Tax notices will be in mail soon

Village Treasurer, Mrs. Pappas states that the village tax bills will go out sometime after July 4. The figure of total assessed valuation had not been received by Mrs. Pappas yet.

The taxes are due on September 1st unless given an extension by the village council. They would then be collected by the county with a 4 per cent penalty attached plus 1/2 of 1 per cent interest per month until paid.

Oakland county's traffic fatalities for the year jumped to 67 following this accident early Sunday morning. Garry C. Carpenter was thrown from the car as it went out of control on Dixie Highway.

Pontiac youth killed in high speed accident

A 20 year old Pontiac man was killed in a one car accident early Sunday morning, when his car went out of control on the Dixie highway near Bridge Lake Road. Garry C. Carpenter of 384 N. Perry, Pontiac, a mailing room employee of The Pontiac Press, was thrown from his car when it skidded the length of a culvert and smashed into a rockpile. Police estimated his speed just before the accident at more than 100 miles an hour.

It raised the traffic toll in Oakland county to 67 for the year. His services were conducted at 1:30 p.m. on Wednesday from the Sparks-Griffin funeral home. Burial was in Oakland Hills Memorial Garden in Novi. He is survived by his parents, Calvin Carpenter and Mrs. Lucille Thompson, both of Pontiac, his grandmother, Mrs. Maude Smith of Jonesboro, Arkansas; two sisters and two step-sisters.

Board hears mobile home request, approve subdivision plat plans

The Independence township board in its meeting last week heard a communication read from the State Health Department in Lansing stating that they had received an application for construction of a Mobile Home Park. This park, if permission were granted, would be built on Clintonville road in section 35 on the east side of the township.

Stanley Eaton and James D. Humphrey had requested approval from the Health department and they had also petitioned the Zoning Board of Appeals for permission to construct the park. It would be 660' by 1500' encompassing approximately 20 acres.

The property is presently zoned commercial. Present plans call for 115 units. Approximately 100 people living nearby have signed petitions in favor of constructing it.

In other action the board approved the final plat of Pine Knob Estates located in Section

26 as presented by McAlpine, engineers. This plat involves only 10 lots.

They also approved the preliminary plan of Cranberry Heights Subdivision #2, conditional upon four points as established by the Planning commission, one of which requires a central water system. Preliminary plans were also approved for 8 lots in Rolling Hills Subdivision #1, which is located in Section 4; for 10 lots in Hubbard Hills Estates located in Section 17 and for 7 lots in Whipple Hills subdivision in Section 5.

The Board also adopted a previous study and report on cemetery lots and services. This will raise the prices of cemetery lots and the services required on them.

The Clarkston Area Jaycees had requested the Board to allow them to have a Carnival Show on US-10 and M-15 from the 7th to the 10th of July. This request was granted.

Township ponders costs of Clinton-Oakland sewer

Independence township officials are trying to determine if the township has the financial ability to participate in the Clinton-Oakland Sanitary Sewer System. At the last meeting of the township board held on Tuesday evening, June 21, the third in a series of public information meetings regarding this question was held.

A representative from Stratton Associates, Inc. of Detroit was present. This is the firm which the township has since hired to make a study of the financial situation and to make recommendations to the board. This report which will be prepared by Stratton Associates will be given to the township board by July 19. They have been retained by the board and will encompass in their brief report (because of the time element involved) their recommendations relating to the school, the village and the township in general.

Township officers have estimated that the cost for the first year of the project would amount to about \$65,000. It would escalate each year until the year 2007 when it would reach \$99,000 and then it would start to decrease again.

This does not include the cost of setting up an internal system once the township has purchased capacity in the interceptor. That cost will also be studied by the financial consultants.

Officials feel that they will have to go along with the plan now or be faced with spiraling costs for every year that they do wait. At present there seems to be few problems in the township, where most of the homes are equipped with septic tanks. Growth will doubtless come

around I-75 and south and it would be in that area that the system would be directed and as the population growth comes, it would be expanded to accommodate the influx of residences.

When the Stratton report is finished, and if they recommend participation in the System, a more detailed financial study will be made.

Retirement Party slated for Ethel Rowley

A retirement and farewell party is being planned for Mrs. Ethel Rowley, Clarkston teacher. It will be held on Sunday, July 10 at the Independence Town Hall at 90 N. Main street, Clarkston beginning at 2:00 p.m. She is retiring after 22 years of teaching in the Clarkston school system. She taught at the Old Bailey Lake school as well as the Sashabaw and Pine Knob schools.

The party will be in the form of a potluck dinner under the direction of Mrs. Russ Rhynsdent and her daughter, Mrs. Richard Swain. Mrs. Gordon Buzzell is also assisting with the arrangements.

Mrs. Rowley, who lives at 3470 Lakeview, will be moving soon into the Church street apartments now under construction. During the summer she will be visiting relatives throughout Michigan. She hopes to spend the winter months in Florida and Texas.

In addition to the 22 years of teaching in Clarkston, she taught 1 in Pontiac and 2 in North Carolina. It was in that state that she first began her teaching career following graduation from Wayne State University where she has a B.S. degree in Social studies. Mrs. Rowley was born and raised in the thumb area of Michigan.

She also worked for awhile at GMC Coach in Pontiac. She and her husband, Albert, who passed away 3 years ago, raised 3 children. She attends Seymour Lake

Methodist Church and takes an active part in Church activities there.

She had taught all of the grades at the Old Bailey Lake school and former students refer to her as "being just like a mother to them". It is memories such as these that will be recalled on the Sunday afternoon of her party. Former pupils and their families are urged to attend and to bring pictures and mementos of their days in school.

Mrs. Rowley, in her retirement hopes to do a lot of travelling, and to have time for her hobbies, one of which is china painting. She is temporarily living with Mrs. Ira Snade on Sashabaw road until such time as her apartment is finished.

The Waterford township school district got \$347,263 which was the second highest amount allocated. The Oakland Intermediate district received \$6,987.

Deny license transfer

The Independence township board has denied a request by Lyle Tatu for the transfer of a Class C liquor license from 6722 Dixie Highway to the corner of Maybee road and Sashabaw roads. This action was taken at last week's township board meeting.

Nicholas Manzella has also asked the township board to reconsider their action in his case and that they recommend that the State give back his Class C liquor license. He has been acquitted of assault and battery in a case arising in Manzella's Bar located at 7504 Dixie highway. No action was taken on this matter by the board.

A huge display of fireworks will conclude Clarkston's July 4th celebration on Monday. The display will take place as soon as it is sufficiently dark for a good showing. Spectators are urged to park their cars on the Junior and Senior High Parking lots for the best view.

Independence township Fire Department members are working hard to make Monday an outstanding Holiday and also a safe one for area residents.

Beginning promptly at 10:00 A.M., there will be a huge parade. It will form at the corner of Miller road and M-15. It will then proceed down Main street. There will be gifts for all the kiddies which will be passed out along the parade route.

Members of the Board
 Township of Independence
 Clarkston, Michigan

We have examined the statements of assets and liabilities on a cash basis, of the various funds of the Township of Independence as of March 31, 1966, and the related statements of cash receipts and disbursements and fund equities for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying statements of assets and liabilities and the related statements of cash receipts and disbursements and fund equities present fairly, on a cash basis, the financial position of the various funds of the Township of Independence as of March 31, 1966, and the results of operations for the year then ended in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Very truly yours,

What's happened to the parents who would like to see tradition and faith preserved?

Specifically, where are the parents who remember the honor, solemnity and inspiration of their high school Baccalaureate Service? Why was nothing done when Clarkston High School discontinued these services for the graduates? Even Waterford Township refused to surrender the traditional service. Pontiac still holds services for the graduates. The Waterford ministers displayed their beliefs in action by joining together to preserve the inspirational and traditional Baccalaureate Service for the community's young people... after the School Board ruled that the school could no longer sponsor the services. Why haven't the parents and ministers of Clarkston felt the same obligation to our young graduates? And what explanation does the School Board offer for the discontinuance of this traditional and beautiful time in the culmination of a high school education?

CONCERNED PARENTS

Dear Editor:
According to an article in the June issue of Reader's Digest, ("The Joyous Sound of Freedom"), approximately 20,000 towns and cities in our country will be celebrating the Fourth of July in a rebirth of pride and tradition. In 1963, when the idea was first revived, over 750 organizations with a 50 million membership, including historical societies, national and civic organizations, were backing the bellringing. Congressmen sponsored a resolution. State legislatures approved the idea, and 40 governors issued proclamations. President Kennedy contributed his endorsement. Clarkston produces a wonderful parade, fireworks and many other events that show recognition to July 4 and the

There will be a bang-up parade, softball games, a display of fireworks and street dancing to celebrate the 4th of July in Clarkston.

No unreasonableness here

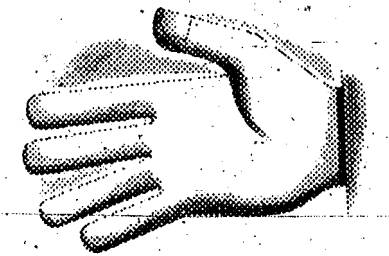

Negotiations between the Clarkston teachers and the Board of Education are moving along very well and it is anticipated that a master contract will soon be signed. Residents of the Clarkston district should be very proud of this. As we look about us in other districts, we see militant teachers and school boards caught in a real pinch.

Due to our economic climate it is no wonder that teachers have become aggrieved about salaries, duties and size of classes. Union labor wages have gone upward and far above those offered teachers. But it is also futile for them to strike out at school boards who have just so much money to mete out, or at taxpayers who are up to their ears in property taxes.

The Michigan Association of School Boards thinks that it is wrong when teachers strike or when they make demands on school boards that the board is helpless to meet. We agree with them.

But the whole situation will only be solved when there is tax reform in Michigan. Money to operate schools must come from some other source besides property taxes.

Reaching out

-A FIRM FOUNDATION-

He is like a man who built a house, and dug deep, laying the foundation on a rock; and when the flood arose, the stream beat vehemently upon that house, and could not shake it, for it was founded upon a rock. Luke 6:48.

Every man desires that his life afford him a feeling of true satisfaction, an inner security. To achieve this he must build well every day.

A man's life may be likened to a building. He is given a foundation, God's mercy and providence, and His assurance that perfection is within his reach. The task is to build upon that foundation, that personal salvation may be gained and that others may see and be inspired to press on toward the one great goal of life.

We have all been given the same basic foundation. What and how we build upon it is of our own choosing, our own free will. Very often errors accumulate and problems appear insurmountable. Then it is that we must humbly turn to God for renewal and begin again, knowing that we have a constant, unshakeable foundation of strength on which to build.

Eternal God, our Father: Grant unto us, we beseech Thee, the desire to base our lives wholly on Thy precepts, that we may gain that inner peace which Thou alone canst give.

AMEN

Modern Johnny Appleseed

Nearly everyone is familiar with the true story of Johnny Appleseed, a pioneer of conservation, reforestation and beautification. But few are aware of the extensive reforestation program being carried on right here in Michigan!

Back in the twenties, Consumers Power started a reforestation program. Today, we plant about 750,000 trees a year. As a result,

23,000,000 additional trees are growing along Michigan's beautiful streams and rivers. These millions of trees are valuable not only as a practical conservation program, but provide wooded beauty, a haven for wildlife and add to the pleasure of hunters, tourists and vacationers. It's another nice thing about having Consumers Power as a neighbor.

Where "C.P." stands for Continuing Progress

Jerry, shown above, is typical of boys waiting for a Big Brother, says Floyd A. Metz, Executive Director of Big Brothers of Oakland County. Male volunteers are needed to help the Little Brothers—boys from fatherless homes—participate in healthful outdoor activities. "Help me become a man," pleads Jerry. Call Big Brothers of Oakland County at FE 8-9281 for more information.

Big Brothers needed

Boys from fatherless homes are waiting for a Big Brother so they can take part in healthy summer activities. So states Floyd A. Metz, the Executive Director of the United Fund Agency, Big Brothers of Oakland County.

One hundred twenty-six boys have a critical need for a Big Brother with summer vacation approaching, Metz says, as there are many outdoor activities available and boys have more leisure time to engage in them. They need a mature man to help them enjoy the activities of summertime.

During the summer months generally a letdown in the number of men volunteering occurs. "However, the needs of boys go on—summer or winter—and the void in their lives increases dur-

ing the summer when they see other boys enjoying the comradeship of their fathers in such activities as fishing, camping, baseball, swimming and picnicking," Metz says.

He goes on to point out that men who are willing to give companionship and friendship to a boy from a fatherless home the year round find that they in turn receive great satisfaction by helping a boy become a man.

Men are urgently needed. Those wishing to volunteer as Big Brothers should contact Mr. Metz at Big Brothers of Oakland County, 132 Franklin Boulevard, Pontiac. Phone 338-9281.

M.S.U. Graduates

Two Clarkston students were among the 3,487 who were awarded degrees from Michigan State University at its spring quarter commencement exercises on Sunday June 12. Vice President Hubert Humprey delivered the address. He was also given the honorary Doctor of Laws degree at the ceremonies.

Paula L. Parker of 6683 Eastlawn, Clarkston graduated with honors and received her B.A. degree in Elementary education.

Also from Clarkston was Robert E. Dewey of 6282 Snow Apple Drive who received his B.A. degree in Social Science.

Jean C. Wohlgelegen of 5891 Dixie Highway, Waterford graduated with high honors and also received her B.A. degree in Elementary education. Receiving his B.A. degree in General business administration was Charles T. Jockwig of 6248 Balmoral Terrace, of Waterford.

Clarkston boys hold offices at Boys' State

Four Clarkston boys who have been attending Wolverine Boys State on the campus of Michigan State University have been elected to offices in the mock government which they establish while attending the affair.

Clayton Wilson has been elected as a City councilman for Roosevelt City. He is sponsored by the Clarkston Rotary Club and is the son of Mr. and Mrs. Donald W. Wilson of 6701 Pear street.

Chris T. Maier of 4920 Pelton Road, sponsored by the Pontiac Elks Lodge #810 has been

elected Taft City treasurer.

Named to the Bingham County Board of Supervisors was Jack W. Frost. He is attending under the sponsorship of American Legion Post #63. He is the son of Mr. and Mrs. Jack C. Frost, residents at 6125 Cramlane Drive.

Also sponsored by the local American Legion Post is Mike Dougherty. He was named to the office of Justice of the Peace from Adams township. Mike is the son of Mr. and Mrs. Charles E. Dougherty of 6235 Middle Lake Road.

During their stay there the boys will play the role of junior politicians and build a unit of government, electing their own representatives and city and state officials for a model state. They will be assigned cities, petition for offices, form party platforms and caucus their way into a whirlwind of self-government.

Ham operators hold days alert at Colombieri

The Motor City Radio Club of Detroit took part in the American Radio Relay League Field Day contest last Saturday and Sunday. Their station for this 24 hour event was Colombiere College on Big Lake Road near Clarkston.

Thousands of radio amateurs throughout the United States and Canada participated in the event. They were demonstrating their effectiveness in providing emergency communications should the need ever arise. Such instances for their need could be any disaster such as hurricanes, tornadoes, earthquakes, etc.

It also served to provide them with emergency training for such an experience. For 24 hours or from 4:00 p.m. on Saturday until 4:00 p.m. on Sunday, the group was in operation. This was their 31st annual event. In addition to setting up the equipment members of the group which included boys and girls as well as men and women, operated the generator powered rigs, prepared their meals and kept official logs.

The site at Colombiere college was the only one selected in this immediate area, although there were others at Milford, Rochester and Romeo.

Receives degree

Awarded an Associate of Engineering degree in Building Construction was Alan Roy Aulgur, son of Mr. and Mrs. Edgar R. Aulgur of 6517 Snow Apple Drive, Clarkston. He received the degree at the June 5 commencement of Lawrence Institute of Technology. He is a graduate of Clarkston High School and is employed as a field engineer by Barton-Malow, general contractors in Oak Park.

CARL F. INGRAHAM for CIRCUIT JUDGE

What causes accidents? Ask an expert

He sees them every day, in the traffic congestion of large cities, on the quiet streets of small towns and on the open road. He spends most of every day behind the wheels and he knows what the dangers are on our streets and highways. His driving record shows that he is well trained because Mr. "Average Truck Driver" drives hundreds of thousands of miles without a chargeable accident.

Discuss accidents with him. He won't talk about nuts and bolts. He knows that most accidents are the result of poor driving practices.

The excellent safety record of professional truck drivers is no accident; it is the result of proper driver training and a continuing campaign to emphasize safe driving techniques. As a result, truck drivers obey the law, are courteous, alert and always drive, aware of the dangers which are present.

If you ask an expert what causes accidents, he'll tell you it's the driver behind the wheel that makes the difference.

THINK SAFETY—DRIVE SAFELY
