### Special Events Scheduled

This year's Michigan Week observance, the 12th annual, takes on international color with special programs and events focusing attention on the state's role in world affairs and world trade and on its contributions to the social and economic advancement of people around the globe.

While the actual celebration is from May 16 to 22, the objectives of Michigan Week are carried forward throughout the entire year, and many projects are continuous. "Michigan-Dynamic in World Progress," theme of the 1965 Michigan Week, not only serves to emphasize the state's international importance to its own people, but affords an opportunity to tell the Michigan story in other nations of the free world.

Many outstanding programs during Michigan Week will emphasize the theme, recognizing the part of industry and business in international trade; highlighting Michigan products sold in all parts of the world, and recognizing foreign students and visitors in our state.

General Chairman Woodward C. Smith, vice president of Central Michigan University, Mt. Pleasant, sounded the keynote for the observance when he said: "Michigan Week is the climax of a great year around effort to show Michigan's advantages to the nation and the world and to inspire Michigan people to know their own state better, take pride in it, and work together for their state's future."

Each day of Michigan Week has a special designation, with programs keyed to a central idea. Sunday is Spiritual Foundations Day; Monday, Our Government Day; Tuesday, Hospitality Day; Wednesday, Our Livelihood Day; Thursday, Education Day; Friday, Our Heritage Day; Saturday, Our Youth Day.

Each succeeding Michigan Week sees a greater display of the state flag and an ever increasing number of citizens are learning of the proud history of the emblem which dates back to the early days of statehood. Citizens and institutions are urged to fly the banner along with the Stars and Stripes during Michigan Week and on patriotic days and special occasions throughout the year.

WHEREAS, The period from May 16 to 22 has been set aside for the annual observance of Michigan Week, and

WHEREAS, the objective of this annual event is to give Michigan citizens greater knowledge and appreciation of their state and their own communities; to tell the world about our assets and resources, advantages and opportunities, and to foster the finest spirit of cooperation in Independence Township as well as all Michigan communities so that by working together we will make our state even more attractive, and

WHEREAS, The theme of this year's observance, "Michigan-Dynamic in World Progress," calls upon us to give full recognition to the many contributions our community and all Michigan citizens are making to the progress of people,

THEREFORE, I Duane Hursfall, Supervisor of Independence Township do hereby urge all citizens of our community to recognize the importance of our state and our community and to participate actively in the celebration of Michigan Week.

### Request for Pay Raise Approved by Board

Salary increases affecting two departments of Clarkston Community Schools were approved Monday by Board of Education members. Slated for pay adjustments will be the summer elementary music director and employees of the custodial staff.

### Enrollment Climbs at O.C.C.

A total of 1652 student applications for admission to Oakland Community College have been received through April 16. Facilities are being prepared to accept an approximate 800 students at Auburn Hills Campus, and 2,000 students at Highland Lakes Campus. The opening of classes to 2,800 students will make this one of the largest opening community college classes in the nation to date. Registration is set for September 2-3 and classes will begin on September 7.

An estimated budget of \$2,581,500 for 1965-66 has been approved by the Board of Trustees. The Board approved the appointment of 135 faculty personnel for 1965-66. As of April 16, a total of 22 such appointments have been made. Approximately 1,500 applications for faculty positions are being evaluated and processed.

Contracts for the renovation of Highland Lakes Campus buildings was awarded to Bundy Construction Company, Pontiac, Architectural; Anderson Plumbing & Heating Company, Clarkston, Mechanical; and Fred W. Moore, Pontiac, Electrical. Alterations will be made under the supervision of Denyes and Associates, Inc., Pontiac.

An informational bulletin listing instructional programs, admission and retention requirements and general regulations for 1965 is now available. An updated bulletin will be prepared for the second session in January, 1966.

All three campuses now have official names. They are: Auburn Hills Campus, Auburn Heights, Highland Lakes Campus, Union Lake and Orchard Ridge Campus, Farmington Township.

### Student Aid Fund Helps Youths of Community

The Student Aid idea was born in 1959. Initially spontaneously donated, the early sources of the fund were interested school clubs, faculty organizations, and various community clubs and organizations. Beneficiaries were few because of the limitations of available monies for deserving students.

The Student Aid program has matured from its frugal origin into an experienced dispenser of several hundreds of dollars annually to Clarkston High School graduates meeting the qualifications of scholarship and need. With increased community support, it has become a considerable force for good in the lives of increasing numbers of deserving young people.

A student may receive funds to attend any advanced raining institution beyond high school. This would include for example: business school, trade school, beauty school, barber college or a four year college degree program.

Any senior or alumnus seeking assistance from the Student Aid Fund follows a simple procedure. First, he completes an application blank stating his grade average, financial situation and future plans, and submits it to the Faculty Guidance Committee of Clarkston High School. At a predetermined date, the committee reviews all applications submitted to determine that fiscal year's distribution of monies. The receivers of student aid are notified personally by an appointed representative of the Guidance Committee and the technical details completed.

These include the signing of a contract by the student and his parents or guardians in which a comfortable financial agreement is defined and legally secured. Under the terms of the contract, the monies borrowed are repaid with no interest.

Upon entering further studies, the student is assigned a faculty advisor from the committee to whom he relates his progress in his education at the advanced training institution. The faculty advisor acts as coordinator between the Faculty Guidance Committee and the student throughout the advanced training program. The faculty advisor-student relationship creates a personal situation with less confusion and duplication of activities than

### Area Man Shoots Self

Detectives from the Oakland County Sheriff's Department were called by a local Clarkston psychologist Monday to report a self inflicted gun shot wound suffered by an area man. Involved in the case under investigation is David Galligan 23, of 6594 Cherrylawn.

According to the police report, Galligan, was shot in his left shoulder by a 32 special high powered rifle. Following emergency treatment, he was taken to Pontiac General Hospital for further care.

### Four Fire Calls During Past Week

Independence Township firemen were called out four times during the past week, according to department records. The department responded to one grass fire on Dixie Highway, a car fire and a blaze in the art department of Clarkston High School. A false alarm was received concerning a building fire on Eastlawn.

### Oakland University to Co-Sponsor Psychology Day

The Oakland Psychology Association and Oakland University will co-sponsor a Psychology Day at the University on Saturday, May 15, according to David G. Lowy, OU assistant professor of psychology and coordinator for the program.

Designed for high school juniors and seniors, the program is scheduled to begin at 1 p.m. in the Science Building. During the afternoon session a series of guest speakers will discuss training and careers in psychology.

Approximately 200 students from Oakland County are expected to attend the afternoon meeting, the first of its kind to be held at the University.

Michigan's income is approximately two-thirds of that of the entire continent of Africa, equal to about one-half of all of South America; and two-thirds of all the Scandinavian nations.

### CLERK'S FILE Duties and Authority of Board of Health

Last week the Clerks' File reviewed the activity and procedural information of the important, but not often publicized, Township Board of Appeals whose primary function is to hear and decide on special cases involving the Township Zoning Ordinance.

This week the subject material is of another board, so seldom mentioned that few people are aware of its existence... even though the Township Board of Health performs special duties required by law that other township boards or commissions can not handle.

This may seem strange and even contradictory for the same Michigan law that provides for a Board of Health, also states that it shall be made up of Township Board members. Serving as chairman is the Township Supervisor and acting as secretary is the Township Clerk.

The Board of Health can make rules and regulations and take action in certain areas regarding public health and safety. One such reference would be the duty of providing for burial grounds. If land for this purpose is not available in our township, it is permissible to seek suitable land in an adjoining area.

Sometime ago the Independence Township Board, acting as the Board of Health, purchased approximately 26 acres of land on the north side of Flemings Lake Road for a future cemetery site. Adjustments in the price schedule for lots and graves as well as burial services in Lakeview Cemetery were also made.

A recent survey of Michigan Health Department records indicates that there are approximately 12 counties which do not operate under a County Health Department. In these cases health services must be furnished by the Township Board of Health. This is not the case in Independence Township, however, and we in Oakland County are fortunate to have not only a County Health Department in operation but a very good one at that.

In our case, the law permits the Township Board, simply by resolution, to appoint the county health officer or a member of his staff to act as the township health officer. Dr. Beriman, who is Oakland County Health Officer, serves in that capacity for Independence Township. As

sisting him in protecting the area against the hazards of unsanitary conditions is Dr. Hugh Wilson.

Public Act No. 55 and its sections as amended have strengthened the ordinance making powers of the township and the Board of Health in making it possible to act on nuisance problems from a health standpoint.

Not unlike other communities, we occasionally are confronted with health and nuisance problems that endanger the safety and health of the public. The Township Board has, on many occasions, been asked to prevent or correct such a situation. At the present time the board has been requested to assist a number of conscientious residents of Woodhull Lake in cleaning up a situation where neglect and abandoned homes have become a real source of concern to the general welfare of that immediate area and the township at large.

Township Attorney Paul Mandel, has been asked to prepare an ordinance, to be presented to the Township Board of Health for their consideration, regarding effective means of removing these "sore spots".

### Clarkston Man Injured in Car Accident

Minor injuries were sustained by victims of a two car accident last Friday on Sashabaw Road, south of Clarkston. Involved in the mishap were Frank Arnold 61, of Greenview Street, Clarkston, and Mildred Bryant, 54, of 1419 Sashabaw Road, Orionville.

The Arnold vehicle was struck from behind at an intersection as he was heading south on Sashabaw. Mrs. Bryant stated to police that due to fog conditions she didn't realize she was at the intersection.

Wreckers were required to remove the damaged cars and the injured were taken to Pontiac Osteo pathic Hospital.

Police Crack Down on Hot Rodders  
Numerous complaints of hot rodders endangering the safety of Village residents has prompted Clarkston Village Police Chief, Robert Phillips, to issue a warning that apprehended offenders will be cited and that the curfew law will be enforced.

LITTLE FEET  
WHAT PATH?

The future holds the secret, and it's anyone's guess! He may be a great statesman some day . . . or maybe a world-renowned athlete or actor . . . or perhaps a scientist . . . but most likely, just Mr. Average.

Of course, a lot will depend on his opportunities, his God-given talents, his character, and his training.

Anything could go wrong along the way — poor health, bad examples set by his parents and associates, a broken home, neglect, and false values. But why make a list? The possibilities for this child's failure in life are so numerous that it makes us shudder — and the worst of it, we can guarantee him nothing. But we can give him hope and faith.

Standing ready and anxious to help him is the Church and the precepts which it teaches. It is our duty and our privilege to help spread the spiritual principles of Christian living in practice as well as in word so that the youth of our nation will find some meaning to the path of life which so strangely twists and turns toward some hoped-for goal.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

## Student Aid

(Continued from page one)

would otherwise be possible. The Student Aid Fund presently has one major contributive agency: The Talent Show. This annual activity is sponsored by the Clarkston High School Student Government. Not only does the show raise monies for advanced studies by deserving students, but it also pleasantly permits public exposure of the rising talents of the area students. In this way the event serves a dual purpose.

There have been other contributive sources to the Student Aid Fund. Certain individuals have used the fund as a means of Memorium for some loved one. This sort of perpetual memorium makes it possible for deserving young people, who might otherwise be unable to afford it, to acquire advanced training or higher education.

Civic-minded groups in the community are also finding this an overt means of expressing their faith in the deserving youth of our school district. In 1962, it was suggested that other individuals and groups in the community, were they informed of the existence and function of the Student Aid Fund, might become interested in contributing their assistance.

The future success of the fund, depends on the continued interest, of all responsible people in our community. It is hoped that all community minded groups will join the ranks of those who are supporting a most worthy cause.

Contact the high school counselors MA 5-5841, for further information.

The Rev. David Dee of the First Baptist Church of Clarkston performed the Ceremony.

Guests from Indiana, East Lansing, Sandusky, Royal Oak, Auburn Heights and Clarkston attended the reception.

The newlyweds will make their home in Indianapolis.

While you're talking over the ones that got away, or pan-frying the ones that didn't, you enjoy the hearty taste and cool refreshment only a glass of beer can give you so well. Yes, whatever your sport—bowling or strolling, golfing or gardening—a frosty glass of beer makes a naturally great accompaniment.

# News Notes from Clarkston High

**John Merkel**

Wednesday, Thursday, Friday and Saturday of last week were enjoyable, in one way or another, for most of the Seniors who went on this year's senior trip.

Like last year, the trip was to New York City where the seniors stayed in the Tull Hotel.

Wednesday morning the seniors had to be at the school by five thirty in order to have their luggage and papers checked before they boarded the bus.

After all their premonitions about the trip, the bus arrived ten minutes late, which got things off to a great start.

The jet ride to New York was uneventful; then, after they arrived in New York, they began their tour.

The tour took in the Empire State Building and other New York City monuments. Naturally, it included the World's Fair.

Many students considered the Vatican pavilion the best of the pavilions presented in this World's Fair.

There were several other things that befell the cheery little group in the big city. For example, in order to get into the room of another member of the group, one had to give the password, "Oscar."

This was fine, except for one minor, insignificant little detail. Two other schools whose students were staying in the same hotel also had "Oscar" for a password, which caused a lot of merriment.

Humor also hits it that the only person in the hotel who didn't go around checking doors after curfew and roomcheck was the hotel detective.

It seems he spent his napless nights in the courtyard, exercising his larynx screaming at people who dropped things out of windows.

Still it was a lot of fun for those seniors who went on the trip.

While in New York, what was going on back at their point of departure, commonly referred to as

**Clarkston High School?**

Wednesday, during fourth period, an assembly was held for the sophomore and junior boys. The speaker was the apprentice employer from Pontiac Motors.

He spoke about the qualifications that a student must have to be hired at General Motors.

Thursday during third hour the regular school day had an unscheduled fire drill. The reason it was unscheduled, as many students and faculty members found out, was because it was a real fire.

Can you imagine this scene? Hearing the fire horn blare, the teachers line up their students and march them outside, as they are supposed to.

Then the relief bell sounds and everyone goes back to their respective seats in class, or back to the lunch room.

Suddenly, two fire trucks go through the parking lot with their sirens and lights going.

Yes, a new record was set for clearing the building of students.
