Jim's Jottings

By Jim Sherman

Jerry Fillmore, Oxford resident and buyer for J. L. Hudson's, flew all the way from New York to Paris sitting next to Briget Bardot and didn't know it until just before he landed.

The only way he found out was when he left his seat, several male passengers nudged him or winked, silently paying tribute to his virility.

That's the way I heard the story. But, just to make sure I had the planes going the right way I called Jerry. I easily believed all the rest.

What really happened was this. He took Air France from New York to Paris last month. He noticed a group get on the 747 that was theater-type and casual-mod dressers. He also noticed a gal who was a knockout, he said, and she had big, dark glasses on.

During the movie, a John Wayne western, Jerry walked back into the theater section and sat behind this good looking, "sexy as hell" gal. That's what he said. No one spoke during the movie and it wasn't until after he left the plane that someone told him it was Briget Bardot.

Jerry said she was well escorted with a physically able-bodied man.

Bumper sticker: WHFI, stick it in your ear.

Sue Baber of Lake Orion used to sell corn cobs door to door when she was young and also had a paper route in Clarksville, Mich. I wish she and I had more in common than that.

The more pens I buy, the more are needed. What in the world happens to all the ball point pens?

In 1970 we bought 10 dozen pens. We don't sell them, and no way can we use that many. We are outfitting the world. I suppose, however, that every other pen buyer in the country feels the same.

It's amazing how those who complain of being misquoted and newspapers never getting things right often quote papers to prove a point.

Why do so many people who drive compact cars, especially Volkswagens, sit like they are cold . . . huddled up. Even on warm days they give that impression.

Board discusses drains

Kenyon submits resignation

The Clarkston Board of Education received a letter of resignation from Ralph Kenyon, an Assistant Principal of the High School, at their regular meeting on March 8.

Kenyon asked that his resignation become effective at the close of this school year. He cited his need to supervise family business on the other side of the state as the reason for his request.

No action was taken by the board.

Kenyon is a graduate of Albion College and holds an MA degree from Eastern Michigan University. He came to Clarkston after graduation in 1959 as a science teacher and assistant football coach.

In 1962 he took over the head coaching job and was made assistant principal and athletic director in 1968. He and his wife, Linda, live on Holcomb street with their 4 children.

Members of the Board of Education present, Weber, Cattin, Rose and Fernandez, reviewed with administrators Barrie and Mason the position of the Board and the School District concerning the school drain system in relation to the flooding conditions in the Paramus

section. The discussion was the result of a story in the Clarkston News in which the Board was described as apathetic to the problem.

Ralph Kenyon

Correspondence of July, 1969 from the Township Board requesting permission, with the cooperation of the County Road Commission, to connect a street drainage tile into the underground drain located on the school property at or near the school property and Middle Lake Road, was reviewed.

Board President Weber pointed out that an unofficial survey had been made at that time by William Dennis and George White under the direction of Floyd Vincent.

"This survey was not done by certified surveyors," said Weber, "but the findings agreed very closely with the original certified engineers' report."

In further discussion it was pointed out that on August 11 the board took action to inform the Township Board that the transit check of the area indicated that the area in question was below invert level of the school drain system and that it would be impossible to drain the area in a northeasterly direction by means of the school drain system.

Dr. L. F. Greene, Superintendent of Schools, stated in his August 12 letter to the Township Board that any further discussion could be arranged by a meeting with members of the school board.

School involved

Court upholds Township

Independence Township attorney, Richard Campbell and attorney Harold Dudley, representing the defendants in a request for a restraining order, took action this week that made the March 8 hearing before Judge Farrell Roberts of Oakland County Circuit Court unnecessary.

An injunction was sought by the Township Supervisor, Gary Stonerock and asked that the defendants or any others be restrained from taking any steps that would prevent the natural flow of drainage water in the township.

These actions stemmed from the controversy which had occurred in the Paramus Street neighborhood late in February. Stonerock had directed that

cement be broken from a drainage pipe at the corner of Princess and Meadowlawn near the homes of the defendants, Richard Chandanais, Jack Lawrence and George R. Newlin. They objected to his actions.

Judge Roberts granted a delay in the subsequent hearing at the request of Harold Dudley, attorney, representing the three.

Since that time a survey, ordered by the defendants, indicated that the controversial drain was in the right-of-way of the private street.

"As a result of the survey my clients will not oppose the temporary injunction," said Dudley. "We are cooperating with the Township in an

effort to correct a bad situation. We will take this course because it seems to be the best move to benefit all property owners."

Judge Roberts ordered that the plaintiff, Independence Township, be permitted to return the drain to its original form and maintain it in an open condition, closing up the hole that was dug during the recent flood.

He further ordered that the Clarkston Board of Education be made a party defendant in the action because, in his opinion, their land is contributing to the water run-off and flooding condition.

Under study at this time is the question of including the Oakland County Drain Commission on the list of defendants. This action will be taken if it can be determined by the court that it would add to, or hasten, the overall solution.

The Independence Township Board acted recently to form 2 drainage areas. Authorization for the work would be done under Chapter 20 of the Drainage Code of 1956, PA 40.

This provides that a municipality, in this case, Independence Township, may petition the Oakland County Drain Commission to establish a county drain.

If these plans are successful, according to Supervisor Stonerock, work on the permanent solution to this flooding should begin in approximately 1 year.

No steak please

Somebody must have sneezed! A partial denture was turned in to the Clarkston News Office. It was found in the middle of Main Street.

The size of the 3 molars on one side and 2 on the other indicates that the denture belongs to a relatively young person.

Dentists in the area were questioned and cautioned to be on the alert for a

young patient who was devoid of 5 molars.

Parents are being cautioned to be suspicious if their offspring elects to dine on a bowl of soup in preference to steak.

The owner may claim his teeth by calling the Clarkston News or coming to the office where they are sealed in an air-tight envelope for safe-keeping.

Gesundheit!

ITA to appoint Light vote

The newly formed Independence Township Association will hold an open meeting on Monday, March 15 at 7:30 p.m. The meeting, which will be held in the Township Hall at 90 N. Main Street, is open to any resident of the township.

Various study committees will be formed at this meeting as a result of the statistics gleaned from the tabulation of the questionnaires which were circulated through the area recently.

obituaries

Raymond Butler

Raymond W. Butler, 61, of Pontiac died on March 6 after a long illness.

The former supervisor at Pontiac Motor Division is survived by his wife, Helen.

Also surviving are his children, Mrs. Dean (Barbara) Hetherington of Pontiac, Charles and Raymond, both of Clarkston and 9 grandchildren.

Other survivors are his sisters, Mrs. Muriel Griffith and Mrs. Wilma Stapleton of Waterford Township.

Funeral services were conducted from the Lewis E. Wint Funeral Home on March 10 and burial was in White Chapel Memorial Cemetery.

With no opposition for office and a blizzard continuing all day, the election was light in Clarkston Monday. Seventy-nine voters out of about 300 eligible went to the polls.

They returned Donald Cooper as president, Artemus Pappas, clerk; Mrs. Pappas, treasurer; Richard Johnston, trustee and Ralph Thayer, assessor.

The newly elected trustees are Thomas Irwin and Floyd Tower.

Cooper, 35, of 29 E. Washington, received 68, Pappas, 37, of 55 W. Washington was elected clerk for the 11th time with 76 votes and his wife received 74. Thayer received 73 votes.

Incumbent trustee Richard Johnston, 32, 6260 Middle Lake Rd., collected 53 votes. He was first appointed to the Council in 1968.

Thomas Irwin, 29, of 144 N. Holcomb, received 65 votes in his first run for village office and Floyd Tower, 144 N. Main, received 67 votes.

Wrestlers go to State Tourney

Three of Clarkston High School's varsity wrestlers qualified among the top 16 wrestlers in each weight for the entire state. In the back are, left, Kirk Dougherty and right, Mike Packer with Al Knake in front. Packer came home from the state contest with a 5th place while Dougherty and Knake placed 6th in their respective weight classes.

Clarkston High School's hopes for a wrestling champion were dashed, but 3 team members carried the Wolves' colors to the Class "A" state tournament held at Calvin College in Grand Rapids on March 5 and 6.

Participating in the state finals is comparable to being chosen all-state. Just 16 wrestlers in each weight are invited to compete.

Senior Mike Packer, the Wolves' 101-pound team co-captain, worked his way through the season's schedule to establish Clarkston High School's finest wrestling record, 38-4-0.

He brought home the first individual Oakland County crown, just one of 7 championships and holds 2 year champion honors for 3 tournaments, including the all-conference title.

At the state meet, Packer drew Walled Lake West in the first round, an opponent he defeated previously, 14-1, in a dual meet. Walled Lake couldn't wrestle, so Mike advanced. He then dropped a head to head quarter-final match to second seed Warren Mott, 6-4, and was eliminated when Warren lost in the semi-final round.

Mike's final placing at state was fifth.

Wolf senior, Kirk Dougherty, 122 pounds, had a winning over-all season record of 29-15-0.

He captured place medals in nearly every tournament, including 2 championships — one being the district, and was a runner-up once.

Dougherty drew the first seed Lansing Sexton for the first round at state and lost a decision. Lansing promptly lost in the quarter-finals and Kirk was out of the tournament. His final standing was sixth.

At 170 pounds, senior and team co-captain, Al Knake, was the Wolves' outstanding "big man." In racking up his 30-6-0 record, he captured 4 tourney crowns including an all-league slot and

the district.

Knake drew his first state meet match with Romulus and lost to a fall.

Romulus went on to be pinned by first seed Lansing in the quarter-finals and it was all over for Al. His final placing was sixth.

"Three men have shown the way and there's always next year," said coach Moscovic.

CHS Varsity wrestling coach Dick Moscovic is a graduate of California State College in California, Pennsylvania where he was a prep and college wrestler. This is his 2nd year as head coach here. He teaches industrial arts at the high school. Moscovic and his wife, Toni, have a 6-month-old son. Moscovic successfully completed the wrestling season last Saturday when 3 members of his team qualified for the State finals which were held in Grand Rapids.

Wins \$10,000 at Builder's Show

"We decided to go to the Builders and Home Show in Detroit because somebody offered us some free tickets. But then that didn't work out. We decided to go regardless."

That decision was worth about \$10,000.

Using the first 5 digits of his home telephone number gained Gerald A. Jones of Almond Lane a tie in guessing the correct number of nails that were on display at the Builders and Home show at Cobo Hall in Detroit.

He tied with Mrs. Dorothy Sewell of Northville. Their guess of 62,545 "hit the nail on the head."

Jones, 25, a design draftsman for Numatics, Inc. of Highland, agreed to share the winnings with Mrs. Sewell regardless of the result of the runoff contest that was necessary.

"If I had played my hunch a little father and used the office number I would have won again," said Jones. "But, it wouldn't have mattered because we had agreed to split the \$20,000 prize one way or another."

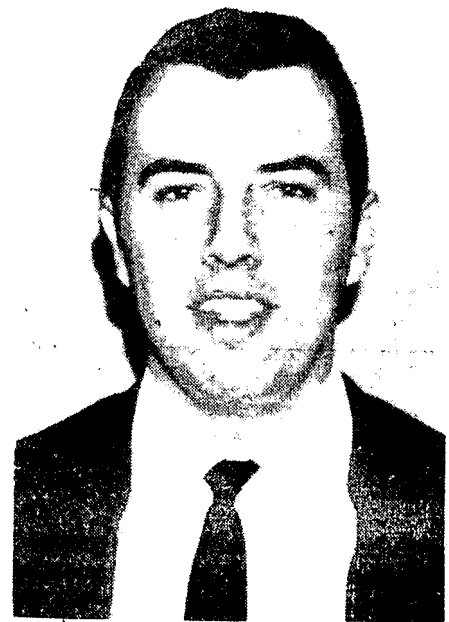

Mrs. Sewell estimated the number of nails that had been put into a plastic container at 568 and Jones said 522. There were 568 nails in the container.

The Jones, who met each other when they were students at Pontiac Central High School, moved to Clarkston last May. They have 2 girls, Wendy, 2½ and Kelly, 11 months old.

"Taxes will take a large part of the

winnings," said Mrs. Jones. "After that we hope to buy a car and a freezer. We will give 10 percent to our church, the Evangel Temple in Pontiac.

"We feel that is only fair because we feel somebody was looking out and helping us."

One good guess and one "not so good" netted Gerald A. Jones of Almond Lane half of the \$20,000 prize awarded by the Builders' Association of Metropolitan Detroit at Cobo Hall last week.

Two crashes injure 5

Two accidents in Independence Township on March 6 resulted in injuries to 5 persons.

A collision at 11:55 a.m. occurred at U.S.-10 at White Lake Road, when a car driven by Linda Bromm, 18, of 8665 Dixie Highway failed to yield the right of way and was struck by a car driven by Ervin Manninen, 23, 3610 Walton Blvd., Drayton Plains.

Manninen and his wife, Linda, 24, were injured along with Mrs. Bromm and 2 of her 3 passengers.

The injured passengers were Mrs. Bromm's infant daughter, Connie, 8 weeks old and Trudy Kranich, 14, 6280 Eastlawn. Diana Millen, 15, 6420 Eastlawn was a passenger in the car but was not injured.

According to Oakland County Sheriff's records, Manninen stated that he was driving north on Dixie Highway when the car driven by Mrs. Bromm turned into Deer Lake Road in front of him.

The injured were taken to Pontiac General Hospital.

At 2:21 the same day, Clinton Aligood, 52, of Ferndale was northbound on I-75 near Sashabaw. Aligood told Sheriff's deputies that he saw a car, driven by Pauletta Bates, 24 of Haslett, Michigan skid across the median but was unable to avoid the collision.

Mrs. Bates stated that she lost control of her car when it hit an icy strip.

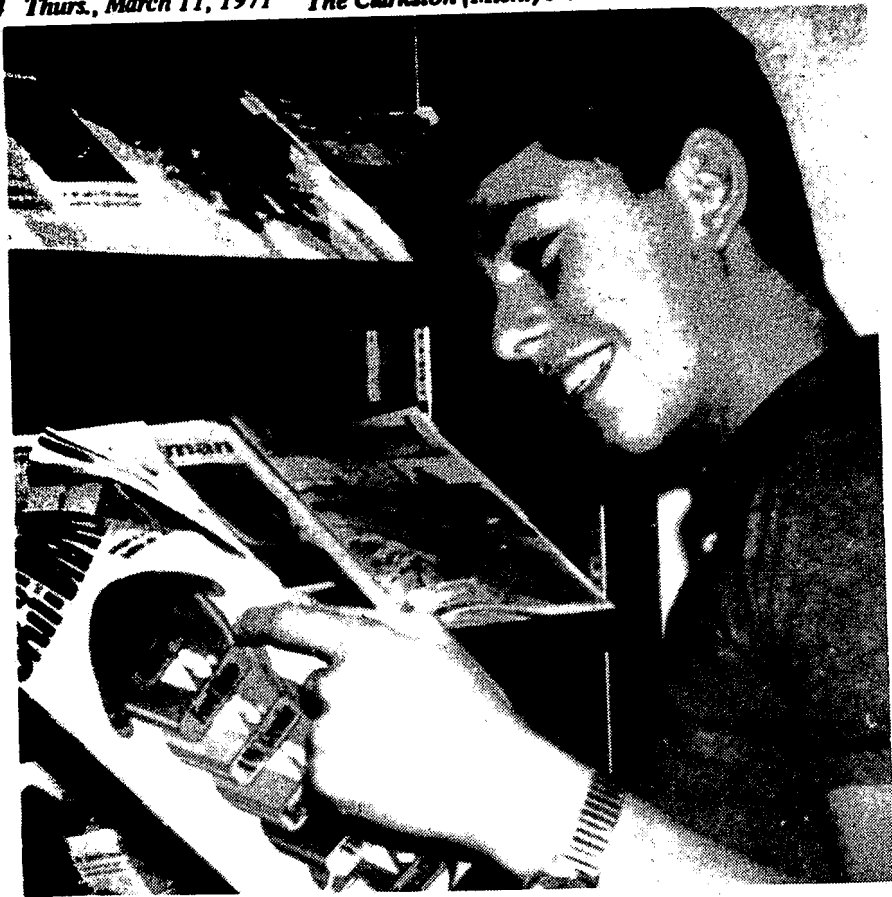

Both drivers were taken to Pontiac General Hospital for treatment of their injuries.

State maps here now

The new 1971 official Michigan road map is now available.

At the request of the Clarkston News, the State has sent a limited supply to be distributed to residents.

The maps are available, at no charge, to those who come into the office of the Clarkston News at 5 S. Main Street in Clarkston.

Jean Immerman

Exchange program brings student from Brazil

By Jean Sura

Jean Immerman is a handsome 9th grade student at Sashabaw Junior High School. He lives on Whipple Shore in Independence Township. All of which hardly seems newsworthy.

The spelling of his first name may give you a clue that he is not a native of this area. Jean (pronounced John) arrived in Clarkston on January 31. He is an exchange student from Brazil.

His American family are the Bruce Langdons. His American brother is Doug and his sisters are Diane and Dennise.

Jean is the only child of Mrs. Jacques Immerman and the late Mr. Immerman. His real home is in Rio de Janeiro, Brazil, where his mother teaches gym.

A friend of Jean's was a boy named Paul. Paul came to the United States last year and was an exchange student in Clarkston. His letters home were

enthusiastic and so Jean applied not only for the program but for the opportunity to come to Clarkston.

During spring vacation the Langdons will pack the family up and go to Florida. Then in July, after 20 days' traveling around the country, Jean will return to Brazil.

He is a car enthusiast and misses his motorcycle, but finds many things to compensate for it.

"I only wish," said Jean, "that you had a Mardi gras Carnival here. I couldn't help but think of all the fun they were having in Brazil last week."

As in the case of so many exchange students, the Langdons are already rueing the day when Jean will have to return to his own home.

The program that brings these students here to strengthen and broaden the understanding between nations seems to be most effective.

"If It Fitz . . ."

A night with Aunt Ella

By Jim Fitzgerald

The plan was to tunnel out of the country and go see Aunt Ella. Peace.

But first, reservations were necessary. I phoned in my name and a question came back: "Are you any relation?"

"Yassuh, Boss," I answered in my best Georgia accent.

My goodness, an ethnic joke? Shoot me.

Ella Fitzgerald isn't really my aunt. I just like to say she is because it would be groovy to be related to the best jazz singer in the world. For several years, I think my kids believed me. Then they got older and noticed that Ella was black, and I'm not. That's what happens when kids grow up. They learn Dad isn't Superman, he's a phony.

Anyway, Aunt Ella was singing at the Elmwood, that huge barn of a nightclub in Windsor, Canada, just a few

minutes under the river from Detroit. My wife and I had to go. And if a "Yassuh, Boss" would get us a seat nearer the stage, it would be worth the bruise to my liberal dignity. Heck, if it meant getting nearer Ella Fitzgerald, I'd order watermelon and tap dance on the table.

As it turned out, the headwaiter wouldn't have been impressed if I'd been Aunt Ella's long-lost father returned from 86 bleaching years in the desert. But he understood the dollar bills sticking from between my fingers. He grabbed the end of the bills and I didn't let go of my end until he had seated us close enough to reach out and touch Aunt Ella.

Oh my. Aunt Ella was only great. I couldn't describe that lady, whether she is skit-skating or ballading. You had to be

C.E.A. Report

The craft activities encompass several different areas — metals, woods, textiles, leather, plastics, graphics, and ceramics. Use of the basic tools and materials involved, along with a discussion of employing these materials creatively, is stressed. Every attempt is made to describe techniques and approaches so that the students may proceed from basic understandings to individual creative expression.

It is sincerely hoped that the activities of the crafts class may serve to spark the student's creative imagination, leading him to undertake individual projects of his own design.

The purpose of the crafts is to bridge the gap between the fine arts and the highly impersonal pieces that roll off an assembly line.

By Keith Poulson
Clarkston Jr. High teacher
Junior High Crafts Program I

The crafts program instituted for ninth grade boys and girls this year at the Church St. Jr. High, provides opportunity for the students to express themselves through the use of a variety of materials.

The creation of well-designed, artistic and useful objects should be a part of the life of every young person. Whereas some students may display creativity in art, or music, similar expression is possible also through a craft medium. Furthermore, a student who does not have the inclination for expression through the fine arts may well find a very satisfying outlet in craft work.

What the students use and what they create is up to them. There is no "right" or "wrong" connected with craft work. The craft program is set up and directed to the fulfillment of these needs.

PEEKIN' into the PAST

10 YEARS AGO IN THE CLARKSTON NEWS
March 9, 1961

The wheels have been turning round and round, setting the machinery in motion for the production of an intriguing, hilariously funny play, by the newly formed Village Players. The comedy "Two Blind Mice" has been chosen as their first selection.

Mr. and Mrs. Duane Anderson are the parents of a baby girl born to them February 20. They named their daughter Kathryn Lynn.

William Mackson has been elected president of Sigma Tau Gamma fraternity at Western Michigan University.

Lucy Oakley was initiated into the Pi chapter of the Kappa Alpha Theta Sorority of Albion College.

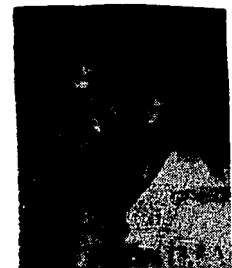

25 YEARS AGO IN THE CLARKSTON NEWS
March 8, 1946

Cadet Wells Squier, son of Mr. and Mrs. Ernest V. Squier of 12 N. Main St., student at Howe Military School, Howe, Indiana, will be home for spring vacation March 8 and will return to Howe March 17.

Edward Whipple's Pontiac Sales & Service building on North Main Street is going ahead at a great rate.

Last Sunday Robert Henry addressed the Methodist Church School on the life and customs of the people in the South Pacific where he was stationed for many months.

Mr. and Mrs. George Sutphen of Holcomb Street are spending a month in Phoenix, Arizona with their brother, L. D. Coffron.

Simplistic, right? A common trick of many entertainers. A lot of emotional malarky that sounds great to an integrated audience juiced up on jazz and booze. But when you wake up the next morning there's that lousy taste in your mouth. You know Aunt Ella is right on. But she's a sweet dreamer.

The next day, still humming "Put a little love . . .", it was back to my desk and this lovely note from a reader: "Government by law is trying to force whites to love, mix and mate with a lazy shiftless bunch of darkies that love to rape, knife, burn, kill and rob."

How would you like to pry a little love into the heart of the jerk who wrote that?

Nevertheless, I'll dream along with Aunt Ella. Please pass the Love.

there. One for instance: the finest song written in years is the Beatles' "Something." Until you've heard Aunt Ella sing it, you haven't heard it.

The warmest, most magic moment came at the end. Aunt Ella sang "Put a Little Love in Your Heart." She jazzed and souled that song so that your skin prickled and you couldn't catch your breath. And, as she sang it, she weaved along the edge of the big stage and reached out and touched hands with her fans. She reached out and touched white hands and black hands and she said put a little love in your heart.

Over 700 people stood up and reached out and seconded Aunt Ella's message: "Love is the answer; Brotherhood will conquer all if we'll just give it a chance."

May 11 questions uncertain

An election date has been set for Independence voters; however, at this date it has not been determined exactly what all will be voted on.

The most certain proposition for the May 11 ballot will be on rezoning Waterford Hill Golf Course to allow a shopping center and multiple dwellings.

This development involves A. & W. Gershenson, David Whitney Building, Detroit. These men have developed Pontiac Mall and Tel-Twelve among others. A K-Mart is the primary building in initial plans for the 66-acre golf property.

This land was rezoned from recreation to commercial and multiple by the township board before the last election. A petition drive followed that forced the referendum.

Two other zoning propositions may appear May 11. One concerns 122 acres on Clintonville for mobile homes and the other is 17 acres on Waldon for town houses.

Morris Singer of Detroit and Philip Kaplan of Southfield own the Clintonville

road site. This land was also rezoned by the previous board but a petition halted development.

Singer and Kaplan have been granted two restraining orders by the Circuit Court and the township has had them both lifted, allowing the petition count to continue and further movement toward putting the matter on the ballot.

Now the property owners have amended their complaint against the township and the township, through attorney Richard Campbell, has answered the complaint.

After considerable delay, signature counting has been allowed to continue on the petition for a referendum on Gerald Anderson's Waldron road property.

Once the petition is certified, this proposition could also be placed on the May 11 ballot.

The Township Board has a few weeks to decide exactly what will go before the voters. Since there are only township questions involved, the board can wait until the final election notice is ready for

publication to decide what propositions to present to the people.

This is about 3 weeks before the election.

Besides the possibility of 3 zoning propositions, the board may ask to abolish the annual township meeting. This can be done in townships of more than 5,000 population by a vote of the people.

Another possible question is the adding of 2 more trustees to the township board. This, too, is allowed under the Constitution, by a vote of the people.

PLEA invites

P.L.E.A., Clarkston Senior High School's Planning League for Environmental Action will hold a special program for interested students and citizens at 7 p.m. on March 15.

A documentary film, "The Gifts," will be shown. Township Supervisor Gary Stonerock will discuss what the township is doing about pollution.

Carolyn Place, instigator and chairman for the Bottles for Building Committee will give an up-to-date report on the progress of the glass trash collections.

The 20 member club invites community spirited citizens and fellow students to attend. Refreshments will be served.

Still other propositions are possible; however, these mentioned have been brought up at township board meetings.

Spiritual Message

The Rev. Alexander T. Stewart

"What is man, that thou art mindful of him . . . ?" Psalm 8:4

What makes us human beings important? It certainly isn't our physical stature in the universe where, actually, each of us is a

submicroscopic dot. Most people probably would say that the answer lies in man's intellectual capacity to master his physical universe. And with some reason, for man is ever increasing his knowledge and his powers over things. But, man still has not been able, intellectually, to control his own unruly nature and, usually he causes more problems than he solves. Any attempt at self-evaluation easily proves that man is unworthy of the place of importance that he holds in the universe - so, why does he possess it?

The simple truth is that man is important, not for anything that is in him, not for anything that he does, not for any power he possesses, but because God loves him. God loves us! And He loves us not because we are especially lovable, either. In fact, most of the time we are anything but lovable. But God loves us because He is infinitely loving. His love can and does overcome all of our inadequacies, if we will let it. We

never, can become worthy of His love but we humbly can accept it - and return it. However, we only become capable of this when we are able to view ourselves and God in proper perspective. What is man that God is so mindful of him?

What is God that man should be mindful of Him? We are important only because of our importance to God. It is not what is in us, but what is in Him that makes man important.

Registration set for football league

The Independence Township Athletic Association will hold its first annual meeting at the Clarkston High School at 7:30 p.m. on Thursday, March 11.

This will be sign-up night for the boys who plan to play football next season. Parents should accompany their sons so they can sign up for their membership.

Boys must be from 9 to 12 years of age to qualify for the program.

This meeting is open to all township residents and to all boys who attend Clarkston schools.

If you plan on building or remodeling... plan on modern ELECTRIC HEAT

When you build a new home or add on a new room, you naturally want everything to be new, clean and modern. That's why you should insist on flameless electric home heating—the truly modern kind of heat. It's quiet, trouble-free, as clean as electric light itself. And it can give you that wonderful exclusive feature—individual room temperature control.

An Edison-Approved Electric Heating Contractor will be glad to tell you all about comfortable, moisture-retaining electric heat. He'll figure your operating cost, and there'll be no obligation. Call him for an electric heat survey, or mail the coupon below.

NOTICE OF PUBLIC HEARING

Amendment of Zoning Ordinance

The Planning Commission of the Township of Independence, County of Oakland, State of Michigan will hold a Public Hearing at the Township Hall, 90 North Main Street, Clarkston, Michigan at 7:30 p.m. March 18, 1971 to consider amendments to the Independence Township Zoning Ordinance No. 51.

SECTION 5, SCHEDULE OF DISTRICT REGULATIONS. Minimum Building Size

Proposed increases in minimum square foot building size requirement for Single Family, Two-Family and Multi-Family Housing Structures.

To amend Section 5, Schedule of District Regulations. The minimum size of buildings shall be as follows, to wit:

Type of Building	Square Feet Usable Floor Area First Story		Square Feet Total Usable Floor Area		Square Feet Additional Floor Area for Storage and/or Utility	
	Present	Proposed	Present	Proposed	Present	Proposed
SINGLE-FAMILY DWELLING						
1 story in height	900	1100	900	1100		
1½ stories	768	850	900	1100		
2 stories in height	728	800	1,456	1600		
TWO-FAMILY DWELLING						
Per dwelling unit			728	800	100	100
MULTI-FAMILY DWELLING						
Efficiency unit			420	450	100	100
1 bedroom unit			600	630	100	100
2 bedroom unit			750	800	100	100
3 bedroom unit			900	1050	100	100

SECTION 6, SUPPLEMENTARY DISTRICT REGULATIONS. (Greenbelt Requirement)

Proposed increase in width of Greenbelt Requirement from six (6) feet to forty-five (45) feet.

To amend sub-section 8; paragraph (a) of Section 6 of Independence Township Ordinance No. 51; Rural Zoning Ordinance.

To wit: A greenbelt, minimum width of forty-five (45) feet, which shall be completed within six (6) months from the date of issuance of a certificate of occupancy and shall thereafter be maintained with permanent plant materials. Specifications for spacing and plant materials are shown below. Materials to be used are merely suggestions and shall not be limiting, provided their equal in characteristics are used.

Howard Altman, Clerk
TOWNSHIP OF INDEPENDENCE

Mrs. Rodney J. Kline

Honeymoon in the Bahama Islands

Marriage vows were exchanged by Yvonne Cheryl Lewis and Rodney James Kline on the evening of March 6 at the First Baptist Church of Clarkston.

A reception at the church parlors honored the couple who left on a wedding trip to the Bahama Islands.

The bride, who is the daughter of Mr. and Mrs. William Lewis of Holly, chose a floor length empire gown of velvet trimmed with Venice lace. Her illusion veil was chapel length and she carried white roses. Mr. and Mrs. Henry C. Kline of War-

bler Dr., are the parents of the groom.

Mrs. Michael Staton and Daniel Williams were the honor attendants.

Mrs. Michael Gobler and Brenda Kline, sisters of the bride and groom and Sue Keep were the bridesmaids in royal blue velvet with chiffon.

Kelly Rhoads was the flower girl and Kenneth Lewis was the ringbearer.

A brother and brother-in-law of the groom, Brett Kline and Kent Rhoads, assisted Joseph Kleist with the ushering.

The couple will make their home in Bloomfield Hills.

Mr. and Mrs. Charles B. Elliott of Church Street, announce the engagement and April 24 wedding of their daughter, Maud Ann, to David L. Haveman, son of Mr. and Mrs. Lambert Haveman of Holland, Michigan. The couple are students at Western Michigan University. Maud Ann is a 1969 graduate of Clarkston High School.

Mr. and Mrs. John Walts, Sr. of 6479 Snow Apple Dr., announce the engagement of their daughter, Sandra Mary, to Roderick Wallace Blimka, son of Mr. and Mrs. Lloyd Blimka of Meyers St. The couple are graduates of Clarkston High School. They are planning a June 5th wedding.

Kutting Korners

I don't know how the Irish ever did it! The cost of corned beef and cabbage today makes it a luxury dish and hardly a budget stretcher as was implied.

Anyway, for St. Patrick's Day we probably should celebrate and have a treat.

Our favorite is the flat cut of corned beef rather than the point. (You can tell the difference by the shape in case you aren't familiar with the two cuts.)

I just follow the directions on the wrapper. Cover the meat with water and bring to a boil, then simmer gently until it is good and tender.

When the meat is almost done, I add wedges of cabbage to the pot. Cover and cook until they're all good and tender.

We like plain boiled potatoes served with the corned beef and cabbage and I put a pitcher of the liquid on the table to slosh over the potatoes if you wish.

If you are not fond of corned beef fixed that way, try this.

MUSTARD GLAZED CORNED BEEF
3 to 4 pounds corned beef brisket
¾ cup brown sugar

1½ tablespoons prepared mustard
12 peppercorns, coarsely crushed.

Cover the brisket with water. Cover tightly and simmer 3 to 4 hours or until meat is tender. Remove from cooking liquid.

Place brisket, fat side up, on a rack in an open roasting pan. Mix brown sugar, mustard and crushed peppercorns. Spread on corned beef brisket. Bake at 350 degrees for 30 minutes or until glaze is set. Makes 6 to 8 servings.

Then again, maybe you want to be stylishly in season, but don't want to fuss with all that time consuming cooking. In that case, here is a corned beef casserole.

CORNED BEEF CASSEROLE

1 package (8 ounces) noodles, cooked
1 can (12 ounces) corned beef, diced
¼ pound American cheese, sliced
1 can chicken noodle soup
1 soup can milk
½ cup chopped onions
¾ cup buttered bread crumbs

Mix together all ingredients except the bread crumbs. (I still prefer soda cracker crumbs). Place in a 2½ quart casserole

dish. Top with the bread crumbs. Bake uncovered. Serves 4 to 6.

Last but not least, here is a surprise for all you gals who would like to corn your own beef briskets or tongue.

PICKLING BRINE FOR CORNED BEEF

2 cups coarse salt
4 quarts water
1 teaspoon saltpeter
¼ cup sugar
1 tablespoon mixed whole spices
1 teaspoon paprika
15 bay leaves
4 to 5 cloves garlic

Dissolve salt in water. Combine with remaining ingredients except garlic and

boil for 5 minutes. Cool. Place beef in a stoneware crock. Add four to 5 cloves of sliced garlic and pour over brine.

Cover with a large, heavy plate and weight it down with a rock or tightly sealed jar filled with water to keep the meat well under solution. Cover with a double layer of muslin tied securely around the crock.

Keep in a cool place, turning once a week. Leave in brine about 3 weeks. The crock cover may be adjusted, providing it is propped up so air circulates between it and the muslin cover. This amount will pickle 10 pounds of beef.

P. S. Happy Irish eating!

Around the town Think spring

by Donna Fahrner

Mrs. Warren Priebe of Amy Drive is being blamed for the weekend snow. Her parents, Dr. and Mrs. Marvin Hensley, who have been missionaries in China for the past 20 years arrived this weekend and Mrs. Priebe thought it would be nice if they could see snow. They have not been home in 11 years and then it was in the summer. The Priebe children were happy there was no school on Monday so they could stay home and visit with their grandparents.

Mr. and Mrs. Gray Robertson of Robertson Court have returned from a glorious three week vacation. They spent two weeks touring Hawaii and recommend it to everyone. One week was spent in Los Angeles visiting Mrs. Robertson's brother and family. The weather man welcomed them home with typical Michigan March snow.

The Woman's World Day of Prayer was held on Friday, March 5. Mrs. Mark Caldwell, wife of Rev. Caldwell of the Sashabaw United Presbyterian Church, was the speaker. Adele Thomas played the organ and Mariann Howenstein was the soloist.

Mr. and Mrs. Ken Winship of Snow Apple Drive spent the weekend at the Michigan Professional Photographers' Convention in Detroit.

Mr. and Mrs. James William Schultz of 49 S. Holcomb are the proud parents of a baby girl born February 28 at William Beaumont Hospital in Royal Oak. Sarah Marcella weighed 8 lbs., 13 oz. Grandparents are Mr. and Mrs. Lester Schultz of Bay City and Mr. F. J. Dowling of Birmingham. Great-grandmother is Mrs. Jean Whitlock of LaJolla, California.

Congratulations to Gerald Jones of Almond Lane for guessing the right number of nails in the house at the Builders' Show. I'm sorry to say my guess didn't even come close.

Chatham Club members are busy this week making costumes for their March 13 dance. The theme is Circus, so the C. A. I. Building in Waterford will probably be filled with clowns, tightrope walkers, peanut vendors and ringmasters.

The Rollie Gackstetter children, Julie, Tina, Rollie, Joseph and Richard welcomed Stacia Lynn on February 22. She weighed 6 lbs., 9½ oz. The newcomer is a granddaughter for Mrs. Rollie Gackstetter and Mrs. Margaret Migrants, both of Tawas City. The Gackstetters live on Snow Apple Drive.

Recent visitors to Sarasota Jungle Gardens in Sarasota, Florida were Mr. and

Mrs. James Glennie of Cranberry Lake Road and Mr. and Mrs. Howard Simmons, who are spending the winter in Bradenton, Florida.

The Job's Daughters of Clarkston have finalized their plans for their housewares party to be held on March 12 at 7:30 p.m. at the Masonic Temple. Games will be played and refreshments served. They extend an invitation to all to attend.

The Girl Scout cookies have arrived and the girls are very busy delivering them. If all households are like ours, we have good intentions of putting them in the freezer, but it seems they just don't make it and all diets are forgotten. If you didn't order any, the girls have extras and will be happy to sell you some. Contact any Scout or the chairman, Mrs. Harry Lasswell, at 625-3785.

From Keith Hallman

On-the-Job Injury

While automobile accidents make many headlines, more Americans are disabled at work than on the highways. In the next 10 minutes, 50 persons will suffer injuries severe enough to put them out of work, and today, 55 persons will be killed in industrial and farm accidents.

All of this cost workers \$1.5 billion in lost wages last year, caused more than \$600 million in medical expenses, and resulted in Workmen's Compensation Boards paying out another \$2.2 billion.

Dr. Howard A. Rusk, of New York, points out that part of the problem is that employers are hiring more inexperienced people because of the drop in labor supply and increase in production schedules. This lack of experience increases the accident rate.

"Other injuries occur when personnel are tired from working overtime or from moonlighting on other jobs," he added.

Government and private industry have both developed safety programs which are already reducing the number of on-the-job injuries. But new technologies increase work hazards almost as fast; it now appears that workers in the TV industry are exposed to the phosphors in picture tubes.

Another problem is persuading workers to use the safety devices with which they are provided. The man who refuses to wear a safety belt while driving to work also objects to wearing safety goggles and "forgets" to adjust safety guards.

The Clarkston News

The Auxiliary of the Campbell-Richmond Post 63 of the American Legion announced their selection of girls to represent them at Wolverine Girls' State in June. They are, from left to right, Kathy Ronk, Shannon Lynch, Sue Surre and Lynn Tower.

Name Girls State representatives

Monday evening the Campbell-Richmond American Legion Auxiliary Unit No. 63 introduced their delegates to the American Legion Auxiliary Girls State.

Kathryn Ronk, daughter of Mr. and Mrs. Frank Ronk of Overlook; Sue Surre, daughter of Mr. and Mrs. Richard Surre of Perry Lake Rd.; Lynn Tower, daughter of Mr. and Mrs. Floyd Tower, Main St. and alternate Jane Weaver, daughter of Mr. and Mrs. Fenton Weaver.

Shannon Lynch, daughter of Mr. and Mrs. John J. Lynch, Eastlawn, is being sponsored by the Past Presidents of Unit No. 63 as a delegate.

Mrs. John Lynch, Girls State Chairman, introduced last year's Girls State delegates, Debby Thatcher, Denie Weeks and Polly Hanson and Yvonne

Miner.

These girls received many awards at last year's Girls State. Yvonne Miner was elected Mayor of Barnes City, the city that received the "Best City" award.

Debbie Thatcher became mayor of Gilman City, a Representative in the House and was awarded the Citizenship honorable mention award for her active participation.

Polly Hanson was Director of Public Safety while Denie Weeks held the office of Sheriff. Both took part in many other interest groups.

A program of last year's activities at Girls State was presented by the former delegates with advice offered to this year's representatives. While refreshments were served, a question and answer session was held.

Now there's a new, small Pontiac with a small-car price for small-car lovers.

Upper left, Ventura II Coupe with special Sprint package you can order. Foreground, Ventura II Coupe (4-door Sedan also available).

Wouldn't you know it would be fun to drive, stingy on gas, quick to service and built to last.

Of course you would. We wouldn't build a small car unless we figured it would give you more of what you want a small car for.

Take that low price. Ventura II is a small car, so it has a low, small-car price. But it's what you get for that small price that makes Ventura II worth a close look.

Ventura II is fun to drive. It should be, it's from the Wide-Track people. Which means you get a smooth, comfortable, Wide-Track ride.

The handling's quick. There's a nifty 111-inch wheelbase for easy parking. And both the 250-cu.-in. six and available 307-cu.-in. V-8 respond beautifully in city traffic or on the expressway.

Ventura II is stingy with your gas money.

Both the standard six-cylinder engine and the V-8 you can order run beautifully on regular gas or the new low-lead and no-lead fuels. The carburetor on the six is an economical one-barrel, and the transmission for both six and V-8 is a practical 3-speed manual.

Ventura II is quick to service. If you're a do-it-yourselfer, you'll like fiddling around with the new Ventura II.

New twist-lock lamp sockets let you make changes in seconds.

The engine is uncomplicated, and there is plenty of engine-compartment space, especially with the six.

If you ever need to have somebody else work on your car—well, you'll like Ventura II, too. Both the standard six and available V-8 are tough, time-tested designs. Same goes for

transmissions. The standard 3-speed manual and the available 2-speed automatic, Turbo Hydra-matic or floor-mounted 3-speed are all rugged, dependable units.

Ventura II is built to last. There's nothing lightweight about this car. It's welded—not bolted—at hundreds of strategic points to help keep it tight and quiet.

The body is heavy-gauge steel. And it has double paneling in the deck lid, hood and doors. You could probably sum it up best with three little words. Body by Fisher.

So, come on. If you're a small-car lover, stop by your Pontiac dealer's today. Tell him you want to see the new Ventura II. It's the small car that gives you more of what you want a small car for.

MARK OF EXCELLENCE

Don't forget to buckle up for safety.

Ventura II—It's Pure Pontiac!

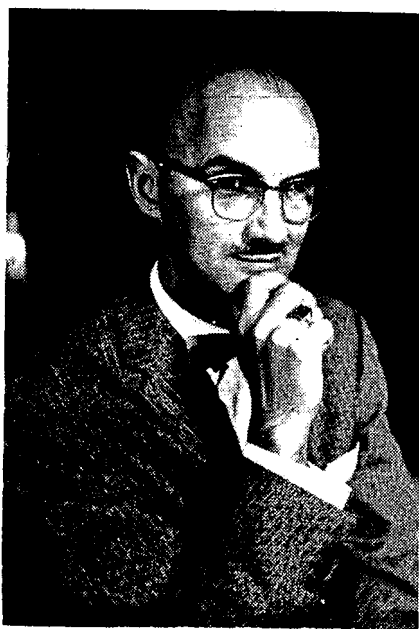

Mr. and Mrs. Lyle F. Cox of Guyette Street announce the engagement and September 18 marriage of their daughter, Terri Lynn Coad to John A. Wood. He is the son of Mr. and Mrs. Kenneth H. Wood of Drayton Plains. Miss Coad is a 1969 graduate of Clarkston High School. Her fiance is a student at Michigan State University.

Baptists to see gospel artist

Rev. "Ding" Teuling, nationally-known Gospel Artist, will conduct a series of special meetings at the First Baptist Church, beginning Monday, March 15, and continuing through Sunday, March 21, starting at 7:30 p.m. (Sunday at 11:00 a.m. and 7:00 p.m.)

Each evening, Rev. Teuling will illustrate his Gospel message with a full-color picture which is produced in full view of the audience and is then illuminated by the black light, bringing out hidden details and producing sensational effects. In addition, a battery of rheostatically controlled colored lights further enhance the picture.

A feature of the crusade will be an attendance contest in which Rev. Teuling will present several original framed drawings to those inviting the greatest number of visitors to the meetings. The contest is open to anyone. The church is located at 5972 Paramus, Clarkston (off M-15, one half mile north of Dixie Hwy.), and the Pastor, Clarence Bell, extends a cordial invitation to all.

Rev. "Ding" Teuling

CHS News . . .

By Beverly Morse

The CHS Ecology Club is having a pollution program on March 15, at 7:00 in the Little Theater. It will be open to the public and will not cost anything. From the looks of the agenda, it should be quite an evening. They have asked Gary Stonerock, Independence Township Supervisor, to talk on what Clarkston is doing to fight pollution. A movie is scheduled, and after all this, they will serve refreshments! The club would like to see everyone attend, because after all, ecology concerns everyone.

Just a reminder, keep working on those Industrial Art Fair entries!

Posters have gone up around the school telling the students to buy some Girl Scout cookies. The school is allowing the Senior Girl Scouts to sell cookies before and after school on Monday, Wednesday and Friday. You can tell by the expanding waistlines that the Scouts are doing a good business.

The Girls' Athletic Association has many spring events planned. One of these is the annual canoe trip. It's surprising this is being planned, after the mishaps that have happened on those in the past. Last spring's trip turned out to be a soggy one. It rained like mad, everyone got wet, and the canoes were tipping over like matchstick boats. They finally found some cabins (?) and spent the night in them. Let's hope this year's trip is a lot drier.

Spring is in the air. All the students are getting restless, and can't wait for school to end. The Seniors are especially restless. They only have 3 more months to go! The Juniors are looking forward to next year too. They'll be Seniors and in their last year. (HURRAY!) At their last class meeting, they were told all the events that they could expect.

This class of '72 has been unique in everything they have done so far, so heaven only knows what their Senior year will bring!

SCHOOL MENU

CLARKSTON COMMUNITY SCHOOLS

Trooper cements good relation

Officer Vern Erickson

The Michigan State Police and the Clarkston schools have embarked on a relatively new type of program. The program is one of crime prevention, but more importantly, attempts to build rapport between the police and students in the community.

To accomplish this end, the Michigan State Police have appointed Trooper Vern Erickson to act as a Community Relations Juvenile Liaison Officer.

Erickson, who loses the trooper image quickly when he dons his civilian clothes (as he does most of the time), works in areas from traffic safety to drug abuse.

The program was initiated here when he showed and discussed a movie, "Every Hour Every Day" to all the elementary students. "Peace is our Profession" was presented to the secondary level schools.

"I work closely with the school counselors, but I am an officer of the law," said Erickson. "If I saw a crime committed, I would act accordingly. But, primarily, my function here in Clarkston is to help the children to a better understanding of my position. I hope to provide them with the opportunity to come to me as a friend when they have problems and let me direct them to the

person or agency who could be of help to them."

There are 6 parallel programs in operation throughout the state.

Trooper Erickson, who is single and lives in the Pontiac area, has been with the State Police for 7 years. He has worked in this area for the past 4 years.

"We want people in the community to know and understand what this program is about," said the Trooper. "I am willing to speak to any service or church groups that are interested in learning more about it."

"We are fortunate to have this opportunity given us and are looking closely to see where it can best serve the community," said Milford Mason, Assistant to the Superintendent of Schools.

Committee seeks outstanding youths

The Clarkston Area Youth Assistance Committee is working to plan a second annual "Youth Recognition Night."

The "Youth Recognition Night" is designed, according to the committee, to recognize those young people who are doing worthwhile deeds that are going unnoticed. Youths performing acts of heroism, hospital and nursing home services, beautification activities, working on school service projects, or church youth programs are some of the types of young people they are seeking.

Citizens of the community are asked to assist in finding candidates from whom the selection committee may choose.

Nomination forms are being distributed and may be obtained at all local churches, Clarkston Senior High School, Clarkston Junior High School, Sashabaw Jr. High School and the office of the Clarkston News. They will also be available at the Township offices or from committeemen.

Any adult or organization may submit the name of a deserving youth. The candidates must live within the area of the Clarkston School District.

Awards will be made in 2 categories: grades 7-9 and grades 10 to 12, and all nominations must be submitted on the official entry form. Mail the forms to "Youth Recognition Night" Committee, 6595 Middle Lake Rd., Clarkston, no later than April 1.

Briefly told

On Monday, March 15, at 8 p.m., a panel demonstration will be presented by 5 members of Recovery, Inc. at the United Presbyterian Church, 207 E. Maple Street in Holly.

Recovery, Inc. is a national organization devoted to the prevention of relapses in former mental patients and chronicity in nervous patients.

Through a demonstration of this kind, the organization not only explains its systematic method of self-help, but demonstrates the method in action. Preceding the actual panel, the leader will present a brief history of the organization and explain the basic concepts which govern its operation.

Retirees of Pontiac General Hospital met in the auditorium of the hospital on March 4.

Mrs. Belle J. Morley of Clarkston was among the new committee chairmen named at the meeting. Mrs. Morley will head the publicity committee.

The committee chairmen met with the officers to plan future meetings.

All Pontiac General Hospital retirees are urged to contact Mrs. Jane Garrett, membership chairman or Mrs. Mary Ball, president.

Pianist Mischa Kottler will perform Concerto No. 2 in C Minor by Rachmaninoff with the Pontiac Symphony Orchestra on March 23 at Pontiac Northern High School.

As official pianist of the Detroit Symphony Orchestra, he has appeared as featured soloist. Mr. Kottler is married and is a professor of piano at Wayne State University.

Concert time for the March 23 performance is 8:30 p.m.

Landscape plans complete for library

Basic landscaping plans for the new Independence Township Library have been completed. These plans call for the creation of easy-to-maintain gardens around the library and parking area.

The Clarkston Farm and Garden Club is spearheading a drive to stimulate more of the community participation which brought the new library into reality.

The proposed plans are on display in the library. Financial contributions and

labor are needed to carry them out. According to Mrs. Richard Huttenlocher, the list of prime importance for individual, group or memorial contributions are 7 Moraine Locusts, 2 Crimson King Maples, 2 Weeping Cherry Trees, 3 Andora Junipers, 4 Pfitzer Junipers, railroad ties and a birdbath. Mrs. Huttenlocher may be contacted for further information at 625-1627.

BUSINESS HOURS: Monday, Tuesday, Wednesday, Thursday, 9 a.m. to 4 p.m.
Friday 9 a.m. to 6 p.m. Closed all day Saturday.

The Clarkston Jaycettes will present 3 performances of their annual puppet show at 11 a.m., 1 and 3 p.m. on March 20. It will be held at the Clarkston High School Little Theater. Edward Johnson from Milford will present his marionettes in a program with a theme "Beyond the Moon." Tickets will be sold in all elementary schools the week before the performance for 25 cents. They will also be available at the door.

"Jobs for teens" under way

The Clarkston Jaycettes held their monthly membership meeting on February 24 at the Church of the Resurrection.

March 20 was the date set for their annual puppet show. The Jaycettes will be selling the tickets for 25 cents at the local elementary schools during the week of March 15. Tickets will also be available at the door of the high school auditorium for the 11, 1 and 3 o'clock performances.

The club's annual card party was scheduled for the third week in April.

It was announced by the committee that registration for "Jobs for Teen Girls" will be getting underway again for the summer season. The applications will be sent to the schools and distributed to interested girls from the ages 12 to 15 years. They will be asked to complete the

forms, specifying their job preferences.

"During the two summers this service has been available, more and more area residents have made use of it. The girls and the community have both benefited," said a spokesman for the committee.

"We hope that this summer even more people will call the Jaycettes and give these young girls jobs.

"This program can only be successful if the community responds."

It was announced that the final date for the collection of Betty Crocker coupons has been extended until December 31.

These coupons are collected and used to obtain kidney machines.

Collection boxes may be found in schools and stores throughout the community.

U.S. Air Force Sgt. Cynthia L. Kolos, daughter of Mr. and Mrs. M. Parker Bates, Jr. of 5390 Columbia, has completed her tour of duty and will be discharged on March 8. While in service the 1965 CHS grad was a communications specialist.

More Bishop classes here

According to Miss Jan Gabier, adult education coordinator, a third offering of Bishop Sewing classes will begin the week of March 15.

The following classes will be held evenings from 7-9:30 p.m. at Sashabaw Junior High:

Bishop I, Wednesday; Bishop II, Tuesday; and Bishop III, Monday.

Bishop II will be offered Thursday evening at Clarkston Senior High School. All classes with the exception of Bishop III are 8 weeks in length. The fee is \$12.00.

Bishop III, at a cost of \$15.00, runs for ten weeks.

Pre-registration may be made by calling Miss Gabier at Clarkston Senior High School, 625-5841.

Back to work

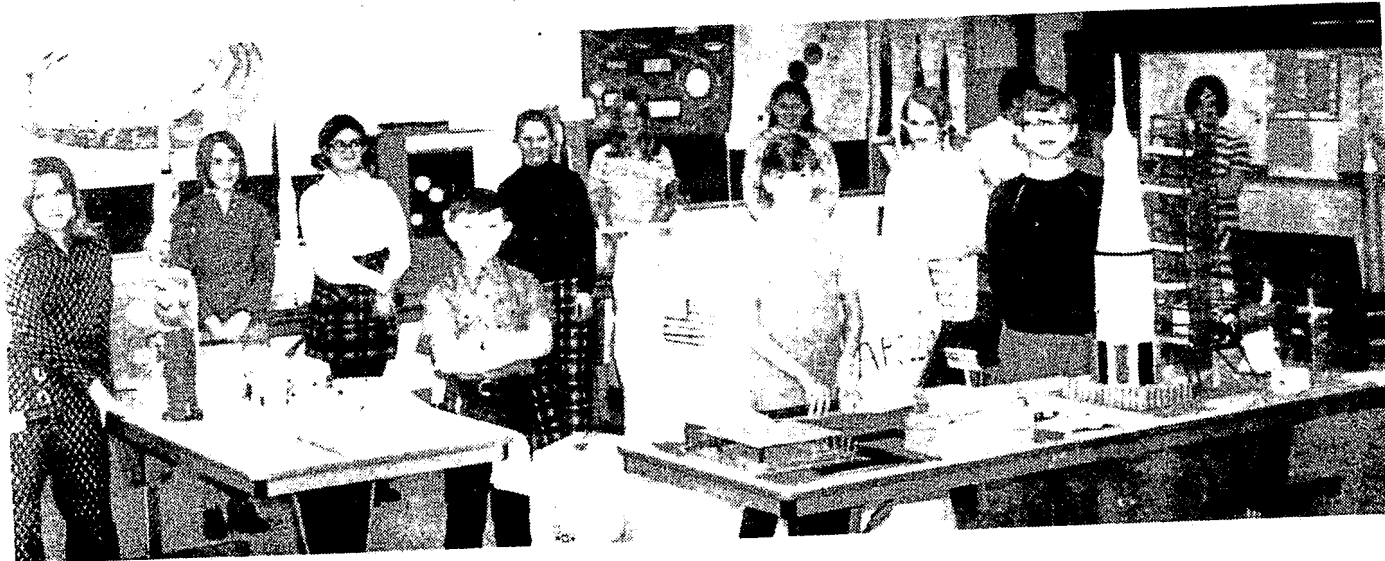

Carol Rademacher, Dolores Hall and Betty Norris, all residents of Clarkston, received certificates for completing a refresher course for registered nurses.

The course was given at St. Joseph Mercy Hospital in Pontiac. It includes 240 hours of theory and supervised clinical practice. It is designed to up-date inactive registered nurses in today's skills and practice, with special emphasis on the comprehensive care of adult patients with medical surgical conditions.

The next refresher course in this area is to begin at St. Joseph on March 15. It is an 8-week course and lasts from 9 'til 3 p.m. Monday through Thursday.

Inactive registered nurses who are interested in returning to an active role in nursing should contact Mrs. Bertha Swift at the Michigan Employment Security Commission, 332-0191.

PAPER TABLECLOTH available at the Clarkston News office. Just \$4.04 per 300 ft. roll. Ideal for parties, receptions and club dinners.

The science classes of Doug Griffiths at Sashabaw Junior High School have spent the last 6 weeks exploring space. Students from all classes constructed this display.

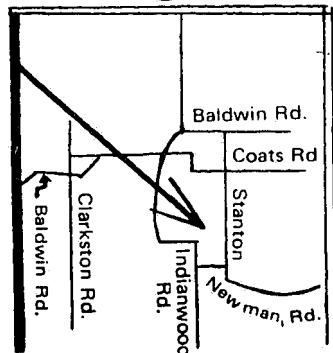

Tax collection reaches 89.8%

Tax collections to date have reached about 89.8 percent, with some \$2,195,000 of the approximately \$2,443,000 total already collected, according to Treasurer Kenneth L. Johnson.

Taxpayers delinquent through March must apply to the township for a revised statement before they pay at the County Treasurer's office.

The revised statement includes a 4 percent penalty plus 1/2 percent interest. Another 1/2 percent will be added for each month taxes remain unpaid.

The bright side of students

These are excerpts from the prize winning essay written by Michael Marsac, Sashabaw Junior High, a student of Mrs. Barbara Crosson and son of Mr. and Mrs. Gary Marsac of Clarkston Road, for the Lincoln Republican Club Essay Contest. I think there could be better communication between adults and

young people if both groups look deeply into both sides of a disagreement. There is a lot of unnecessary quarreling from not thinking of the other's point of view.

If each side digs deeply to find the root of the disagreement, then maybe there wouldn't be any disagreement at all.

Richard Marsac, winner of \$100 for his essay on improving communications between adults and young people.

Neither group should pass judgment until the cause of the disagreement has been thought out thoroughly.

If people wouldn't just snap off answers to questions there wouldn't be any disagreement.

People have bad days, and when they do, they snap at other people. All these other people should do is dismiss it immediately and pass it off as a bad day. When someone has a bad day, he should try to control his temper.

When an older person kids a younger person sometimes a quarrel erupts. If the younger person keeps calm and laughs then there won't be a quarrel.

There is a tendency for the two groups to pass judgment quickly for the good of their own age and the bad of the other age. If there wasn't so much picking sides, there wouldn't be so much of a Generation Gap.

The people in both age groups that get the most publicity are usually the bad of the ages. When someone reads a newspaper, there is a very strong tendency for the bad of the age group to represent the whole age group. This is another ravine that the Generation Gap must bridge for there to be peace, contentment and communication

between the adults and the young people.

If people in both age groups wouldn't go along with the style of dress, habits, etc., then there would not be as many problems today. If people think carefully before they do as others do, (smoking, drugs, etc.) then there wouldn't be so much of a Generation Gap.

If people in both age groups would consider the other age group's opinion worth something there wouldn't be much of the unnecessary quarreling between the age groups. You should think the opinion out before you pass judgment on it.

Nowadays there is too much hurrying here and there; too much exactness timewise. If people from both age groups would sit back and think of and watch everything that is going on between the age groups, if only for a few minutes a day, the confusion, quarreling and despair would nearly disappear. Exactness time-wise is one of the biggest threats to contentment between the younger and older generations. Time exactness puts so much pressure on people that they start snapping at other people.

These are some of the gorges that we must bridge to have peace and contentment between the age groups.

Can spring be far behind? If you don't love it — leave it! Somebody tried leaving, but got snowed in. It was back to the shovel.

Champion spellers all are from left to right, Barbara Foote, Dianna Rutherford and Barbara Shane. Barbara Foote is the daughter of Mr. and Mrs. Eugene Foote of Church Street. The 6th grader had no reason to be desolate when she became the champion at the Clarkston Elementary. She spelled "desolate" correctly to win the honor. Dianna Rutherford, the champ at Bailey Lake, is the daughter of the William Rutherfords of Blue Grass Drive. The 5th grader eliminated her competition when she knew the proper way to spell "eliminate." Fifth grader Barbara Shane filled the champion vacancy at North Sashabaw School when she spelled "vacancies" properly. She is the daughter of Mr. and Mrs. Max Shane of Ellis Road. The girls will represent the Clarkston Schools when they compete in the District Bee at Oxford on March 31.
