECTRICITY.

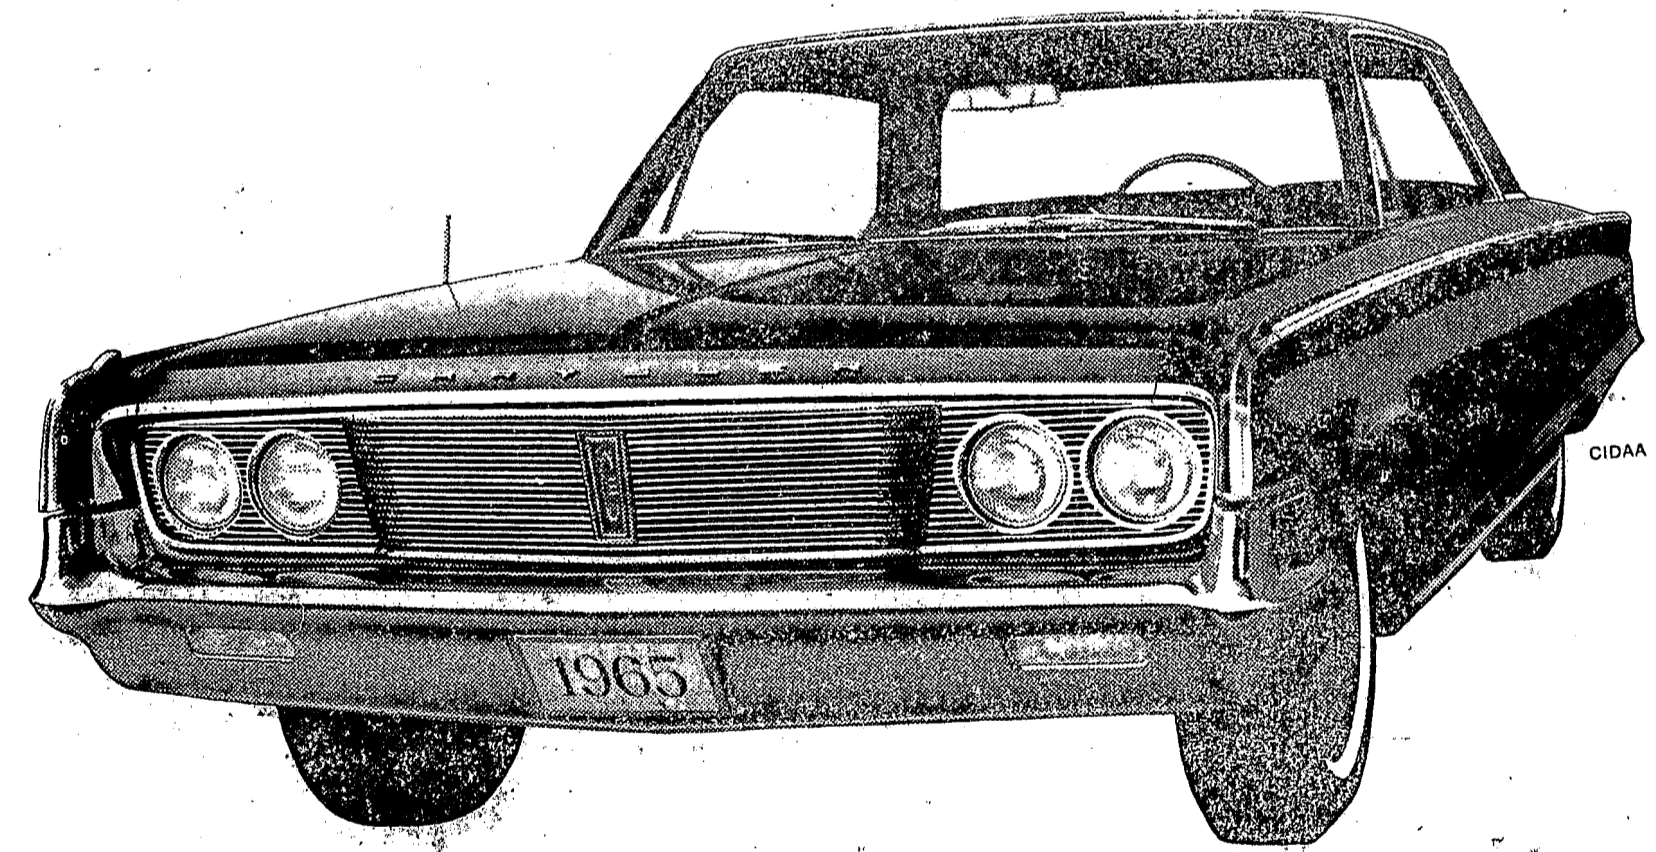

AT ROCHDALE VILLAGE IN NEW YORK, GAS PROVIDES NOT ONLY COOKING, HEATING, AIR CONDITIONING AND WATER HEATING, BUT EVEN ELECTRIC POWER. 20,000 PEOPLE LIVE THERE -- MORE THAN IN FLAGSTAFF, ARIZONA OR KEOKUK, IOWA.

GOVERNOR ROMNEY REPORTS

I am happy to announce that we will resume our weekly Citizens' Meetings on Thursday mornings, beginning March 25.

I regret that a combination of circumstances including the 1964 camping, preparations for my second administration and the beginning of the 1965 session of the State Legislature made it impossible for me to hold these sessions regularly in recent months.

But I believe it is essential to a democratic system of government that the people have ready access to their elected officials. I am certain these renewed Thursday morn-

ing sessions will be as beneficial to all concerned as they were before and I am looking forward to them.

Those planning to take part should determine in advance whether the meetings will be held, as pressures of state business may occasionally result in their cancellation.

The same "ground rules" will apply as before. Each citizen will be taken on a first come, first serve basis, until noon and will be given a maximum of five minutes in privacy with me and my staff.

In another important matter last week I requested the State Supreme Court to make an immediate determination of a case currently in a lower court involving the constitutionality of the Michigan Industrial Development Revenue Bond

Act. The statute in question, Act 62 of 1963, was adopted to authorize Michigan municipalities to issue self-liquidating bonds for the acquisition and construction of industrial buildings and sites. These facilities would then be leased to private enterprise in return for rentals which would be applied to retirement of the bonds.

It is of the utmost importance to the entire state that the validity of the bonding authority granted by Act 62 be finally passed upon for the benefit of Michigan communities.

The need for such authority has become increasingly evident because of similar legislation passed by other states which has induced Michigan industry to locate elsewhere. The competition for industrial development between the states is becoming increasingly heavy and in order for Michigan to remain competitive, an interpretation of Act 62 is needed.

Construction of Act 62 is also important to the non-industrial areas of Michigan, particularly the Upper Peninsula which has recently suffered severe losses due to the closing of local industrial concerns.

Through its contacts with various business organizations the Michigan Economic Expansion Department has found that Act 62 is regarded as a significant indication of Michigan's desire to assist industrial growth. The Department has also found that many other communities would be willing to utilize the provisions of Act 62 but are presently unable to do so pending the outcome of the case.

Also last week I supported the State Tax Commission in its tax depreciation schedule for 1965 aimed at greater tax justice by bringing about uniformity of real and personal assessments.

After a thorough examination of the facts involved in this controversy, I have concluded that the Tax Commission has acted in the best interests of Michigan. The action taken will be helpful in stimulating our state's economic growth and the much higher job levels needed in coming years.

It has been widely known for years that the Tax Commission was preparing the new schedule. The Commission consulted with assessors as well as others in its preparation. The Commission is united in its judgment that we should proceed with the new schedule at this time and after careful consideration I am in agreement with them.

Proceedings of the Village Council

Minutes of the regular Village Council held March 8, 1965.

Meeting called to order by President Waters.

Roll: Goyette, Witherup, Wertman, Cooper, Radoye, Huttenlocher; present.

Moved by Huttenlocher, "That the request from John S. Bisha, Frank A. Szczepanski, and John T. Tomaszewski for transfer of ownership of 1964 Tavern and SDM licensed business located at 18 S. Main Street, Clarkston, Michigan, from Ray M. Parker be considered for approval." Seconded by Goyette. Yes, 6; Nays 0. Motion carried.

Moved by Wertman, "That the Board of Review receive \$8.00 compensation plus meals." Seconded by Witherup. Roll: Goyette, yea; Witherup, yea; Wertman, yea; Cooper, yea; Radoye, yea; Huttenlocher, yea. Yeas 6, Nays 0. Motion carried.

Moved by Cooper, "That the Election Board receive \$12.00 compensation plus meals." Seconded by Radoye. Roll: Goyette, yea; Witherup, yea; Wertman, yea; Cooper, yea; Radoye, yea; Huttenlocher, yea. Yeas 6, Nays 0. Motion carried.

Moved by Wertman, "That the following accounts be paid: GENERAL FUND

Robert Waters, Annual Salary, \$110.00; Artemus Pappas, Six Months' Salary, 250.00; Mary Ann Pappas, Six Months' Salary, 200.00; Lloyd Sibley, Annual Salary, 300.00; Harold Goyette, Annual Salary, 55.00; John Witherup, Annual Salary, 55.00; James Huttenlocher, Annual Salary, 50.00; Earl Terry, Salary, 25.00; Stanwood Radoye, Annual Salary, 60.00; Donald Cooper, Salary, 30.00; Robert Wertman, Salary, 30.00; Robert Jones, Board of Review, 8.00; Roy Alger, Board of Review, 12.00; Mary Ronk, Election Board, 12.00; Uldine Jones, Election Board, 12.00; Elizabeth Hallman, Election Board, 12.00; Bob's Hardware, Street Materials, 4.85; Clarkston News, Publications, 45.00; Morgan's Service, Truck and Tractor, 132.63; General Printing & Office Supply, Office Equipment, 235.40; H. W. Huttenlocher Agency, Tractor Insurance, 93.35; Pontiac Tractor and Equipment Co., Tractor Parts, 16.36; Oakland County Road Com., Traffic Signal, 15.46; Hawk Tool & Engr. Co., Street Truck, 4.38; Clarkston Standard Service, Gas, 10.68; Motion carried.

Sayles Studio of Drayton Plains received recognition for their outstanding work again this year.

Some 1500 Professional Photographers attended the 24th Annual State Convention which was held at Grand Rapids, March 13th through the 16th.

The hundreds of prints submitted this year were judged by the Masters of Photography from various parts of the country.

Alice Sayles received awards for five living color prints she submitted. These awards are given for outstanding creative work and

quality. Mrs. Sayles, because of her experience and success in school photography, was asked to speak on the subject. This participation on the program earned her two merits toward her master's degree.

Portraits in living color are of the following people left to right, Allen and Robert Flath, Norman Thomas, Roger Fore, Mrs. Robert Lesner and son Kenneth Michael and the portrait of Lois Dodd held by Mrs. Alice Sayles.

CHEVELLE by Chevrolet

No other car of its size offers more

- 4 protective steel inner fenders
- keyless locking doors
- separate body and frame units
- a battery-saving Delcotron generator
- a four-position ignition switch
- a Full Coil suspension system
- curved side windows
- a 9-step acrylic lacquer finish
- flush-and-dry rocker panels
- self-adjusting brakes
- bonded brake linings

Chevelle Malibu Sport Coupe

No matter how you look at it, this car makes a lot of sense.

If you're interested in value (and who isn't), the eleven features above give you a good idea why more intermediate-size car buyers are thinking Chevelle.

If you're looking for a wide power choice, Chevelle starts out with a standard 120-hp Six, an ideal city performer. After that you may order from a variety of engines that turn it into an even greater highway performer.

Room? Large door openings, Wide

curved side windows for extra shoulder room. Great front and rear leg room. Those four, five or six passengers have it made. And so do you. Chevelle may seat like a big car but it handles like a smaller car.

Comfort? Thick wall-to-wall carpeting in Malibu models. Foam-cushioned seats. Easy-to-read instrument panel. The whole interior looks like those in cars costing far more.

Come on down to our showroom and take a drive soon. Chevelle begins to make even more sense after you've gone a couple of miles.

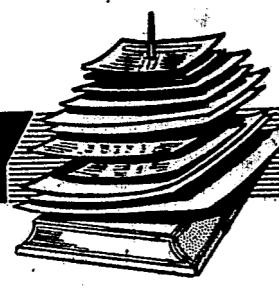

Drive something really new—discover the difference at your Chevrolet dealer's Chevrolet • Chevelle • Chevy II • Corvair • Corvette

SCHOOL NEWS

When the first day of Spring rolled around a mild calm day most of us thought old man winter had conceded defeat and retired for another year. Last Monday's 75 mph gale and Tuesday's blizzard taught us that winter may be down but he's never out. . . . Martin Wager managed to drive to school but Eager Beaver Jere Kidder walked all the way. Others seen in the halls were Earl Tonkin, Marilyn Mortimore, Dawn Coleman, Mary Porritt, Dave Leak, Gale and Lois Oswald and John Johnson. The janitors were busy with electric clocks which were slow in synchronizing and with the unusual chores brought about by the severe storm.

MRS. GEORGE PERRY HOSTESS TO CLUB

On Tuesday night the Rotary Anns met at the home of Mrs. George Perry. Mrs. Paul Henry was co-hostess.
The prizes for the evening, a hat and a blouse, were won by Mrs. D. Stackable and Mrs. Wm. Sharpe.

INSURANCE INFORMATION INSTITUTE 182

Misuse of Home Appliances Responsible for Many Fires

Misuse of electrical equipment - including home appliances causes about 21 per cent of all fires, according to the American Insurance Association. And a great many of these are the result of plain carelessness.
The American Insurance Association recommends a periodic check of appliances to see that they are in good repair and that cords are not worn or frayed. Any repairs or extension of wiring should be done by a qualified electrician.
When buying new appliances or electrical cords, look for the Underwriters Laboratories label on the product, the American Insurance Association advises.

"Unwanted Children" May Become Adult Foundlings

Unwanted children of today may have unwanted mental problems tomorrow and the "unwanted" are rich as well as poor. These are the observations of Dr. Emanuel K. Schwartz of the Postgraduate Center for Mental Health, a New York training center for psychiatrists and psychologists.
The population explosion and rising cost of governmental aid for dependent children have focused attention on the unwanted child. "But it is a grave error," Dr. Schwartz points out, "to believe that unwanted children are only poor kids in poor families. The 'unwanted' are found in large numbers among the affluent members of our society."
Dr. Schwartz believes that "unwanted children" represent a considerable portion of the future patients in our mental institutions. There is, he says, no adequate substitute for parental love and care. Children who are deprived of such attention may be candidates for breakdowns in later years.
"While they may have nominal parents in childhood," Dr. Schwartz says, "unless they have a feeling of being loved and wanted, they can become adult foundlings."
Unplanned Children
"We find in our clinics at the Postgraduate Center that unplanned children are frequently unwanted children. Many parents, however nobly they try to conceal their feel-

1957 Plymouth 9 Passenger Station Wagon

V-8 — auto. — power steering and brakes. Good family transportation car. Full price only

\$97

Says Dr. Schwartz: "In an age when science has given us the means for family planning, such as birth control pills and other forms of fertility regulation, it is incredible that we in the U.S. are still producing hundreds of thousands of unplanned and unwanted children every year."

It's called Jeep Universal because it does almost everything

It's the original 4-wheel drive work and hobby horse

Tough jobs are made to order for the 'Jeep' Universal—proven all over the world. When there's work to be done, there's really nothing like this hard worker.
In the desert or above the dew line, it's right at home. Treat it rough and it comes on strong. Laughs at the weather. Scoffs at ice or snow. With 4-wheel drive traction, your 'Jeep' Universal takes on all comers in tough, heavy-weight jobs like towing, pushing, hauling, winching, snow plowing, or hoisting.
Just driving it is really fun. And the 'Jeep' Universal stays valuable because it stays versatile. Half cabs, full cabs, or convertible top, plus other options.

C.A.P. Needs You

Are you an American citizen?
Are you 18 years of age or older?
Are you interested in helping young people develop high moral standards?

Would you like to serve your nation and your community?

Do you wish to see America gain in aviation and aerospace supremacy?

Men and women who answer "yes" to any of these questions have some of the qualifications required of senior members of Civil Air Patrol.

As a senior member you could contribute your knowledge and abilities to furthering CAP's programs in aerospace education and aviation.

As a civilian volunteer you would serve in an organization which for 23 years has provided assistance at local and national levels through its Emergency Services and Radio Communications Network.

In developing youth interest in aerospace and aviation you will broaden your personal education through the senior training program, officer training or functional training offered free of charge through the Extension Courses Institute of the Air Force University. These courses designed to advance seniors in the Senior Membership Program, are also helpful to the individual in business and industry.

Those wishing to learn more about the senior program should call Charles Klann, Captain, C.A.P. at 625-1325 or visit Clarkston Composite Squadron, Onnex Building, 90 N. Main St., Clarkston on any Wednesday evening, 7:00 to 9:00 P.M.

The container and any of the poisonous substance to help in identifying the poison, and get medical help.

There is probably no situation in which speed is more important than in poisoning. Know what to do in advance, because every second is vital in reducing the danger to the poisoned person. There are some quarters of a million potentially hazardous products used in the home and in industry. Learn the proper ways to handle, use, and store the compounds used in your home. Most important, always remember that it is better — and easier — to prevent poisoning than to have to treat it.

Honored for outstanding sales achievements during 1964 and awarded membership in Ford Motor Company's "500" Club are, left to right, Lloyd Jenks, Walter Messer, Gale Voss and Walter Snedden of Beattie Motor Sales, Incorporated in Waterford. Based

on a point system for new and used cars and trucks for the calendar year, this was the second consecutive year Jenks was named for the award. Certificates and pins will be presented at an April 10 Award Dinner in Detroit.

**Check Your Home for Poisons
"An Ounce of Prevention"**

The old adage that "an ounce of prevention is worth a pound of cure" is particularly true when it comes to poison.

Each year, some half a million people take poison, some intentionally and some by accident. Approximately 1,700 persons a year die of poisoning, about 400 of them children too young to know what poison is.

The most tragic aspect of these children's deaths is that they could

have been prevented. The best way to prevent accidental poisoning is to make sure that possible hazards do not exist in the home. Here are some home safety tips from The Child's World, Inc., an educational publishing firm.

The ordinary cleaning compounds used in homes can be lethal in the hands of a child. Most parents recognize the potential dangers of such things as lye, ammonia, and rat poison. Many fail to realize, however, that soaps and detergents, polishes for metals, room deodorants, toilet bowl cleaners, and furniture polishes can be just as deadly.

A child's curiosity is one of the most enchanting traits. Encouraging and channeling this curiosity is one of the most important parental responsibilities, according to guidance experts with The Child's World, Inc.

When parents do not anticipate this curiosity and protect children from possible danger, this trait can lead to disaster.

Parents should accept children's natural curiosity and the fact that they will eat or drink anything, regardless of its taste. The only way to keep children away from poisonous chemicals is to keep the chemicals out of the reach of children. A cabinet under the kitchen sink should not be used to store potentially dangerous compounds when there are young children in the family.

Poisonous substances should never be stored near food. A mother rushing to prepare a meal, or a

baby sitter unfamiliar with the household, could easily mix a boracic acid for sugar or roach powder for baking soda. Poison or any toxic substance should never be put in a container designed for food — milk bottle, soft drink bottle, or cereal box. All household substances should be labeled.

Medicines are responsible for half of all accidental poisonings of children under five years of age. Children are particularly sensitive to over doses of aspirin, which is usually labeled and is not considered a poison. It is the leading cause of poisoning in children and is responsible for one fifth of all reported poisonings. Doctors urge parents not to refer to flavored children's aspirin as candy, because children will then eat it as candy when it is available. The most common times for aspirin poisoning to occur are early morning, while parents are still asleep, and during the hour before a meal when children are hungry and mothers are busy.

Other medicines that can poison children are vitamins, laxatives, cough medicine, tranquilizers, sedatives, and such external remedies as Liniment, rubbing alcohol, etc. The medicine cabinet, which should be locked or otherwise made inaccessible to children, too often contains nonmedical items poisonous to children. Some of these substances include nail polish and polish remover, deodorants, shaving lotion, cologne and perfume, and other cosmetics.

Another step in poison control is to know what to do should poisoning occur. All homes should have a list near the telephone indicating the name and phone number of the family doctor, the location of the nearest hospital and instructions for getting there. Poisoning has become so common that poison control centers have been established in some 500 cities. If your city has such a center, include its number on your list. Lists of common poisons and their antidotes are available from many drug stores and should be available in all homes.

If poisoning should occur, it is essential to administer first-aid, save
