

Sophisticated equipment is required for the lifesaving injection.

Two large elm trees on Main Street, one of them said to be at 14 feet, 10 inches in diameter among the largest in the state, are fighting a battle for survival.

Their owner, William Martin, has received special state approval to try a new fungicide to combat Dutch elm disease. The benomyl fungicide, sold commercially by E.I. DuPont as Benlate, requires the use of a pressure injector which girds the tree, shooting the "medicine" into the sap stream for a 24-hour period.

In order to get the equipment and approval to use it, Martin, who was recently elected president of the Clarkston Historical Society, has also become a member in the Elm Research Institute. He also had to write Michigan Senator Harvey L. Lodge to get Department of Natural Resources approval for the operation.

Martin said he had been informed that the treatment has been approved in all states except Colorado and Michigan and that Elm Research Institute has learned it can save 95 out of 100 of the afflicted trees if caught in time.

There are five elm trees on the Martin property, the second largest of which is 11 feet, 4 inches in circumference. Martin says he's spent thousands of dollars to save the trees while others all about them succumbed to blight.

Now his trees are showing signs of weakening. Since trees more than 10 feet in circumference have been designated as Historical Elms, he's hoping they can be saved and plaques affixed to the towering giants.

Battle to save giant elms starts

William Martin and Nelson Kimball survey the giant elm on Martin's property which they are trying to save from Dutch Elm disease.

The editors of the New Yorker magazine have decided that what this world needs is a magazine devoted to couples.

They say the communications industry has tended to emphasize the separateness of people. They point to Playboy, Penthouse and Oui for men and Family Circle, Cosmopolitan and Ms for women.

These editors feel couples are in trouble as they have never been before. "Which means couples need help," they say, and they have brought out this new magazine and named it, of all things, "Couples".

To get the attention of small town editors these New Yorkers put a cover around their publicity release. On that cover they put a picture.

This here picture is of a young man and young woman sitting facing each other in a bathtub . . .

and they're smiling, or giggling.

Anyway it's one of these old fashioned, little bitty tubs with legs. There ain't room enough in there to find the stopper.

Another thing about that picture . . . there isn't a bar of soap, a washcloth, or towel in sight.

The whole thing prompts me to make a suggestion for an article in upcoming issues of "Couples" about how to make that particular couple stay together. That's what the editors say "Couples" is all about, "A magazine on the art of staying together."

Give them both a bar of soap and wash cloth. Tell them to sit down and get wet, then stand up and wash each other's back. That's the only reason for taking a bath together in the first place . . . so you have someone to wash your back.

However, a tub is no place for a couple to bathe. There just isn't enough room. Man, and I assume woman, has to have room to stretch out and relax in a tub.

If married couples decided to bathe the way illustrated in this picture their legs would soon be cramped so tight they wouldn't care if their back ever got washed.

One thing a leg cramp would do though. It would sure take that smile or giggle out of the picture.

Early in this column "Ms" magazine was mentioned. That's the one edited by one of the leading women's libbers, Gloria Steinem.

She admitted on a recent panel discussion on news coverage that she hires only 3 males for her staff of 32 on Ms magazine, "would hire more if I could find any qualified."

By Jim Sherman

NOVEC accepts engine

GMC Truck & Coach Division recently donated a 478-cubic inch V-6 gasoline engine to the Northwest Oakland Vocational Education Center in Clarkston. At the presentation were E. W. Boehmer [left] of GMC's Service Development Department, and Scott Irwin, school instructor. In the background are three student mechanics who will receive training with the engine.

Township considers Pontiac offer to operate cemetery

Independence Township Board will discuss operation of Lakeview Cemetery, including a proposal from George Shipper, cemetery manager for the City of Pontiac, to operate the facility at its June 5 board meeting.

Supervisor Robert Vandermark said no details had been presented but Shipper has proposed that Pontiac operate the cemetery at a net deficit of \$15,000 a year, plus the unplatted sections, clean up the buildings, and remove some of the junk.

"Lakeview was run by Pontiac on a contract basis at one time in the past," said Vandermark.

He continued, "We have no desire to turn operation of our cemetery over to Mr. Shipper, but the proposal does tell us that in view of the fact we are apparently headed toward a \$30,000 deficit in operation and that we are not achieving the things we need to achieve, we must be doing something wrong."

"Our feeling is that if the city of Pontiac through Mr. Shipper can operate efficiently, we can too," Vandermark stated.

"In a recent meeting with DPW Director Lynn Thorpe, Cemetery

Superintendent Jack Parker and Clerk J. Edwin Glennie, this proposal was discussed and feelings were expressed that the cemetery could probably operate more efficiently in view of the tentative proposal from Pontiac," he said.

Pontiac now operates Ottawa Park Cemetery in Independence Township, a facility which the city owns off the Dixie Highway.

If Tony Zografas, 6694 Shelley Drive, will call at The Clarkston News, he will receive a free pass to the Clarkston Cinema showing of "Winning" and "Joe Kidd."

Clarkston honors its war dead

"Let no ravages of time testify to coming generations that we have forgotten as a people the cost of a free and undivided Republic."

This order issued in 1868 now extends to the memory of the dead of all our wars. The custom has grown and become a part of the way of life and now includes decorating the graves of families and friends.

With these thoughts in mind Campbell-Richmond Post No. 63 invites all area residents to join in the duty of honoring those veterans who gave their lives and those who gave service to their country.

The annual Memorial Day parade will begin at the Salvation Army Church on Buffalo and Church Streets at 10 a.m. Monday, May 28 and will terminate at the Veterans Plot at Lakeview Cemetery.

Participating groups will include the American Legion Campbell-Richmond Post No. 63 and Auxiliary Unit leading with the colors and rifle squad, W.W. I

veterans riding in cars, Civil Air Patrol, Clarkston Senior High band, Clarkston Junior High band. They will be joined by Boy Scouts, Webelos, and Cub Scouts, Girl Scouts, Brownies, Campfire Girls, Boys' Brigade, Pioneer Girls, DeMolay and Jobs Daughters.

Parade formation should begin at 9:30 a.m. It is hoped that a few veterans in the community will join in the parade.

Commander Ernest Head of the Post requests that no horses, no antique autos, bikes, pets or floats enter the parade because of the solemn purpose of the parade.

Rev. Robert Walters will deliver the Memorial address and Ernest head, Commander of Post 63, will present the memorial wreath. Everett Butters will deliver the Gettysburg Address, the Clarkston High band will play the National Anthem and the Battle Hymn of the Republic, and a vocal group led by Dan Addis will sing "America the Beautiful" and "Camping on the Old Camp Ground."

Beach to open this weekend

Deer Lake Beach will be open Memorial Day weekend, according to Tim Doyle, Independence Township recreation director.

Doyle reports beach keys are the same price as last year — \$6 and not the \$5 inadvertently printed in last week's paper.

Girl Scouts two weekends ago cleaned up five barrels of trash from the area, and the Jaycees last weekend mowed and raked the property.

Doyle said this year the parking lot will be improved to accommodate all cars, and that parking will be prohibited along White Lake Road.

He said the only gate to be used will

be the one off the parking lot.

"It's an effort to provide safer conditions," Doyle said. "It has been that when families drive up and park along White Lake Road, kids pile out and scatter all over the road."

"We're endeavoring," he added, "to regulate parking so that no cars will be blocked in at the parking lot."

Deer Lake beach along with Walters Lake and four private swimming pools will become the sites of swim lessons, Doyle said. Information will be sent home from the schools the first part of June, he reported, and the program should get underway by the week of June 18.

Annual sail regatta to follow parade

Sailboats will take to Deer Lake following the annual Memorial Day parade at about noon Monday in the Annual Memorial Day Sailboat Regatta.

A skippers' meeting is scheduled one half hour after the parade at the public launching site. All sailors are welcome, and regardless of size, all boats will receive ratings based on the Dixie Inland Yacht Racing Association and North American Yacht Racing Union Handicap system.

Everyone will have a good chance at the trophies to be awarded by the Deer Lake Sail Club.

All boats are required to carry minimum safety equipment including one approved life jacket for each person aboard.

The races have been sanctioned by the Michigan Department of Natural Resources, restricting the lake to sailboats only from 9:30 a.m. to 3:30 p.m.

Additional race information may be had from Sail Club Commodore Bill Pfahler, Vice Commodore Brooke Bennett or Junior Commodore Jim Falardeau.

Motor boat owners willing to assist the race committee are asked to contact Vince Luzi.

Early deadline

Deadline for articles and advertising in next week's Clarkston News is noon Friday, due to the Memorial Day observance Monday, May 28.

Springfield bottle collection

Springfield Township bottle collection will be 9 a.m. to 2 p.m. Saturday, May 26, at Springfield Township Hall and Andersonville School.

Clarkston Youth Assistance honored these teens Thursday night for outstanding service to the community. They and their parents were feted at a dinner at Episcopal Church of the Resurrection.

Contractors ply their trade off Dixie Highway south of White Lake Road as Jaber Corp. begins construction of new apartments slated for the area.

Bus driver dismissed

Grievance procedures have been denied at two local levels over Clarkston Schools' dismissal of bus driver Mary Sweat, whose bus loaded with approximately 15 children was tipped into a swamp last Wednesday on Rattalee Lake Road near Ellis.

School officials reported a cursory check of the children showed none injured. They were able to escape the mired bus from an emergency door with the help of two unknown passers-by. A wrecker and the Fire Department power wagon were needed to extricate the bus from the mire.

School officials said the area of the accident is bordered on both sides by swamp and that recent road work by the Oakland County Road Commission had left a narrower than normal road.

They said errors in judgment had been attributed to Mrs. Sweat, employed by the district since last September.

Candidate withdraws

Robert Garner, one of six candidates who filed nominating petitions for the Clarkston Board of Education election June 11, has withdrawn from the race.

He informed the school board that "due to recent developments" he would resign and asked that his name not be shown on the ballot.

Candidates had until May 17 to withdraw and Garner's request was made May 15, so his name will not appear.

Garner explained to The Clarkston News that a job opportunity which would have assured his residency within the school district over the next four years had not come through.

He said since he didn't know for sure now whether he would be living here, he felt it only fair to the voters of the district to withdraw.

Still seeking election are incumbents W.J. Cattin and Richard L. Funk, Mrs. Iva May Sommers Caverly, Mrs. Carolyn Place, and Rev. Robert Walters.

Two positions for four-year terms are contested.

New Sashabaw lane planned to ease Pine Knob traffic

Steps to ease traffic problems in connection with concerts at Pine Knob Amphitheater were worked out May 2 in a meeting at Independence Township Hall.

Out of the meeting came a commitment from Joseph Locricchio of Indusco Corp., owner of Pine Knob, to spend \$120,000 in construction of a third lane on the east side of Sashabaw Road between I-75 and Clarkston Road.

Engineering for the project was guaranteed by the Oakland County Road Commission. The county group has also promised to improve intersections at Waldon and Sashabaw and the south freeway entrance and exit. Construction costs were limited to \$30,000.

In addition, a spokesman for the Michigan Highway Department has promised an attempt to add cloverleaves to the I-75 interchange, north of the existing ramps.

Under terms of the agreement Indusco will not be asked to participate financially in any improvement project beyond this on Sashabaw Road until after 1976, unless a new access is built to service more than the existing theater, ski resort and cocktail lounge.

The project is to be financed by special assessment bonds which Indusco will pay over the next 10 years at an interest rate not to exceed 7 1/2 percent.

County parks open for season

Groveland-Oaks, located on Dixie Highway and Grange Hall Road near Holly, and Addison-Oaks, located eight miles north of Rochester on Romeo Road, will open for its regular summer season Friday, May 25.

Both parks provide camping, swimming, and picnic areas. Day use entrance fees are \$1.50 per car for Oakland County residents and \$2 per car for non residents.

Camping fees are \$2 per night for county residents and \$3 per night for non residents.

For additional information call 338-6196.

Fay Crass, 8510 Andersonville Road, asked Dave about the proper kind of sunflower seeds to buy for birdseed production during the clinic. A constant stream of visitors kept Dave busy diagnosing such items as anemic strawberries and other garden problems.

J. Gatton, 8500 Clarridge, conferred with Clarkston News garden editor Dave Coulter about cabbage seed production during The Clarkston News' first annual garden clinic Saturday at Ritter's Farm Market.

Meet the boys in the back room.

Could be you'll recognize one of the gentlemen.

We hope so; because we want you to know we're happy they're working for us and not somebody else.

We think service managers can be just as effective salesmen as those who serve you in our showrooms. Because when we sell you a car or truck, we want you to stay sold . . . from the moment you take those brand new keys in hand until you turn 'em over to us for another Chevrolet car or truck.

So we pay a lot of attention to what's going on out back where the noise of the grease guns and air hoses and power wrenches would drive an ordinary guy right out of his mind.

But not these fellows. They love their work. And they're good at it. So good, in fact, we hope you'll come and shake hands with them soon.

Even if you don't drive one of our Chevrolet products.

What You Seek is What You Get

hill'n'gully

The acid test

by Jean Saile

Reading program good

Clarkston School Board's introduction of reading classes into the secondary level is an effort designed to improve sometimes sadly lacking reading abilities among graduating seniors.

The program calls for 105 students from each of the junior highs and the high school to be instructed in classes of no more than 15. Six teachers, two from each building, will take in-service training in August to handle the courses, even though three of them already have masters degrees in reading education.

The program is being coordinated by Gordon Keller, who

handled Clarkston's Title I elementary reading program. That program has been singled out as one of the truly effective ones in the state, and other school systems are sending observers to see how it works.

While Title I funding for next year remains in doubt, administrators are saying they are positive it will be continued here.

It's fine to see that kind of emphasis put on reading in the Clarkston School system. So much of all education depends on the ability to absorb and digest the printed word.

Assessing basis faulty

Rising assessments are the single biggest contributing factor to rising property tax bills.

The assessments, set at 50 percent of market value under terms of the state constitution and subsequent legislation, have taken off just like the price of land and building construction in this burgeoning population area.

While theoretically tax rates could be cut in conjunction with the increased assessments, it's prac-

tically impossible to do so under our current tax set up.

The only relief taxpayers will get, as long as land and construction prices keep rising, is to raise such a furor that the legislature will have to devise some measuring stick other than market value on which to base property taxes.

Square footage and cost of materials were once the basis used in some areas. Maybe that's what we should be returning to.

High school graduates, God bless 'em, never think ahead to that time 25 years hence when once again all gather to pay homage to the time Herbie Izzo blew up the chemistry lab with the homemade TNT.

High school reunions on a massive scale are the least of their concerns.

Those are the days of the unveiling — when the most popular girl in class turns out to be that plump matron sitting over there keeping her eye on a flirtatious husband; or the one who was the real dud turns up with a mink and Caesar Romero on her arm.

When the boy who barely made it through graduation shows up at the door to stand with the salutatorian and valedictorian to greet old teachers; the boy "named most apt to succeed" shows up in a frayed ensemble with an owlish look to his eyes; and the kid who couldn't spell "fiddlesticks" arrives in a Chrysler Imperial.

There's always one classmate who is making \$6,000 more a year than your boss (to hear him tell it); and the old lettermen have improved with age. The 100-yard dash drops to 18 seconds; and the swimming laps to Olympic pace-setters.

There's plenty of free advice available at a class reunion: Everything from how to succeed at the stock market to how to potty train 2-year-olds.

And while the party rages and the liquor flows, once flighty teenagers sit and compare notes on who married whom.

There are promises made at high school reunions: "We must get

together soon." Sometimes they're sincere — for the moment — and sometimes the invitation is only an effort at placing addresses, another slot on the comparison scale.

This is in effect the acid test — these reunions. Getting a diploma was duck-soup compared to the criteria used for judging who has it made and who never will during the 25th reunion.

But they can be fun — old Herbie rarely shows — the one who could have sparked interest for himself alone.

He's probably down in the basement doing push-ups, completely unaware and even unremembering.

Good old Herbie. We can still speculate about him.

"If It Fitz . . ."

Where is my milk?

By Jim Fitzgerald

The day started bad and ended worse, with late milk. Everyone has a pet peeve . . .

I had lathered my face for shaving in a Holiday Inn in Detroit. I reached in the toilet case for my razor. It was hard to find among my wife's bottles, tubes, brushes, combs, curlers, coffee pot and indoor grill. In fact, I couldn't find it.

"Where is my razor?" I screamed politely.

My wife made a hurried search and confirmed she'd done it again. She'd forgotten to pack my razor.

"Don't worry about this shaving cream on my face," I said, "my tears will wash it away."

Then we went to the ballpark to see the Tigers lose again. My daughter insisted we sit in the centerfield bleachers so she could

get the sun. I don't like to sit in the sun because my face turns red and people call me Cherry Nose. But my wife said there was no need to worry. She pulled a tube of suntan lotion out of her gigantic purse and sloped grease all over my face.

Immediately the sun went down and never reappeared.

Just call me greasy whiskers. The only decent way to sit in the bleachers is with elbows on knees, and chin in hands. My chin kept slipping through my hands and hitting my knees.

But fruitless lube jobs are not my pet peeve. Stay aboard, we're getting to that now . . .

That evening we went to a fancy restaurant for dinner. And the waitress did it to me again. I told her I wanted milk with my dinner, but she didn't think I meant it. Waitresses never believe

I am serious about milk. They will pour me 15 cups of coffee an hour. They will pot me with tea and jug me with wine. But they won't bring me a glass of milk.

Because of my wife's affliction (allergic to Betty Crocker), our family eats out a lot. The kids and Ma always watch with great trepidation as I attempt to get milk. When the waitress, as usual, fails to bring it with the main course, I remind her with great politeness that I ordered milk. I want to scream and pound the table but I don't. After all, this one waitress is not responsible for what a thousand other waitresses have done to me through the years. So, obviously impressed by my charming manners, the waitress says she'll bring the milk right away.

And then I don't see her again for 3 days.

I like to wash my food down with cold milk. So, at first, I don't eat anything, hoping the milk will appear. But the food is getting cold. So I eat it slowly, snarling all the time and eyeing the kitchen door with increasing anger. By now I know my waitress has gone out the back door to catch a train for Wisconsin where she will enroll in an agricultural college and learn how to handle a cow and she will bring my milk the day after she graduates.

And the milk will arrive in an unopened carton, along with a soda straw. Real class. But it doesn't matter. By now my family has carried me outside and dumped me in the car, a sobbing, beaten, hollow shell of the man I used to be before I was weaned.

Onward and upward

Letters to the Editor

Keep the cemetery

To the editor:

In secret negotiations with officials for the City of Pontiac, some township officials are attempting to possibly eliminate Lakeview Cemetery from the township's jurisdiction.

It's a fact that the cemetery has been a losing operation for over 125 years, but it's also a fact that 97% of all municipal cemeteries are not self-supporting, and are not expected to be. To operate in the black the prices would have to be doubled.

I believe that because my husband publicly opposed Vandermark (in favor of John Lynch) and because he has openly criticized the take-over of the Cemetery Department by the so-called D.P.W., he is being singled out as a scapegoat.

I'm thankful that my husband is now under the protection of the union, and being second on the seniority list, has

little to fear as far as a job is concerned. But it is a distinct possibility that if Pontiac does take over the cemetery, there will be lay-offs.

No, none of the new high priced administrators, but some of the labor force, and if the trend continues, soon there will be no labor force, only administrators.

After sixteen years at the cemetery do you think it fair that a five month supervisor and a three week D.P.W. chief are in a position to determine if he can or cannot operate the cemetery? I say look elsewhere to save money if this is your main objective. The rumor I heard was that you have your sights set on being the first City Manager with a substantial raise. After all, you can't have personnel making more money than you, can you?

Sally Ann Parker
24 S. Holcomb St.

Local people should be allowed cycle use

To the Editor:

Articles in the May 17th paper caught my eye especially those about Stickney hills as we live very near there and my husband rides there and my children and I have been up there many times to watch.

I agree motorcycle gangs that mess the place up should be fined or jailed for the actions they have committed. But I know four out of five of the first houses in our sub. have trail bikes and/or snowmobiles and use this area too. These men never take beer bottles, cans, etc. back in those hills. They are all licensed drivers, respectable taxpayers of the township simply enjoying the countryside. I'm sure they are not alone in liking to drive their trailbikes up Stickney, Thendara Blvd. etc. And their love for the countryside is evident in the fact that they all live in the subdivision here. To make blanket rules or laws because some riff-raff offends is wrong. Not all should be punished because of outside groups. We watch these same people littering Pine Knob road and

noise is still noise here - but no one would consider closing Pine Knob to motorcycle traffic.

I believe that people should be fined or jailed for offenses they commit wherever they commit them. But to hold everyone responsible and punish all is like the teacher who punishes a whole class for one's misbehavior. Unfair!

I have been on top of Stickney hill watching several times and on the whole -except for Sunday's- I felt the people were primarily local. I can honestly say none had bottles or cans with them - none were misusing the land. Sunday crowds were littering & more outsiders but they weren't menacing.

I don't know what an answer can be but it seems a shame for all those local people who are having a great time and not bothering anyone to have to stop using the Stickney area for the misbehavior of others.

Sincerely
Betty Deighton

Firefighters speak

The Independence Township Volunteer Fire Department was founded in 1940. The department purchased a 1940 Ford pumper at an approximate cost of \$5000. This equipment is still in use. The department consisted of 15 men, and the population was about 2,000 people.

The first available records of fires responded to was 1947 with a response to 14 calls. The first expansion program was in 1954 when the department purchased 2 more trucks and set up station No. 2 at Sashabaw and Clarkston. The department had grown to 29 men. Township population was at 6,000 people.

The department in 1967 consisted of 3 pumpers, 1 tanker, 2 grass fire trucks and 28 men. That year they responded to 102 calls at an average cost per call of \$369. Township population was 15,000 people with an equalized valuation of \$40 million.

In 1972 the department had 4

pumpers, 1 tanker, 3 grass fire trucks, 1 rescue truck and 54 volunteers working out of 3 stations. We responded to 267 calls at an average cost per call of \$257, 18 of which were false alarms which also cost \$257 each. There were 86 rescue calls and only 1 truck for response. We have only 2 trucks newer than 15 years of age. Population for 1972 was 20,000 with an equalized value of \$75 million.

In 1977 it is estimated the township will consist of 35,000 people with an equalized value of \$150 million. There will be 4760 multiple units containing 11,500 people, and 620 new homes housing approximately 2,250 persons.

We feel for proper protection for a community of that size the department should consist of 10 full time men and 60 volunteers to cover 3 stations, with 3 pieces of updated equipment at each station.

Independence Township
Firefighters Association

Respect the flag

WHEN you see the Stars and Stripes displayed, son, stand up and take off your hat. Somebody may litter. It is in the blood of some to deride all expression of noble sentiment. You may blaspheme in the street and stagger drunken in public places, and the bystanders will not pay much attention to you; but if you should get down on your knees and pray to Almighty God, or if you should stand bareheaded while a company of old soldiers marches by with flags to the breeze, some people will think you are showing off.

But don't you mind! When Old Glory comes along, salute, and let them think what they please! When you hear the band play "The Star-Spangled Banner" while you are in a restaurant or hotel dining room, get up even if you rise alone; stand there and don't be ashamed of it, either!

For of all the signs and symbols since the world began there is none other so full of meaning as the flag of this country. That piece of red, white and blue bunting means five thousand years of struggle upward. It is the full-grown flower of ages of fighting for liberty. It is the century-plant of human hope in bloom.

Your flag stands for humanity, for an equal opportunity to all the sons of men. Of course we haven't arrived yet at that goal; there are many injustices yet among us, many senseless and cruel customs of the past still clinging to us, but the only hope of righting the wrongs of men lies in the feeling produced in our bosoms by the sight of that flag.

Other flags mean a glorious past, this flag a glorious future. It is not so much the flag of our fathers as it is the flag of our children, and of all children's children yet unborn. It is the flag of tomorrow. It is the signal of the "Good Time Coming." It is not the flag of your king—it is the flag of yourself and of all your neighbors.

Don't be ashamed when your throat chokes and the tears come, as you see it flying from the masts of our ships on all the seas or floating from every flagstaff of the Republic. You will never have a worthier emotion. Reverence it as you would reverence the signature of the Deity.

Listen, son! The band is playing the national anthem—"The Star-Spangled Banner!" They have let loose Old Glory yonder. Stand up—and others will stand with you.

This tribute to the flag is offered to the country in appeal to all men and women of all races, colors and tongues, that they may come to understand that our flag is the symbol of liberty and learn to love it.

ALVIN M. OWSLEY,
Past National Commander, The American Legion.

Word from the critic

Dear editor,

Drove by the township hall the other day. What do you know, somebody seems to be building a pole barn back of the parking lot.

Now, I have read our local building ordinance several times and that building does not comply. I read somewhere that all persons were created equal—but right there it ends. Some people are exempt from the law and others must comply in a meticulous manner.

There has been some local church construction that I have seen and they were made to put it on the line, to the last nail. Now these churches do a lot of good, but this building is for a bunch of do-gooders.

If this illegal and noncomplying building is the one that high school children were supposed to build, maybe they are going in the right direction by teaching these young people to circumvent the law.

I honestly believe this building is definitely out of place, and if we see another building like it show up after the school election, we will know it is out of place.

This so-called land fill proposition certainly has a contiguous aspect. (Contiguous, that was a word introduced into the township with the Wet Land Ordinance.)

The legal preparer of this Wet Land monstrosity may of wore a mop on his head and wet land chigger cover on his face, but all this did not conceal the fact that the introductory sentence in the Wet Land Ordinance, with its approximate 150 words, was intended to dupe and confuse the people of the township.

Common sense and consideration of people's capacities would prescribe wording of a normal length and pursuance. It could be the legal

composer of this effort, having become one of the country's most expensive township lawyers, wanted to give his local patron saints a show for their money. (Sorry, I should of said, the taxpayers' money.)

Now let us get back to the SEMCOG blessed landfill thing. It is a sure thing the township could use a landfill. Now, why not explore the recommendations. It has been indicated we could use a landfill with 540 tons daily capacity.

Five hundred and forty tons loaded, with the tucking operation proceeding in a legal manner, would give you a three mile long procession of garbage trucks. Fill to capacity for a year and the procession of trucks would reach from here to Omaha, Nebraska.

That much garbage daily and at the end of 12 years, the usable area of the township would be about 14 inches deep in garbage. The usable area is about two fifths (and I don't mean whiskey) of the township. The rest is consumed by easements, parks, expressways, right-of-ways, wet land (land grab), lakes, and the litter dumping area back of the township hall.

Keep it up and at the end of 20 years the township will be a foot deep in garbage.

Now, maybe, if SEMCOG did recommend 540 tons daily they were thinking about dumping all the Detroit area garbage out here. I am for it. This affluent area needs a Bloomfield type garbage dump.

I want to thank you, because you are publishing this letter exactly as its purpuric contents are indicated.

As much as I regret it, my gall bladder is giving me so much trouble right now, I am unable to discuss some of the township clerk's pygidium affectations.

Crumbs

by townmouse

It's been a while since the township minutes were published in the Clarkston News. None of the May meetings have shown up yet. When the public business is conducted under a aura of secrecy, I get suspicious.

Public officials sometimes delude themselves into thinking that their elected offices are their private domain. I have heard supervisors refer to the

elected township board as "my" Board.

On the contrary, we expect our officials to carry on our business openly. Every scrap of correspondence belongs to the public, even those papers kept at home. Anything claimed as personal shouldn't be commingled with township files!

Somewhat self-rightously, officials will invite us to their public meetings and to inspect the files. But it is only those who have the time for it that can stay informed. Most of us must rely on that which is published.

The minutes should be published in their full text. (A Board spending what they do could hardly complain about the cost!) It would also be informative to see a synopsis of planning commission actions. Their work has significant impact on our future.

Road work suspended for holiday weekend

Motorists traveling Oakland County roads on Memorial weekend will be spared the hazards and delays of road construction.

William M. Richards, chairman of the Board of County Road Commissioners, says the Oakland County Road Commission has ordered its contractors to suspend construction work from 5 p.m. Friday, May 25, until Tuesday morning, May 29, for the safety and convenience of holiday weekend travelers.

"The only road work that will be tolerated during the weekend," said Richards, "is possible emergency work or work authorized by the Commission on relocated or detoured routes that will not hamper traffic flow."

Where projects are being constructed under traffic, he said, contractors have been ordered to remove one-way traffic sections and any other potential traffic hazards. The Road Commission will check all projects to assure compliance with signing, safety and motorist convenience requirements.

There were reportedly no injuries when this Central Transport semi truck turned over Tuesday morning on I-75 near the Dixie Highway exit. The driver apparently lost control of the vehicle and turned over into the ditch on the southbound lane.

Andersonville Memorial rites are Sunday

The annual Memorial Day services of the Andersonville Cemetery will be 3 p.m. Sunday, May 27.

Special music will be presented by members of Andersonville Community Church with Tammy Head singing one song, accompanied by Bud Dowd on guitar. Mrs. Elvin Saylor will also sing.

Rev. Richard Hazen, pastor of the Davisburg Baptist Church, will be the guest speaker.

A 21-gun salute and taps will be sounded by the American Legion-Campbell Richmond Post No. 63 of Clarkston.

At the conclusion of the services, children will place an American flag and a red geranium on each of the graves of the servicemen and women.

Behind the Counter

From Keith Hallman

Concluding our summary on prescription drugs:

Don't share your medicine with someone else, and don't take medicine prescribed for another person. Your prescription was written for you on the basis of age, weight, sex and physical condition. "Prescribing" for another person who seems to have the same symptoms can have damaging results. Only a doctor can determine which medicine (and what dosage) is right for you.

Some temporary symptoms can be relieved by medicines you buy without a prescription. Follow directions on these over-the-counter medicines as carefully as you would with a prescription drug. If the symptoms don't respond promptly, or if they recur often, consult your doctor.

Keep the label up when pouring medicine from a bottle, to prevent drippage that will make the label hard to read. Don't switch labels. And if you take a pill or capsule from more than one box or bottle at the same time, close one container before opening the other.

Never ask your druggist for a prescription drug other than the one your doctor ordered. He is not a physician, so this is both unwise and illegal.

Nor should you ask him to refill a prescription against your doctor's orders. Some medicines are habit forming. Others must have the dosage changed after a certain length of time. If your physician has not authorized refills, he has a good reason.

Teen of the week

Tami Keating

Pine Knob ticket office open Sat.

Tickets for Jerry Lee Lewis, War, Miles Davis, the Lettermen, Quicksilver and Beebe King will be on sale beginning at noon Saturday at the Pine Knob ticket office. The office will be open from noon to 8 p.m. daily for the season.

Tami Keating, daughter of Mr. and Mrs. John Keating, 4790 Riverview Drive is Clarkston Youth Assistance Teen of the Week.

A ninth grader at Sashabaw Junior High School, she is an all "A" student this year and has been on the Honor Roll for three years.

She plays clarinet in the band and is a member of the yearbook staff. Tami also is a gym assistant and participates in volleyball and basketball.

She will be confirmed in Christ Lutheran Church, Waterford.

Carole King sold out

The Carole King Concert scheduled for Memorial Day, May 28, 7 p.m. at Pine Knob Music Theatre is completely sold out.

Ms. King will appear with her special

quest David T. Walker throughout her 13 city tour. She has sold out all her

concerts far in advance for her first return to the stage in over two years.

FREE! SNAPPER MOWER

WILL BE GIVEN AWAY IN OUR FREE DRAWING

DEMO DAYS — MAY 24, 25, 26

No Purchase Necessary

W.P.O.N. MOBILE UNIT WILL BE HERE FOR DEMO DAYS!

The Snapper V21 and V18 rotary mowers. Your grass never had it so good. And neither have you.

- No more raking, because the Snapper vacuum cleans your lawn as you mow
- Side discharge chute blows walks and driveways clean and can be used in areas where bagging grass is not needed.
- Grass bag between the handles for close trimming on either side
- Available in push or self-propelled models. With or without electric start.

See one today.

TO THE GAS CUSTOMERS OF CONSUMERS POWER COMPANY

NOTICE OF GAS RATE HEARING AND NOTICE OF HEARING ON MOTION FOR PARTIAL AND IMMEDIATE RATE RELIEF

On April 18, 1973, Consumers Power Company filed an application with the Michigan Public Service Commission with supporting testimony and exhibits in Case No. U-4331, which requests authority to amend its gas rates so as to increase its gas revenues by approximately \$50,400,000 on an annual basis and, at the same time Consumers Power Company filed a Motion for Partial and Immediate Rate Relief which seeks authority, on an interim basis to amend its gas rates so as to increase its gas revenues by approximately \$33,729,000 on an annual basis. On April 18, 1973, Consumers Power Company also filed an application in Case No. U-4332 with the Commission for authority to increase its rates for the sale of electric energy. At the hearing hereinafter noticed, the application to increase electric rates, Case No. U-4332, will be heard concurrently with the application to increase gas rates, Case No. U-4331. In its application, Consumers Power Company has stated that significant increases in the cost of capital, gas, taxes, wages, equipment, materials and supplies have had a serious adverse impact upon the earnings level of its gas business and that it has not been able to attain the level of earnings in its gas business found to be reasonable in the prior gas rate order of the Michigan Public Service Commission.

The Michigan Public Service Commission has scheduled hearings on the applications filed in Case Nos. U-4331 and U-4332 and on the Motion for Partial and Immediate Rate Relief in Case No. U-4331 and has ordered that notice be given that:

A. A prehearing conference be held at 9:30 a.m. on June 6, 1973, in the offices of the Commission, Law Building, Lansing, Michigan 48913, for the purpose of exploring and, if possible, agreeing upon matters which will expedite the proceedings in Cases No. U-4331 and U-4332, including the following:

1. Determining the parties to the proceeding, the nature of their appearance and the positions they are taking in the proceeding.
2. Simplifying and defining the issues.
3. Obtaining admissions as to, and stipulations of, the facts not remaining in dispute, the authenticity of documents, and matters of public record.
4. Determining the number and identity of witnesses.
5. Specifying the schedule for the exchange of proposed exhibits and written testimony, and the reduction of oral testimony to written form.
6. Establishing procedures for the hearing.
7. Specifying a further schedule of dates of hearing.
8. Expediting any other matters that may aid in the orderly conduct of the hearing and the disposition of the proceedings.

B. A public hearing will be held at 9:00 a.m. on July 2, 1973, in the Auditorium of the Law Building, 525 W. Ottawa, Lansing, Michigan for the purpose of taking statements from ratepayers and representatives of consumer groups. Hearings will commence at 9:00 a.m. on July 3, 1973 and continue July 5 and 6, the week of July 16 and the week of July 23, 1973, in the offices of the Commission, Law Building, Lansing, Michigan 48913 for the purpose of offering in evidence the direct cases of Consumers Power Company in Case Nos.

U-4331 and U-4332, and cross-examining such direct cases of Consumers Power Company.

C. A public hearing will be held on Consumers Power Company's Motion for Partial and Immediate Rate Relief at an appropriate time during these rate proceedings, following the conclusion of the cross-examination of the direct case of Consumers Power Company and the receiving of the report of the Staff of the Commission. Notice of the precise date, time and place of said public hearing will be mailed to all participants of record in the July 2, 1973 public hearing and in the hearings commencing on July 3, 1973 in Case No. U-4331.

D. The Commission, on its own motion during the course of these proceedings, Case Nos. U-4331 and U-4332, will carry on an investigation and hearing into the existing rates, charges, revenue deficiencies or excesses, services, practices, procedures and operations of Consumers Power Company, and this investigation and hearing will not necessarily be confined to matters contained in Consumers Power Company's applications but will include all matters pertaining to the reasonableness and justness of its rates, charges, operations and practices as may be necessary to enable the Commission to determine whether the existing or proposed rates and charges are unreasonable and excessive and should be reduced or altered.

E. Any party seeking to intervene in this proceeding, in accordance with Rule 11 of the Commission's Rules of Practice and Procedure, shall file with the Commission, at least five (5) days prior to June 6, 1973, an original and eleven copies of the petition to intervene together with proof of service upon Consumers Power Company.

F. Consumers Power Company, on or before June 6, 1973, shall serve upon each intervening party a copy of the written direct testimony of its proposed witnesses and proposed exhibits as filed with the Commission, and proof of service shall be filed with the Commission on or before June 6, 1973.

G. Public hearings shall be held, in addition to the dates aforementioned, at such times and adjourned dates as shall be determined by the presiding officer until the matter has been fully heard.

H. The rate increases described in this notice have been requested by Consumers Power Company. The Michigan Public Service Commission may either grant or deny the requested increases or may grant lesser or greater increases than those requested.

Jurisdiction of the Commission in this matter is pursuant to § 4 of Act 419, P.A. 1919, as amended (M.C.L.A. § 460.54); Sections 4, 6 and 6a of Act 3, P.A. 1939, as amended (M.C.L.A. §§ 460.4, 460.6, 460.6a); and the Commission's Rules of Practice and Procedure, 1954 Administrative Code, as amended, No. 54, R 460.11 et seq.

Summaries of the proposed final and interim rate changes showing the requested increases by classes of service in terms of dollars and percentage are set forth below:

Summary of Proposed Final Gas Rate Increase

	Annual Operating Revenue		Revenue Increase	
	Normalized 12 Mo. Ended Dec. 31, 1972	Proposed	Amount	Percent
RESIDENTIAL SERVICE				
Residential Service Rate "A"	\$196,702,508	\$218,166,882	\$21,464,374	10.9%
GENERAL COMMERCIAL AND INDUSTRIAL SERVICE				
Commercial & Industrial Rate "B" and Resale Rate "R-1"	69,796,876	81,492,110	11,695,234	16.8
COMMERCIAL AND INDUSTRIAL SERVICE				
Commercial & Industrial Contract Rates "C" and Resale Rate "R-2"	74,302,490	86,392,991	12,090,501	16.3
Commercial & Industrial Seasonal Service Rate "E"	25,616,993	31,319,597	5,702,604	22.3
Commercial & Industrial Interruptible Service Rate "F"	There are presently no customers on this rate.			
Commercial & Industrial Outdoor Lighting Service Rate "GL-1"	20,211	22,844	2,633	13.0
Miscellaneous Gas Revenue	3,186,238	2,616,431	(569,807)	(17.9)
Total Operating Revenue	\$369,625,316	\$420,010,855	\$50,385,539	13.6%

Summary of Proposed Interim Gas Rate Increase

	Annual Operating Revenue		Revenue Increase	
	Normalized 12 Mo. Ended Dec. 31, 1972	Proposed	Amount	Percent
RESIDENTIAL SERVICE				
Residential Service Rate "A"	\$196,702,508	\$210,779,720	\$14,077,212	7.2%
GENERAL COMMERCIAL AND INDUSTRIAL SERVICE				
Commercial & Industrial Rate "B" and Resale Rate "R-1"	69,796,876	77,693,973	7,897,097	11.3
COMMERCIAL AND INDUSTRIAL SERVICE				
Commercial & Industrial Contract Rates "C" and Resale Rate "R-2"	74,302,490	82,544,865	8,242,375	11.1
Commercial & Industrial Seasonal Service Rate "E"	25,616,993	29,737,749	4,120,756	16.1
Commercial & Industrial Interruptible Service Rate "F"	There are presently no customers on this rate.			
Commercial & Industrial Outdoor Lighting Service Rate "GL-1"	20,211	22,460	2,249	11.1
Miscellaneous Gas Revenue	3,186,238	2,575,469	(610,769)	(19.2)
Total Operating Revenue	\$369,625,316	\$403,354,236	\$33,728,920	9.1%

Any interested persons may examine Consumers Power Company's rate application, proposed rate schedules and supporting testimony and exhibits in the offices of the Commission, Law Building, Lansing, Michigan 48913, or at the General Offices of Consumers Power Company, 212 West Michigan Avenue, Jackson, Michigan 49201. The proposed new schedules of rates are also available for inspection at any business office of Consumers Power Company.

**Consumers
Power**

The independent view

by Jean Saile

Independence Township Board meeting almost picked up some of the old excitement last week. A vociferous member of the audience, whose tonsils may have been somewhat awash, opened up and obstructed the meeting until Township Supervisor Robert Vandermark called an Oakland County Sheriff's deputy. The man, who waited in the hall until the deputy arrived, eventually left under his own power.

B.J. Hanson at Clarkston High School was nearly awarded The Clarkston News purple heart recently. He volunteered to use my camera and take some baseball action pictures because I'm not very good at ducking at line drives. B.J. barely avoided a foul ball aimed for the top of his head.

I must have picked up the telephone 17 times last Thursday while service was interrupted due to sewer construction. We never know how much we rely on something like that until we don't have it.

Another 100 parents are due to visit Clarkston High School Thursday, May 24, under a program initiated by Principal William Dennis. It's a back to school day, designed to initiate parents to the ins and outs of classroom procedure.

We hear, too, parental reaction to pre-kindergarten screening undertaken this year by the schools has been exceptionally good. Parents approve the finding out of potential problems and the health check.

Mrs. Ruth Kelsey's fifth grade Clarkston Elementary School class planned to clean up the vacant lot next to the Clarkston News Wednesday, May 23. The project came about through the class paper, "Ore Room Events", and Jay DeLude, who is pollution editor, got permission for the project.

Another one of those items we like to hear: Boston AAA Maintenance, located across from Pontiac Airport, is a carpet cleaning service advertising in the Clarkston News each week since last

October. They've informed us they feel the \$12.50 a week they spend on advertising pays for itself and then some. Good response to our advertisers is always gratifying.

Commander Ernest Head of the Campbell-Richmond American Legion Post No. 63 has a private crusade. He wants adults to stand at attention, doff their hats, and put their hands over their hearts when the color guard passes during the Memorial Day parade. "If adults do it, it might even happen that some children would, and we'd be back to paying the flag the respect it deserves," Head hopes.

Independence Township Fire Department has finally cleared away the insurance adjustment problems surrounding a 1969 tanker wrecked three months ago, and repair work has been started.

The tanker, one of the two newest vehicles in the department, is currently being replaced by a 1940 truck. Two other trunks, one of 1969 and the other of 1959 vintage, are frontline tankers at the other two stations.

We're at \$9.54 on the pennies. Lucky Fletcher keeps dropping another nickel in the pot everytime he comes in to chat, and the penny giver keeps up the flow of copper. That tree is almost ready for transplanting, once we buy it and the township acquires its new park.

Oakland County Sheriff's deputies kept the motorcycle crowd down to a bare minimum last weekend in the

Walters Lake area. Just goes to show what can be accomplished if somebody really means business.

STEAM CARPET CLEANING

Did you know that . . .

Quote: Parents Magazine

"85% of the dirt that accumulates in a room is concentrated in the carpets and rugs? The major cause of carpet wear is ground in dirt."

Now..

There is steam power extraction, a unique process of carpet cleaning which extracts all dirt from the nap and fibers of your carpets and rugs.

WE SPECIALIZE IN: Upholstery cleaning, matting and fading, burns, stains, odors, and loose seams.

For beautifully cleaned carpets:

Firemen have to practice, too

Firemen from Independence, Groveland, White Lake, Highland, Oxford, Addison, Orion and Brandon Townships burned a house on Rockwood Road Sunday, part of their lessons in three 66-hour courses being offered the men in Northeastern Oakland County.

Contest deadline is 5 p.m. Fri

The Clarkston News subscription contest ends at 5 p.m. Friday with some 300 new readers having been introduced to their local newspaper on a sustaining basis.

All young salespeople who have participated in the contest are asked to turn in the subscription blanks and money received by 5 p.m. Friday.

All those who participated will receive a McDonald's gift certificate.

Following counting and crediting of the new subscriptions, the first place Model T miniature car will be awarded; second place winner will have a choice of a black and white television set or bicycle; third place winner may choose between a tape deck or an AM-FM transistor radio; and fourth place winner will receive a rod and reel.

The Clarkston News is extremely proud of the efforts of its young salesmen, and the response from the community. Winners of the contest will be notified next week.

Roland Lovelace, 9793 Reese Road, sold 25 subscriptions to The Clarkston News last week to outdistance Larry Wright who has sold an average of about 20 subscriptions each week since the contest began. Roland receives the \$5 weekly award for the past week.

Terri Morrow, 16 [left] and Mary Hotchkiss, 17, were recently honored in Scouting ceremonies at Waterford Mott High School. Terri, who is a junior at Clarkston High School, has been in Scouting 10 years and was graduated from a one-year Leader in Training course. Mary, a senior at Our Lady of the Lakes High School, has been in Scouting 11 years and was graduated from Senior Scouts. Both girls are members of Troop 206.

Village of Clarkston Minutes of Regular Meeting May 14, 1973

Meeting called to order by President Pro-Tem Basinger.

Roll: Present - Bassinger, Granlund, Thayer, Weiss. Absent - Schultz, Wilford.

Minutes of the last meeting were read and approved.

Moved by Weiss that the following bills be paid:

P.E.P. Wages	\$ 849.24
Municipal Services	1164.82
Police Dept.	524.47
Clarkston News	33.60
Administration	16.70
Insurance	714.00

TOTAL

\$3302.83

Seconded by Granlund. Roll: Ayes - Basinger, Granlund, Thayer, Weiss. Nays - None. Motion carried.

The Council discussed the possibility of putting in curb, gutter, and storm drains on Village streets after sewer construction was completed. It was mentioned that the cost on such a project could run quite high. No action was taken.

Increasing the Operational Millage and levying an ad valorem tax to finance sewer construction was discussed.

Moved by Weiss that an ad valorem tax in the amount of 12.5 mills be levied starting on the July, 1973 tax roll for the purpose of paying bonded indebtedness, interest, and operational expense of the Clinton-Oakland Sanitary Sewage System; Clarkston-Independence Extension. This is in addition to the 2.5 mills levied for General Operational Expenses. Seconded by Granlund. Rolls: Ayes - Basinger, Granlund, Thayer, Weiss. Nays - None. Motion carried.

Moved by Granlund to adopt the revised Budget for the 1972-1973 year. Seconded by Thayer. Roll: Ayes - Basinger, Granlund, Thayer, Weiss. Nays - None. Motion carried.

Moved by Granlund to adopt the Budget for the 1973-1974 year. (A copy of this Budget is attached to the Minutes and is on file at the Village Hall.) Seconded by Thayer. Roll: Ayes - Basinger, Granlund, Thayer, Weiss. Nays - None. Motion carried.

Moved by Weiss to approve the Police Salaries as follows: Chief, \$3.75 per hour, plus \$50 monthly; Sgt., \$3.65 per hour; Patrolman, \$3.50 per hour; Auxiliary and others, \$3.00 per hour. Also, to raise Gar Wilson's salary by 5% to \$11,600 per year. These raises are all retroactive for work performed from April 1, 1973. Seconded by Granlund. Roll: Ayes - Basinger, Granlund, Thayer, Weiss. Nays - None. Motion carried.

President Pro-Tem Basinger proclaimed May 19-26 as Michigan Week. (A Copy of this proclamation is attached to the Minutes.)

The two proposed Sewer Ordinances were reviewed by the Council. Moved by Granlund to adopt the Sewage Disposal Ordinance, to be referred to as Ordinance No. 69, an Ordinance to provide for a Sewage Disposal System for the Village of Clarkston, Oakland County, Michigan. Seconded by Thayer. Roll: Ayes - Basinger, Granlund, Thayer, Weiss. Nays - None. Motion carried. Copies of this Ordinance are on file at the Village Hall.

Moved by Weiss to adopt the Mandatory Connection Ordinance, to be referred to as Ordinance No. 70, an Ordinance to provide for the connection of Premises to the Sewage Disposal System of the Village of Clarkston, Oakland County, Michigan. Seconded by Granlund. Roll: Ayes - Basinger, Granlund, Thayer, Weiss. Nays - None. Motion carried. Copies of this Ordinance are on file at the Village Hall.

President Pro-Tem Basinger made the following Committee Appointments for the 1973-74 year: Sewer and Finance - Granlund and Weiss; Streets and Police - Schultz and Thayer; Legislative and Planning - Basinger and Wilford.

The next Council Meeting will be on Tuesday, May 29th, since the fourth Monday falls on Memorial Day.

Meeting called adjourned by President Pro-Tem Basinger.

Total township costs near \$1 million mark

The cost of running Independence Township this year, once the general fund budget is added to the fire and police budgets, approaches \$1 million, township clerk J. Edwin Glennie has affirmed.

The general fund calls for an expenditure of \$831,216; the fire budget is \$95,599; and the police budget \$70,980. They total \$996,795.

The figure does not include the \$50,610 budget for the winter department, a self-sustaining fund since fees are expected to cover costs encountered.

Nor does it include the voluminous sums which will be accruing as township residents connect to sewers later this year. This fund, too, is self-sustaining, in that charges levied will be used to pay off the township's \$10 million indebtedness on the project over the next 20 or so years.

Mill Pond cleanup begun

An Independence Township Lake Board was created on request of property owners at the north end of the Mill Pond. The board gives the township the right to create special assessment districts for maintenance of the lake providing two-thirds of the abutting property owners agree. Trustee Keith Humbert was named as the township's representative to the four-man board.

Mrs. Norman Rousseau has reported that more than two-thirds of the 16 property owners around the pond have agreed in petition to seek recourse through the newly formed Independence Lakes Board.

The petitions will be delivered to the township and will be processed as soon as all members of the four-man board are appointed, according to Clerk J. Edwin Glennie.

Township eyes Oakland tax appeal

Oakland Township which has taken its assessment appeal to the State Tax Commission may have some company from Independence Township.

"Oakland recently underwent re-assessing by the county, and Independence has recently had an outside firm come in and do ours. If Oakland gets any kind of adjustment, we're going to be right there asking for ours," says Supervisor Robert Vandermark.

He contends assessments in Independence are on "a par with Oakland. Oakland is reportedly asking for either a roll back on its assessment or increases among the rest of the governmental units of the county.

The county has recently warded off a state attempt to hike property assessments throughout the county by another 7 percent. However, officials feel the state-imposed hike may occur next year.

Cougar winning streak broken by unearned runs

Sashabaw Cougars pounded out 12 hits in their best offensive show of the season May 10 for a 12-0 victory over West Bloomfield.

Jeff Ferguson collected three hits, while both Kevin Ridley and Steve Pearson had two hits.

Bill Matthews, winning pitcher, allowed only one single while striking out 13 batters and walking three.

The Cougars had to come from behind May 15 to defeat Bloomfield Hills Junior High 10-8, their fifth straight victory. Steve Howe, the winning pitcher, drove in the tie-breaking run in a four-run sixth inning rally.

The 10-hit attack was led by Todd Himes with three and Tom Ross with 2. Rod Hool hit a home run.

The Cougars wilted however on May 17 as they lost to Waterford Cray 6-3.

Fielding miscues by the Cougars led to five unearned runs in the second inning and another one in the fifth.

In a losing cause, Bill Matthews gave up only four hits while striking out seven batters.

The same problem (too many defensive lapses) also caused a 9-5 loss May 18 to Waterford Pierce. The Cougars never quite overcame a 6-run first inning, and Pierce later scored three more unearned runs. Todd Himes was losing pitcher.

Hool, Pearson and Ross each collected two hits. Ross hit a two-run homer in the second inning.

Through seven games, the four leading Cougar hitters are Ferguson batting .500; Pearson with .437; and Himes and Hool with .364.

Steve Howe has three straight victories while Bill Matthews with two victories of three has allowed no earned runs while striking out 34 batters in 21 innings.

Sue runs to 2 state firsts

Sue Latter, Clarkston High School's track star, now has four medals. She won the Girls State Track finals last weekend in East Lansing, bringing home a first in the 440 and another in the 880-yard dashes. The medals have been added to the two she won in the same events at a regional meet previously. Coach Earl Solley said Sue ran 10-15 yards ahead of her nearest competition in the 440 and was 5-6 yards ahead in the 880 against the fifth ranked high school half miler in the nation. Solley said Sue, who practices with the boys, is a much better runner than any girl he's ever seen before. "The University of Michigan girls' coach told me he hadn't seen anything like her comeback from 880 to the 440 within an hour," he reported proudly. Sue was the only double winner in the running events at the state meet. Her time was 57:1 for the 440 and 2:17 for the 880.

SPORTS
Go-Round

by Jerry Savoie

Girls' basketball is different from men's basketball in many respects. In girls' basketball, there are six or more players on a team, six being the preferred number. Five is the maximum number allowed on the men's team. The court, in women's basketball, is divided into two or three equal zones, and players of the team are divided between the zones. No woman may leave her zone and only those in the attacking zone are permitted to shoot for the basket.

If you're shooting for top quality and knowledgeable personal service, you will find them at SAVOIE INSULATION CO., 64 S. Main St., 625-2601. Carrying a full stock of both blanket or blown-in fiberglass and cellulose insulation, we can provide expert information for the do-it-yourselfer or our experienced installation crew. Milford defeats Sashabaw

By Tina Cowling
Sashabaw fell to Milford's 7th and 8th grade track team at the high school last Friday by a final score of 80-47. Sashabaw took seven 1st places. M. Jameson in the 880 yard run 2:30.9 — J. Blickensdorf in the 100 yard dash 11.4; M. Stevens in the low hurdles 13.8; M. Jameson in the high jump, 5'0"; G. Thompson in the pole vault, 8'6"; G. Thompson in the 220 yard dash, 26.8; and the 440 yard relay team of S. Brewer, D. Blower, J. Blickensdorf and G. Peltier, 52.9. Sashabaw took three 2nd places. T. Jackson in the mile run, S. Brewer in the 100 yard dash and J. Blickensdorf in the shot put. They also took three 3rd

places — S. Frasier in the 75 yard dash, S. Hool in the 440 yard run and M. Stevens in the long jump. The ninth grade lost 103-10. Brian DeQuis took a first in the 440-run with a record breaking time of 57.0 seconds. Steve Smith took a 2nd place in the low hurdles and there were two 3rd places — B. DeQuis in the 880 yard run and J. Atkinson in the mile run.

Vollbach named Rotary president

Clarkston Rotary has elected Jim Vollbach president for 1973-74. Jack Frost is vice president; Charlie Robinson, secretary; Bob Newlin, assistant secretary; Darwin Johnson, treasurer; and Tudor ApMadoe, Jerry Bradley, Bill Dennis and Ron LePere, directors.

Women, girls ball teams organized

About 25 interested women ballplayers turned out for a first organizational meeting last week and they're looking for more.

Hopes are that a league can be formed, but if not, Recreation Director Tim Doyle says games will be arranged with surrounding area teams.

More than 100 girls have signed up for softball, and an organizational meeting has been called for 4 p.m. Thursday at Field 6, Clarkston Elementary School. Teams will be organized at that time.

Wildlife at the club

A timid chipmunk eyes the camera warily from beneath a bush at Waterford Hill Golf Course.

Al Hanoute open at Clarkston course

Tickets are now on sale for the 4th Annual Al Hanoute Open Golf Tournament Saturday and Sunday, July 28 and 29 at Clarkston Golf Course, 9241 North Easton Road.

Entry fee is \$10 for both men and women on the handicap 18 hole medal play course. Entries have been limited to 500.

The program will include golf, a buffet dinner and presentation of trophies.

All proceeds from the event will benefit the Lake Orion Lions Club.

6th team needed for slow pitch league

Men's softball league has fielded five teams and is looking for a sixth, according to Tim Doyle, Independence Township Recreation Director. The slow-pitch league is due to take to the fields June 3, and anyone interested in fielding a team must sign up by May 29.

The league will play for 12 weeks at 7 p.m. on Sundays. A \$40 sponsor fee plus a \$6 resident fee for players or a \$10 non-resident fee is required.

5 teams need sponsors

There are still five baseball teams for boys needing managers and sponsors.

Independence Township Recreation Director Tim Doyle says 72 teams have been fielded, as compared to 49 last year.

Any boys, aged 7 to 18, who have signed up but still don't know what team they're on are asked to report to field 6 at Clarkston Elementary School at 5 p.m. Tuesday, May 29.

NOTICE

ORDINANCE NO. 70

AN ORDINANCE TO PROVIDE FOR THE CONNECTION OF PREMISES TO THE SEWAGE DISPOSAL SYSTEM OF THE VILLAGE OF CLARKSTON, MICHIGAN; TO PROVIDE FOR THE IMPOSITION, COLLECTION AND ENFORCEMENT OF FINES AND IMPRISONMENT, FOR FAILURE TO CONNECT; AND TO PROVIDE FOR OTHER MATTERS RELATIVE TO SAID SYSTEM AND TO THE USE THEREOF.

THE VILLAGE OF CLARKSTON, ORDAINS:

SECTION 1.01 Whenever used in this ordinance, except when otherwise indicated by the context:

- (a) The term "Village" shall be construed to mean the Village of Clarkston and the term "County" shall be construed to mean the County of Oakland, both in the State of Michigan.
- (b) The term "Council" shall be construed to mean the Village Council of said Village of Clarkston, the legislative and governing body thereof.
- (c) The term "sewage disposal system" shall be construed to mean the Clarkston Sewage Disposal System established and constructed by the County.
- (d) The term "system" shall be deemed to refer to the said sewage disposal system located within the Village of Clarkston.
- (e) The term "available public sanitary sewer" shall be construed to mean a public sanitary sewer system located in a right of way, easement, highway, street or public way which crosses, adjoins or abuts upon the property and passing not more than 200 feet at the nearest point from a structure in which sanitary sewage originates.
- (f) The term "structure in which sewage originates" or "structure" shall be construed to mean a building in which toilet, kitchen, laundry, bathing or other facilities which generate water-carried sanitary sewage, are used or are available for use for household, commercial, industrial or other purposes.

SECTION 1.02 Public sanitary sewage systems are essential to the health, safety and welfare of the people of the State and the Village. Septic tank disposal systems are subject to failure due to soil conditions or other reasons. Failure or potential failure of septic tank disposal systems poses a threat to the public health, safety and welfare; presents a potential for ill health, transmission of disease, morality and potential economical blight and constitutes a threat to the quality of surface and subsurface waters of the state and the Village. The connection to available public sanitary sewer systems at the earliest, reasonable date is a matter for the protection of the public health, safety and welfare and necessary in the public interest which is declared as a matter of legislative determination.

SECTION 2.01 The said system shall be used for the collection and transportation of sanitary sewage only. Downspouts, footing drains, weep tile, or any conduit that carries storm water or ground water, along or in combination with sanitary sewage, shall not be connected to the system, directly or indirectly. Industrial and commercial waste shall be discharged into the system only in compliance with the standards and regulations of the County.

SECTION 3.01 Structures in which sanitary sewage originates located in the Village in the area served by the system for which there is an available public sanitary sewer of the system shall not be used or occupied, after the effective date hereof, unless said structures are connected to the sewage disposal system: Provided, that structures within the Village in which sanitary sewage is originating on the effective date hereof or in which sanitary sewage originates before availability of the system or any part thereof to serve said structure shall be connected to said system within twelve (12) Months after publication of a notice by the Village in the Clarkston News, a newspaper of general circulation in the Village and County, of the availability of the system.

Plats for premises subdivided into Three (3) or more lots or parcels, after the effective date hereof, shall not be approved on behalf of the Village and none of said lots or parcels shall be improved by the erection of a structure thereon unless lateral sewers to serve all of said lots or parcels, and to connect same to the system, are available as part of the system or shall be installed at private cost (or the estimated cost thereof deposited with the Village) in the manner, size and location approved by the Village.

SECTION 4.01 When the structure in which sanitary sewage originates has been connected to an available public sanitary sewer system before use and occupancy or within the Twelve (12) Months period provided in this Ordinance the Village shall require connection to be made forthwith after notice, which may be by first class or certified mail or posting on the property, to the owner of the property on which the structure is located. The notice shall give the approximate location of the public sanitary sewer system which is available for connection of the structure involved and shall advise the owner of the requirements and of the enforcement provisions of this Ordinance.

SECTION 4.02 This Ordinance shall be known and may be cited as the "Clarkston Extension of Clinton-Oakland Sewer Connection Ordinance".

SECTION 5.01 Where any structure in which sanitary sewage originates is not connected to an available public sanitary sewer system within 90 days after the date of mailing or posting of the written notice, the provisions of this ordinance shall be enforceable through the bringing of appropriate action for injunction, mandamus, or otherwise, in any Court having jurisdiction. Any violation of this ordinance is deemed to be a nuisance per se.

SECTION 6.01 Any person, firm or corporation convicted of disposing of sewage in a manner contrary to the provisions of this ordinance, or failing to connect with an available public sanitary sewer as provided herein, or in any other way violating the provisions of this ordinance shall be guilty of a misdemeanor, and subjected to a fine of not to exceed \$100.00 or imprisonment in the County jail for a period not exceeding 90 days or both such fine and imprisonment, in the discretion of the Court, together with costs of said prosecution.

SECTION 7.01 If any section, paragraph, sentence, clause or phrase of this ordinance shall be invalid, the same shall not affect any other part of this ordinance.

Steve Hammond, sixth grader at Sashabaw Junior High School, has a delightfully noisy new toy. Called a Kabonger, it's turning into the latest playground fad.

PEEKIN' into the PAST

25 YEARS AGO IN THE CLARKSTON NEWS
May 21, 1948

On Tuesday, Melva Shiels entertained at a double miscellaneous shower honoring Marjorie Collins who will become the bride of Thomas Cox and Mrs. Nelson Schmidt (Eleanor Oswald), a recent bride.

Born to Mr. and Mrs. F. V. Strother, an 8 lb. 3 oz. daughter, Mary Josephine.

With a big six run, second inning upsurge, Clarkston defeated Log Cabin 10-6, thus putting them in 1st place.

10 YEARS AGO IN THE CLARKSTON NEWS
May 23, 1963

Six ninth graders will appear on TV Channel Seven's "Starlet Stairway". The performers are Nick Gura, Rick Richards, John White, Russ Simonson, Merlin Green, and Paul Hoxie.

Mr. and Mrs. Lewis Went of M-15, Clarkston celebrated their 6th wedding anniversary May 18th.

SECTION 8.01 All ordinances and resolutions or parts thereof, insofar as the same may be in conflict herewith, are hereby repealed.

Made and passed by the Council of the Village of Clarkston, this 14th day of May, A.D., 1973.

EFFECTIVE: May 24, A.D., 1973

Bruce Rogers
Village Clerk

I hereby certify that the foregoing constitutes a true and complete copy of Ordinance No. 70 duly adopted by the Village Council of the Village of Clarkston, County of Oakland, Michigan, at a Regular Meeting held on May 14, 1973 at which all Councilmen were present except Schultz & Wilford and that public notice of said meeting was given pursuant to Act No. 261, Public Acts of Michigan, 1968, including in the case of a special or rescheduled meeting notice by publication or posting at least Twelve (12) Hours prior to the time set for the meeting.

I further certify that Councilman Weiss moved adoption of said Ordinance and Councilman Granlund supported said motion.

I further certify that the following Councilmen voted for adoption of said Ordinance Basinger, Granlund, Thayer, Weiss, and the following Councilmen voted against adoption of said Ordinance None.

I further certify that said Ordinance has been recorded in the Ordinance Book of the Village and that such recording has been authenticated by the signatures of the President and Village Clerk.

I further certify that said Ordinance was published on the 24th day of May, 1973, in the Clarkston News.
Dated 5/16/73

Bruce Rogers, Village Clerk

Lake home with a view

COUNTRY LIVING

by Betty Hecker

The California style ranch home of Terri and Lou Schieter and their son, Douglas, is set into a wooded hillside near Deer Lake.

Their elegant, green carpeted living room has a gold on white brocade traditional sofa and matching settee. Three marble top tables, imported from Italy, are unique with beautifully carved bases. The entire end wall is covered with antique silk drapes, pulled back to view the redwood, sundeck and the glasstopped, wrought iron patio furniture.

To highlight this room, Terri chose one red velvet Queen Anne chair.

The red is carried throughout the house, but is most predominant in the open kitchen and family room. Red placemats at the counter eating area, red chair pads, even red salt and pepper shakers add brightness in the modern kitchen.

The family room features red in the large area floor rug, the table cloth on the drop leaf table, and in red candles and flowers.

Family room windows on either end of the large room, plus a doorwall, lead to the back patio and sundeck. The view is lovely, the backyard terraced with rock and railroad ties.

The master bedroom has a green velvet spread on the Ethan Allen four-poster and green silk drapes. Terri made curtains from bath towels for the private bath.

Doug's room is bright: red, white, and blue wallpaper, and typically a boy's room, with G.I. Joe and his equipment on the dresser.

An unusual rug, made of llama hair, is a gift from her brother, Father MacDonald, a priest who lived in Bolivia for six years.

Terri said, "It's a real conversation piece, and can you imagine, he brought it home all folded up in his suitcase." The hand sewn rug was created by using different colors of llama hair, making circles and stars. The center circle contains a silhouette of a llama.

Downstairs, Lou built himself a "pool hall". The spacious recreation room is paneled in grey, rough barnwood with white ceiling and light panels, and is furnished with black and white plaid sofa and chair.

Lou also built the bar, with padded leather arm rests, and leather stool seats.

But, Lou's real love is fishing, not shooting pool.

Terri said, "We've lived in the Clarkston area for 16 years, and four years in this house. Lou has always worked out of the area, and I thought that when we were planning to move last time, that we would move closer to Detroit. But Lou wouldn't leave Deer Lake. He loves it."

PD, ADV.

by Bob & Geri Wertman

Stiff putty got you stuck? Don't fret. In most cases, kneading and slight warming will make it soft and pliable. Work the putty vigorously between your hands until it is ready to use. If you put the putty in a plastic bag first, your hands will not get oily or stained. If the putty is really hard, add a few drops of linseed oil to the putty in the bag and work vigorously until it softens. A few minutes and the putty will be like new.

Frequent visits to BOB'S HARDWARE, 60 S. Main St., 625-5020 for supplies and advice will make your do-it-yourself projects far easier. Our quality includes Stanley hand tools, Sentry power tools, Master padlocks, Amerock hardware, and a complete selection of paints and painting supplies. Hours: 8-6, Mon.-Sat.

HELPFUL HINT:

Put flour on your hands first and fresh putty won't stick to your hands when you use it.

Home Gardening

by Dave Coulter

There is little doubt that tomatoes are the number one home garden vegetable in the cities, the suburbs, villages and farms. There are few communities that lack a good supply of quality grown plants that encompass a wide range of varieties. Certainly this is true of Oakland County.

The Beltsville, Md., station of the U.S. Department of Agriculture, the universities of Delaware, Florida, California, Ohio and Purdue and the major tomato processors and seedsmen have committed millions of dollars in research money to develop new and better tomato varieties that solve problems.

For instance, there are several new varieties of tomatoes commonly known as "Jointless." These varieties pick from the vines without leaving the stems and sepals (or calyx leaves) on the fruit. Other varieties are coreless to enable canners to can them whole without the fruit collapsing. Some varieties have 80% or more of the fruit mature at one time so they may be harvested mechanically.

However, commercial plant growers, garden center owners and you, the home gardener, are creatures of habit and tend to grow and buy what you most easily remember. So you buy varieties whose names are alliterative — such as Bonnie Best and Big Boy, or varieties that have been in use a long, long time such as Marglobe or Rutgers, and sometimes you buy a variety just because the plants look vigorous and sometimes you get a tomato that is yellow or pear-shaped and not the type you wanted.

Getting the newer and better varieties to you is extremely complicated and slow. For instance, Royal Ace is a tomato variety widely used by commercial growers in southwestern Michigan. It is a large fruited, globe-shaped, a rich red color, firm,

County denies

Deer Lake plan

The Oakland County Planning Coordinating Committee has recommended a denial for rezoning of the north end of Deer Lake to accommodate 1500 living units and commercial area.

Spokesmen for the County Planning Department said denial was based on the grounds of probable pollution to Deer Lake, the density proposed in relationship to the local development plan and the immediate area involved, and the timing of the water and sewer services available.

smooth and with a short core, having a fleshy interior. But if it was taken on by a garden center, they would have to "sell" each plant; and the garden stores lack the time and qualified personnel to do this. So unless you grow your own plants, and that's battling at a sticky wicket, it's hard to try new and better varieties.

There are about 400 or 500 recognized varieties of tomatoes, and narrowing this range down to a few to be recommended is a touchy problem. In as much as it's too late to start your own plants to try new varieties, about the best I can do is to establish some guidelines to help those who haven't already set out their plants.

Tomato plants should be chosen that are freestanding with firm stems, fresh appearing medium to rich green stems and I prefer to use plants that haven't yet bloomed. Plants without flowers respond more quickly to the shock of transplanting than those in flower or fruiting, and will produce fruit almost or as quickly as larger plants.

Studies at Michigan State University confirm my attitude toward this problem. Many growers use a "popup" liquid fertilizer which would be low in nitrogen and high in phosphorous and potassium. This may be used as a drench or it may be applied as a foliar feeding.

When I transplant tomatoes, I break from the stem the first true leaves (these are not serrated) and transplant them just a bit deeper in the soil than from where the leaves were picked. Be sure the plants are set firmly and water them in. Apply more water when the leaves wilt or curl. Avoid the use of high nitrogen fertilizer. A 5-20-20 fertilizer is good and some suppliers provide a balanced tomato food with the needed micro elements and calcium to keep the fruit firm.

Peppers like hot feet, whether they produce pleasingly placid peppers or peppers potent enough to panic the palate. So when you transplant peppers, set them no deeper than to the soil line (on the stems) in the medium in which the plants were grown. Neither should you hoe nor cultivate deeply about the plants — just cut off the weeds. To increase your yield of peppers side dress them with a 10-6-4 plant food after the first fruit set.

Peppers, as do tomatoes, come in wide range of sizes, shapes, colors and potency. Here follows a range of recommended varieties.

Large Sweet Bell (Mangos if you're from the south) are Ida Belle, Resistant Keystone Giant.

Medium sized Sweet Bell are California Wonder, Yolo Wonder.

Yellow Longs are Sweet Banana or Romanian or Yellow Long Sweet.

Sweet Rounds is Sweet Cherry. Hot Longs are Hungarian Yellow Wax and Red Cayenne.

Extra Hots are Red Chili, Floralgem and Serrano Chili.

By and large, the major pest of peppers is corn borers. If they become a problem, consult your garden center pesticide expert or phone the

Agricultural Extension people at the county complex.

It was pleasing to me to meet so many of you at the Clarkston News Garden Clinic at Ritter's last Saturday and the quality of the questions you asked indicated to me your own expertness. Mrs. Daile put a lot of effort into this project and so did Tom Ritter; they should be commended. Thank you for coming.

Bride's gown is handmade

Carolyn Lee Jorgensen made her full length A-line gown with train for her wedding Saturday to Neal Everett Mansfield at Calvary Lutheran Church. Fashioned of white cotton eyelet trimmed with lace, the dress featured a mantilla floor length veil.

She is the daughter of Mr. and Mrs. Richard Jorgensen, 6880 Bluegrass. Her husband is the son of Ben Mansfield of Lake Orion and Mrs. Roger Patterson of 7965 Sashabaw Road.

Gale Leslie Jorgensen served as maid of honor with Jeanne Elen McCurry and Vickie Lynn Jose as bridesmaids. Mark Robert Taylor was best man with Roger Thomas Patterson, Dr. Gajannan Nilaver and Charles Robert Jorgensen seating guests.

Following a luncheon reception at White Lake-Oaks, the newlyweds left for a trip to Florida and Freeport, Bahamas.

Calvary dedicates classroom facility

Calvary Lutheran Church will dedicate its new class room building at the 10:30 a.m. worship service Sunday, May 27. The structure, which houses eight classrooms, is located adjacent to the church.

The building is electrically heated and air conditioned, carpeted and divided by movable walls that allow use of eight rooms or two 20 by 40 foot rooms.

Purchased as modular units from the Highland Park Board of Education, the building was installed by Robert J. Taylor of Clarkston. Electrical work was done by church members Richard Butler and Harry Hoffman; interior walls by church member Wendell Larsen and men from the congregation; carpeting by church member George Tuson; sidewalks by Wayne Bisballe; and staining and painting by men of the congregation.

Cost of the new facility was \$14,000 and the congregation, with professional help, has raised \$10,000 toward the facility in the last year.

The community has been invited to an open house from 2 to 6 p.m. Sunday in the school.

Rev. Robert Walters said, "We have added much needed, well built space without a great debt load — a tribute to the resourcefulness and generosity of our members."

Women's Club to serve coffee and cookies

Coffee and cookies will be served to downtown Clarkston shoppers Friday by members of the Clarkston Community Women's Club.

The treats are offered in observance of Hospitality Day, a part of Michigan Week.

The club has recently elected Linda Irwin president for the coming year. Pat Booth will serve as vice president; Marilyn Mallet as secretary; Sally Lamm, corresponding secretary; Gail Ferguson, treasurer; and Connie Morgan, board member.

The year's activities will draw to a close with the annual luncheon and installation of officers June 13 at Pine Knob.

Immunization clinic

An Immunization Clinic is to be held at Independence Center, 5331 Maybee Road, on June 7, and June 21 from 1 p.m. to 4 p.m. This service is being offered to infants, pre-schoolers and school age children by the Oakland County Department of Health. There is no charge.

The next clinics are scheduled for July 5 and July 19.

For further information, call Independence Center at 673-2244, or the Oakland County Department of Health, 332-9255.

"Springing up"

Surprise, surprise!

by Betty Hecker
625-5726

Joy, the 15-year-old daughter of Diane and Lewis Wint, surprised her parents with a party to celebrate their wedding anniversary.

"We have never been so touched, or pleased or so proud in our lives," Diane reported.

Joy had planned the food, sent the invitations to more than 40 of her parents' friends, and had been hiding things (like napkins, paper plates, balloons and streamers) in her closet for weeks.

"She even had a bouquet of daisies on the table. The bridesmaids carried daisies when we were married. She thought of everything."

Bill helped his sister decorate the house and set up chairs.

A Sunday evening cookout was held to honor Charles and Lucille Reichert, who are moving away. The Leigh Bonners and the Clark Soulbys planned the party and invited nine couples to say farewell to the Reicherts, 26-year residents of Clarkston. They will be going to Tennessee, and Lucille said, "There were some comments and teasing about 'You ahl come and see us some time, hear?'"

She also said, "It was a very nice party and we appreciate it very much. We have known these people so many years."

Mr. and Mrs. Ed Ross and their son, Ronald are settling into their temporary quarters, waiting for their new house to be completed.

The former lifetime Clarkston residents have opened a garden supply business in Roscommon, Michigan. Their Clarkston friends wish them "Good Luck."

Kelly Ann Lynch is a patient at Pontiac General Hospital. She will be

confined for at least another week, and would like to hear from some of her friends at Clarkston Junior High School. Kelly is in room 325B.

The Glen Sommers family went to Port Huron last weekend for a well drillers convention. Like all conventions, the exhibitors gave away cokes, pens, balloons to the children, etc.

When the men were being entertained with "shop talk," the convention had planned bingo games for the women, but Zona (Glen's wife) preferred to go shopping.

I hear there is a great knit and yarn shop in Port Huron! Am I right, Zona?

At the last Clinton Valley Barracks meeting, it was reported that the Catans have returned from their winter in Florida. Laila Rohloff and the Rioux have returned from a two month western trip, and that Jessie Coleman is home from her winter vacation.

Russel Coon was reported to be in Flint Osteopathic Hospital, and Lorna Little of Davisburg is in Crittenton Hospital in Rochester.

Mollie Lynch, daughter of Shirley and John of Eastlawn, has finished her junior year at Central Michigan University. Mollie was this year's editor of the college yearbook, and the school officials feel that it is the best published in years. Mollie is waiting to hear if it wins any awards.

Mollie arrived home in time to turn around, pack and start out on a 10-day hike. The hike is a field credit, and the hike is on the Appalachia Trail.

Mollie and Shannon Lynch have received their assignments at the American Legion Auxiliary Girls State, being held at Oliver College and beginning June 8. They will be

attending as consultants.

A Girls State tea was held Sunday, May 20 at the Auburn Heights American Legion Post Hill Gazette, Unit No. 143.

Attending from the Clarkston area and sponsored by the Campbell Richmond Unit No. 63 were Kim Hamilton, daughter of Vicki Hamilton, Nancy Riddle and her mother Evelyn Riddle, Beth Tower and her mother, Dawn Tower.

Nancy Seffens was chairman, and Shirley Lynch is the 18th District President.

The Department Director presented a program of slides, informing the 60 girls and mothers in attendance what to expect during girls' week as a Stater.

The girls will be learning about our government at all levels, from township up to the state level. They will be learning by participation, by campaigning, running for all the offices (even dog catcher), by having an election, and discussing current topics.

William R. Hamilton, son of Mr. and Mrs. William Hamilton, 36 East Church, has received an appointment to West Point Military Academy class of '77. He will graduate next month summa cum laude from Clarkston High School.

Alpha Gamma Chapter of Delta Kappa Gamma Sorority was represented last weekend at a convention in Detroit by Mrs. Bernard Mousseau, Mrs. P. J. Hanson, Jan Gabier, Mrs. Fred Davison, Mrs. Lynn Jervis and Mrs. Leslie Purslow.

The women had charge of a memorial service Sunday morning. Donald J. Stageman, son of Dr. and Mrs. John C. Stageman, 6065 Middle

Lake Road, will graduate from Wayne State University Medical School May 26 in Ford Auditorium, Detroit. He'll intern at St. Joseph's Hospital in Ann Arbor.

Rev. Fr. Lawrence F. McCulloch, who said his first Mass not so many years ago at Our Lady of the Lakes Church, has been assigned to the Maryknoll missions of Central America. He will attend the Maryknoll Language School in Cochabamba, Bolivia, before taking up his assignment. Fr. McCulloch is the son of Mr. and Mrs. Lawrence McCulloch of 4109 Windiate Park Drive, Waterford.

Kirk L. Peters, 6391 Church; Gary R. White, 9689 Pine Knob; and Tamara Trese, 5390 Oakhill, are among the 100 Oakland University students who have renewed their prestigious Student Life Scholarships for the 1973-74 year, the university announced.

Pam Gillis, daughter of Mr. and Mrs. Louis Gillis of Perry Lake Road, was graduated, May 12 from Central Michigan University with a B.S. in education. Pam majored in business education and has a minor in health education.

Calvary Lutheran Church Mother-Daughter Banquet committee composed of Lee Bey, Carol Bixby, Elaine Mann, Lois Navaare, Carol Skillman, Jo Vaara, Bev Walters and Rosemary Yake are receiving compliments for the dinner and program which drew 101 mothers and daughters May 16 at the church.

The serving and clean-up committee involved the men, Chuck Mills, Dave Bixby, Mel Vaara, Lars Larsen, Jim Kiso and Roger Graves.

Antique show gathering dealers

The 8th Annual Antique Show and Sale sponsored by the Women's Society of the Clarkston United Methodist Church will be Thursday and Friday, June 7 and 8, with doors opening at 11 a.m.

PTA officers attend workshop

North Sashabaw Elementary School hosted the first Officer Training Workshop May 15 sponsored by the Clarkston Area PTA Council.

Purpose of the workshop was to give job training and guidance to incoming PTA officers and committee chairmen. It was attended by new officers from Andersonville, Dailey Lake, North and South Sashabaw, and Pine Knob Elementary Schools and by council officers.

Ferndale and Royal Oak PTA officers also attended.

District 7 Director Marge Sands discussed effective leadership in the PTA and showed a film concerning areas of potential PTA involvement.

Experienced PTA members from Pontiac, Royal Oak, Clawson and Ferndale led individual discussions groups.

The 25 dealers will be exhibiting and selling collectors' items, jewelry, tinware, glassware, pewter, copper pieces, brass, prints, and woodenware in Americana and primitives.

Mrs. Vaun Walton, dealer chairman, has carefully selected the dealers for the show, making countless phone calls and personally seeing some of the dealers.

After a day in the Lapeer, Dryden, and Metamora area, she said, "It was one of the most enjoyable days I've ever spent. The antique dealers I've contacted were very friendly and helpful. If they weren't able to do the show, they would give me names of other people that might be able to come."

The popular Tea Room will begin serving at noon on both Thursday and Friday.

Gymnastics club

Girls gymnastic club will meet at 9 a.m. Saturday at Clarkston Junior High School and will continue to meet the second and fourth Saturdays of the month until the end of school.

Independence Township Recreation Director said club participants must have completed gymnastics 1 and 2 offered last fall and winter or pass an introductory test.

Connie Walton, Clarkston United Methodist Church antique show dealer chairman, and son, Steven, are home after a day of meeting antique dealers in Lapeer and booking them for the local show and sale June 7 and 8.

Spiritual Message

We celebrate Memorial Day under new circumstances this year. At the same time that we remember those who gave their lives to defend our country, we are painfully close to the end of a conflict in Vietnam that many of us would rather forget.

The very forces that have helped

keep us free as a nation led us to believe that we could enforce our wills all over the world. Unwilling to stoop to totally destructive savagery, we found we couldn't. But rather than being ashamed to admit we were wrong, I'm proud that our free country could admit a mistake and

disengage, without the destructive tantrum (even use of nuclear arms) that a dictator could unleash.

This Memorial Day can be important to us for two reasons:

1) To thank God for and member those who have fought and given themselves for our country, and

2) To ask him for faith and clarity of sight to realize that war is not inevitable and not the best way to solve national disagreements.

We can be proud of our warriors even as we see war in a new and sobering perspective, and stop kidding ourselves that God endorses our bloodshed. Armies and war are a result of our false pride, sin and self-centeredness — not of God's will.

Isaiah's prophecy points us to our Father's will when he says that his servant "will wear the belt of justice."

"Then shall the wolf live with the sheep, and the leopard lie down with the goat; the lamb and the young lion shall grow up together, and a little child shall lead them."

Combining rural with suburban living

A barn at the Bellairs home on Big Lake Road exudes a charm consistent with the countryside.

Clarkston News

*The Clarkston (Mich.) News
Thurs., May 24, 1973 25*

Increasing home size

Would you like to increase the size of your home with little expense and effort?

You can with outdoor lighting, according to D. Newton Glick, landscape architect and urban planner at Michigan State University. "With outdoor lighting, your yard, porch, garden, pools, terrace or patio will add extra living space to your home," says Glick.

There are several other advantages to lighting the outdoors. Sports, barbecues and games can be enjoyed in the cool of the evening. Large guest lists are no problem when the great outdoors becomes your entertaining area.

Outdoor lighting makes your home and garden a showplace after dark, and it prevents accidents and discourages trespassers. Moreover, garden enthusiasts can work in the cool hours after the sun has disappeared, says Glick.

Border lights, mushroom lights and floodlamps enhance grounds and provide more room for living and entertaining. Portable spotlights make star attractions of trees and shrubs.

Background area should not be strongly or uniformly floodlighted, although visual boundaries should be defined with specific lighting. Avoid continuous even light; it defeats depth effect. "White light is very effective for outdoor lighting," says Glick. "Flowers are more vivid and foliage is a lighter, brighter green."

Every gardener has at least one feature that can be of special interest — a statue or sculpture, a natural wood fence, a beautiful tree, a swimming pool or a group of shrubs.

Remember that even in terraces and patios, low wattage lamps are required for comfort and full enjoyment. If lighting equipment can't be totally concealed, it should be as inconspicuous as possible. Above all, the fixtures should harmonize with the surroundings in concept, form and color, says Glick.

Don't let darkness hide your yard. Join the ranks of outdoor lighting enthusiasts and step into an entirely new world of beauty, fun and relaxation.

Realtor Week May 20-26

"I'm a failure; She's lazy: He flirts; She won't talk with me; He stays out late." Sound familiar? These are some of the main points of friction within a marriage.

"If your school age child is acting up, ask yourself why. Why is he or she hitting others? Why is he having tantrums or withdrawing into sullen silence? Why does he truant and aggravate you and others?"

"The adolescent stage of life is characterized by the need to know 'Who am I?' In their quest to find out, your kids may break rules and regulations, have unexplained mood changes, and by constantly challenging

your values cause ongoing family tensions."

These are just three of the areas in which the Oakland County Child and Family Services, and Catholic Social Services help make problems more

tolerable. The two agencies are available at independence center, 5331 Maybee Rd. Clarkston, for counseling. They have professional counselors at the center who see clients by appointment.

673-2244

"People helping people help themselves"

By Holly Stephens

Pre-marital counseling, personality adjustment, drugs, old age counsel, alcoholism, unwed parents, foster home care, and adoption are other needs these agencies help people to sort out and deal with in adjusting to life.

Anyone wishing to take advantage of this counseling service may call the center for an appointment. The fees for this professional counseling are covered under Blue Cross, or adjusted according to income level for those without insurance coverage.

JOBS - The center has several calls requesting people for odd jobs, such as sitters, mothers helpers, lawn care, etc. At present there is a need for a weekend companion for a semi-invalid.

Meet the McAnnally force!

GALE McANNALLY

Gale McAnnally, owner of McAnnally Realty Company. Gale is a member of the national, state and local brokers' associations, who adhere to the highest code of business ethics. McAnnally Realty Company is in new offices at 39 S. Main Street, Clarkston.

CHARLENE BACH

Charlene Bach has lived in this area for 18 years, is married and has two children. She is president of Big Lake Cooperative Extension Group and a member of the Clarkston Eagles. Her hobbies are bowling, sewing and boating.

ISABELLE BANSEN

Isabelle Bansen is a resident of Independence Twp. and has been for several years. She has two sons, the younger attending Junior High School. Her hobbies are golfing, bowling and chess. She is originally from the Benton Harbor area.

LOLA STROM

LOLA STROM is a life long resident of the City of Pontiac and is single. Before entering the real estate business she was a secretary for a number of years at McManus, John and Adams. Her hobbies are sculpting, golfing and bridge. She is a member of Gloria Dei Lutheran Church.

PAT CHETTLEBURGH

Pat Chettleburgh is secretary for McAnnally Realty Company. She moved to Clarkston one year ago from Sylvan Lake in Pontiac. Married, she has two children attending Clarkston Elementary School. She is a member of Clarkston Child Study Club, and Central United Methodist Church. She enjoys their travel trailer, bridge, sewing, bowling, water skiing and is learning to ride a new Honda motor bike.

KENNETH GOTTSCHALL

Kenneth Gottschall has resided at 8939 Dixie Highway, Clarkston, for the past 16 years. Married, they have one married daughter living in Detroit. He is a member of the Davisburg Rotary Club.

BEA WATSON

Bea Watson has been a Waterford Township resident for the past 13 years and is married with four children and four grandchildren. She enjoys sewing in her spare time and is a member of the Unity Church.

ELISABETH BRANNSTROM

Elisabeth is newly affiliated with McAnnally Realtors. She graduated Bar-Loch College in Stockholm, Sweden, and has continued her education at O.C.C. in Rochester. She has worked as a teacher, guide, interpreter and secretary. Her interests are in foreign languages, history, antiques, ballet and she belongs to Questers, Inc., A.A.U.W. of Birmingham, and the National Trust for Historic Preservation.

Our part-time sales associates:

Edward Matusko, Paul Moody, Charles Anderson, Bill Talbot, James Wilcox, Conrad Fulherson, Connie Fulherson, William "Buzz" McLean, Willaim McLean, Sr., Doris "Skipp" McLean and Paul Zeleznik

The McAnnally family:

Gale and Judy McAnnally have 3 children, Blair, Bryant and Joy Lynn, ages 7, 4 and 2. They live on Perry Lake Road just north of Clarkston. Judy graduated from Clarkston schools (she was formerly Judy Sowerby). Gale graduated from Pontiac High School and attended 2 years at Flint Community College, business administration. He lived in the area at Silver Lake and Dixie Hwy. until he married. His sales experience extends back 15-18 years.

Recent years in the real estate field have been with O'Neil Realty and Bateman Realty and he has had his own office in the new Milzow Building since July of 1972. Hobbies and other interests are flying, hunting, fishing and all kinds of sports. Judy's interests take in things like sewing, home decorating, a card club and of course, the children above all. She will enjoy being active in the business when the responsibilities at home lessen.

McAnnally Real Estate

39 South Main Street
Clarkston 625-5000

Merritt W. Rockwell

Merritt W. Rockwell, 59, of 2598 Litchfield, Drayton Plains, a band saw operator at GMC Truck and Coach Division, died May 18. He was a member of Pontiac First Baptist Church and had served with the Army in the Pacific Theater during World War II.

Surviving are his wife, Hazel M.; and children, Arthur R. and Rochelle R. Rockwell, both at home.

Funeral services were Monday from Sharpe-Goyette Funeral Home with Rev. Robert Shelton officiating. Burial was in Lakeview Cemetery.

CAMPING SPOTS

There still are 500 openings for Boy Scouts at the Clinton Valley Boy Scout Council's summer camp at Lost Lake Scout Reservation near Lake, Mich.

Awana Club has ceremony

Presentation of awards for the first year of the Awana Club at First Baptist Church, 5972 Paramus, will be 7 p.m. Sunday, May 27.

Parents have been invited to see the club members, composed of boys and girls in the third through eighth grades, receive awards.

Widows and widowers meet

Organization of a new group for widows and widowers only has been announced by Pontiac Chapter of Parents Without Partners. The group will meet at 8 p.m. May 31 to discuss "The Beginning After the End." Further information is available by calling 673-6402 after 7 p.m.

Hail Hail the gang's all here..... or almost.

(Bob's so busy selling, we couldn't catch him long enough to take his picture!)

Introducing our present staff... and we're growing rapidly.

Bob White

has been your broker in this area for 27 years. When he is not selling real estate you will find him fishing on Deer Lake or hunting at his lodge in northern Michigan. The Whites are long time residents of Clarkston.

Marvel White

is co-broker and office manager of Bob White Real Estate. The office and sales force call her "The Grande Dame" of real estate. Marvel lives on Clarkston's Deer Lake with her husband and their two sons. She keeps track of all office transactions and is in charge of closings.

Mike Dorman

comes to us from Rolfe H. Smith Co. Real Estate via Lawyer's Title Insurance Corp. As sales manager for Bob White Real Estate, his duties are many and diverse. He and his wife, Ilse live in Waterford Twp. with their two children.

Helen Rossano

moved to Clarkston from Grand Rapids in 1957. She has had her real estate license for five years and has been with Bob White since 1970. She has a particular interest in Clarkston property as one of our historical homeowners on North Main Street.

Donna Breckenridge

our secretary has the most seniority at Bob White Real Estate, having been an employe for five years. She and her five children live on Paramus just five minutes from the office and attend St. Daniel's Church.

Pat Davidson

has just arrived! She recently passed her real estate exam and is ready and eager to start in full time. She lives on Eastlawn in Clarkston with her husband and two children. She enjoys bowling and embroidery as hobbies.

Gail Myers

has worked full time for Bob White Real Estate, Inc. for over a year. A resident of Waterford Twp. She is a member of the Our Lady of the Lakes serving on the parish council. She and her husband Don have three children and lead an active outdoor life.

Bob White Real Estate, Inc.

5856 South Main Street 625-5821 Clarkston

Evening office hours planned for the summer

Mountains of junk collected

A mountain of junk was accumulated at the Ben Powell landfill last week as Independence Township residents unloaded themselves of a year's collection of trash.

LET ONE OF OUR SALES ASSOCIATES SERVE YOUR REAL ESTATE NEEDS

TERESA HOOPENGARNER

This is Theresa Hoopengartner here, hoping to fill your real estate needs. I reside in Clarkston, and have for the past seven years. I have a lovely family consisting of my husband, Ray, two daughters, Debbie and Darla and a son, Barth. My previous real estate experience was in Hillsdale, Michigan. I'll be waiting for your call at 625-3300.

RUSTY REEKWALD

I'm Rusty Reekwald and have lived in the Clarkston area for 7 years. I have been in real estate for 4 years. Hal and I have 6 children and 3 grandchildren. For all your real estate needs see us at Clarkston Real Estate.

JOE HENDRICKS

I'm Joe Hendricks. I came to Clarkston four years ago on my honeymoon and fell in love with Clarkston, too! I had been in business for myself for many years in Connecticut. My wife, Jean and I went back, sold my business, and moved here. After taking the real estate course at Oakland University and passing the exam, I acquired my experience over the past years with local brokers, and with Bekkering out of Flint. We call Clarkston home now and our trips East are strictly to keep count of our growing families. Jean and I have thirteen children and grandchildren by the dozens. I'll be more than happy to find your dream house for you. Just call the office and ask for Joe.

GEORGE GRAY

Hi! I'm George Gray (in case we haven't met.) It's a pleasure to announce that I am now a sales associate at Clarkston Real Estate, 2 Main St., Clarkston, Michigan. I've lived in Clarkston over 17 years with my wife, Janice, and we have five children. I've been active in Cub Scouts and Boy Scouts here and also in the Clarkston Village Players. I was formerly at the Higgins Pontiac Co., Ferndale, Michigan for nearly 25 years. I would sincerely appreciate being of service to you in any of your real estate needs. Please call me at 625-3300.

Clarkston Real Estate

Carter

& ASSOCIATES INC.

OWNERS:
DAVE CARTER, Broker

OFFICERS AND ASSOCIATES:

JOHN REED
ARON WRIGHT
TONY BROWN
DAN PROCTOR

625-8440

682-5551

MASTER CRAFT CUSTOM HOMES

DAN PROCTOR

Manager and Associate Broker. Dan has been in the real estate profession for 4 years. His wife, Diana is a salesgirl in the Carter & Associates Waterford Branch. Both Dan and Diana have lived in Oakland County all their lives, married 7 years and have 4 boys. Dan is a graduate of Realtors Institute of Michigan and has been granted the right to use the designation G.R.I. He has also completed the Bill Russell Institute for Brokers and is an associate director of the Pontiac Area Board. Dan's hobbies are boating and golf and he enjoys talking with people about investments in real estate.

CAL TRATHEN

Cal Trathen joined Carter and Associates in January, 1973. Prior to that he was employed by Bateman Realty. Cal is married and has three married daughters. He has been a resident of Birmingham for over 30 years and has worked in industry in the fields of engineering, sales and management. He is also a member of Pontiac and Detroit Federation of Musicians.

GWEN THOMPSON

Gwen Thompson, who has just joined the staff of Carter & Associates, is new to the real estate field. Married and living in Pontiac, she chose real estate as a career because of a sincere interest in people and a love of homes both new and old. Her hobbies include sewing and cooking and she enjoys being with family and good friends.

LYNDA ZEAHAR

Lynda Zeahar has recently joined Carter and Associates, having been in the profession previously. She enjoys working with people in all phases of real estate. Originally from Rochester, she currently resides in Drayton Plains with her husband, Mike, son Michael and their Russian Wolfhound, Tasha. She enjoys sewing, cooking and all of the seasonal sports in the area.

ROBERT C. GREEN

Robert C. Green, 25, was born in Pontiac and has lived in the area most of his life. A resident of Waterford Twp., he is a member of Central United Methodist Church. A newcomer to Carter & Associates, he has been involved in real estate business for approximately 2 years. He loves children and for 2 years has worked with the Easter Seal Society for Crippled Children and Adults in Oakland County. He plans to resume college studies this summer and study real estate law. Camping, hunting, fishing and especially boating at home on Cass Lake are his hobbies. He has a son, Michael, age 3.

We're proud to be in Clarkston and eager to serve you..

MARTHA WHEELER

Martha Wheeler is a member of a real estate family. Both she and her husband, Dennis, are engaged in the business of marketing real estate. Martha and Dennis reside in the Lotus Lake area of Waterford Township. They have 2 children, Mike, 11 and Kelli, 9. She enjoys snowmobiling and all water sports, when time permits. However, Martha points out when both husband and wife are in real estate they live, eat and breathe it. Martha says her son wants to go into real estate also.

GARY BASS

Gary Bass, married 7 years with 2 boys, has lived in the Clarkston area for 18 years. He just joined the staff of Carter & Associates. He has been a police officer for the City of Pontiac for 5 years.

CHUCK KIRKEN

Chuck Kirken resides in Ortonville, is married and the father of three children. He has been selling real estate for the past four years. He attended Central Michigan University and was a material foreman at Pontiac Motor prior to joining Carter & Associates. His main hobby is sports, including snowmobiling and being involved in the Ortonville Little League.

TOM DE QUIS

Tom has just joined the Clarkston staff. He has been married for 10 years, has one daughter and has worked for Oakland County for ten years. He already sold a house his first week on the job and plans on selling many more! Tom has lived in Oakland County all his life and is a confirmed tennis player.

DIANNE HAGGERTY

Dianne has been with Carter & Associates for 1½ years. She is presently attending the Russell Institute brokers' preparation course and hopes to get her broker's license by July. Dianne, her husband, Mark and their 3-year-old son, Mark Jr. presently live in Drayton Plains. They are planning on moving to a farm in Clarkston in order to have the horses that they both enjoy. Dianne enjoys working in all phases of real estate, but especially enjoys farms, vacant land and new homes.

We are so darn proud of our sales staff... they are ready to help you with all your real estate needs. Call on us, you can depend on us!

Complete Real Estate Service

Early blooming tulips add a rainbow of color to the front yard of the Fee Kart home on Waterford Hill.

Students recount trip

At 5 a.m. Friday May 11, our group of 48 seniors were anxiously awaiting a chartered bus which would take us to destination unknown.

Once aboard the bus and out of Clarkston Village limits, the class sponsors Ed Johnson and Mrs. Barbara Gibson, passed our envelopes containing the schedule for the next 2 days. After lots of "oohs" and "aahs" we were on our way to Montreal via train. If there is one thing we learned during the trip, it was how to entertain ourselves on a train. Altogether we traveled 1750 miles on 6 trains.

Our first two days of the trip were spent at the Sonesta, a 21 story modern luxury hotel in the heart of Montreal. After a 7-course dinner by candlelight, we left in small groups for sightseeing in the downtown area.

The following day we discovered that Montreal is the second largest city in North America. It's a blending of modern skyscrapers and the 18th century French quarter. One of the highlights of our bus tour was a visit to the Church of Notre Dame patterned after the cathedral in Paris. Most of Notre Dame is 23½ karat gold engraving and wood carving. Not a single nail was used in construction. It also contains a huge pipe organ. Some of the group attended Sunday's high mass.

Later in the day we enjoyed more free time which was spent in shopping (Montreal is the fashion center of the New World), and sightseeing. That evening we enjoyed another fine dinner at a French restaurant and then left in groups for dancing and parties.

Sunday morning and afternoon were spent in preparation for the second leg of our journey. Once more we gathered together and opened our envelopes. We had reservations on the 5 o'clock train to Quebec City. Once in Quebec we stayed at the Chateau Frontenac, an 18th century castle converted to an elegant hotel. The Chateau overlooks

the entire city and the St. Lawrence seaway.

Monday was spent seeing the quaint old city, complete with its narrow cobble stone streets, and old stone buildings with outside stairways. There are two parts of Quebec, Upper Town, built on a slope and Lower Town, containing the port, where British, Soviet, and American ships were harbored. On our last evening we dined in the hotel and later had a party at a nearby pub.

On the whole, we enjoyed ourselves very much. The trip passed without any serious mishaps. On the contrary, many guests at the hotels, complimented our sponsors on our maturity and good manners.

New bottle center under construction

A new collection center for Bottles for Building is being constructed behind the Independence Township Hall, 90 N. Main. Some of the labor is being handled by Oakland County Jail trustees. Hopes are that since Bottles for Building is a total community effort that federal funds may be made available for the center.

Bottles for Building has collected more than 650 tons of bottles and glasses which have been sent to the Owens Illinois Glass Co. in Charlotte. The sum of \$6,000 received for the glass has been put in a trust for a community activities building to be constructed on land designated for a new township park.

People wishing to contribute to the bottle collections may do so between 10 a.m. and 2 p.m. every Saturday. Workers will be at the site to help unload aluminum, glass and paper.

(left to right)

Shirley Carpenter and Amor Wilson seated, Don Carpenter, Mary Carpenter, Dorothy Carpenter and Dick Burleson.

AMOR WILSON resides with her husband, Jim, on Wormer Lake. She has been with Carpenter's since August. Her interests are golf, fishing and travel.

MARY CARPENTER has been with Carpenter's since March. Mary has four children and lives in Union Lake.

DOROTHY CARPENTER has been with Carpenter's Real Estate since March. She resides in Avon Township with her husband. They enjoy bowling, golf and fishing.

DICK BURLESON of Ortonville has been in real estate since last Sept. Formerly affiliated with the Burleson Barber Shop in Drayton Plains. In

his spare time he enjoys motorcycling and playing the guitar.

BRENDA SULESKY, presently active with Carpenter's Real Estate, resides at Jayno Heights with her husband, Ted and their two children. Her interests are boating and sewing, and she loves entertaining and selling real estate.

they and their two sons enjoy hunting, fishing, motorcycling and the rest of the outdoor sports, when not actively engaged in a growing business. A member of the Board of Realtors, Carpenter's offers complete real estate service.

WHY I AM PROUD
of Michigan
by
Brenda Hopson

I'm not exactly PROUD
Of Michigan, you see
It's just like any other state
Up north of Tennessee.
Sure, we've got some scenery
With hills and woods and lakes;
The wildlife is plenty
With deer and birds and snakes
But the thing I like 'bout Michigan
Is the weather—here's my reason:
There's something new
For all to do
With every passing season.
In wintertime
It is ski-doo's;
In springtime biking
Is the news.
In summer we
Head for the pools
In fall we're forced
To invade the schools

There's so much more
I cannot list;
Of the morning sun
On the evening mist.
Of the rippling of rivers;
The chirping of a bird;
No one's sung
A better song
That I have ever heard.
I guess I lied
When I first said
I wasn't proud of Michigan;
I could go on
But I'll stop now
I guess I've done
More than begun.

Michigan

Michigan is
The land of snow
In the wintertime;
It's a place of heat
And bare-footed feet
When summer's
in its prime.
It's a place of lakes
And rivers galore
Where the fish are great
And the smog is poor.
It's a place for ski-dooing
Canoeing and fun
It's a place of enjoyment
For everyone!

I'm sort of proud of Michigan because of the history it has had. My fore-fathers tramping through the snow, to the fort they had. Indians fighting for their rights, on battle beaten land.
Big Mac, Tahquamenon Falls, Au Sable River. That's my Michigan to Jay. And I'll live up to this great state in which I stay.

Notice**SEWAGE DISPOSAL ORDINANCE NO. 69****VILLAGE OF CLARKSTON, MICHIGAN**

AN ORDINANCE TO PROVIDE FOR A SEWAGE DISPOSAL SYSTEM FOR THE VILLAGE OF CLARKSTON, OAKLAND COUNTY, MICHIGAN; TO PROVIDE FOR CONNECTION NOW OR HEREAFTER OF PREMISES IN THE VILLAGE SERVED BY SUCH SYSTEM; TO PROVIDE FOR THE IMPOSITION, COLLECTION AND ENFORCEMENT OF FEES AND CHARGES FOR CONNECTION TO AND AVAILABILITY THEREOF AND FOR CHARGES FOR SEWAGE DISPOSAL SERVICES THEREFROM; AND TO PROVIDE FOR OTHER MATTERS RELATIVE TO SAID SYSTEM AND THE USE OF ITS FACILITIES FOR THE PRESERVATION OF THE PUBLIC HEALTH SAFETY AND CONVENIENCE.

The Village of Clarkston Ordains:

SECTION 1. Whenever used in this Ordinance, except as otherwise indicated by the context:

(a) The term "Village" shall be construed to mean the Village of Clarkston, and the term "County" shall be construed to mean the County of Oakland, both in the State of Michigan.

(b) The term "Council" shall be construed to mean the Village Council of the Village of Clarkston, the legislative and governing body thereof.

(c) The "area" served by the system shall be deemed to be the entire Village of Clarkston.

(d) The term "system" shall be construed to include the entire sewer system located within the Village of Clarkston.

(e) The term "sewage disposal laterals" and "laterals" shall be construed to mean the Clarkston Extensions of the Clinton-Oakland Sewage Disposal System established under Act 185 of Michigan Public Acts of 1957, as amended, to be constructed by the County under a certain contract dated September 1, 1970, between the County of Oakland and the Village of Clarkston, together with all additions and extensions of such new construction and all existing laterals as hereinafter defined in following sub-paragraph (f) and additions and extensions thereto.

(f) "Existing laterals" shall be construed to mean all sewer laterals in a safe and efficient operable condition existing on the date of enactment hereof and applied by the County.

(g) "New construction" shall be construed to mean the laterals to be constructed pursuant to contract dated September 1, 1970, between the County of Oakland, the Village of Clarkston and any and all future additions and extensions thereof and present and future extensions of the Clinton-Oakland Sewage Disposal System-Clarkston Independence Extension which are being built by the County under contract with the Village now or hereafter.

(h) The term "sewage disposal services" shall be deemed to refer to the collection, transportation, treatment, and disposal of sanitary sewage emanating from premises now or hereafter in the area served by the sewage disposal laterals.

(i) The term "unit" shall be that quantity of sanitary sewage ordinarily arising from the occupancy of a single family residence. The number of units or fractional parts thereof to be assigned to types of usage other than single-family residential use shall be defined or determined by the Council from time to time, as hereinafter provided. Said determination of units shall be based upon studies made relative to the quantity of sewage generated by different types of use and occupancy of premises and shall be kept up to date and revised as needed and as new studies are made and through experience gained by the Village in actual operation of the Sewage Disposal System.

(j) The term "charges for sewage disposal services" shall be deemed to mean the amount charged to each premises in the area served by the laterals for sewage disposal services which may include a debt service factor.

(k) The term "inspection, approval and tap fee" shall be deemed to mean the amount charged to each applicant by the Village to cover the cost of inspecting and approving the physical connection to the system and the issuance of connection permit.

(l) The term "premises" shall be deemed to mean the lands included within the boundaries of a single description as set forth from time to time on the general tax rolls of the Village, as a single item in the name of the taxpayer or taxpayers at one address whether such property be taxable or exempt from taxation, but in the case of platted lots shall be limited to a single platted lot unless a building or structure is so located on more than one lot as to make the same a single description for purposes of assessment or conveyance now or hereafter.

(m) The term "structure in which sanitary sewage originates" or "structure" shall be construed to mean a building in which toilet, kitchen, laundry, bathing or other facilities which generate water carried sanitary sewage, are used or are available for use for household, commercial, industrial or other purposes.

SECTION 2. All sewage disposal laterals and existing laterals shall be used for the collection and transportation of sanitary sewage only. Yard drains, patio drains, catchbasins, downspouts, weep tile, perimeter and footing drains or any other structure used for the collection and conveyance of storm water and/or ground water shall not be permitted to discharge into any sanitary sewer connected directly or indirectly to the County System, except as provided under Section 3.

SECTION 3. Perimeter footing drains from buildings existing on or before December 16, 1968, that were legally permitted and connected to a sanitary sewer system in the Village of Clarkston prior to December 16, 1968, shall not be required to disconnect from the sanitary sewer system; providing, however, that roof waters from the buildings permitted and connected in accordance with this section shall not discharge into any flower or shrub bed adjacent to the building wall nor upon the ground within five (5) feet of the building wall. Where local setback, side yard or rear yard requirements result in the building being located less than five (5) feet from the property line, then the downspout shall be discharged in a manner approved by the Village building inspector. The downspout piping used in connection with roof waters from the buildings permitted under this section shall be affixed to the building and installed in such a manner as shall be approved by the Oakland County Department Public Works.

The surface of this ground around such buildings permitted and connected in accordance with this paragraph shall be sloped in such a manner as to provide positive drainage of all roof and surface waters away from the building. Said slopes shall be uniform and shall be such that the elevation of the surface of the ground at a point ten (10) feet from the base of the building is a minimum of six (6) inches lower than the ground elevation at the base of the building wall. Where local setback, side yard, or rear yard requirements would result in the

building being located less than ten (10) feet from the property line, then the surface of the ground shall slope away from the building wall at a uniform minimum slope of 5/8th inch per foot and in a manner approved by the Village building inspector.

SECTION 4. All Industrial and commercial waste may be discharged into the system only when in compliance with the standards and regulations of the Oakland County Department of Public Works and in compliance with standards and regulations as established by the City of Detroit.

SECTION 5. The house connection sewer extending from the lateral sewer in the street or easement to within five (5) feet from the house or other building from which sewage emanates shall be:

(a) 6" full diameter Extra Strength Vitrified Sewer Pipe manufactured in accordance with current N.C.P.I. Designation ER 4-67 Standard; or equal, with Oakland County Department of Public Works approved premium joint; or

(b) 6" diameter Class 2400 Asbestos Cement Pipe with ring-tite, fluid-tite or Oakland County Department of Public Works approved joint; or

(c) 6" diameter, service strength, cast iron soil pipe with hot poured lead joint, or Oakland County Department of Public Works approved equal, or

(d) Other pipe and joints as may be approved by the Oakland County Department of Public Works;

(e) Copies of the Oakland County Department of Public Works approved joints shall be on file at the offices of the Village of Clarkston;

(f) All house connection sewers shall be 6" minimum diameter, except that 4" pipe of comparable strength and joint material may be used when such meets all requirements of the Oakland County Department of Public Works and of the Village of Clarkston. All joints shall be tight and when tested for infiltration, or exfiltration, shall not exceed the requirements of the Oakland County Department of Public Works. Copies of such rules and regulations shall at all times be kept in the offices of the Village of Clarkston.

(g) The iron pipe inside any building or structure shall be plugged and leaded and remain plugged and watertight until such time as the plumbing is carried on to the first floor, the basement, if any, backfilled and the roof is on said building thereby preventing water from entering the sanitary sewer from the excavated basement or other excavated area beneath said building.

SECTION 6. In addition to the standards previously established it shall be unlawful to permit or cause the flow of any of the following substances into the sanitary sewer system of the Village:

(a) Any stone dust, sand, dirt, gravel, sawdust, metal filings, broken glass, or any material which may cause or create an obstruction in the sewer.

(b) Gasoline, benzene, fuel oil, or any petroleum products or volatile liquids.

(c) Milk or any liquid milk waste products in quantities in excess of ten (10) gallons during each twenty-four (24) hour period.

(d) Any toxic, volatile or aggressive substance.

(e) It shall be unlawful to cause or permit to flow into the sanitary sewer system any cyanide, phenols or any other chemical or substance which interferes with or prevents the functioning of a sewage treatment plant.

SECTION 7. Every building or premises used or occupied by any sewer used where any commercial or industrial operations are conducted or permitted which result in the discharge into the sanitary sewer system of the Village of any of the products, waste products or other substances in the manner and to the extent prohibited in this ordinance, shall be equipped with an adequate and suitable catch basin, grease trap, filter or other interceptor, installed in such a manner that the products, waste products or other substances herein set forth will not flow into or be discharged into the sanitary sewer system. It shall be unlawful to permit the flow of waste from such building or premises into the sanitary sewer system. It shall be unlawful to permit the flow of waste from such building or premises into the sanitary sewer system unless such interceptor is installed in good working order.

SECTION 8. The admission into the public sewers of any waters or wastes having (a) a five (5) day biochemical oxygen demand greater than 300 parts per million by weight of suspended solids, or (b) containing more than 350 parts per million by weight of suspended solids, or (c) having an average daily flow greater than 2 per cent of the average daily sewage flow of the Village, shall be subject to the review and approval of the Village. Where necessary, the owner shall provide, at his expense, such preliminary treatment as may be necessary to, (a) reduce the biochemical oxygen demand to 300 parts per million and the suspended solids to 350 parts per million by weight, or (b) reduce objectionable characteristics or constituents to within the maximum limits provided for in section 4 or (c) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the engineer and no construction of such facilities shall be commenced until said approvals are obtained in writing.

SECTION 9. The number of units to be assigned to any particular premises used for other than single-family residential purposes shall be determined by the Council and its decisions shall be final. Said Council, if the circumstances justify, may assign more than one unit to a single-family dwelling. No less than one unit shall be assigned to each premises. Units in excess of one may be computed and assigned to the next whole number of a unit. Once premises have been connected to the lateral, subsequent changes in the character of the use or type of occupancy of said premises shall not abate the obligation to continue the payment of charge. The Council may, in its discretion by resolution increase or decrease the number of units assigned to said premises and thereupon any additional charge by such increase in units of fractional parts thereof shall be payable at the time such change in use occurs, on the subsequent quarterly billing.

SECTION 10. The schedule of units generated by different types of use and occupancy shall be determined and established as provided for in section 9 and may, from time to time, thereafter be amended, by the Council, providing however, that such change shall never in any way be contrary to the obligation and limitation set forth in any contractual agreement, pertaining to the laterals, between the Village and the County, or contrary to the obligations of the contract between the Village and the County pertaining to the Clinton-Oakland Sewage Disposal System.

REVENUES AND CHARGES**SECTION 11.****DEBT RETIREMENT**

The council shall each year levy an ad valorem tax upon all taxable property (Real and Personal) in the Village, taking into consideration delinquent tax collections, an amount sufficient to pay the fixed debt retirement charges due and payable under contracts previously entered into with the County of Oakland by the Village for the acquiring, constructing and financing of the Clarkston-Extensions of the Clinton-Oakland Sewage Disposal System and the Clinton-Oakland Interceptor. The tax levy may be reduced by user fees which are ordained and earmarked for debt retirement purposes.

SECTION 12. Rates to be charged for service furnished by the Village

shall be as follows:

SEWER USE CHARGES

Sewer use charges to each single-family residential premises served by the system shall be in the flat amount of \$21.25 per quarter. Each premise other than a single-family residence shall pay a quarterly charge of \$21.25 multiplied by a factor or unit representing a ratio of sewage use by such class or premises to normal single-family residential sewage use.

The Village Council shall adopt and revise from time to time a schedule of such single-family residence (unit) equivalents or ratios; provided, however, that the minimum quarterly charge to any premises shall be \$21.25.

SPECIAL RATES

For miscellaneous or special services, not covered hereunder for which a special rate shall be established, such rates shall be fixed by the Village Council.

BILLING

Bills will be rendered quarterly on February 1, May 1, August 1, and November 1, payable without penalty within thirty (30) days after the date thereon. Payments received after such period shall bear a penalty of five per cent (5%) of the amount of the bill, per month.

ENFORCEMENT

The charges for services which are under the provisions of Section 21, Act 94, Public Acts of Michigan, 1933, as amended are made a lien on all premises served thereby and are hereby recognized to constitute such lien, and whenever any such charge against any piece of property shall be delinquent for six (6) months, the Village official or officials in charge of the collection thereof shall certify annually, on March 1st of each year, to the tax-assessing officer of the Village the facts of such delinquency, whereupon such charge shall be by him entered upon the next tax roll as a charge against such premises and shall be collected and the lien thereof enforce, in the same manner as general village taxes against such premises are collected and the lien thereof enforced and no further service shall be rendered such premises until a cash deposit in the amount of \$63.75 shall have been made as security for payment of such charges and service.

In addition to the foregoing, the Village shall have the right to shut off sewer service to any premises for which charges for sewer service are more than six (6) months delinquent, and such service shall not be re-established until all delinquent charges and penalties and turn-on charge, to be specified by the Village Council, have been paid. Further, such charges and penalties may be recovered by the Village by court action.

SECTION 13. The owner of any premises within the area served by the laterals shall pay such permit and inspection fee as may be established by the Village Council, which fee shall reimburse the Village for any and all cost necessary to issue a permit and inspect the connection of said premises. This fee shall be in addition to all other charges and fees set forth herein.

SECTION 14. The operation, maintenance, alteration, repair and management of the System shall be under the supervision and control of the Village Council and administered as a regular department of the Village government. The Village Council may employ such person or persons in such capacity or capacities as it deems advisable to carry on the efficient management and operation of the System and may make such rules, orders and regulations as it deems advisable and necessary to assure the efficient management and operation of the system.

The Village Council may contract to have the above services performed if it so desires.

SECTION 15. All revenue derived hereunder shall be set aside as collected and deposited in a bank duly qualified to do business in the State of Michigan in an account to be designated "Clarkston Extensions of Clinton-Oakland Disposal System Receiving Fund" (hereafter referred to as "The Receiving Fund") and said revenues so deposited shall be transferred from the Receiving Fund to such other funds as are herein established in the manner and at the times hereinafter set forth.

A. OPERATION AND MAINTENANCE FUND

Out of the revenues in the Receiving Fund there shall be first set aside quarter-annually into a separate account designated "Operation and Maintenance Fund," a sum sufficient to provide for the payment of the next quarter's current expenses of administration and operation of the system and such current expenses for the maintenance thereof as may be necessary to preserve the same in good repair and working order.

B. BOND AND INTEREST REDEMPTION FUND

Out of the revenues in the Receiving Fund there shall next be set aside quarter-annually into a separate account designated "Bond and Interest Redemption Fund," a sum not less than one quarter of that amount necessary to meet the next annual payment of interest and bond redemption.

C. IMPROVEMENT AND RESERVE FUND

Out of the revenues in the Receiving Fund there shall lastly be set aside once annually into a separate account designated "Improvement and Reserve Fund," such sums which shall be in excess of the needs and requirements of the "Operation and Maintenance Fund" and the "Bond and Interest Redemption Fund," such excess to be held for the purpose of improving, enlarging and extending the Clarkston Extensions of the Clinton-Oakland Sewage Disposal System and for the purpose of providing a reserve fund for all future payments of interest and bond redemption.

SECTION 16. All monies belonging to any of the foregoing funds or accounts shall be deposited and maintained and such record keeping system related thereto, as provided by Act 2 of the Public Acts of 1968, known as the Uniform Accounting System for Local Units of Government.

SECTION 17. In the event monies in the Receiving Fund are insufficient to meet the requirements of the "Operation and Maintenance Fund," or the requirements of the "Bond and Interest Redemption Fund," then such funds or securities in the "Improvement and Reserve Fund" shall be transferred to either or both of such funds to the extent of any deficit that might exist therein.

SECTION 18. Monies in any fund or account established by the provisions of this Ordinance may be invested in such securities as may hereafter be permitted by law. In the event such investments are made, the securities representing the same shall be kept on deposit with the bank or trust company having on deposit the fund or funds from which such purchase was made. Income received from such investments shall be credited to the fund from which said investments were made.

SECTION 19. All funds received under this Ordinance, from the Clarkston Extensions of the Clinton-Oakland Sewage Disposal System, shall not, under any circumstances, be co-mingled with any funds received by the Village of Clarkston.

SECTION 20. No free sewage disposal facilities or services shall be furnished to the Village or to any person, firm or corporation, public or private, or to any public agency or instrumentality.

SECTION 21. The fiscal year of the System shall be the calendar year.

SECTION 22. This ordinance shall be known and may be cited as the Clarkston Extensions of Clinton-Oakland Ordinance.

SECTION 23. The provisions of this Ordinance shall be enforceable through the bringing of appropriate action for injunction, mandamus, or otherwise, in any Court having jurisdiction. Any violation of this Ordinance is deemed to be a nuisance per se.

SECTION 24. If any section, paragraph, sentence, clause or phrase of this Ordinance shall be held invalid, the same shall not affect any other part of this Ordinance.

SECTION 25. Ordinance No. 39 of the Village of Clarkston, known as the Sewer Ordinance enacted by the Village of Clarkston, known as the Sewer Ordinance enacted by the Village of Clarkston on December 9, 1946 and made effective on January 1, 1947, is hereby repealed and rescinded in its entirety.

SECTION 26. All ordinances and resolutions or parts thereof, insofar as the same may be in conflict herewith, are hereby amended or repealed, as necessary.

SECTION 27. The Village specifically reserves the right to amend this Ordinance in whole or in part, at one or more times hereafter, or to repeal the same, by such amendment or repeal to abandon, increase, decrease or otherwise modify any of the fees, charges or rates herein provided, with the understanding, however, that the adoption of this Ordinance or its subsequent amendment or repeal shall in no wise change, relieve or release the contractual and legal obligation of the Village, (1) to make the required payments to the County of Oakland under and as set forth in any contract pertaining to the Clinton-Oakland Sewage Disposal System; the Clarkston Extensions of the Clinton-Oakland Sewage Disposal System, and any improvements, extensions and enlargements thereof or under applicable law; or (2) relieve or release the contractual and legal obligation pursuant to said contract and applicable law to levy a tax; or (3) to use any other means or available funds to make the required payments to said County, and this Ordinance shall not be deemed to be a part of any contractual obligation or bond contract pertaining to said laterals.

SECTION 28. This Ordinance is hereby declared to be necessary for the preservation of public peace, health and safety and shall become effective immediately upon publication in full in the Clarkston News, published and circulated in said Village.

SECTION 29. Any person, firm, partnership or corporation desiring to secure permits to make sewer connections shall, prior to the issuance of said permits, provide the Village of Clarkston Inspection Department:

(a) A satisfactory corporate Surety Bond, renewable yearly in the amount of at least Five Thousand (\$5,000.00) Dollars as Security for the faithful performance of the work in accordance with the Village of Clarkston ordinances, standards, specifications, rules and regulations.

(b) A cash deposit of Five Hundred (\$500.00) Dollars yearly for the conditions as set forth below.

(c) Such Deposit shall provide funds for emergency work and/or such other work as may be deemed necessary by the Village arising as a result of construction by the contractor. The Surety Bond and Cash Deposit shall be used only to provide funds to correct damages and deficiencies caused by the contractor to the Village or County's System. Such bonds shall not be cancelled by the contractor or Surety without first having given ten (10) days Written Notice to the Village and received a Written Release from the Village Building Department of said bond. Cash Deposits may be returned to the contractor within ten (10) days of receipt of Written Request therefor, except that no deposit will be returned until such time as all the outstanding permits have received final inspection and approval. In the event that it becomes necessary for the Village to expend funds for work arising as a result of construction by the contractor, then the cost of such work shall be deducted from the aforementioned Cash Deposit. In the event that such expenditure of Funds should exceed the Cash Deposit, the contractor to whom the permit was issued shall be obligated to pay such excesses. The contractor shall have the opportunity to correct any deficiencies promptly before any funds will be spent by the Village. The person to whom the permit is issued shall, within thirty (30) days of the mailing of Written Notice, pay to the Village the entire amount of such costs. Failure to comply with the regulations and standards of the Village and any payment as hereinbefore mentioned may result in the immediate execution of the collection provisions by the Village, of the Surety and Cash Bonds, and the subsequent termination of same.

(d) A Certificate of Insurance indemnifying the Village, for Public Liability and Property Damage with limits of at least One Hundred Thousand (\$100,000.00) Dollars for each person and Three Hundred Thousand (\$300,000.00) Dollars for each occurrence.

(e) Persons, Partnerships, and Corporations may be issued Permits upon being Licensed by the Township as Contractors. As a prerequisite to a Contractor's License, an Applicant must complete and file an Application as supplied by the Village Building Department, and pay an Annual License Fee of Twenty-five (\$25.00) Dollars, renewable January 1st each year. This License may be suspended or revoked upon non-compliance with the Village Ordinances, Standards, Specifications, Rules, and Regulations.

(f) Before either a direct or indirect connection is made into any interceptor sewer system of Oakland County, a connection permit shall be obtained by the Owner or contractor from the Oakland County Department of Public Works. This permit shall be obtained prior to work done on the connection. Such permit shall be obtained in accordance with the rules and regulations of the Oakland County Department of Public Works.

(g) All costs and expenses incident to the installation and connection of the building sewer shall be borne by the owner of said property.

(h) Permits shall be issued to an owner of property only if the owner executes an Affidavit verifying the applicant is the owner an occupant or intended occupant of the structure where the work is to be performed.

(i) The total number of permits which may be issued, and outstanding to any contractor at any one time, shall not exceed Ten (10). All permits shall expire One (1) Year from the date of their issuance.

Made and passed by the Council of the Village of Clarkston, this 14th day of May A.D., 1973. President: Richard C. Johnston

I hereby certify that the foregoing constitutes a true and complete copy of Ordinance No. 69 duly adopted by the Village Council of the Village of Clarkston, County of Oakland, Michigan, at a Regular Meeting held on May 14, 1973 at which all Councilmen were present except Schultz & Wilford and that public notice of said meeting was given pursuant to Act No. 261, Public Acts of Michigan, 1968, including in the case of a special or rescheduled meeting notice by publication or posting at least Twelve (12) Hours prior to the time set for the meeting.

I further certify that Councilman Granlund moved adoption of said Ordinance and Councilman Thayer supported said motion.

I further certify that the following Councilmen voted for adoption of said Ordinance, Basinger, Granlund, Thayer, Weiss and that the following Councilmen voted against adoption of said Ordinance None.

I further certify that said Ordinance has been recorded in the Ordinance Book of the Village and that such recording has been authenticated by the signatures of the President and Village Clerk.

I further certify that said Ordinance was published on the 24th day of May 1973, in the Clarkston News, dated 5/10/73, and that the Village Clerk, Bruce Rogers, Village Clerk.

Notarially attested and signed in the presence of the undersigned Notary Public for the County of Oakland, Michigan, this 24th day of May 1973.

SECTION 23. Rates to be charged for services furnished by the Village of Clarkston shall be as follows:

LOSE WEIGHT with New Shape Tablets and Hydrex water pills. Wonder Drugs†††39-4p

WEIGHT PROBLEM? Eat your way to a beautiful, healthful figure — THE MINI MEAL WAY. MINI MEAL is a food bar that is nutritionally balanced, calorie controlled, convenient, etc. United Airlines uses it for inflight crews. It is being tested in our space program. MINI MEAL has been researched by the Food and Drug Administration. MINI MEAL is the only thing on the market today that can be called a nutritionally balanced MEAL. Costs less than 60c a bar or meal, has 1/2 of the minimum adult daily requirement of vitamins and minerals. Contains NO drugs, NO preservatives, no appetite depressants. Only 250 calories in each bar and CAN be the answer to shedding UNWANTED POUNDS! NO ILL EFFECTS, NO HEADACHES and NO TIRED FEELING. IF YOU WOULD LIKE TO LOSE WEIGHT the reasonable way, CALL 682-5736 for appointment and consultation.†††36-3p

JOIN OUR 1 week beginning session in Western and English riding. Interesting 2 hour classes Monday through Friday. Adult classes start May 14, children's classes June 11. Call Hill and Dale Riding School, 628-3007 for further information. Watch four our barrel racing classes.†††36-tfc
