Young salesmen 'hit the road'

Twenty-six young salesmen have "hit the road" selling subscriptions to The Clarkston News, in the hope of winning a miniature Model T or one of 53 other prizes which will be awarded at the end of the six-week contest.

The Clarkston News is now the official government voice of Independence and Springfield Townships and the Village of Clarkston. School information, for which the paper recently won two state awards, entertainment and news about the people who live in those areas are also available to residents for \$5 a year.

Our list of young salesmen, aged 11-14, includes:

- Jerry Brewer, 4795 Crestview
- Ben Pearson, 5421 Whipple Lake Road
- Larry Wright, 6302 Church
- Shannon Holder, 11 Buffalo
- Charles Beyers, 6051 Middle Lake Road
- Robert Bray, 9375 Pine Knob Road
- Gerry Lacey, 12080 Clark Road, Davisburg
- Mark Landry, 5086 Oneida
- Rose Marie Becker, 7122 Buttercup
- Kevin Fetter, 6549 Northview
- Tim Birtsas, 43 Robertson Court
- Mary Rosano, 107 North Main
- Scott Parker, 24 South Holcomb
- Lisa Giegler, 6950 West Church
- Liisa Vaara, 6932 West Church
- Louie Warren, 6266 Simler Drive
- Leslie Smith, 6644 Plum Drive
- Kelley Smith, 6644 Plum Drive
- Rebecca Cruickshank, 6610 Transparent

Brian Centers, 4861 Clarkston Road
James Thomas, 8693 Andersonville Road

Robert Morse, 6808 Snowapple
Jeannine Dancy, 6609 Shelly
Terry Pfeiffer, 6325 Waldon
Elaine Johnson, 6085 Middle Lake
Phillip Roughton, 9584 Syracuse

If you've been thinking about subscribing, give one of our salesmen a call. Only new subscriptions count in the contest, not renewals.

Publisher Jim Sherman took Main Street by storm last Tuesday in the miniature Model T which The Clarkston News will award some lucky youngster in a giant subscription contest.

By Jim Sherman

In compiling a list of some things that made news in Oxford over the past 18 years, fires turn up too many times.

One of them, the one that took from 4 to 9 businesses depending on

whether you believe the local weeklies of the metropolitan dailies came January 31, 1966.

As I mulled that over in my mind an incident came back that has never been previously reported.

We had a woman working for us at the Leader who lived about 6 miles east of town. Her name is Frances Thayer. A couple years ago she, her husband and family sold out here and moved to Iowa where Claude Thayer began studying the ministry. I'm not good at guessing ages, but both were past 30.

It was not an easy decision for them to make, but they did it. And, this decision gives some background to what I'm about to tell you.

The fire started at 2:16 a.m., 5 stores north of the former Leader building on S. Washington street. Most of you recall it. The stubborn blaze crept south, helped by wind, devouring one building after another in the night.

From as soon as the firemen could start pouring water until 8:00 a.m. the fire continued uncontrolled.

As I said, Mrs. Thayer lived out in the country. She wasn't aware of the fire until she was getting ready to come to work at 8:00. She had learned enough about it by then to realize she couldn't help evacuate or whatever.

She told me later, "I knew there wasn't anything I could do to help in town, so I prayed that the Leader would be spared."

She began praying at 8 o'clock. At 8 o'clock the wind shifted from the north. At 8 o'clock enough firemen with hoses gathered along the roof of the building north of us to make it appear a waterfall was coming down the side of the building.

At 8:10, the fire was under control.

Wise guys will say, "That's the only thing that's kept your lousy rag

alive for years is a prayer." Or, "The only thing you have going for you is a prayer."

Others will blame Mrs. Thayer as they have firemen for not letting the Leader burn.

After attending a couple meetings recently where speakers took considerable time, mine, repeating themselves and belaboring points, I was reminded of an item Dick Brown had in his "Barbs, praise and consequences" column in the Ingham County News.

"If you want to be seen, stand up. If you want to be heard, speak up. If you want to be appreciated, shut up."

One editor defines the "los generation" as anyone over 31 whose wife won't let him go to X-rated movies and who cannot understand the mumbled words of today's musical groups.

School Bell awards presented to Clarkston News

Paper drive May 5

Boy Scout Troop 126 will conduct its annual paper drive May 5 at Clarkston United Methodist Church.

Pickup service for accumulated papers is available by calling John Priebe, 625-4270 or Harold Sutherland, 625-3356.

Larry Rosso, president of the Clarkston Education Association, (left) was present as Clarkston News Editor Jean Saile received a Michigan School Bell from Jimmy Launce, WJR radio personality, Friday in Port Huron. The Clarkston News and Mrs. Saile each won an award in the annual state-wide Michigan Education Association award ceremony.

The Clarkston News and its editor, Jean Saile, were awarded Michigan School Bells Friday for "outstanding contributions to community understanding of education."

The presentations were made at a special Friday luncheon during the Michigan Education Association's annual representative assembly at McMorran Center in Port Huron.

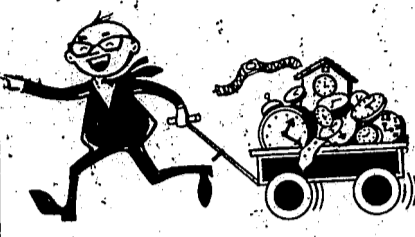

Engraved brass bells with black wooden handles, replicas of the old-fashioned bell that stood on the classroom teacher's desk, and plaques were presented by Jimmy Launce, WJR radio personality.

Six daily and 17 weekly newspapers were cited for their "strong and comprehensive year-around coverage of public education."

Seven special awards were presented to writers and producers for their coverage of developments or other contributions to education.

Nominations of The Clarkston News and Mrs. Saile were made by officials of the Clarkston Education Association.

Apartments on Waldon Road ok'd

Developer Gerald Anderson and the Independence Township Board have agreed upon a "consent judgment" to be entered in the court case involving

his proposed condominium development on Waldon Road at the end of Almond Lane.

Anderson has made certain compromises which the attorney for Clarkston Gardens Homeowners Association has agreed to in the four-year long fight, which involved zoning approval, a referendum, a court suit, rezoning and finally settlement.

He proposes 104 units in groups of four on the 17.33 acres.

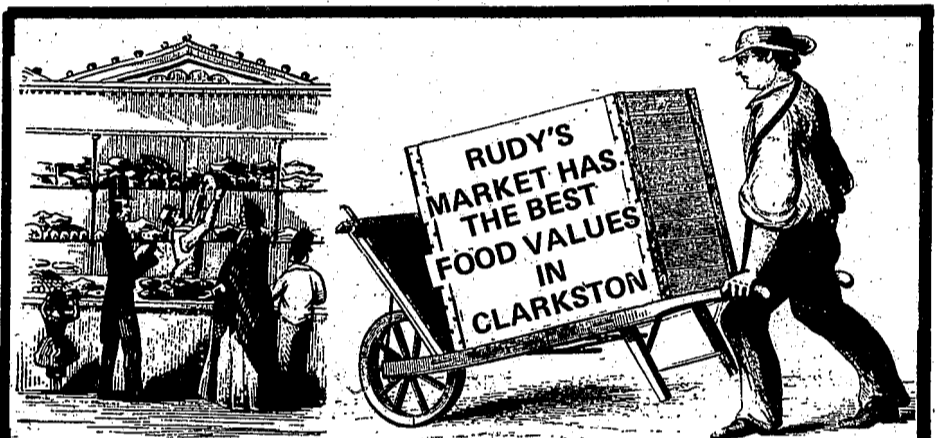

As Supervisor Robert Vandermark remarked, "It appears the parties have entered into an agreement which neither the developer nor the homeowners are entirely happy with. That's not all bad."

He continued, "The proposed development appears to be higher in value than the exciting homes in the area. I'm not really in favor of a lot of multiple, but a lot of the goals of the homeowners have been achieved."

Planning group denies rezoning for Deer Lake

A turndown to Developer Hugh Garner and his plans for rezoning 271 acres to permit the construction of apartments at the north end of Deer Lake has been delivered by the Independence Township Planning Commission.

All seven members present at the meeting last Thursday voted in accord with Chairman Mel Vaara's motion to deny the rezoning on the basis that it is inconsistent with the township's overall development plan; because of the non-availability of public services; and because of its "adverse effect" on the health, welfare and safety of the community.

Loud applause greeted the board's vote taken at the end of a hearing which gave both developers and their detractors a chance to present information.

The commission decision was in line with recommendations of Township Planner Larry Burkhart. He said results of an environmental impact study ordered March 8 in respect to development of another 43 acres already zoned multiple which Garner controls in the area should be awaited.

He noted also the pending overhaul of the township general development plan, the effect of the development on roads such as Bluegrass, Miller and Holcomb, the need for sewers to serve the area, the adverse feelings of nearby residents, the desire to preserve the natural features of the area, and the effects of increased density on the schools, traffic and the life of Deer Lake.

Developers reportedly told the commission officials they would be presenting the plans to the Oakland County Planning Department and to the Independence Township Board within the near future.

Plans were presented again last week for 1,450 living units including 130 single family lots on 70 residentially zoned acres behind St. Daniel's Church plus 1,320 rental units on a total of 271 acres, and a commercial area on 16 acres at the Dixie and I-75.

PSB branch to be erected at Pine Knob Plaza

The Michigan Department of Commerce has approved the application of Pontiac State Bank to build a branch north of Foodtown in the Pine Knob Shopping Plaza at Sashabaw and Maybee roads.

President Ed Barker said, "Independence Township is an important customer area for Pontiac State Bank. We expect our new Pine Knob branch will let us provide improved service to our present customers and also enable us to serve a larger group of new customers which will develop from the project population growth of this area."

Construction of the new branch is expected to start May 1 with completion due October. To offer a full line of banking service, the facility will be equipped with two drive-in windows.

Pontiac State Bank presently has branches in Clarkston and Drayton Plains.

CEA break-in

Michigan State Police are investigating the break-in Wednesday night or Thursday morning of the Clarkston Education Association offices at 29 South Main.

Entry was reportedly gained through a rear window in the second-floor office. Missing items reported included an IBM dictating machine, a calculator and an adding machine.

Multiple construction would be kept largely to the ridges along I-75 allowing lake frontage on Deer and Lost Lakes to be kept as open space, developers said.

Victor Shrem, the developer's planning consultant, told the audience of nearly 100 that single family development in the area would engender the flattening of land and the destruction of most of the trees. He said 800 single family homes on 15,000 square foot lots could be accommodated and he pointed out the need for more roads to serve them than would be necessary with apartments.

The roads are still planed — two off Holcomb and one off the Dixie Highway through the proposed commercial area.

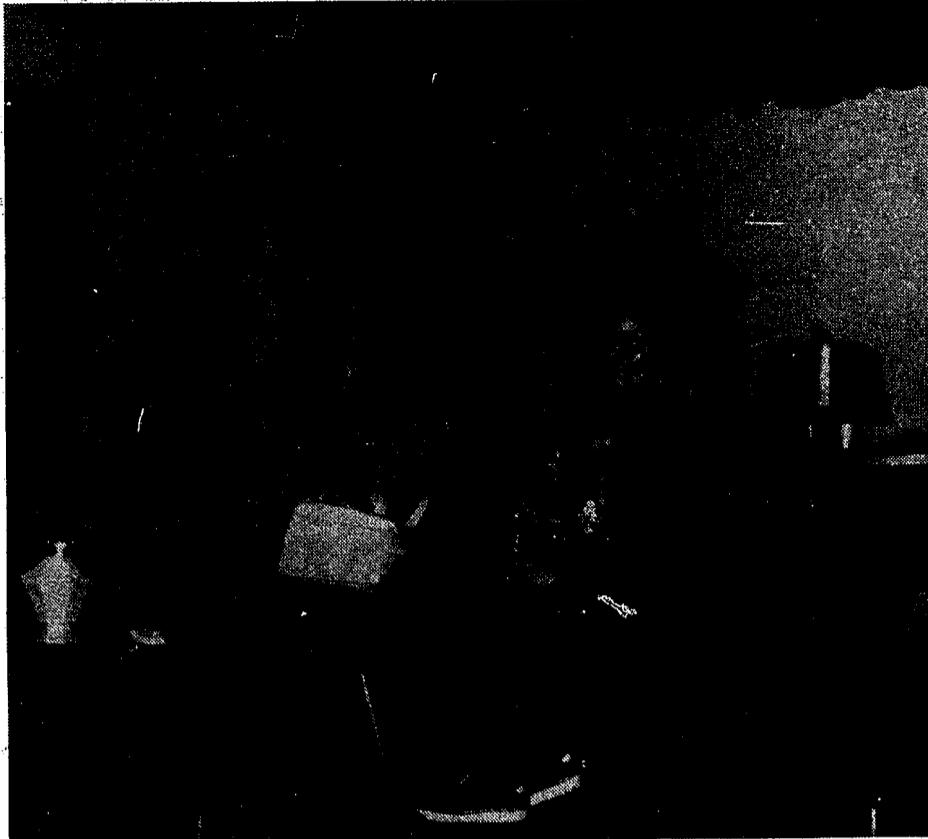

The land proposed for rezoning is currently zoned suburban farms and agriculture.

Objections and questions from the audience involved lake access for the new residents (there won't be any Shrem said), the possible depletion of ground water supplies and its effect on the springs which feed the lake (the first of two wells necessary is across the lake from the springs and shouldn't have any adverse effect), traffic, increasing crime as the population increases, and increasing taxes.

Also cited was the short life span of apartments, and the sewer plan which under the township's first phase would be able to serve only those homes on the hillside next to Holcomb.

Supervisor Robert Vandermark presented a letter which he said he had sent to the developer stating, "About 90 percent of the property in your currently proposed development, including all of the 43 acres now zoned multiple, lies in the Deer Lake sewer district. This parcel comprises about one-half of the whole Deer Lake sewer district. It is intended in the masterplan for the sewers, that this district be served by the trunkline that will be constructed down White Lake Road at some future date. There is no abutting sewer to your property that is designed to serve the project that you are proposing."

A "complaint" containing 171 names of people "asking that multiple dwellings not be permitted around the lake" was submitted to the commission.

Clarkston Village Players John Witherup (from left), Joyce Little, Tammy Hughson and Doris Libstaff, the cast of "The Last of the Red Hot Lovers", prepare for opening night at 8:30 p.m. Friday, April 27, at the Depot on White Lake Road. The play is directed by Jean Hendricks and pronounced by Ray Welch. As part of the opening night program, the Dropped Chords Barbershop Quartet will sing and a champagne afterglow will be held. The play will be presented also at 8:30 p.m. April 28, May 4, 5, 11 and 12.

Evely, King free on bond

Examination of Michael King, 21, 5980 Lakewood, and Ronald Evely, 19, 5940 Pinehurst, was continued Monday in Clarkston District Court following their apprehension at 3:24 a.m. Thursday in Clarkston Board of Education offices.

The two were arrested when the school district's new alarm system signaled a break-in at board offices, located on Clarkston-Orion Road, according to the Oakland County Sheriff's Department.

Sheriff's Detective Lt. James Heilgental said the two had been required

to post \$2,500 bond each. They are charged with breaking and entering, having allegedly entered the board offices through a smashed window.

Assistant Superintendent Milford Mason said nothing had been taken, but the offices had been rifled. "we keep no large sums of money here," Mason said.

Flea market

Clarkston Area Jaycees will conduct a flea market from 9 a.m. to 4 p.m. Saturday, April 28 in the vacant lot at Main and Washington, Clarkston. Space is available for rent. Proceeds will benefit the many Jaycee community projects.

First step in County Home Rule has ok

A county home rule bill, providing either for election, appointment or status quo of county executives, has cleared the State Senate and should be headed for House action within the next couple of weeks, according to Barry McGuire, executive director of the Michigan Association of Counties.

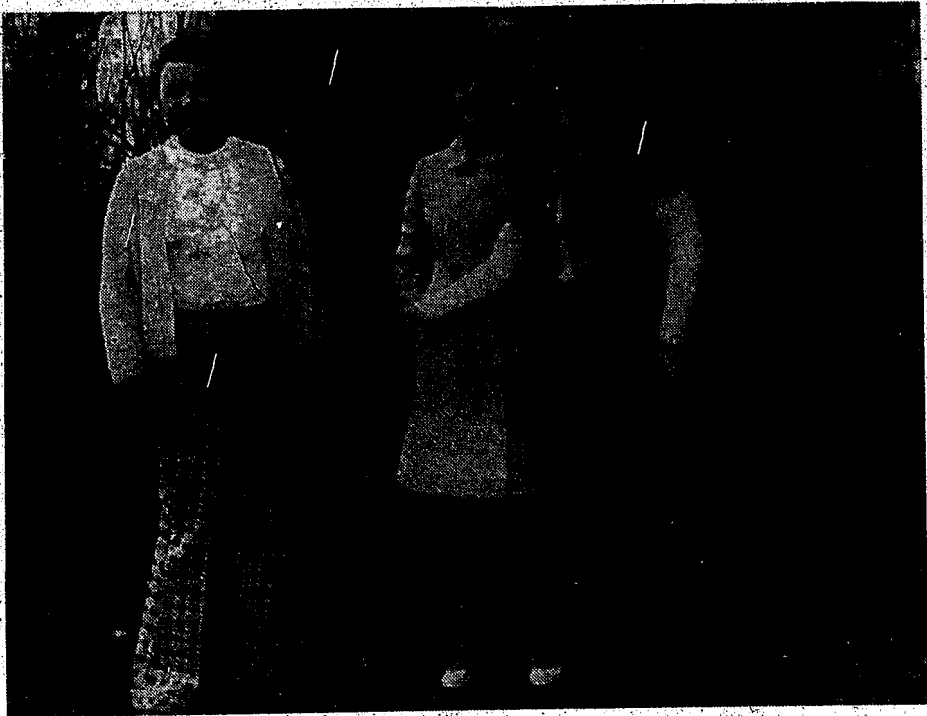

Calling the bill "a first step toward the ultimate goal of giving the counties some power," McGuire reported that it does not affect village, township or city powers within the counties.

"It gives the county executive some control over budgeting of the various county departments, and consolidates some commissions of the stature of the Veteran's Commission. it does not affect the Road Commission, Drain Commission, Parks and Recreation Commission, or the Sheriff's Department," McGuire said.

The bill does provide for election of a charter commission on a one-man, one-vote basis, McGuire added.

Nancy Gruenberg (from left), Janet Thomas, sales chairman, and Elsie O'Neil, club listings chairman, are thinking timely thoughts as Clarkston Community Women's Club 17th annual calendar sale gets underway. The calendars, which sell for \$1 with an additional 25 cents for each birthday and anniversary listing, help raise money for Independence Township Library. The calendars also include information regarding club meetings and sports events. Last year more than \$1,000 was turned over to the library for book purchase and other improvements.

The 150 Radiant Flowering Crab Trees ordered by Clarkston Garden Club are going fast. The trees, potted and ready to plant, are offered at \$6.50 each or two for \$12 and are available by calling 625-5126 or 625-3160. They'll also be on sale at 9 a.m. Saturday at Rudy's Market. Kaki Whitmer (from left), Val Wagnon and Nancy Prucher check out the merchandise.

"People helping people help themselves"

By Holly Stephens

"LAST OF THE RED HOT LOVERS"—a Neil Simon play, will be presented in a benefit performance for independence center, by the Clarkston Village Players.

Tickets for the May 2 evening presentation will go on sale today at \$3. Anyone wishing to attend may purchase a ticket in advance at the center or at the Depot Theater the night of the performance.

FAMILY AND CHILD SERVICES of Oakland County is one of the agencies that has a representative available at independence center each week.

The agency's programs include child care and foster care, work with families with marriage, parent-child or adolescent problems, counseling services to alcoholics and their families and post-hospitalization services for patients discharged from Pontiac State

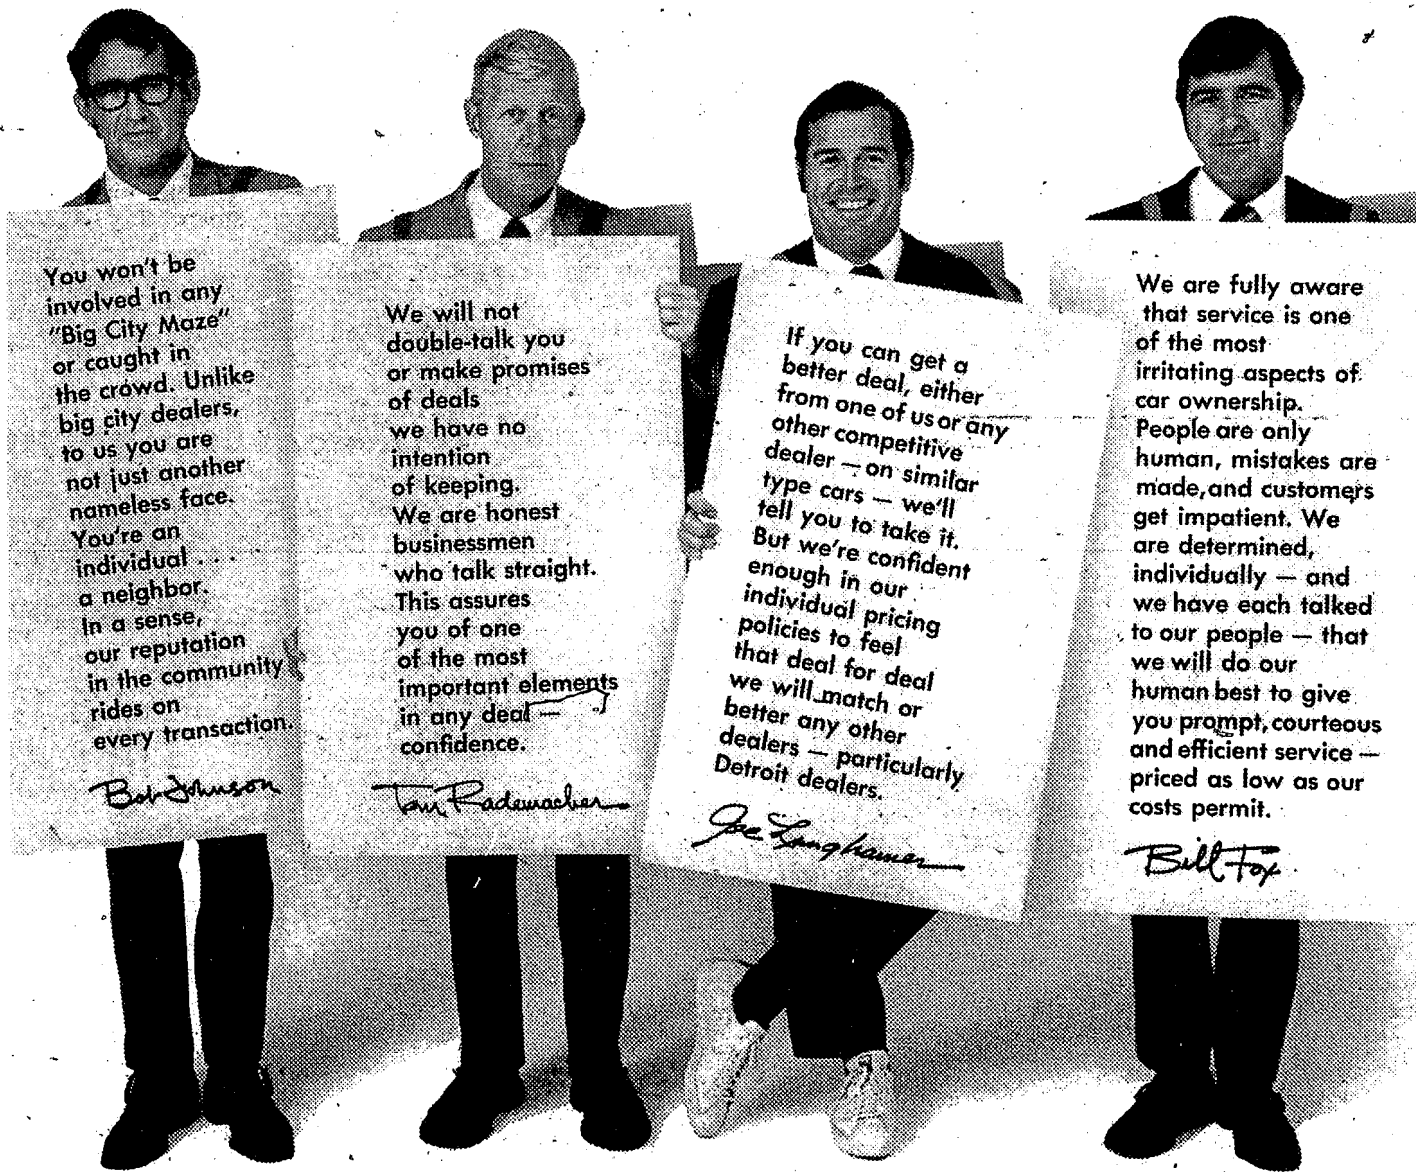

Hospital.

This counseling is available by appointment and fees are based on family income.

CENTER NEEDS—There are many calls received at the center each week for furniture for needy families. At present there are no beds available for distribution. Anyone having a used mattress or bed frame to donate may call the center.

We think you ought to know who you're dealing with.

You won't be involved in any "Big City Maze" or caught in the crowd. Unlike big city dealers, to us you are not just another nameless face. You're an individual... a neighbor. In a sense, our reputation in the community rides on every transaction.

Bob Johnson

We will not double-talk you or make promises of deals we have no intention of keeping. We are honest businessmen who talk straight. This assures you of one of the most important elements in any deal—confidence.

Tom Rademacher

If you can get a better deal, either from one of us or any other competitive dealer — on similar type cars — we'll tell you to take it. But we're confident enough in our individual pricing policies to feel that deal for deal we will match or better any other dealers — particularly Detroit dealers.

Joe Langhammer

We are fully aware that service is one of the most irritating aspects of car ownership. People are only human, mistakes are made, and customers get impatient. We are determined, individually — and we have each talked to our people — that we will do our human best to give you prompt, courteous and efficient service — priced as low as our costs permit.

Bill Fox

A car is most likely the second most important dollar purchase you can make. That's why we think people ought to know who they're dealing with before that decision is made. And that's also why we want you to know us by name and

to recognize us for the way we run our business. And the way we keep our promises.

Come on in. And shake hands with the guys who want you to keep coming back as customers. And as friends, too.

Robert Jones Sr. honored at retirement party

Robert L. Jones Sr. was the surprised guest of honor at a retirement party for him March 22 in Palm Beach, Florida, where he was vacationing this winter.

Due to a heart attack March 30, 1972, and subsequent open heart surgery and a stint of serum hepatitis, his retirement party had to be postponed until his health permitted it.

A delegation of directors of the Pontiac State Bank and their wives flew to Florida to honor Bob for his 41 years with the Clarkston State Bank and Pontiac State Bank.

Edward E. Barker, Jr., president of Pontiac State Bank, presented him with a metal plaque, upon which was a picture of the Clarkston Branch, Pontiac State Bank; he and his wife Uldene, his antique car and the following inscription:

ROBERT L. JONES at the early age of 59, blessed with a young and attractive bride, has in his forty-first year of banking and his thirty-seventh year of partnership with Uldene, elected to retire from his profession and devote full time to his partnership.

From a purely selfish standpoint in the interests of the Pontiac State Bank, the Board of Directors regrets his decision. His professional banking history is one of constructive contribution, combined with the projection to his employees, associates, and custo-

mers of a friend who cares about each one of them.

His career has been highlighted by his rise to Chief Executive of the Clarkston State Bank, principal negotiator on behalf of his shareholders in the exchange for Pontiac State Bank stock, principal senior officer and conciliator in the necessarily trying days of reality which follow a merger, and senior officer of the larger bank at our main office where he took his skills with enthusiasm for the bank's benefit.

From a more objective standpoint, the Board cannot quarrel with his intelligent election to devote full time to his partnership. With a mixture of gratitude and affection, we individually and collectively wish Bob and "Ule" every blessing over the many years ahead of them.

Signed
Board of Directors
Pontiac State Bank

Enlarged furniture store plans approved

An enlarged and modernized Clarkston Furniture and Appliance Co., to be known as Deron's of Clarkston with branches also in Rochester and Keatington, was announced by Ron Sandage at last week's Independence Township Planning Commission.

The commission gave him site plan approval to add 6,000 square feet for a total of 14,000 square feet in the store. A waterfall will be featured in a new entrance and the exterior of the building is being changed to include a Mansard roof line, Sandage said.

The business, which has been located in Clarkston almost 10 years, will add Frigidaire, KitchenAid, La-z-boy, Kroehler, Lane and Tell City to its present line of merchandise.

Construction should start the first of May, Sandage said.

White cane week

The White Cane, symbolic of public concern for the visually handicapped, again will be the standard of the Lions Clubs of Michigan during White Cane Week, April 23-30. Contributions will be used to support the Leader Dog School for the Blind, a Welcome Home for the blind built to fill the needs of the aged sightless, and the Michigan Lions Eye Bank.

Mrs. Biondi honored

Joseph C. Bird Chapter No. 294, Order of the Eastern Star, will meet for Friendship and Oakland County Officers' Night at 8 p.m. Saturday, April 21 at the Davisburg Masonic Temple.

Mrs. Homer Biondi will be honored at a 7 p.m. reception. She is Oakland County Chaplain and a past matron of the Joseph C. Bird Chapter.

Entertainment and refreshments will follow the meeting.

Soil district dinner

Oakland County Soil Conservation District will have its annual banquet at 7:30 p.m. April 30 at Clarkston United Methodist Church.

Rt. Rev. Monsignor Hugh Beahan of Grand Rapids will speak. Directors will be elected. Those nominated include Bill Erwin, Robert Losh, Robert Ousnamer and Clare Voorheis. Mrs. Helen Willis was nominated to fill the vacant one-year term of Henry Axford who has moved.

Dermatitis

Some of the most common causes of skin inflammation (dermatitis) are the dusts, liquids and fumes with which workers come in regular contact.

These conditions can occur so often as to be nicknamed according to the job; "plater's itch" or "nickel rash," for example. Oils and cutting compounds used in operating screw machines and lathes can produce "oil boils." This results from oil accumulating in the pores and hair follicles, with infection developing.

Lime, cement, soda ash, plastics and various powdered chemicals can cause problems, if not handled properly. Fumes from soldering operations or from solvents and acids, sometimes cause dermatitis of the face, arms and other exposed skin.

These forms of dermatitis usually appear as small pimples or water blisters, or a general redness of the skin.

Most of the problems can be prevented by using industrial-type cleaners made to remove the specific substance encountered by the worker. Avoid using degreasers meant for machine parts, such as kerosene and naphtha, to remove grease from the skin. Such solvents can, in themselves, cause dermatitis.

Washing the hands every few minutes is not usually necessary and could cause drying of the skin. However, if known irritants are handled, they should be removed as soon and as often as possible.

Books reflect life

It seems to us the Clarkston Board of Education has taken the proper approach in a study of "objectionable" books now available on school library shelves.

Two of the members, at least, have promised a reading of the books, and a deliberate approach to the matter has been initiated.

We go further—to the point of hoping that these books will be allowed to remain on the shelves. Choice of words and subject material may be objectionable in the minds of many, but so if life in some instances.

We do our children no favor when we shelter them to the point that they do not know how people outside our small and even insulated community believe and react to events proceeding around them.

It is probably true that some who read the books may do it for vicarious pleasure, but if it's those kind of thrills they're hunting for, there are the same sort available in the Old Testament.

Life in many areas of our society is not pretty. Good leadership in the future will depend on understanding of that fact. Books are one way of achieving it.

Argument for fluoride

The improvement in children's dental health in Toledo, Ohio, and parents' savings in dental bills in the ten years of fluoridation were documented recently by the Toledo Dental Dispensary.

A dental society committee calculated the estimated dollar savings by using current average teeth and applying them to the rate of decayed, missing and filled teeth for children from 1955 through 1965.

Dr. Richard Draheim announced that savings of at least \$29.08 per year per child in the second and third grades can be attributed to fluoridation. The total savings in dental bills for these children was estimated to be \$481,093.

"The total savings for all children under 18 years of age would be much more than this," he said, "but we have insufficient data for the other age groups to develop a true cost saving."

In 1955, children in second or third grade averaged nearly seven teeth decayed, missing or filled, compared to slightly more than three DMF teeth for their counterparts in 1965.

Improvement in children's dental health was also documented by the records of the general anesthetic clinic operated by the Toledo Dental Dispensary. This was a "weekly event because of the multiple extractions that some children needed," said Marie B. Fox, executive secretary.

With the initiation fluoridation in 1955, the number of children requiring extractions under general anesthetic began to drop. From 1949-53, 1,863 children were treated under general anesthetic and a total of 5,431 primary teeth were extracted. During 1964, 94 children were treated with 710 teeth extracted.

During 1966, when children aged ten would have had lifetime benefits of fluoridation, 12 children were treated under general anesthetic and 614 primary teeth were extracted. In 1968, no children received general anesthetic and 280 teeth were extracted.

Miss Fox called the decrease in extractions "positive proof" of the benefits of fluoridation.

hill 'n gully

"The olden days"

by Jean Saile

There's a contest going on at Clarkston High School which involves guessing the number of jelly beans in a jar.

The prize is a free school lunch and students being what they are and school lunches being what they are, the word was going around last week to try not to win it.

It's a sign of spring; and it started some of us reminiscing in the office about what we used to do when it was spring, way back when.

Gary Page, the insurance man who was a typesetter back in the days when I first knew him, volunteered he'd recently turned out a couple of homemade kites and wowed the neighborhood kids.

"Used to do it all the time," Gary said.

That started Donna Farner thinking about the rubber guns, made of wood and a strip of rubber tire, that the boys used to fashion and use.

I remembered willow whistles which I used to try to carve and would up prevailing on someone else to carve. Not only did they sound good, they tasted ok.

Gary got to remembering homemade slingshots and the swell ammunition made from green grapes swiped from a neighbor's yard.

"Those commando pictures on TV are nothin' compared to what we went through to get the grapes," Gary remembers.

Scrub was a baseball game played by as many as two to 15 players. Some kids we let have four strikes. Some had to bat lefthanded. They were too good, otherwise.

Mumblety peg was another spring game. Jack knives were the pieces and a big circle scratched in the dirt

the playing field.

Spring brought on a whole set of outdoor games — Pom-Pom Pull-away, Kick the Can, Red Rover, Hide and Seek; and we played them until we were well into the junior high age.

There were also quieter delights—swinging, lying on a hill watching the clouds, making whistles out of grass blades, and starting flood control projects in the spring mud until we had a system of canals, dykes and dams over much of the school yard.

Times change, but every once in a while I catch the Saile kids expressing interest in something we did in the olden days and it's a good feeling.

"If It Fitz . . ."

Storefront reporters

By Jim Fitzgerald

And then I wrote . . .
TV is full of shows about lawyers who work for free and doctors who make house calls to neighboring countries on Hondas after midnight. But whatever happened to the brash reporter with the flask of gold who used to save the world while wearing a hat with the brim turned up?

The newspaper profession is obviously being ignored by TV producers. Something should be done about it and I am just the clown to do it.

My show will be called "The Young Storefront Reporters." My 3 reporters are a Negro woman, a male Indian teenager, and another young man whose nationality cannot be immediately determined because of all the hair hanging in his face. He is my wild-card character. At any time during the series he can

get a haircut and reveal himself to be a Jew or an Arab or a Viet Cong or even a conservative Republican, whatever seems politically expedient at the time.

These 3 reporters work for a wise, kindly, older (but still sexy!) editor who has ink in his veins. This was discovered during World War 2 and he was thrown out of a Red Cross blood bank on his ear.

This wise editor knows everything but he does not force his will upon young Indian, Negro and Wild Card. He lets them make their own decisions and go their own way, as long as they report back to him 1 minute before each commercial.

"It's the only way," the wise editor explains. "These youngsters must have their freedom to do their thing. And

besides, this way they do all the work."

I will play the part of the wise old editor.

A typical plot might concern this young girl who comes into the newspaper office to buy a year's subscription. But it costs \$5 and she has only \$3.

This is a young person with a problem! Indian, Negro and Wild Card leap to her assistance. They really do leap, right over the subscription counter, knocking their wise, kindly editor flat on his ink-stained pants.

Besides being \$2 short, the subscriptionless girl also has some minor problems. She's pregnant and unwed. She's on heroin and has VD. She ran away from home 4 years ago and her millionaire parents have not yet noticed she is gone. They have been too busy selling

Establishment taffy at the PTA Fair.

And there's a busted string on her guitar.

It would spoil things if I told you how Indian and Negro and Wild Card solve this girl's problems. But you can be sure they get the job done before the wise old editor is back on his ink-stained feet. For details, watch your TV listings.

However, to keep you eager, I will let you in on the ending. Most of the doctor-lawyer shows end with the heroes running down a street. But no one ever knows why they are running. On my show, you'll know.

Indian and Negro and Wild Card are running after a Red Cross bloodmobile which, by mistake, has accepted some of the editor's blood.

Letters to the Editor

Book defender

To the Editor:

Rape! We are being raped by another set of self proclaimed narrow minded bigots who are attempting to operate under the guise of censorship. Again the cry echoes forth that we are allowing "dirty books" in the pristine halls of the schools. But, Lo, a Messiah comes forth to save our children from these "Bad" books.

Under what guise does Mr. Smalley set himself up as an expert on what constitutes good "MODES" of writing? Does he have any reliable credentials pertaining to American literature or is the dubious influence of an ex-N.A.G. chairman enough to set off a book burning in Clarkston?

I would consider the recommendation of the Standard Book Catalog to have more weight and influence than an individual who considers himself the

self appointed "Savior" of Clarkston Schools. If Mr. Smalley is so concerned about books why does he not check the publication dates on some of the text books in use every day, 1952 to be exact.

I consider the attack on Black authors a slap in the face to the Civil Rights Amendment and an unwarranted attempt to circumvent the 1st Amendment of the Constitution.

If we are keeping score as to the number of times a book is used we better get rid of the Bible in the Junior High School, it has been used 16 times since it was purchased.

I, for one, intend to be at the next Board meeting May 14, to hear if any further denunciation of the established criteria for selection of reading material is forthcoming.

James F. Peters
3723 Maiden

Anne Cohen, and her shaggy French Briard sheepdog are making plans to attend the north Oaks Kennel Club's all-breed and obedience Fun Match April 29 at the Flying M Ranch on Honert Road near Ortonville. Entry is \$2 per dog. People get in free. Further information is available at 625-5330.

Mother's had it!

by Marilyn Lawrence

My dear husband,

Since that fateful day, five weeks, four days and twenty-two hours ago, when you announced that you were leaving the world of Commerce and Finance in order to run your business from the house, I knew that the good life was over. I know I said I wished you could spend more time at home, but this is ridiculous!

I have lost my sense of humor and gained eight pounds. I have cooked 120 gourmet meals for you, answered 492 phone calls, watched 36 old John Wayne movies, run your errands, and have played innumerable Montovani records (and "Victory at Sea" six times).

Your business may be prospering, but your marriage is in a definite decline.

My hands shake, I grind my teeth in my sleep, and am having anxiety attacks in the form of stomach pains. If it turns into an ulcer, and I have to give up martinis and go on baby food, you will never hear the end of it, my love. I am going home to Mother, if only

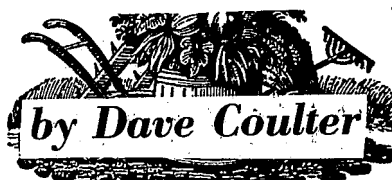

for the afternoon. There I hope to find a couple of hours of peace, and a whole bunch of sympathy. I won't, because she always liked you better. Maybe I should go home to YOUR mother in Schenectady.

I leave you the children, and a fish defrosting in the oven so the cats don't get it. Answer your own phone, scrounge up something for lunch, and I'll see you at five, if I don't run off with a mandolin salesman in the meantime.

Your loving wife
P.S. Even Lent only lasts forty days!
Dear Jeff,

I realize that you are going to Officer's Candidate School for CAP this weekend, but I cannot fill your request to starch your fatigues until they stand up by themselves. I sent them to the laundry, and they didn't like the idea much either. Most of the clothes I find under your bed can stand by themselves anyway. I also picked up the cleaning supplies you requested. I'm sure your barracks at OCS will be spotless, your windows will shine, and your freshly pressed uniforms will hang at two-inch

Home Gardening

The previous columns have given the readers information regarding your garden site, seedbed preparation and the space requirements of the various crops you select to grow. The next step in your garden plan is to draw a plan of the garden as you expect to plant it.

Experience dictates that if you plan to grow sweet corn it is advisable to plant it in rows that run north and south because corn depends on windward pollination. Each embryo corn kernel requires two pollen grains to fertilize it and if the embryos aren't fertilized by pollen the kernels will "blisters" rather than edible kernels. It is also advisable to plant corn on the Eastern side of the garden so it will not shade the other sun loving plants. It is also recommended that you plant your sweet corn in a block of rows rather than in a row or two for the obvious pollination reasons.

Now that you have made these decisions, draw a scale map of your garden area, utilizing the recommended row spacings you may excerpt from the chart in last week's column. Keep the plan until all of the garden is planted. You may want to plant various species that respond best at early or late planting dates and it's difficult to retain proper row spacings if all of the garden's rows are "marked" and made too early because the marked rows may well erode away prior to planting. If you have a map of your garden plan you may always refer to it and remark the rows.

I've seen inexperienced gardeners plant their garden and the rows were at best squiggles. To lay out your garden you need: a yard stick or a measuring tape to determine row spacings, and a strong non-elastic cord. I've found that a discarded mopstick or broomstick, cut in half and pointed at one end makes an excellent reel for the marking cord.

Generally such sticks are strong enough to be driven deeply into the ground at each end of the garden when the rows are marked. Lastly, a light hoe is needed. You may use the blade end of the hoe to mark the rows for large seed and transplants and the end of the

handle to mark the rows for small seed, like carrots. When you mark your rows, line up the first row, so that it is at least two feet from the garden's edge and drive the reels holding the marking cord deeply so that the cord is very taut. Then mark the soil at whatever row spacings are desired, being certain that the rows are equally spaced at each end of the garden; then drive the marking reels at each end of the garden and keeping the cord very taut, mark the rows and always mark on the same side of the marking cord.

Tip! As any housewife who knows her onions knows, dry onions are scarce and very expensive! The supply of onion sets isn't abundant either. If you can, buy them early and refrigerate 'til planting time.

Ruth Purslow, principal at Clarkston Elementary School more than 20 years, turns earth on a red maple planted in her honor Friday by students, PTA, teachers and Board of Education administrators at the school. The whole school turned out for the Friday the 13th ceremony.

intervals in your locker. However, your room here at home could stand some looking into. I passed it the other day, and got the definite impression that you have been concealing a dead body under the bed for some time. If you do not leave it shipshape, you will find I have rented it out when you return.

Your loving Mother

Dear Janet,

I realize I blew it as a Mother Figure when you discovered I could not sew. I know this is a handicap, but you must learn to deal with life's little blows, and sew on your own Civil Air Patrol patch. I can teach your Aerospace Ed class, monitor the Drill Team practices, and teach you how to run CAP radios, but alas, I got the patch on crooked. During inspection I noticed you were wearing my pantyhose, cut-outs, and white gloves, so I must be good for something. Change the kitty litter, fold the clothes in the dryer, and make the salad. See you at five ... maybe.

Love, Mommy
Dear Stacy and Amy,
Mommy is at Grandma's for the

afternoon, so behave yourselves.

Amy, I still can't find "Chatter the Red Squirrel," so I'll have to send a note to the librarian. I doubt that she will flog you. Dear, you cannot put used suckers under your pillow. They get fuzzy, among other things. I also found a police whistle and a screw driver there. We will discuss it later.

Stacy, Liz can spend the night Friday if the two of you take a blood oath never to set up housekeeping in the camper again. I got the perfume concentrate from the candle making kit out of your bedding and pajamas, but the memory lingers on.

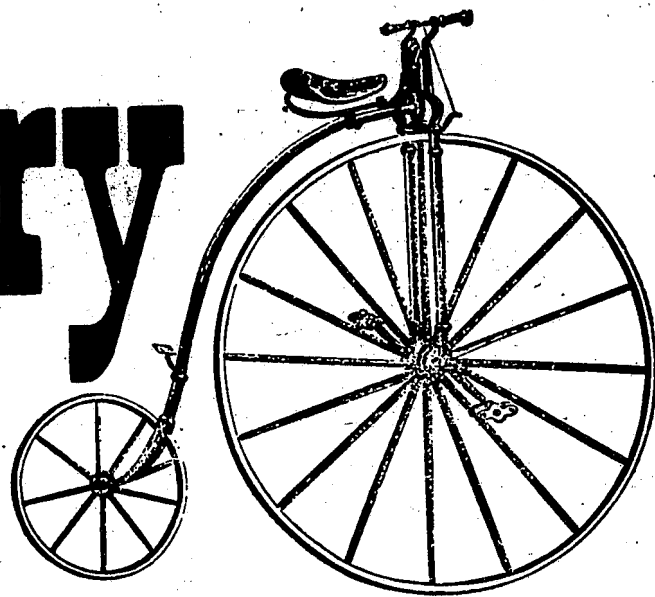

Take good care of Daddy. I'm sure he will test you on your spelling words. Keep him company — he just loves being home with us. You may play all your Donny Osmond records nice and loud. Make some chocolate chip cookies, but take the fish out of the oven first. Love, Mommy

The independent view

by Jean Saile

Ron Rule, external vice president for the May 5 "Walk for independence center", promises "Rides back for people who don't want to commit pedicide." What he meant, I think, were rides back for overly ambitious people whose feet start out alright on the 15-mile hike but wear out before the hike does.

Supervisor Robert Vandermark and Trustee Keith Humbert have offered \$1 a mile to any township board member who makes the hike.

It's a good way of making money for a worthy cause, and independence center has proven its worth to this community.

Independence Township's sewer construction fee of \$2,260 officially adopted last week is considerably lower than the \$3,190 which was originally proposed.

Independence has apparently been operating under a water ordinance which was once published but not adopted officially. That's why the changes in the report system were felt necessary at last week's meeting. Clerk Edwin Glennie has assumed the responsibility as his predecessor did, but the official ordinance calls for the department to be under the control of the supervisor.

Another one of those stories we like to hear—Bruce McArthur of Flint and Frizzen Gun Shop who placed a half page ad in our Progress Edition reports the response has been gratifying—to the point he's decided to become a

regular advertiser. There's been a lot of interest expressed in the revolutionary war outfits he's forming for the bicentennial, he reports.

The Girl Scouts—God bless 'em—got into the penny act last week giving me a sack heavy enough that it ought to assure at least four inches more of tree for the new township park, and a paper weight with pennies imbedded for my desk. It was completely unexpected, and a happy surprise. Also, the dinner they served at Sashabaw Junior High School was excellent!

We now total \$7.20 in the penny fund, thanks to the additional \$1.84 contributed by the Girl Scouts.

An anonymous shook-up caller asks us what can be done about traffic speed on M-15 between the village and the Dixie Highway. She says she, her husband and their young baby were making a left turn into Richardson's Dairy there Sunday evening, had the blinker on, and were forced to throw on the brakes when a dark blue Volkswagen whizzed past. They had to take the baby to the doctor, but fortunately, she only had a bump on the head and bruises to show for the near miss.

Bob Wilkinson won the jar of jelly beans and the \$1.50 lunch at Clarkston High School. Cindy Wade was second place winner and won a free \$1 lunch, Cynthia Bortz reports. Asked what she thought Bob was doing now, she replied "Eating the jelly beans and skipping lunch."

First car in at the David Belisle VFW Post on Airport Road last weekend during the Clarkston Women's Club Treasure Hunt contained Mr. and Mrs. Ray Hedding and Mr. and Mrs. Rick Brown.

They had started out counting parking spaces at Pine Knob Plaza, went on to Camp Pontiac, on into Union Lake and back to Waterford before picking up their prize.

Second place winners were Mr. and Mrs. Ken Whittenton and Mr. and Mrs. Don Balousek. Third prize was won by Mr. and Mrs. James Frantz, Mr. and Mrs. Jim Arnold and Mr. and Mrs. Harold Lee.

Eric Strapp, 5554 Warbler, has time on his hands this week. He won an octagon shaped wall clock in the drawing Monday marking House of Maple's midnight sale and open house last weekend. It was the grand prize.

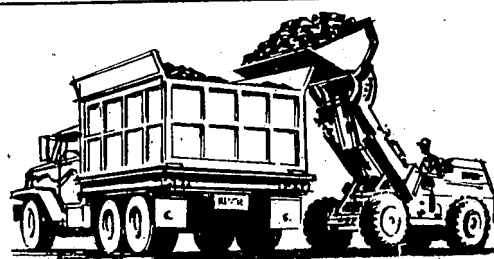

If C. Underwood, 6220 Neilson Road, Davisburg, will call at The Clarkston News, he will receive a free pass to the Clarkston Cinema showing of "George" and "Blue Water White Death."

A note on my desk says two high school students went swimming in the Mill Pond Friday, the 13th. Is this a new record for earliest in the year?

Midshipman George D. Puddington of 6184 Cramlane Drive has been named to the Dean's List for academic excellence for the fall semester, academic year 1972-73 at the U.S. Naval Academy here.

The Dean's List honors midshipmen with a minimum semester grade average of 3.4 in a 4.0 system.

He is a 1972 graduate of Clarkston High School.

VILLAGE OF CLARKSTON

Minutes of Regular Meeting

April 10, 1973

Meeting called to order by President Pro-Tem Basinger. the new and re-elected officials were sworn into office.

Roll: Present - Basinger, Granlund, Schultz, Thayer, Weiss, Wilford. Absent - None.

Minutes of the last meeting were read and approved.

Moved by Wilford that the following bills be paid:

P. E. P. Wages	\$ 849.24
Municipal Services	246.02
Police Dept.	443.86
Clarkston News	161.75
Administration	2355.69
Insurance	160.00

TOTAL \$4216.56

Seconded by Thayer. Roll: Ayes - Basinger, Granlund, Schultz, Thayer, Wilford. Nays - None. Motion carried.

Correspondence from Village Attorney Jack Banycky concerning the proposed Sewer Ordinance and the proposed easement exchange between Mr. Milzow and the Village by his office building was read and discussed by the Council. The Clerk was instructed to write Keift Engineering for a complete description of this property that would be included in the proposed exchange.

Correspondence from Keift Engineering relating to Johnson & Anderson's Site Plan Review of Mr. Milzow's new apartments off Surrey Lane was read to the Council. The Clerk will refer it to the Township Building Department.

George White was present to discuss the Clarkston Youth Assistance Group's request for some Budget money from the Village with the Council.

The expense of having the Village adopt a Master Plan and officially forming a Planning Commission was discussed. Trustee Basinger mentioned that Congressman Broomfield might be able to help us out with some Federal Funds on this and also a study of the Commercial area in the Village.

The Council discussed increasing traffic problems in the Village, with the large amount at the north end of Deer Lake. Trustee Basinger mentioned the need for Federal and State designation of the Village as an Historical Area to preserve us from any road widenings that might take place in the future.

Village Treasurer Art Pappas was present to discuss the proposed 1973-1974 Budget with the Council. Another meeting on this will probably take place next week.

Adopting a Parking Ordinance for the Village that would eliminate overnight parking on downtown streets and restrict daytime parking on downtown streets to a time limit was discussed. It was felt that this should be done in the near future.

Meeting called adjourned by President Pro-Tem Basinger.

Bruce Rogers
Village Clerk

Young writers view life their own way

by Jean Saile

"Then the butler staggered out of the house, his clothes covered with blood. He said, 'He's in the house stealing the riches.' Then he dropped to the ground and died."

Setting for a 007 thriller? Maybe some day.

The passage is an excerpt from "The Kid Detectives" a story by Andersonville School sixth grader, Matthew Grice.

He with five other sixth grade Andersonville students, and six chosen by contest at Bailey Lake have gotten their first taste of an author's life April 14 at Oakland University during the Young Authors' Conference there.

At Bailey Lake, Julie Eriksson wrote "The Adventures of Dogie". First Dogie was too fat and then, "Poor Dogie was kicked out of Exerciseland. 'Ow! My back!'"

"Sorry Dogie, but now you're not fat so you're not needed in Exerciseland."

"I just don't know what to do!" cried Dogie. "Oh! My poor back."

Julie is in the fourth grade.

Jeff Pope, a sixth grader at Andersonville, likes cops and robbers stories, too.

"Harvey started growling and barking. The policeman let him out. He started running after the robbers but lost sight of him. Then he started tracking him. Harvey found the burglar behind the trash cans in the alley. Harvey and the burglar were fighting, blood was flowing from his arms and

stomach. The police arrived and called off Harvey. They gave the robber his rights. They took him to the station to go to jail."

Jeff's story is called, "Harvey, the World's Best Detective."

Laura Saunders, in the second grade at Bailey Lake, wrote the story of "Sam, the Cat."

"Once upon a time there was a cat named Sam. He was very small. He wanted to learn how to read. And he wanted to learn how to add and subtract."

As you read, you find that Sam really did.

Tammy Newton, at Andersonville—"One day in our tree house—club house combination on Main Street, Oscar, our oldest club member got ambitious and decided to get our "missile talk" into action. He suggested constructing a miniature rocket and launching it to the moon! (Of course it wouldn't go that far, but we could pretend.)" Her title is "The Countdown Kids".

Carol Harris has a feeling for "The Beautiful Horse". She's in first grade at Bailey Lake. "He was sold to a big man who delivered wood. One day it began to rain and the horse slid into a ditch. The big man shipped him to get up until he got tired and went into a friend's house. He left the horse in the rain, almost dead."

Cooleen Miller of Andersonville fantasized about a cow, more particularly "How the Cow Got Its Moo."

"One day when C.C. was alone, he said to himself, 'Why don't I go spy at school and see what it's like?'"

"So he went. He saw the teacher. (Her name is Henrietta Hippo.) Then he said out loud, 'That's Harry's mom!'"

"Mrs. Hippo said, 'Class do you hear a noise?'"

"They all went by the windows. Mrs. Hippo said, 'Why it's C.C. Let's invite him!'"

Amber Sahnahan of Bailey Lake's

third grade wrote a poem about Wasps. "Wasps like coffee, syrup, tea, Coca Cola, butter and me."

Julie Vyse of Andersonville wrote about a problem, "Baseball Playing vs. Acting".

"One day he took his baseball equipment and traded it for the ugliest camera that probably didn't even work. So he thought that if he could sell that camera he would at least make \$30, and he could go begging for money in the neighborhood."

Erica Zander thinks, "Clouds help make the snowflake for winter. So little, light and delicate snowflakes are. Clouds hide the sun when it should be shining, when it should be helping the flowers grow."

Erica is a fifth grader at Bailey Lake. Mary Ann Humphrey, sixth grader at the same school, tells the story of "Corporal, the Blind Dog."

"Many hours later when Debra awoke, it was a silvery moon which hung in the sky, throwing its white light on a figure laying not two yards away. She went to the figure and stepped back in horror. Then she knelt over it, crying,

"But the little dog did not feel her gentle hands as they patted his forehead. Nor did he feel the tears which fell on his stiff shoulder. The little dog was dead, but his courage and strength was an honor to all."

The teachers responsible for the outflow of creativity are Sally Lindeman at Andersonville and Peggy Lazenby at Bailey Lake.

Circus is coming to Springfield

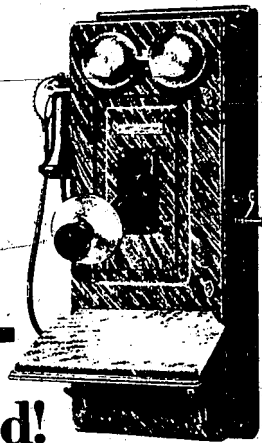

The annual North Oakland County Law Enforcement Association Circus is coming to Springfield-Oaks County Park and Fairgrounds at Davisburg, June 10, 11 and 12.

Three rings of shetland ponies and miniature mules will charm youngsters. Adults will be thrilled by unusual animal acts, world renowned aerial and variety acts.

Corporal Don Gilbert, Oakland County Sheriff's office said family tickets are now on sale at a greatly reduced rate. Call 334-2644. Family tickets are only available prior to the Circus dates, the regular boxoffice rates will be charged during show days.

Circus profits will be used to benefit mentally and physically handicapped children.

For a dollar a week, you can reach 10,000 people in over 2,600 homes every week with an advertising message on this page. Call 625-3370 and place your message today!

Wolves take opener

By Craig Moore
The Clarkston Varsity Wolves' baseball team won a 9-7 decision in the season opener against Rochester.

Cycle safety proclaimed

The period of April 22 to May 19 has been proclaimed "Motorcycle Safety Month" in Michigan. State Rep. Loren Anderson (R-Waterford), who urged the designation, says he hopes it will call attention to the safe operation of these vehicles.

"Most motorcycle operators are good, safe drivers. But we need an awareness of the fact that both cars and motorcycles are here to stay and drivers of both must do a better job of being aware of each other," Anderson said.

Drayton Plains Nature Center kicks off Plant-a-Tree drive

The Drayton Plains Nature Center has announced that it is collecting money that will be used, in part, to plant trees at the 140-acre site.

Jeff Cornish, president, said that this past December when the Nature Center was in danger of closing for lack of operating funds, Oakland County students, teachers and residents rallied to support the Center.

"The Plant-a-Tree" project is worthwhile for two reasons, Cornish said. First, new plantings will increase the beauty and ecological balance of the center and second, a portion of all funds collected will be used for day-to-day operating capital which is much needed at this time.

Two trees will be purchased for each \$5 received, and the goal for this spring is 2,000 trees.

Contributions are tax deductible and should be sent to:

Drayton Plains Nature Center, Inc.
Box 292
Drayton Plains, Mich. 48020
Mark "Plant-a-Tree" on your envelopes.

The Michigan State Chamber of Commerce reminds you that there is a head and an arm behind each piece of litter — only you are responsible for litter!

The Wolves came right out with a quick 5 run first inning. Al Hux and Greg Swanson got on base with walks. Dave Partlo was credited with 2 rbi's when he doubled and both Hux and Swanson came in to score.

Larry Miracle followed with a base on balls. Daryl Brittan singled to bring Partlo in for the third run and John Walts knocked in Miracle and Brittan with a single.

The 5 runs in the first inning came on 3 hits.

Rochester scored twice in the second inning, but Clarkston led, 5-2.

Three runs were added to the Clarkston score in the second inning. Dan Blower started the inning with a home run. Dave Partlo batted in Terry Green and Larry Miracle batted in Al Hux. Hux got on base with a double.

Tim Hinkley singled and came in for Clarkston's ninth run in the fifth inning. Score was then 9-2.

The Wolves almost gave the game away, but outlasted Rochester's 5 run assault in the sixth inning. The 5 runs came on only 1 hit.

The 9-7 score remained unchanged in the final inning and Clarkston posted its first victory.

The 7 Rochester runs came on 4 hits while Clarkston's 9 came on 9 hits.

Partlo was the winning pitcher. In the 4 innings he pitched, Partlo allowed 2 runs, 3 hits and 5 walks. Partlo struck out 7 batters.

Thursday, April 19, Clarkston hosts the Milford Redskins. Monday, April 23, Clarkston travels to Pontiac Catholic for a doubleheader starting at 11 a.m. Another doubleheader is scheduled for Wednesday, April 25. Clarkston will host Royal Oak Dondero and the first game begins at 12 noon.

Boys, who up until last week were involved with basketball, are digging out their cleats for the coming baseball season.

1,000 sign up for baseball

Over 1,000 boys will be playing Junior Baseball this summer if Wednesday night's player selection meeting goes as planned by the Independence Township Recreation Department.

A thousand boys filled out cards and turned them in last week in school; now the managers will select players from the master league lists and spring practice will begin.

The Recreation Department will conduct a player's clinic for boys 11 and under beginning the first Saturday in May. It will run every Saturday through June 9 and is free or part of the \$5 player fee. T-Ball teams will be organized during the Saturday morning clinic.

Seven-year-olds will play on T-Ball teams. Eight and nine-year-olds will play on T-Ball or Pee-Wee teams. Parents and coaches will have the final

say in placing their sons on T-Ball or Pee Wee teams.

All boys playing in the six league, 60-team program, will pay the \$5 player fee this year. The fee pays for umpires, safety equipment, baseballs, field liming and improvements.

Improvements will include the umpire's 4-day school, the six Saturday morning player clinic sessions, and the purchase of catcher's helmets and bench and backstop repairs.

Dog obedience

Dog obedience classes are being offered for 10 weeks beginning May 15 at the Waterford-Oaks County Park on Watkins Lake Road. All dogs must be at least six months old and have a health certificate showing required shots.

Fish — where to find them

The Michigan Department of Natural Resources provides the following list, by species, of the "better" fishing waters in Genesee, Lapeer and Oakland counties which have public access.

Trout: Duck Creek, Highbanks Creek, Huron River, Kearsley Creek and Paint Creek.

Rainbow Trout: Flint River, Holloway Reservoir, Big Fish Lake, Cedar Lake, Davison Lake, Duperow Lake, Twin Lakes, Impoundment, Cass Lake, Proud Lakes, Union Lake.

Splake: Deer Lake, Maceday Lake and Union Lake.

Brown Trout: South Branch Flint River, Huron River, Kearsley Creek and Paint Creek.

Lake Trout: Cass Lake and Maceday Lake.

Bluegill Sunfish: Holloway Reservoir,

Lake Fenton, Lake Ponemah, Lobdell Lake, Big Fish Lake, Davison Lake, Lake Nepeessing, Minnawanna Lake, Big Lake, Cass Lake, Holly Millpond, Kent Lake, Loon Lake, Lower Pettibone and Pontiac Lake.

Largemouth Bass: Fenton Lake, Holloway Reservoir, Lake Ponemah, Lobdell Lake, Mott Lake, Big Fish Lake, Davison Lake, Lake Nepeessing, Union Lake, Wildwood and Valley Lakes.

Northern Pike: Cass Lake, Kent Lake, Lake Oakland, Lakeville Lake, Pontiac Lake and White Lake.

Muskellunge: Heron Lake, Pontiac Lake and Lake Nepeessing.

Perch: Cass Lake, Kent Lake, Lake Orion, Lakeville Lake, Pontiac Lake and Union Lake.

Walleye: Cass Lake, Heron Lake and Kent Lake.

SPORTS Go-Round

by Jerry Savoie

CAP cadets get training

A game fish is usually one which puts up a very stiff and courageous fight when it is hooked. Some people say that this fish will respond to artificial lures. The freshwater drum is such a fish. Its sides are dull silver with a yellowish or pinkish tinge, the throat teeth are coarse, and the back is highly arched with a continuous dorsal fin. The drum is one of the largest fresh water fish sometimes weighing as much as 60 pounds, thus making it a real sportsman's game fish.

One of the largest stocks of fiberglass and cellulose blown-in or blanket insulation in the area is found at SAVOIE INSULATION CO., 64 S. Main St., 625-2601. We also do all kinds of aluminum siding jobs and feature seamless aluminum gutters in 5 colors and custom-made aluminum shutters with permanent galvanized finish, in white, black, gray, dark and light green, brown, and brick red. Open: 8-5:30, Mon.-Fri. Sat. 9-12.

HELPFUL HINT:

Masking tape makes painting stripes easy by simply covering areas not to be painted and measuring to keep stripes straight.

Sixteen cadets, from Clarkston Composite Squadron, Civil Air Patrol, were among the 60 CAP cadets throughout the state who attended a Cadet Officer Candidate School last weekend in Battle Creek.

Purpose of the school was to acquaint the cadets with leadership positions which they will hold at the Michigan Wing Cadet Summer Encampment July 7-15 in Alpena.

Supervising the cadet activities were Captain Barbara Glover CAP, who will serve as Encampment Administrative Officer; 1/Lt. Charles Gorecki CAP, who will serve as Encampment Administrative Officer; 2/Lt. Gary Klann CAP, who will be Encampment Cadet Coordinator; and CWO Mike Saile CAP, who will serve as Tactical Officer.

The Michigan State Chamber of Commerce believes littering is one way we waste our natural resources — please use our resources wisely by disposing of waste properly and when possible make use of recycling facilities.

The World is their Classroom

Or should we say the classroom is their world. An unbelievable number of things happen in it every day... the interactions of thirty students, each with a different reading speed, different interest, different talent, different emotional make-up, and different background.

Who makes their world mean something? A professional, trained to deal with all students as individuals, to recognize their differences, and treat them accordingly. They fascinate us. We're teachers.

It's great to be a teacher!

Railroad crossing blocked

Caught in the middle of a dispute between local-citizens and the Village of Holly over costs of railroad flasher signals, Grand Trunk Western Railroad has announced plans to close the controversial Cogshall Road crossing at 9 a.m. on May 9.

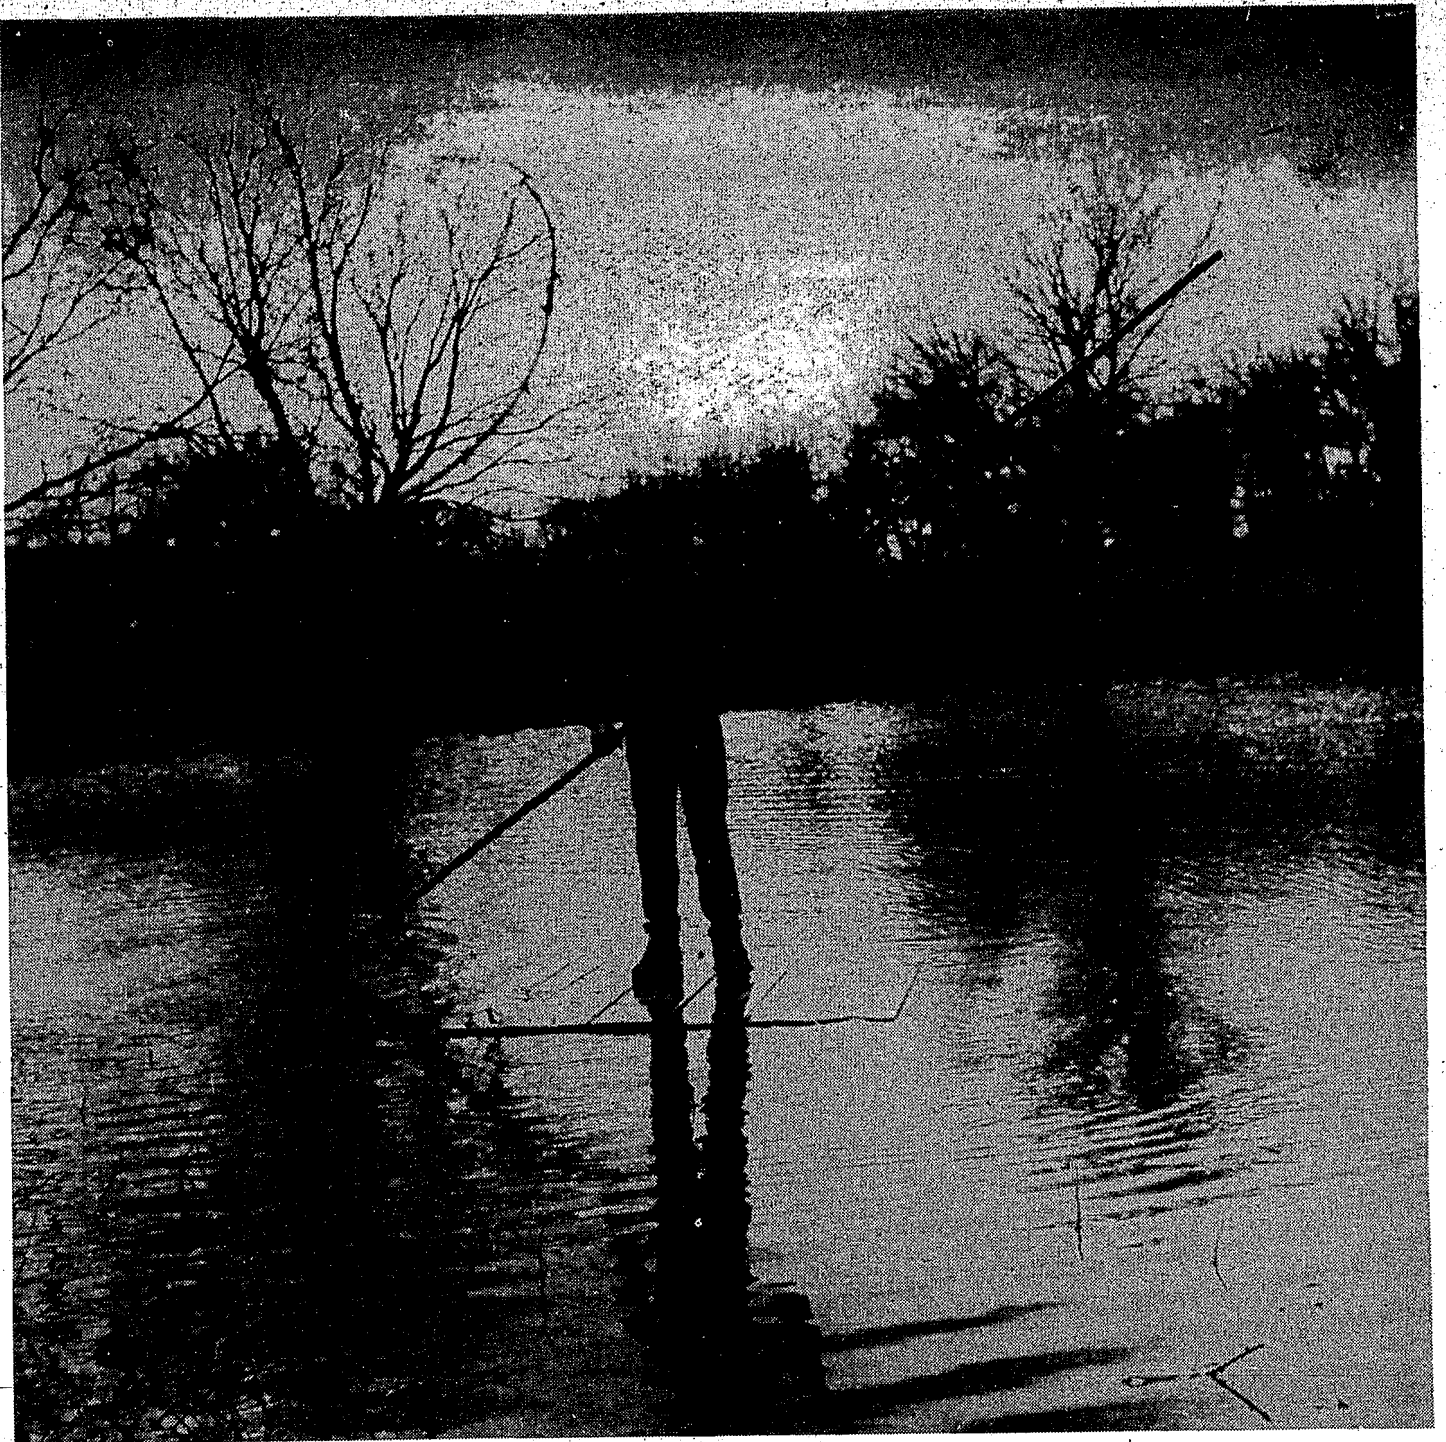

For four years Grand Trunk has attempted to collect, from the Village of Holly, a statutory payment or one-half the \$27,000 installation cost of safety signals at Cogshall Road.

The Holly Council contends Cogshall Road is private and not under public jurisdiction. Approximately 50 families served by the road have refused to pay any portion of the signal costs for a private road because they insist Cogshall is public.

"Grand Trunk was ordered by the Michigan Public Service Commission to install the signals in 1968" declared Frank G. Proctor, railroad attorney, "We complied and requested the cost be shared as stipulated by law."

"This is a regrettable controversy," Proctor said, "but it leaves us in the middle with little choice but to barricade the crossing to protect the public and the railroad."

Proctor underscored the fact that Grand Trunk is willing to negotiate with either the local homeowners or the Village for either a public or private crossing, provided all statutory requirements are met and payment of costs are made.

Spring -- and Tom (Sawyer) Becker knows just how to enjoy it.

Fluoride for water systems a question

Whether they know it or not, the residents of Goodrich Farms are now drinking fluoridated water. Tests conducted by the State Health Department show the system naturally contains the required 1 part per million.

Clarkston Gardens system has .04 in one well and .02 in the other, considerably less than the recommended .1.

Pelton Heights has .05 in one well and .06 in the other.

Water users are going to be notified that the addition of fluoride to the two systems would increase water rates from \$1.70 to \$2 per quarter.

A second public hearing will then be held in an effort to bring out more than the five citizens who showed up previously.

A state law requires that the township either take steps to provide fluoridated water or that it pass a resolution prohibiting it by July 19.

Equipment outlay for the procedure is about \$5,000, the major cost involved in required daily testing of the water for fluoride content.

The \$1.70 to \$2 per quarter additional are based on a 7-day-a-week testing which state law seems to indicate. There is the chance, it was reported, that the testing might be reduced to five days a week.

Town Shop hit again

Clarkston's Town Shop was broken into through a side window Wednesday night and \$50 plus six pair of knit pants, four packages of underwear and a stereo AM-FM radio with four speakers were taken.

It's the fourth time the shop has sustained loss since owner Fred Ritter took over the business a year and a half ago.

PAUF names drive chairman

Frank G. Andreoni, executive vice president of Pontiac State Bank, has been named 1973 Pontiac Area United Fund Campaign General Chairman. As campaign general chairman,

Andreoni will head up the annual fund raising effort for PAUF's member agencies in the City of Pontiac and Oxford, Orion, Independence, Waterford, Brandon and Pontiac Townships.

Check lottery tickets

Winning lottery tickets worth more than a half million dollars for drawings between November and February remain unclaimed, according to Lottery Commissioner Gus Harrison.

Tickets are good for one year after the drawing date in which they were winners.

"Tickets which won \$25 are

potentially worth \$1,000,000 since winners of \$25 qualify for a subsequent Millionaire Elimination Drawing after they submit their claim," Harrison said.

Listed below, for those who may have winning tickets and not know it, are the dates of previous drawings, the winning numbers and the number of winners unclaimed as of April 4:

Date	Winning Numbers	Unclaimed Winners
November 24, 1972	130-544	1,285
November 30, 1972	850-070	928
December 7, 1972	478-592	1,405
December 14, 1972	792-633	1,316
December 21, 1972	516-724	1,380
December 28, 1972	346-680	1,293

COUNTRY LIVING COUNTRY LIVING
COUNTRY LIVING COUNTRY LIVING

Home remodeled already

By Betty Hecker

The sunshine streaming through the front entrance and through the sky light in the studio ceiling of the Hamilton house foyer brightens a visitor's welcome.

Al and Vicci Hamilton have lived in Clarkston for 14 years. They moved into this house three and a half years ago, and already have made some major changes.

Vicci said, "The kitchen dining-area used to be a 'very formal living room.' About six months ago, we decided it was wasted space." By tearing down an interior wall, the kitchen was enlarged and rebuilt. New white slate formica countertop surrounds the new island stove and hood.

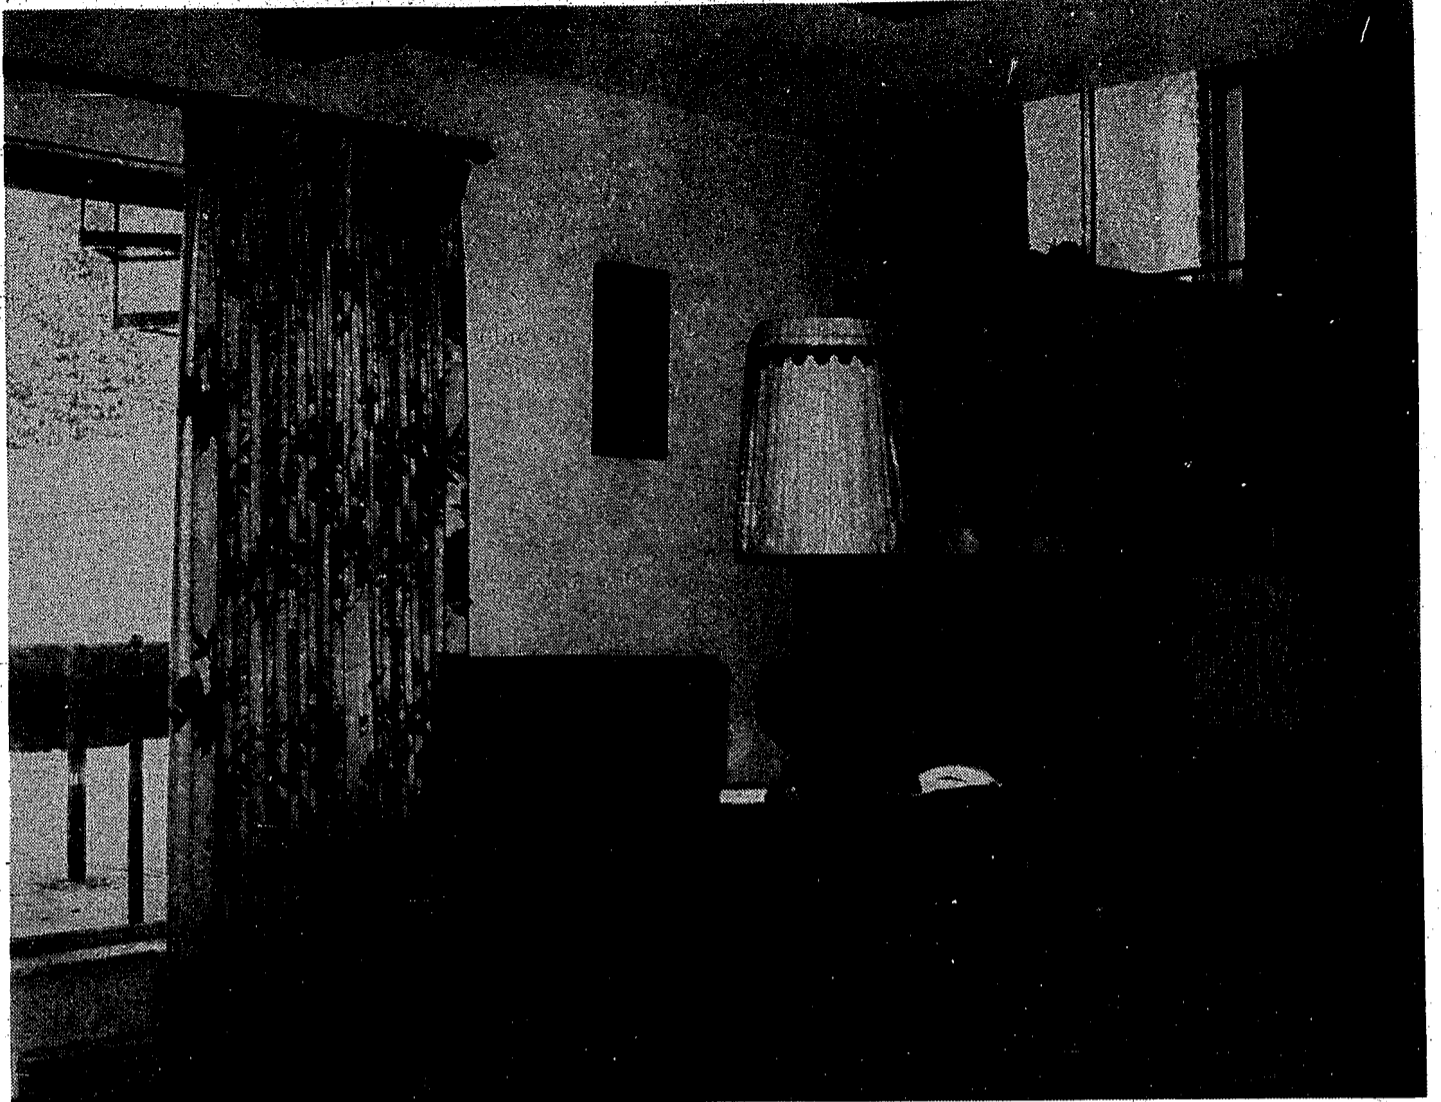

And that stove is something else, too. Over a dozen knobs, dials and gauges tell you "what's cooking." And on Wednesdays, Al is cooking. (Wednesday is Al's day of). Vicci said, "We never know what we'll be having for dinner when Al is in the kitchen. Cooking is one of his favorite hobbies." (One of his recent meals included French bread and lobster Newburg.)

The new dining area had a Danish smoked glass oval table. The chair backs, too, have the smoked glass look, with white leather seats. The white brick wall is the background for a very unusual lamp, a graceful spray of leaves and flowers, made of metal and painted a soft green and yellow.

The Hamilton family room has an open view of the formal dining room and the foyer above, the outdoor patio and the built-in swimming pool on the other level.

A corner fireplace, flanked by two print fireside chairs is opposite a wall of floor-to-ceiling windows, further adding to the openness of the house.

The large room has a black leather couch at least 108 inches long, and Al's new chair is a black leather recliner. Color is added to the room in a pair of comfortable, melon orange chairs.

Balcony adds interest to living area in the Hamilton home

The redwood board walls and the slat benches add decor to the sauna bath, really used more in the summer than in the winter.

Vicci said, "In the summer, we come out of the pool, go in the sauna and steam awhile, then go jump back in the pool again. It's very invigorating. It's great for our girls' (Linda and Kim's) complexions. I don't think you can lose much weight in it, though. After you sit in there and steam, the first thing you do when you come out is to drink a big glass of water."

Vicci said, "When we did away with the upstairs living room, the girls needed a place for their stereo and music, and where they could have some

privacy. So we built this."

"This" is the basement recreation room, completed this past winter. Dark crisscross beams, on white stucco walls,

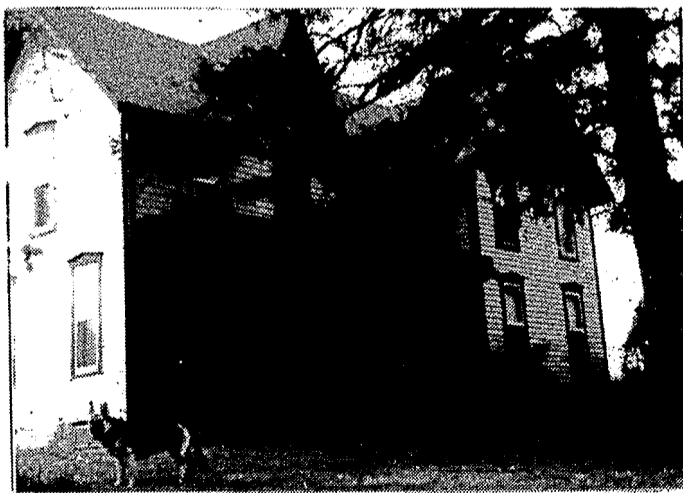

brown and rusty orange shag carpeting, a tangerine color game table and bar top, and rich brown leather furniture make this room a handsome and comfortable place to be.

Tell it to Bob
by Bob Brumback
Clarkston Schools
Special Services Director

Parents of children who will be eligible to enter kindergarten in the Clarkston school system next fall should take serious note of the upcoming "Pre-school Screening" program. This will be a program designed to evaluate children for school readiness and identify those strong and weak points in a child's development.

The information gathered will be utilized by: (1) kindergarten teachers to prepare to meet the individual needs of their students; (2) by the Special Services Department to determine what youngsters need more intensive evaluation regarding any disabilities for school readiness; (3) by parents to identify any disabilities or unusual developmental patterns that they were unaware of; and (4) by the school district to identify needed services to help children profit more from their education.

This is a long overdue program that will help to identify specific disabilities that are not easily noticed with young children. A developing vision or hearing problem is often not found until the child has been in school for several years and has been handicapped in learning by the disability. The program will also help identify youngsters who are immature, slow learners, potentially learning disabled or are experiencing language or speech difficulties.

The philosophy behind this program is that youngsters with any type of disabilities should have them identified

as early in life as possible. Parents should be advised on ways they might help their child be better prepared to benefit from school. They should be assisted in finding any budding physical problems. A child should not be required to "adjust" to a disability that can be diagnosed. A poor or slow start in school can cause complications that will last for years — or even a lifetime.

The specific dates for the pre-school screening program are:

- May 14 — Andersonville Elementary
- May 15 — Bailey Lake Elementary
- May 16 — Clarkston Elementary
- May 17 — North Sashabaw Elementary
- May 18 — Pine Knob Elementary.

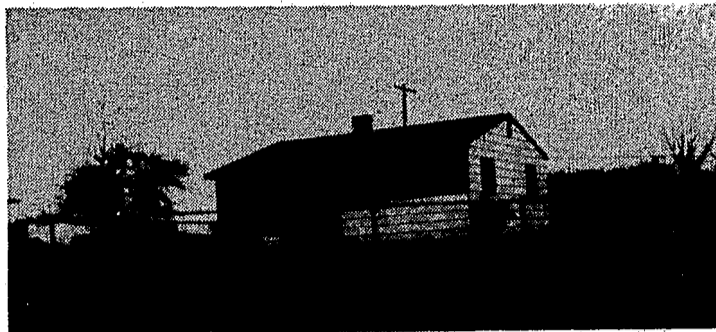

Parents will be asked to take their pre-schooler(s) to their elementary school according to a specific schedule that is yet to be determined.

Those children who indicate a need for further evaluation will be scheduled for more intensive assessment between May 21 and June 1st. An important part of the program is an interpretation to all parents of the evaluation completed with their child.

The specific areas to be evaluated are: vision, hearing, speech and language development, gross motor development — ability assessment, developmental information. More information will be forthcoming in the near future about this program — but mark it down on your calendar now.

To all Independence Twp. residents
we wish you a
Happy Easter!

CLARKSTON

EXCELLENT STARTER HOME

The right Handyman will never go wrong investing in this lower priced home on paved road near the Village. 2 bedrooms, large lot, plenty of room to add on in time. Priced under \$20,000 with as little as 5-10% down plus closing costs. Call for an appointment today.

Teen of the week

John Reichert, senior at Clarkston High School, is a second lieutenant in the Civil Air Patrol and has worked local air observations, flown missions in the area, and helped out with Bottles for Building.

He's Clarkston Youth Assistance Teen of the Week.

Son of Mr. and Mrs. C. L. Reichert, 6351 Paramus, he's also a member of Methodist Youth Fellowship and the National Campers and Hikers Association in which he has participated in clean-up drives and planting projects.

John, who works part time for Richardson's Dairy, will attend Tennessee Tech next year.

PEEKIN' into the PAST

25 YEARS AGO IN THE CLARKSTON NEWS

April 16, 1948

Among those who went smelt fishing near East Tawas were Kenneth Kraft, Jim Waterbury, Ralph Jones, and Norman Johnson.

Guests at the home of Mr. and Mrs. Charles Howard of Orion Road are his parents of Kenton, Ohio.

Evelyn Mae McCrum of Clarkston was the guest speaker at the meeting of the MERRY COOK'S Club at the home of Mrs. Charles Adler.

10 YEARS AGO IN THE CLARKSTON NEWS

April 18, 1963

Born to Mr. and Mrs. Randall Johnson, a new daughter, Heidie Marie.

Ground work is underway at M-15 near Dixie Highway for a new Dairy Queen, scheduled for completion by May 15.

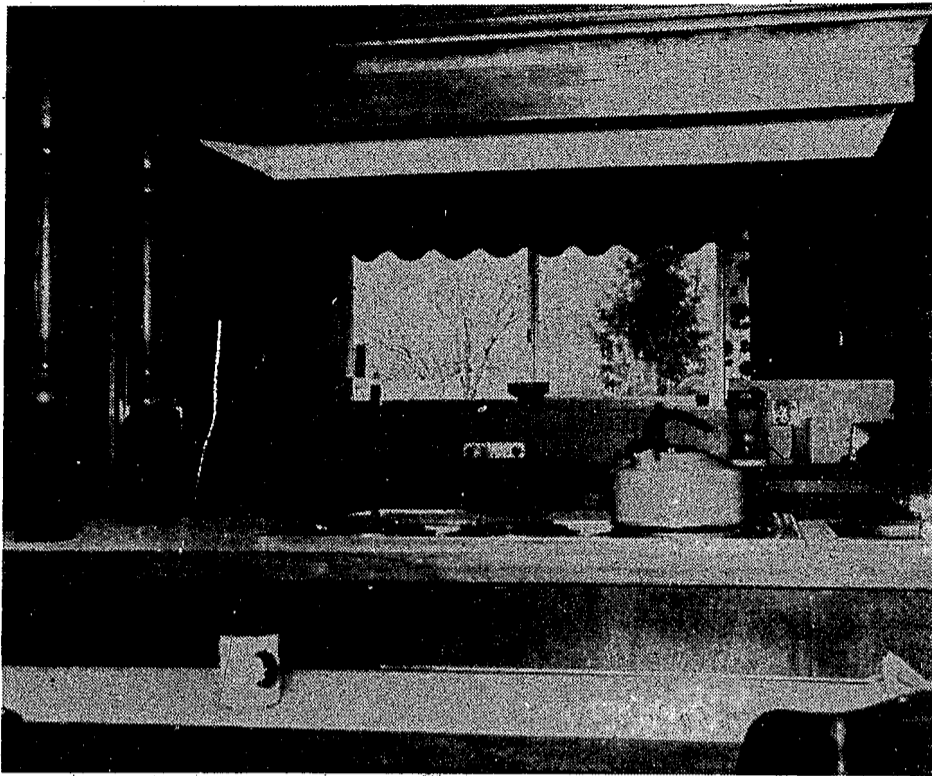

Miss Janet Tisch, Clarkston's First Junior Miss and Ted Jackson of the Clarkston Jaycees were guests of the Clarkston Rotary Club.

by Bob & Marvel White

When you are selling property, it is worth your while to be completely honest about it. You, as the seller of property, must be presumed to know whether what you say about it is true or false. If you do say something false, you have committed a fraud. As a general rule, if you don't know if what you say is true or false, you have left yourself liable to be accused of gross negligence which may also constitute a fraud!

When you list with BOB WHITE REAL ESTATE, 5856 S. Main St., 625-5821, our knowledgeable salespeople will help you in presenting your property honestly and to its best advantage. A complete real estate service, we make home buying and selling a pleasure, not a burden, by giving full personal attention to your needs. 24 hours answering service. Open: 9-8, Mon.-Thur.; 9-6, Fri., Sat.; 12-5, Sun.

HELPFUL HINT:

When you are in the market for a house, make sure the landscaping is all you want it to be. If not, how much time and money will correct it?

STEAM CARPET CLEANING

Did you know that . . .

Quote: Parents Magazine
"85% of the dirt that accumulates in a room is concentrated in the carpets and rugs? The major cause of carpet wear is ground in dirt."

Now..

There is steam power extraction, a unique process of carpet cleaning which extracts all dirt from the nap and fibers of your carpets and rugs.

WE SPECIALIZE IN: Upholstery cleaning, matting and fading, burns, stains, odors, and loose seams.

For beautifully cleaned carpets:

Wed on St. Pat's Day

On stormy St. Patrick's Day, March 17, at 2 p.m. in Clarkston United Methodist Church, Marie S. Pope and Roger D. Nanney were united in marriage.

Parents of the couple are Mr. and Mrs. Louis Pope of Northview Drive and Mr. and Mrs. Melvin Nanney of Royal Oak.

The couple were attended by Linda Pope, sister of the bride and Don

Nanney, brother of the groom. The bride wore an ivory lace gown and carried gardenias and pink rosebuds. Her maid of honor wore ivory and green and carried a similar bouquet.

Gardenias and rosebuds also decorated the cake which was served at a reception in the church parlors.

Following a honeymoon in Florida, they are now residing in Port Huron.

No meeting Easter Monday

The Senior Citizen 50 + drop-in center, operating Monday, Tuesday, Thursday and Friday out of the Salvation Army, Buffalo and Church streets, will not meet Easter Monday, April 23, according to Ed Thomas.

But at 1 p.m. April 30, the group will hear Norris Walls talk about real estate. The center is co-sponsored by the Salvation Army and the Oakland County Commission on Economic Opportunity.

PD, ADV.

by Bob & Geri Wertman

Do you know what can be done about the white marks that sometimes appear on varnished wood? Simply prepare a mixture of one tablespoon of vinegar and a quart of water; then rub this on with a soft cloth and wipe it dry. White marks that are made by hot dishes or spilled liquids can often be removed with turpentine. After such measures, always polish with silver polish or rottenstone and oil. Rubbing is what keeps furniture looking its best, so don't neglect the elbow grease!

Keep your home looking its best with tools and materials from BOB HARDWARE, 60 S. Main St., 625-5020. We carry a complete line of Trewax floor & furniture products including carpet shampoo and rental shampoo machine, a very wide selection of wallpapers, and electrical and plumbing supplies. Open: 8-6, Mon.-Sat.

HELPFUL HINT:

Refinishing can often be facilitated by means of a scraper which is used in the removal of the old finish.

Grade 6
ALONE

I really must say
That I never have known
A scarier feeling
Than to be all-alone.
Some people will say
That silence is bliss;
A speedy escape
From the world's angry hiss.
Sometimes I agree;
Being alone is fine
Time to get your thoughts together;
Keep them all in line.

The English Language
The English language
Is confusing
'Tis hard two tell
Witch words are write.
Just take, four instance,
Peace and piece
Witeh is a slice
And witch is knot two fight?
Eye don't have time
Two figure it out.
Eye think that is obvious
Two you, know doubt.

Why?

Why do numbers
Never end?
Why is an enemy
Not a friend?
Why is money
There to spend?
Why is it wrong
To always pretend?

State winners

Sayles Studio, 4431 Dixie Highway, has once again walked off with a number of top awards in the 32nd annual Professional Photographers of Michigan convention in Grand Rapids. At left is Kathy Merwin who won top award as Retoucher of the Year and Leta Calcote with her winning oil coloring entries. Mrs. Alice Sayes owner of the studio, received four awards for outstanding creative work and quality and was named a "Top Ten Photographer".

Engaged

Debra Ann Eichorn will wed Jack Kippen August 24 at Guardian Angel Church in Detroit. Their engagement has been announced by her parents, Mr. and Mrs. George Eichorn of Detroit. Jack is the son of Mr. and Mrs. Dan Kippen of 6623 Green Haven, Clarkston.

The engagement of Sally Lynn VanDyke to Airman 1st class Richard T. Leaf has been announced by her parents, Mr. and Mrs. John F. Van Dyke of Port Huron. Richard is the son of Mr. and Mrs. W. R. Leaf, North Main Street. The bride-elect is a graduate of Port Huron Northern High School and attended St. Clair County Community College. Her fiancé is a graduate of Clarkston High School and also attended St. Clair County Community College. He is now serving with the U.S. Air Force. A May 12 wedding is planned.

Maranatha choir starts tour

Forty-three young people and 20 adult sponsors will leave Maranatha Baptist Church April 23 to begin the fifth annual choir tour sponsored by the church. The junior and senior high school students represent Pontiac, Clarkston, Lake Orion, Brandon and Waterford schools.

The group will travel in a caravan of ten cars for the 12-day tour expected to cover between 4,400 and 4,200 miles, the longest in the five-year history. In the past, the choir has totalled 13,500 miles of touring travel, largely through the western states.

This year the Maranatha Choir will travel to Iowa, South Dakota, Wyoming, Montana, and Nebraska giving concerts in schools and churches.

In addition, as guests of host churches along the route, the young people will take part in a cattle round-up, trail ride, western-style barbeque in addition to sightseeing excursions through the Badlands, the Black Hills, Devils Tower National Monument, Yellowstone Park, Teton National Park, and the Scotts Bluff National Monument.

625-5726

Clean-up duties

Springing up
by Betty Hecker

Raking the yard, picking up all the winter debris, looking for spring flowers and washing windows were some of the activities taking place in our area last weekend.

Some of the neighbors got away for the weekend. The Rescoes, on Bridge Lake Road, went smelt dipping in the Tawas River.

The first Friday night, the smelt were running late, so the children were asleep in the camper when Harold caught just enough for a late snack for himself and his wife, Elinor.

Elinor said, "They were delicious, no fish taste at all, just like a delicacy, no exotic food."

The next Friday night, Harold and his son, Greg, were fishing, when a wind shipped up the water, soaking Greg. He went to the camper to dry off, hanging his net on the back of the truck. Just while he was changing clothes, someone stole his net!

The birth of their first child, Christopher Alan, has been welcomed by Mr. and Mrs. David (Beverly Morse) Merz, 3845 Dorothy Lane, Waterford. Proud grandparents of the 8 pound, 2 ounce infant born April 17 are Mr. and Mrs. Robert Morse of Clarkston and Mr. and Mrs. William C. Merz of Waterford.

Jack and Diane Harken and their sons, Richard and Danny, went smelting Sunday evening in Lake Huron, north of Port Huron.

Diane said, "No one fell in, so there's no exciting rescue story to tell. It was a nice night, not cold at all. We cooked fish on the beach, and had a birthday

cake for Durand. (He's at least . . . 21?) "The boys really had a good time!" continued Diane, "and after we got home, I cleaned fish until 3 in the morning."

That was some catch!

The Clarkston Teachers Bowling League finished their season with a banquet at the home of Jerry and Sally Grandlund, on Rosedale Court.

Linda Irwin reported, "All the women took a dish to pass and the meat was catered from Rudy's. The food was 'yummy', I just love meals like that."

Unbeknownst to the bowlers, Dennis Bronson took movies of the bowlers during the league year. Linda said, "Dennie put labels on all the different styles, like the 'great goose', and then would stop the projector when the bowler was in the peak of his action—the poses kept us in stitches, it was so funny. It was really entertaining."

Some of the trophy winners were; first place team, Jim and Sandy Sanford, Joan and Dick Swartout, and Marlene Sewick. The high game trophies went to Dennis Bronson and Marlene Sewick, and the high series trophies were awarded to Jim Koslosky and Liz Gregory.

The Women's Society of Christian Service of Clarkston United Methodist Church enjoyed a brunch last Wednesday.

Brigadier Mary Aspden from the Salvation Army was the guest speaker, and she played a concertina and sang for the group. The Methodist women feel fortunate that they were able to

hear her speak again, for this summer, Brog. Aspden plans to return to England.

A member of the WSCS is also moving. Eliza Johnson, a member of Clarkston Methodist Church for 34 years is leaving, moving to St. Johns, Michigan.

On behalf of all the members, Joan Carr presented Eliza with a book of devotions, entitled, "Leaves of Gold". Eliza thanked everyone, saying that she had been wanting that particular book for a long time, and that she would certainly miss all her friends here in Clarkston.

Raymond L. Chenoweth, 9351 Whipple Shore Drive, and Leonore D. Weaver, 8701 Thendara, are among Ferris State College students honored for scholastic excellence during the winter quarter. They were named to the Academic Honors List.

Mary Ellen Hanson of Snow Apple is in Pontiac Osteopathic Hospital after suffering a collapsed lung. Bev Hanson said that now her mother is coming along fine.

Anselm, son of Ingrid and William Smith of Eastlawn, is now a "world traveler."

Last Wednesday, Anselm, 13-year-old 8th grader at Clarkston Junior High, returned home from a trip to Washington, D.C. won in a Detroit News "new subscription contest."

One of the reasons he won may have been that he "advertised in the News" (The Clarkston News, of course) for new subscribers.

Anselm accumulated enough points (254 and the most in our district) to win a 10-speed bike and a Black and Decker Drill set, in addition to the trip to Washington.

While there, he toured the White House, Washington's Monument, the Jefferson and Lincoln Memorials, Mount Vernon, Arlington Cemetery (saw the changing of the guards and Kennedy's grave), went to the Smithsonian Institute ("that place is really neat! It's got old planes and cars and all kinds of stuff"), and the Bureau of Engraving.

Obtaining a Senate pass, he talked with Philip Hart and Ted Kennedy for few minutes while the Senate was in session at the Capitol Building.

An Easter ham with all the trimmings was served 26 members and six guests of Clinton Valley Barracks and Auxiliary at its meeting April 14. In a business meeting that followed, Clifford Lucas was reelected commander. The Auxiliary will elect May 12 at Davisburg Town Hall.

Lucile Gries and Mr. and Mrs. John Boice will attend the fifth district meeting April 28 in Lansing.

Lynn M. Race, a Michigan State University senior majoring in medical technology, competed in the recent Block and Bridle Show with her horses, Miss Sojourn and Chief Wapa.

The daughter of Mr. and Mrs. William Race of 10000 Allen Rd., she is a member of the Rodeo Club. She is a 1969 graduate of Clarkston High School.

Easter marked in area churches

Easter, dawn of the religious year, will be marked in area churches by a Community Good Friday Service at Sashabaw Presbyterian Church.

SASHABAW UNITED PRESBYTERIAN CHURCH
 April 19, 7:30 p.m. — Communion for five new adult and one new youth member. The choir will sing "Man Shall Not Live by Bread Alone."
 April 20, 1-2 p.m. — Clarkston Community Good Friday Service sponsored by the Independence Township Pastors. A combined choir directed by Mrs. Brian Agar will sing Lanier's "Ballad of the Trees and the Master." Brigadier Mary Aspden of the Salvation Army will speak. Offering will be used for a Scripture distribution project in the community next fall.
 April 22, 6:30 a.m. — Sunrise Service led by Sashabaw Youth under the direction of Michael Sutterfield and Mr. and Mrs. Donald Stephen. 7:30 a.m. — breakfast served by men of the church with Roy Fry in charge. 9:30 a.m. — Church School. 11 a.m. — Easter worship with public recognition of new members, choir anthems, "Holy Lord of All" by Darwall and "Rejoice, the Lord is King" by Williams.
ST. DANIEL'S CATHOLIC
 April 19, 7:30 p.m. — Mass of the

Lord's Supper and Washing of the Feet. April 20, 12:30 p.m. — Good Friday services.

April 21 — 7 p.m. — Easter Vigil Mass (Light Service)

April 22 — 8:30 and 10:30 a.m. — Mass of the Resurrection

ST. TRINITY LUTHERAN
 April 22, 7:30 a.m. — Easter Sunrise Service. 9:30 a.m. — Morning Worship and Sunday School. 11 a.m. — Festival Worship.

CLARKSTON UNITED METHODIST
 April 19, 7:30 p.m. — Communion and film, "The Upper Room."

April 22, 7:30 a.m. — Sunrise Service by MYF. 8 a.m. — Easter breakfast. 9 a.m. — Worship and Sunday School. 11 a.m. — Baptism of children.

SEYMOUR LAKE METHODIST CHURCH
 April 20, 1 p.m. — Good Friday Union Service.

April 22, 7 a.m. — Young people's Sunrise Service. 8 a.m. — Easter Breakfast served by the men. 9:15 a.m. — Morning Worship. 10:30 a.m. — Sunday School.

SPIRITUALIST CHURCH OF THE GOOD SAMARITAN
 April 22, 7 a.m. — Sunrise service, Rev. Allan Hinz speaker, followed by a

breakfast prepared by the men. 6:45 p.m. — Musical Interlude. 7:15 p.m. — Worship Service with Mrs. Ruth Sieloff and Mrs. Alberta Denmark as speakers.

EPISCOPAL CHURCH OF THE RESURRECTION
 April 22, 7:30 and 10 a.m. — Choral Eucharist.

DRAYTON HEIGHTS FREE METHODIST CHURCH
 April 18, 7 p.m. — Preparation for Easter with Norm Clothier.

April 22, 7:30 a.m. — Sunrise Service. 8:30 a.m. — Fellowship Breakfast. 9:45 a.m. — Easter Sunday School. 11 a.m. — Easter Cantata by the church choir and easter message by Pastor Thompson. 6 p.m. — Easter Vespers.

MARANATHA BAPTIST CHURCH
 April 22, 9:45 a.m. — Sunday School. 11 a.m. — Morning Service featuring the senior choir and Pastor Philip Somers Sr. on "Come Up Hither." 6 p.m. — The Senior Choir will present the cantata, "The Glory of Easter" by John W. Peterson under the direction of Philip Somers Jr.

April 23 — The 43 voice Youth Choir will leave for a concert tour of South Dakota, Wyoming, Montana and Nebraska. The choir will return May 4 and will present its tour concert at 6

p.m. May 6 at the church. The public is invited to attend.

CALVARY LUTHERAN CHURCH
 April 19, 7:30 p.m. — Communion using the folk setting of the new experimental Lutheran Liturgy, led by guitarist Karen Dryfuse.

April 20, 7:30 p.m. — Service of Darkness featuring the choir with a solo by Bonnie Hartzman.

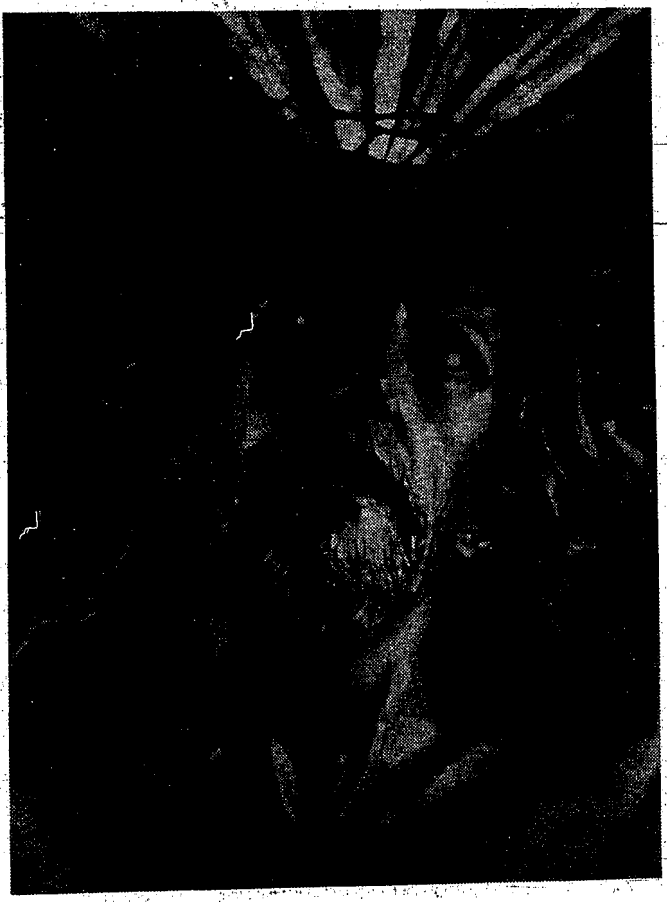

April 22, 6:30 a.m. — Early Service. 7:30 a.m. — Easter Breakfast sponsored by the Luther League. 8:30 a.m. — Easter Communion. 10:30 a.m. — Festival Service with choirs and the sermon, "I Believe in the Resurrection."

DIXIE BAPTIST CHURCH
 April 20, 8 p.m. — Good Friday. April 22, 10:30 a.m. — Easter Sunday Cantata, "No Greater Love." 8 p.m. Easter Sunday Night.

FIRST BAPTIST CHURCH
 April 22, 7 a.m. — Rev. Julian Lyons of Pontiac will preach and Norman Davis will provide music. 11 a.m. and 7 p.m. — Rev. James Grider of Flint, director of New Fields for the Conservative Baptist Association of Michigan, will speak. Special music will be provided by Carmen Blackerby and Janet Bell, students at Grand Rapids Baptist College.

Spiritual Message

ST. DANIEL CHURCH
 Fr. Francis A. Weingartz

HE TOOK UPON HIMSELF THE SINS OF US ALL

So now many nations recoil at sight of him, and kings curl their lips in disgust. For they see what they had never been told and things unheard before fill their thoughts. Who could have believed what we have heard, and to whom has the power of the Lord been revealed?

He grew up before the Lord like a young plant whose roots are in parched ground; he had no beauty, no majesty to draw our eyes, no grace to make us delight in him; his form, disfigured, lost all the likeness of a man, his beauty changed beyond human semblance. He was despised, he shrank from the sight of men, tormented and humbled by suffering; we despised him, we held him of no account, a thing from which men turn away their eyes. Yet on himself he bore our sufferings, out torments he endured, while we counted him smitten by God, struck down by disease and misery; but he was pierced for our transgressions, tortured for our iniquities; the chastisement he bore is health for us and by his scourging we are healed. We had all strayed like sheep, each of us had gone his own way; but the Lord laid upon him the guilt of us all. (Isaiah 52:15, 53:1-6)

Important Notices

Refunds will not be made unless the Parks and Recreation Office is notified of cancellation prior to the first session of the activity. If schools are closed because of inclement weather or holiday vacation, all recreation activities will be cancelled. Make all checks out to The Independence Township Parks & Recreation Department.

Anyone interested in teaching a particular craft or skill that might be of interest to others for future programs is asked to contact Timothy Doyle, Parks & Recreation Director.

NOTE: Family rates are available when two or more members sign up for same activity.

Please mail application forms and fees to the Parks and Recreation Department, 90 N. Main Street, Clarkston, Michigan or, you may register at the Independence Township Parks and Recreation Office. **DO NOT REGISTER AT THE FIRST SESSION OF THE ACTIVITY.** All activities must be self-sustaining, so in the event that an activity doesn't have enough participants signed up at the end of registration period, that activity will be dropped and money refunded. It is for this reason that it is most critical to sign up for all activities in advance.

WANTED: High School boys to coach biddy basketball teams. Call Mr. Tim Doyle, 625-8223.

For any additional information on programs call the Independence Township Parks & Recreation Department, 625-8223. **DO NOT CALL THE SCHOOLS.**

TOWNSHIP OF INDEPENDENCE

ORDINANCE FOR THE PRESERVATION OF WETLANDS

ORDINANCE NO. 67

ADOPTED: April 10, 1973
EFFECTIVE: May 19, 1973

PREAMBLE:

It being the policy of the State of Michigan, as stated in Section 52 of Article 4 of the State Constitution, that the conservation and development of natural resources of the State are of paramount public concern in the interest of the health, safety and general welfare of the people; and, it being recognized that the use and development of our lands to date have resulted in a shrinkage of the critically necessary domain of nature; and, it being further recognized that there are certain existing wetland areas within the Township of Independence, to be formerly designated pursuant hereto, which wetlands support, encourage and provide for necessary natural resources, and the conservation and development thereof; and, it further being recognized that the deleterious condition which would result from a use and development of all wetland areas inconsistent with their support, encouragement and provision for natural resources, and the conservation and development thereof, would amount to a substantial, immeasurable, permanent and irreparable injury of and damage to the inhabitants and property of the Township of Independence; and, it further being recognized that, while the present wetland areas exist compatibly and in harmony with other existing uses and developments in the Township of Independence, if all wetland areas were used and developed inconsistently with their support, encouragement and provision for natural resources, and the conservation and development thereof, such use and development would be incompatible and inharmonious with the other existing uses and developments in the Township of Independence, said uses and developments of wetland areas being incapable of co-existing with said other uses and developments regardless of ordinary or extraordinary sensibilities of the property and inhabitants of the Township of Independence; and in the interest of uniformity and equal treatment, therefore, it is hereby declared that a use or development of wetland areas inconsistent with their support, encouragement and provision for natural resources, and the conservation and development thereof, shall constitute an offensive use of said property which unduly interferes with and obstructs the use and enjoyment of all other lands within the Township of Independence, and is accordingly declared to constitute a nuisance per se.

For the promotion, protection and preservation of wetland areas, and pursuant to Act 184 of the Public Acts of the State of Michigan for 1943, as amended, and Act 246 of the Public Acts of the State of Michigan for 1945, as amended, the Township Board of Independence Township, County of Oakland, State of Michigan, ordains as follows:

ARTICLE 1. SHORT TITLE.

Sec. 1.1. This ordinance shall be known and may be cited and referred to as the "Independence Township Wetlands Preservation Ordinance," and shall hereinafter be referred to as "this ordinance."

ARTICLE 2. DEFINITIONS.

Sec. 2.1. "Commission" means the Planning Commission of Independence Township.

Sec. 2.2. "Operation" means the making of additions or deposits, performing any construction of excavation activity, removing or developing land in any manner or any combination thereof.

Sec. 2.3. "Owner" means any person who has dominion over, control of, title to or any proprietary interest in designated wetland properties or in an obstruction therein or thereon.

Sec. 2.4. "Person" means and includes any individual, sole proprietorship, partnership, association, corporation, firm, company, organization or legal entity of any kind, including governmental agencies.

Sec. 2.5. "Wetlands map" means that map on file with the Independence Township Planning Commission as amended from time to time.

ARTICLE 3. OBJECTIVES

Sec. 3.1. Generally, to promote and maintain, in the interest of the public health, safety and general welfare, a harmonious and compatible land-use balance within the township, and to obviate the nuisance condition which would arise with the development of existing wetlands.

Sec. 3.2. Statement of Specific Objectives:

(a) Protection of soils capable of providing necessary infiltration for the maintenance of aquifer stability.

(b) Prevention of damage caused by erosion, scarification, sedimentation, turbidity or siltation.

(c) Protection against the loss of wild life, fish or other beneficial aquatic organisms, vegetation, and also against the destruction of the natural habitat thereof.

(d) Promotion and maintenance of mental stability as the same relates to and in light of the mass phenomenon of environmental deterioration.

(e) Prevention of conditions which increase susceptibility to dangers of flood and pollution.

ARTICLE 4. DESIGNATION OF WETLAND AREAS; CRITERIA

Sec. 4.1. The Commission shall develop, or cause to be developed, an official wetland map for the Township of Independence, designating those areas which are to be considered and treated as wetlands, which map shall be kept on file with the Commission.

Sec. 4.2. The official wetlands map shall designate as wetlands only those land areas possessing all of the following characteristics:

(a) Not less than 10 contiguous acres.

(b) Surface or sub-surface soil characteristics either contribute to the replenishment of sub-surface water supply, or are self-contained water resources relating directly to wildlife, fish or other beneficial aquatic organisms, vegetation or to the natural habitat thereof.

Sec. 4.3. Designated wetlands may include, but shall not be limited to, those areas commonly referred to as bogs, marshes and swamps.

ARTICLE 5. USE AND DEVELOPMENT OF WETLANDS; PERMITTED USES; PROHIBITIONS.

Sec. 5.1. Land use and development of a designated wetland shall be permitted where the character and structure thereof shall be dominated by vegetation.

Sec. 5.2. The determination as to whether the extent of vegetation dominance is sufficient in a given proposed use or development, shall be made based upon the following considerations:

(a) The nature of the subject wetland area, in terms of its characteristics which are beneficially consistent with one or more of the stated objectives of this ordinance.

(b) The extent to which the proposed use or development shall stifle or totally destroy the said characteristics.

(c) The prospective dangers, shortcomings and nuisance conditions which would result as a consequence of the proposed use or development, as considered on both a short and long-term basis.

Sec. 5.3. No person shall perform any operation, as defined in Section 2.2 of this ordinance, upon any designated wetland area unless said person shall have applied for, and shall have been granted a permit by the Township Board of Independence Township; provided, that in the instance that a proprietor shall submit a plat for approval where property proposed to be platted contains therein one or more designated wetland areas, neither said proprietor nor the Township of Independence shall be required to duplicate an administrative procedure in order to comply with this ordinance; and, provided further, that in the instance that a proprietor shall submit a plat for approval, or a developer shall submit an application for site plan approval, where, in either case, designated wetland areas shall be contained within the subject property, the Township Board shall take independent action with respect to a permit for use and development of the respective designated wetland areas. The grant of the permit shall not constitute a license to perform any and all operations, but shall constitute permission to perform only those operations specifically and expressly designated in the respective permit. The language of a permit shall be strictly construed.

ARTICLE 6. PERMIT PROCEDURE; APPEALS.

Sec. 6.1. All applicants for a permit to do any of the acts permitted by this ordinance shall present to the Commission two (2) copies of the permit application together with plans, specifications, and design data, and any other information to be reasonably required by the Commission.

Sec. 6.2. All applications and copies thereof shall be in the form prescribed by the commission, and shall include no less than the following information:

(a) Name and address of applicant and of applicant's agent, if any there be.

(b) The nature and extent of applicant's ownership rights in the subject property.

(c) Names and addresses of all other persons having an interest of any nature in the subject property.

(d) Plans, specifications and design data of the proposed use or development, to be submitted in the form prescribed by the Commission.

(e) Survey and topographical map of the subject property, according to the standards prescribed by the commission.

(f) A filing fee of \$25.00.

Sec. 6.3. The Commission shall cause the application and accompanying materials to be examined by the Township Engineer, with costs to be borne by the applicant in addition to above fee. The Township Engineer shall forthwith conduct an investigation, taking into consideration the standards set forth in this ordinance as well as any other considerations deemed by said Engineer to be relevant, and within a reasonable time thereafter submit a report to the Commission.

Sec. 6.4. Upon receiving the Engineer's report, the Commission shall conduct a public hearing. Notice of said hearing shall be in accordance with the notice requirements attendant to zoning amendments.

Sec. 6.5. Subsequent to the public hearing and to due deliberation by the Commission, the Commission shall make a recommendation to the Township Board. Said recommendation shall include, but shall not be limited to, specific findings in accordance with Article 5 of this Ordinance, and a recommendation as to whether the permit should be granted, denied or granted with conditions. If the recommendation is to grant the petition with conditions, specific conditions shall be proffered with the recommendation.

Sec. 6.6. Within a reasonable time after receiving the Commission's recommendation, the Township Board shall, at a regular business meeting, grant, deny or grant with specific written conditions the applicant's permit.

Sec. 6.7. Any person, taxpayer, department, board or bureau of the municipality aggrieved by the decision of the Township Board may seek review of the said decision by a court of record, in a manner provided by the laws of the State of Michigan.

ARTICLE 7. ENFORCEMENT; PENALTIES

Sec. 7.1. During the application procedure, and during the conduct of operation, as provided for by the permit, officials from the Township of Independence and State of Michigan shall have the right, from time to time, to inspect the subject property.

Sec. 7.2. Violation of any of the provisions of this ordinance shall be punishable by a fine of not more than \$500.00 and costs of prosecution or by imprisonment in the County Jail for a period not to exceed ninety (90) days or both such fine, costs and imprisonment as may be determined by a court of competent jurisdiction. In addition to any other remedies or retribution sought, the Commission may institute any appropriate action or proceeding to prevent, abate, enjoin or restrain the violation.

Sec. 7.3. In the event wetlands are filled, said lands must be restored to their natural state.

ARTICLE 8. SEVERABILITY CLAUSE.

Sec. 8.1. This Ordinance and the various parts, sections and clauses thereof are hereby declared to be severable. If any part, sentence, paragraph, section or clause is adjudged unconstitutional or invalid, it is hereby provided that the remainder of the Ordinance shall not be affected thereby.

ARTICLE 9. DECLARATION; EFFECTIVE DATE.

Sec. 9.1. This ordinance is hereby declared to have been adopted by the Township Board of the Township of Independence, Oakland County, State of Michigan, at a meeting thereof duly called and held on the 10th day of April, 1973, in order to be given publication in the manner prescribed by law.

J. Edwin Glennie
Independence Township Clerk

TOWNSHIP OF INDEPENDENCE ORDINANCE NO. 65 AS AMENDED

ADOPTED: April 10, 1973
EFFECTIVE: May 19, 1973

AN ORDINANCE TO PROVIDE FOR A SEWAGE DISPOSAL SYSTEM FOR THE TOWNSHIP OF INDEPENDENCE, OAKLAND COUNTY, MICHIGAN; TO PROVIDE FOR CONNECTION NOW OR HEREAFTER OF PREMISES IN THE TOWNSHIP SERVED BY SUCH SYSTEM; TO PROVIDE FOR THE IMPOSITION, COLLECTION AND ENFORCEMENT FEES AND CHARGES FOR CONNECTION TO AND AVAILABILITY THEREOF AND FOR CHARGES FOR SEWAGE DISPOSAL SERVICES THEREFROM; TO REQUIRE CONNECTION THERETO OF PREMISES HEREAFTER OCCUPIED OR PLATTED AND TO PROVIDE FOR OTHER MATTERS RELATIVE TO SAID SYSTEM AND THE USE OF ITS FACILITIES FOR THE PRESERVATION OF THE PUBLIC HEALTH, SAFETY, AND CONVENIENCE.

THE TOWNSHIP OF INDEPENDENCE ORDAINS:

ARTICLE 1. DEFINITIONS

Sec. 1.1. Whenever used in this Ordinance, except as otherwise included by the context:

(a) "Board" shall be construed to mean the Township Board of the Township of Independence.

(b) "Capital charge" shall be deemed to mean the amount charged at the time and in the amount hereinafter provided to each premises in the area served by the system for connecting or being connected to the new construction or to existing systems and represents the proportionate cost allocable to such premises for the trunk and treatment facilities by which sewage disposal services are immediately provided to said areas.

(c) "Charges for sewage disposal services" shall be deemed to mean the amount charged to each premises in the area served by the system for sewage disposal services which may include a debt service factor.

(d) "County" shall mean the County of Oakland.

(e) "Existing laterals" shall be construed to mean all sewer laterals in a safe and efficient operable condition existing on the date of enactment hereof.

(f) "Inspection, approval and tap fee" shall be deemed to mean the amount charged to each applicant by the Township to cover the cost of inspecting and approving the physical connection to the system and the issuance of a connection permit.

(g) "Lateral benefit fee" shall be deemed to mean the amount charged at the time and in the amount hereinafter provided to each premises in the area served by the laterals for the availability to directly serve said premises by the new construction facilities of the system and represents the proportionate cost to such premises for the lateral service made available to the premises by the new construction.

(h) "New construction" shall be construed to mean the laterals to be constructed pursuant to contract dated September 1, 1970, between the County of Oakland and the Township of Independence and any and all future additions and extensions thereof and present and future extensions of the Clinton-Oakland System which are being built or may be built by the County under contract with the Township now or hereafter.

(i) "Premises" shall be deemed to mean the lands included within the boundaries of a single description as set forth from time to time on the general tax rolls of the Township as a single item in the name of the taxpayer or taxpayers at one address whether such property be taxable or exempt from taxation, but in the case of platted lots shall be limited to a single platted lot unless a building or structure is so located on more than one lot as to make the same a single description for purposes of assessment or conveyance now or hereafter.

(j) "Sewage disposal laterals" and "laterals" shall be construed to mean the Independence Extensions of the Clinton-Oakland Sewage Disposal System established under Act 185 of Michigan Public Acts of 1957, as amended, to be constructed by the County under a certain contract dated September 1, 1970 between the County of Oakland and the Township of Independence together with additions and extensions of such new construction.

(k) "Sewage disposal services" shall be deemed to refer to the collection, transportation, treatment, and disposal of sanitary sewage emanating from premises now or hereafter in the area served by the sewage disposal laterals.

(l) "System" shall be construed to include the entire sewer system located within Independence Township.

(m) "Township" shall be construed to mean the Township of Independence.

(n) "Unit" shall be that quantity of sanitary sewage as established herein whereby charges are made hereunder.

ARTICLE 2. CONNECTION

Sec. 2.1. All connections of whatever nature shall be governed by standards set by the Township, or standards adopted by the Township. Because of the need to accommodate technological change, said standards are not included herein, but rather copies of said standards shall at all times be available at the office of the Township.

Sec. 2.2. During construction of any buildings or structures, or in the event of repair which results in disconnection of a sanitary sewer service, the iron pipe inside any building or structure shall be plugged and leaded and remain plugged and watertight until such time as the plumbing is carried on to the first floor, the basement, if any, backfilled and the roof is on said building thereby preventing water from entering the sanitary sewer from the excavated basement or other excavated area beneath said building.

ARTICLE 3. SERVICE AREAS, PREMISES TO BE SERVED

Sec. 3.1. Premises in the areas in which there is an available public sanitary sewage collection facility, and from which sanitary sewage originates, shall not be used or occupied after the effective date hereof unless said premises are connected to the system; provided, however, that such premises shall be connected to said system within twelve (12) months after the system immediately serving such premises is completed and approved for service.

Sec. 3.2. Permits to improve platted or unplatted premises after the effective date hereof, which premises are within the area in which there is an

available public sanitary sewer collection facility, as defined by Act 151, Public Acts 1961, shall not be approved or issued on behalf of the Township and none of said premises shall be improved hereafter by the erection thereon of a building or structure for human use or occupancy, unless said premises are connected to that part of the system available for service to such premises.

Sec. 3.3. In those cases deemed necessary for reasons of public health, and upon notice by the County Health Department or the Township Health Department or officer, any premises may be required to connect to the system within six (6) months of such notice.

ARTICLE 4. CAPITAL CHARGES

Sec. 4.1. Owners of premises within the area served by the system, and from which sanitary sewage originates on the date of enactment hereof, and which premises are hereafter connected to the system, shall pay a capital charge for connection to the system in the amount of \$760.00 per unit, if paid in cash at the time of obtaining a connection permit from the Township. The owner may elect to pay cash at the time of obtaining a connection permit or may elect to defer the payment of such charge over a period of twenty (20) equal annual installments in which event the amount to be paid over such period shall be \$1140.00 per unit. Any owner electing to pay the capital charge on a time-payment plan may, at any time thereafter, prepay the unpaid balance on such capital charge in accordance with a discount schedule separate herefrom as developed by the Board, copies of which shall be available at the Township offices.

Sec. 4.2. Owners of premises within the area served by the system, and upon which buildings or structures having sanitary or industrial sewage facilities are hereafter constructed, and from which sewage shall originate and which premises are connected to the system, shall pay a capital charge for connection to the system in the amount of \$760.00 per unit, in cash, at the time of obtaining a connection permit from the Township of Independence.

This section provides that any new construction must be paid for in cash at the time of obtaining the connection permit.

ARTICLE 5. LATERAL BENEFIT FEES

Sec. 5.1. Owners of premises within the area in which there is an available public sanitary sewage collection facility and from which sewage originates, shall pay a lateral benefit fee upon connecting to the system in the amount of \$1500.00 per unit, if paid in cash at the time of obtaining a connection permit from the Township of Independence. The owner may elect to pay cash at the time of obtaining a connection permit or may elect to defer the payment of such charge over a period of twenty (20) equal annual installments, in which event the amount to be paid over such period shall be \$2250.00 per unit. Any owner electing to pay the lateral benefit fee on a time-payment plan, may at any time thereafter prepay the unpaid balance of such lateral benefit fee in accordance with a discount schedule separate herefrom, as developed by the Board, copies of which shall be available at the Township offices.

Sec. 5.2. Owners of premises within the area in which there is an available public sanitary sewage collection facility and upon which buildings or structures are hereafter constructed, from which sewage shall originate, shall pay a lateral benefit fee upon connecting to the system in the amount of \$1500.00 per unit, in cash at the time of obtaining a connection permit from the Township of Independence and prior to the issuance of any construction permit for the erection of buildings or structures on said premises.

Sec. 5.3. For any premises other than a free standing single family residence the lateral benefit fee shall be \$1500.00 for the first 80 lineal feet or less of property on which said premises are located abutting said public sewer laterals, and \$18.75 for each additional foot of property so abutting.

ARTICLE 6. DETERMINATION OF UNIT CHARGES PER PREMISES

Sec. 6.1. One unit shall be charged for residential dwellings, i.e., each detached single family residence, each residence in a townhouse or cluster house, each apartment in an apartment building, each half of a duplex house, each trailer or mobile home and each apartment or living quarters in a commercial building. The number of units to be assigned to any particular premises used for other than residential purposes shall be determined by the Board and its decision shall be final. Said Board, if the circumstances justify in the sole discretion of the Board, may assign more than one unit to a single family dwelling. In no event shall less than one unit be assigned to each premises but for purposes of computing the capital charge and the lateral benefit fee herein set forth, units in excess of one may be computed and assigned to the nearest whole number of a unit. Once premises have been connected to the lateral, subsequent changes in the character of the use or type of occupancy of said premises (including destruction, removal or abandonment of any or all improvements thereon) shall not abate the obligation to continue the payment of the capital charge or the lateral benefit fee herein set forth charged to said premises in the amount and for the period hereinbefore provided and if subsequent changes at the time increase the amount of sanitary sewage emanating from the premises, the Board may, in its discretion, increase the number of units assigned to said premises and thereupon any additional capital charge occasioned by such increase in units or fractional parts thereof shall be payable in cash at the time a construction or other permit is issued by the Township for such changes in use or at the time such change in use occurs if no permit is issued or required.

Sec. 6.2. The schedule of units generated by the different types of use and occupancy shall be determined and established by separate ordinance or resolution enacted by the Board, and may, from time to time, thereafter be amended, by the Board, providing however, that such ordinance shall never in any way be changed in such manner as shall be contrary to the obligation and limitation set forth in any contractual agreement, pertaining to the laterals, between the Township and the County, or contrary to the obligations of the contract between the Township and the County pertaining to the Clinton-Oakland Sewage Disposal system.

ARTICLE 7. SERVICE CHARGES

Sec. 7.1. Charges for sewage disposal services to each premises in the area served by the system shall be as follows:

(a) Premises with metered water supply, \$5.25 per quarter plus \$0.40

per 100 cubic feet of water consumption or fraction thereof.

(b) Residential premises \$21.25 per premises, per quarter, flat rate.

(c) All other premises, such rates as shall be established by the Independence Township Board.

These charges may be revised and amended by amendment to this ordinance from time to time by the Board providing, however, that the rate shall never in any way be changed in such a manner as shall be contrary to the obligation and limitation set forth in any contractual agreement pertaining to the laterals between the Township and the County, or contrary to the obligations and limitations of the contract between the Township and the County pertaining to the Clinton-Oakland Sewage Disposal System.

ARTICLE 8. PERMIT AND INSPECTION FEE

Sec. 8.1. The owner of any premises within the area served by the system shall pay such permit and inspection fee as may be established by the Township Board, which fee shall reimburse the Township for any and all cost necessary to issue a permit and inspect the connection of said premises. This fee shall be in addition to all other charges and fees set forth herein.

ARTICLE 9. OPERATION, MAINTENANCE, ALTERATION AND REPAIR

Sec. 9.1. The operation, maintenance, alteration, repair and management of the System shall under the supervision and control of the Township Board and administered as a regular department of the Township government. The Township Board may employ such person or persons in such capacity or capacities as it deems advisable to carry on the efficient management and operation of the System and may make such rules, orders and regulations as it deems advisable and necessary to assure the efficient management and operation of the system. The Township Board may contract to have the above services performed if it so desires.

ARTICLE 10. HARMFUL SUBSTANCES, INTERCEPTION, PROHIBITED MATTER

Section 10.1. All sewage disposal laterals and existing laterals shall be used for the collection and transportation of sanitary sewage only. Yard drains, patio drains, catch basins, down spouts, footing drains, pool drains, weep tile, or any conduit that carries storm water or ground water, alone or in combination with sanitary sewage, shall not be connected to the laterals directly or indirectly except as provided hereinafter under Section 10.2.

Section 10.2. Institutional, industrial and commercial waste may be discharged into the system only when in compliance with the standards and regulations of the Oakland County Department of Public Works and in compliance with standards and regulations as established by the City of Detroit.

Section 10.3. In addition to the standards in 10.1 and 10.2, it shall be unlawful to permit or cause the flow of any of the following substances into the sanitary sewer system of the township:

- (a) Any stone dust, sand, dirt, gravel, sawdust, metal filings, broken glass, or any material which may cause or create an obstruction in the sewer.
- (b) Gasoline, benzene, fuel oil, or any petroleum products or volatile liquids.

(c) Milk or any liquid-milk waste products in quantities in excess of ten gallons during each twenty-four hour period.

(d) Any toxic, volatile or aggressive substance.

Section 10.4. It shall be unlawful to cause or permit to flow into the sanitary sewer system any cyanide, phenols or any other chemical or substance which interferes with or prevents the functioning of a sewage treatment plant.

Section 10.5. Every building or premises used or occupied by any sewer user where any commercial or industrial operations are conducted or permitted which result in the discharge into the sanitary sewer system of the Township of any of the products, waste products or other substances in the manner and to the extent prohibited in this ordinance, shall be equipped with an adequate and suitable catch basin, grease trap, filter or other interceptor, installed in such a manner that the products, waste products, or other substances herein set forth will not flow into or be discharged into the sanitary sewer system.

It shall be unlawful to permit the flow of waste from such building or premises into the sanitary sewer system unless such interceptor is installed in good working order.

Section 10.6. The admission into the public sewers of any waters or wastes having (a) a 5-day biochemical oxygen demand greater than 300 parts per million by weight of suspended solids, or (b) containing more than 350 parts per million by weight of suspended solids, or (c) having an average daily flow greater than 2 per cent of the average daily sewage flow of the township, shall be subject to the review and approval of the township. Where necessary, the owner shall provide, at his expense, such preliminary treatment as may be necessary to (a) reduce the biochemical oxygen demand to 300 parts per million and the suspended solids to 350 parts per million by weight, or (b) reduce objectionable characteristics or constituents to within the maximum limits provided for in section 10.1, or (c) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the engineer and no construction of such facilities shall be commenced until said approvals are obtained in writing.

ARTICLE 11. REVENUES, DEPOSITS, FUNDS, INVESTMENTS THEREOF

Section 11.1. All revenue derived hereunder shall be set aside as collected and deposited in a bank duly qualified to do business in the State of Michigan in an account to be designated "Independence Extensions of Clinton-Oakland Sewage Disposal System Receiving Fund" (hereinafter referred to as "The Receiving Fund") and said revenues so deposited shall be transferred from the Receiving Fund to such other funds as are herein established in the manner and at the times hereinafter set forth.

(a) Operation and Maintenance Fund — Out of the revenues in the Receiving Fund there shall be first set aside quarter-annually into a separate account designated "Operation and Maintenance Fund," a sum sufficient to provide for the payment of the next quarter's current expenses of administration and operation of the system and such current expenses of administration and operation of the system and such current expenses for the maintenance thereof as may be necessary to preserve the same in good repair and working order.

(b) Bond and Interest Redemption Fund — Out of the revenues in the Receiving Fund there shall next be set aside quarter-annually into a separate account designated "Bond and Interest Redemption Fund," a sum not less than one-quarter of that amount necessary to meet the next annual payment of interest and bond redemption.

(c) Improvement and Reserve Fund — Out of the revenue in the Receiving Fund there shall lastly be set aside once annually into a separate account designated "Improvement and Reserve Fund," such sums which shall be in excess of the needs and requirements of the "Operation and Maintenance

Fund" and the "Bond Interest Fund," such excess to be held for the purpose of improving, enlarging and extending the Independence Extensions of the Clinton-Oakland Sewage Disposal System and for the purpose of providing a reserve fund for all future payments of interest and bond redemption.

Section 11.2. All monies belonging to any of the foregoing funds or accounts shall be deposited and maintained and such record keeping system related thereto, as provided by Act 2 of the Public Acts of 1968, known as the Uniform Accounting System for Local Units of Government.

Section 11.3. In the event monies in The Receiving Fund are insufficient to meet the requirements of the "Operation and Maintenance Fund," or the requirements of the "Bond and Interest Redemption Fund," then such funds or securities in the "Improvement and Reserve Fund" shall be transferred to either or both of such funds to the extent of any deficit that might exist therein.

Section 11.4. Monies in any fund or account established by the provisions of this Ordinance may be invested in such securities as may hereafter be permitted by law. In the event such investments are made, the securities representing the same shall be kept on deposit with the bank or trust company having on deposit the fund or funds from which such purchase was made. Income received from such investments shall be credited to the fund from which said investments were made.

Section 11.5. Funds received under this Ordinance, from the Independence Extensions of the Clinton-Oakland Sewage Disposal System, shall not, under any circumstances, be co-mingled with any funds received by the Township of Independence.

ARTICLE 12. FREE SERVICE, PROHIBITION

Section 12.1. No free sewage disposal facilities or services shall be furnished to the Township or any person, firm or corporation, public or private, or to any public agency or instrumentality.

ARTICLE 13. LIEN

Section 13.1. All charges for lateral benefit fee, capital charge and charges for sewage disposal service furnished by the Township to any premises shall be a lien thereon and on September 1st, of each year the person or persons charged with the management of the System shall certify any such charges which have been delinquent six (6) months or more, to the Assessor of the Township, who shall enter the same upon the next tax roll against the premises to which such services and facilities have been furnished, and such charges shall be collected and said lien shall be enforced in the same manner as provided in respect to taxes assessed upon such roll.

ARTICLE 14. APPEAL

Section 14.1. Any determination by any administrative official of the Township wherein it is determined that any premises is within the area in which there is an available public sanitary sewage collection facility may be appealed to the Board. The Board shall be bound by Act 151, Public Acts 1961, and shall render a decision on said appeal within 30 days from the date the request is made.

ARTICLE 15. FISCAL YEAR

Section 15.1. The fiscal year of the System shall be the fiscal year of the Township.

ARTICLE 16. TITLE

Section 16.1. This ordinance shall be known and may be cited as the Independence Extensions of Clinton-Oakland Sewage Disposal System Ordinance.

ARTICLE 17. ENFORCEMENT

Section 17.1. In addition to the provisions of 17.2, the provisions of this Ordinance shall be enforceable through the bringing of appropriate action for injunction, mandamus, or otherwise, in any Court having jurisdiction. Any violation of this Ordinance is deemed to be a nuisance per se.

Section 17.2. Any person, firm or corporation convicted of disposing of sewage in a manner contrary to the provisions of this Ordinance, or failing to connect with an available public sewer as provided herein, or in any other way violating the provisions of this Ordinance, shall be guilty of a misdemeanor, and subjected to a fine of not to exceed \$500.00 or imprisonment in the County jail for a period not exceeding 90 days or both, such fine and imprisonment, in the discretion of the Court, together with costs of said prosecution.

Section 17.3. Each day or fraction thereof that any violation hereof continues shall be a separate offense and may be separately enjoined or fined and otherwise so treated.

ARTICLE 18. SEVERABILITY

Section 18.1. If any section, paragraph, sentence, clause or phrase of this Ordinance shall be held invalid, the same shall not affect any other part of this Ordinance.

ARTICLE 19. REPEAL CLAUSE

Section 19.1. All ordinances and resolutions or parts thereof, insofar as the same may be in conflict herewith, are hereby amended or repealed as necessary.

ARTICLE 20. AMENDMENTS

Section 20.1. The Township specifically reserves the right to amend this Ordinance in whole or in part, at one or more times hereafter, or to repeal the same, and by such amendment or repeal to abandon, increase, decrease or otherwise modify any of the fees, charges or rates herein provided, with the understanding, however, that the adoption of this Ordinance or its subsequent amendment or repeal shall in no ways change, relieve or release the contractual and legal obligation of the Township, (1) to make the required payments to the County of Oakland under and as set forth in any contract pertaining to the Clinton-Oakland Sewage Disposal System, and any improvements, extensions and enlargements thereof or under applicable law; or (2) relieve or release the contractual and legal obligation pursuant to said contract and applicable law to levy a tax; or (3) to use any other means or available funds to make the required payments to said County, and this Ordinance shall not be deemed to be a part of any contractual obligation or bond contract pertaining to said laterals.

ARTICLE 21. ADOPTION, EFFECTIVE DATE

Sec. 21.1. This Ordinance is hereby declared to be necessary for the preservation of public peace, health and safety and shall be come effective 30 days after publication in full in a newspaper published or circulated in the Township.

Made and passed by the Township Board in the Township of Independence, County of Oakland, Michigan, on the 10th day of April, 1973. Introduced on April 10, 1973.

J. EDWIN GLENNIE, Clerk
Independence Township

J. Edwin Glennie, Clerk

NOTICE OF PUBLIC HEARING

The Planning Commission of the Township of Independence, County of Oakland, State of Michigan will hold a Public Hearing at the Township Hall, 90 North Main Street, Clarkston, Michigan at 7:30 p.m. April 26, 1973, for the purpose of adopting a set of Goals and Policies as an element to the Comprehensive Plan for the Township.

Mel LeRoy Vaara, Chairman
Independence Township Planning Commission

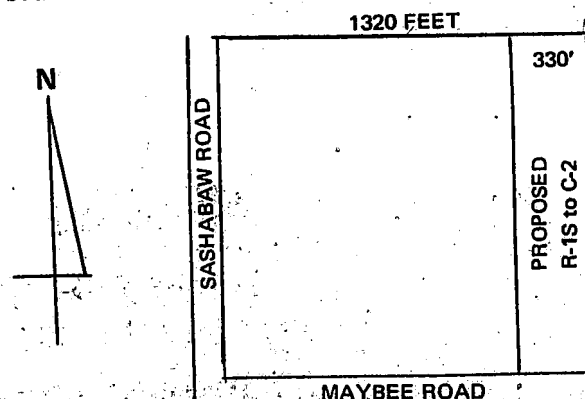

April 5, 9

NOTICE OF PUBLIC HEARING

The Planning Commission of Independence Township, Oakland County, Michigan, will hold a public hearing on May 10, 1973, at 7:30 p.m. at the Township Hall, 90 North Main Street, Clarkston, Michigan to consider the possible rezoning of the following described parcel from R-1S (Suburban Farms) to C-2 (General Business):

T4N, R9E, Section 27

East 330 feet of the south 1320 feet of the west ½ of the southeast ¼ of Section 27. 10 acres

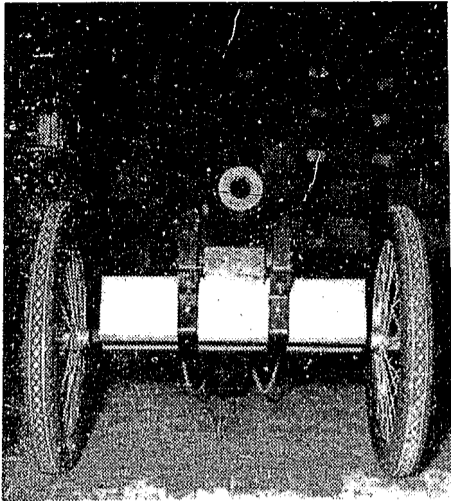

A detailed map of the proposed rezoning may be seen at the Township Hall during regular office hours.

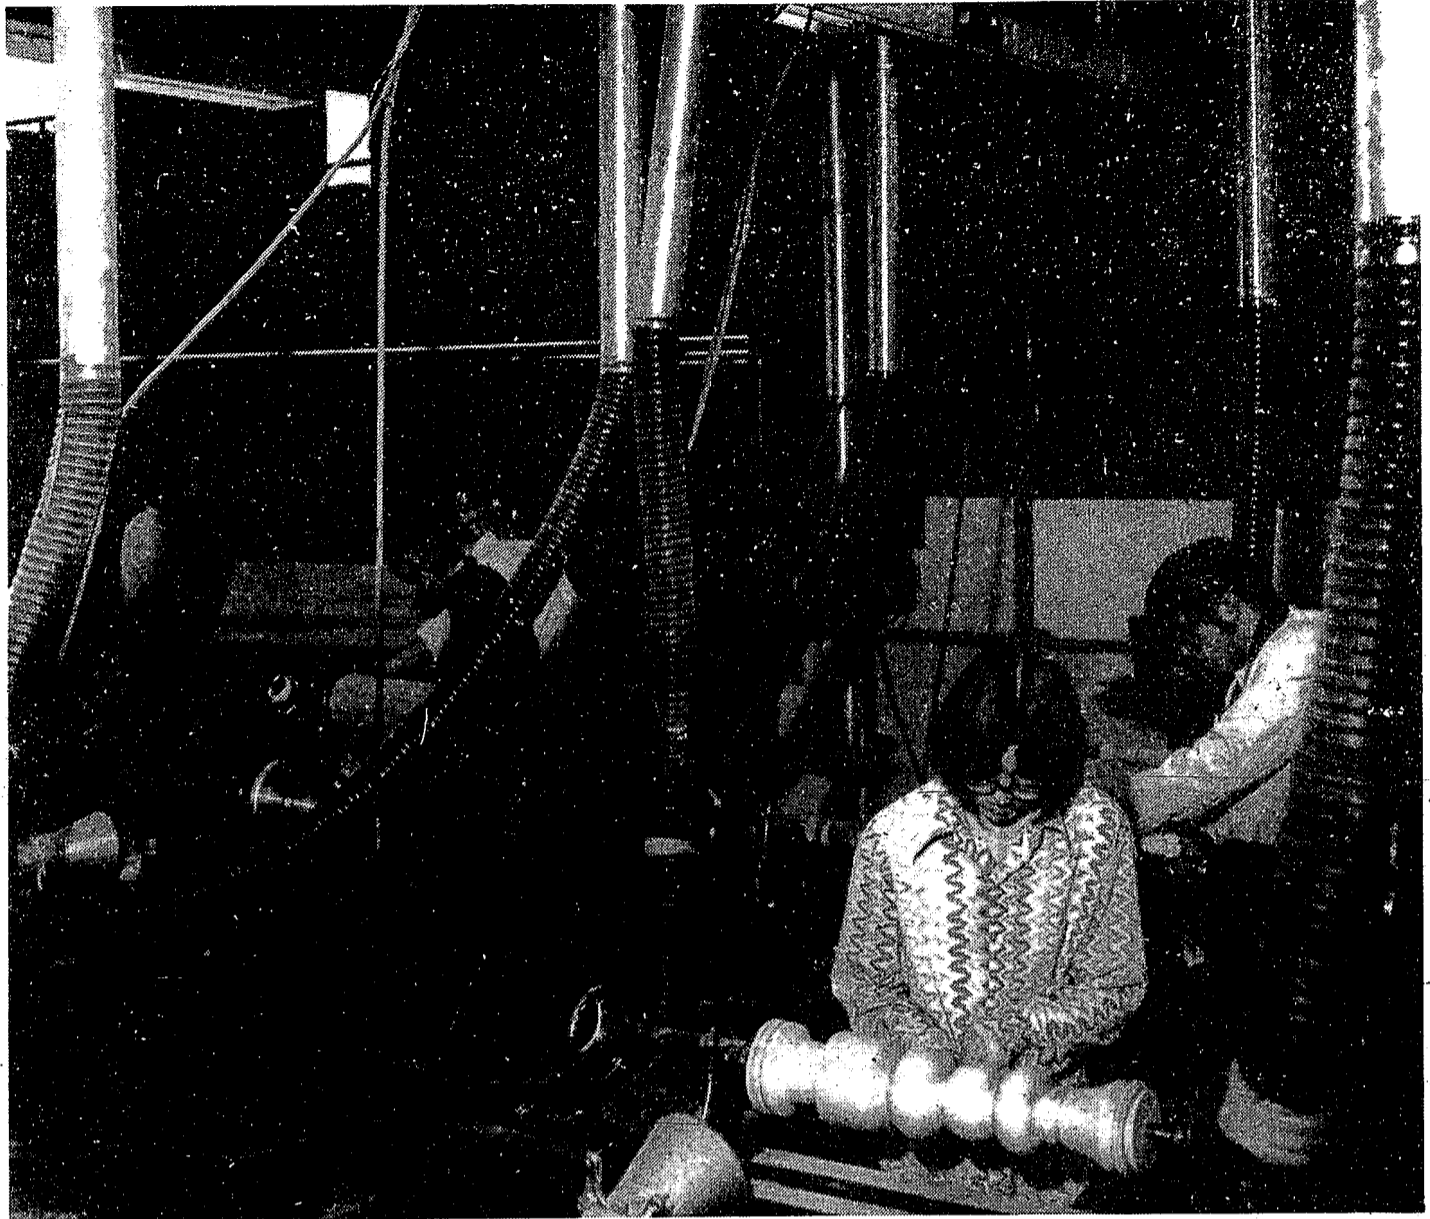

Mel LeRoy Vaara, Chairman
Independence Township Planning Commission

APR 19 1973

Woodworking pays off

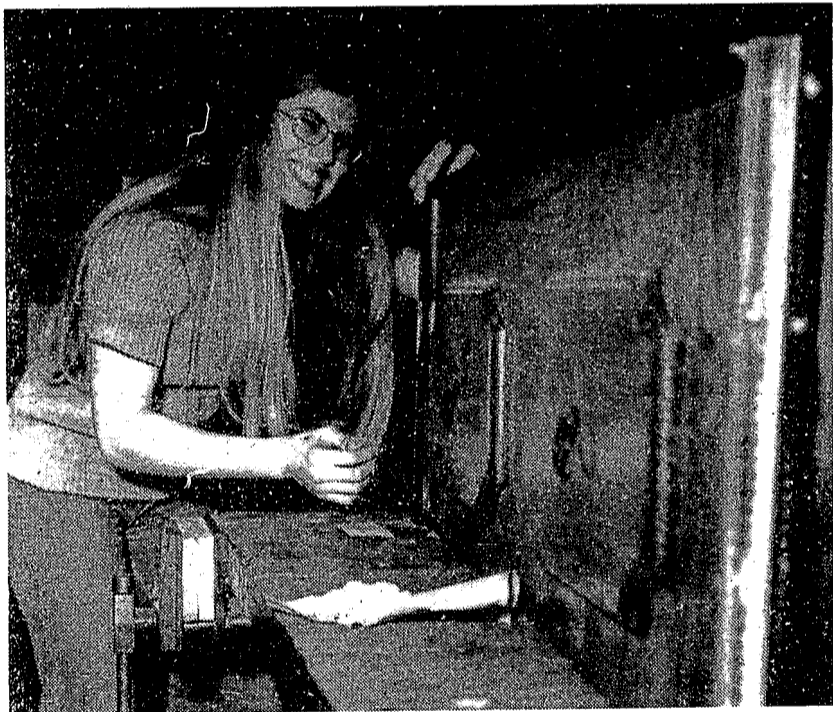

Here's looking at you. A cannon made by Jeff Gremshaw is equipped with bicycle wheels.

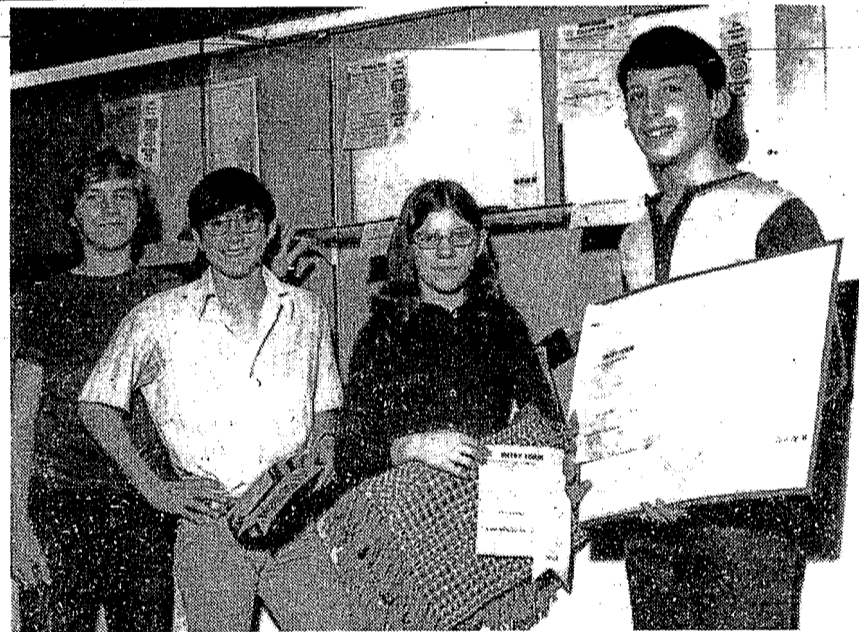

Jerry Savage turns out a pedestal on the woodworking lathe.

Clarkston High School woodworking shop.

Cathy Manley (girls take part in the classes, too) puts in some elbow grease sanding her cedar chest.

John Philpott, Rick Miller, Kelly Stormer and Matt Cardona display some of their first prize awards at the Michigan Industrial Education Society's regional fair last weekend in Clawson. Students of Tom Lamm, Keith Poulson and Len Peterson at Clarkston Junior High School won 42 first, second, third and honorable mention awards.

Seen through a veritable forest of handmade wood products are Jeff Lane, Claude Carlson and Bill Van Curler, students of Richard Moscovic at Clarkston High School. The products are the results of student work.

Wheel pullers, step blocks, a 4-bit fly cutter and a pipe are among the metal products which Dave Yovich, John Woolley, John Mayo and John Miller, students of Mike LaMagna, have made.
