## A Halloween goodie

PLAY IT SAFE

Two-and-a-half-year-old Amy Rice weighs about a fourth as much as the 107-pound pumpkin she straddles. Amy, daughter of Mr. and Mrs. Lee Rice of 10975 Andersonville Road, gets all dreamy just thinking about Halloween. The pumpkin and squash were grown by Tony Pelc, 9357 Cherrywood.

## Jim's Jottings

By Jim Sherman

Oxford Leader editor Bob Hemming has been invited to sit in the U of M pressbox a couple times because place kicker Mike Lantry is an Oxford boy.

After the M vs MSU game Bob hung around for an hour or so, then walked around a few sections inside the huge stadium on his way out. He counted 84 Boone's Farm Strawberry wine bottles.

More interesting to Bob was an obvious bum, who went from bottle to bottle, pouring the contents from one to the next. He did quite well, too, gathering his winter supply, Bob said.

Dr. Myron Wegman, president of the American Public Health Association, commented at a meeting I attended last week, "Don't just do something, stand there."

He was referring to people who think they have to be doing something when the situation may best be served if nothing was done. His furinstance was about nurses not being allowed to use hexachlorophene in cleaning new born babies and using a substitute like soap and the babies getting a reaction.

Dr. Wegman, who is an outstanding speaker (great voice, delivery and jokes), told of one hospital's experience where newborn received only the most rudimentary care and the babies did just fine.

Anyway, the MD's comment about don't just do something, stand there, prompted a thought that has bugged me for a long time.

That is the feeling I have at times that when I meet someone or am with people, that I have to carry on a conversation or get them talking.

One of the greatest things about going "north with the boys" is that none of us feel we have to be saying something. The silence is in itself communicating. It is as golden as the phrase expresses.

When I'm with the same guys at a party or meeting I go back in the rut of making conversation. I think I just solved my problem, doctor. When I feel I'm "making" conversation I should shut up.

Chances are the other person

thinks I should anyway.

Preston Yost gleaned the following notes on "youth" from a Soo restaurant placemat.

"Youth is not a time of life - it is a state of mind. Nobody grows old by living a number of years; people grow old by deserting their ideals. Years wrinkle the soul. Worry, doubt, self distrust, fear and despair - these are the long, long years that bow the head and turn the glowing spirit back to dust."

"Whether 70 or 16, there is in every being's heart the love of wonder, the sweet amazement at the stars, the starlight things and thoughts, the undaunted challenge of events, the unflinching child-like appetite for what next, and the joy and game of life."

"You are as young as your faith, as old as your doubts; as young as your self-confidence, and old as your fear; as young as your hope, as old as your despair."

Clown Amy Rice, 2½-year-old daughter of Mr. and Mrs. Lee Rice of 10975 Andersonville Road, Davisburg, rides high in anticipation of Halloween fun. Sharing her expectations are Carol Ogurek, 5, a little Miss Red Riding Hood and Teresa Sweeney, 5, a Cinderella.

## UNICEF goblins out Sunday

Small trick or treaters from Calvary Lutheran, Sashabaw United Presbyterian, the Episcopal Church of the Resurrection, Clarkston United Methodist and St. Daniel's churches and the Salvation Army will be on the streets from 2 to 5 p.m. Sunday, October 29, for UNICEF.

Money will be collected to aid youngsters of less fortunate nations. UNICEF, United Nations International Children's Emergency Fund, is a United Nations project.

## Eagles plan get-together

Clarkston Fraternal Order of Eagles No. 3373 will host its third annual "Meet your neighbor night" Saturday, November 4, at the Eagles Hall on the Dixie Highway.

Members of the local business community have been invited to a night of dining and dancing. Object of the event is to have the business people in the community know each other a little better, according to Chairman Jack Frost.

## Pine Knob - "try it"

Pine Knob PTA has chosen the theme, "School involvement is fun. Try it, you'll like it."

The group hosted a successful open house October 9. Mrs. James Konhle and Mrs. Thomas Petrie had charge of refreshments.

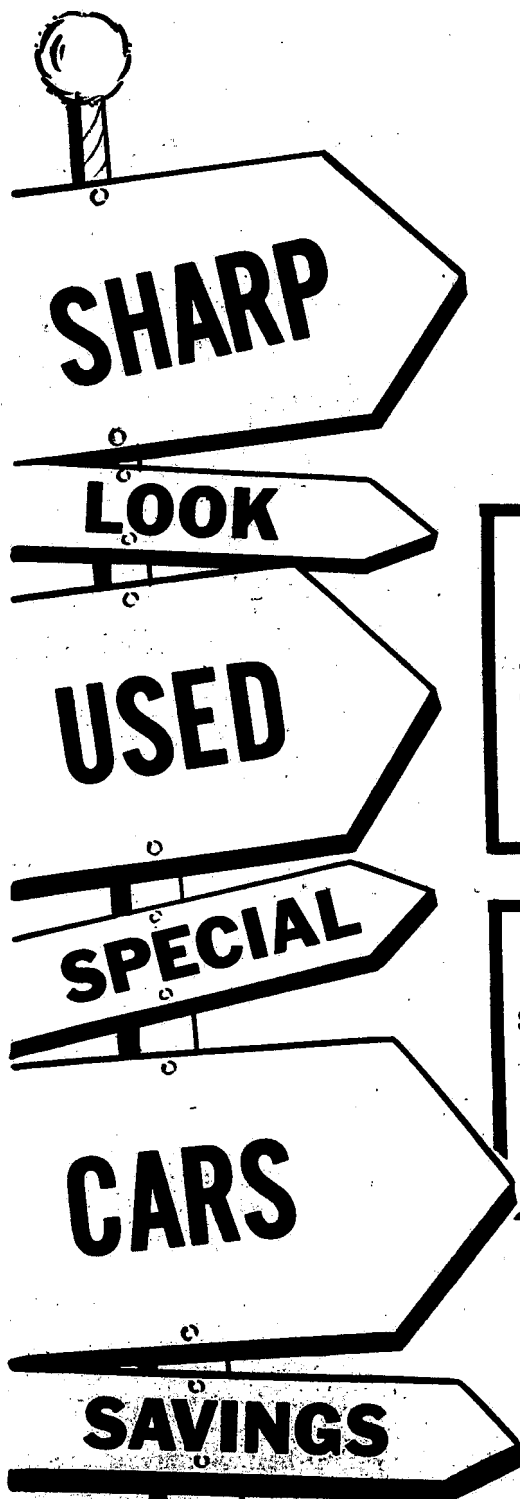

At the short business meeting conducted by President Carolyn Place, Mrs. Place proposed a memorial fund be established for Mrs. Lana Appleton who was active in the PTA prior to her death.

The sale of tote bags to raise funds for the PTA was proposed by Mrs. Lois Schnabel, and Mrs. Joan Gilchrist, membership chairman, said a bookcase would be presented to each room with a 60 percent or more PTA membership enrollment.

It was announced the Christmas program will be December 11 at Sashabaw Junior High School. The group's next regular meeting is scheduled for January.

# Doggone

By Betty Hecker  
 Our dog is gone! This statement was made at least three times Sunday, September 17.

Gone from 6733 Bridge Lake Road was "Radcliff," a 4½-year-old mixed hound, light brown with white markings on his face, around his neck, white feet and white tip on his tail. He was 27" high at the shoulder, wearing a red leather studded collar and a license. Although he was a hunting type dog, he was gun-shy and had never been used in the fields.

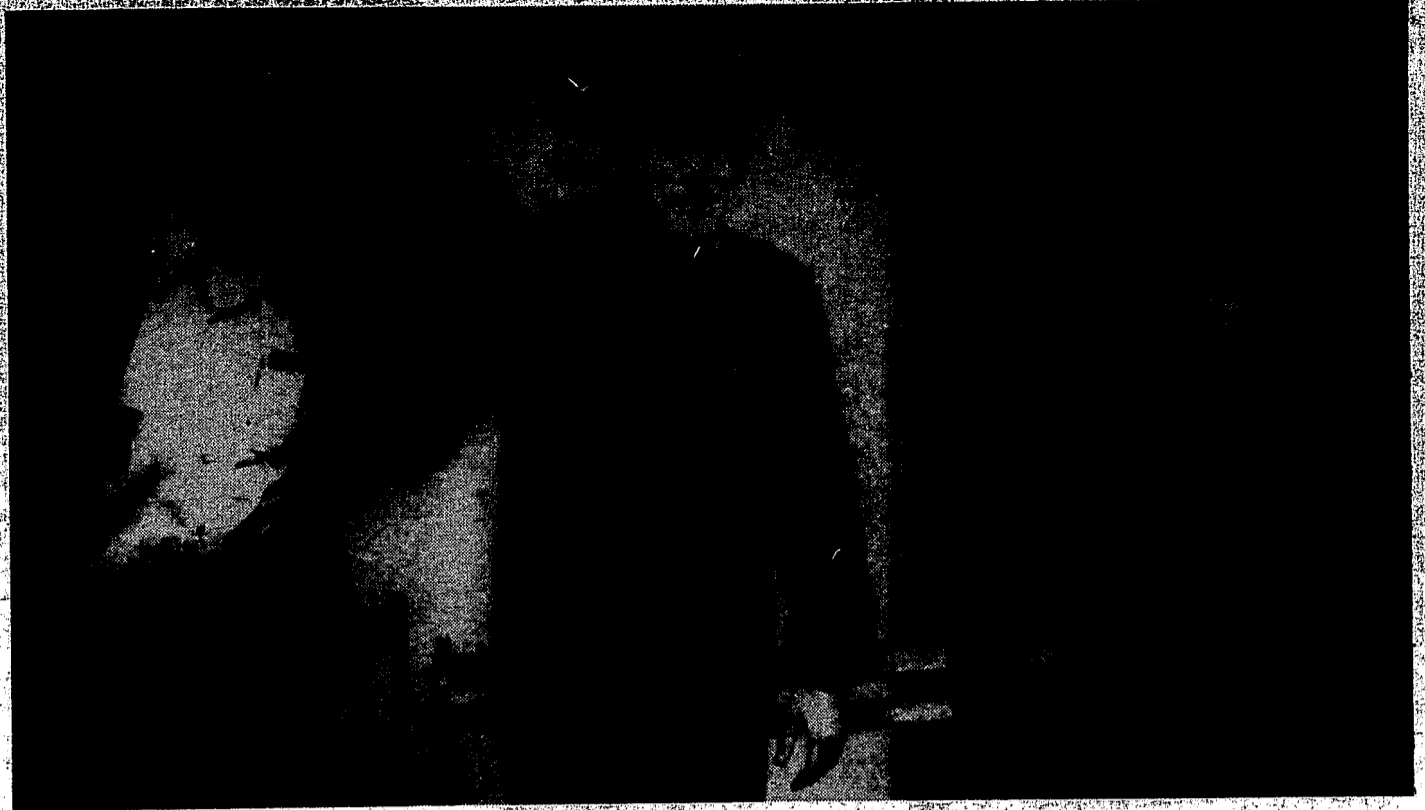

Gone from 6680 Bridge Lake Road was "Kelly," a 5-year-old male Irish setter. He was big and red, except for one white spot on his chest. Kelly was wearing a flea collar — and was also gun-shy.

Gone from 6780 Bridge Lake Road was "Duchess," one-year-old Irish setter. On Saturday night, Duchess was tied up. On Sunday morning, her collar and chain were found near the road, the collar had been unbuckled, not broken.

Lost and found ads with offers of a reward proved useless. Repeated trips to the dog pound were useless. Calls to the Animal Rescue League were useless.

Officers at the Oakland County Animal Shelter suggested the up-coming bird season always raised the number of dog losses. When asked about the use of dogs for medical testing at some clinics, the officers emphatically stated that dogs were purchased from licensed dog dealers only.

Still, three families on Bridge Lake Road ask, "Where have our dogs gone?"

Pete Rose, Rick Wilson and Bill Richard rehearse a scene from "Dracula," the opening play of the Village Players season this fall. A matinee will be offered at 3 p.m. October 29, and weekend performances at 8:30 p.m. November 3, 4, 10 and 11. Tickets are available at the door or may be purchased from Dr. Ernest Denne's office in Clarkston.

## Dracula

# What's in a name?

Independence Township is an area in which you find Bailey Lake School on Pine Knob Road, Pine Knob School on Sashabaw Road, and Sashabaw School on Maybee Road.

It is also apparently an area where you can't trust the authenticity of the name of the street where you live.

That might all be changed come October 27.

The Independence Township Board has scheduled a special meeting for 7:30 p.m. that night to change the names of some streets to those that they're called by, and to eliminate, if possible, any street name duplications in the county.

It all has to do with getting street signs

put up. The County Road Commission says it won't do it unless the name is unique in the county and unless the name agrees with information recorded by the Register of Deeds.

Clarkston Estates No. 2 might expect some changes. Laurelton, for example, is officially known as Brookside; Lakeview Drive might expect to become Havelock; Meadowlawn changed to Moorwood; Oakwood to Delmonico; Sunnydale to Athlerly; Squirrel Hill Drive to Paramus or Guelph; and Waldon Road might indeed become Waldon Road where it joins M-15. Now it's Sashabaw, according to county records.

In Woodhull Lake Circle Lane is proposed as Cobden; Center Road as Jerome; Hillcrest as Glenalda; Lakeview as Ennismore; Park as Cresskill; and First Street as Scammel.

Would Harding Avenue be sweeter as Honeywood? The Road Commission thinks so. In the same area Independence Avenue should be Vandewater; Townsend

should be Rockcroft; Wellington should be Tavistock; Wilson should be Wyevale; and Willow should be Whithorn.

In the Round Lake Resort area, A-Street is proposed as Cliff; Cherry as Cabot Court; Lake Drive as Mattawa; Maple as Marmora; North Lane as Indianwood Road; and Oak Avenue as Aldus Court.

Other proposed changes in the Kleinsteuber Subdivision include changing Baldwin Road to Sashabaw Road; Central Avenue to Chandros; Mack to Meyers; and Maple to Fowler.

Lake Oakland Hills might also have Baldwin Road changed to Sashabaw; Maple Avenue to Major; and Oakland Drive to Oakman.

At Oakland Ridge, Clinton Drive could expect to become Scammel.

Other proposals, one of which has found no favor — that Hillside become Manhasset in Lakeview Heights, include changing Park Drive to Apollo in Sunny Beach Country Club No. 2.

## It's that time of year

Independence Township politicians are playing a game of Authors over a letter which appeared last week in The Clarkston News.

Signed by Karl Schweitzer, the letter was in response to a previous one written by Democratic Trustee Chester Hensley. The Schweitzer letter brought up certain allegations against Democratic incumbents, and a \$100 check has been left at The Clarkston News by Trustee Keith Humbert if Schweitzer can offer proof to back up his statements.

More than that, Hensley contends Schweitzer was not the true author of the letter — that a copy in Republican Supervisor Candidate Robert Vandermark's handwriting was seen previously in the township hall.

Humbert claims he'll take the evidence he has to the Fair Campaign Practices Committee and to the Republican party for the purpose of censuring Vandermark.

Vandermark, when contacted by The News, denied writing the Schweitzer letter and said he had never met nor had any kind of communication with Schweitzer in the time he has lived here.

Schweitzer, reportedly a retired engineer, lives at 6293 Crabapple.

The Clarkston News was unable to contact Schweitzer late Monday afternoon; however, Clerk J. Edwin Glennie, a Republican who delivered Schweitzer's letter to The News, said he had witnessed Schweitzer's signature on the letter.

Further, Glennie stated, if any attempt is made to take the matter before the Fair Campaign Practices Committee, he'll take evidence he has on allegations of collusion between the clerk and treasurer to the Oakland County Prosecutor's office as well as the Fair Campaign Practices Committee.

He said such allegations had been made in a flyer circulated in the area recently.

A caseworker from Family and Children Services of Oakland is available at independence center from 1 to 5 p.m. Thursday afternoons.

Services offered include counseling for troubled marriages, parent-child problems, adults or youth with individual problems, unmarried parents and drug and alcohol cases.

All contacts are confidential, according to Mrs. Betty VanZoeren, caseworker. Arrangements for an interview can be made by calling the center at 673-2244.

Family and Children Services is a private agency, supported by United Fund, and is available to everyone regardless of racial, economic or ethnic status.

## CHS openhouse

Annual open house at Clarkston High School will be 7 p.m. Wednesday, November 1. Parents will have the opportunity to meet with teachers and view the school facilities.

# Proposal C could affect local millages

By Jean Saile

Local voted operating millages such as Independence Township's one mill for fire protection and one mill for police protection could be in trouble if Proposal C were to pass on the November 7 ballot.

County Civil Counsel Robert Allen has issued an opinion casting a cloud on the status of all voted operating millages if the people of the state were to opt for a 26 mill property tax limit.

Under terms of the proposal counties would get 8 mills, townships 1.5 mills and the intermediate schools 4.5 mills. An additional 6 mills could be voted for school enrichment programs, and another 6 mills could be voted for division between counties and townships.

The proposal calls for prohibition of the levy of property tax for the operation of schools, and its accompanying proposal, D, would lift restrictions on a graduated income tax which could then be used to finance schools.

Allen said he would expect litigation on the status of parks, school library, fire and police protection millages which have previously been voted by the citizens.

"I'm not convinced the millage would keep right on going or that it will not. Where school or county millages have been voted to support bonds, the limitations will have no effect... but as to operating millage there's a very serious question," he said.

Independence Township which might stand to lose its fire and police millages might also find repercussions on the two tax-millage questions facing local voters in November. There are proposals for an additional mill for the fire department and another mill for road improvement.

Township Attorney Richard Campbell said he'd guess that the special enabling statutes which have permitted special voted operating millages in the past would still have effect, "otherwise it would be a shambles."

Bruce Amb's, assistant executive secretary of the Michigan Education Association, said he did not believe a favorable vote on Proposal C would adversely affect any county or townships in this area because of the additional six mills which may be voted for townships and counties.

# Editorial Worse than the disease?

by JIM SHERMAN PUBLISHER

Approval of propositions C and D Nov. 7 could be another case of the treatment being worse than the disease.

The only positive statement in the two proposals is that property taxes for schools, townships and county purposes would be limited to 26 mills.

In proposition C (3 & 4) it requires that the legislature establish a tax program and distribute funds.

Proposition D enables the legislature to impose an income tax, flat or graduated. It further lets the legislature pass laws allowing local units of government to levy income taxes, flat or graduated.

There is nothing positive that schools would benefit, though we'll concede they likely would.

\*\*\*  
NOTHING IS SAID ABOUT limiting the amount of income taxes that could be levied.

We could end up paying a higher state income tax, township income tax, and village income tax if you happen to live in a village within a

township. Besides that proposal C raises the county take from property taxes from 5.26 to 8 mills. It raises intermediate school take from 1.5 mills to 4.5. And it raises township share to 1.5 mills.

Approval of these proposals would also cancel millages for everything except bonded indebtedness. If we owe for a fire truck or building the millage stays. If the millage is for a recreation program, library or parks it would be null and void.

\*\*\*

WE FAVOR THE IDEA of an income tax to support schools. We are in favor of decreasing property tax... even to the point of elimination to persons over 65.

However, we cannot support propositions that are as indefinite as C and D. We can only see bigger, more expensive bureaus, budget increases in all departments, higher salaries, more state department building and all of it being done as the legislators convince us "the taxpayers demanded it."

# Watch those hems

by Jean Saile

I have turned down an opportunity to judge another beauty contest.

It's not that I don't like beauty contests, it's just that I lucked out on the one and only I ever did judge and I don't want to spoil my record.

That "one and only" occurred some years ago as Michigan's Miss Peach Festival was being selected in Romeo. I and three male reporters from three other publications were tapped for the job.

We took our seats in the judges' box the night of the contest, eyed each other warily, and finally I volunteered that the only things I'd ever judged had been a field trial for hunting dogs.

Another reporter had been involved in judging some weird contest, but never a beauty contest.

All of us had visions of being booted out of the auditorium once our selections were announced.

In my record book, two of the girls tied for first place—based on a rather amateurish system of point ratings which I had developed for the night.

It turned out that two of the judges agreed with one of my choices and the fourth man was still so far afield, we decided to ignore his decision completely.

The announcement of the winner was finally made. The crowd approved. The queen cried. And everybody went home happy.

And what did I get out of the affair? The firm commitment that if ever a daughter of mine were to take part in such a contest, I would make sure the hemline on her long formal gown hung evenly.

Sitting in the particular vantage point accorded judges, I never saw so many uneven hems in my life.

They were beautiful girls and beautifully gowned, but those hems were something else.

## For a safe Halloween

Neighborhood streets will soon be filled with ghosts, witches and goblins begging for treats. Halloween is just around the corner.

Red Cross offers some advice to make this Halloween a safe one.

"The greatest Halloween hazard is clothing fire," Mrs. Viola Vivian, director, Red Cross Youth Programs said.

She lists the following reminders for parents when planning Halloween costumes for their children.

Be sure ready-made costumes carry a flameproof label. For homemade costumes, stay away from filmy material and outfits with baggy sleeves and billowing skirts. A touch of flame can start them burning. When carrying a pumpkin, use flashlights and avoid

burning wax candles.

Costumes should be at a safe length and shoes should fit well. Children should be dressed in light colors to ensure visibility to passing motorists.

All hair pieces, glasses and false noses should be on securely. Use makeup instead of a mask.

Mrs. Vivian reminds parents not to let their children go out alone at night. They should go in groups or

be supervised by parents. Also children are urged to go to lighted houses and cross at corners. Also stay in a familiar area and don't enter strange houses. Don't take unwrapped goodies.

Children should be cautious of animals as they may not recognize the youngsters. And finally, set a time to be home and report in at that hour.

"If It Fitz . . ."

## Addicted to baseball

By Jim Fitzgerald

I thought there might be some therapeutic value to reading Leonard Shecter's book, "The Jocks", during the final week of the baseball season. Sort of like reading a diet book while eating a large-size Hershey bar with almonds.

Shecter is best known as the editor of Jim Bouton's "Ball Four", the best-seller that delighted the reading public while angering the baseball world. Bouton is a former big league pitcher and he told locker room secrets. Shecter is a former sports writer and in "The Jocks" he continues in the Bouton vein—revealing many baseball "heroes" to be dumb, greedy, conceited jerks with nothing to recommend them except their muscles. (Egad, he even put down Joe DiMaggio whom I always thought God made on the 8th day.)

I really don't need Shecter and Bouton to remind me how silly it is that this country makes idols and millionaires out of

center fielders (or quarterbacks; pick any sport). I'm a fairly rational human being, most of the time. I know it isn't really important who wins the World Series. Ending the war in Vietnam, or curbing unemployment, or erasing racism, or feeding the hungry—those things are important. But who cares if the Detroit Tigers are champs?

I do, doctor, I do.

I can't help it. I'm addicted, as hopelessly and stupidly as the man who knows cigarets will kill him but still puffs up 3 packs a day.

I know baseball is a slow game, often dull, straight-jacketed by stuffy traditions. But there are those moments of suspense, high excitement, sweet anguish—and those moments somehow make it all worthwhile.

It began when I was about 10 and my father took me to old Navin Field to see Hank

Greenberg, Charlie Gehringer, Goose Goslin and the rest. I've never forgotten my first look at that green, green grass and the great crack of the bat hitting the ball.

In 1945 I probably became the first soldier to ever re-enlist for a year simply to earn a 30-day furlough that took me out of Germany and put me near Detroit at World Series time. We beat the Cubs in 7 games.

Now I take my son to the ballgames. We were there for that wild showdown against Boston. I stood outside the stadium and begged loudly for someone to sell me 2 tickets (and, as my wife later observed, I am normally so shy I won't stop and ask for directions when lost in a strange town because "I don't know anybody here").

I finally found a scalper to sell me \$2 worth of tickets for \$20. We then stood in line for an hour outside the bleacher gates which were unexplainedly shut. When we finally got inside there were

no seats left and we had to sit in the aisle, on filthy cement, while fans climbed over us and dripped beer down our necks.

But oh my. Al Kaline got the big hit, and he doffed his cap to the tremendous applause, and I yelled like an idiot. I jumped up and down and pounded strangers on the back. The Tigers won and it was the most beautiful night. I would have paid \$200, stood in line a week, and sat on fire, just to be there.

Why would a grown man behave so foolishly, doctor?

I really don't know. It's probably got something to do with not living for bread alone, or all work and no play, and all those old bromides.

Maybe it's simply that a middle-aged guy can remember his father warmly, between innings, and after a great victory he can embrace his son and the people in the nearby seats don't think it's mushy. . . . it's baseball.

## Letters to the Editor

### Here's \$100 for proof

To the editor,  
Dear Mr. Karl A. Schweitzer:  
Here's \$100.00 to you! Just go down and pick it up from an honest Democrat, Jean Saile. Just PROVE the following facts you put in your letter to the editor last week:

1. That the property on Bluegrass and Holcomb was zoned multiple. It does not show on the official zoning map, nor does the planner know of it. This was the "deal" referred to, "trade the location of multiples from Deer Lake to Holcomb and Bluegrass."
2. That Humbert voted for the Jack Raisin multiples on Clintonville Road. This was one of the many rezonings left over from the Hursfall regime.
3. Waterford Hill residents and Leib worked over the multiple proposal until

their representative was satisfied (another left-over). The multiples saved the trees on the steep slope. While on the subject, check a statement made by the Tax Assessor (who is running for Supervisor). His witness was against the resident's interest in the K-Mart Case.

4. Prove Mr. Stonerock has Keatington as a client. (He doesn't.)
5. That you have called the township hall and talked over problems with Mr. Stonerock (only \$1.00 for this one; it's been a long two years, but there is no record or recollection of your calling).
6. That the letter signed by you was actually written by you. We have proof it was written by Bob Vandermark. I say Honesty first, politics second. My word is as good as my bond.

Chester Hensley

### Clerk's bookkeeper

Dear Jean,  
In the article by the Civic Club in last week's Clarkston News, it was incorrectly stated that an additional bookkeeper was hired by the Township Treasurer's office for \$8,500.  
She was hired by the Clerk's office on the recommendation of our auditors. In

the past all the records have been kept in the Treasurer's office. According to the Michigan Township Association, the Clerk is supposed to keep a complete set of records also, thus the hiring of a bookkeeper.

Sincerely,  
Betty Hallman

### Treasurer endorses

To the editor:  
I wish to state that Mrs. Betty Hallman has my wholehearted endorsement for the position of Treasurer of Independence Township.  
As I am retiring, I feel confident that the office would be filled by a very qualified person, if she is elected.  
The position involves much more than just receiving and recording tax monies. It requires a knowledge of the method of distribution of income among five political entities, and of accurate accounting of individual tax records.

Mrs. Hallman has been involved for some months in learning and setting up the new property identification cards for use in the county computer system. She also has learned the new standardized chart of account now required by the State of Michigan for local government units.

These things you do not learn overnight. Mrs. Hallman has served her apprenticeship well, and is qualified and deserving of this position.  
Kenneth L. Johnson  
Independence Township Treasurer

### Still a candidate

The Clarkston News,  
In accordance with my article that appeared on September 14, 1972 in the letters to the editor, I'd like to refresh the remembrance of Independence voters. My name is Michael (Mickey) King and I'm

still a candidate for supervisor as a write-in candidate. Ask at your precinct for a write-in ballot and vote for honesty with integrity for your next supervisor.  
Love,  
Michael F. King

### Superintendent lauded

Dear Dr. Greene,  
On behalf of the membership of the Clarkston Education Association, we would like to commend you for your presentation before the October 9 Board meeting regarding the history and status of the instructional employees of our school system.

In light of the existence of contending philosophies between the bargaining groups and some of the half-truths and exaggerated accounts that appear to accumulate amongst a segment of the citizenry, it is very refreshing and encouraging to have the facts regarding

the professional compensation of teachers put into the proper perspective. Your objective analysis of this matter was of great value in informing and educating the members of the Board of Education as well as the taxpayers of our school system.

It is my hope that the CEA and the Board can expand our efforts to mutually bring about the highest possible level of educational quality for the students of the Clarkston school system.  
Sincerely,  
Larry Rosso, President  
Clarkston Education Association

### Likes JV sports stories

Dear Mr. Zander,  
I want to thank you for your article on the Wobbesboro Varsity football team in last week's paper. I have been very disappointed their previous games haven't

been written up. These boys are doing a real great job and I hope to see the rest of their games in the paper.  
Sincerely,  
Mrs. L. Klein

## The clerk responds

Dear Editor:  
Recently I paid out of my own pocket for a quarter page advertisement in your paper. In that ad I denounced the dirty mud-slinging, back-stabbing campaign being waged by certain candidates in our local election. In the same issue, was of course, no less than two such bitter shots at me and other township board members. Again, I want to state that I feel that only a constructive, positive campaign followed by the election of positive thinking and positive acting responsible people to local offices can begin to set our community back on its feet and get it off its ear.

The inconsistencies and the absolute untruths being perpetrated by these individuals can easily be brought to light and proven out since every citizen has the right (and responsibility) to inspect the township records. Such things as accusing one individual of underhandedness in rezoning properties is absurd when one thinks that each board member is only one vote and a vote of one has not to my knowledge ever given approval for anything (even at my house).

When one looks in his own back yard

he sometimes finds very interesting things, like a Democratic campaign sign on a parcel rezoned from residential to multiple on the north side of Waterford Hill (rezoned by Democratic votes on July 20, 1971); like the contractor who built the beach storage facility at Deer Lake, (on only a verbal contract with the Supervisor) who now has opened his new office in the same building as the Supervisor's home.

These things and many other irregularities which are facts and can easily be documented by public record point up the inconsistencies in the back-stabbing approach. So in closing I can only say that I feel sorry for those who haven't enough good qualifications to deserve mention and at the same time express my satisfaction in knowing that these low blows must be aimed at me because these people feel a tremendous threat to their own success in politics by my presence.

J. Edwin Glennie

P.S. I'd like to thank Karl Schweitzer for recognizing the facts as they are in his letter of last week.

### Get your facts straight

Dear Editor,  
I feel that I must respond to the rumor control want ad placed by our trustee-turned-journalist Keith Humbert in last week's issue of the Clarkston News.

I was wondering how long it would take one of our local Dems to start their mud-slinging about me, my business and worst of all my mother, but I should have known it was just around the corner with Keith on the scene.

Fact, Mr. Humbert! No one to my knowledge has ever accused Mr. Stonerock of trying to take over the local disposal businesses. We happen to appreciate any help Gary may have given us over the last 2-year period.

Of course, somebody should help since the present township board hasn't found it necessary to provide the residents of

Independence Township a place to take their trash and large items not normally covered in our service. Don't forget, Mr. Humbert, it was my company who opened our landfill to the residents of this township for their clean up back in May.

I certainly look forward to being your pen pal for the next two years Mr. Humbert, but surely if you're going to make wild accusations about me, somewhere in your devious "watchdog" mind you could come up with something better than that.

By the way, Keith, why don't you put your extra \$100.00 into the general fund to help pay for some of our legal fees or maybe to cover the cost of some of your "team's" spending ideas.

Jerry E. Powell  
Candidate for Trustee

### Questions shed contract

To the editor:  
Like most citizens, I have a strong concern in good, honest government. Regardless of the party one belongs to, I feel it is his or her duty to stand up and question actions and policies of government and in return receive some replay to those questions.

At our last township meeting (October 17), I questioned the actions of Mr. Stonerock concerning, as I feel, the misappropriation of funds in the building of the Deer Lake storage shed.

I have certain facts in my possession, including a bid of approximately \$1,000 less than that which was given to Mr.

Gavar for the building he erected, and asked Mr. Stonerock for an explanation for such a large difference.

In his usual manner, I did not receive any sort of answer but instead was dismissed from the floor, even though I was on the agenda, in a less than courteous manner.

I don't have the intention to pick on small matters. I only feel the taxpayers of the township, the village and also the Jaycees who donated more than anyone deserve a polite and reasonable answer.

Sincerely,  
Charles McBride

### Tranquility gone

To the editor:  
Never again will Independence Township be tranquil. Who says so? The sewer and I-75, although none of us want it that way. Growing pains are sure to be felt far into the future. The sewer construction that has the township torn up is a preview of things to come. We must have at least 7000 tap-ins just to pay for the sewer! The how of this growth is what is the bone of contention. The citizens started rumbling and grumbling the last years Hursfall was in office. Then the business interests started on Stonerock. Now the business interests are on Stonerock and I were inexperienced when we took office. We have matured

considerably in the last year and a half. We didn't have the political savvy of how to fight the money interests or the system. We have come a long way towards giving the citizens control. No referendums were held, although there almost was one when the clerk's vote put 400 apartments on Maybee Road at Spring Lake. I believe it is significant the things that did not happen.

I am looking forward to working with Supervisor Stonerock and a team that listens to the people, not the business interests. The team for the township is Keith A. Humbert, Trustee

# Shelter construction

Dedication of the Michigan Humane Society's new \$450,000 Oakland County branch, now under construction, takes place October 28.

The 21,000 square foot structure is located on a 9.5 acre site in Pontiac Township. The building will include space for strays and unwanted pets; adoptable pets; a 4,000 square foot humane education auditorium; a spay clinic; cruelty investigators and a resale shop to be run by Mrs. Edward N. Cole. Approximately 400 animals will be housed in individual kennels with every consideration including music. Many of the smaller communities in the county (see list) will house strays in the new shelter instead of the existing County Pound, which will be closed.

The shelter will be manned by 20 people including a veterinarian to take care of injuries.

The Kindness Center will be surrounded by a treed area to be developed as a nature trail for the handicapped and a wildlife sanctuary.

# Campus comments

By Margaret Vascassenno

The Homecoming Dance was a success. The band, Eclipse, was "really good," commented participating students.

On October 17, the annual Ugly Man Contest was held. Our Ugly Man for 1972 is Don Gauthier.

October 18 the students at CHS listened to "The History of Rock Music: A Reflection of Our Times." It was

sponsored by CKLW disc jockey Ted Richards and he was present for the program. That night on his radio program, he dedicated an "Hour of Power" to CHS.

Scheduling for the second marking period will be October 25 and 26.

The first marking period will end November 9. An inservice day for the

teachers will be November 10. That means no school for students.

Wrestling practice will begin October 30. The wrestling coaches are Richard Moscovic and Tolbert Carter.

CHS is having a girls' volleyball team this year. Tryouts are after school. Mrs. Denstead and Mrs. Miller are the coaches.

Pep Club has started. Meetings are Monday nights after school. Come and support your team. The sponsor this year is Miss LaBrie.

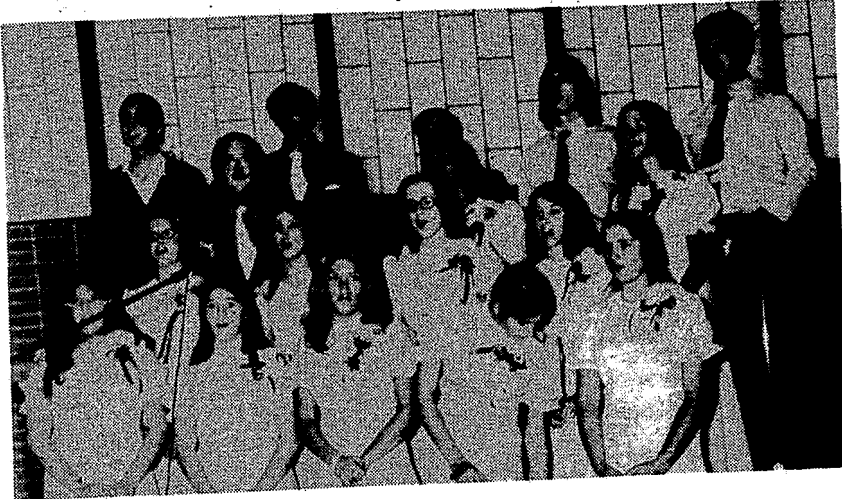

Magazine sales broke all records this year. The top salesmen are Beth Tower, a junior, and Terry Green, a senior.

The first CHS newspaper, titled "The Paper," has come out. Selling for 5 cents apiece, it is sponsored by Mrs. Denstead.

Yearbook sales are up. There will be another week to buy yearbooks if you missed out the first time around.

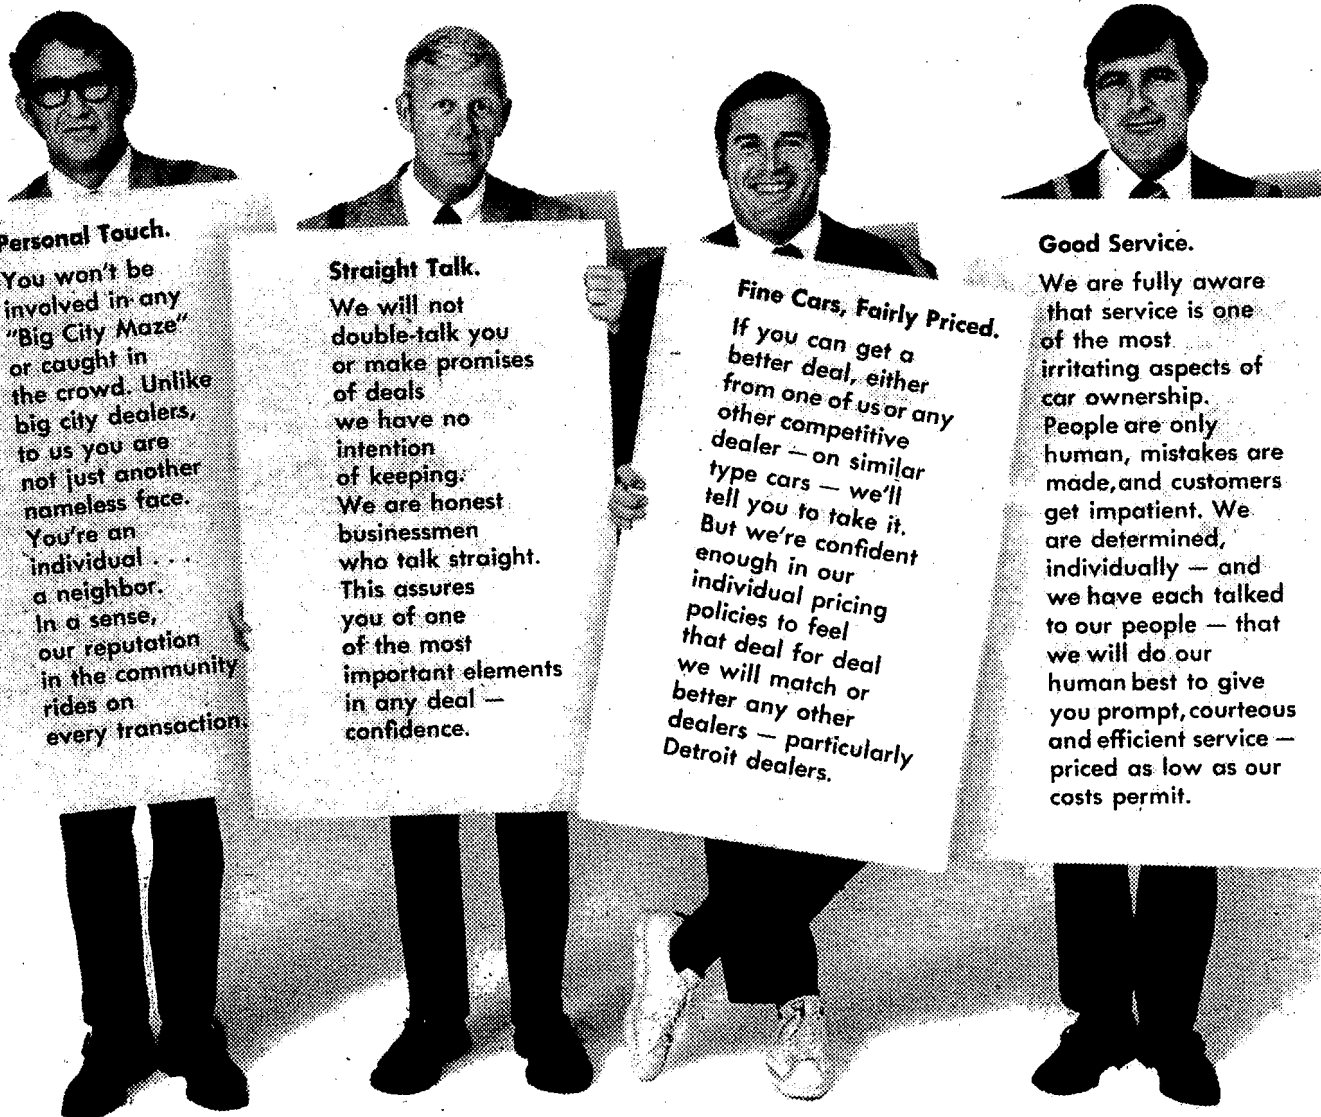

There are two exchange students at CHS this year. The exchange student from Sweden is Anna Cederlof. She is staying with the Donald Johnsons of Hogback Lake Road. The other exchange student is Susan Varela from Bolivia.

Susan is staying on Church Street with the family of Dr. Gary Ushman.

The Madrigal Singers of Clarkston High.

# We stand behind our Good Neighbor Policy.

**Personal Touch.**  
You won't be involved in any "Big City Maze" or caught in the crowd. Unlike big city dealers, to us you are not just another nameless face. You're an individual... a neighbor. In a sense, our reputation in the community rides on every transaction.

**Straight Talk.**  
We will not double-talk you or make promises of deals we have no intention of keeping. We are honest businessmen who talk straight. This assures you of one of the most important elements in any deal — confidence.

**Fine Cars, Fairly Priced.**  
If you can get a better deal, either from one of us or any other competitive dealer — on similar type cars — we'll tell you to take it. But we're confident enough in our individual pricing policies to feel that deal for deal we will match or better any other dealers — particularly Detroit dealers.

**Good Service.**  
We are fully aware that service is one of the most irritating aspects of car ownership. People are only human, mistakes are made, and customers get impatient. We are determined, individually — and we have each talked to our people — that we will do our human best to give you prompt, courteous and efficient service — priced as low as our costs permit.

This is more than a policy. It's a promise. We operate this way and we hope you didn't miss the phrase "good neighbor" because that's what it's all about.

We are all part of the same North Oakland Community. Many of

our people live in your neighborhood, go to the same churches and PTA meetings. After we do business with you, we've got to live with you and look you in the eye when we meet.

We hope to be your Chevrolet Dealer — and a very good neighbor.

Michigan grows 172,800,000 pounds of onions a year.

The engagement of Denise Dengate to David G. Wood, son of Mr. and Mrs. R. G. Nicholson Sr. of Transparent Drive, has been announced. The bride-to-be is the daughter of Mrs. Joan Dengate of Hadley Road and the late Richard Dengate. A November 4 wedding is planned by the two Clarkston High School graduates.

## You, too, can cook with wine

You don't have to be a connoisseur to use wine in cooking, says Marilyn Mook, foods and nutrition specialist at Michigan State University.

"Cooking with wine is like cooking with any other seasoning," she declares.

The alcohol in the wine evaporates during cooking so that only the flavor is left to enhance the taste of the dish.

A poor wine will bestow its poor flavor on the food, so don't use a wine in cooking that you would not enjoy drinking, she advises. Cooking will not improve it.

Dry wines are best for cooking, Miss Mook says. The old rule of "white wines for white meats and red wines for red" is out, however. Chicken, beef and veal are excellent with either red or white wine, she says, though fish is better cooked with white.

A dish or sauce containing wine should be simmered uncovered to allow the alcohol to boil off, Miss Mook advises. An odor of alcohol is your tip that it needs more cooking.

Meats that have been marinated or soaked in wine should be dried before cooking. Meat to be cooked in wine should be browned first and then the wine added.

## School menu

October 30-November 3

MONDAY - Sloppy Joe on bun, buttered corn, cake with fruit topping and milk.

TUESDAY - Spaghetti and meat sauce, cabbage pineapple salad, bread and butter, pumpkin pie and milk.

WEDNESDAY - Barbecued hot dog in bun, green beans, carrot and celery sticks, bread and butter, cookie and milk.

THURSDAY - Meat balls, mashed potatoes, buttered peas, bread and butter, cake and milk.

FRIDAY - Toasted cheese sandwich, tomato soup and crackers, chef salad, fruit and milk.

Trimmed October 14

### Justus-Hunley vows said

White tulle and layered lace was chosen by Barbara Hunley for her October 7 wedding to David Alan Justus of Savoy Drive.

Rev. Rod Soyka performed the ceremony at Dixie Baptist Church.

The bride, daughter of Mr. and Mrs. Dave Hunley of 8551 Bridge Lake Road, carried blue chrysanthemums and carnations.

Linda Hebler, maid of honor, was attired in a light blue floor length gown trimmed in royal blue. Debbie Blain,

Teresa Brook, Janie Brese and Cheryl Innis, bridesmaids, wore similar gowns.

Sheila Flanigan and Jeff Coffey served as flower girl and ring bearer.

The groom, son of Mr. and Mrs. Donald Justus of Savoy Drive, was attended by Wendall Howard, Dennis Eagle, Jack Hunnicutt, Ricky Bunyton and Dan Thomason seated guests.

A reception at David Besisle Post No. 1008 of the American Legion followed the ceremony.

Living at 9131 Crosby Lake Road are Mr. and Mrs. Robert Elroy Trim, wed October 14 at Christ Lutheran Church by Rev. Wayne Peterson.

The bride, the former Pamela Kay Allen, is the daughter of Mr. and Mrs. James Allen, 3215 Teggerdine Road. Her husband is the son of Mr. and Mrs. Russ Trim of 9131 Crosby Lake Road.

A white gown trimmed with daisies was chosen by the bride. She carried white roses. Deddie Coles of Clarkston, maid of honor, wore pink satin and chiffon with velvet. Bridesmaids included

Marcia Allen, sister of the bride; Ranie Doner, a sister-in-law; and Barbara Morey, a cousin.

Ramona Allen, cousin of the bride, was flower girl and Robert Schudlich was ringbearer.

Larry Smith served as best man with Jim Joseph, Dale Doner and Erick Schudlich seating the one hundred guests in attendance.

Following a reception at Dublin Community Center, the couple traveled to Upper Michigan.

### Around the township

## Welcome David

by Shanna Nadolsky

625-2837

September 26 David Marino was born. David is the son of Mario and Sandra DiPonio, the former Sandra Smally, and weighed six pounds, six and one-half ounces. Proud grandparents for the first time are the Charles Smallys on Sashabaw Road.

\*\*\*

Mrs. Hazel Gador, formerly of 105 Wompole Drive in Clarkston celebrated her 80th birthday Saturday, October 21 at her home in Grand Rapids. She received many lovely cards and gifts, including letters from President Nixon and Governor Milliken. A belated "Happy Birthday" to you, Mrs. Gador from Clarkston with best wishes for many more.

\*\*\*

Robert L. Jones on Robertson Court returned home Monday morning following open heart surgery at the Cleveland Clinic in Ohio earlier this month. He is feeling good and, of course, glad to be home. A six week R&R program has been laid out for him, with the first week home being complete bed rest and few visitors. Bob has appreciated the many cards and letters he received during his confinement at the Clinic, and I am sure he would welcome just a few more in the next couple weeks until he is on his feet and getting around once again.

\*\*\*

Five Clarkston area teacher-students have obtained degrees from Michigan State University at the end of the summer term. They are Charlotte A. Cowdin, 6288 Cramlane with a Master of Arts in industrial education; Janet K. Modesitt, 6795 Lingor Drive, a Master of Arts in secondary education; Ward H. Robbins,

6495 Walker Road, a Master of Arts in secondary education; Laura R. Roehler, 8142 Reese Road, a Doctor of Philosophy in elementary education; and Bruce E. Rogers of 1 Garden Court, a Master of Arts in elementary education.

\*\*\*

Nancy J. Caldwell of Clarkston, a student at Alma College, is one of 61 participants in Alma College's Program of Studies in France during the academic year.

Twenty-two of the students in the cooperative program with L'Ecole de l'Alliance Francaise in Paris are from Alma College and 39 are from other colleges and universities throughout the United States.

Miss Caldwell is the daughter of Rev. and Mrs. Mark H. Caldwell of 5380 Waldon Rd., Clarkston.

\*\*\*

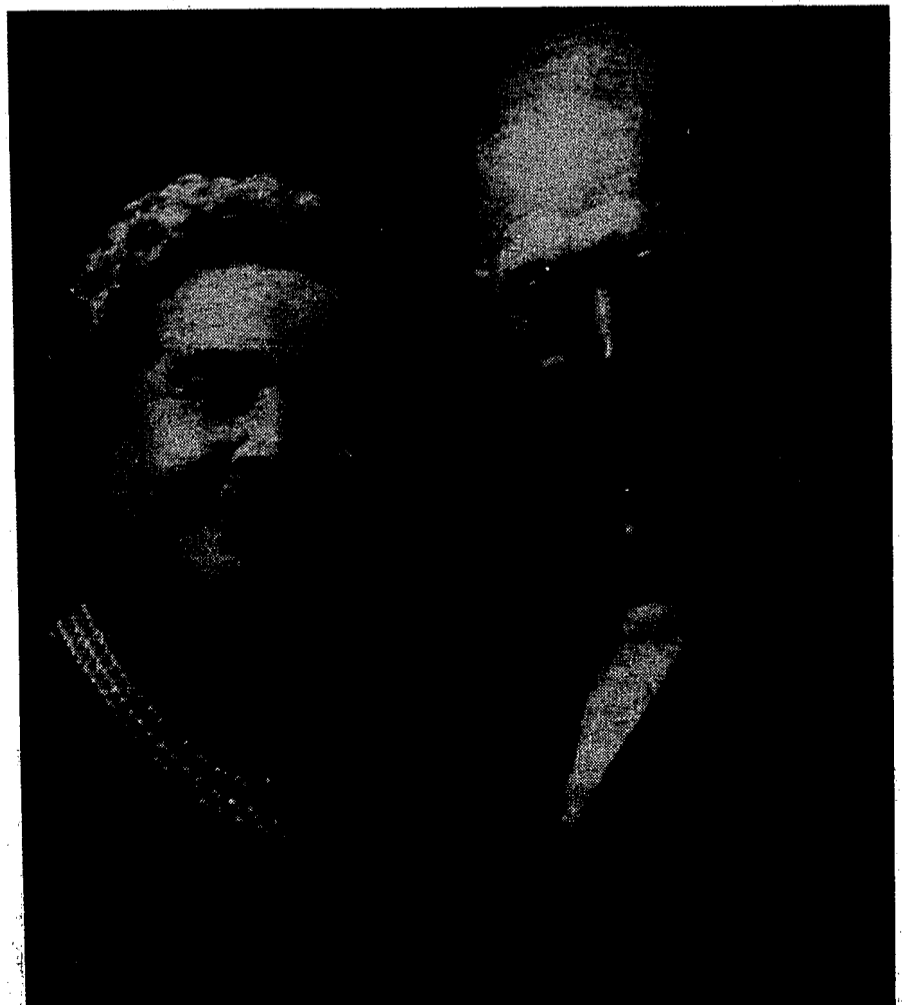

The picturesque white-steeped Sashabaw United Presbyterian Church has been chosen by Mr. and Mrs. Grant E. Beardslee of Pine Knob Road for the celebration of their 60th wedding anniversary. The Open House will be held there from 2 to 5 in the afternoon.

The celebration will be attended by the Beardslees' two daughters, Mr. and Mrs. Anson G. (Marion) Raymond and their children, Mr. and Mrs. Anson, Jr. of Denver, Colorado and Mrs. Douglas (Janice) Behrman; and Mr. and Mrs. Alston G. Penfold of Jessup, Iowa and their children, Mr. and Mrs. Alston W. Penfold from Auburn Indiana, Mr. and Mrs. Elton (Kathleen) Head from Indonesia, and Miss Nancy Penfold who is studying at Iowa State University. Several great-grandchildren will also be in

attendance.

Many of the guests attending are members of organizations to which the anniversary couple belong. These include the Sashabaw Presbyterian Church,

General Richardson Chapter of the Daughters of American Revolution, Masons, Eastern Star, Katherine B. Cable Woman's, Christian Temperance Union and the Farm Bureau.

Mr. and Mrs. Grant E. Beardslee

Springing

Hay

Decker

S. L. LaMeasure, vice president of finance of the DeVlieg Machine Company, Royal Oak, announced the appointment of James J. Smith to the office of Corporate Controller. Smith received his B.B.A. degree from the University of Notre Dame and is a C.P.A. Before joining DeVlieg, Smith's background included several years with a national C.P.A. firm and private industrial concerns. Jim, his wife, Rose Mary and daughters, Kim and Kelly reside in Clarkston.

Mark Matthews, kindergartener at Andersonville Elementary School, hosted 25 neighborhood friends on a hayride Friday, October 20, at his grandfather's Circle C Ranch. After the hayride, Mark's mother, Sue Carpenter Matthews, served brownies and hot chocolate while Bob Riganon entertained the children with yoyo tricks.

Did you notice the new curve sign at the Andersonville Road/Big Lake Road East intersection? The Arpoikas hope the sign will help keep cars out of their front yard. In the three years they have lived there, they average one car a week missing the curve and plowing up some grass of downing their sign. Drive carefully, folks.

Tom Jackman, 1120 Andersonville Road, Davisburg, is home recovering from an emergency appendectomy. Get well soon, Tom! Your students at Pierce Junior High miss you.

Thanks to Kristy Rice and Joan Vess, 41 dozen cupcakes were dispersed to Andersonville Elementary students on the first treat day of the school year. It netted \$22.90 for the PTA treasury. Thanks.

Plans were for a welcome home party

for his son, Michael, home on leave from the Merchant Marines, but on Sunday, the dinner guests surprised Roland Fenwick with a birthday party. The private dinner party included the Peter Fenwicks, Mae Obernaut and the Darrel Blackett family. So "Surprise" Roland Fenwick and "Happy Birthday!" and "Welcome Home, Michael!"

Budding artists D'Ann Wright and LeRoy Rice are very busy Saturday mornings attending the Clarkston Art Start.

Sixteen Springfield Township women have attended the Seminar Workshop for Women on October 16, 17, 23 and 24 at the Sunnyvale Chapel in Pontiac. The subject of this workshop was "Living Successfully." The women attending from the Andersonville Community Church were Elsie Duncan, the pastor's wife, June Anderson, and Lucy McCain. There were ten women, including June Hazen, the pastor's wife from the First Baptist Church of Davisburg attending.

Twenty friends and family members helped twins, Brenda and Craig Pope, celebrate their 10th birthday with a party Sunday.

Andersonville Community Church is

planning a "Punspiration" directed at all children. This program will be from 4:00 to 5:00 p.m. starting Monday, October 30, and will continue through Friday, November 3. The week will include contests, film strips, free treats, singing, and surprises. All ages are welcome.

On September 12, Muffin, a tan and white female terrier, literally leaped from Judy Blackett's arms and ran as fast as she could across the field toward Foster Road. She has not been seen since - not by anyone on Foster Road, or Big Lake Road or Dixie Highway, or her own street, Nadette. Where is Muffin?

Muffin's story is not too unusual - if it were an isolated incident. But, on September 24, the Toners' big white German shepherd disappeared. The Toners also live on Nadette Street. The children looked for and called for their dog. After several hours, the dog came home, dragging a chain someone had fastened around his neck. Who?

The 53rd annual meeting of the Michigan Farm Bureau will be November 8, 9 and 10 in the Grand Rapids Civic Auditorium. Theme of the meeting is "Make it Happen."

Spiritual Message

"Give Us a Leader"

Some people keep saying "we need a leader" or "we need better leadership," but that is not what they really mean. They want

someone who is agreeable to them, that appeals to their preferences and prejudices, so that they can follow it wholeheartedly.

But this is not what a true leader does. A leader tells people hard

truths, gives them a difficult path to follow, calls upon their highest qualities, and not their basest instincts. A true leader does not tell us what we want to hear, but what we ought to hear.

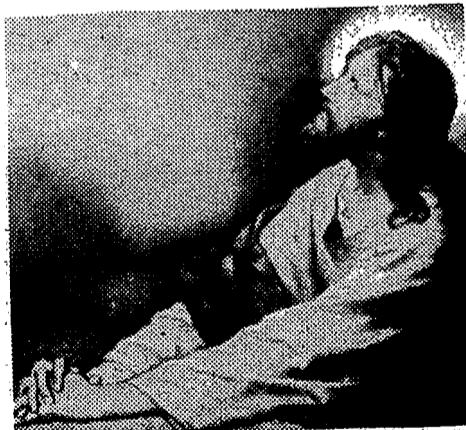

A false leader caters to and inflames the fears, hates, angers, and resentments of his people, and drives to destruction rather than salvation.

A true leader, such as Jesus, rebukes his people, shows them their errors, makes them want to do better, and asks them to make sacrifices for the good of others. As a result He is never followed by very many, opposed by the majority, and venerated only when he is thought to be safely dead.

I am afraid a lot of people are looking for false leadership - someone who will give us over simplified answers, who will justify our false ways, who will castigate our enemies, who will vindicate our selfishness as a way of life, and make us comfortable within our

prejudices and preconceptions.

But all the true Prophets of the Old Testament and especially Jesus knew, and said, that the trouble wasn't with our enemies, but with ourselves. Jesus required that we shed our old skin and become new men - as individuals and a society. And this is the hardest thing for us to want to do. This does not sound like good news to us, but, is there any other hope.

Holly Home Tour to benefit Patterson House

**Variety in Holly tour**

Home up to more than a hundred years old will be featured in the Northwest Oakland County Historical Society home tour from 11 a.m. to 5:30 p.m. Saturday, October 28, in Holly.

Proceeds from the tour will be used to help restore the Patterson House on Maple Street which the society purchased earlier this year, and which now needs a new roof, some foundation work, and plastering and painting. The home is designed for use as a museum.

The tour will include the modern Carl Hansen one-story modified ranch. Furnished in Mediterranean and French Provincial, it is the product of Mrs. Hansen and an interior decorator.

The 60-year-old home of Mr. and Mrs.

Dale Ginn features brick and is situated attractively in small dimensions. The white clapboard home of the V. A. Sillers housed three generations of the Jones family prior to the Sillers' purchase. Furnished in Victorian, it features many special pieces.

Family heirlooms decorate the nine-room home of the Carl MacArthurs in Holly. The home overlooks a small lake. The Rose Township farm home of the Thomas Seavey Seniors still contains two rooms of the log cabin built shortly after the land was granted to the Fillingham family in 1849.

The Seavey home has been designated as Hospitality House for the tour, with coffee and cookies to be served here.

Pd. Adv.

by Bob & Marvel White

When you hire a broker to sell your home, or for whatever reason, tell him honestly how much money you have and what you need. Be complete and detailed. Tell him the size of the house, the kind of neighborhood, the price you can honestly pay. Let him in on the likes and dislikes of the household. This will save both of you time and a lot of footwork. Also you will be much more pleased both with his work and with the results you get.

When you list with BOB WHITE REAL ESTATE, 5856 S. Main St., 625-5821, our experienced salespeople will take a personal interest in achieving the results you want; and if you're looking for a home, we will take all your likes, dislikes, and other criteria into consideration in helping find the right home for you. We handle all forms of real estate including commercial property, raw acreage and parcels of land. Hours: 9-8, Mon. - Thur.; 9-6, Fri., Sat.; 12-5, Sun.

**HELPFUL HINT:**

It's much more convincing when a third part extols the virtues of your home than when you do it - and that's what we brokers are for!

**SPORTS Go-Round**

by Jerry Savoie

Ever wonder where baseball rules really come from? The first basic rules were formulated by Alexander Cartwright in 1845. The major difference between these old rules and the ones we use today is this: the game ended when one team made twenty-one runs. The balls were then pitched underhand and any ball caught on the first bounce made an out. Since 1845 baseball rules have gradually accumulated arising from specific needs as the game grew more popular. However, probably even Alexander Cartwright would recognize the game as his old favorite.

We hope you'll make SAVOIE INSULATION CO., 64 S. Main St., 625-2601 your favorite store for fiberglas and cellulose insulation as well as a wide variety of aluminum products. We carry seamless aluminum gutters in 5 colors; aluminum soffit systems; all types of aluminum storm doors, windows and screens; and custom-made aluminum shutters with permanent galvanized finish. Hours: 7:30-5:30, Mon. - Fri.; 8-12, Sat.

**HELPFUL HINT:**

The right fuel for your heating system saves money in the long run. Fuel that is too heavy may cause excess smoke and soot.

PD, ADV.

*America's finest architectural heritage revisited...*

Just beyond the Village of Clarkston on Greene Haven. The authentic architecture has been carefully preserved in the New England tradition. Much of the appeal of the early New England Colonial farmhouse stems from the apparently almost unplanned rambling character imparted as each generation made its interesting additions to the original homestead. It is this extenuation of an appeal that tugs at the heartstrings through three centuries of time. If you're thinking of building, consider us first...

# LEO HAZEN

The kind of man you'd want for sheriff

What do you look for in a man who seeks the job of Sheriff of Oakland County? Experience? Achievement? Administrative skill? Professional dedication? Well, Leo Hazen has it all. He's the candidate with a solid 24-year career in the Sheriff's department, with actual experience in every phase of department operations. From the patrol car, through the detective bureau, to his current job as Undersheriff of Oakland County. Leo Hazen's the man who set up the Oakland County Trusty Camp. The man selected as sole advisor and consultant for the \$9 million New Oakland County Jail Project. And the man endorsed by Sheriff Frank W. Irons. Vote for Leo Hazen this November 7th. He's the kind of man you'd want for Sheriff.

(Located across from Pontiac Airport)

## Sen. Lodge explains no fault

State Senator Harvey Lodge, R-Independence, author of Senator Substitute Bill No. 782 which deals with no-fault auto insurance, says the bill will "bring benefits to Michigan residents for injuries from auto accidents which will be much more adequate and more prompt than under the present system."

The senator explains, "Under the present fault system, more than half of all injured persons receive nothing."

He adds, "In order to collect anything under the present fault system, an injured person must prove that someone else was entirely at fault for the accident. This is often a long, slow and expensive process, requiring delays of a year and a half on the average, and often requiring the injured person to pay for economic losses, medical expenses and other costs before recovering, if he does at all."

The new no-fault program which becomes effective October 1 of 1973 "will reimburse every injured person for all his lost wages as a result of disability or death up to \$1,000 per month for three years and all his medical expenses," Lodge said.

"These payments will be paid monthly as the expenses or wage loss occur. There will be no need to hire a lawyer or prove that someone else was entirely at fault or wait for a court case to be settled."

"If the injury is serious and involves other loss, such as disfigurement, which is not covered by the non-fault medical and wage loss benefits, the injured person may sue for such losses if another person was at fault, just as he may under the present system," Lodge explained.

He said it is still too early to tell what the rates for auto insurance will be under the new program. "Some rates will go down and some will probably go up,

depending on how much insurance you have now, the make and model of the car, the income level and number of dependents of the car owner, the location and use of the car, the deductibles selected, and last, but not least, which insurance company is issuing the policy."

Lodge summarized, "The no-fault system is a system where you insure yourself instead of the other guy. Under the fault system your insurance pays for the other guy if you are at fault. Under no-fault, your insurance pays you."

The senator said it would be up to insurance agents to contact their customers letting them know what coverages are required, what additional coverages and deductibles are available and the rates for the various coverages.

## Christmas sale

Pontiac will have its annual pre-Christmas bazaar from 9:30 a.m. to 5 p.m. November 2 and 3. Some booths are still available for people who wish to sell gift items at the bazaar. Call Mrs. Mae Louise Russell at 332-9300.

## Open house scheduled

Doors at the Northwest Oakland Vocational Education Center at 8211 Big Lake Road, Clarkston, will be open to parents and the general public from 7 to

9 p.m. Monday, November 6.

H. J. Olson, area center principal, invited the public to the school's third annual open house and parents' night.

"We would like to visit with area residents and have them see some of the new and exciting things that are happening in secondary vocational-technical education," he said.

Occupational education laboratories in major appliance repair, radio television service and repair, metal machine trades, auto body repair, modern printing and photography, commercial art, retailing and marketing, total office occupations, dental office assisting and medical office assisting will be open for visits.

Instructors and students will be on hand to answer questions on any phase of the area center operation. Students from high schools in Holly, Ortonville, Clarkston and Waterford attend area center classes for half of each school day and their home schools for the remainder of their school time.

## Bottles program gets state, national awards

Carolyn Place, chairman of Independence Township's Bottles for Building program, has been informed the program has been selected for special honor by Keep Michigan Beautiful, Inc., at its meeting Monday in Grand Rapids.

She's also learned Keep America Beautiful, Inc., will give the program a special merit award November 16 in New York City.

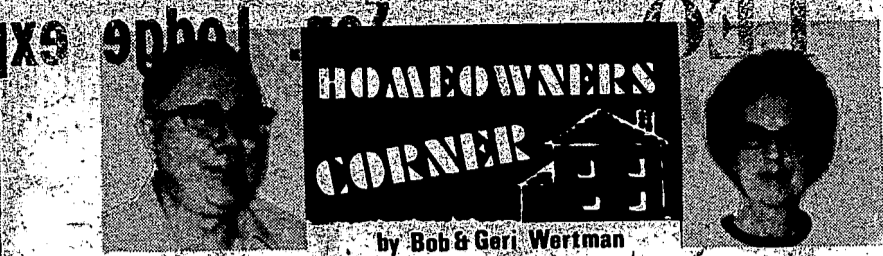

Roger W. Powers, executive vice president of the national society said, "We wish to congratulate you on your innovative program which can be used to stimulate similar activities throughout the nation."

Bottles for Building was the first glass recycling program in Oakland County. Through its success grew the County Recycling Center, first of its kind in the state, and now about to get an extra \$20,000 funding to improve the facility on Telegraph Road in Pontiac.

by Bob & Geri Wertman

Why are Phillips screws often used instead of plain screws in such things as radios, automobiles, and many appliances? It's because a slot-bladed screwdriver can slip and damage parts that may be valuable to the operation of good looks of these items. Phillips screws are used so that there's no danger of slipping or losing the grip of the screwdriver. Your home tool kit should include both types of screwdrivers: you'll never know when they'll come in handy!

You'll find a wide selection of screwdrivers and other tools at BOB'S HARDWARE, 60 S. Main St., 625-5020. We feature Stanley hand tools and Sentry power tools. The area's Detroit Edison Agency, we repair your electrical appliances, offer free exchange of light bulbs and fuses, and accept payment of electric bills. Hours: 8-6, Mon. - Sat.

# PAUF drive starting

Independence Township stands sixth in percentage of goal raised in the Pontiac Area United Fund's Community Division drive, it was learned Friday at PAUF's second report meeting.

At the meeting, sponsored by First Federal Savings and Loan Association of Oakland, Independence Community Division Vice Chairman, Mrs. Jerry (Adele) Powell, 6023 Sunnyside, Clarkston, reported Independence Township Community Division unit had raised \$131 or 3.6% of its \$3,606 dollar goal.

Other sections reporting included Orion Township with 23.2% of its goal collected, Oxford with 24.4% of goal in, Waterford at 20.4%, Pontiac Township at 38.7% and Lake Angelus with 46.4% reported.

PAUF's Community Division solicits selected homes and small businesses in Independence, Waterford, Oxford and Orion Townships and selected homes in Pontiac Township and Lake Angelus.

The overall campaign, at midpoint timewise, has raised a total \$866,519.39 or 61.1% of its \$1,416,500 goal.

More than 90% of every dollar raised in the annual PAUF Campaign goes directly to help people. According to a PAUF spokesman "United Fund Campaign and administrative costs are lowest of any other type of fund raising organization in the nation."

The next report meeting is scheduled for Friday, October 27.

# Land investigation goes to prosecutor

Photostats of 82 deeds to property in Deer Lake Knolls have been turned over to the Oakland County Prosecutor's Office for possible issuance of warrants.

Township Attorney Richard Campbell said in reviewing the deeds he believed he found some violations of both the old and new plat acts.

The plat act governs the division of land. Campbell noted that Deer Lake Knolls was never platted.

# Lab owner sentenced

The U. S. Attorney's Office announced today that Dr. John J. Marra, a Lake Orion physician, has been sentenced to 18 months in Federal Prison (15 months suspended) for the filing of a false income tax return for the year 1965.

Marra, age 60, of 1430 Nakomis Dr., Lake Orion, was convicted on July 24, 1972 of the willful filing of a false and fraudulent U.S. Income Tax return for 1965, wherein he paid taxes of \$1,250 when his true tax liability was \$12,246.00.

Dr. Marra is the owner of Clinical Laboratories, Inc., of Pontiac and Clarkston, Michigan. He also holds the position of Staff Pathologist of Lapeer County General Hospital. Marra was formerly associated with Pontiac General Hospital.

The Internal Revenue Service will now proceed with the assessments of the civil tax and penalties due and owing to the United States.

# Supervisor candidates will speak

Gary Stonerock and Robert Vandermark, the two candidates for Independence Township Supervisor, will be guest speakers at the October 26 meeting of Clarkston Community Women's Club.

Guests and members are invited to attend the newly opened independence center at 8 p.m. for the program.

Members are asked to remember to bring an article for the food closet to help the needy.

# Meeting cancelled

The Nov. 7 meeting of the Independence Township Board has been cancelled because of the national election to be held that day.

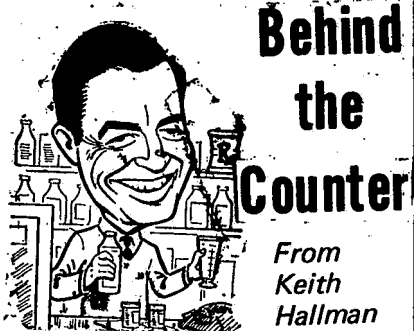

Following tradition, township offices also will be closed on the day of balloting.

Township board members also voted at Tuesday night's meeting to maintain the same rates for election workers that were paid in the August primary.

These are \$45 for precinct chairmen, \$40 for precinct workers, \$25 for the absentee ballot chairman and \$20 for absentee ballot workers.

# NASA movies

Official NASA movies of the Apollo 14 and Apollo 15 missions are highlights of the annual Waterford Gem and Mineral Show, November 4 and 5. The 1972 "Wonder of Rocks" will be at the CAI Building, 5640 Williams Lake Road. Hours are 10 a.m. to 10 p.m. on Saturday and 10 a.m. to 6 p.m. on Sunday.

Behind the Counter

From Keith Hallman

# POISON IVY

Immunization against poison ivy, oak and sumac may be possible within the next five years, according to the National Society for Medical Research. The prediction is based on current studies at the University of California and Ohio State University.

A compound called "urushiol," made from the plants, has been successfully used to immunize laboratory animals. If this continues to work in clinical trials on humans, it may eventually be possible to provide immunity from "plant dermatitis."

Some people already seem immune to poison ivy, but Dr. Naomi K. Kanof, of the American Medical Association, says "no person can be certain of being or remaining insensitive to poison ivy."

Another myth, Dr. Kanof said, is that poison ivy spreads from one part of the skin to another. "Neither the redness nor the blister fluid causes spread," she said. "The eruption may appear to spread because of the difference in the time of appearance of the dermatitis reaction."

Two wrong (and contradictory) ideas are that you shouldn't bathe or shower if you have poison ivy, and that after you touch the three-leafed plant, you should scrub your skin very hard with soap.

Not so, Dr. Kanof said. "Bathing and showering and so on are useful, and even essential in treatment. But once the allergen is removed by washing, there is no (medical) benefit from further washing and scrubbing."

Hallman's Apothecary

4 SOUTH MAIN 625-1700

# Dividends declared

At its October meeting the Board of Directors of the Pontiac State Bank declared a cash dividend of 50c per share payable December 1, 1972 to stockholders of record October 31, 1972. This semi-annual dividend brings total cash dividends to \$1.00 per share on the bank's 327,148 shares outstanding.

Milo J. Cross, Chairman, and Edward E. Baker, Jr., President, said that bank net income for the nine months ending September 30, 1972 were about 25% higher than the nine-month 1971 figure. They reported year to year comparisons reflecting the bank's growth with deposits up \$27 million and loans up \$14 million. The largest segments of these increases were represented by private savings and mortgage loans respectively. The bank's growth mirrors the economic activity in northern Oakland County which is highlighted by the continued growth of personal income and new construction activity.

# Old fashioned Christmas card

An old fashioned Christmas in Michigan is depicted on the 1972 Christmas card offered by Camp Oakland Youth Programs Inc. in Oxford. The snow-covered scene is right out of artist Lucile I. Phelps Bauer's childhood, spent near Mayville. A sample card is available from Camp Oakland, 930 East Drahn Road. Mrs. John Z. DeLorean of Bloomfield Hills is 1972 Camp Oakland Christmas card chairman.

# Effort made to preserve scenic roads

An effort has been launched by Supervisor Gary Stonerock through the Inter-County Highway Commission of Southeastern Michigan to preserve some of the natural beauty roads within the township.

He contended in a letter to the commission that a Natural Beauty Road Plan should be adopted for five reasons.

1. No large costs are necessary; only an organization is needed to coordinate the plan.

2. The roads need not be

interconnecting.

3. Land would be preserved.

4. Zoning could follow to perpetuate the designated roads.

5. Utility companies could continue to plan future needs based on the plan.

The objectives of such a program, he said, would include minimal disruption of such roads by large scale projects and future developments.

Stonerock said he was making the request in a cooperative spirit. "Having

adopted your plan to preserve future right-of-ways in regard to the overall transportation system, we townships and villages would now like to preserve some of the natural beauty roads within our jurisdictions."

## Zoning text change urged

Independence Township Planning Commission has recommended a change in its zoning ordinance which would allow public, semi-public and private golf courses under its commercial recreation classification.

The action has come about as a result of Circuit Judge James Thorburn's ruling on the Waterford Hill Country Club case. Thorburn held present zoning was "confiscatory and void."

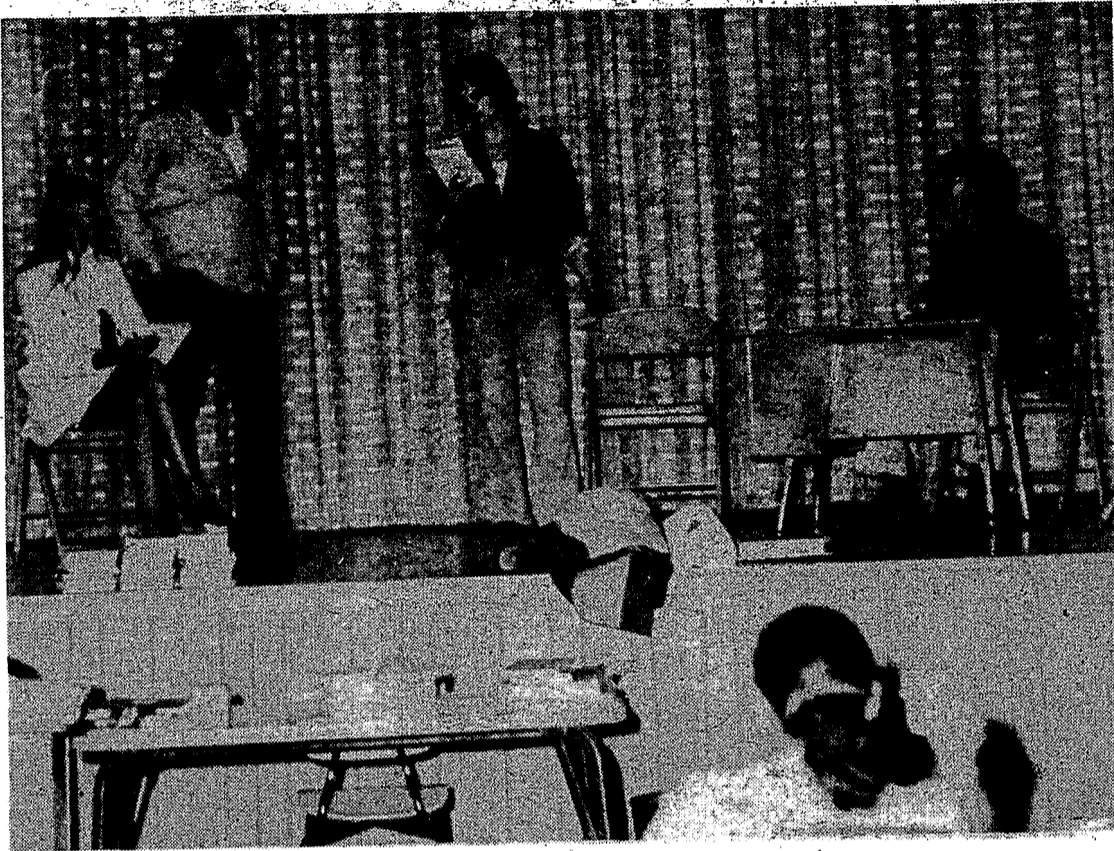

He added, however, that if the zoning classification were to permit private operation of the golf club he would reconsider his opinion.

The case involves the suit of the club and William Gershenson against Independence Township where voters a year and a half ago revoked zoning to permit construction of a K-Mart shopping center on the land.

The area is zoned for commercial recreation and the planning commission has recommended that it stay in that category providing the amendment is made to the zoning ordinance text.

In other business last week, the commission approved site plans for Calvary Lutheran Church's modular classroom which it intends to put on church land; the request of Haupt Pontiac for a new car prep shop across Main Street from the dealership; the site plan for 132 multiple units south of Andersonville Road next to Lester Lake, providing drainage and run-off which might pollute the lake be controlled; and approval for 272 multiple units on 28.34 acres by the R. & W Development Company in the area of Maybee and Sashabaw Roads.

Preliminary plat approval was given developer Larry Mattingly for minimum 1½-acre residential lots on land off Reese Road near Overpine.

Mrs. Barbara Gibson (foreground) keeps an eye on rehearsals for Clarkston High School drama department's presentation of "Harvey," which will be offered at 8 p.m. November 3 and 4 in the Little Theater. From left are Jayne Kottke, Roy Anderson, Jim Johnson and Steve Robbins.

## Snowmobiling lessons offered

By January 1, 1973, all persons operating a snowmobile between the ages of 12 and 15 will have to obtain a state certification (license), according to Supervisor Gary Stonerock.

The Oakland County Sheriff's Department will be giving snowmobile courses in Independence Township in cooperation with the Independence Township Recreation Department.

Tim Doyle, director, will be setting up and scheduling classes for the 8-hour course, 10 hours if the snow is on the ground. The courses can be given in the morning, afternoon or evening, Doyle said, but must have 25 persons minimum and 50 maximum per class.

The cost is \$1 for the entire course.

# Homecoming 22-12

Dave Partlo, 22, downs a Laker as Reg Alexander, 64, and Fred Willockx, 57, take off in fast pursuit of the ball.

Tim Hinkley, 51, comes up from the rear to give assistance to downed Mark Blumeneau, 32, and Dave Whitehead, 21.

Dave Partlo, 22, is ball carrier as Rod Rumsey, 10, tangles with a Laker.

By Craig Moore

Clarkston's Varsity Wolves have shown vast improvement in the past weeks and it has been evident in the last 2 games, but Clarkston has not yet advanced enough to equal the prowess of the West Bloomfield Lakers. Clarkston lost its Homecoming game to the Lakers, 22-12, on Friday, October 20.

The Wolves started out well and seemed capable of containing West Bloomfield's offense, but Clarkston became victim of the Lakers' fine backfield. Bloomfield's backfield did an excellent job of leaving the Wolves wondering for a short time just who had the ball.

With 9 minutes remaining in the first half, Tom Kickenon of West Bloomfield scored on a 6 yard run. Keckenon, a junior, leads county scoring with 80 points. Mike Sopko ran the conversion for an 8-0 lead.

Minutes later, Clarkston's Dave Partlo streaked into the end zone from 17 yards out. The conversion run failed and West Bloomfield held an 8-6 advantage.

Late in the second quarter, the Lakers scored again. This time Keckenon ran 3 yards for the touchdown. The Lakers were ahead 14-6 at the half as the extra point kick was off its mark.

No scoring occurred in the third quarter. Clarkston did threaten twice though, once coming as close as 3 yards from the goal line. However, the Wolves lost the ball on downs both times.

Clarkston scored midway through the final period when quarterback Greg Swanson dashed 6 yards to the end zone. Clarkston had a chance to tie the game up, but failed in the conversion run, leaving the Wolves lagging 14-12.

Keckenon scored on a 20 yard run late in the game to insure the win. The conversion run was successful and West Bloomfield defeated the Wolves, 22-12.

The Clarkston gridders did everything possible, but could not overcome the Lakers.

Clarkston is now 1-3 in league play and 2-4 overall.

Friday, October 27; the Wolves travel to Milford for a league contest with Milford's Redskins. Game time is 8 p.m.

## Chiefs play in rain

Rain failed to dampen the enthusiasm of a good size crowd October 21 as the Independence Township Chiefs took 2 or 3 games from the Troy Panthers at Clarkston High School.

Freshmen won 19-0, the varsity 33-0, and the junior varsity lost 7-0.

The Chiefs will play the Madison Heights Wildcats at 12:30 p.m. Sunday, October 29, at Clarkston High football field.

SUCCESSOR TO THE AUTOMATIC WATER SOFTENER

## THE REYNOLDS SOFT-SENSOR

THE WATER CONDITIONER THAT HAS A MIND OF ITS OWN FOR SOFT, RUST-FREE WATER

THAT'S RIGHT! Every night the Soft-Sensor "takes its own pulse." If it needs recharging, it recharges itself... if not, it checks itself the next night.

The Soft-Sensor recharges itself ONLY when it needs it, and always when it needs it.

- All the soft water you need
- Saves salt-maintenance cost
- It "sleeps" when you're away from home
- Simple, dependable construction
- "Lifetime" all-fibreglass tank
- Remarkably low in cost

PURCHASE OR RENTAL PLAN

Other brands of water softeners can often be converted to the Soft-Sensor.

# Golf team 7th in state

By Roger Zander

The Clarkston Wolves golf team competed in the State finals on Saturday and shot a combined score of 335 to finish 7th. In 1971 the team placed 13th in the State.

In Regional competition held at Atlas Valley, Clarkston was runnerup to Davison. Finishing second, the team was thus allowed to go to the State competition. Clarkston won their Regionals in 1971.

For the season, Clarkston was 8-2 in league play and 15-3 overall. They finished the season tied with West Bloomfield for first place in the league. In the three matches lost this year, Clarkston was not down by more than two strokes.

The Wayne-Oakland League Tourney was held on Thursday, October 19, and the Wolves finished second to West Bloomfield.

Clarkston's team average for 1972 was 154. Lee Booker was medalist the most number of times, but every member of the team was medalist at least once.

The Wolves golf team has a won-loss record of 44-7 for the last three years and it looks like they could have another great season in 1973.

Clarkston High School's golf team, seventh in state competition, is composed of John Anderson, Don Short, Lee Booker, Cindy Booker, Ken Johnson, and Bruce Soulby. Doug Pierson is coach.

# Harriers sweep Andover

By Roger Zander

The Clarkston Cross Country team took the first seven places from the Andover Barns on October 17 in the Wolves' final dual league meet of the 1972 season. The top seven runners for Clarkston were: (in order of finish) Thor Olafsson, Mike Crosby, Jeff McIlrath, Gary Mason, Brian Carlson, Pat Humphreys, Howard Phelps.

Gerry Adams, one of Clarkston's top cross country runners, missed the last portion of the season when he was hit by shin splints.

In two earlier dual league meets, Clarkston defeated Livonia Clarenceville and lost to Milford. Against Milford, Mike Crosby finished first for the Wolves and second overall with a time of 17:01.

The win over Andover left the Wolves with a league record of 3 wins and 2 defeats. For the season, Clarkston was 4 and 3 in dual meets.

On Saturday, October 14, Clarkston finished 8th out of 16 at the Oxford Invitational. Mike Crosby was the top man for the Wolves with a time of 17:06.

The Cross Country Regionals will be held on October 28 at Grand Blanc.

# JV wins No. 5

By Roger Zander

The Clarkston JV game against the Clarenceville Trojans on Tuesday night was strictly a one-sided affair. The Wolves had no problem scoring against the Trojans during the first half, but things did get slowed down a bit in the second half.

In the first quarter, the Wolves scored on the big break. Jerry Molina ran 85 yards after he intercepted a Trojan pass and the Wolves scored again two minutes later on a 55 yard punt return. With thirty seconds left in the quarter Mike Fogg ran 41 yards to the TD and Mark Wagnon made the only two point conversion of the night.

Jeff Shell threw a short pass to Randy Miller to up the tally to 32 to 0. It was Randy's second touchdown of the game. Shell was quarterback for most of the game, but was helped out by George Porritt and Paul Bredinger. Also in the second quarter, Rick Moshier who started as kicker was replaced by John Fry.

The first half ended with David Kras dashing in for Clarkston's sixth touchdown. There was no scoring in the third quarter.

In the fourth quarter, Chris Beach recovered a Clarenceville fumble and on the next play Steve Klein ran 63 yards to make the final score 44 to 0.

The Trojans' offense was non-existent until the final seconds of the game when they were within 10 yards of the goal line. This was the only chance Clarenceville had to score and the drive

was stopped when Barth Hoopengartner intercepted in the end zone.

The JV Wolves have won five and lost none so far and they look like they're going to finish the season undefeated. The next JV home game is on Tuesday, October 31.

# CJH wins

Last Wednesday evening the Wolverines of Clarkston Junior High defeated Walled Lake Western 18-6.

Coaches Dave McDonald, Larry Sherrill and Dave Bihl all called Wednesday's victory the Wolverines' best game of the season.

Offensively CJH rolled up 290 yards on the ground. Leading the attack were Larry Bennett who picked up 105 yards in the 13 carries, Mike Fahrner with 90 yards in 14 carries, Eric Young with 78 yards in 13 carries, and Wayne Thompson with 26 yards in 5 carries. Bennett, Young, and Thompson accounted for Clarkston's three touchdowns.

Defensively, the Wolverines played their finest game of the season. Receiving special recognition from the coaches were Ron Haggadone and Eric Young for their strong defensive game.

Clarkston's record now stands at 3 wins and 2 losses. Their next game is against Milford next Thursday at Milford High School. Game time is scheduled for 7:00 p.m.

		5 PM TO 11 PM 40%

Discounts also apply to station-to-station calls in areas where direct dialing is not yet available.

# Time to gather nuts

By Philip R. Smith

This is a banner year for walnuts and hickory nuts. A drive in the country in most any area will convince you that we have indeed a heavy crop. It saddens me a little to know that so many of these nuts will go to waste. A lot of people go nutting, and, of course, the squirrels will get their share, but still a lot go begging. If you have not gone after nuts recently, now is a good time. You will be justly rewarded.

Our own native nuts, the black walnuts and hickory, and butternut, if you are lucky enough to locate a tree, have flavors all their own, and are unmatched. Brownies and Waldorf salad are not the same without black walnuts. A hickory nut cake is as rare as a twenty dollar gold piece. The absolute end to all luxury to me is hickory nut cake and home made ice cream, and a fire in the fireplace on a wintry day.

Hickory nuts are easy to process, and butternuts are too. If you let the latter weather out, the hulls pretty much just go away.

But walnuts are something else, but with a bit of planning and doing, it is not a bad job. After the nuts have been gathered, spread them out on the drive way, or any place where there is a reasonably hard surface, and run the car back and forth over them. This will crush the hulls, and the nuts are easy to separate. If you make an enclosure of 2 x 4's, or similar, the nuts are contained while you are running the car over them. If a few get cracked in the process, don't be alarmed. Chances are they are not good nuts anyway.

After the hulls have been removed, hunt up a friend who has a cement mixer, and dump in a couple of buckets of nuts, a couple of buckets of water, and a bucket or so of broken concrete. The pieces of concrete should be egg size or smaller and have nice sharp edges. Then run the mixer for half an hour. This process knocks all the gunk off. Dump them out on the ground, and spray them with the hose. Next put the nuts on some old papers or cardboard, and let them dry. Do not put them in direct sunlight. That is hard on the flavor.

A good way to store the nuts, is to make several frames out of 1" by 3" boards, about 18" long. Staple 1/4" wire screen over one side. The nuts should not be more than two deep in these frames, and they can be stacked on top of one another. The air will circulate thru them, and keep the nuts in good condition. Raise the one next to the floor with bricks or anything else suitable, so the air can get under it. To cover the top of the stack I made a slightly larger frame, and set it on top. This keeps the mice out. Stored in a cool dry place the nuts will keep two or three years.

When you want to crack walnuts, take the nuts you are going to work on the day before, and cover them with a damp burlap bag, or any other wet cloths. Next day they will crack much easier.

The nut meats in a glass jar will keep a year or more in the refrig. Is it worth the effort? I vote yes, emphatically! And it is just great to get out in the country and enjoy the fresh brisk clean air and the beautiful fall colors.

## The independent view

Judy Rosier at 52 East Church has a good idea which she thinks might stop some of the littering in the Clinton River where it flows under Church Street. She'd like to see a trash receptacle placed there to catch some of the pop cans, etc., that students now dispose of in the stream.

Janice Greenacre, a Clarkston Junior High ninth grader, has been informed that her poster for the Sheriff's Department Marine Water Safety Division which won first place in the county now has been accorded a second place in the state. Janice is the daughter of Mr. and Mrs. Walter Greenacre, 7011 Tappon. Janice and the poster appeared in The Clarkston News last February.

A press release tells us John Baker, cat consultant for Litter Green - a cat box filler, will be on hand for the 5th Annual Farmington Cat Fanciers' Show November 4 and 5 at the State Fair Grounds. There'll be at least 200 cats there and John ought to have his boxes full.

Don Gauthier is The Ugly Man around Clarkston High School. He won the Homecoming contest a week ago Tuesday.

Residents on Eastlawn are hoping for a dry Halloween. Unfinished drainage ditches, a result of the sewer construction along the street, are "brim full with water," according to one homeowner. Ingrid Smith is afraid of what could happen if small trick or treaters unwarily fall into one of them.

# Poll shows county citizens favor strict traffic enforcement

Oakland County drivers favor stricter traffic law enforcement, heavier traffic fines, and removal of drivers' licenses, according to a survey completed recently by Market Opinion Research for the Traffic Improvement Association of Oakland County (TIA).

The public opinion poll, conducted among a representative sample of 500 county citizens and 75 police officers, was conducted to measure public attitudes toward TIA's current national demonstration program in traffic law enforcement.

When asked, "What do you think would be the best way to cut down the number of traffic accidents?" half of Oakland County's drivers and three-fourths of police officers named some form of traffic law enforcement.

On the average, Oakland County drivers feel their communities have somewhat too little law enforcement, the study showed. Young drivers, however, do not regard enforcement as important in combating accidents as their elders do, and enforcement officers feel it is less adequate than the general public does.

Those drivers who had recently received traffic tickets looked upon enforcement as favorably as those who had not received tickets.

Since TIA's program "We've Had It With Bad Drivers" includes all links of the

enforcement chain, Oakland County citizens were also queried on their attitudes toward traffic courts.

Given the choice of jail sentences, bigger fines, license removal, or driver improvement schools, two-thirds of county drivers and law enforcement officers favor having judges send violators to driver improvement schools. Drivers were also strongly in favor of removing licenses more often.

While the majority of drivers recommend imposing heavier traffic fines, they are split as to whether judges should hand down more jail sentences.

The 22-page Market Opinion Research analysis also revealed that out of 15 statements concerning traffic safety, Oakland County citizens agreed most strongly with the following three:

\* I want the police to enforce traffic laws even if I have broken one.

\* Driver education courses should be required for all new drivers.

\* Citizen groups should give their traffic authorities more support.

Citizens disagreed most strongly with the following statements:

\* The traffic accident situation is under control here.

\* The police are more out to trap drivers than to do things which would cut down on accidents.

\* Around here the police discriminate unfairly against people driving sports cars.

The survey, which will be repeated in January and again in late 1973, has a sampling error tolerance of +/- 4.5%. This means that if a survey statement reads "50% of drivers agree," the actual proportion who would agree if every driver in Oakland County had been interviewed, lies somewhere between 45.5% and 54.5%.

Commenting on the survey results, TIA's managing director, Bruce B. Madsen, said, "We thought we'd have a really tough job in this program getting

the public to accept increased traffic law enforcement. We were surprised to learn the level of public support that already exists. Hopefully, the future polls will show even more backing for this program."

Madsen said that the program's theme, "We've Had It With Bad Drivers," will reflect the citizens' wish for stricter enforcement throughout the county.

Several of the public's specific wishes, such as increased use of driver improvement schools in court sentencing, are being used now in the program, Madsen said.

## Men in service

section during the month of training in Grafenwohr.

"Over the past 12 months, your son has continued to learn and improve in all military areas; consequently, Pfc. Milkey has been selected to appear before the Soldier of the Month Board."

The lieutenant added that Pfc. Milkey has been recommended for a new job. He's under intensive training to fill the slot of the gunner of the 4th Howitzer Section.

\*\*\*

9869 Norman Road, Springfield Township, was a happy home Saturday, October 14.

Mr. and Mrs. Albert Milkey Sr. of 6990 Andersonville Road have been informed by their son's commanding officer that Pfc. Albert Milkey is an "outstanding young man who is always sharp in appearance and performs his duties in an outstanding manner."

1st Lt. James R. Patrie wrote, "Your son's contributions to the battery have been obvious as shown by his exceptional job performance while at the USAREUR Major Training Area in Grafenwohr, Germany. Your son's hard work and extra attention to detail helped his section win the award for "most rounds in the box," most accurate artillery

Mr. and Mrs. Henry Kerzykowski welcomed home their son, Dan, who was discharged from the navy. Dan was equally as happy, glad to be home, away from the orders and duties that accompany young men serving on the U.S. Carrier "Ranger" stationed in Vietnam.

He plans to catch up on civilian life, listen to the politicians making speeches, go back to his job at Pontiac Motors, and possibly, a little later, continue his education.

Springfield Township says, "Welcome home, Dan."

The first conference in Michigan designed for women with an interest in and a need for a realistic evaluation of their legal rights, responsibilities and possibilities will be Saturday, October 28, at Oakland University. Registrations are being accepted by the University at 377-3272.

\*\*\*

Children are OK is the theme of the annual Conference for Parents and Teachers of Preschool Children November 4 at Oakland University. Parents and teachers may attend sessions designed to explore the art and science of enjoying and enriching the world of the young child. Brochures are available by calling 377-3272.

## Baking substitutes

Halfway through a recipe you realize you don't have one of the necessary ingredients.

What can you do? Michigan State University food specialists suggest that a substitute may save the day.

Some make-do substitutes include:

-For one teaspoon baking powder: ¼ teaspoon soda plus ½ cup buttermilk or sour milk (reduce other liquid by ½ cup).

-For one square unsweetened baking chocolate: three tablespoon cocoa plus one tablespoon butter or margarine.

-For one tablespoon cornstarch: two tablespoons flour or four teaspoons quick-cooking tapioca.

-For one tablespoon flour: ½ tablespoon cornstarch or two teaspoons quick-cooking tapioca.

-For one whole egg, in cooking: two egg yolks.

-For one cup butter: one cup margarine or 7/8 cup shortening plus ½ teaspoon salt or 7/8 cup lard plus ½ teaspoon salt.

-For one cup sifted cake flour: one cup less two tablespoons sifted all-purpose flour.

-For one medium garlic clove: 1/8 teaspoon garlic powder (not garlic salt).

-For one cup sour milk: one tablespoon lemon juice or vinegar plus milk to make one cup; let stand five minutes.

-For one cup honey: 1 ¼ cups sugar plus ¼ cup liquid.

"The Music of Sam Rivers," a concert to be presented in Varner Recital Hall at 8 p.m. Friday, October 27, will highlight the Afro-American Musical Expression Workshop being held at Oakland University this week. Rivers is one of the most versatile jazz artists in the field today. Although he is principally known as a tenor saxophonist, he also plays the soprano sax, bass clarinet, piano, flute and viola and has composed more than 50 pieces.

THE POLLS of said election will be open at 7 o'clock a.m. and will remain open until 8 o'clock p.m. of said day of election.

J. Edwin Glennie, Township Clerk

# On buying a side of beef

With more than 13 million freezers in operation in the United States, it's a sure bet that at least 13 million questions a year are asked about buying meat for the freezer. Should we buy a side or quarter of beef or pork is one of the most popular of all meat questions.

Buying a three to six months supply of meat for the freezer is a very different proposition than buying a weeks supply at the neighborhood grocery store. And if the buyer is not wise to the ways of quantity meat purchases, disappointment may result.

For example, meat in quantity is normally sold by "carcass weight" or "hanging weight". This is an accepted selling practice, but it is one that can be misleading to buyers. Carcass weight is

taken before boning, trimming, shrinking, and other cutting losses are figured. These can run as high as 30% of the total weight although they usually average about 25 percent of the carcass weight. The customer, (you) pays the advertised price per pound for the whole side or quarter, including the portion that ends up on the cutting room floor. If, for example, you buy and pay for a 300 pound side of beef, you'll end up with only about 225 pounds of edible and usable beef cuts.

It pays, too, to know how that total 300 pounds will be divided. An average side of beef yields about one-fourth steaks (of all kinds), one-fourth roasts, one-fourth ground beef and stew meat, and one-fourth waste. When buying in quantity, it is generally true that a whole side of beef is more economical than the front quarter of hind quarter separately, providing, of course, that the family likes all the cuts equally well, such as brisket, shank, short ribs and plate beef. Usually, the hind quarter is priced at 10 to 20 cents more per pound than the front quarter because it contains more quick-cooking cuts and more steaks.

Cutting, wrapping, and freezing costs average about 6 or more cents per pound. A prospective buyer should determine and/or ask whether this cost is included in the advertised price or whether they are going to be additional charges.

It is also prudent to figure storage costs when buying meat in quantity. Home freezers offer homemakers more convenience than economy... a fact that is not to be sneezed at but a fact that must be taken into consideration. It costs 25 cents to hold one pound of food in a freezer for one year. If freezer contents are used and replaced 2½ times per year, the cost of storage are reduced to 11

cents per pound.

Prompt use of frozen meat is desirable not only for reasons of economy but for preservation of quality as well. Beef, wrapped in good quality, moisture-vapor-proof paper and held at 0 degrees, will remain in good condition for nine months to one year. Exceptions are ground beef and stew meat. These should be used up within 4 months. Pork cuts should be used up within 6 months and smoked meats will begin to show quality loss after only 6 to 8 weeks.

Before making a buying decision as important as that represented by a quarter or side of beef or pork, consider the following questions. Can you use all the cuts in a side or quarter to advantage? Can you get the quality meats you like?

Do you have adequate freezer space for the meat as well as other products? Can the meat be cut, trimmed, and packaged to meet your needs? Do you want to invest a sizeable amount of money at one time for beef? Do you know how much and how many cuts you're getting? How many pounds? How large are the cuts?

An alternative to buying a beef side or quarter is to buy selected retail or wholesale cuts when they're featured in your store. This assures you of getting the cuts you prefer and it may be more economical in the long run, especially if you don't really like or use the less familiar cuts. Check the weekly specials at your store, and figure approximate retail comparison costs before you decide.

## DiETING dips

If you like dips and dunkers but your waistline indicates it's time to diet, take a tip from Michigan State University food specialists and try raw vegetable dunkers and mock sour cream dip.

Combine two cups (a one-pint carton) of cream-style cottage cheese, ½ cup buttermilk, ½ teaspoon salt, two tablespoons fresh lemon juice and a dash of pepper. Mix in a blender or with a mixer and serve plain or flavored with dry onion soup, blue cheese or your favorite chip dip flavoring.

Use it as a dip, as a salad dressing, or as a topper on baked potatoes. A quarter cup contains only 41 calories.

TYPEWRITER RIBBON, adding machine tape. Clarkston News, 5 S. Main St.

## Roads, no, fire, yes says club

Editor's note: The Civic Club besides endorsing candidates took the following stands on three local ballot proposals.

\*\*\*

Local Proposal No. 1 requests an increase of one mill for continued fire protection for the next 20 years. A levy of one mill in the township generates between \$60,000 and \$75,000. The money is needed to maintain the fire department and replace equipment. Some of the vehicles currently in service are more than 20 years old. There is no equipment now to fight blazes in multiples. Presently, there are three fire halls. The board has ordered more sites be acquired for future buildings. Since the township is required by law to maintain the department, funds to do so must come from somewhere. If not a millage, then they will be taken from the general fund. The club urged a "yes" vote on this proposal.

The second proposition asks a one mill tax increase for four years for highway improvement, construction, and maintenance. The dollars generated would be matched one-for-one by the county. There is no plan at present for

which secondary roads would be surfaced. Over the four-year period, 4.4 miles could be paved with the revenue anticipated. Opponents argue this is but a "drop in the bucket" and could lead eventually to destroying the rural character of the Township. The club recommended a "no" vote.

Proposal No. 3 is in the nature of a referendum, asking whether the township should purchase land for new offices near its geographic center. This would be somewhere around the intersection of Sashabaw and Clarkston-Orion Roads. Proponents argue the present township hall is grossly inadequate in terms of space and has been labeled a "fire trap." Parking is inadequate and there is no room for expansion. Land prices will only be going higher in the future.

Those opposed feel the township offices are an asset to the village in terms of accessibility and nearness to Main Street businesses. Further, no specific parcel of land has been designated, while approval grants the board carte blanche to purchase a site.

The club felt both arguments had validity and made no recommendation either pro or con.
