

Annual School Election Slated for June 14

Clerk's File

By Howard Altman

Election Process Explained

Several questions regarding the annual school election in relation to township involvement have prompted an item on election process, a function which is exercised at maximum efficiency and significantly low expense. This is due to the school district and township administration using permissive legislation and cooperation in eliminating duplication and attaining mutual

benefit. The net result being a savings to the tax payer.

The state election laws and school code pretty well cover all election activity for state units and when our school system recently chose to become a "registration district" a number of changes were required.

Election of school board members as well as submitting millage and bond issues to registered school electors now made it necessary to:

1. Establish polling precincts within the school district and locate places;
2. Establish by precinct a list or registration card for every eligible voter;
3. Acquire voting workers and 5. Appoint a canvassing board and generally provide for the many other actions that preclude and follow an ordinary election.

In 1960 the township was made up of three voting precincts. A subsequent census made it necessary to add two new precincts with 1400 voters to each machine precinct and 800 voters to a paper ballot precinct. After the boundaries were set and five precincts were established, the school administration was asked if the school buildings could be used as polling places. Upon their consent, the township purchased three new voting machines at a cost of \$1600 each . . . and the township was in business.

When the school became a registration district, mutual cooperation and assistance was established. 1. The school district and township precinct boundaries were made one and the same. 2. A complete list of certified registered electors was forwarded to the school. 3. Voting machines and other voting supplies were made available for school elections. 4. Mutual appointment of a canvassing board and experienced election workers was made. 5. Finally, as the law permits and by resolution of the school board, the township clerk was appointed to conduct future school elections.

This agreement and the cooperation that exists between the school administration and the township serves as evidence to the benefits that can be enjoyed by all residents of the community that when there is a desire to promote a mutually desired product.

This past week, a review of township and school registration has been completed. The result included the removal of 336 invalid registrations from existing school records.

As of now the school registration books are a duplicate of township books. This is with the exception of those voters who live in the Clarkston school district but maintain residence in another township, such as

Three Year Old Rescued from Lake

A resuscitator run to assist a three year old youngster who had fallen into Woodhull Lake was one of three Independence Township Fire Department calls this past week.

Assisting in her rescue, and assistance, until firemen arrived were Margaret Root of 4732 Lakeview and Ernest Sorles of 4743 Lakeview. The child was taken to Pontiac General Hospital.

Three firemen and one truck were needed to extinguish a field fire June 1 and four men responded to a building fire on June 2 at 4622 Hillcrest. The June 2 fire was attributed to a hot motor in a washing machine. A \$15 loss resulted.

Peace Corps To Test June 12

An opportunity for Clarkston area residents to test their aptitudes for Peace Corps service will come at 9 A.M., Saturday, June 12, at the Pontiac Federal Building, Room 1, East Huron and Perry Streets.

The opportunity is the Peace Corps Placement Test, which is not passed or failed and you can't study for it. It measures general aptitude and the ability to learn a language. If, for example, test scores indicate limited language acquiring ability, the Peace Corps tries to place the applicant in an English-speaking area. The test is used by the Peace Corps only as a tool in the matching of volunteers and jobs. The Peace Corps application is the most important indicator of suitability for Peace Corps service. It must be filled out and brought to the exam unless previously submitted.

Applicants should plan on about one and a half hours at the testing center, unless they wish to take the Spanish or French language achievement test, which requires an additional hour.

Building Permits for Month

Total estimated value of the building permits issued by Independence Township for the month of May is \$895,168.

Broken down, the figures show 27 new home permits at a total of \$489,600; additions and remodeling, 14 permits, totaling \$23,197. Garage permits issued added up to 15 at an estimated value of \$18,871.

One 48 unit apartment building was valued at \$353,000; two swimming pool permits, \$7,600 and one barn permit, \$2,900.

The 3:30 performance will consist of three ballets; a creative dance-lecture demonstration narrated by Elizabeth Appleton; "The Little Prince," with narration by WJR announcer George Collins; and "The Carnival" with music by Kavelovsky.

Included in the 7 p.m. concert will be violin, flute, piano and voice students who come from Walled Lake, Rochester, Union Lake, Detroit and Birmingham, as well as the immediate area.

Clarkston students participating in the concerts are Isabel Robinson, Elizabeth Booth, Barbara Booth, Diane Green, Victoria Moon and Janette Howey. Others are Michael and David Wiley, Linda Heath, Mary Lisa Naz, William Magoon, Mark Parker, Susan Stinson, Susan Paul and Rebecca Byers.

Providing the orchestra accompaniment for the concertos at the second piano, Clarkston Conservatory of Music instructor Ivan Rouse.

Store Adopts Babies

Speaking of something captivating, O'Dell Drugs will feature a series of cute baby photos in their newspaper ads each week. Watch for them - you'll get a chuckle each time you see them. The first baby ad appears in this issue.

Thefts and Vandalism Hit Area

Three breaking and enterings and one malicious destruction case occurred in the area during the past week, according to Oakland County Sheriff's Department.

Vern Hall reported a June 3 breaking and entering and theft at his home, 5111 Maybee Road. Included in the stolen goods, valued at \$200, were a set of golf clubs, a 35 Remington rifle and a transformer. The case was referred to detectives Whitlock and Dolby for investigation.

The Walters Lake area was the location for a breaking and entering which also happened June third. Theft took place in an unoccupied log cabin at 4880 Algonquin, owned by Paul Frechette of 9241 Easton Road, Clarkston. The case is being investigated.

A June 8 theft was reported by Elton Saeft of 1540 South Williams Lake Road, Waterford. According to Saeft, someone entered his garage during the night and removed a tractor, tiller attachment and rotary mower. The items were valued at \$800 and the case is under investigation by detectives Gerald Jaedi and Raymond Bills.

Also under investigation by the same detective team is a malicious destruction case which involved property belonging to Carl Schmidt of 4500 Hillsboro Road, Clarkston. According to the Sheriff's Department, parts of a hay baler were removed and scattered or destroyed. The case was reported June 7.

Twp. Swim Classes Registration

Registration date for the summer swimming program has been announced by Independence Township Recreation Department.

Parents of elementary and high school level youngsters may register June 17 at 7:30 p.m. in Clarkston Junior High School.

Registered Red-Cross instructors will conduct classes Monday through Friday from 9 a.m. to 1 p.m. Location for the classes will be at Deer Lake. Directing the program will be Betty Cobb of Clarkston.

In one year, the newsprint consumed by newspapers in American cities and communities would make a continuous ribbon of paper fifteen inches wide and more than 195 million miles long.

5500 Eligible to Vote

Voters will go to the polls Monday to decide who is to fill the two vacancies on Clarkston Community Schools Board of Education. Also to be decided in the annual school election, is the proposition of hiking the existing one-half mill slated for Oakland County special education to one mill.

Running for the board of education

seats, each a four-year term of office, are candidates Richard L. Funk, incumbent Harold Hicks and Frank Ronk. The one-half mill proposed if passed will go toward increasing, or adding to the facilities used for the education of handicapped children. This would include youngsters disabled either physically, mentally or emotionally.

Election polls will be open from 7 a.m. to 8 p.m. Precinct No. 1 is located at Independence Township Hall, 90 North Main Street; Precinct No. 2, Sashabaw Elementary School Building, 5275 Maybee Road; Precinct No. 3, Independence Township Fire Station No. 2, 7825 Sashabaw Road.

Precinct No. 4 is located at Clarkston Elementary School, 6535 Waldon Road; Precinct No. 5, Pine Knob Elementary School, 6020 Sashabaw Road and precinct No. 6, Andersonville Elementary School, 10350 Andersonville Road.

Fifty five hundred voters in parts of Independence, White Lake and Springfield Townships, making up Clarkston School district, are eligible to vote.

Clarkston school district's special education program encompasses services and facilities for 200 handicapped children. Included in this figure are 60 mentally retarded students who receive instruction at the primary level, later elementary, junior high and high school.

The special education staff also includes two speech correctionists, a visiting teacher and a school diagnosis.

Because there are not enough students to warrant local school room facilities at the present time, physically and emotionally handicapped children are transported daily to Pontiac. It is felt, however, that in the near future, due to an increasing number in this category, it will be necessary to provide school rooms in the school district.

It has also been estimated that within the next two to three years, additional facilities at the local level will be needed to adequately cover the needs of the mentally retarded.

The special education program and counseling referendum to be voted on Monday is endorsed by Clarkston Board of Education members who urge residents to give their support.

faithful service, I decided it was time for some of us younger residents to pick the obligation.

My years in PTA work has given me some background into the problems of School Administration. As a parent of a school age child, I'm interested in obtaining and maintaining the best possible teachers and facilities. As a taxpayer I'm interested in seeing that we get the most for our tax dollar, and getting more tax dollars if needed, as schools and education are a far better investment in America than jails."

A three-car accident on Dixie Highway, south of M-15, resulted in the hospitalization last Thursday of Russell L. Inman, 17, of 6682 Almond Drive, Clarkston, driver of one of the autos. He was taken to Pontiac Osteopathic Hospital.

Also involved were Elmer J. Sturdevant, 57, of 1397 Hira Street, Pontiac, and Evalene Little of 880 Snowapple, Clarkston. Neither Sturdevant or Mrs. Little, drivers of the other vehicles, were injured.

Jured.

According to State Police, the Sturdevant and Inman autos had stopped for a school bus. The Little car struck the rear of the Inman vehicle causing it in turn to hit the Sturdevant auto. Mrs. Little stated that her heel had caught on the floor mat and she couldn't apply her brakes in time to avoid the collision. Clarkston News photo.

Clarkston High School News

This is the last week of school for the Junior, Sophomore and Freshman classes. Most of the school week was spent in either preparing for the final exams, or taking them.

It won't last long. There is one day left for exams as you read this article, then the halls of the high school will be empty for the summer.

Empty? Well, empty of students

hurrying from one class to another, perhaps, and there will be no teachers relishing that free period in the lounge, but only in that sense are the halls empty.

Anyone who has had any connection with the school will never be able to see it as an empty building, not if they have any sentiment. You can still see the students if you look close enough.

Consider a former student returning to visit his 'old' high school. (old being used in the sense of meaning former) If he is a sports fan, he will go to the gym. Through that little pane of glass he is able, perhaps, to relive a thrilling moment as wolves rush back and forth across the floor to another two points and victory.

Then, after the home games, he may walk his date up to the cafeteria where a class or club is sponsoring a victory or consolation dance.

Perhaps the scene he relives isn't just any dance. Before his eyes the scene blurs and he is caught up in all the enchantment and magic of the Junior-Senior Prom.

Once again he and his date join their friends at a card table while the band fills the air with music; or they glide across the floor, enjoying every moment to the fullest. Perhaps the auditorium holds his memories. He and his date sit and watch in admiration as their friends and classmates present a play.

Or, even more memorable, they are on stage, standing before the floodlights, putting on the best performance they can and listening to the applause. Their memories of the auditorium may not be of plays, however; they may be hearing again a concert presented by the band or choir.

Again, they may be on the stage watching the instructor as he counts the time and begs for more volume or motions for silence.

Perhaps they had nothing to do with any of the many extra-curricular activities. Where then are their memories?

Could it be they will recall the

locker of a certain boy or girl? How many times did they stand there and talk before or between classes?

Where are their memories if they were too involved with their studies for dates, or a boy or girl friend? For these there will always be a special class, where they listened to the teacher. (Most of the time at least)

Maybe it will be memories of the cafeteria and libraries during lunch hours, where one could talk with their friends about the rough tests. Perhaps the conversation may concern a rough teacher.

With all these memories, how could the high school be empty?

Flag Day

Flag Day, observed next Monday, was proclaimed a holiday by Woodrow Wilson during his term of office. The date June 14 goes back to the year 1777 when congress approved the star and stripe design of our country's flag.

It is a day for all patriotic citizens of the United States to pause and give thanks for being the most blessed people in the world . . . Americans.

News never takes a holiday and this newspaper continues to bring that news to your home throughout the year as it happens.

Clerk's File

White Lake and Springfield. The school acquires and maintains its up to date registration in this manner as the law provides.

As defined by the election laws of the state, only the township, city or village clerk (or his duly appointed deputy) may take registrations for the purpose of casting a ballot in elections.

In Independence Township, registration is taken in triplicate form, yellow, green and white. The yellow copy is placed in the Township registration book. The white copy, by law, becomes part of a master file; the third copy is forwarded to the school board for placement in their registration book.

Registrations of residents of In-

dependence Township who live in another school district, Waterford and Orion, are so marked and sent to the respective school boards.

If a registration is removed from the township records due to death, moving from the area or failure to vote within a two year period, a certified notice of such removal is forwarded to the school district. They in turn must remove such names from their registration books, in this manner we are able to keep accurate and up to date registration records.
