August 8 election issue

It was hot!

There was no place quite as good as Deer Lake Beach during last week's heat wave. Parents took their children to swim and then proceeded about the business of sun tanning in the slight breeze blowing off the water.

Jim's
Jottings

By Jim Sherman

Antique nuts just aren't like other people. My ever-loving wife,

Hazel, is even unique among antique buffs. Maybe she's a poor

judge of character. At least she has inferred that ever since she "I doed". But antiques she knows.

She's a shrewd buyer; a dedicated devotee; an incurably rabid

Better skip that one or I'll have my big foot in my mouth again.

It's not that I don't like antiques. Our office is furnished with roll-top desks that cost twice as much as the modern kind that look better and work better.

Of course, once in a while, some joker sneaks in a snide observation like how our reporting is darn near as modern as our furniture. Such attempts at humor don't shake me up at all. At least, they usually don't - unless it's been a bad day like when we printed that the bridegroom was formerly Miss---. That's better left buried, too.

Hazel just gives me the old glassy eye when I explain the difference between our attitudes on memorabilia. "I'm a collector of antiques" I say, with a sly wink, "and she's an antique collector."

Most people chuckle about my fine distinction. Hazel keeps saying "and I still don't think it ever was funny."

Actually, I really like the old things that still have a practical use. And when I say PRACTICAL, I don't mean growing flowers in

ancient bedroom crockery. Barn beams over fireplaces I like. Collections of high-button shoes may have a place in museums but as residential art objects - zilch.

Hazel practically goes delirious when a tin cigar box comes up at a farm auction. Nothing wrong with these beat-up old boxes if she'd let me use 'em for nuts and bolts or even old unpaid bills. No go.

Trouble is, those old tin boxes cost five times as much as when they were full of first-class cigars. Latching on to a few dozen of those ancient nothings gets to be a mighty expensive hobby.

So one day last spring I decided to lay down the law in a positive and very final way.

I kind of rehearsed my speech, mentally, to be sure it has a good solid ring of no-nonsense authority. Off and on for a couple of days I plan what I'll say and how I'll say it. You just don't throw ultimatums at Hazel unless you're real sure of your ground.

Then the ideal moment arrived. "I'm off to a barn sale East of Goodrich," she announces.

"I think not," I growl, for openers. "We can't afford

delmonico steaks every night, or a Cadillac Eldorado, or wasting our meager savings on tin boxes or civil war hat pins or picture post cards of the Toonerville buggy factory."

For once, she just sits there and strums her fingers.

Encouraged, I continue. "The time has come for some modest but sensible investing. No more wild and foolish bidding for junk that would have been pitched 50 years ago if the people had ever cleaned their attic."

"Excuse me," she says, real polite, "excuse me while I get a little article I read a while back, sir."

Out she goes and back she comes with one of those danged tin boxes. She opens it and hands me a clipping from the Wall Street Journal.

"Here," she explains, "is a carefully researched comparison of value increases for investments in stocks, bonds, real estate, gold, annuities and antiques. See you after the sale ---- dear."

Like I always said, and that report sure proved it, there's no wiser investment in the world than good antiques.

How the residents feel

Resident of Clarkston cited crime, education and the economy in that order as domestic priorities needing attention by Congress, according to the results of my annual questionnaire.

The residents also called for a reduction in our Foreign Aid expenditures, with 68 percent calling for less spending abroad. Only 1 per cent asked for more funds, with 14 per cent seeking the same level of funding and 17 per cent calling for abolishment of Foreign Aid altogether.

Results of the entire 19th District are to be mailed to each family sometime this week.

On the subject of the conflict in Vietnam, 41 percent of those responding from Clarkston want a negotiated peace; 27 percent want withdrawal of all troops but seek continuation of air and sea support; 20 percent seek withdrawal of all troops and discontinuation of air and sea support; and 12 per cent seek a military victory.

Although 33 per cent of those responding said their personal financial situation has worsened due to the economy, 78 per cent approved the President's price-wage-profit controls. Only 14 percent said their situation had

improved, with 53 per cent saying it was about the same.

It is my belief that the stabilization of the economy with price-wage profit controls has been a good move, and I will continue to support it until such time as the economy has stabilized. However, I think we should return to the more basic philosophy of the free enterprise system, without controls, as soon as possible.

These controls have reduced the eroding force of inflation to a generally acceptable level, but it will be some time before the end of the month comes before the end of the money. At home, and in government, we must continue to guard our pursestrings, and cut out unnecessary spending. As a member of the House Subcommittee on Investigation and Oversight, I have made it my business to see that appropriated funds are not misused or misdirected. I am confident that the stringent measures we all have had to take will right our economy, and restore a high standard of living to every

Mrs. Holly Stephens of Woodhull Lane will replace George Woody on the planning commission. She holds a B.S. in Biology from Wayne State University.

working man and woman. On other portions of the questionnaire, the residents:

1 Supported a Constitutional amendment (95 per cent) to prevent busing of school children to achieve racial balance.

2. And approved a pollution tax or higher prices for goods to speed up the implementation of anti-pollution programs (57 per cent)

Eric Booth, drowning victim

Funeral services were Tuesday for Eric Paul Booth, 5-year-old only child of Mr. and Mrs. George Booth of 10139 Ellis Road. The child drowned during a family outing Saturday in Otter Lake.

Surviving besides the parents are grandparents, Mr. and Mrs. Frank Borndran of Fort Lauderdale, Fla., and Mr. and Mrs. James E. Booth of Union Lake; and great grandmother, Mrs. Anna Batchelor of Davisburg.

Funeral arrangements were by the Lewis Wint Funeral Home with burial in Ottawa Park Cemetery.

Teacher negotiations recessed

Teacher contract negotiations have come to a standstill until August 8, according to George White, chairman of the Clarkston Education Association negotiating team.

White said the halt is due to vacations by the Board of Educations negotiating team. He added, however, that there hasn't been much progress made in the economic area, and that unless there is substantial progress following the resumption of meetings, it is likely that a state labor mediator will be contacted.

School is due to start in Clarkston immediately following Labor Day - teachers reporting for work on September 5 and students on September 6.

Choose your candidate

for the August 8 primary

Candidates for township races in the August 8 primary have replied to questionnaires mailed by this paper. Here are their statements:

LUTHER FLETCHER - D
4657 Center
SUPERVISOR
Did not submit a statement

JAMES M. HARMON - D
8665 Lakeview
SUPERVISOR
Has dropped out of race.

JOHN J. LYNCH - R
6260 Eastlawn
SUPERVISOR

His statement:

Having been born and brought up in Holly and as a resident of this township for 16 years, I know and enjoy the beauty of spaces and trees, the rural beauty. It must and can be kept with proper planning. Residents with problems should and can be given individual attention with the total township not put in jeopardy with a wrong or hasty decision. A mature and sensible supervisor with the desire to work with the board members in the best interest of the residents and the township is needed.

I am married with five children and share in their many interests and activities. An active member of the American Legion, a past Post No. 63 Commander, a past 18th District Commander, have served and been chairman on many committees both in the post and district, served the Department of Michigan as chairman of the Americanism and Community Service Committee, also served with the Clarkston Youth Assistance Committee. Have attended township board meetings regularly since 1965. Jobs starting as paperboy to present work with Kieft Engineering, two years at Michigan State University and communication with residents of this and other townships as well as officials give me the broad experience to handle the varied problems that are to come before the township.

GARY R. STONEROCK - D
7990 M-15
SUPERVISOR

A registered professional land surveyor, Stonerock has been a resident of the township for 13 years, the last two as supervisor. He has two years of pre-engineering college.

Stonerock says, "I have represented the township better than any of my predecessors. I have proven I can lead and not be lead; very often standing alone rather than selling the taxpayer and township out.

"I have proven by hard work that changes can be made. During my term in office we have: Hired a qualified assessor to get the politics out of this important task. Hired a qualified building superintendent with prior experience. Obtained a state grant for a 40-acre township park. Hired a recreation director. Made a definite stand on no more multiple zoning for the time being. Condemned or improved at least six houses in Woodhull Lake Subdivision.

"I feel I should be reelected because the experience of two years on the job and at the helm cannot be lightly dismissed. The major changes and revampings have come during my two years in office. The assessing is not a political position, and should remain that way. The Building and Recreation Departments are in good hands. Our legal advice and service are the best. The planning problems will continue to need constant attention.

"My record of programs, accomplishments and voting speak for themselves. The township has been kept front and center at all times. The problems will just begin anew if a new person is "tried" just for the sake of politics. If I have a good Board this next term, I will do an even better job.

I want to hear what my opponents positions and programs are for what lies ahead. I have mine, and after the primary, you will be hearing them. It has been good to have served as your Supervisor.

ROBERT O. VANDERMARK - R
6657 Snow Apple
SUPERVISOR

Vandermark is township assessor with six years of local government experience. He has helped prepare and administer municipal budgets, has majored in political science and public administration at Wayne State University, and has qualified as an expert witness in zoning and municipal finance. He is active in the Jaycees and church work.

His statement: "The community now faces a period of rapid growth. Our lakes, trees, open space and residential rural atmosphere are going to be threatened. The demand for police, fire protection, improved roads, storm drainage and planning decisions will increase.

"In the face of our current growth, the community must look toward the acquisition of park sites. We must also have planning and zoning that is effective in accomplishing the goals of maintaining the residential rural character of the township, providing convenient services to our citizens and anticipating future needs.

"It will take the full cooperation of the township board, the planning commission and the community to adequately face these problems. My past experience with citizens and officials of diverse views will help greatly in the solution of these problems.

"I believe we must preserve local control of local government. The best way to do this is to set an example of responsive, efficient level-headed government. I believe Independence Township can be a fine example of good government that all of its citizens can be proud of. I believe I have the experience and patience to make our government meet the needs of the citizen."

J. EDWIN GLENNIE - R
6900 W. Church
CLERK

Incumbent clerk, J. Edwin Glennie, 30, states:

"Back in February of this year, as several candidates were seeking the clerk's office, each one stated why he or she was qualified. I was one of those candidates and I had certain convictions as to how my past experience as a pilot, a residential real estate salesman, and an auto mechanic helped to make me more capable of dealing with the people of Independence Township and their problems than any other candidate.

"I am proud to be able, now, to add to those qualifications over seven months as township clerk" come polltime in November and the experience of having directed four elections in that same time.

"I feel that I should be reelected to the office of township clerk for several reasons.

1. Having been elected to this office in March of this year to fill a vacancy in an election that cost the township taxpayers approximately \$2,500, I feel that their investment can obtain the maximum return by reelecting me and capitalizing on the experience I have gained in the office.

2. My work experience has prepared my very well for the fantastic number of hours - days and nights - that are required of a public official.

3. As a pilot, I was a captain in command of an airplane that by itself cost more than what Independence Township's entire budget is for an entire year and yet in retrospect that responsibility seems minor compared to that of the township clerk.

4. And very importantly, I have been able to effectively respond to the requirements - time and energy - of the clerk's office greatly due to the dedication of my wife and family. They have been a tremendous asset.

5. Finally, I have absolutely no other business interests to occupy my time or my ability to make decisions.

KAREN HERRON - D
6315 Maybee Road
CLERK

Her Statement: "My basis for entering the race against the incumbent clerk stems from his inability to represent the majority of his constituents. On a number of key issues, he has failed to recognize the needs of our progressing community.

"For years, Mr. Beach did a fine job for \$3000 annual salary. Our present clerk by voting for and passing \$14,500 for a full-time fire chief, as again miserably failed to properly assess the problems and issues of this township.

"The present clerk's approval of MORE multiple zoning has been a slap in the face to the majority within the township that feel multiple dwellings are not in the best interest of our community. I still insist that no person with 'Real Estate Interests' should sit on

(Continued on Page 6)

Pioneer Days, parade theme

Clarkston Rotary Club has chosen "Pioneer Days" as the theme of its Labor Day Parade at 10 a.m. Monday, September 4.

Dick Logan, Bob Newlin and Irv LaDuc, the Rotary Parade committee, have announced that a judges' box will be set up at the corner of Washington and

Main Streets and awards will be presented immediately following the parade. Prizes will be given out for best costumes and best float.

As an added attraction, Miss Oakland County, Miss DSR and the Clarkston Junior Miss have been invited to

participate. A Bagpipe Band from Canada, the Drum and Bugle Corps and

the Unicycle Club will also participate.

All entrants are asked to call one of the committee to be assigned parade positions prior to the gathering of entries at 9 a.m. preceding the parade at Miller Road and Main Street.

Car wash

Clarkston Jayettes will sponsor a car wash from 9 a.m. to 3 p.m. Saturday in the Village Parking Lot.

Deserve respect

It's too bad local elections can't be run on positive notes, instead of through the spread of rumors and false stories.

Constant reports have filtered into this office of the spread of false stories against hardworking and concerned candidates who seek election at the township level.

They know they all can't be elected, and they also know that

the waging of a campaign is costly both in terms of effort and money.

The jobs, if they win them, do not in all cases pay the kind of money to make the effort worthwhile.

Good candidates are not in heavy supply and those who volunteer their time and energy to wage a hard campaign deserve your respect, if not your vote.

editorial page

PEEKIN' into the PAST

10 YEARS AGO IN THE CLARKSTON NEWS
July 26, 1962

The Clarkston High School class of 1952 will hold a ten year reunion August 4 at the Oakland County Sportsman Club.

Attending the annual Choir Workshop for young people at Port Huron Camp, are Sue Hampshire, Sandy Walts, Shelia Fin, Jennifer Pike and Mary Wertman.

Mr. and Mrs. W. J. Cattin of Holcomb Rd., announce the birth of a son, William Scott, July 11.

Mr. and Mrs. H. B. Hippo, Sr. of Transparent Dr. announce the engagement of their daughter, Cheryl Lynn to David Corbin of Andersonville Road.

25 YEARS AGO IN THE CLARKSTON NEWS
August 1, 1947

Mr. and Mrs. David Steward and daughter, Shanna, spent the weekend at Ludington.

Last Saturday afternoon Sylvania Hemingway celebrated her 11th birthday by being hostess to fourteen of her girl friends.

On Monday eight Rotarians from the Clarkston Club flew to Howell to attend the weekly meeting.

Cooling off at the beach

"If It Fitz . . ."

She has a tear fetish

By Jim Fitzgerald

Congressman Don Riegle would understand why my wife was crying in a pancake restaurant. He might even understand about her wristwatch fetish.

In his recent book "O Congress," Riegle revealed he is married to a woman who turns to tears at the sight of any old person with a limp. She will worry about such a stranger for hours, wondering fretfully whether anyone is helping him cross streets. It does no good to remind her that Godfather Brando was still killing people when he was so old he couldn't talk.

I hate to brag, but my wife is so sobby she makes Riegle's wife look as sugary as Doris Day at Dinah Shore's wedding. I have previously reported she cried patriotically when the flag goes

up a railroad crossing. Pat has dripped tears of joy at the sight of searchlights criss-crossing the sky, heralding the grand opening of a supermarket. And she plunges into deep mourning whenever our car passes the tattered carcass of an deceased armadillo, pressed flat against the freeway.

So there we were in Aunt Jenny's Pancake House, in a strange city. Next to us, suddenly, there was some kind of a family reunion. Several adults and children were meeting for the first time since Lincoln's funeral. There was much kissing and hugging and exclaiming.

My wife sobbed loudly. "What are you crying about?" I asked her.

"They look so happy," she said.

"In a few minutes they will be

fighting over who pays for the pancakes," I said.

"You're not fooling me," she said, "your eyes are wet too."

That is typical. She always accuses me of being as soft and sloppy as she is. Misery loves company (you may quote that if you wish).

"Look kids," she said, sticking her fingers into my eyeballs, "Daddy's eyes are watering."

Oh well. At least she had quit kissing her watch. People had begun to wonder if she was queer for ticking, or something.

You see, we had just come from visiting our 2-year-old granddaughter. She's a bright kid who spends most her time playing ring around the rosy while singing "ring around the collar" with an Hawaiian accent,

When Grandma had to leave, Michele cried for a few minutes. Grandma cried for 200 miles.

But she finally subsided and, in fact, began cooing. I noticed she was nuzzling her wristwatch, actually giving it little-kisses.

"Are you winding that thing with your nose?" I asked.

"I am just looking at Michele," she said.

She showed me a medal attached to her watchband. I thought maybe it was some sort of a Presbyterian St Christopher. No. Somenow she has a picture of Michele engraved on that medal.

"She's the sweetest little thing," Grandma cooed as she hummed "ring around the collar" and necked with her wrist.

"My eyes are wet," Grandpa sobbed.

Letters to the Editor

Stonerock reports

To the Editor:

At the last election I won on my qualifications; now I intend to win on my achievements. The reason that inequities existed in the township is historical. The solutions I have worked hard for and battles I have won can only benefit and aid us in our future growth.

During the last year, the young people of Independence Township — your children and future leaders of our community — were given a total recreation plan. This was achieved by getting a recreation plan from our planner, applying for and obtaining a state grant, and finally adding a full-time Recreation Director on our staff. Had it not been for citizens help at the Annual Meeting in upholding my budget request and the fact that I prepared the budget, we would never have seen this program achieved.

While many politicians have promised to return the government to the people, I am one of the few to carry out that promise. Three issues will be on the up-coming ballot so that you, the citizens, can make the decisions. These issues are fire millage, road millage, and a civic center site. The Park Commission and the Annual Meeting have already been on the ballot, and your mandate, through popular vote, expressed the majority's wishes on these issues.

With proper planning, essential to the future safety and welfare of our community, I have endorsed a number of proposals that have been accepted by our Board. One ordinance dealt with gas stations. Admittedly, there are those who feel this ordinance was a severe blow to the free enterprise system, but not oil companies seeking tax write-offs cannot put gas stations on every corner, in every subdivision as they would probably like to do.

My first efforts to obtain a full-time planner failed, but finally others also saw the need, and at the Annual Meeting the

voters approved my budget request for a full-time planner.

My battles against further multiple zoning have been well publicized and are known. I simply cannot believe that the residents of Independence Township want three hundred acres of additional multiples.

Planning and ecology are closely linked as development of out township increases. That is why I have fought for a Sign Ordinance and a Drainage Ordinance. They were finally passed, and now I am trying to get a precedent setting Wetlands Ordinance that will save the waters and wetlands of our beautiful community. Through my efforts, a new road standard for 1½ acre lots was approved by the county.

In Woodhull Lake, six substandard houses have been removed or improved. These dwellings no longer will endanger our citizenry.

One of my first acts as Supervisor was to relieve the thirteen year old problem of flooding on Paramus Street, at thousands of dollars less than anticipated. The oil leak from the Buckeye Pipeline into Deer Lake that started in 1967 has finally been stopped, after I proposed to the Township Board to bring suit against Buckeye. The unscrupulous land speculation that flourished in our township before I took office has now disappeared. We have now acquired eleven acres of land through dedication, to aid in retention of open space in approving a rezoning. All of these ordinances I have told you about will be backed with avid law enforcement by the township.

For two years as Supervisor of your township I have been trying to correct the problems that had existed for years — and most of them I have!! Now I ask you: What or how has your life, your subdivision, etc. been adversely affected because of my term in office? Remember, you elected me because of the issues facing the township, not for party politics. Solutions are what I have been looking for. Solutions are what I have found. You have an important decision to make. Will you renew the contract of a proven candidate who gets things done, or will you change for those who are trying to run in a personality contest for a politically motivated group?

Multiples again

To the editor:

A resolution to stop multiple rezoning and another to stop issuing building permits around Green Acres made the news recently in Independence Township.

The township master plan, available at the library, recognized some multiples as necessary. Over a square mile of multiples are zones for, none built. They are all waiting for the sewer. My argument seems simplicity itself:

Adhere to the master plan — rezone no more multiples until 75 percent of them are built and to assure there is a market for this type of housing, that 75 percent of those built are occupied.

This would give us a feeling for what we are doing to the township also. But politics raises its head. The clerk said in his election campaign, "No more multiples." Then it was his vote that put in more multiples on Maybee Road for a realtor friend, but more, a campaign contributor.

I tried to fulfill a campaign promise by putting this issue on the ballot. His vote

Against busing

Dear Voter:

The Clarkston Chapter of the National Action Group would like to urge all our residents to support people who are against forced busing. In the primary election, August 8, 1972, you will be asked to choose between two people who are running in our district for U. S. Congress. They are William Broomfield and Jack McDonald.

Jack McDonald was the very first congressman from Michigan to sign the discharge petition (HJR 620) which would give Congress a chance to vote on a constitutional amendment which would stop forced busing. He signed and has supported this cause when it was very unpopular to do so. For that reason and because he has served as our representative upholding the views of the majority of the people in his district, we hope the voters in our area will vote August 8th for Jack McDonald.

Edwin L. Manley

prevented it. So why not approve the anti-apartment resolution now? Another group of apartments are on tap north of Cranberry Lake. Again there is a "connection." Which way would you vote?

Close to the clerk's home is an area around Deer Lake that is growing. They have a traffic problem. I have friends there and sympathize with them. I refuse to play politics and OK a resolution to not issue any building permits in the area until another road was cut in to service the area. The only case our attorney lost was similar — and Stonerock predicted it. If you have the zoning, no one can prevent you from using your land. No one. How would you vote?

My point? Keep favoritism out. Listen to the people. If you want to live in a city, move to a city. This is suburbia. Get concessions at rezoning time, not later. I am working towards putting a multiple resolution on the November ballot. I'm sure I know how you will vote.

our township board, because they can't put their FRIENDS in ESCROW, as he has already proven!

"We can feel very fortunate that such a poor voting record has been revealed to us in such a short tenure of office. And we can remedy the situation by not re-electing a man who does not represent the true feelings of this township.

"My qualifications are approximately 15 years of secretarial, typing and shorthand, and other clerical abilities. I have been politically active as secretary and treasurer of the Independence Township Democrats for about 10 years. I have always been an involved and hard-working individual dating back to high school...

1. Past President-Church Youth Group (St. Lukes-Ferndale)
2. Past President-Sigma Tau Delta Sorority (Lincoln High-Ferndale)
3. Past Worthy Advisor (Ferndale Assembly No. 48, Order of Rainbow for Girls)
4. Past Active Member, CEF (Citizens for Educational Freedom)
5. Headed Right to Life Committee, Conducted Pre-Marriage Program 3 years, Chairman for Fall Festival, and Past Altar Society Treasurer (Our Lady of the Lakes - Waterford)
6. Active member of Pine Knob PTA
7. Co-sponsor of a Blue Bird Troop.
8. Sponsored member of Independence House.

"I have also collected annually for United Fund and Muscular Dystrophy and worked on Bottles for Building and other Community Projects.

BETTY J. VanKLEEK - D
4619 Center
Did not submit a statement.

DONNA M. BUHL - D
9383 Eston Road
TREASURER

Mrs. Buhl, 45, an accounting student at Pontiac Business Institute, is married and has two children - Jeffrey, 20, working his way through Oakland Community College and Vivian, 14, a student in the Lake Orion High School.

Her statement: "I have lived on acreage in the northeast section of Independence Township for 22 years and have recently declared my candidacy for the office of Independence Township Treasurer. I represent the people who want planned progress which permits the retention of open space. I will work to support wholesome family recreation. I want to make our tax dollars stretch as far as possible by taking advantage of monies available to us through grants and matching funds. I will work to see our taxes used to provide services that will benefit the Community as a whole.

As Treasurer I plan to give an interim Treasurer's report at least quarterly and provide the board members with current information as to the unexpended and unencumbered balances of funds and accounts which are pertinent to business on the agenda. In this way the Board can control overspending while not delaying necessary expenditures.

I have had 19 years of work experience ranging from comptometer operator in the payroll department at Pontiac Mtrs., assembler, Plant 8, Pontiac Mtrs. to sales at Montgomery Wards. I am a qualified Bookkeeper and currently am attending Pontiac Business Institute where I am working toward higher accounting.

My community services include: Cub Scouts, Campfire Girls, assistant in a summer Art Program at Camp Oakland, Co-chairman of a Library Committee, most recently the Secretary of the Independence Township Land Conservancy, which is working to preserve open space in the area.

In the past I have supported a Public Safety Concept which would have given us police and fire service with a full time director for 2½ mills, a ½ mill would have been our Federal EEA grant. I supported the establishment of a Central Park and the adoption of a Master Road-Right-of-Way-Plan.

In the years I have lived in Independence Township, I have seen our farms gradually being replaced with subdivisions. Now with multiples becoming the popular concept in housing, it becomes increasingly more important to weigh the future effect on our mode of living against any immediate advantages of a housing project.

The decisions we make today, we will have to live with tomorrow.

ELIZABETH HALLMAN - R
6024 Overlook
TREASURER

Mrs. Hallman, with eight years' experience in the township treasurer's office, is now a candidate for that office. A resident of the township for 19 years, she and her husband have five children.

Mrs. Hallman has been a payroll clerk at General Motors and worked in the cost and accounting department of Chevrolet Transmission in Saginaw. She is 49.

Her statement: "As to the job of being treasurer, I think my past record speaks for itself, I have worked hard and long to make the tax collection a smoother running and more efficient operation. I enjoy working with people and do all I can to help them with their tax and property problems.

The responsibility of serving as a member of the Township Board, whose decisions have such a direct effect on all township residents is a little frightening. I intend to approach this responsibility with full respect for its effect on all. This important position is no place to let personal ambition, petty grievances, nor minor interests take their toll.

UNITED EVANGELISTIC
CRUSADE
This Summer in

WISNER STADIUM Pontiac August 6 - 13

DR. MYRON S. AUGSBURGER
President of Eastern Mennonite
College and Seminary

Sponsored by the Greater-Pontiac
EVANGELICAL MINISTERS' FELLOWSHIP

Still more

We are at present facing important issues requiring intelligent decisions by our elected officials. We hope their decisions will be proper and beneficial. It is impossible at this time to preconceive the problems that the new board will have to face. With this in mind, it is imperative that the voters of Independence Township elect officials whose future decisions will be based on complete research, empathy and a confidence in our future.

BETTY G. MULHERIN - D
4651 Lakeview
TREASURER

Mrs. Mulherin is a graduate of Victor Business School, Detroit, where she studied extensive business math. She attended Madonna College, Livonia, and took courses in Total Office Procedures II in Clarkston last year. She has been a sales clerk, general office worker, clerk-typist, newspaper reporter, payroll clerk, and calculator operator. Mrs. Mulherin is married and the mother of six children.

She says, "As a matter of course, whatever the problem, considering the rights of others, I have always sought the most satisfactory rather than easiest solution. As treasurer I would seek prudent handling of township monies. Priorities, I feel, are an essential key. I believe that Reasonableness, the indicated guideword regarding township government should be earnestly adhered to. Whenever possible the avoidance of court involvement in township affairs should be maintained, thus saving many taxpayers' dollars from the township treasury and the individual as well.

"I feel I have, through years of awareness, of caring, of working for and participating in causes for the betterment of all, shown to be the kind of person who could reflect the feeling and hopefully the thinking of many people. A most rewarding involvement was being part of the successful effort that enabled people of Woodhull to retain their right of improving their future without a massive government project.

"If elected, I would work honestly and diligently (as treasurer and representative in township government) keeping in mind that purpose of government, to help people live harmoniously.

Free pap test clinic

A free Pap Test Clinic will be conducted at Pontiac General Hospital, Seminole at Huron, August 7 through August 11. Tests will be administered between 12 noon and 4:00 p.m.

Appointments for the free Pap tests are required and may be made by calling the North Oakland Michigan Cancer Foundation Unit at FE 2-5620.

Bach at Pine Knob

Virgil Fox, the world renowned concert organist, will appear at the Pine Knob Music Theatre for a multi-media concert with the Pablo Light Show for an evening of Bach at 8:30 p.m., Monday, July 31.

"Heavy Organ," as the show is called, has been touring college campuses and concert halls around the country with great success. One of Fox's most recent outstanding triumphs was his concert at Fillmore East, once New York's East Greenwich Village rock citadel.

Combining the classic Bach compositions written especially for the awesome sounds of the Pipe Organ and a psychedelic light show, Fox has drawn audiences from every spectrum of life. Everyone from Bach buffs, students of the organ (an instrument which has had a resurgence of popularity), and those who come to see Pablo Lights, has been fascinated by the spectacle of color and sound.

Fox has been cited with every possible award and honor for his talents. His albums are constant best-sellers.

"Pablo Lights" is a group of young artists and technicians who take their title from a character in "Steppenwolf" by Nobel Prize winner Herman Hesse.

Tickets at \$5.00, \$3.00 and \$2.00 are available at the Fisher Theatre Box Office, all J. L. Hudson stores and at Pine Knob Music Theatre.

For ticket information call 559-9111.

Next attraction at Pine Knob: Neil Diamond, August 1-5, 8:30 p.m.; Tickets: \$7, \$5, and \$3.

How strong are your knees? A leading knee specialist in the United States says that most people do not have knees strong enough to support them in the least arduous sports. And how many sports personalities do you know with weak knees? Mickey Mantle, of course, suggests that athletes undergo complete knee examinations before they are hired: it'll certainly cut down on player expenses!

You'll certainly be pleased with the personal service and quality merchandise at SAVOIE INSULATION CO., 64 S. Main St., 625-2601. Engaged

Mr. and Mrs. Russell L. Inman of 6685 Almond Lane have announced the engagement of their daughter, Noreen F., to Russell D. Crossley. Russell is the son of Mr. and Mrs. Hubert Crossley of 17024 Sleepy Hollow, Holly. He previously lived in Clarkston. Both Noreen and Russell are graduates of Clarkston High School and plan to attend Oakland Community College this fall. An October 13 wedding is planned at Maranatha Baptist Church.

Mr. and Mrs. Ernest Thompson of 7672 Phelan Drive have announced the engagement of their daughter, Karen, to Gary Irish, son of Mr. and Mrs. Newton Irish of 346 Washington, Lake Orion. Gary is a graduate of Olivet College and will teach elementary school classes in Oxford this fall. Karen is a senior at Michigan State University. A September 9 wedding is planned.

Society to hold ice cream social

Come rain or shine, an old-fashioned outdoor ice cream social has been planned by the Oakland County Pioneer & Historical Society for Sunday, July 30th.

The event will be held from 1 to 4 p.m. at Pine Grove, the Society's headquarters, 405 Oakland Avenue in Pontiac, and will be open to members and the public. In case the weatherman doesn't cooperate,

the ice cream, cake and soft drinks will be served from a tent pitched on the ground.

A "Turn of the Century" fashion show will take place on the long veranda of Pine Grove, once the official residence of Governor Moses Wisner who held office prior to the Civil War. Guided tours of the Governor's residence, which has been elevated to the National Register of

Historic Places, and the adjoining 19th century structures will be given by Society members of the Chapter of Junior Historians during the afternoon.

Mrs. Donald Adams, society president, said that funds raised through the ice cream social will be used to help restore Pine Grove's summer kitchen which is

believed to date to the 1850's.

Admission tickets of \$1 per adult and 50c for each child will be available to the public on the grounds. Parking will be afforded on the Wisner School lot north of Pine Grove, across the street at the Oakland Avenue United Presbyterian Church, and in the laundromat lot south of the Society property.

Around the township

A balloon friend

By Shanna Nadolsky

625-2837

Last Wednesday's Friendship Day Balloon Launch was a great success for at least one participant. Eight year old Tony Smith, son of the William J. Smith's on Eastlawn, received word the following day his balloon had been found in Lake Orion by Paint Creek near Perry Street.

The Balloon Launch was organized by the Township Recreation Director, Tim Doyle. All area elementary school children joined together at the Bailey Lake School for the Friendship Launch. Balloons were filled with helium and each child attached his name and address to a balloon before releasing it. When and if found the child could be notified; hence, Friendship Day. And, Congratulations to Tony!

King and Jan Robinson and daughter Heather are enjoying their new Clarkston home on Peach Drive. Since their arrival on June 17, they have been busy trimming, mowing, and painting. Jan boasts of now having the brightest red carriage lamp in town - and the mail carrier discovered a special decor in the mailbox.

After all their hard work, the Charles Robinson's gave them a breather by taking them to the Old Steak House in Windsor to celebrate Jan's birthday Tuesday night.

The Thursday Morning Duffers League held their Awards Luncheon last Thursday at Waterford Hill. The dubious awards of distinction were earned as follows: Most strokes on any hole - Maxine Davis, Most Water

Balls - Joanne Jakel, Most Whiffs - Winona Pierce, Lowest Actual - Barb Shell, Most Single Putts - Mary Emerson, Least Total Putts - Shirley Raedeke, Longest Drive - Bernice Bishop, Lowest Net - Pat Race, Most Putts on the 4th Green - Jane Golden, Most pars - LaVelle Roth, Par on number 9 - Vera Fogg, Most Putts - Suzanne Lamberton, and Par on number 4 - Jewell Schmude.

The girls might not all be pros, but they do enjoy themselves. Their President is Jane Golden; Vice President, Maxine Davis; Secretary, Suzanne Lamberton; and Treasurer Alice McNally.

It's camp time for the Chuck Robertson family on Hummingbird. Charlie and Gregg have just returned from a week at the Johnny Orr Camp in Ann Arbor and daughter Tricia is still in Albion completing a three week stay at the Summer Adventure Camp. The Camp is relatively new in Albion and features a wide variety of creative learning activities such as dancing, drama, French and others in addition to the usual arts and crafts and water activities.

Sharon M. Jones, Melvin L. Johnson and Tim J. Adams of Clarkston have completed summer orientation programs at Western Michigan University in preparation for the start of fall classes there.

Katie Pappas, daughter of the Art Pappases of Washington Street, and Kim and Karen Schebor, daughters of the Ron Schebors of Holcomb, are spending two weeks at Camp Sherwood for Girl Scouts.

Mrs. Louis Jaenichen was the honored guest Thursday night at a baby shower given by Mrs. Joan Brooks and Mrs. Pat Tucker at Pat's home on Laurelton. After several games, Karen opened many lovely and useful gifts which will delight her newborn sometime next month. A tasty buffet of cake, jello salads and punch was served to buffer the hot weather.

Kirt Bowden, 5986 Flemings Lake Road, has recently attended a summer orientation program for incoming freshmen at Eastern Michigan University.

Robert G. Hoy, son of Mr. and Mrs. Willis M. Hoy, 4101 Teggerdine Road, and Bruce G. Sicklesteel, son of Mr. and Mrs. Gordon Sicklesteel, 6604 Northview, both Clarkston High School graduates, have been named to the Dean's List at Michigan Technological University, Houghton. Robert is a freshman business administration major, and Bruce graduated from Michigan Tech last month with a B.S. in chemistry.

Forrest Jones at 80 N. Holcomb was the recipient of best wishes as 101 persons gathered for a reunion and to wish him a happy 80th birthday. The Sunday dinner which was at the home of his son, Ralph Jones of 5559 Warbler.

Traveling the farthest were Mr. and Mrs. Kermit Jones Jr. and boys from Massachusetts. Wishes were telephoned in by the Bill Radoyes now living in Virginia and from Mr. Jones' brother, Kermit Jr. of New Hampshire.

The reunion represented the families of seven brothers and sisters: Forrest Jones, Gladys Porritt, Betty Wills, Carrie Walters, Kermit Jones, and the late Glenn and Lee Jones. Four generations were present to renew family ties.

Did you see two clowns swimming in Walters Lake Saturday night? The heat hasn't gotten to you, according to Pat Belby. The two merrymakers were the hit of the Second Annual Family Night sponsored by the Sunny Beach Property Owners Association. At 6:30 the children of the area were treated to a magic show by Jim Magus. Competitive games and prizes for every age followed, and the evening concluded with a bonfire and marshmallow roast. Connie Brzezinski was chairman of the program. Mrs. Walter Grogan, a resident of the area for many years, won the major prize of the evening - an ice cream maker - and now residents are looking forward to an ice cream party. How about it, Mrs. Grogan?

Church gets modular classroom approval

The Independence Township Planning Commission granted site plan approval last week to Calvary Lutheran Church for the installation of a 24 by 72 foot portable classroom structure. The agreement was given with a five-year permit subject to review at the end of the time.

According to Wendell Larson, representing the church council, the building would serve as an interim solution to the need for Sunday school space. The stained board and batten modular unit would provide up to eight classrooms, two storage rooms and rest rooms for the 120-125 Sunday school enrollment. Future plans of the church, he stated, call for building a new church sanctuary in approximately five years and converting the present permanent building into an educational facility. The modular structure would then be moved or possibly bricked and converted to permanent use.

Larson stated that Board of Appeals permission had been granted for a variance from the commercial concrete block or brick construction to allow the frame structure. The classroom facility would be moved adjacent to the present church building on 5.2 acres and in every

other structural aspect would meet commercial code requirements. A cost factor of over \$6,000 was cited as the reason for requesting the modular installation rather than a permanent construction at this time.

The Commission was also informed that a letter had been sent to area residents as a courtesy and information on the proposed plans. According to Larson no comments had been received as a result of the communication.

The township planner recommended the approval stating he could see "no reason why the Planning Commission would not give approval."

WHAT'S HAPPENING

General Motors exhibits which appeared recently at Transpo 72 near Washington D.C. will highlight the summer tour program at the GM Technical Center. The Transpo exhibits will remain at the Warren center through August 20, 20. They include two experimental urban cars, a "personal rapid transit" vehicle, and a passenger car equipped with an experimental air bag system. Visitors will also be able to tour the center itself.

A September wedding is planned by Laura Watterworth, daughter of Mr. and Mrs. C. N. Watterworth of 7445 Bridge Lake Road, and Mark R. Surre, son of Mr. and Mrs. Richard Surre of 7160 Perry Lake Road. Laura is a student at Oakland University while Mark is employed at General Motors.

Spiritual Message

"Is the Lord in our midst or not?"
Exodus 17, Verse 7

Question - Is the Lord in our midst or not?

The kind of question is a typical human reaction to adversity. Similar doubts are expressed even by devout believers who ought to know better. Why should this happen to me? I've always tried to live a good life, says a parent who has lost a child. Of course we sympathize with such doubts, yet we remember that God never promises freedom from trouble, but He does promise PEACE despite it all. There is Mystery in Life.

God is with us! the Israelites were up against another problem. Their need for food had been met. Now they found themselves without water. Characteristically they grumbled at Moses, but they also challenged the Lord with the

We can't understand why tragedy comes to some people and not others, but there is no mystery about where God is when men suffer. HE IS WITH THEM by His Love and support, helping them to bear it.

SALVATION ARMY CHURCH

M. Aspden, Brigadier

On the Eve of His departure from the world, Jesus did not promise His disciples that they would be exempt from trouble. On the contrary He promised "in the world you will have trouble, but take courage. The Victory is mine I have conquered the world." This then, is God's World, and though the devil has a good deal to say, THE LAST WORD is ALWAYS WITH GOD, for GOD IS LOVE.

Trustee race an open one

A vice president in the Clarkston Area Jaycees, McBride was for two-and-a-half years in Navy public relations.

He says, "As a resident of this community and father of two (one more expected this month), I have a strong interest in this community's future. Being an officer in the Jaycees proves my interest in community development.

"I have very strong opinions on rezoning, taxes and education that should not be overlooked. Judge Roth's idea of a step forward is, in reality, several steps backward. In an attempt to guarantee equal protection of the law to some, he has denied any protection of the law to all, adult and child alike. Our goal, after all, is a quality education for all students, not the massive shuffling of children on buses. Simply putting different kids in the poor schools won't make those schools any better. It isn't a bus ride that is critical, it is the education available at the end of that bus ride.

"I have a worried strong opinion about the serious drug epidemic that plagues this area. Even though the township is small, the problem is serious and something must be done about it, and will if I am elected.

"The future of my family, especially my children, rests in what is done and not done in this township. I want to help, in any way I can, to make this township a model of efficiency."

JERRY E. POWELL - R
6023 Sunnydale
TRUSTEE

Manager of Ben Powell Disposal, Powell is a lifetime resident of Independence.

He says, "I believe I will be able to recognize the problem areas of our community more readily than others seeking the office of trustee. My experience in the Jaycees for seven years and serving as president in 1970-71 gives me the leadership experience necessary in dealing with the people's problems

throughout the township.

"I have also been involved in many other community programs and projects including Bottles for Building, March of Dimes (business chairman), American Legion, Junior Baseball program and Rotary.

"Finally I think my age, 27, and experience in dealing with people, young and old, will help me serve our community in a government that is truly of, by, and for the people.

"I think all of the candidates should be elected or not elected on the basis of their stand on the issues, not personalities. We've seen what can happen to township government when personal feelings and politics enter into the issue at hand. There is no personal vendetta anyone, Republican or Democrat, in my candidacy for trustee. My only interest is further serving the community in which I live and work.

J. JOSEPH RHOADES - R
8954 Woodlawn
TRUSTEE

Owner of Rhoades Machine Works, Inc. of Berkley, J. Joseph Rhoades, 61, has served upwards of 18 years on the Township Planning Commission and the old Zoning Board, most of the time as chairman. He has also been a member of the Zoning Board of Appeals for most of these years.

"This experience has given me insight to the workings of the township government. I have successfully operated my own place of business for the past 36 years and feel qualified to assist in operating the business of Independence Township for the next four years.

"I feel I should be elected for a number of reasons: Independence Township is my home. I have paid taxes here since I was 12 years old. I expect to stay here until I die.

"I feel that one of the outstanding characteristics of a trustee should be the

position of 'watch dog', always on the lookout for inequities to the citizenry and moving for their correction. This I feel capable of doing.

"Having had much township experience in an advisory capacity, I feel that if put in a position where the action is, I can help reduce township expenditures, bring better relations between the township government and the township employes, create a better feeling between the township board and the residents of Independence Township and put a damper on costly law suits by putting humane considerations into the enforcement of our ordinances.

"I would like to make Independence a place to be proud of, to be happy in, where we will all respect the rights of others. Now is the time to create a tax base that will ease the burden upon the homeowner. This I would pursue to the fullest."

RICHARD P. WELD - D
8591 Allen Road
TRUSTEE

National marketing director of Mike Whorf, Inc., of Birmingham, Weld has a background in administration of personnel and materials on a reasonably large scale. He is experienced in purchasing and bidding procedures on city and state levels. He has a familiarity with performance contracting for municipalities, specification writing, and experience in dealing with projects involving federal funding.

He also says he has the ability to get along with all sorts of people in the sensible pursuit of our common goals.

Weld, 28, states, "I believe I would be able to offer advice and consultation to the administrative members of the Board in the areas of purchasing and contracting, as well as assisting in the development of Federal Projects. Since, however, the primary function of the Trustee is to represent the people of the Township, I would be deeply concerned to reflect accurately the wishes of the people in the many important decisions of the Board. I will absolutely refuse to become involved in the ridiculous squabbles which mark the present Board.

"We all realize that the Township is facing a period of dynamic expansion, and that the decisions which we make now will have a tremendous effect on the future of our area. I feel very strongly that with the number of talented and capable young people moving into the area, we have an exceptional resource to call on, and that the Board should represent the outlying areas of the Township as well as the village.

"To sum up then, I would appreciate everyone's vote, Republican or Democrat, first, because of my experience in supervisory and administrative positions, second, because we need to act now to insure responsible progress in the development of the Township, and finally and most important . . . because I have a deep and sincere desire to represent the People of the area, so we can all feel that we have an effective voice in our own government."

Trustee choices

CHESTER HENSLEY - D
6643 Balmoral Terrace
TRUSTEE

Hensley is an employee of Pontiac Motor Division and has lived in the township for eight years. He is married and the father of two children.

He attended Oakland University from 1959 to 1963. He has been religious education director, superintendent and is now on his church council.

His statement: "Our Township is in a crucial era. The next few years will decide the shape of our Township for many generations to come. Perhaps the most important item facing our Township is Zoning of property. The deciding factor for me as to whether or not I should run for office was my dissatisfaction with past rezoning of properties in this area. I feel that if I were elected to the office of Trustee that I could work with the Board and with the people of the Township for Better and more Responsible action from the Township Board.

"I am a responsible and sincere resident of this Township. I have no ties, politically or socially, with anyone in our Township. The only special interest that I have is the people of our Township. I can listen to peoples wishes. I can make decisions that would benefit the majority, not the minority. We need more representative Government. It is time that you the voter elect someone who can and will represent your interest.

"Also we need someone who can work with the Board. We need better cooperation between Board members. Perhaps the fact that I have never held political office before is an asset. If given a chance we can achieve better relations between Board members. Our Board has been brought to life by our present Democrats that are on it. Elect another Democrat that can work with the present Democrats for a better township. It is past time that the people elect someone who can represent them. I can and will represent you, but first I need your support and your vote."

EDWIN L. MANLEY - R
6570 Green Haven
TRUSTEE

A Pontiac firefighter, Manley is 35 and the father of four children. A resident of the township 10 years, he is president of the Clarkston Chapter, National Action Group, and a member of the Independence Township Planning Commission.

"I am a professional Fire Fighter and work hours that would give me time to devote more than usual to this job I seek. I represented the Firefighters in Pontiac for nine years as an officer of their Association. I have taken extension

courses at the University of Michigan in supervisory methods in municipal government and public speaking.

"I've got a stake in our township because this is where I chose to build a home and raise my children."

Manley believes he should be elected because he believes in elected officials who represent the people who elect them. He's for local control of the township, and for supplying the residents with the most service at the least cost.

He says he's for working with the other elected officials in the township, for more youth programs, and for neighborhood schools. He's in favor of the Independence Township Land Conservancy, a crackdown on drug pushers, and opposed to more multiples in the township.

"I'm for America, and the rights of our citizens to shape their own destiny. We do not need some Federal Judge to tell us what we must do and how much it will cost us."

A barmaid in Bouremouth, England, asked surgeons to reduce her bust size (38) because patrons come "to leer with their beer."

CHARLES B. McBRIDE - R
6006 Ortonville Road
TRUSTEE

An employe of Lederle Laboratories, McBride has a B.A. degree majoring in political science and history with a minor in economics.

"I am the only candidate who has prepared himself educationally for this job," he states.

"Kids learn in school, not on buses."

Your Congressman, Jack McDonald, has worked for a long time against forced bussing. He believes that no public school student should - because of race, color or creed - be forced to attend a particular school. He strongly supports the constitutional amendment to permanently end forced bussing.

He was strong enough to stand up and fight in the beginning and take the heat in Congress. He is known nationally for speaking out and working long and hard to defeat forced bussing.

Forced bussing is not the solution to a desire for equal education. Let's discuss something about it! If you want to permanently end forced bussing

More ski resort recommended

Unanimous recommendation for approval to rezone an additional 37 acres to commercial recreation was given by the planning commission to Pine Knob Ski Resort developers, Indusco Corporation of Southfield. The former agricultural land in Section 23 lies immediately adjacent to the southeast of the present ski hills and would permit construction of three new ski runs.

According to Joseph Loccrichio the new runs would be "in excess of twice as long as any existing slopes... making this the largest ski facility in southern Michigan with a total of five chair lifts."

Several residents voiced their concern over the expansion proposal. Mrs. Arthur Nowakowski of 7520 Pine Knob Road objected to the prospect of further construction stating "we have lived with construction noises for the past ten years." She also felt that no further commercial recreation (C-5) zoning should be approved until the ordinance was updated to stricter requirements. "I feel the C-5 zoning offers nearby homeowners little protection... it is much too vague," she said. "We serve as a buffer between this recreation area and the rest of the township," she continued

in questioning how much the noise would increase with the additional snow-making required for more ski hills. Referring to the recent traffic problems, she concluded her statement with "once a large segment of the township becomes affected... action is taken, but we have not received such immediate effective action. We have been voicing our complaints for the past 10 years."

Mrs. Fred Klusner of Pine Knob Road questioned the sanitary treatment plant and lagoon adjacent to her property. She quoted an Oakland County Health Department official as recommending no further expansion until improvements were made in the sanitary treatment facilities.

Loccrichio denied the allegations that the system was unsatisfactory saying "we

have one of the best sewage treatment plants in the county, the lagoon is only a holding basin for water." But he promised to obtain written county health department agreement on the sanitation facilities and assured all possible measures would be taken to control noise. Based upon those agreements, the recommendation was given for approval.

Jaberi plans approved

Conceptual site plan approval was approved by the Independence Township Planning Commission last week for the Northcrest Development near the corner of Dixie Highway and White Lake Roads.

Representatives of Jaberi Corporation, owners of the property, were architect Jack Friedman and Bill Wolff, who outlined plans for the 325-unit condominium complex estimated to cost \$10 million. Included in the site plan layout were an 8,000 square foot clubhouse, tennis courts, swimming and wading pools, play areas, boat docking facilities and a wooded greenbelt at the property lines. The condominium units will appear at two-story structures to the road view with many containing underground garage facilities in the rear. There is no on-street parking in the interior development.

A Planned Unit Development, the conceptual approval now permits the developers to proceed with engineering plans and final site plan layout. Included in the planning commission approval was recommendations that the final plans include a paved access to Green's Lake for fire equipment, at least 25 foot turnarounds for large fire fighting vehicles and consideration of additional tennis court facilities over the three courts shown on the preliminary layout.

Questioned as to when construction might begin on the project, Friedman replied "we are stalled by the mechanics of getting approval, not by lack of funds or the intent to proceed."

Mary Ellen Johns, part owner of Edgell Spring Water on White Lake Road near Deer Lake, fills a bottle of fresh spring water for customer, Mrs. Bonnie Stickler. The business is new, owned by Miss Johns and Mrs. Eloise Beach.

Stanley C. Barker, public relations representative for GM Truck and Coach Division, has been named publicity and promotion committee chairman for next fall's Pontiac Area United Fund drive. The announcement was made by James Clarkston, 1972 PAUF Campaign general chairman.

Barker lives at 3868 Lake Oakland Shores Drive, Drayton Plains.

Duane R. Hursfall

Three Republicans, including the incumbent, and a Democrat seek nomination as county commissioner in District 1 during the August 8 Primary.

DISTRICT 1

District 1 covers the majority of Independence Township and has been represented the past two terms by Richard R. Wilcox, publisher of the Ortonville Reminder, a weekly newspaper.

Richard R. Wilcox - R

Wilcox is a former Brandon Township Supervisor representing the old District 23, prior to the redrawing of commissioner district lines. He has served as chairman of the county's local affairs committee and vice chairman of its equalization committee.

E. Wayne Converse - R

Converse is Oxford township clerk, having been involved in real estate as a broker and salesman for seven years. He's served three terms as township clerk, three terms as Oxford village councilman and was formerly Goodrich village clerk. He is first vice president of the Oakland County Chapter of the Michigan Township Association.

Richard T. Dietz - R

Michael M. Pantel - D

Pantel is an attorney, formerly a member of the Oakland County Prosecutor's staff. He lives in Waterford Township.

DISTRICT 2

In District 2 which covers southwest Independence and Springfield township, two Democrats face off against two Republicans in the August 8 Primary. There is no incumbent.

Alice M. Davies - D

Homemaker and president of the Huron Valley School Board, Mrs. Davies is a former teacher and has been active in community organization since leaving teaching in 1962. Among the priorities of District 2 Mrs. Davies sees streets and roads, taxes and assessment practices, land use planning, and the large areas set aside for recreation as major concerns.

Joseph C. Corey - D

Duane R. Hursfall - R

Hursfall served 13 years as Independence Township supervisor with 12 years experience on the Oakland County Board. He is a past president and director of the Michigan Townships

Association. He has been a member of the Oakland County Board of Health the past 13 years. Hursfall lives in Clarkston.

James W. Dunleavy - R

Dunleavy has been a member of the Highland Township Board and is a founding member of the Highland Planning Commission. He owns Dunleavy and Sons in Highland, and has been active in township Republican affairs.

DISTRICT 3

In District 3, an incumbent Democrat and a Republican face no opposition in the primary. District 3 covers southeast Independence Township.

Niles Olson - D

Incumbent Democrat, Olson has served two terms on the County Board of Commissioners. He was credited with the successful fight against expansion of the Oakland-Orion Airport. Olson owns a hardware store in Lake Orion.

Co-op mothers get acquainted

The Clarkston Co-Op Nursery is getting into the swing of things getting ready for its fall session by having summer coffee hours July 25, 26 and 27, at the homes of Mrs. Ronald Rule, Mrs. Carl Hardy, Mrs. Stephen Starnis and Mrs. Wayne Viergiver.

The purpose of these coffees is to introduce co-op mothers to one another and familiarize them to co-op nursery schools.

Orientation will be the first week in September for all co-op parents to thoroughly inform them of the purpose of the co-op and their purpose to the nursery.

School will be starting September 11, Monday.

by Bob & Marvel White

Do you know the state requirements for the sale of building lots? Believe it or not, every state has its own laws regarding the subdivision of land into lots for sale. These laws came into effect when people began to realize that many of the old time subdivisions were made to sell land at a maximum profit with a minimum of improvements. Now, especially in more urban areas, there are definite requirements concerning the installation of streets and utilities before land can be sold.

BOB WHITE REAL ESTATE, 5856 S. Main St., 625-5821 will help you meet your requirements for the right home and will provide complete assistance in obtaining a mortgage. And be sure to call to us with your listing; through our nation-wide transfer service, we get many transferrals into the area. With your permission, we'll even hold an open house for you. Hours: 9-8, Mon. - Thurs.; 9-6, Fri., Sat.; 12-5, Sun.

HELPFUL HINT:

Springfield candidates speak

(Editor's Note: We have used the information sent to us. Not all candidates responded to our questionnaire.)

CLAUDE TRIM - D
Supervisor

Mr. Trim, the incumbent, is unopposed in either party.

JOSEPH R. HORTON JR. - R
8480 Eaton Road
TREASURER

With over 30 years' experience in the management of personnel relations and accounting, Horton is an employe of St. Joseph Hospital in Flint. He attended the University of Detroit in 1963-64. Horton is 61.

"As a long time resident of Springfield Township, I feel I am qualified to be elected as township treasurer. My qualifications include extensive experience in industrial and hospital management over the past 35 years," he reported.

"I have been a member of the Davisburg United Methodist Church during the past 50 years, am married and have three sons. Also I am past president of the Pontiac Civitan Club and past treasurer of the Pontiac Campfire Girls' permanent trust fund."

CALVIN D. NELSON - D
7273 Crosby Lake Road
TREASURER

Owner of a horse ranch, Nelson, 48, is a graduate of Michigan State University with a degree in business administration and accounting. He has had 16 years of accounting experience.

He says, "It's time the township has a progressive change. I have the desire to help make this change and I have the time to work on it."

DONALD W. ROGERS - D
9254 Semindale
TREASURER

Donald W. Rogers, 27, is an employe of the Detroit Edison Co. He attended Lake Superior State College and Schoolcraft Community College. He is presently treasurer of District 21 Jaycees.

His statement: "Springfield Township is a growing community. The people you vote into office must have growing ideas. I feel I have those qualifications and more, to run for the office of Treasurer of Springfield Township.

"The future must be planned for. The problems of a growing community. Activities for youth, and a reduction in the growing crime rate are three major items in every area. In order to make this community a place we all want to live in, we need your help. I am willing to be your working tool in government, to make Springfield Township what you want it to be.

"Time nor space will allow me to cover every subject I am concerned with. I am interested in all events that happen in this Township. WHY? Because Springfield Township is a part of me.

During my campaign I want to meet all of you, get your ideas and attitudes. So I know how to best represent you in our government.

"So if a young man knocks on your door, I hope it will be me DON ROGERS.

MRS. WANDA ROTHERMEL - R
1068 Dixie
TREASURER

Mrs. Rothermel and her husband own and manage Holly Heights Apartments. She has been employed as a private secretary for nine years with U.S. Plywood Corp. Besides fulfilling her business woman roll, she has been active in such community endeavors as Girl Scouts, Little League, etc.

Mrs. Rothermel says she would seek the following changes for Springfield Township:

"Work to attract new industry to the township. Work for a stronger control of monies spent outside the township. Work to lower the tax base so that we all can afford to live here. Insist that the Zoning Board adhere to the master plan for the township. Spot rezoning is undesirable for existing properties," she stated.

She feels she should be elected because, "I have always been interested in local government, and if I am elected, I would represent the average taxpayer, not just preferential individuals or 'special interest' groups. The overburdened taxpayer is seeking relief in this area, and it's time we recognized the people who pay the bills."

Dry rags leave lint on unfinished wood: a soft brush is a better tool for removing sanding dust.

More Springfield candidates

THEODORE ODIN JOHNSON - D
5912 Long Point
CLERK

Johnson is a Clarkston High School graduate with a bachelor of arts from Wayne State University. He served in the Peace Corps for three years and is currently a senior at the Detroit College of Law. He is 28.

His statement:

"Springfield Township is in the midst of a period of extremely rapid growth. Regardless of whether or not one approves of such 'progress', the township must be prepared to cope with it, because uncontrolled and unchecked growth could have a disastrous effect on the future of this area. Due to the present

composition of our township board, it has been extremely difficult for far-sighted and imaginative planning proposals to receive adequate support and fair consideration. As township clerk sitting on the board, I will readily support all legitimate proposals which will prepare the township for this growth and be in the best interests of its citizens.

"The township clerk's duties require an increasing knowledge of the law and I believe my background makes me well-qualified to handle them. Another effect of the township's increasing growth is the added need for the availability of the clerk to the citizens of the township. If elected, I will conduct regular hours of business at the township offices in addition to home business hours, rather than carry on virtually all the duties of the office from my residence, as has been the practice of past clerks."

sales for Cook Realty of Drayton Plains.

His statement: "I feel Springfield will be the upcoming township in Oakland County in the next four years as more and more people move to the area.

"Now is the time for new ideas. I think the board needs someone youthful with new ideas."

Gonzales said he was opposed to the board's having given a liquor license to the Oakland County Parks and Recreation Commission for its Springfield-Oaks Golf Course. "I don't believe government should compete with private enterprise."

COLLIN W. WALLS - R
627 Broadway
PARKS COMMISSION

Collin W. Walls, owner of Walls Real Estate, says his concern for and interest in youth, senior citizens and the township as a whole qualify him for the commission job. He is a member of the Davisburg Rotary Co.

His statement: "It is time the Park Commission became an active part of the township. We must plan for the future, work with the Planning Commission to preserve our open spaces, develop small neighborhood parks, develop and use township property, support and expand existing recreational programs and develop recreations facilities for senior citizens.

"For several years the Park Commission has been inactive and they need 'New Blood.' I will be willing to spend the time, work to develop programs and help the residents of the township. I feel that Gordon Rigoulot and I will be able to activate the inactive Park Commission."

The time has come for Political Decisions in Independence Township. My personal concern is WHO becomes our new Trustee - this comes about by my being a candidate for this position. I do believe that the future leadership of our Township can best be judged by the leadership of the candidate seeking any one of our elected posts.

JOE RHOADES

I submit here with a run down on some projects in which I had leadership:

- 1-Foreman Experimental Engineering Machine Shop at General Motors Truck & Coach. Age 21.
- 2-Founded Rhoades Machine Works, Inc. Age 25.
- 3-Vice Pres. Berkley Chamber of Commerce Age 32
- 4-President of "Oakland County Sportsman Club" age 55.
- 5-Led group of conservationists in successfully promoting 3200 acres of land at Holly for a "Game Area" Age 48.
- 6-Led group in building a fish hatchery suppling the Clinton River chain of lakes with 10,000 to 20,000 Pike a year. Age 53.
- 7-Founder of "Sunny Beach Property Owners Assoc." Age 32
- 8-Member Church Committee Age 45.
- 9-I served as a Volunteer on the Berkley Fire Dept, and four years as a Special Deputy for Sheriff Frank Irons.
- 10-Appointed by Judge Arthur Moore to fill position of Independence Township Zoning Board age 43, served as Chairman approx. 12 years. Served total of 18 years.
- 11-Served as Chairman of Zoning Board of Appeals 12 years.
- 12-Will stand in the path of any attempt to cause busing in or out of our township.

And now I should like to continue in my life time of Civic Endeavors to serve the next 4 years as Independence Township Trustee.
Yours for a better Township

JOE RHOADES

D'ARCY A. GONZALES - R

hill'n gully

I'm no pace setter

by Jean Saile.

The wedgies are back. For heaven's sake. I can remember clumping around in wedgies 20 years ago, and when they were abandoned in favor of a less cumbersome shoe, I walked three inches off the floor for months.

Wedgies, for the uninitiated, are shoes built on platforms. They're said to enhance foot appeal — and as I recall they were good for appearing taller than you were, making noisy entrances and exits, wading through rain puddles without getting your feet wet, and developing strong leg muscles.

The wedgies weighed more than the less formidable thin soled shoes.

Getting rid of the wedgies was like getting rid of a leg cast.

The wedgies followed the saddle shoe craze. Now saddle shoes were something I really liked — low heels, scuffed, comfortable with a pair of droopy white ankle socks folded over the top.

We wore them about the time we wore the wide leg jeans turned up two or three times so the bottom

hit somewhere in mid-calf. That was a sloppy joe sweater or a man's shirt over the top was really "hip" — only we called it "hep".

Probably there was a time when I enjoyed being "hep", but now it seems I catch up to current fashion only at about the time it's being phased out into something different.

Probably the best indication of fashion in the Saile neighborhood is what hits the family trash barrel. About the time I throw it out, it's "in".

I just got rid of the last pair of spike heel, pointy-toed shoes not long ago, and already spike heels are on their way back.

There's an old green Robin Hood hat on my closet shelf; it's been there for years. It's one of those winter hats that you can tie on your head with an attached scarf, which also doubles in keeping your ears warm.

I've been debating tossing it, but I'd hate to start the craze that would bring those monstrosities back into style. I guess I'll just keep it on the closet shelf.

Michigan has some strange and popular names for places

Don't look for London, Lulu, Magoon Corners, Tokio or Finkton among the 1,165 cities, towns and incorporated villages on the 1972 official state highway map.

London and Lulu in Monroe County, Magoon Corners in Jackson County, Tokio in Calhoun County and Finkton in Antrim County are among more than 2,600 names of places not shown on the map because of population, governmental status and space considerations.

Out of necessity of finding their way around — and love of names — early Michigan settlers put strange handles on places that stuck. On viewing the falls and rapids at the Sault for the first time, an awe-struck Jesuit priest-explorer was said to have exclaimed the Sault (falls) worthy of Saint Mary herself. The name, Sault Ste. Marie, has endured 300 years.

Ontonagon, Negaunee, Pontiac, Menominee and Saginaw were conveniently named by Indians before European settlers arrived.

The majority of the state's nearly 3,800 names were given by explorers and settlers. Famous Frankenmuth — on the state highway map — was named by German immigrants. They also named Frankentrost in Saginaw County and

Frankentrust in Bay County, neither of which is on the map.

Zeeland, Plymouth, Milan, Lisbon, Moscow, Sparta, Warsaw, Dublin, Wales, Florence, Bombay and Johannesburg also are obvious imports.

Johnson's Station in Huron County, Kelloggville in Kent County, Kelly's Corners in Muskegon County, McGregor in Sanilac County, Stevensville in Berrien County and Prattville in Hillsdale County appear to be named for first settlers.

The towns of Napoleon, Pulaski, Roosevelt, Roscoe, Ralph, Rousseau, Ypsilanti, Lincoln, Brutus, Sheridan, Grant and Jackson were named for heroes — or villains — of history, depending on your point of view.

Hell in Livingston County and Paradise in Chippewa County offer clues as to what some Michigan pioneers thought of the place where they settled. Mt. Bliss, Utopia Beach, Devil's Lake, Temperance, Dreamland, Witch Lake, Hope, Good Hart, Golden, Wise, Misery Bay, Prosper and Payment also suggest good and bad reactions of the founding fathers.

(Copies of the 1972 map are available by writing — on a postcard please, including your return address — to: MAPS, Michigan Department of State Highways, Lansing, Michigan 48904.)

Sister Sue and Sister Frances Mary check some names.

Trustee endorsements nixed

Independence Township Democratic Club has made no endorsement on the two Democrats who seek election as township trustee in the August 8 Primary election.

Chester G. Hensley, 6643 Balmoral Terrace, and Richard P. Weld, 8591 Allen Road, are the trustee candidates.

The club, meeting last Wednesday night at the township hall, did endorse a slate consisting of Supervisor Gary Stonerock, Karen Herron for clerk and Donna Buhl for treasurer.

In other races, it endorsed George Montgomery for the 19th Congressional seat; Ronald Farnum for the 60th District state representative seat; Michael Pantel, County commissioner in the first district; Alice Davies, commissioner in the second district; and Niles Olson, commissioner in the third district.

A straw vote was taken on county wide delegates, but Mrs. Herron, secretary of the club, said it had been decided not to use the results.

Several candidates for state, county and local offices appeared before the group during the evening.

Church school at Calvary

Calvary Lutheran Church will conduct its annual Vacation Church School from July 31 to August 4.

Classes from 9:30 to 2 p.m. will be based on the theme, "Together in God's World." Students from the age of 4 through those in the sixth grade will be enrolled. Pre-registration is a requirement.

A donation of \$1 per child of \$3 per family is suggested.

Students are asked to bring a lunch each day and one package of pre-sweetened drink.

Four and five-year-olds will be excused at noon.

The short white habits and the black veils of the Dominican Order of nuns are becoming a familiar sight on Clarkston streets.

They're being worn by Sister Frances Mary Kernasovich former director of novices and teacher of history and religion at the Dominican Academy in Oxford, and Sister Sue McMahan, who came to Clarkston from St. Vincent Ferrer School in Madison Heights.

The two are in charge of St. Daniel's religious education program, which involves some 400 students and the adults of the parish; and they also hope to get involved in such community activities as Independence House.

The two, both in their 30's, are looking forward to a long-term involvement with Clarkston. Until now St. Daniel's church school program has been under the direction of volunteer Mary Hennig. The two nuns are the parish's first attempt at paid directors.

The sisters are setting up housekeeping in a five-room cottage at 94 Holcomb. A

shower last week by women of the parish helped outfit the new home, and the sisters say missing necessities such as furniture will be forthcoming from the mother house in Oxford.

The two are impressed with the parish hospitality. Pleasant people, they react pleasantly to new situations and while they find the religious education program challenging, they're looking forward to it and to experimenting somewhat with its delivery.

Both reflect that while the home is the best place for religious education, they hope also to provide some classroom settings both for children and adults.

Their qualifications are excellent. Sister Frances Mary was for six years principal and religious education director at St. Sylvester's parish in Warren. Sister Sue's experience was at St. Frederick's and St. Benedict's in Pontiac until she joined Sister Frances Mary at St. Sylvester's.

Dedicated to their work, they feel there are many people who are looking for a means of dedication.

Artistry in steel

Something bugging you?

To help you keep ahead of insect problems, Michigan State University entomologists offer these tips on lawn, garden and tree pests that appear this time of year:

APHIDS

Aphids are small, soft-bodied insects of all sizes, shapes and colors. They don't often kill plants, but they do reduce plant vigor and cause damage by sucking juices from the foliage, twigs and small branches. They can also carry diseases.

Aphids can ruin the appearance of ornamentals by secreting a clear, sticky liquid that sticks to leaves and twigs. A sooty, mold fungus lives on the liquid and makes the plant appear blackened. This sticky liquid also adheres to cars parked beneath aphid infested trees, and many people mistakenly blame "plant juices" for these sticky globs on the family sedan's wax job.

Aphids appear in the spring and their population continues to grow until winter approaches. They are commonly a major problem when weather is cool and damp.

The control of aphids is a spray containing Malathion or Dizinon. When spraying make sure that all parts of the foliage are covered. Some trees, bushes and plants may need to be retreated if the aphids recolonize.

Dr. William Wallner, MSU extension entomologist, says, "While ladybird beetles can reduce aphid numbers, they often fail to limit aphid populations before serious damage occurs."

LECANIUM SCALES

Woody plants are the targets for these insects. The oval, mahogany colored insects suck the plant juices, reducing vigor and causing leaves to yellow and wilt. A heavy infestation of scale insects can kill small or immature plants.

For control in late spring or summer, use a spray containing Molothion, Sevin or Dizinon. Make sure all plant parts are covered and repeat the spray 10 days later.

OYSTERSHELL SCALE

This pest is one of the most common and troublesome scale insects in Michigan. It attacks a wide range of woody plants, causing retarded growth and yellowing of leaves. Its presence is shown by grayish brown scales - about 1/8 inch long - attached closely to the bark.

At about apple blossom time eggs

hatch and the small "crawlers" come out from under the scale coverings. The crawlers then suck plant juices throughout the summer.

Oystershell scale can be controlled with sprays of Malathion, Sevin or Dizinon. Spray the entire plant. Apply first sprays about the end of May.

ROSE CHAFER

The rose chafer is especially fond of rose buds and leaves, but it can also do serious damage to grapes, cherries and a number of other plants.

This insect is about 1/2 inch long and has a reddish-brown head and body with a black underbelly. Its whole body is covered with short yellow hairs that give

the beetle a fawn colored appearance.

For control, apply two sprays of Malathion on Sevin, 7 to 10 days apart, starting when the insects appear - usually in early June. Thoroughly cover the whole plant.

For more information on controlling insect pests that attack Michigan trees and shrubs contact your local county Cooperative Extension Office and ask for Extension Bulletin 534, Controlling Pests of Trees and Shrubs: A guide for Home Gardeners. This bulletin may also be obtained by writing to: Michigan State University, Bulletin Office, Box 231, East Lansing, Michigan 48823. Single copies are available free to Michigan residents.

Jack R. Sansom, a 1967 graduate of Clarkston High School, will graduate July 28 from General Motors Institute in Flint with a bachelor's degree in Industrial Engineering (BIE). He is member of Theta Tau Professional Engineering Fraternity.

Currently, Jack is a supervisor at Pontiac Motor Division. He, his wife, Jonny, and daughter, Tammy, reside at 2343 Hartford in Pontiac.

Tim Kaul hugs recent golf winner at Waterford Country Club.

DeMolay winners

District and state winners in athletic competition entered by members of Cedar Chapter, Order of DeMolay, have been listed by Joseph E. Saul, dad advisor to the group.

The following is the results in various sports for the past year.

HORSE SHOES, in District

1st place in Singles, Ed Medlin.
1st place in Doubles, Ed Medlin and Randy Porter.

In State

1st place in Doubles, Ed Medlin and Randy Porter.

TABLE TENNIS, in District

1st place in Singles, Bryan Cullens, Jr.

1st place in Doubles, Bryan Cullens, Jr. and Gary Millikan.

In State

1st place in Doubles, Bryan Cullens Jr. and Gary Millikan.

BOWLING in state tournament

2nd Place

VOLLEY BALL

1st place in District

RIFLE

1st place in District, Gibbons, Ousnamer, Kenyon, Merz.

3rd place in State, Gibbons, Ousnamer, Kenyon, Merz.

TENNIS in District

1st place Singles, Tom Sowerwine
1st place Doubles, Tom Sowerwine and Bill Jackson.

In State

1st place Singles, Tom Sowerwine

STATE TRACK MEET

CEDAR Chapter 2nd in State
2nd place; Running Broad Jump, Dave Roberts.

3rd place; Shot put, Charles Branson.
1st place; 100 Yd. Dash, Doug Katto.

2nd place; 180 Yd. Low Hurdles, Dave Roberts.

1st place; 220 Yd. Dash, Doug Katto.
Wayne Keeley, Bob Kaskela, Bobby Golding participated in Relays.

The athletic advisors are Bud Temple, Doug Cowdin and Genreal Gibbons.

The young men participated in Chess and Basketball but did not win any honors.

Softball is being played now and State Tournament will be held in August.

Behind the Counter
From Keith Hallman

High Temperature

A high temperature in an infant is often not as serious as the same degree of fever in an adult. One good example of this is "roseola infantum," a rash usually occurring in children under three years of age, particularly in the spring and fall.

The baby suddenly develops a very high fever, with little or no warning. The throat may be mildly inflamed, the tonsils a little red, but there are usually none of the typical signs of a cold you might expect. Even more unusual is the child's appearance; despite the fever, he looks alert and is playful.

The doctor may not recognize the true problem at once, and must suspect such things as pneumonia, ear infections or inflamed kidneys. He can't discount the fact that high fevers sometimes reveal many sicknesses.

On the third or fourth day, the child's fever suddenly drops to normal, and a rosy-pink rash (something like measles) appears on the trunk, neck and arms. This lasts for about a day, after which the child promptly recovers.

Roseola is probably caused by a virus, but it doesn't appear to be very contagious and, despite the anxiety it causes parents, isn't very dangerous. Don't panic; rely on your doctor and the tests he will perform.

Gerry Baker wins scholar athlete award

Gerry Baker, Highland Lakes Cross Country athlete, has won the 1971-72 Scholar Athlete Award. The award is given annually to the campus athlete that earned the highest grade point average. Baker, a physical education major, had a straight A or 4.0 average during the 1971-72 school year.

In addition to excelling in the classroom, Baker was a stand-out performer on the cross country team. He was instrumental in the teams' compiling a 12 win-2 loss record. Coach Lynn Reed, who has coached the Highlanders to an overall record of 99 wins and 13 losses, feels that Gerry will be an even better runner during the 1972 season. "Gerry did not decide to run in college until late August, 1971. Consequently, he did not run in the summer. When one considers his lack of summer preparation,

his performance was outstanding. We expect great things from him this season."

Baker attended high school at Clarkston where he was a standout cross country and track performer. He resides with his parents, Mr. and Mrs. Gerald Baker in Clarkston.

Fishing news from the DNR

DNR REPORT: FISHING

Limit catches of rainbow trout are being taken at night in 20-30' of water in Proud Lake using worms and whole kernel corn. Bluegills are still on the beds in most of the area lakes. Try using a fly rod and rubber spider. Reports from Lake Orion were fairly good catches of bass and lots of real small bluegills. Bait used were nite crawlers and artificial lures. Bass and crappie fishing has been real good using nite crawlers in the Holly area lakes. Fish in deep water. Some fishing pressure on Maceday and Lotus lakes where a few bass and panfish are being taken. Several good catches of bass (1 to 3 lbs.) were observed on White Lake with light fishing pressure. Good catches of crappies on Kent Lake with medium pressure.

LAW:

Conservation Officers have returned to their regular duties of serving warrants and checking fishermen since Dodge No. 4 has become a peaceful and enjoyable Park. Two of the Oakland County Conservation Officers wrote 15 fishing violation tickets on Wednesday, most of them for no fishing license. Two subjects were apprehended for taking panfish on Loon Lake near Wixom with spear guns. Another subject was arrested for offering a wild fawn deer for sale.

Quick Pik Food Stores, Inc., asked for reconsideration of the board for their request of an ADM license. If approved by the board it would allow carry-out beer and wine.

Football sign up

Boys interested in playing for the Independence Township Chiefs football team may sign up Monday, July 31, at the township hall between 7:30 and 9:30 p.m.

Boys must be nine years old weighing between 65-105 pounds; 10 years old weighing between 70-115 pounds; or 11 years old and weighing less than 90 pounds.

Any boy in the above categories who lives in the township and did not play with the Chiefs last year is eligible to sign up.

Further information is available from Fred Dyke, 674-3375, or Bob Pearson, 623-0107. Membership fee of \$10 per family will be due later.

Tennis clinic, tournament scheduled

Independence Township Parks and Recreation Department will sponsor a tennis clinic from 10 a.m. to noon Monday, July 31, and Tuesday, August 1, at the Clarkston High School tennis court.

A second session will take place Wednesday and Thursday, August 2 and 3, at Sashabaw Junior High School.

Following the clinic, participants will be invited to compete in a tournament August 7 at the high school and August 9 and 10 at Sashabaw.

Timothy Doyle, program director, said trips previously advertised by the department in its playground program have been cancelled because the department is unable to use the school buses.

A street light for the dead end ramp at I-75 and Sashabaw Road was approved.

Where the camping spots are

The camping family unable to find a vacant site in Michigan this summer does not know where to look, according to Automobile Club of Michigan.

While state park campgrounds are expected to have more pressure than ever this summer, the spectacular growth in the number of private campgrounds is the major reason why most campers should have little difficulty finding space.

Auto Club is optimistic about campers finding space despite the fact that state park campsites have grown only two percent for 1972 as compared with 1971, while recreation vehicle sales have increased 11 percent.

The 25 percent increase in private parks listed in Auto Club's guide this year should guarantee adequate camping space in Michigan.

Also for the first time this year private parks in Michigan will offer more sites than state parks. Currently there are 255 private parks listed by Auto Club with 20,000 sites as compared with 70 state

parks offering 14,814 sites.

All totaled, there are 47,000 campsites in Michigan to service approximately 55,000 camping units — excluding an undetermined number of ground tents. In addition to 34,814 private and state park campsites, there are 1,440 sites at national forests, 2,576 at state forests and 8,291 at city, township and county parks, often overlooked by the camping public.

Auto Club explains that although there are more recreation vehicles than sites, not all camping units are in use at one time and Michigan should have plenty of camping space almost every weekend with a few exceptions.

However, campers may have to drive farther from home than planned and stay at second or third choice campgrounds over summer holiday weekends to get a site.

Auto Club adds that the 84,258 camping facilities turned away last year from state parks is a decrease of 2.1 percent from the previous year. Without the growth in private parks, it is

speculated that state parks could have had five times the number of turnaways.

Private parks are taking the pressure off state parks and have prevented state facilities from being completely overrun, Auto Club feels. It points out that while private parks have grown 25 percent in the past year, the number of sites they offer has jumped 45 percent.

Michigan's increasing number of camping families also is causing new businesses to appear. Many cities have made it illegal to store camping trailers in residential areas, unless they are kept in a garage. To accommodate the family which owns a trailer but has nowhere to keep it, storage yards are opening across the state.

These yards are usually fenced areas near a major road with a fee ranging from \$5 to \$15 monthly, depending on the services available and the location.

Stanford Camping Center, operated by Les Stanford Chevrolet, has a trailer storage yard in Taylor, at Telegraph and Van Born. It holds 100 units and the minimum charge is \$30 for a six-month period. It is fenced on three sides, with the front open.

Another more-expensive but more-deluxe storage yard is named Terrina, located at 12011 Market St., Livonia. The yard is completely fenced and customers are given a key to the gate which permits 24-hour access. The yard is protected by night lights, a guard and attack dog.

Storage at Terrina is \$15-monthly. The yard has LP gas sales, a septic dump station plus complete trailer and motor home repair and maintenance service. It has room for 100 trailers.

Auto Club expect more storage depots to begin opening across the state, especially in the north near popular

camping areas or where major roads going to and from resort areas meet.

Hauling a travel trailer with a car doubles gas consumption, Auto Club points out. By storing a trailer 200 miles from home, a person could save up to \$20 gasoline money round trip each weekend, which would more than offset the cost of a month's storage.

Also, the trip between the storage area and home could be made faster without a trailer in tow, it is pointed out.

The major concern of campers in Michigan is not if a campsite is available but where one can be found, Auto Club states. Although popular state parks almost always fill on summer weekends there is usually space at private parks.

Campers can almost always find a vacant campsite if they follow these rules:

* If looking for a site at one of the preferred state parks over a warm weekend, arrive Friday before 3 p.m.

* Use the State Park Hot Line to locate parks with space. Phone any of these numbers for information: (517) 275-8041, daily between 7:30 a.m. and 4:30 p.m.; (517) 373-1270, Monday through Friday between 7:30 a.m. and 4:30 p.m.; and (313) 868-1640, Monday through Friday between 10:30 a.m. and 5 p.m.

* Have alternate campsites located on a map should first preference be filled upon arrival.

* If staying at a private park, phone ahead for advance reservations. Remember, state parks do not accept reservations and operate on a first-come, first-served basis.

* Carry guides listing state, private and other parks which will help locate them and give other pertinent information, such as facilities available.

The independent view

by Jean Saile

Shanna Nadolsky, our "Around the Township" reporter, is most gratified with the response to our appeal for stories she can use about the comings and goings of area residents. While most of the callers are village residents, she wants those who live farther out in the township to know she'd be delighted to use their news, too. And besides, it would make the column more representative of the area. How about it, township residents? Call her at 625-2837

wife, Jeannie, celebrated her birthday in a novel manner. They went to Flint to watch a gas station close.

David Nadolsky, formerly with Hallman Apothecary, can now be found behind the pharmaceutical counter at the Village Pharmacy in Independence Commons. Dave has plans for enrolling in the Detroit College of Law this fall. He already has a Bachelor of Science from Ferris State.

Voters who are ill or will be out of town during the primary election August 8 have until 2 p.m. August 5 to make application for absentee ballots at the township hall. Absentee voters must complete an application form before the ballots are handed out. They may then vote there at the hall prior to the election.

Arts and crafts will be displayed on the streets of Holly during that community's annual sidewalk sales Friday and Saturday, July 28 and 29. Senior citizens will be serving free coffee and donuts near the fire hall. Mr. Magic, a professional magician, will appear both days. A turtle race for boys and girls, aged 5 - 14, will be at noon Saturday and a fireman's water ball contest will take place at 2:30 p.m. Saturday in Crapo Park. Other features include the senior citizens' kazoo band, a moon walk, 4-H zoo, clowns, fire truck rides, etc.

Connie Crubagh, soloist at Clarkston United Methodist Church, will be featured in a voice and instrument program at 4 p.m. Sunday at St. Augustine's House, 3316 East Draher, Oxford. Connie is the gal who sings from a wheel chair.

We threw a picture of a ritual mask into this column last week, wondering if we'd get any comments. The mask was a prize winner in last spring's Clarkston Junior High School open house display. Right now, depending on your political leanings, it could be interpreted as representing the other party. It was a fearsome looking thing.

Joe Ham, the senior citizen man at the Oakland County Commission on Economic Opportunity, says he and his

PUBLIC NOTICE

INDEPENDENCE TOWNSHIP SEWERS

There has been some confusion regarding the method by which effected property owners are to make known to the Oakland County DPW their preferred location for sewer taps. I hope the following statements will help to clarify this issue.

EVERY resident who has received a "sanitary sewer house lead location form from the Oakland County DPW, MUST fill it out and return it to:

1. Oakland County DPW
x No. 1 Public Works Drive
Pontiac, Michigan
2. Independence Township Hall
Building Department
3. Personally give it to a DPW Inspector
who may be in your neighborhood.

Failure to return this form may result in expense and inconvenience to you as the sewer contractor will make his own determination as to where and how deep the tap provision is located. Again, just fill out the form as directed and return it as soon as possible.

If you have any questions, please call Independence Township Water and Sewer Department, 625-5111.

J. Edwin Glennie
Clerk Independence Township

**Regular Meeting Independence Township Board
July 18, 1972
Synopsis**

Preceding the meeting was an open question period regarding the Pine Knob Theatre. Mr. Joe Lochricchio of Indusco, Mr. Bob Nederlander and Mr. Joe Nederlander of the Theatre were in attendance.

Meeting called to order at 8:40 p.m.

Present: Glennie, Johnson, Stonerock; Absent: Bullen, Humbert
The Board members present unanimously agreed to the following:

1. To table action on request for SDM licence - Quik-Pik Food Stores, Inc.
2. To table action on request for Class 'C' liquor license - Mr. Nicholas.
3. To allow private wells in Spring Lake Estates No. 2.
4. To grant splits of lots 80-81-82-83, Round Lake Woods.
5. To grant salary increase as per budget to a Library employee.
6. To place street light at I-75 and Sashabaw Road.
7. To support resolution to initiate solving pollution problem in Mill Pond.
8. To table action on resolution to promote additional ingress and egress for residents of Deer Lake Knolls, Lakeview Heights, Green Acres and Deerfield Hills.
9. To table action on resolution regarding building permits.
10. To pay township bills as distributed: General \$8,759.99; Water \$341.72; Fire \$2,087.36. - Total \$11,189.07.

Motion to approve the minutes of July 5 meeting failed for lack of support.
Motion by Johnson, supported by Glennie, to approve minutes of Special Board Meeting of July 14. Ayes - Glennie, Johnson; Abstained: Stonerock Motion carried.

Motion by Stonerock, supported by Johnson, recommending Mrs. Holly Stevens of 4773 Lakeview to fill vacancy on Planning Commission created by Mr. George Woody's resignation. Ayes: Johnson, Stonerock; Nay: Glennie. Motion carried.

A letter from the Clarkston Board of Education read stating they could not participate in paving of Pine Knob Road north of Clarkston Road.
Meeting adjourned at 11:20 p.m.

J. Edwin Glennie
Clerk
Independence Township

Building new lives

Trojan Vosie handles the paneling job on the former schoolroom interior. The RAP center will be able to accommodate up to 24 drug victims.

The sound of hammers and saws foretell the construction of new lives for detoxified drug addicts who will be living — come September 1 — in the former Webster School in White Lake Township.

The school, currently being remodeled, is being turned into a dormitory facility for young people whose lives have been messed up with drugs.

These are people, screened for their desire to be helped, who will be supervised and subjected to firm rules as they learn to live once again without the help of drugs.

Known as the Residents' Awareness Program center, it is financed by Independence, Springfield, Waterford and White Lake Townships. Independence has given \$6,500 through the township board.

Much of the material and labor used to convert the old school building has been donated. A total of \$50,000 worth has been donated to date, according to Waterford District Judge Kenneth Hempstead, spearhead of the project.

The school is designed to accommodate 24 youth. Dennis Angrisani will serve as full time director. He said it will be modeled after the Phoenix House in New York, a drug assistance center that Angrisani, once an addict, graduated from two years ago.

Like Angrisani, graduates of the RAP house will be helped to find employment.

Another RAP facility, a drop-in center, is in operation at 2955 Watkins Lake Road, helping less seriously addicted youth to a new life.

Work proceeds on the remodeling of the former Webster School in White Lake Township. The former school building is being transformed into a live-in center for drug victims under the Residence Awareness Program (RAP) which is partially supported by Independence Township. Mike Wilson from Owens-Corning Insulation Co. is in charge of part of the project.

Carpenters, July 25 29

Karen and Richard Carpenter, the brother and sister duo who can't seem to record anything but million-selling records, will appear at the Pine Knob Music Theatre on Tuesday thru Saturday, July 25 thru 29 at 8:30 p.m. Included in their hits are "Close To You," "We've Only Just Begun," "For All We Know," "Rainy Days and Mondays," and the Leon Russell composition "Superstar."

Carpenters were awarded 1970 Grammys for both Best New Group and Best Vocal Duo. Their gentle harmony, wholesome image and natural, unpretentious personalities have virtually made them the nation's number one recording team.

Tickets at \$7.00, \$5.00 for reserved seats and \$3.00 for unreserved lawn seats are available at the Fisher Theatre Box Office, all J. L. Hudson stores and at the Pine Knob Box Office, I-75 and Sashabaw Road.

Township briefs

A special meeting to pay overdue insurance bills was called Friday, July 14, by Ed Glennie, clerk, Keith Humbert and Tom Bullen, trustees. Previously, Supervisor Gary Stonerock had refused to pay the bills because he wanted the board to take bids on insurance companies. Glennie felt that because of possible cancellation of the insurance policies, a special meeting should be called to pay the bills.

New pharmacist

Bob Jasinski

Robert Jasinski, 34, of Rochester is the new face behind the pharmaceutical counter at Hallman Apothecary.

Bob, a former employe of Morley's Drug Store in Rochester lately with Lenox Drugs of Richmond, has been employed as full time pharmacist replacing David Nadolsky who resigned.

Bob was graduated in 1961 from the University of Illinois with a degree in pharmacy. He moved to Michigan from Chicago in 1962. He and his wife, Bev, have three children: Don, 11; Debbie, 9; and Dianne, 5.

A former president of the Rochester Jaycees, he is a member of the Rochester Chamber of Commerce board of directors and served on the Rochester Arts Commission, the group which sponsors that city's Arts N' Apples festival.

The lot split for Round Lake Woods by Comfort Homes was approved by the board. Four lots (3 with 12,000' and 1 with 16,000) were split to make three lots. Two will now have 16,000' and one will have 20,000'.

This familiar scene of boys and girls getting their animals ready for the coming Oakland County Fair is repeated in many communities. Vernon and Viola Scott of Ramsey Road, Brandon Township, are deciding which pen to take to the fair which opens Aug. 7 and runs through Aug. 12. The livestock will be judged during the week and the livestock auction will be Friday evening. Anyone planning to have quality meat next winter, may bid. Arrangements will be made by the committee for slaughtering and packaging.
