Township

Page 13

One of the questions Independence Township voters must resolve at the November 7 election is whether the township should purchase land in its geographic center for the purpose of constructing new township offices. The old office, once a school, sits on Main Street in Clarkston, District Court quarters behind it, and the old library next door converted for use by the Recreation and Water Departments.

Other township office pictures Page 20

By Jim Sherman

Gregg Smith, publisher of the Northland Press in Boyne City, tells this one about the newly married British couple who were looking for

a house in the country.

They found one that they decided was suitable. On their way home, the young wife happened to think they had not noticed a water closet (toilet) in the place, so she decided to write to the real estate man about it.

Being very modest she hesitated about writing the words water closet, so she referred to it as the W.C. The Real Estate man interpreted it to mean the Western Church near there, and answered as follows:

Dear Madam:

I regret very much the delay in answering your letter, but I now take the pleasure of informing you that the W.C. is located about nine miles from here and is capable of seating 1,266 people, this is very fortunate indeed.

If you are not in the habit of

going regularly, no doubt you will be interested to know that a great many people take their lunch and make a day of it. Others who cannot spare the time usually arrive just in time, but are generally in too big a hurry to wait if the place is crowded.

The first time my wife and I went was six years ago, and we had to stand up all the time.

It might interest you to know it is planning to hold a bazaar in the near future to raise money for plush seats.

I might mention that it pains me greatly to not be able to go more frequently. It surely is through no lack of desire, but as we grow older it seems more of an effort, particularly in cold weather.

I've said here before that I believed the guy who said man

should set goals in life, and once reached he should set another.

It's time for me to set another goal.

It's been no secret that I have wanted to own the Lake Orion Review. Publisher Marty Carlson and I have been friends since I came here. We worked closely through these 17 years.

More than once I've told Marty of my interest. He always promised I would get first chance if he ever decided to sell. He was good to his word, as usual.

With the preliminary agreement signed by all parties it appears the goal I mentioned will be reached early in December.

Someday I'll get around to setting another goal, but it won't be to own another newspaper.

That last statement is for the benefit of my wife.

Mill Pond still the worst

A water sampling program undertaken by the Village of Clarkston this year in cooperation with the Oakland County Health Department has revealed some varied findings, according to reports received by the village.

The county gives A, B, C and D classifications to ponds. "A" means the water is totally acceptable. "B" shows total coliform bacterial count questionable, but fecal bacterial count within limits for acceptable public bathing beaches.

"C" denotes areas considered unsafe for swimming. "D" indicates an environmental study of the lake underway.

On the Upper Mill Pond, B ratings were given to the Clinton River at Blue Grass and near Buttercup Lane. The Upper Mill Pond at Miller Road was given a C and D rating.

On the Lower Mill Pond, the area at Miller Road was classified with a B rating, but sites at the spillway into Parke Lake and at the hydro off Washington were given an A reading.

On Parke Lake, the area where the Mill Pond flows in was rated B. A ratings were given those areas behind the township hall and just off Clarkston-Orion Road.

Deer Lake was rated A along the township beach and the beach at Simler

Drive, however the Clinton River feeding into it near I-75 drew a B.

Middle Lake behind 6111 Middle Lake Road and at the subdivision beach off Pinehurst was rated A. The Clinton River where it flows under M-15 was rated B.

Elsewhere in the township, Woodhull

Lake off Woodhull Subdivision drew a B, but was rated A off Oakland Ridge Subdivision.

Other lakes tested in the township, all rating A's, were Cranberry, Crooked, Round, VanNorman, Walters and Whipple Lake.

Stonerock's salary stays at \$16,000

Supervisor Gary Stonerock is going to be allowed to retain his \$16,000 per year salary.

The method by which he was granted a \$1,500 raise at the township annual meeting a year ago April was not sufficiently out of order to invalidate the salary.

This was the finding of Circuit Court Judge William R. Beasley in a suit brought by Mary M. Burgess and others against the supervisor.

The judge said, "While the actions of the defendant township supervisor in conducting this meeting are certainly not to be condoned, it appears clear that the statutes vest a broad power in the township supervisor to conduct, moderate, control and preside over the township meetings. Turning the gavel over to the township attorney is not what the statutes contemplate.

"On the other hand, there is nothing in this record to indicate that anyone was refused permission to address the meeting, nor that any effort was made to challenge the resolution authorizing an increase in salary; that is, to raise the question and to challenge whether or not it should be voted upon, nor was any question raised then or now as to the accuracy of the count on this motion.

"Consequently, while not approving of the procedures followed, the court concludes that on this record these irregularities referred to and relied upon by plaintiffs are not of such magnitude as to require this court to find that the salary increase was invalid. Only in matters of the most compelling necessity should this court or any other court interfere with what is basically a ballot box question."

Civic Club to present candidates

"What do you think Independence Township will be like ten years from now?"

"What do you see as the responsibilities and obligations of the office you seek?"

These are two of the questions that candidates for Independence Township offices will be asked to answer at a Candidates' Night sponsored by the newly formed Independence Township Civic Club at 7:15 p.m. Friday, October 13, at Independence Center, 5331 Maybee Road. Club President George Phillips emphasized that the meeting is open to all interested citizens, whether

they are club members or not.

Each candidate has been sent a list of questions, and will be given time during the meeting to respond to the particular questions he has chosen. In addition, there will be an opportunity for members of the audience to direct questions to the candidates.

Further information about the club may be obtained by calling Phillips at 625-1739, or Weld at 625-4185.

CLARKSTON

625-5500

Todd Sanderson may be a little young to vote, but he got a fine view of sidewalk traffic from the township registration trailer Friday while his mother, Mary Lou Sanderson, was inside preparing to vote in the November election. Deadline to register is Friday, October 6.

Village headed for sewer changes

The entire village sewer system is under review as to depth, Clarkston village council has been informed.

Problems with deep basements off Middle Lake Road and in other areas of the village have made the review necessary, the County DPW has reported.

Jim Leaders, project engineer, said an attempt is being made to work out the problems so that the system will not cost anymore than it is now figured to cost. He said results of the survey should be available within a few weeks.

A village resident, Hal Reekwald, has threatened a court suit if a change regarding easement rights behind his Main Street real estate office is not made.

Reekwald told the council he had signed temporary easement agreements in regard to his property last November and was informed a month later that the original plan had been scrapped "because somebody wanted to build a garage."

He said the revised easement takes away the right to use his property, and that due to a need for additional manhole and engineering fees will cost residents of the village about \$1,200 extra.

Leaders commented that the present easement location is due to a compromise. He said the first easement was located entirely on property owned by the Lysle Bassingers. The present location uses land from both property owners, he said.

Reekwald was informed by the council that his deadline for making changes had passed; that he had failed to have representation in court on the day the easement cases were heard.

Carr named authority head

Robert Carr, 6505 Waterford Hill Terrace, has been named permanent chairman of the Independence Township Building Authority.

The group met last week and adopted by-laws, giving the township the means to bond to purchase land or construct facilities.

Other officers are Robert Kraud, vice chairman; Jean Benzing, secretary; George White, assistant secretary; Bruce Rogers, treasurer; and Charles Robertson, assistant treasurer. The officers with Paul Wilnot make up the authority.

Rotary chairman

Gerald C. Craven, governor of Rotary district 638, will visit Clarkston Rotary Club October 9 at Howes Lanes.

He will meet with club officials to discuss the club's plans for service activities in the community and to offer suggestions on administrative matters.

While in Clarkston, Craven will be the guest of Rotary President Tudor ApMadoc.

Machinery and animals

...mean a lot to Joe Rhoades

Joseph Rhoades, 61, says he's had some successes and failures in his life, but he thinks his most recent failure would have made his great-grandfather very unhappy.

The gentleman was Benjamin Harrison, president of the United States.

Joe is referring to his defeat at the polls in the August primary when he sought election to the township board, and the Rhoades' sense of humor is evident when he says it.

As a man who's spent nearly a quarter of a century serving the township as both a member of its Planning Commission and the prior Zoning Board of Appeals, Joe has indeed many successes on his record.

Not the least is the Rhoades Machine Works Inc. of Berkley which he started while in his 20s.

Now doing work for such firms as Dodge and Ford Tractor Company, it started out making a machine to fill toothpaste tubes with toothpaste and produced a machine to make cocktail picks which turned its inventor into a millionaire, Joe says.

The love of machinery, beginning with his association with the late Henry Ford and the Ford Trade School, and his concern and interest in the wildlife of the area are two factors which have pretty much dominated Joe's life.

The Rhoades home is situated on two acres near Walters Lake, one acre of which is kept especially for the woodchucks, rabbits, birds and even skunks and snakes which inhabit it.

Brush piles and stacked wood are left in the area for the benefit of the small animals. He points out woodchuck dens, rabbit warrens and snake holes on a stroll down Woodlawn which separates his home from the game preserve.

That bit of land has a long and comfortable feel for Joe and his wife, Fern. He won the homesite when he was 12 years old during the Royal Oak centennial celebration. He guessed the right number of beans in a bottle, and then found out there was a hooker in the clause.

He was expected to build on the property within 90 days. If he didn't, he'd be allowed to purchase the land at half price, he recalls.

Joe was a caddy and a newspaper boy and decided to take the latter route, paying \$5 a month until the land was clear. At 14 he succeeded in convincing his father of the rightness of building a small cottage on the place.

From that cottage has sprung the present Rhoades home, a comfortable edifice which has grown pretty much like Topsy. Joe's done most of the work, and when he got the house the way he wanted it, he took on another old house which he modernized and now rents to tenants.

Just down Woodlawn is his latest hobby, a modern three-bedroom brick home now in the last stages of completion and one which the Rhoades may move into. "Less grass to cut," says Joe.

Again he's done most of the work himself, just like he built that portion of Woodlawn that connects the two homes.

His love for animals has led him into some major undertakings for the Department of Natural Resources and the Oakland County Sportsmens Club.

Joe was head of the club's conservation committee which succeeded in getting 3,200 acres set aside in the Holly Recreation Area for hunters. The project involved the cooperation of county excavators and earth movers who built duck impoundments and opened up a road through a swamp making a whole new section accessible.

Joe's committee sowed rye and corn for birds and built brush piles for the rabbits.

Later he became the leader in club development of a pike spawning pond which until two years ago fed the Clinton River chain of lakes with pike. The pond was located along Townsend Lake until vandals finally put the operation out of business.

Joe still keeps an eye, however, on a walleye hatchery operation off Hatchery Road which last year provided 15,000

Joe Rhoades collects some apples from a tree he planted a long time ago.

young fry for Cass Lake.

The vandalism, which caused the club to forego its own operation and caused the loss of a whole season's crop of young pike, disturbs him. So does the vandalism which destroyed nature trail markings on 36 acres of woods which the club owns.

Yet he affirms his faith in the young. "Only about 5 percent of them are bad," Joe says.

He may be remembering the days when at 14 years of age he took a bus alone from Royal Oak to Highland Park and was the only boy of 15 applicants chosen for entry into the Ford trade school.

"Some said Henry Ford used that school for slave labor, but he didn't. He started out paying us \$7.50 a week. We'd go to school eight hours a day for one week and then work eight hours a day in the shop for two weeks.

"When exam time rolled around, Ford promised us dismissal if we had more than two D's, a two cent raise for a C average, three cents for a B average and a nickel for an A average. When I left there at 18 to go to work for the Ford Motor Company, I had to take a cut in pay to get into regular shop work," he remembers.

Joe remembers the days of the depression well, and how a three-week job turned into a night foreman's job. He also remembers talking to an older machine man who had little saved at the time and deciding to go into business for himself.

Joe started his business in the family garage on \$250 he'd saved and another \$600 he'd borrowed from his dad.

He also remembers his mother wanted him to be a lawyer.

K-Mart case not unique

FROM PARTNERS IN PLANNING

Both in Michigan and in the nation, court cases involving validity of local zoning ordinances increasingly are focusing on the concept of a community's ability to prove the relationship of an ordinance to health, safety, and welfare of the inhabitants, particularly in those cases that question a community's outright exclusion of certain controversial land uses (e.g., multiples, mobile home and trailer parks). Based upon recent Oakland County court cases, those communities that have made adequate provision for a range of land use types in their

master plans have been largely-held to be conscientious in providing for the best interests of all groups; those that have excluded certain use categories have been judged "whimsical and capricious" in their efforts and have had their ordinances overturned. While provision of a total non-exclusionary range of planned land use types does not guarantee immunity from a court loss, it can be a strong tool in a community's favor—particularly when that community, if contested, can substantiate its land use claims by cost-revenue analyses and environmental impact studies.

The road millage

By Paul Van Roekel
County Highway Engineer

The voters of Independence Township are going to vote on a proposal to enact a one mill property tax for "local" road improvement for a period of four years. This would produce about \$75,000 per year which would then be matched by the Oakland County Road Commission so that improvement and paving of the "local" mile type roads could be accelerated.

Bloomfield Township has a one mill tax and Commerce and Highland Townships have two mill rates for the same purpose. Commerce Township has paved nearly all of their "mile" roads over the last 10 years.

Examples of roads that would be eligible for paving under this proposal

include Waterford, Pine Knob, Mann, Waldon, Maybee, Oak Hill, Reese, Holcomb, Allen, Perry Lake, Eston, Whipple Lake and several others which total up to about 44 miles of unpaved mile roads.

Existing State Law provides that such roads can be improved only if at least 50% of the necessary cost is paid from funds other than the gas-weight tax funds of the County Road Commission. The normal way this is done is by a special voted millage as is proposed for Independence Township.

If the proposal is approved, the Township and the Road Commission would proceed with improvement of roads designated by the Township Board and some 6 to 8 miles would be paved in the next four years.

hill 'n gully

And then the filibuster flipped . .

by Jean Saile

I have almost decided to get an engineering degree—not because I want to be an engineer—but because on those rare occasions when I watch television it would be nice to understand what's going on.

From "Mission Impossible", we've gone to "Banacek" and "Search", programs with plots so complicated that 15 minutes of each hour have to be devoted to telling us dummies what really happened.

When I get my engineering degree,—I, too, shall be able to expound on the television plots, telling the astounded family-at-large why the formostat cooled too quickly and caused a decompression in the rheostat, and that's why the filibuster flipped and Sir Henry expired.

We could even turn the TV off for those 15 minutes!

I doubt I'd be believed, though.

Those smart, beauteous chicks on the tube communicate with the world (apart from some incidental personal involvement) with all the aplomb of a computer tape, and they also manage to look good while doing it.

I could never achieve that image—not after having assailed my homecoming husband with news that the dishwasher isn't washing, the iron isn't heating and the

furnace is making a funny noise.

He might even grow to expect that all household repairs would be taken care of before he ever reached the driveway. And if that were the case, how could I prove to him how hard I work and the difficulties under which I labor.

I'm probably better off dumbfounded by the intricacies of science, all things considered.

And if it bothers me too much, I can always go back to "Life with Father," "Lassie" or a good Doris Day movie. Things are simpler in their plots. One doesn't need a scorecard to tell the players... or the rheostats.

School menu

"National School Lunch Week"

October 9 - 13

MONDAY—Hot dog in bun, baked beans, cherry cobbler, and milk.

TUESDAY—Chicken stew, green beans, pineapple & cottage cheese salad, bread & butter, cake and milk.

WEDNESDAY—Spaghetti & meat sauce, tossed green salad, buttered French bread, peaches, peanut butter cookies, and milk.

THURSDAY—Pizzaburger, hot vegetable, fruit and milk.

FRIDAY—Meat balls & tomato sauce, mashed potatoes, peas, roll & butter, fruit pie, and milk.

Blood Bank Thursday at the Methodist Church

"If It Fitz . . ."

Hey, look at my PD!

By Jim Fitzgerald

The kids didn't seem properly impressed when I told them their father had the widest PD the eye doctor had ever seen.

All my teenage daughter wanted to know was what kind of eyeglasses I would be wearing. I told her black horn-rims. She ran out of the room screaming that I would make her the laughing stock of the whole school.

For gosh sakes, I thought horn-rimmed glasses were the sharpest, particularly with a brushcut. I think an actor named Russell Nype started it in an Ethel Merman play called "Call Me Madam". A guy in horn-rims looks like he could take them off and hold them jauntily in one hand while scoring touchdowns and ravishing women with the other hand. This is a big improvement over the old image of a mousy professor in wire-rimmed glasses who wore

galoshes and flinched at females.

But now my daughter assures me wire-rims are THE thing. Only an oaf would wear horn-rims.

"Why is that?" I asked her. "Because wires are cool," she explained.

Certainly. I should have known that.

But I'm so dumb, I thought the guys who sell glasses had taken a tip from the guys who sell long skirts and skinny lapels on Tuesday and then on Wednesday elect Susie Shortskirt and Frank Fatlapels the best dressed God and Goddess in the world.

"When the layered look comes to optometry, it will probably be fashionable to look at the world through the bottom of milk bottles," I told my daughter who was wearing a sleeveless sweater over her raincoat.

She ran out of the room again, poor kid. She never saw a milk bottle, let alone a Russell Nype.

Anyway, what this is all about is that I finally had to discard my Sherlock Holmes magnifying glass and get my first pair of eyeglasses. This is an aging experience, particularly when the doctor looks into your baby blues and says your arteries are hardening.

Maybe glasses wouldn't be worth the investment," I said. "There won't be much to see in a casket anyway."

"It happens to men in their 40's," he said, ignoring my attempt at deathbed humor. "You'd better get bifocals."

My first pair of glasses are bifocals! I felt like a man who went shopping for a cane and came home in a wheelchair. The only redeeming moment

of pride came when the doctor helped me into the next room where his pretty assistant measured me for glasses. She discovered my tremendous PD.

"Look at this, Doctor," she exclaimed. "It's the widest PD I've ever seen."

"That's right," the doctor agreed. "The average PD is 64 millimeters. Your's is 74!"

"I have never been more proud," I admitted. "What is PD?"

"It is Pupillary Distance—the distance between your pupils," he explained.

Which means I might be able to interest the billboard industry in the space between my eyes. I haven't been so thrilled since my dentist said I built up tartar faster than any other human being he ever saw. (Come back every 3 months instead of 6.) Onward and Upward.

The Lyle Basinger home has been added to the Clarkston Women's Club home tour Sunday. A study area in the living room reflects the traditional concept of decorating, as does a nearby china cabinet. The tour will begin at 1 p.m. at the Independence Township Library. Tickets are available there. Other homes on the tour include the restored 1875 farm home of the Donald Beaches, the modern Ronald Fallis home, the converted Arthur Rose home and the subdivision home of the Tom Bullens.

PEEKIN' into the PAST

25 YEARS AGO IN THE CLARKSTON NEWS

Mrs. Richard McKibbin, president of Clarkston United Methodist WSCS, and Mrs. Wesley Walter, dinner chairman, start the potatoes for the church's Harvest Dinner from 5 to 7:30 p.m. Friday, October 6.

Give blood

Clarkston Community Blood Bank sponsored by the Clarkston Community Women's Club will be held October 5, 1972, Thursday, from 2-8 p.m. at the Clarkston Methodist Church. Donor appointments may be made now by calling 625-3805.

BLOOD DONOR REQUIREMENTS

1. Are you under the age of 18 or over the age of 65?
2. Do you weigh less than 110 pounds?
3. Have you donated blood any place in less than eight (8) weeks?
4. Are you taking medicine to control diabetes?
5. Have you ever had jaundice, hepatitis or malaria?
6. Have you taken medication to prevent malaria in the past two (2) years?
7. Have you ever had a heart attack?
8. Have you had a blood transfusion within the last six (6) months?
9. Have you had penicillin by injection in the past month?
10. Have you taken antibiotics in the past two (2) weeks?
11. Female only — have you been pregnant in the past six (6) months?
12. Is your occupation considered hazardous? If so, wait twelve (12) hours before returning to work.

If all the questions have been answered "no" the donor is probably acceptable. Eat within four (4) hours of donation. Avoid fatty foods. Please feel well the day of donation.

Harvest dinner is Friday

Clarkston United Methodist Church is this year reinstituting its public Harvest Dinners which once used to be an annual affair at the Community Center.

The dinner will be from 5 to 7:30 p.m. Friday, October 6, at the church. A smorgasbord featuring roast beef, ham and Swedish meat balls will be available at the rate of \$2 for adults, 75 cents for children 16 and under, and free for those under 3 years.

The church Men's Club and WSCS are in charge. Tickets will be available at the door.

Sashabaw open house

Both North and South Sashabaw Elementary Schools will host an open house for parents at 7:30 p.m. Monday, October 9. All teachers will be present to meet with parents. The open house will also kick off the PTA's membership drive. Cash prizes will be awarded to rooms having the most parent participation with the funds to be used for teaching aids.

Mrs. Jones heads Rotary Anns

Mrs. Robert (Marietta) Jones will head Clarkston Rotary Anns, the auxiliary of the Clarkston Rotary Club, during the coming year.

Mrs. Milford (Joan) Mason is first vice president; Mrs. Donald (Pat) Vachon, second vice president; Mrs. Earle (Marge) Davis, treasurer; Mrs. William (Mary Ellen) Hanson, recording secretary; Mrs. Ronald (Juanita) LePere, corresponding secretary; and Mrs. Alfred (Vicci) Hamilton, board member.

Other officers are Mrs. C. (Pat) Beach, historian; Mrs. Robert (Pat) Newlin, publicity chairman; Mrs. Hamilton, crippled children chairman; and Mrs. Rudy (Elsa) Schwarze and Mrs. Beach, rummage sale chairmen.

Rotary Anns will have charge of a dinner for the Pioneer Club Thursday, October 12, at the Salvation Army. Major project for the year is the club's interest in crippled children, a donation of \$250 having been made to them from the proceeds of the club's rummage sale.

The group's first meeting of the year was September 26 at the home of Mrs. Ernest (Vera) Denne. Mrs. Hanson was cohostess. Fifteen members were present.

The club meets the fourth Tuesday of each month.

Community Calendar

THURSDAY, OCTOBER 5

Editor to speak

Jean Saile, editor of The Clarkston News and Democratic candidate for Oakland County Clerk-Register of Deeds, will address members of Calvary Lutheran Church Women at 8 p.m. Tuesday, October 10, at the church.

Rummage of all sorts, including some antiques, will be on sale Friday and Saturday at the Salvation Army, Buffalo and Church, as Clarkston Farm and Garden Club has its 23rd annual sale. Proceeds will aid the club's scholarship fund.

Around the township

Judge Adams speaks by Shanna Nadolsky

625-2837

Mrs. George Perry of North Holcomb was last week's hostess for the Farm Bureau. The group of thirty was very impressed by the speaker, Judge of Probate, Don Adams. His talk was most interesting and informative which led to an excellent question and answer session.

The meeting was held at the home of Mrs. Perry's daughter and son-in-law, Reg and Sarietta Bird on Allen Road; with Keith and Helen Leak, also daughter and son-in-law of Mrs. Perry, lending a helping hand during the afternoon.

Following the refreshments, many enjoyed visiting with a special guest, Mrs. William (Hazel) Edgar of Moscow, Idaho, who has been visiting her sister, Mrs. Irene Snyder in Bloomfield Hills. Mrs.

Edgar is a former resident of Clarkston.

The Pontiac Area United Fund Drive is now in full swing. The Kick-Off Luncheon was Wednesday, September 27 at the Pontiac Elks Club and open to all volunteer workers. Several excellent speakers really lit a fire of enthusiasm for all who attended, and Penthouse Fashion put on a lovely fashion show which made fall look beautiful.

Independence Township was well represented with nine women attending: Mrs. Jerry Powell, Mrs. Robert Vandermark, Mrs. Carl Gusie, Mrs. Joel Cohen, Mrs. Richard Weld, Mrs. Charles Weber, Mrs. William Vandermark, Mrs. King Robinson; and myself. These

women and several others who were unable to attend, will be calling on you soon. If for some reason you are missed and want to make a contribution, please contact Mrs. Jan Robinson at 625-4907 or Mrs. Shanna Nadolsky at 625-2837.

November 18 is the date for the annual Junior Miss Pageant sponsored by the Clarkston Area Jaycees and many local businesses. The Pageant is open to any senior girl who wishes to enter.

Several scholarships will be awarded that night and, of course, the opportunity of further competition at the Regional and perhaps State Pageants would be very rewarding and exciting for the winner.

Applications to enter the Pageant can be picked up at the school office. Any questions you may have regarding the Pageant should be directed to Jaycee Chairman, William Halsey at 625-4057.

Club Chatham entertained 79 couples during guest night September 23 at Mount Holly Ski Resort. New officers of the club are Mr. and Mrs. Jerry Powell, Mr. and Mrs. Frank Crowley, Mr. and Mrs. Don Travis, Mr. and Mrs. John Curry, Mr. and Mrs. Carl Gusie, Mr. and Mrs. Mike Thayer and Mr. and Mrs. Ort Ripley.

obituaries

Lana Appleton

Mrs. Larry (Lana S.) Appleton, 28, of 5363 Winell died October 1. Her funeral was to be Wednesday afternoon from the Lewis E. Wint Funeral Home. Burial was to follow in White Chapel Memorial Cemetery, Troy, with Rev. Roger F. Campbell officiating.

Mrs. Appleton was president of the Clarkston Area Jayettes and secretary of Pine Knob School PTA.

Surviving besides her husband are three children, Scott, Michelle and Eric; her parents, Mr. and Mrs. Earl Luchenbach of Pontiac; her grandmothers, Mrs. Ada Cox of Pontiac and Mrs. Rebecca Nace of Pennsylvania; a brother, Michael Luchenbach of Clarkston; and a sister, Mrs. Darrell Lovell of Waterford.

Memorials may be made to "Voices in Vital America," POW program, in care of the Clarkston Jayettes.

William E. Dunston

William E. Dunston, 65, a former Clarkston resident and former owner of Dunston's Meat Market, died September 26 at his home in LeRoy, Michigan. He had moved to LeRoy nine years ago.

Funeral services were September 29 from Sharpe-Goyette Funeral Home with Rev. Frank Cozadd officiating. Burial was in Lakeview Cemetery with Masonic graveside services by Cedar Lodge No. 60 F&AM.

Surviving are his wife, Prudence; a son, William G. Dunston of Clintonville, Wisconsin; three grandchildren; a brother, Daniel Addis of Clarkston; and a sister, Ruth Liebler of Romeo.

Mr. Dunston was a life member of Cedar Lodge No. 60 F&AM, and had attended Clarkston schools.

Sigurd T. Olsen

Sigurd T. Olsen, a retired building contractor who built many homes in the Clarkston area, died September 30 after a long illness. He was 73.

Funeral services were to be Wednesday morning at the Lewis E. Wint Funeral Home with Pastor Robert D. Walters officiating. Burial was to follow in Ottawa Park Cemetery.

Mr. Olsen was a charter member of the Sons of Norway.

Surviving are his wife, Emilie O. of 6914 West Church; three children, Mrs. Elsa Leece, Fred and Raymond A. Olsen, all of Clarkston; seven grandchildren; two great-grandchildren; and three sisters.

Club to hear candidates

Independence Township Republicans will meet with candidates following a 6:30 p.m. potluck dinner October 9 at the township hall. The club will supply sliced ham as the main course. Further information is available from John Shiff, 625-5384.

Seniors meet

The Davisburg Joggers Senior Citizens will meet at noon Saturday, October 7, in the Springfield Township Hall. A potluck dinner, business meeting and program are scheduled. All senior citizens are welcome.

Spiritual Message

"This is my commandment: love one another as I have loved you," John 15:12

Human Life is Sacred

Everyone wants a society of men living in peace and love. It is not just enough to want this. We must work at building such a society. We do this by making into law what makes it possible and by rejecting what makes it impossible. To make

a law that permits one person's life to be destroyed at the mere request of another does not build society. It destroys it. If the law of society permits the life of the least significant person to be accepted as worthless, if the law permits the

right of life to be destroyed at the mere request of another, then the life of every person in that society can be judged worthless by another who just happens to be more powerful. That is why Proposal B involves each and every one of us. This proposal would introduce into law a principle that is against society. It advocates that the very right to life would depend on the wishes of others. The fundamental law of Christ is that we love one another. This law of love demands that the life of every human being be protected and helped to develop. Proposal B that will be on the ballot November 7 advocates the abortion of any infant up to 20 weeks upon request. According to credible, scientific opinion there is no doubt that an infant in the womb is real, live, distinct, unique human person. This is not merely a matter of religious persuasion. And so Proposal B is inconsistent with the teachings of Jesus. It is a hideous crime against God and man and it is harmful to the well-being

of everyone in our society. Therefore, it is not possible for any Christian with a correct conscience to agree with or promote Proposal B. In fact, since this proposal advocates the destruction of innocent, human life we must face our moral responsibility to do whatever is possible to defeat it. "God, the Lord of Life, has conferred on men the ministry of safeguarding life. Therefore, from the moment of its conception, life must be guarded with the greatest care."

Drive launched for bad drivers

With the theme, "We've Had It With Bad Drivers," the citizens of Oakland County launched a national demonstration program in traffic law enforcement today during the fifth annual meeting of the Traffic Improvement Association of Oakland County (TIA) at the Raleigh House in Southfield.

The group also elected a new slate of officers and directors, headed by F. J. (Jim) McDonald, general manager of Pontiac Motor Division and vice president of General Motors Corporation.

Contract okayed

There's a flap on about Independence Township's new Deer Lake Beach house.

The township share of the bill — \$950 — has been approved, but over some strenuous complaints registered by Clerk J. Edwin Glennie.

The clerk contended during a special township board meeting last Wednesday that the township had no right to authorize construction without taking bids and without seeking the approval of the Village Council and the Jaycees, both of whom contributed to its cost.

He also said no valid contract yet exists between the township and Inter-Lake Construction Company which built the \$2,350 structure.

Supervisor Gary Stonerock said he authorized the construction since the township share fell within the \$1,000 figure for which bids are not required.

Glennie said his main objection was not with the cost, but with the method Stonerock used in hiring Louis Gavar as the contractor.

Men in service

Midshipman George D. Puddington, nephew of Mr. Richard L. Funk of 6184 Cramlane Drive, has begun his formal academic studies at the Naval Academy in Annapolis, Md.

A graduate of Clarkston High School, in 1972, he has been at the Academy since July for his summer training on sailing, physical exercises and sports.

Upon completion of four years of intensive military training and academic study, he will receive a baccalaureate degree and be commissioned an officer in the Navy or Marine Corps.

Staff Sergeant Daniel L. Addis, son of Daniel A. Addis of 6678 Eastlawn, is a member of the 89th Military Airlift Wing, Special Missions, which has received the 1971 U.S. Air Force Flying Safety Plaque.

Sergeant Addis, an aircraft systems technician, and other wing members were cited for achieving an outstanding flying safety record during the year. The 89th — located at Andrews AFB, Md. — is the special Air Force unit which provides air transportation for the President of the United States and other top government officials.

During 1971, members of the 89th completed more than 2,100 missions within and outside the United States. The unit — which has received the safety plaque for the past five years — never has had an accident in its 23-year history.

Members of the Military Airlift Command wing are volunteers who are selected from among the USAF's most highly skilled professionals.

Sergeant Addis, a 1966 graduate of Clarkston Senior High School, attended the University of Hawaii and Prince George's Community College, Largo, Md.

His wife, Martha, is the daughter of Mr. and Mrs. Howard A. Pohl of 7099 Felix Drive, Clarkston.

6½ Church Street
Clarkston

Sometimes you have to sit down to talk about what you stand for.

HERE ARE THE THINGS WE STAND FOR:

- 1. Personal Touch** — You won't be involved in any "Big City Maze" or caught in the crowd. To us you are not just another nameless face. You're an individual... a neighbor. In a sense, our reputation in the community rides on every deal.
- 2. Straight Talk** — we will not double-talk you, con you, or make promises of

deals we have no intension of keeping. We are honest businessmen who talk straight. This assures you of one of the most important elements in any deal — confidence.

- 3. Fine Cars, Fairly Priced** — if you can get a better deal — either from one of us or any other dealer — on similar type cars, we'll tell you to take it. We may have to swallow a lump in our throat, and we'll probably advise you to look at all angles of the deal, but we'll have to admit the fairness of your viewpoint. But we're confident enough in our individual pricing policies to feel that deal for deal we will match

or better any other dealers — particularly Detroit dealers.

- 4. Good Service** — we are fully aware that service is one of the most irritating aspects of car ownership. People are only human, mistakes are made and customers get impatient. We are determined, individually — and we have each talked to our people — that we will do our human best to give you prompt, courteous and efficient service — priced as low as our costs permit.
- 5. Used Cars** — We serve many customers by running good used car departments. We will continue to do so. We will give as much care and consideration to a used car customer as to new. All customers are citizens of the North Oakland Community.

We Four Chevrolet Dealers have joined together to serve our customers better. We intend to raise our standards of operation to new heights of excellence. We intend to get more involved in what we consider the North Oakland "community." Quite naturally we hope to benefit. More importantly, we want you to benefit by finding it more reasonable, convenient, and profitable to buy from one of us here — in your own community.

Problems aired at water hearing

Tennis tournament slated

About 50 people, residents of Clarkston Gardens, Pelton Heights, Goodrich Farms and Stern-Seligman subdivisions who subscribe to the township water system, still don't have the answers they came to the township hall to learn last Wednesday.

The people were invited for a public hearing on proposed water rate increases, but the subject barely came up. Water

rates are frozen under a moratorium in Independence Township through December, and it would take further township board action to speed up voted increases.

What the people wanted to know was could the water fund which they have paid into over the years be reimbursed \$33,000 from the township general fund. The figure derives from a water and sewer survey conducted here at a cost of \$77,000, \$44,000 of which was reimbursed as the sewers share, once sewer bonds were sold.

The \$33,000 was said to be the water survey cost, however it was admitted that the survey included more of the township than those areas presently serviced by the water system.

Township Attorney Richard Campbell has ruled that the money was legally expended, but he has not ruled whether the water fund could be reimbursed by the general fund, according to Clerk J. Edwin Glennie.

The residents got a lengthy explanation of the water department situation, what costs are, why they are and assorted information.

And the rates? During August the board voted to increase them from \$4.50 for the first 1,500 cubic feet and 10 cents for each 100 cubic feet thereafter to \$4.50 for the first 1,000 cubic feet and 25 cents per 100 cubic feet thereafter. The difference, now due in December, is said to amount to about a \$6.50 per quarter increase.

Independence Township Recreation Department will host an open tennis tournament October 13, 14 and 15 for both junior and senior players. Matches will be played in the singles, doubles and mixed doubles divisions.

A fee of \$2 will be accepted at the time of registration. Tim Doyle, recreation director, phone 625-5111, said times and place of play will be assigned upon registration.

Tennis classes slated to start Saturday and Wednesday have been held up a week

in the hopes that more people will participate.

Candidate against busing

George Montgomery, Congressional candidate for the 19th District, affirmed his anti-busing stand at a coffee Sunday at the home of Mrs. Donna Garner, 4930 Cecilia Ann.

Apartment construction started

Foundations for the addition of 18 apartmental units to the Surrey Lane development started last week, but there still might be changes ahead.

The village council on Tuesday authorized a building permit to Forrest Milzow on the condition that the site plan be subject to further review by an alternate engineer yet to be hired by the village.

Since Howard Kieft is village engineer and also Milzow's engineer, Village President Richard Johnston said it had been determined by all concerned that an outsider should be called in to rule in such cases.

Milzow told council members the entire cost of the addition, including land is \$270,000, and that he needed to get started before cold weather set in.

The approval with contingencies was approved by Richard Weiss and Donald Auten. Lucia Wilford voted no, and Ruth Bassinger abstained.

Milzow agreed to pay the costs of a review of the site plan by Todd Kilroy, recently hired village planner. He also agreed to meet the new building fee permit prices.

The apartments to be constructed will be more than 1,100 square feet and of a style similar to the existing apartments, he said. They are located off Holcomb Road.

SPORTS Go- Round

by Jerry Savoie

Ever seen an international motorcycle race? It is one of the most fascinating and also slightly frightening sights in the world. To see a motorcycle barrelling over a hill, jumping, funneling down into a valley, jumping streams, traveling through mud, over treacherous gravel one is both afraid and tremendously stimulated. Drivers say that this is one of the most exciting sports in the world.

We're sure you'll be most satisfied with the service and quality at SAVOIE INSULATION CO., 64 S. Main St., 625-2601. We feature fibreglas and cellulose insulation and will be happy to advise the do-it-yourselfer. Our own expert crew is also available to install either blanket or blown-in insulation. FHA financing available. Open: 7:30-5:30, Mon.-Fri.; 8-12, Sat.

HELPFUL HINT: Do not store fans in winter. Circulation of air improves inside comfort even in winter especially to clear smoke-filled rooms after a party.

PD. ADV.

by Bob & Geri Wertman

Softwood floors should be finished with oil, paint, or varnish. Before finishing with anything, however, the floor should be scraped or ground smooth with an electric sander. The smoother the floor, the longer the finish will last, and of course, the better it will look. Softwood, however, may shrink and cracks will then form between the boards. These cracks should be filled with a commercial filler.

You'll find the very complete inventory at BOB'S HARDWARE, 60 S. Main St., 625-5020 will fill many of your homeowner needs. With fall clean-up ahead, you may need new power or hand tools. We feature a complete line of Tre-wax floor and furniture products including carpet shampoo and rental shampoo machines. Open: 8-6, Mon.-Sat.

HELPFUL HINT: Tinted filler is not necessary when the floor is to be painted.

The independent view

by Jean Saile

Due to a quirk in the mind of the editor, the name of Clarkston Elementary teacher Mary Robbins became Florence Robbins in last week's issue of the paper. Don't ask me how those things happen. Sorry about that Florence...er, Mary.

Beginning October 18 building fees in the village will jump to conform with newly adopted township building fees. The village council has adopted the new scale and codes because of increased costs and because of its reliance on township building inspectors.

Some study is being given the formation of a Village Planning Commission which would do away with the present Zoning Board of Appeals. Such a change, in line with township practice, has been recommended by Village Planner Todd Kilroy.

The Village Council will pick up the remaining \$100 cost on a \$250 tab charged by Architect Francis Bartlett for his advice in planning the new Forrest Milzow office building on Main Street. Private citizens including Village Planning Committee members Lucia Wilford and Ruth Bassinger have already paid the \$150, it was reported.

Louis Gavar is opening a new Inter-Lake Construction Co. office October 2 at 7990 M-15 in Clarkston. He has previously worked out of his home on Parview.

There are some very nice people, headed up by Louise Cohen, who believe

enough in my candidacy for Oakland County Clerk/Register of Deeds that they're putting on a flea market to raise money for the campaign Saturday, October 7, in the vacant lot next door to The Clarkston News. A smattering of antiques, good usable material and cider will be offered for the sale.

The Saile sale coincides with the last day of the Clarkston Farm and Garden Club's sale at the Salvation Army. Sounds like it might be a good day for browsing.

Jaycettes are interested in helping the sale of Christmas cards put out by the Michigan Chapter of the National Foundation for Sudden Infant Death, Inc. The cards are \$3.50 for 25 and are available from the foundation at P.O. Box 2223 Livonia, 48151.

Businessmen along the Dixie Highway, in violation of Independence Township's newly passed sign ordinance, were getting notification this week that they have two years in which to remove the signs.

Building Chief Ken Delbridge said a similar procedure had been followed in Bloomfield Township prior to the cleanup there. He said shorter notice would not give property owners full use of their investments.

Delbridge also noted that new businesses coming into the area are required to abide by the size limitations of the ordinance.

There's some work being undertaken by the Michigan State Highway Department to see about widening the Dixie at M-15. Township officials said thinking behind the survey is that right turn traffic coming off the Dixie onto M-15 should not be blocked by through cars stopped there by the light.

The Clarkston News has a rather large collection of high school and junior high school sports pictures taken over the past year and not used. They're available for your perusal and use, thanks to Bob Tilley, our intrepid photographer. Come in and browse.

The free immunization program Thursday, October 5, at independence center is to become a regular item, according to Jean Stanlonis, a nurse with the Oakland County Public Health

Department. Scheduled for 1 to 4 p.m. today (Thursday), they will be repeated the first Thursday of each month, she said.

For you Clarkston adults interested in learning oil painting, don't report for class Wednesday. Jan Gabier says it has been now determined the class will meet regularly from 7 to 9 p.m. Thursdays at the high school. Mary Steinhelper is the instructor.

Don Rosenfield, Clarkston's gem hunter, has been using mineral detecting equipment to turn up a cache of 8-inch copper nails from in front of township offices. Also found there were two pieces of lead type used in newspapers. Wonder how they got there.

Independence Township registrars garnered 188 new voters in a weekend drive. The figure compares with 130 who signed up during the preceding weekend. Registration trailers were at the A&P Food Store, Foodtown and downtown Clarkston.

Larry Burkhart, Independence Township's new full time planner, will start his job Monday, October 9. Burkhart has been planning consultant for the last year and a half.

Clarkston teachers will be able to hear Dr. Harold Sponberg, president of Eastern Michigan University, and Dr. Leslie F. Greene, superintendent of the Clarkston District, at their in-service training session November 10 at the high school. Mel Vaara and Robert Brumback are in charge of the program.

What's happening?

Some 100 old cars, driven by members of the Veteran Motor Car Club of America, are expected to arrive at Springfield-Oaks Youth Activities Center at noon Sunday, October 15.

The group will be leaving from 13 Mile Road and Coolidge earlier that day for a color tour of the back roads of the county. Events will be capped with a picnic while the public is invited to view the collection of old automobiles.

The Michigan Society of Gerontology will hold its 1972 conference October 5 and 6 at the Sheraton-Pontiac Bloomfield Hotel and Motor Inn, 1001 Woodward, Pontiac. Two full days of programs devoted to the problems of and benefits available to senior citizens are planned. Joe Ham is the local chairman of arrangements. Senior citizen registration is \$1.

Oakland County legal secretaries will have their Day in Court, an annual observance, Monday, October 16. The program includes court sessions, a tour of the Courthouse and County Jail, luncheon and dinner out. Reservations at \$8 each are being accepted by JoAnne Haack at 358-4760.

Anybody interested in studying yoga? If enough are, independence center is considering starting a course. Let them know. Phone 673-2244.

The Red Cross needs 50 volunteers to work on bloodmobiles in the Pontiac area. Volunteers are needed to register patients, label blood bags and serve refreshments to donors. Training and orientation will be provided by the Red Cross. A call to 334-3575 will enroll you.

A landmark in environmental planning for drain projects will be unveiled to local government officials and interested citizens at an all-day Environmental Conference arranged by Oakland County Drain Commissioner William M. Richards for Wednesday, October 11 at Addison-Oaks Park. A registration fee of \$10 covers lunch and refreshments.

The Women's Auxiliary of New Horizons is offering Christmas cards designed by Nina Collins. Proceeds from the sale of the cards will be used solely to benefit the vocational training and sheltered employment programs for the handicapped at three workshops in Oakland County. The cards are available from Mrs. Edmond F. Fintak, phone 642-2337.

Pontiac Parks and Recreation Department is sponsoring a beginning square dance class beginning October 4 at Will Rogers School, 2600 Dexter Road. Ten sessions are offered for \$10.

National WNFGA President, Mrs. Miles Nelson Clair, Boston, will head the receiving line at the 19th Annual International Tea sponsored by the Michigan Division, Woman's National Farm and Garden Association. International Farm Youth Exchange (IFYE) a 4-H program will benefit from Tea proceeds.

Meadow Brook Hall, Rochester, home of the late Mrs. Alfred G. Wilson, Past National WNFGA President, will be toured while tea is served in the spacious dining room and ballroom, Thursday, October 12, from 2 to 4 p.m. Knole Cottage, the playhouse of Francis Dodge, will be open for a minimal extra charge.

A design, executed by a nine-year-old boy at Fairlawn Center, Pontiac State Hospital, will be used on a Christmas card by the Foundation for Mentally Ill Children. Cards at \$5 for 25 are ready for immediate delivery by contacting Mrs. Paul John, 682-3061, for the Foundation for Mentally Ill Children, Box 245, Bloomfield Hills, 48013.

The Pontiac Society of Artists will meet at 2 p.m. Sunday, October 8, at the

Community Room in the Pontiac Mall. A slide lecture will be presented by Lorraine McCarty. Plans will be finalized for the November exhibit. Area artists are invited to attend.

We may get Lake A&P dried out. Though the lake, a habitual flooding of the Dixie Highway after every light mist, lies in Waterford Township, there aren't many Clarkstonites who haven't sampled it. At any rate seems for a cost of about \$2,000, the Drain Commission is going to be able to dig up portions of the line, replacing broken pipe, and cleaning the remainder. They've so notified Supervisor Jim Seeterlin.

IMPORTANT NOTICES

• Anyone interested in teaching a particular craft or skill that might be of interest to others for future programs is asked to contact Timothy Doyle, Parks & Recreation Director.

• If schools are closed because of inclement weather or holiday vacation, all recreation activities will be cancelled.

Please mail application forms and fees to the Parks and Recreation Department, 90 N. Main Street, Clarkston, Michigan, before Saturday, September 30, or, you may register at the Independence Township Parks and Recreation Office. **DO NOT REGISTER AT THE FIRST SESSION OF THE ACTIVITY.** All activities must be self-sustaining, so in the event that an activity doesn't have enough participants signed up at the end of registration period, that activity will be dropped and money refunded. It is for this reason that it is most critical to sign up for all activities in advance.

For any additional information on programs call the Independence Township Parks & Recreation Department. 625-8223. **DO NOT CALL THE SCHOOLS.**

• WANTED: High school boys to coach touch football and biddy basketball teams. Call Mr. Tim Doyle, 625-8223.

K-Mart appeal ok'd

Independence Township will appeal the Waterford Hill Country Club zoning decision handed down by Oakland County Circuit Court, and review its zoning ordinance in regard to uses permitted on the property.

Judge James Thorburn last week rendered a decision allowing developer William Gershenson to proceed with construction of a shopping center and apartments on the golf course.

The Judge reportedly hinged his findings on inadequacies in the zoning ordinance and stipulated that should the property be rezoned to permit operation of a private golf club as opposed to a public club he would reopen the case. He said the ordinance at present as it applies to the property is "confiscatory and void."

The "unusualness" of the decision drew the criticism of several Waterford Hill residents present at Tuesday night's Board meeting. It was decided to publish the Judge's findings in full next week in the Clarkston News.

Zoning to permit construction of a K-Mart, granted by a previous Township Board, was overturned in a vote of

Dems to dance

Independence Township party members will host their annual fund raising dance at 8 p.m. Saturday, October 14 at Mount Holly Ski Lodge. Candidates have been invited to appear.

referendum about a year and a half ago. Suit was subsequently brought against the Township.

Supervisor Gary Stonerock, in response to a question from the floor, said the case had already cost the Township about \$20,000 in legal fees, and an appeal would probably cost \$3000 to \$5000 more.

In other business the Board set a special meeting for 9 a.m. October 21 to review cemetery operation and rates. It will work out policy in regard to Water Department operation in an executive session to follow.

Water system users objecting to the loss of \$33,000 from water system funds—money used to partially fund a water and sewer survey in the Township—were present with petitions containing 395 signatures. The petitions asked for an accounting by the Water Department.

Stonerock pointed out that it is possible the \$33,000 could be recouped if bonds were ever sold to finance expansion of the system.

The problem of street name duplication will be considered by the Board at its October 17 meeting. Trustee Keith Humbert reported 4 Hillcrests, 2 Independences, 2 Sunnysides and 2 Columbias among many other duplications in the Township. He said records show that Lakeview and Woodhull subdivisions is really Ennismore and that Waldon in Clarkston is still

officially known as Sashabaw.

The need for street signs and the avoidance of duplication in case of emergency calls was cited.

Several residents on Hillside near Deer Lake said they didn't want their street name changed even if there were other Hillside.

Independence Township's new gas station ordinance will go into effect next month. Several sites throughout the

Township have been designated for gas stations with the hope that they can be confined to those areas.

The Board voted commendation for the Sunoco station at Bluegrass and M-15. Board members noted it was beautifully landscaped and well kept.

It was reported that the first contract ratification is near between Township employees and the Board. Agreements are expected Friday.

**Real Estate
HAPPENINGS**

by Bob & Marvel White

Where does the real estate broker's profession come from? It is really the outgrowth of a very old idea, one that we can trace as far back as English common law. Today's broker is the descendant of a trust agency known back in the days of jolly old England as the bailiff or steward. The steward in the old days was a man appointed by the principal to take care of such business affairs as buying, selling and money management in general. Today in America brokerage tries to keep up the tradition of the wise and trusted employee.

You'll find the staff at BOB WHITE REAL ESTATE, 5856 S. Main St., 625-5821 not only wise and trustworthy, but also experienced in meeting your real estate needs with personal interest. Handling all forms of real estate including commercial property, raw acreage and parcels of land, we invite you to call us first with your listing. We will appraise your property and aid you in selling it for full market value. Open: 9-8, Mon.-Thurs.; 9-6, Fri., Sat.; 12-5, Sun.

HELPFUL HINT: When you hire a broker he is legally obligated to look out for your interests.

Andover blanks Wolves 8-0

Wolverines undefeated

By Craig Moore
Clarkston's Varsity football Wolves were disappointed in their first league effort Friday, September 29, as the Wolves were shut out 8-0 by Bloomfield

Hills Andover's Barons.

Clarkston's every offensive attempt was stifled by the strong Andover defense. The Wolves advanced 105 yards passing with quarterback Greg Swanson completing 12 of 21 passes and 65 yards rushing, but the closest Clarkston came to the goal line at any time in the game was the Andover 18 yard line.

Bloomfield Hills' only touchdown came late in the second quarter. Andover took possession of the ball with about three and a half minutes remaining in the first half. After a 55 yard drive to the Clarkston 1 yard line, the Andover quarterback Dave Binkley kept the ball

and ran the needed yard. The 2 point conversion pass from Binkley to Tom Haynes was complete and the Barons led 8-0.

Late in the third quarter, Andover again threatened on the Clarkston 4 yard line, but the Wolves' defense kept the Barons under control.

The Andover defense simply outlasted the Clarkston offense.

The loss leaves Clarkston with a 0-1 league record and a 1-2 tally overall.

Friday, October 6, Clarkston's Wolves make an effort to even their league record with a win over the Waterford Kettering Captains. Game time is 8:00 p.m. on the Clarkston gridiron.

Wednesday night Clarkston's Wolverines won their second game without a loss by defeating East Hills Junior High School 12-8.

Leading the Wolverines offensive attack was Mike Fahrner, who scored both touchdowns and accumulated 150 yards in 17 carries.

Ron Haggadone added 50 yards in 8 carries and Tim Westover gained 46 yards in 8 carries to further Clarkston's winning cause.

Defensively, the Wolverines again showed strength. After a long East Hills drive late in the fourth quarter, Clarkston's defense held on the four yard line with less than one minute left in the game.

Receiving special recognition defensively were Kelvin Perkins, Scott Searight and Gil McCallum. Perkins made the tackle on the four yard line that stopped East Hills from scoring late in the game.

Scott Searight and Gil McCallum both made many solo tackles with McCallum also intercepting an East Hill pass.

Clarkston Junior High is preparing for next week's game against Crary Junior High School. The game is Wednesday, October 4 at 7:00 p.m. at the Clarkston High School field.

Photo by Bob Tilley

Dave Whitehead (21) finds a hole in the Andover lines Friday with Steve Ogans (72) providing followup support. Andover defeated the Wolves 8-0.

recipients of OU scholarships

Two Clarkston High School graduates have been awarded prestigious Student Life Scholarship Awards at Oakland University for the 1972-73 academic year.

They are Kirk Peters, son of Mr. and Mrs. Lester Peters, 6396 Church, and Gary White, son of Mr. and Mrs. Robert J. White, 9689 Pine Knob.

The Student Life Scholarships are new awards at OU this year and they are based on a student's academic record and on contributions to student life.

While in high school Peters was a member of the ecology and drama clubs, a member of the choir, and he was in the high school journalism club.

White was a member of the National Honor Society and winner of basketball

honors. He maintained a 3.5 average and graduated 31st in a class of 400.

VILLAGE OF CLARKSTON Minutes of Regular Meeting Village Council Sept. 26, 1972

Meeting called to order by President Johnston.

Roll: Present — Auten, Basinger, Weiss, Wilford. Absent — Jones, Tower.
Minutes of the last meeting were read and approved as corrected.

Mr. Gordon Smith from the Pontiac Chapter No. 16 of the Disabled American Veterans was present to inquire of the Council why the request for a permit to solicit funds in the Clarkston area by the DAV was denied at the last meeting. President Johnston stated that the Council had been told that these funds would be returned to Pontiac, and not remain local. Mr. Smith replied that all Veterans organizations' funds go to surrounding areas, not just to local areas. It was stated that there had apparently been a misunderstanding, and that the DAV was welcome to apply for such a permit in the future.

Trustee Weiss gave a report from the Sewer Committee. He said that they had met with Mr. Leuders from Oakland County last week, and that Mr. Leuders stated that the entire Village Sewer System was going under review as to depth of the sewer lines. This was prompted by the problem that four homes on Middle Lake Rd. would occur at present. No specific starting date for the sewer construction was set. Trustee Weiss also stated that Mr. Hagen's lead location was settled, and that Mr. Reekwald's case on the alley at the rear of his office was defaulted, due to a missed court date.

Trustee Basinger gave a report from the Planning Committee. She had checked with Mr. Banycky, Village Attorney, on the easement exchanges between Mr. Milzow and the Village. Mr. Banycky was going to check with Mr. Mandel, Mr. Milzow's attorney, on this. She also asked Mr. Banycky about the Village adopting the new building fees recently passed by Independence Township. Mr. Banycky stated that the Village should adopt a new ordinance to cover this, repealing the present Ordinance No. 65 that dealt with the present fees.

Trustee Basinger further stated that she felt that Mr. Milzow should put some wells around some of the trees at the rear of his new office building on S. Main St. Trustee Wilford questioned possible damage to Village trees there. A discussion followed, with Mr. Milzow stating that he's working on the problem. He also mentioned that he would like about equal square footage on the easement exchanges that are being worked on. Trustee Basinger discussed his fencing around his apartments on Surrey Lane. Mr. Milzow replied that he had checked with the adjoining neighbors and had put up the kind of fencing that each of them had wanted.

Mr. Kilroy, Village Planner, suggested to the Council at a recent Planning Meeting that the Council form a Planning Commission for the Village, consisting of 7 to 9 members.

President Johnston read Ordinance No. 65 to the Council members regarding the building fees. A discussion followed.

Moved by Wilford to adopt the following Ordinance:

The Village of Clarkston ordains that the Independence Township Building Code, being Ordinances Nos. 5, 9 and 24 and any amendments thereto, be and the same is hereby adopted by reference and shall be Ordinance No. 68 Village of Clarkston Building Code.

Printed copies of the Code are available for inspection by and distribution to the public at all times by the Clerk for the Village of Clarkston, 25 South Main Street, Clarkston, Michigan.

The purpose of said code is to establish regulations in regards to building construction in the Village of Clarkston.

All Ordinances or parts of ordinances to conflict with the aforesaid Building Code, including Ordinance No. 65, are hereby repealed to the extent that it is necessary to give this Ordinance full force and effect. This Ordinance shall become effective on October 20, 1972.

This Ordinance will be published in the Oakland Press on Sept. 30, 1972. Seconded by Auten. Motion carried unanimously.

President Johnston mentioned the problem with private individuals using Kieft Engineering services, and the Village reviewing plans and also using Kieft Engineering. He had talked with Mr. Kieft, who had concurred that this could possibly be a conflict and that it would be easier for Kieft Engineering if the Village would use an alternate engineer on situations like this. President Johnston said that he has talked with another engineering firm and that they are studying his request about them being a possible alternate Village Engineer.

Mr. Milzow was present to request Site Plan Approval for his new apartments adjacent to his present Surrey Lane apartments. He said that he had met with Mr. Kilroy that morning about the Planner's recommendations on the parcel, and had come up with a revised Site Plan that met with these recommendations. A discussion followed. It was noted that the driveway entering the new apartments will now be 32 feet in width to accommodate emergency vehicles. Water retention basins were also discussed. Mr. Milzow had agreed to pay the new building fees and inspection rates for this parcel. He wanted the Site Plan and Building Permit approval tonight, since dates with Consumer Power Co. and Detroit Edison necessitated his starting construction as soon as possible. President Johnston wanted another engineering firm to review it before any decision is made. A discussion followed. Trustee Wilford said that the Council has got to be careful about approving plans for buildings that we'll all have to live with in the future. Trustee Auten said that he felt that the Site Plan doesn't need any major changes, since the apartment buildings were going to be similar to those presently on Surrey Lane.

Moved by Weiss to issue Mr. Milzow a building permit for his new apartments adjacent to Surrey Lane, subject to review of the plans by an alternate engineer, and that Mr. Milzow will make any changes that this engineer might recommend. Seconded by Auten. Roll: Ayes — Auten, Weiss. Nays — Wilford. Abstain — Basinger. Motion carried.

Sewer Correspondence for the Village from Oakland County was read and discussed.

Mr. Reekwald was present to inquire about the meeting last week with Mr. Leuders about some sewer issues. He was told that Mr. Leuders had informed the Council that his case had been defaulted due to a missed court date. Mr. Reekwald wanted to know why the County had changed the plans for the alley at the rear of his office, and what the expense to the Village taxpayers would be for the new plan. He was told to get in touch with the County for any figures on this, as they are our agent for Sewers, and formulate any plans or changes themselves.

Trustee Basinger moved that the following motion be passed:

Pursuant to the Council's expressed dissatisfaction with the original building design for Lot No. 72, and, pursuant to the lot owners approval to the Council of his willingness to accept design revisions more pleasing to the Council, and since some Clarkstonites privately sought professional architectural design advice to serve

the best interests of the Village because construction of the original building was proceeding daily on Lot No. 72 while the Council met only bi-monthly, I move that the Village pay \$100 to Architect Francis Bartlett for his services in redesigning the building for Lot 72.

Seconded by Weiss. Roll: Auten, abstain; Basinger, aye; Weiss, aye; Wilford, aye. Motion carried.

Trustee Auten discussed the extra police coverage needed for home football games and other events, and that this might go over the budget, since new auxiliary policemen will have to be hired. He will check on estimated costs that this might entail.

The Council discussed the possibility of vacating and selling the present Village Hall someday. The possibility of a new building with more adequate storage space and better usage was also discussed. Getting some tentative plans for this will be looked into.

Meeting called adjourned by President Johnston.

Bruce Rogers
Village Clerk

Clarkston runners defeat Kettering

Clarkston High School's Varsity Cross Country team, capable of running three miles in 16 to 18 minutes, lines up for a practice start. From left are Jeff McIlrath, Bryan Carlson, John Hitchcock, Mike Crosby, Howard Phelps, Pat Humphreys, Gary Mason, Thor Olafsson and Gerry Adams.

The Cross Country Reserve has something new to think about these days. Janet Baker, foreground, is one of four girls who have gone out for the previously all-male sport. From left are Bill Rondo, Ed Frick, Mike Foote, Paul Brown, John Reichert and Steve Philpott.

FIRE INSURANCE ISN'T ENOUGH!

Your home and belongings face many hazards that even "fire and extended coverage" won't cover. But a State Farm Homeowners Policy with Inflation Coverage provides complete protection . . . even covers you in case of lawsuits. See me today about a State Farm Homeowners Policy that fits your needs.

Faulty Vision

About one young athlete in five is handicapped by faulty vision that has not been corrected, according to a Midwestern optometrist. Part of the problem is a sort of athletic vanity; football players don't want to look like bookworms.

But once their eyesight has been corrected, both professional and amateur athletes realize the price they've been paying for the neglect of vision problems. For instance, ball players improve both batting and fielding skills.

In a study of 135 Boston Red Sox prospects, 10 needed visual training, 13 needed visual corrections, and six needed new eyeglass prescriptions, says Dr. William E. Swigert, Jr., of Columbus, Ohio.

One outfielder increased his batting average from .192 to .371 within a year of being fitted with proper glasses. Another boosted his average from .247 to .270 within a few weeks.

"Every sports enthusiast should have a professional eye examination at regular intervals, to detect and correct any vision problems that may hinder the enjoyment and success of the sport," Dr. Swigert said.

The ability to see clearly at a distance is important to an athlete, he noted, but it isn't the only visual skill he needs. Every sport demands good depth perception, and the ability to judge space and distance relationships. Some, like tennis and golf, also demand fast and accurate hand-eye coordination, and a wide field of vision.

4 SOUTH MAIN 625-1700

By Roger Zander

The Clarkston cross country team defeated Waterford Kettering in a dual league meet on September 26 at Clarkston. The Wolves evened their dual meet record of 2-2 with the victory and also evened their league record of 1-1.

Finishing first against Kettering was Thor Olafsson with Gerry Adams a close second and Mike Crosby third. In that meet Clarkston took the first seven places with Kettering taking eighth through twelfth.

Early in the season at the West Bloomfield Invitational, Clarkston finished eleventh out of twenty-two teams. At the Holly Invitational the Wolves finished seventh out of sixteen teams.

The members of the cross country team are listed here according to their class.

Seniors: Mike Foote, Pat Humphreys, Thor Olafsson, Steve Philpott, John Reichert.

Juniors: Gerry Adams, Bryan Carlson, Mike Crosby, Mark Harris, John Hitchcock, Gary Mason, Howard Phelps, Bill Rondo.

Sophomores: Paul Brown, Ed Frick, Jeff McIlrath.

NOTICE

INDEPENDENCE TOWNSHIP
AMENDMENT TO SEC. 505

A special meeting of the Board of Independence Township was held on September 27, 1972. A motion was made by Gary Stonerock, supported by Keith Humbert to adopt an amendment to Section 505 of the Independence Twp. Building Code. Ayes: Glennie, Humbert, Stonerock. Absent: Johnson, Bullen. Motion passed. Following is the amendment:

This section is adopted with the understanding that this building code may not be entirely applicable in all situations, and further with the understanding that the application of this building code in some instances may be impossible. In those instances where application of the code is impossible, or practical difficulties are such that the application of the code becomes unreasonable, or unnecessary hardship would result in carrying out the provisions of the code, appeal from the provisions hereof may be had to a five (5) man Board of Appeals. Said Board of Appeals shall consider appeals from the decisions of the officials charged with the enforcement of this code, and further said Board of Appeals may consider variances or exceptions from this code. Said Board of Appeals shall operate in accordance with Section 4 of Act 185 of the Public Acts of the State of Michigan for 1943. Said Board shall consist of the Township Building Inspector, and four other members from construction related trades, no two of which shall be from the same trade. Said members, other than the Building Inspector, shall be appointed by the Board, two for two year terms, and two for three year terms, with the first appointments being for one, two, three and four year terms so that all subsequent appointments will be staggered.

All appeals, and all requests for special exception or variance, shall be made upon forms provided for that purpose by the Building Department. The Board of Appeals shall fix a reasonable time for a hearing, and at the hearing any party may appear in person or by agent or attorney. In those instances where the Board of Appeals determines public notice to be advisable, the Board may require public notice and may adjourn said hearing from time to time to allow for said notice.

In granting exceptions or variances the Board shall first consider the public right to a specific enforcement of the ordinance as written. The Board shall further determine that as it concerns a special exception or variance the following conditions are met:

That special conditions and circumstances exist which are peculiar to the structure or building involved and which are not applicable to other structures or buildings in the same district; that the problem that exists does not result from the actions of the applicant; that the granting of the exception of the variance will not confer upon the applicant any special privilege that is ordinarily denied, or that has been regularly denied, to other structures or buildings in the same district, or were applicable in other districts.

The Township Board shall set such fees as are reasonably necessary to cover the cost to the Township of providing appeals hereunder, which fees shall be paid by the applicant at the time of filing hereunder.

Any member of the Board of Appeals may be recalled by a majority vote of the Township Board.

Section 505 as it appeared prior to this amendment is repealed in its entirety.

This amendment was passed by the Township Board on the 27th day of September, 1972.

Foster "fill" goes to appeals board

The fate of the Foster Road "fill" apparently will lie in the hands of the Township Zoning Board of Appeals.

Ken Delbridge, building inspector, said township ordinances require that an operation such as that proposed by Leon Clark to fill a ravine about 200 feet deep and 1,000 feet across must clear the local body.

He also pointed out as did Frank Saylor, owner of the property, that Clark has not purchased the land as he reported but holds a five-year lease on it.

No date has been set for the appeals hearing. Delbridge said Clark's attorney is preparing the application for the board. He said property owners within 200 feet would be notified in time to attend the meeting.

Neighbors in the area have been upset since last June when Clark obtained temporary permission from the township to dump tree stumps in a "hollow" on the property. The resulting "fill" which has reportedly included items other than tree stumps has irked nearby property

owners. Vandalism to Clark's equipment has occurred and he contends that part of the unauthorized rubbish was dumped there by someone other than him.

Clark meanwhile reportedly used the township temporary permission to obtain Road Commission rights to use the land as a fill for anything but liquid material or garbage.

The operation has also interested Springfield Township officials on whose border the "fill" abuts.

Said Delbridge, "It looks now like a 5 to 10 year operation."

Township officials including Supervisor Gary Stonerock, Attorney Richard Campbell, Delbridge, and Planner Larry Burkhart met Thursday with Clark and Saylor and representatives of the Oakland County Health Department and DPW to see what action is to be taken.

Clark is currently prohibited from adding any more "fill" to the area until the zoning board of appeals meets.
