### the INDEPENDENT view

by Jean Saile and Pat Braunagel

Turns out it was Carol McNally, wife of Judge Gerald McNally, who made the phone call alerting the Independence Township Fire Department to the late wetting of Brooke Bennett in Deer Lake. Brooke said he was extremely grateful somebody called. It was a long wet swim after his sailboat got away last month.

\*\*\*

Ingrid Smith was featured on Channel 7's discussion last week of whether or not birth control should be taught in the schools.

Reports are that she presented her opposing viewpoint well.

\*\*\*

Dan Fife, 24, pitched his first full winning game in his major league baseball career Friday night.

The triple-threat athlete at Clarkston Junior High School, in his debut year with the Minnesota Twins, allowed six hits as the Twins swept the California Angels 7-1.

\*\*\*

We have a folded pink paper elephant from the penny-giver this week and a new total of \$8.06 in pennies. The pennies are earmarked for coffee and paper cups at the Salvation Army Senior Citizen Drop-In Center, Church and Buffalo. Gyyette Glass of Waterford took care of the window problem there, replacing those panes destroyed by vandals.

Back to the penny giver -- it's either got to be a Republican or somebody who drinks a lot.

\*\*\*

Where have all the bus drivers gone, Clarkston Schools officials are wondering.

They're not alone.

"We just can't find bus drivers," laments Assistant Schools Supt. Milford Mason. "Waterford can't find them either, and they've been advertising too."

Some parents also have been perplexed by the schedule adjustments

which have had to be made.

Clarkston started the school year about a half dozen bus drivers short.

The system now needs two substitutes. "We're double running on some routes because of it," Mason said.

School bus drivers work a minimum of four hours a day. Depending on their routes, their hours may range from about 6:45 to 9:30 a.m. and 2:15 to 4:30 p.m. daily.

They must pass a physical exam and obtain a chauffeur's license. Before going on the road, they receive 12 hours of classroom instruction, paid for by the school district.

Potential drivers can contact Transportation Supervisor Norman Cilley at 625-4744.

\*\*\*

The "most beautiful girl" in the Greater Metropolitan Detroit area will be selected by computer during final competition of the Miss Greater Detroit Pageant. Finals are slated for Sunday, October 21.

\*\*\*  
A man named Jake Dombrowski of Fenton is in favor of revising the United States Constitution to prohibit the taxation of single family homes.

His version: "We, the people of the United States, to secure economic equality, deplore judicial injustice, promote dignity and individual initiative and safeguard private enterprise, we declare a people's proposal.

"No tax nor other assessments shall be imposed by the federal, state, city or any subdivision of government against the single family structure shelter, as herein defined.

"A shelter of five bedrooms or less, living and dining room, kitchen, recreation and medicare room, basement, a four-car garage or less, on a plot of land maximum of 80' by 150' or less."

He says the revision will eradicate slums, substandard environments and property. He adds it will add dignity, respect and decorum to society.

## Brandon raid nets \$5,000 in drugs

Sheriff Johannes Spreen's SCAT— Sheriff's Criminal Annoyance Team— arrested three men and confiscated an estimated \$5,000 worth of drugs in a raid at 7:30 p.m. Monday at 3600 Seymour Lake Road, Brandon Township.

Arrested were Robert Hawke, 22, listed as an occupant of the home and charged with the sale of narcotics; and Timothy Gray, 20, 8551 Perry Lake Road, charged with frequenting a place of illegal occupation. A third person was not identified.

The raid followed the purchase by undercover narcotics agents of a quantity of pills and capsules. Among items confiscated by officers were LSD, speed, PCP, three pounds of marijuana, a stolen 38 caliber pistol, two 30.06 rifles and a safe with the contents yet to be determined.

Officers also found three 100-pound bags of dextrose, used to cut dope from wholesale to street strength. Detectives said dextrose in that quantity is not for sale, and had to be stolen or otherwise obtained from a laboratory.

# News sweeps 4 state firsts

First in the state for news reporting!  
First in the state for advertising ideas!

First in the state for original columns!

First in the state for editorial comment!

Michigan Press Association announced last week The Clarkston News has swept four first places for papers in its circulation category during the association's 1973 Weekly Newspaper Contest.

Marilyn Lawrence, who regaled readers of The News last year with her columns about a hectic home life, picked off honors for the best original personal column. She has since moved to Muskegon.

A housewife extremely active with Civil Air Patrol in Clarkston, Marilyn had a wide range of characters from which to draw. Her column sparked with the humor of the everyday.

Advertising manager Pat Sherwood's "The Peddler" -- a monthly advertising section featuring old fashioned ads for local businesses -- was adjudged the best ad idea of the year.

JEAN SAILE

PAT SHERWOOD

MARILYN LAWRENCE

Pat is a collector of antiques, and the advertising cuts of the past have special appeal for her. Advertisers in The News have expressed satisfaction with the merchandising results of "The Peddler."

In news reporting, the paper has attempted to give a clear view of what's happening in local government and the schools.

"Our editorial policy has been dictated by local events, and we have attempted to speak forthrightly through the editorial column, giving praise where we feel praise is due and questioning those policies to which we are opposed," said Editor Jean Saile.

Pat Braunagel joined the writing staff last spring to assist Jean as the paper

continues to strive for good reporting. Pat has ten years' writing experience -- with daily and weekly newspapers, wire services and in public relations. She and Jean assisted by Springfield Township reporter Betty Hecker.

Pat Porter has recently been added to the local advertising staff. The business part of the paper is handled by Donna Fahrner and Mary Hawkins.

Sister publications of The News -- The Lake Orion Review and The Oxford Leader -- were awarded a second place and honorable mention in the association contest for news features.

All three papers are owned and published by Jim Sherman of Oxford.

Workmen from Hartford Roofing and Siding of Waterford last week replaced the old slate shingles on the Independence Township Hall with 240-pound asphalt self-seal shingles. Cost of the renovation was \$3,741.

## Gas shortage could halt school buses

"Busless schooldays" -- the result of a lack of fuel to supply Clarkston's fleet of 42 school buses -- may be a real possibility after the first of the year, according to Milford Mason, assistant school superintendent.

Mason said the district has filed a request for allocation of bus gasoline with the Office of Government Preparedness in Chicago. Hopes are that the office will enable the district to purchase from Standard Oil Co. enough fuel to operate buses after the first of the year.

### Humane Society shelter open

Michigan Humane Society has opened its new animal shelter on Brown Road in Pontiac Township, and will be accepting all animals formerly left at the County Service Center on Telegraph Road.

Dr. F. Hugh Wilson, director of Oakland County Animal Welfare, said housing, including vaccination service, has been transferred to the new facility as a result of action taken by the Oakland County Board of Commissioners. A contract between the county and the Michigan Humane Society became effective September 20.

Other services, he said, will be continued at the service center.

Hours of the new facility are from 8 a.m. to 5:30 p.m. Monday through Saturday.

The assistant superintendent said Standard Oil had been the district's supplier until the gasoline shortage hit last summer.

At that time, after much scrambling in pursuit of suppliers, Boron Oil Co. agreed to furnish the district 10,000 gallons a month through December 31. Mason said the catch was that the district must accept 10,000 gallons each month whether it needs the full amount or not.

He reported on a Metropolitan Area Superintendents' Association study released last week in Tróy which pointed out that local districts may have to curtail busing of students because of expected fuel shortages.

In line with recommendations made in the report, Mason said the district will be developing energy conservation guidelines to help see the district through developing power shortages.

### Deer Lake hearing Wed.

The State Department of Natural Resources will conduct a public hearing to present proposed rules for the control of watercraft on Deer Lake at 7 p.m. Wednesday, October 10, at the Clarkston High School Little Theater.

The rules can be rejected by the Independence Township Board, otherwise they will take effect within 15 days after the hearing, the department said.

## Springfield to establish parks

By Betty Hecker

Neighborhood parks in the widely separated areas of Davisburg, Andersonville and Josman Acres are the goal of Springfield Township Parks and Recreation Commission.

Organized in 1956, the commission has never had the money to provide land for parks, but Commission Chairman Lester Smith believes that is about to change.

The sum of \$7,500 was earmarked in the current township budget for commission use.

Some of that money will be used to pay half the lifeguard's salary at Davisburg Mill Pond under an agreement worked out with the

Oakland County Parks and Recreation Commission.

Another \$994 was spent this year for backstops at the Dille Road ballpark, and a bid of \$950 has been accepted as the cost of preparing the diamonds for next year's use.

Some money is also intended to help support the Rotary Clubs Mill Pond Wheel Park at Davisburg, and yet more is planned to continue commission support of the Davisburg Senior Citizen Joggers.

Out of the \$7,500 also comes the \$10 paid each member who attends the monthly commission meeting. Meetings are the third Monday evening of each

month at Springfield Township Hall.

Besides Smith, the commission is composed of Cynthia Nelsey, Gordon Rigoulot, Bob Clark, Collin Walls, and Bob Peters, who serves as secretary-treasurer. All have been elected at varying times to four-year terms.

Park areas are being chosen according to the guidelines of the township master plan, as prepared by Sterling, Lehoczy, Kilroy and Chihan, township planning consultants.

Also being taken into consideration are established school playground locations. Smith said the commission is attempting to get property adjacent to school facilities for picnic and play areas, so that existing school ball

diamonds and playground equipment could be utilized in the township park system.

"The park commission is becoming big business," Smith said. "We have to keep accurate records and be able to tell where the money is spent.

"People have to realize what's involved in the establishment of parks -- the liability, the need to provide toilet facilities, parking space and the need to build fences to keep the cars off the ball fields."

While agreeing that the commission is now in the position where it must prove its worth, he says, "It's the spot where we asked to be put."

## Pine Knob makes sewage promises

By Pat Braunagel

Engineering work on Pine Knob's sanitary sewage system was to begin this week after a Sept. 25 meeting between owners of the resort complex and officials of four other agencies.

"They appear to be proceeding in good faith," Independence Township Supervisor Robert Vandermark said this week, expecting to receive engineering studies which in turn must be approved by the State Water Resources Commission.

His concern now is with the governmental agencies responsible.

Vandermark last week presented to Pine Knob owners Joseph Locricchio and Gary Francell a list of requirements for improving the sewage system.

According to Vandermark, the owners agreed to submit a timetable for connection to the township's sanitary

sewer system, which comes closest to Pine Knob near Clintonville Road and I-75.

They also are to submit dates for finishing plans for operation of the sewage plant and lagoon this winter and for institution of improvements to the current plant.

Other requirements specified by the township are:

1. That the sewage lagoon must have automatic provisions for the disposal of overflow.
2. That a licensed operator must be hired.
3. That engineering plans for the lagoon and plant must be submitted to the Department of Natural Resources and the Oakland County Health Department for review and approval, with copies sent to the township and the

Oakland County Department of Public Works.

Besides the governmental agencies and Pine Knob owners, also represented at last week's meeting were township engineers from Johnson and Anderson Inc. and an attorney representing the firm which is seeking a liquor license to operate the cocktail lounge at Pine Knob.

The meeting was set up after the township board recently denied a request to transfer a liquor license from Pine Knob Restaurant Services Inc. to Indusco Corp. and Confection Cabinet Corp.

"The township is doing all it can with the liquor license lever," Vandermark said. "Enforcement is the responsibility of the health department and the department of natural resources."

The sewage plant for the resort-music theater complex has been operating on an emergency basis since a dike in the lagoon burst July 31, allowing a one-million-gallon wave of sewage water to flow into a stream and into Lake Oakland.

"The sewage treatment plant has always been inadequate and never should have been approved (by the county health department) in the first place," Vandermark said.

"The biggest problem in this matter appears to be getting the proper state and county agencies to step up to their responsibilities. They appear willing to do so at this point.

"Based on what took place at that meeting (Sept. 25), the health department should have that place closed down now."

# Patches Morning ickiness by Pat Braunagel

"A psychiatrist says here," my husband reported from behind the newspaper at the breakfast table the other Saturday afternoon, "that people who have trouble getting up in the morning are basically dissatisfied with their lives and don't want to face another day."

"That's a bunch of grumpfh," I said, choking on my granola. "How many people do we know?"

"Oh, probably upwards of a dozen," he estimated.

"And how many of them have ever indicated at any time in any conversation that they sprang out of bed and faced a new day with enthusiasm and joy in their hearts?"

"That," he said, lowering the paper, "is the point."

"You mean to tell me that our society is so out of kilter that no one is satisfied with his or her lifestyle and that we should all run out and make drastic changes in how we live?"

"Well, it's a thought."

"Not to consider before my second cup of coffee."

I poured the second cup and continued: "I happen to have personal friends who give me every indication that they are happy, fulfilled and satisfied with the way they spend their days."

"I also happen to know that these same individuals are miserable

wretches for the first half-hour or so of each day."

For the sake of intellectual stimulation (I had by this time finished my second cup of coffee), I suggested that perhaps the dread of getting out of bed was not caused by the prospect of facing the whole day but of confronting the mundane chores necessary to get going—bathing, shaving, applying cosmetics, preparing clothes, dressing, etc.

"Which reminds me—I'm out of clean shirts." Don interjected.

"Don't distract me when I'm getting intellectual. And, besides—why aren't you working the crossword puzzle?"

"Because I don't know a four-letter word for an ancient Chinese coin."

"Now THAT'S intellectual stimulation, and that's what people need more of in their lives."

He pondered this profundity. "I've got it!" he beamed. "The reason our particular friends don't like to get up in the morning is that

our particular friends don't like to go to bed at night."

"Anyone who stays up until 3 or 4 a.m. playing bridge or discussing issues major and minor is not going to be Little Mary Sunshine four hours later."

"It can't be that simple," I said, plugging in a second pot of coffee.

## Food Co-op ready to go

Independence Food Co-op is ready for business. New and old members in the cooperative food purchase program may place orders from noon to 4 p.m. Thursday and 1 to 3 p.m. Mondays at the K of C Hall on Maybee Road, just east of Sashabaw.

The unit price of \$3.50 includes \$3 for food, 12 cents tax and 38 cents for trucking costs. Eggs and cheese are optional items and will cost extra. Buying will be accomplished Wednesdays and orders distributed on Thursdays. Any groceries left after 4 p.m. Thursday will be turned over to independence center for distribution to the needy.

Cratè purchases for large families will be made by the co-op, the additional cost to be paid by the member.

Senior citizens will be allowed to participate and will work only if they feel able. Help is however needed from other volunteers in order to retain the low non-profit pricing system. A work sheet will be handy for those making purchases.

This year's co-op advisory board consists of Don Constable, Char Frost, Betty Weber, Dawn Haskins, Mickey Tibbits and Linda Yantiss.

Others who have signed up to help include Irene Zander, Marie Glasco, Nola Pettinaro, Charlotte Ridley, Bernice Meyers, Sandy Shilling, Lennie Ratliff, Ernie Patterson, Al m a Harthun, Betty Bush, Helen Lektzian, Barb Cummins, Audrey Sylvester, Beverly Marshall, Naomi Hodges and Donna Fahrner.

Christmas all year 'round

# Jim's Jottings

by Jim Sherman

Football is flying and so are stories. This is the time of year when high school second stringers become college All-Americans. When leaping catches were made to win the big game. When outstanding tackles were made that saved the big win.

The season stirs memories of my football days for dear ol' Morrice

high. Constant readers will recall that we played 6-man football in 42-43. Two ends, center, quarterback and 2 halfbacks.

There were no quarterback sneaks. The ball could be thrown or it had to be handled twice in the backfield.

If we'd heard the term "split end" we would have suspected someone had a broken seam. An "off-tackle" play was impossible. So was an unbalanced line.

Why did we play 6-man football? Because there were only 6 out for football in Morrice. Well, maybe there would be eight if the other two's flute lessons didn't conflict.

That's how I got to play first string. The rules said a team had to field 6 players.

We had our big game and our big win. They were the same game. Over two seasons it was the same game. I recall we beat big, burly, mean and ugly Bath, 6-0. I don't recall winning any other game. Byron, Vernon, Laingsburg, Haslett (those

are all towns in Michigan) and the School for the blind... each year they would look forward to the Orange and Black of Morrice.

also remember my big plays. One on defense and one on offense.

We were playing dirty Laingsburg on our home field. Our fans, all 4 of them, turned out. In the first half, our speedy halfback, Bob Jarrard had been grabbed by the head and flipped over the tackles shoulder. He went out, really out and later to bed.

During halftime our coach was really hot. He told us how to grab our opponents by the head and push it down as we raised up our knee to meet his nose. No face masks in those days.

This was the same coach who would have a meeting of players at his house and offer a cigarette to those he knew smoked.

Back to the action. We kicked off (we could either throw or punt the ball on kickoffs) and headed down field. The ball carrier headed for the sidelines with a blocker in front.

The blocker hit me, I hit the ball carrier head-on in the midsection. Everything went dark. The straps broke in my helmet and it went down over my eyes.

Later I sewed them back myself, but during this emergency I had to wear the other helmet (uniforms were few or none) which was too big for anyone.

I always wanted to be an end, so the coach made me a quarterback. He did figure out a play where I would go out for a pass. We ran it once then the opposition figured the play out, also. But that one play went great.

It was so good halfback George Talbot said, in the huddle, "Let's run it again." I was creamed.

Another thing I don't remember is if we had plays. It was more sandlot with Jarrard and Talbot taking turns telling the rest of us what to do. But they should have, they were the best players on the team. In fact, when we played it was more of 2-man football.

## Worth consideration

The proposed acquisition of Hawk Tool on West Washington for use as a township and village civic center is worthy of serious consideration.

Properly remodeled, the facility—which some say could easily be made to resemble Independence Hall in Philadelphia—could be the focal point for the whole Independence-Clarkston area.

While the size of the plant—about 10 times that of the present township hall—is huge, we don't believe it would have to become a white elephant.

The facility is capable of housing township and village offices, the new police force, a fire hall and still have room left over for an attractive auditorium or meeting center. There is also a site on the five acres involved big enough to accommodate a new Clarkston Post Office, an

item sorely needed. The possibility that some space, not needed, could be rented out has also been considered.

Independence Township is growing. Other communities who have built or acquired new municipal centers are finding themselves soon cramped for space. There is no sign of diminishing growth for this area, or the services that will be needed to accommodate it.

We also believe the costs being quoted will turn out to be reasonable once a comparison is made with the price tag for acquiring land and building a new facility capable of housing the same kind of services. At any rate, owners have said the price is negotiable, and it appears there is every chance that a satisfactory figure can be reached.

## School enrollment

Official fourth Friday enrollment counts in the Clarkston School District, compared to those for last year, are:

	1973-4	1972-3
Clarkston High School	1,592	1,484
Clarkston Junior High School (including 58 elementary pupils)	940	997
Sashabaw Junior High School	984	942
<b>Elementary Schools</b>		
Andersonville	541	583
Bailey Lake	806	761
Clarkston	688	696
Pine Knob	697	740
North Sashabaw	541	532
South Sashabaw	305	291

hill'n gully

## A driving thing

by Jean Laile

This is a little-old-lady-who-shall-be-nameless story.

Extremely independent, she has worried the past six months on the approach of her 79th birthday that she would no longer be able to pass her driver's license test.

Losing her license would be losing a choice freedom.

She fretted about eye charts most of all, and on occasion withdrew from the drawer the extra strength pair of eyeglasses purchased for \$60 six years ago and worn only twice.

The glasses, as she had soon discovered, enabled her to see the chart at the driver's license bureau, but they made her walk funny. She kept stepping over things that weren't there.

Over and over again she considered the reasons she should still be permitted to drive.

She had never received a traffic ticket, not even for illegal parking. She'd never been the cause of a traffic accident. She was still able to keep pace with expressway traffic.

Besides, she didn't want to have to ask someone to drive her anyplace she chose to go.

Driver's licenses can be issued 90 days prior to deadline, and on the 90th day before her birthday she and the glasses started out for the bureau. Not wanting to be seen switching glasses, she wore the "specials" while she filled out the written forms.

It was nearly a boo-boo. All the words ran together and only a good memory and surreptitious peek through her old glasses enabled her to complete the job, but she turned around confidently for the eye test.

And she read the letters on the chart!

As she tells it, it was all downhill from there on in. The quiz—even

though it contained questions she'd never had to answer before—was a breeze, and she passed her test.

When I next saw her she was floating on air—the worry wrinkles of the past six months erased. She was laughing and reporting her success to everyone who loves her and is concerned with her ability to retain her independence.

And the glasses? They were wrapped carefully and reinstated in their private drawer to await 1976 and birthday number 82.

"If It Fitz . . ."

## 2 wrongs make a right?

By Jim Fitzgerald

How come the Republicans catch more hell from the press and TV than the Democrats do? Easy. It's because Watergate is a lot easier to spell and pronounce than Chappaquiddick.

But if that is true, how then do you explain Abplanalp?

Don't ask me. I'm still wondering if I should jump off a cliff just because Rich Davis jumps off a cliff.

When I was a little kid, Rich Davis was my buddy. And when his parents let him ride his bike on the highway, or quit wearing long underwear, I wanted the same privileges. So I'd tell my dad that Rich could do it and my dad would always say: "If Rich Davis jumped off a cliff, would you jump too?"

That was Dad's way of

rephrasing the old bromide: "2 wrongs do not make a right."

I was brought up on that marvelous bit of philosophy. It didn't matter if "all the guys" hitchhiked to Detroit to see the burlesque show. It was still the wrong thing to do and it didn't become a right thing just because Rich Davis did it, even if he was a minister's son.

Ah, memories. Whatever did happen to that idea about 2 wrongs?

A bumper sticker reads: "Nobody Drowned at Watergate." Which is as sickly funny as the story about John and Martha Mitchell meeting Ted Kennedy at a party and John asks Ted to drive Martha home. The idea we are asked to

swallow is that Watergate isn't so bad because, after all, Ted Kennedy drove a girl into the Chappaquiddick and then fled the scene like a thief in the night.

Or it's OK for Robert Abplanalp and Bebe Rebozo to buy a friend in the White House because Eisenhower's buddies gave him 15 tractors and a golf course.

Or it's OK for the taxpayers to build palaces for Nixon because they built airports for Lyndon Johnson.

Or it's OK for the GOP plumbers to break into a doctor's office in 1972 because the anti-war demonstrators made a lot of noise in 1969.

Or it's OK for Nixon to send your son to Vietnam to die because Johnson did the same

thing to your neighbor's son.

And so it goes.

Lately, because of Watergate and Abplanalp and Spiro, the Republicans have been catching most of the mud. And many Republicans claim no fair newsman should use the word Watergate in a sentence that doesn't also contain the word Chappaquiddick.

I gave 1 of those Republicans my sternest look the other day and told him solemnly: "Two wrongs do not make a right."

"Don't give me that religious stuff," he answered. "If you were a real Christian you'd write something about Franklin Delano Roosevelt's mistress."

I think I'll take off my long underwear and go jump off a cliff.

## Letters to the Editor

### DAR seeks stamps

Dear editor:

After a recent State wide NSDAR meeting, held in Lansing on the 25th of September, I became so interested and enthusiastic about so many projects that the Daughters are sponsoring, that I just had to try to enlist the help of all of my friends and readers of this paper.

Currently, the NSDAR is planning a Bi-Centennial to be held in 1976. Along with the planning of our Bi-Centennial we are planning many other worth while projects.

One project interested me more than any, probably because I have four children of my own and of course, being interested in their welfare, I naturally got right into the spirit of things and immediately became interested in the welfare of other, less fortunate, children. There are so many children who have no one to help them through school, especially through any future schooling, like college or trade schools.

I, as a member of the General Richardson Chapter of the Daughters of the American Revolution, need and am asking for your help.

We are trying very hard to support several DAR schools throughout the United States. In order to do this, I would like to ask everyone to give us a

helping hand. We need trading stamps and Betty Crocker coupons. Also, money donations would be greatly appreciated.

We are sponsoring five children this year in our state and as you know, with the rising costs of just about everything, it's taking more and more money every year to do the same jobs we started out financing years ago.

Our DAR schools are fulfilling their responsibilities in training our future citizens but we do need some additional help.

Please be generous with your contributions.

You may drop off your trading stamps, Betty Crocker Coupons or any cash donations at the Clarkston News, Clarkston, Mich.; mail them to the undersigned or call and I will stop by and pick them up.

If you would like any additional information on our National Society Daughters of the American Revolution, please call.

Thank you for your help,  
Beverly J. Vernot

### A Campbell fan

Dear Ms. Saile:

I was lucky enough to attend the Glen Campbell concerts on August 31st and September 1st, 1973 at the Pine Knob Theatre in Clarkston. I wanted to attend all four concerts, but due to the lack of funds, I could only attend two concerts.

I am an avid fan of Glen Campbell and have tried to attend as many concerts as possible. I think that he is a brilliant performer.

During my stay, I was unable to obtain any newspapers. I would

appreciate it very much if you could send me all the articles and reviews that appeared in the CLARKSTON NEWS about his four concerts. I would really appreciate it. I am willing to pay for these clippings.

I am very anxious to hear from you because this means a great deal to me.

Thank you for your time and understanding.

Sincerely,  
Michele M. Westley  
Glenview, Illinois

### Rodeo a success

Dear Jean:

You helped us bring 18,500 people to see the Longhorn World Championship Rodeo here in Davisburg and we thank you.

Our opening night attendance which was "Family Carload Night" drew 6,400, a bigger attendance than in Detroit. The Rodeo's Sept. 7-9 run at

Nashville, Tenn. was up 70% to 16,500. Nashville's current population is 500,000, so we did well in comparison. We learned a lot and are grateful for good weather and good crowds. Thanks!

Sincerely,  
Gerry Lacey.

## PEEKIN' into the PAST

### 25 YEARS AGO IN THE CLARKSTON NEWS

The questions people ask about . . .

## NO FAULT

### PROPERTY DAMAGE

**QUESTION:** How does the Michigan no-fault law affect property damage?

**ANSWER:** Your insurance company will pay for damage you cause to other people's non-vehicular property and parked cars—BUT NOT FOR OTHER CARS OR THEIR CONTENTS OR TRAILERS—in Michigan up to one million dollars. (Sec. 3121) If you hit a gasoline station and a pump explodes, your insurance company is liable up to one million dollars in damages (NOT TO UNPARKED CARS)—regardless of whose fault the accident was.

**QUESTION:** What if I hit another car and it is my fault, must I pay for the damage to that car?

**ANSWER:** No. But if the car was parked, your insurance company will have to pay. (Sec. 3123)

**QUESTION:** What if another car hits my car, can I collect?

**ANSWER:** No, unless your car was properly parked and not moving. (Sec. 3123 and 3135). However, if you want to, you MAY voluntarily buy a collision policy protecting you if your car is damaged either by someone else's fault or regardless of fault.

**QUESTION:** Wouldn't such a policy cost more than a present liability policy to another car and a collision policy for my car?

**ANSWER:** Probably not, unless your car is worth more than the average car on the road today. Your present property liability policy must include in the premium the chance you hit a \$10,000.00 Cadillac or Porsche. Under no-fault, your collision premium would only be based on the maximum value of your car.

**QUESTION:** I'm a careful driver so I don't buy collision insurance on my own car. But if I can't sue a negligent driver for damaging my car, is there some other way I can protect myself from having to pay for damage to my car by a negligent driver?

**ANSWER:** Yes, some insurance companies plan to offer a limited collision coverage that will pay for damage to your car only if it was the fault of some other driver. This coverage will cost much less than full collision coverage and will probably be comparable in cost to what you now pay for property damage liability to other cars.

# McCall hired as township policeman

By Pat Braunagel

Independence Township made its first major move toward establishment of a local police department this week by hiring Jack McCall as fulltime director of police services.

McCall, currently a fulltime Bloomfield Township detective, also serves as Clarkston Village police chief.

A merged village and township police force has been in the talking stages for about four months.

McCall, whose starting salary was set at \$14,500, will begin his new job in the

township Oct. 15.

Initially, his primary tasks will be to work as a liaison person with the Oakland County Sheriff's Department and with the village.

"I think we have a few months of ground work before we really get organized and know in what direction we want to go," Township Supervisor Robert Vandermark commented.

McCall said he saw no problem in his continuing to serve also as village police chief, particularly since he will be involved in efforts to organize a merged department.

He said he hoped that because of his appointment by the township board that "the merger can be speeded up."

The new director of police services was warned by Township Trustee Keith Humbert that "there's a fine line between providing the services that people want and need and what I can only call empire building."

McCall's job, Humbert said, is to determine that line and come up with "well-documented" recommendations on needs.

McCall has served with the Clarkston police department for nine years, six months as its chief. He has held his fulltime job with the Bloomfield department for four years, beginning as a patrolman and then being assigned to the detective bureau.

Now nearing completion of his work on a degree in police administration from Oakland Community College, McCall also has attended Northwood Institute and Michigan State University.

The township board Tuesday night also hired a new director of public works, a post that has been vacant since

June when Lynn Thorpe resigned.

Hired to fill the position at a salary of \$15,000 was George Anderson, now West Bloomfield Township's water and sewer department director. Anderson, who has been with the West Bloomfield department for nine years, will begin his new job in Independence Township Oct. 16.

## Fire assistants okayed

Independence Township Fire Chief Frank Ronk will get the two parttime assistants he's been fighting for. The township board agreed in adopting Ronk's departmental budget this week.

Two positions for part time firemen, each to receive an annual salary of \$4,000, were included in the \$163,735 budget approved unanimously by the board.

However, Township Supervisor Robert Vandermark stated his reservations with that line item.

"I would like to state my approval for the overwhelming majority of the items in this budget," Vandermark said. "However, in view of the recent millage proposal and its sale to the public on the basis that it was for equipment and capital improvements, I would like to state my opposition to the addition of part time help in the fire department at this time."

The township board agreed in August to levy 1.7 mills for the fire department,

using just 70 percent of the extra mill voters approved in June.

The request by Ronk for two fire marshals was seen as the major snag in the levying of the entire two mills.

Township Trustee Jerry Powell, backing Ronk's request for the two additional employees, said the fire chief "has been running a large department of 55 volunteers by himself," something no other department head is required to do.

Largest items in the new budget are \$53,213 for new equipment, \$30,200 for salaries and \$30,080 for fees and per diems for the volunteers.

Michigan is the largest red tart cherry producer in the nation, growing 64% of the U.S. crop. Due to the tempering qualities of Lake Michigan, plus favorable soil conditions, cherries thrive all along the western shoreline of the state, especially the Grand Traverse Bay area.

## M-275 to benefit local drivers

A new expressway, called M-275 on Michigan State Highway Department plans, should be affording Independence and Springfield Township residents access to south Oakland County's I-96 within the decade.

Planned as part of a Detroit by-pass for I-75, the route is mapped to depart from the present I-75 expressway to the east of Eliza Lake just north of Davisburg Road. It will wind south just east of Springfield-Oaks Park in Springfield Township, cross Andersonville and Clark roads at an interchange, angle west of Big Lake and cross White Lake Road at another interchange, finally joining M-59 west of Bogie Lake Road.

A northerly extension across I-75 to Rattalee Lake Road is also on the map,

but local road officials are not sure it will materialize.

From M-59, the by-pass will proceed south through White Lake and Commerce townships, and Novi, where it will enter the world's largest interchange encompassing more than 750 acres at I-96 and I-696. It is proposed to continue south until it once again hooks up with I-75 in southern Wayne County.

State Highway Department spokesmen said plans are to begin building the northerly segment in 1975 with completion due in 1976.

Affecting traffic on the new road is an anticipated extension of Northwestern Highway to M-275 and the widening of M-59 to the M-275 intersection, county road officials said.

The northerly part of the route leading to I-96 is a state highway department project and will be funded 70 percent by the federal government and 30 percent by the state.

South of I-96, the designation changes to I-275, indicating a federal highway, and as such will be funded 90 percent by the federal government and 10 percent by the state government, officials added.

## obituaries

### JESSIE E. PARKER

Mrs. Ray M. (Jessie) Parker, 80, of 110 North Main, Clarkston, died September 27 at Pontiac General Hospital.

She and her husband owned and operated the Clarkston Cafe for 28 years.

Funeral services were Monday from Clarkston United Methodist Church with burial in Lakeview Cemetery. Arrangements were by Sharpe-Goyette Funeral Home.

Mrs. Parker was a member of Clarkston United Methodist Church and Clarkston Rotary Anns.

She married her husband March 4, 1914, in Leslie, Michigan.

Surviving besides him are two daughters, Mrs. Rowena M. Hancock of Dearborn and Mrs. Roberta Taylor of Clarkston; six grandchildren; 13 great-grandchildren; and a sister, Mrs. Julia Rouse of Highland.

Hair is important, and your hair can be your crowning glory or among your greatest problems. Problem hair is generally so because of neglect. A scalp problem like dandruff, for example, is much worsened by refusal to do something about the difficulty immediately. If you are having any kind of problem, such as itchy scalp, dandruff, split ends, and so on, do not wait until the situation is too far advanced to be corrected. Consult an expert. Any member of our professional staff will be happy to help!

Make your appointment now at "SALON OF BEAUTY" BONNIE JEAN'S HAIR STYLISTS, 5488 Dixie Hwy., Waterford. Tel. 623-1411. Open 7-8:30. Sat. 7:30-3. We are looking for a highly skilled beautician to add to our staff of 6 to better serve our expanded clientele. If qualified in all phases of high styled beauty culture, call 623-1411 for an interview.

### HELPFUL HINT:

For a real beauty treatment, a mask made of oatmeal and applied to a clean face will sometimes do the trick!

## Davisburg Rotary auction Oct. 6

The sixth annual Davisburg Rotary Club Auction will begin at 10 a.m. Saturday, October 6 in Davisburg. "Trash and treasures" -- hundreds of donated appliances, furniture and antiques -- are the principal attractions.

Persons wishing to donate items for the auction may arrange to have them picked up by calling Going Enterprises, Quinlan's Emporium, Walls Realty, Al Beeckman, Clarence Gordon or Tom Purves.

The auction will take place in the former Oakland County Road Commission garage in the Springfield-Oaks recreation area.

Davisburg Rotarians have through successful fund-raising efforts during previous auctions been able to help beautify Davisburg. Most recent project was the construction of a footbridge and paddle wheel at the waterfalls and extensive landscaping of the park area along Davisburg Road.

ASSOCIATE ENGINEER BUILDING CONSTRUCTION

## Ortonville artists hope to open gallery

Having moved their Ortonville ceramic studios into vast new quarters, Emmett and Marilyn Hubbarth are hoping to create a gallery for other area artists.

Their new store and workshop, Chaparro Hills Ceramics, is now located at 384 M-15 in the building formerly occupied by Whitey's Garage.

The 5,600-square-foot facility, with several large rooms, provides ample

area of their work, greenware and supplies and for the classes which they hold daily.

Before their move in August, they were located in a smaller building on M-15 at Bald Eagle Lake.

Now they're ready to welcome other artists.

"We hope to use the front room as a gallery, to encourage area artists to display their works and sell them if they want," Marilyn said. "We know there are a lot of artists around working in both oil and water colors."

The Hubbarths themselves are multi-media artists.

"Emmett is the real artist, with natural talent," Marilyn claims. "I had to learn everything I know."

She is proudest of his air-brush paintings, a technique he also has applied to some of his ceramic work.

Both natives of Michigan, they emigrated to California as teenagers, not returning until 1964.

Emmett attended Polytech University and they both graduated from the Art Center of California.

Emmett maintained an active career as a commercial artist despite the gradual loss of his sight. A cataract operation and an artificial lens for one eye has returned his vision, although he still anticipates an operation on the other eye.

Their plan for a gallery is just one more step in their encouragement of the arts in the area.

BY THE THIRD EYE

Clarkston residents won't have a completed sewer system until just about spring. I feel the underground workers' strike will be over just in time for work to be shut down by the cold weather.

Jane Fonda, who appeared in the area recently protesting the plight of political prisoners in North Vietnam, will always be fighting for a cause. Sometimes her causes are misdirected, but that won't stop her. Eventually she won't get the publicity, and she won't be as much in the public eye.

There's a skunk in the woodpile as far as Spiro Agnew is concerned. Someone has perjured himself, and some of the facts aren't correct. Those who are pressing the investigation may wind up getting hurt more than the targets. Agnew will not go to jail, nor will he resign.

As the snow flies, there will be a black mayor for Detroit. It's going to be touch and go at the polls. There's a

possible scandal, involving family or social contacts, that could blow the whole thing.

About this business of teacher negotiations -- I see a review panel composed of a psychiatrist, a parent, a teacher, a doctor, a lawyer, a businessman and a former school superintendent acting as the nucleus for a group of 20 people. These will be broken into groups of five and rotated into various school districts for the purpose of teacher evaluation.

The committee will not meet with the teachers, except on request, but will evaluate teaching performance through individual student records -- past and present. Teachers will like the system because it will recognize a more professional level of performance and pay will improve.

Teachers may be reassigned to other teaching levels as a result of the evaluation or they may be dismissed.

Pay will come under the five-year review as mentioned in last week's column.

We'll also be finding better adjusted families in the future. There'll be less child abuse and better living conditions, because America is getting ready to accept men and women as individuals.

There'll be more men staying home and taking care of the children while the women work, but the trend will level off. People will do what they feel is right for them.

## Camp Oakland cards available

A reproduction of a painting by Howell artist James D. Ross is the 1973 Christmas card for Camp Oakland Youth Programs, Inc. of Oxford.

Sample cards can be obtained by calling Camp Oakland at 628-2561.

# Free for your new car

## and save \$80. on your loan

Our free road service kit is like a doctor's bag -- because it's packed with so many things you might need in an emergency. Jumper cables, a roadside blinker, gasoline siphon, trouble light, first aid kit, compressed air tire inflator and fire extinguisher. Ready to use whenever needed.

The entire kit and carrying case are free at Pontiac State Bank. We're giving them away with every auto loan on 1970 and later models. New cars, used cars, trucks and motor homes are all included.

You can still save as much as \$80 on your loan when you deal direct with PSB. While you're shopping for your new car, why not stop in at PSB. Save money on your loan. And take home our free kit as an extra special bonus.

For service in addition to branch hours, our Loan Center at 3245 Elizabeth Lake Road is open to 4:00, Monday through Thursday . . . to 6:00 on Friday . . . and from 9:00 to noon on Saturday.

# Girls prepare to defend basketball record

Girls' Varsity and Junior Varsity basketball teams at Clarkston High School have been chosen for the year, and the girls have been practicing six days a week in preparation for their season.

Representing this year's Varsity team are Sharon Bachand, Cathy Bunton (co-captain), Billie Carroll, Kathy Coats, Nancy Foster, Cindy Hunt, Laurie Miller, Sonia Mills, Paula Speace, and Sheryl Stickle (co-captain).

The Varsity coach is Jan Modesitt, and the team's manager is Jane Church.

Both teams played their first Wayne-Oakland League games Tuesday at West Bloomfield. The coaches for West Bloomfield's teams are CHS graduates and former basketball players on Clarkston's teams. They are

Chosen for the Junior Varsity squad were Nancy Chartier (co-captain), Diane Curry, Denise Gee, Autumn Matlock, Dede Miller (co-captain), Cindy Purves, Kathy Rush, Fern Smith, Michelle Strobahn, and Anne Van Loon.

Coaching the JV girls is Kathy DeArmond, and their manager is Karen Temple.

Kathy (Matlock) Stapleton ('68) and Beth Cowen ('71). The Clarkston Varsity team is defending its W-O League championship, which it has captured for the last two years. The JV team is defending an undefeated 11-0 season.

On Thursday (today), both teams will make their home debut against Waterford Mott in non-league games. The JV game begins at 6:30 p.m. with

the Varsity game to follow. The cost for this year's home games will be 50c per person at the door.

This year's full schedule of games will culminate in participation in the first State Basketball Tournament for Girls. There is a possibility that Clarkston will host the District Tournament the last week of November and the State Quarter Finals in the second week of December.

# Wolverines win 36-26

Clarkston Junior High School defeated Walled Lake Central by a score of 36-26 on September 25.

The Wolverines scored early and continued to roll for a convincing win. Walled Lake picked up two of its touchdowns late in the fourth quarter thus making the final 10-point margin.

Kevin Gould lead all scoring in rushing for 180 yards in 11 carries for an average of 17 yards per carry. For the evening he scored three touchdowns. Also receiving praise was Rick Esser who rushed for 67 yards in 15 carries. Dennis Burton intercepted a Walled Lake pass in the third period and ran 40 yards for a score. The final Wolverine score came on a 10-yard pass from quarterback Dick Armstrong to Jess Williams in the end zone.

Coaches Gary Warner and Larry Sherrill both expressed satisfaction with both the offensive and defensive units.

Cold weather and rain didn't affect some 75 youngsters who turned out Saturday morning for the Jaycee-sponsored Punt, Pass and Kick contest. Winners were [first row] Ken Temple, Jeff Britt, Brian Fogg, Ron Davis, Mike Howe and [second row] Jack Sprung, Ray Davis, Ron Feneley, Jim Siple, Jeff Howe, John Pappas and [third row] Keith Bailey, Jim Walker, Dave Paul, Matt Wenzel, Skip Kulaszewski and Tim Birtsas, along with Jaycees Mike Madison, Dan Adamczyk, Dick Heath, Dan Bullard and Leo Frawley.

## JVs beat Rochester

By Mike Jewell

A strong Rochester Adams JV team make too many mistakes against Clarkston last Thursday, and it finally cost them the game as the Wolves won 8-6. The win kept Clarkston undefeated and increased their record to 3-0.

Keith Sipperly intercepted an Adams pass at 7:16 of the first quarter to halt the Highlanders' first drive. It was only a minute later before Jesse Diaz fumbled it back to Adams and they started marching again. At 11:50 of the second quarter, Steve Howe intercepted another Rochester "air ball" and stopped another Adams drive.

Adams finally scored with just 33 seconds left in the first half giving them a 6-0 halftime lead as their conversion for two points failed.

The wolves' offense finally caught fire in the third quarter as players put together a long, time consuming drive down to the Highlanders' 4-yard line before a fumble halted the drive. The defense played tough for the rest of the game the offense finally scored with 5:33 left in the game. Tom Bosquez scored the touchdown from 2 yards out to tie things up. The try for the two points conversion was good as Bosquez took the handoff, rolled out, and hit Tim Partlo in the end zone for the winning points. The whole drive was sustained mainly by the passing of quarterback Larry Bennett to Tim Partlo as the two connected for 3 of the drive's 4 first downs.

With only 2:43 left in the game, it was Mike Kelly recovering a fumble for the Wolves and stopping Rochester's last big drive. The game ended with Keith Sipperly grabbing his second interception thus giving Clarkston an 8-6 win.

Coach Paul Tungate said the win should be credited again to the defense. The JV's next game is Thursday, Oct. 4, against Milford.

## Harris wins

Matt Harris, a 13-year-old 8th grade student at Clarkston Junior High, is the proud possessor of a trophy, awarded Sunday at the AAU Golden Triangle Cross Country Meet at Eastern Michigan University.

Matt placed 10th in the 2-mile run for 12-13-year-old runners. Steve Hyde placed 16th in the 10-11-year-old division for the 1 1/2-mile run.

Bill Williams and Mike Bellairs, both 8th graders, turned in good efforts in the 12-13-year-old mile.

The boys were among 500 runners participating.

Photo by Bob Tilley

## Clarkston cross country thriving

By Mike Jewell

Clarkston's Cross Country team evened their league record at 1-1 and increased their overall record to 5-3 as they easily defeated Waterford Kettering and Oxford this past week.

The team took seven of the top eight places as they ran over Kettering 18-45. Jerry Adams finished first as he set a new Kettering course record of 17-20 on a muddy course in the rain. He broke the old record by four seconds, and was followed by second place finisher Mike Crosby.

Clarkston almost skunked Oxford, 15-45, later as the team clinched the top five places. Jerry Adams was again first with a timing of 16:54 and following him in order were Mike Crosby, John Hitchcock, Steve McIlrath, and Paul Glowzinski.

# Clarkston runs over Milford

By Mike Jewell

A running game, spurred by senior half-back Dave Whitehead, led the Wolves over the Milford Redskins, 26-8, last Friday night. It stretched the team's winning streak to three games, giving them a 3-0 record, 1-0 in league play.

Total offensive yardage for Clarkston came to 336 yards and every bit of it came on the ground. The offense also earned 16 first downs which is their game high so far this season.

The real story of the offense was the

## Varsity golf record even

By Mike Jewell

The Varsity Golf team is holding an even 5-5 record, 3-2 in league play. The team's second defeat in league play came against Andover as members lost by six strokes. It might have been a different story, though, if Clarkston's Don Short would have played without a cast and three broken toes.

The team's only win in the last week came against Rochester Adams. The Rochester team was defeated easily by a wide margin of strokes.

Playing the best golf on the team still is Lee Booker with a 38 average. Coach Doug Pierson said Short's injury "could hurt our chances for tournament play. The team, though, is finally starting to put it together and play some golf."

## Tim Adams benefit slated by Flyers

Clarkston Flyers will play a benefit hockey game for Tim Adams at 8 p.m. October 24 at Lakeland Arena against Dick Purtan's Old Timers.

Tickets are \$2 for adults and \$1 for students and are available from Clarkston merchants, at the high school, at the door, and by calling 625-4349.

Tim, a 1972 Clarkston High School graduate, has been ill since Christmas. He is currently in California.

running of Dave Whitehead, who totaled three touchdowns for 18 points and 202 yards rushing which pushed his season total to 40 points and 388 yards on the ground. Mark Blumenau also had his best game running as he totaled 86 yards along the ground.

After a scoreless first period it was the Wolves scoring first as they put together a drive which ended with Whitehead going 29 yards for the touchdown. Ken Foster put the PAT through the uprights and Clarkston had a 7-0 lead at 11:34 of the second quarter.

With 5:26 left in the first half, Clarkston's Mike Baker recovered a Milford fumble after the Wolves had just punted, giving Clarkston possession of the Redskin 35-yard line. It took the Wolves only two plays and fifteen seconds to score and it was Whitehead again scoring the touchdown from 18 yards away. Ken Foster also got his foot into action again as his second PAT gave the Wolves a 14-0 half-time lead.

In the third quarter there was no scoring as the ball seemed to stay mostly between the 30-yard lines. Finally, at 11:21 of the fourth-quarter, the Wolves widened the gap to 20-0 as Whitehead scored his third touchdown from 10 yards out. Ken Foster's third and last PAT attempt was blocked by Milford.

The Redskins scored their only touchdown at 8:16 of the final quarter of their half-back went 12 yards for the score. Milford also got the two points conversion which diminished the Clarkston lead to 12 points, 20-8.

Clarkston then put together one last scoring drive, using up close to six minutes, before Ken Foster raced 6 yards for the Wolves' final touchdown. The Wolves' attempt for two points failed and the final score was settled at 26-8.

The final minutes of the game belonged to the Wolves' defense. Defensive linemen Byron Pointer and Dan Blower put constant pressure on Milford's quarterback, sacking him twice for big losses, forcing Milford's final drive to be throttled. The Clarkston defense only gave up 136 yards total to Milford, statistically their best performance so far. Coach Rob White felt differently, though, as he

mentioned that even though the defense was physically dominant, they still need improvement. He also said the game was won along the ground even though the offense could have passed to help win.

Overall penalties for Clarkston came to 55 yards and Chuck Jorgenson only had to punt twice. The Barons of Andover will be the Wolves' next league opponents as the game will be here this Friday night.

# Heirlooms accent pieces

Handmade dry sink decorated with accent pieces.

COUNTRY LIVING  
COUNTRY LIVING  
COUNTRY LIVING  
COUNTRY LIVING

by Betty Hecker

An addition and some interior remodeling changed a three-bedroom tri-level house into a spacious, comfortable home for Michael and Rita Burdick and their sons, Michael, Patrick, and Kevin.

"We wanted to expand the house but we didn't want it to look like we had just tacked on another room," Rita confided.

The old garage, now equipped with a long porch, double front doors and reclaimed brick exterior, became the new living room in the expansion.

Michael textured and installed dark wood beams in the ceiling. A fireplace was built into the wall between the living room and the dining room, with openings into both rooms. The mantle in the living room was found at the Ortonville Flea Market. Rita said, "It was free. The man gave it to me!"

Gold carpeting, a green colonial style sofa, gold and green floral print chair, and bittersweet chairs in another grouping coordinate beautiful and are contrasted by the dark, shining wood of a huge, bellows-shaped cocktail table. The drapes are a homespun material, and are the color of raw linen. Bird prints and pictures including an oil

painting of wrens that Rita painted, are used to decorate the walls.

The dining room hutch and dry sink are handsome pieces of furniture and are both hand made by Michael. The dry sink was built when they lived in Connecticut, but the large hutch was built especially for this room. While it was under construction, and after Michael has the fun of "whacking" the buffettop to "distress it", Rita's parents came to visit and boysit when Rita and Mike took a trip. Rita's dad, Ken Bull, wanting something to do, saw the gouges and whack marks, and promptly filled them in with wood putty.

The round dining table is solid pine, stained dark. An antique candle mold, holding candles and dried flowers, centers it. Other heirlooms, once owned by Rita's family in Connecticut, include a wooden butter making drum, and a large and graceful pitcher and basin bowl.

# Remodeling adds a room

(Continued from preceding page.)

The kitchen was remodeled with Michael installing Rita's Christmas gift - her dishwasher. Louvered closet doors open on a sewing center and work area. The kitchen table is another refinished Ortonville Flea Market exile. The six chairs came from a barn sale.

Rita said, "I examined the chairs and every rung is matching and perfect. I don't know how many coats of green paint they had on them, and when I took them to the Dip-it place, the man agreed with me that I really made a good buy!"

Colonial print red wallpaper and antiqued red woodwork highlights this room. The wall decorations are mostly mushrooms, decouped on wide barn boards and small oval plaques. A small wooden rack holds dried flowers and is part of an arrangement on red paneling on the stairwall leading down to the family room.

Black and white dominates here-in the shag carpeting and on the one wall decorated with gingham check wallpaper. Even the door and casing is covered in the checked material. Matching gingham curtains hang at the windows. The family room, too, was remodeled. Before it was "L" shaped and is now a rectangular room. The bottom part of the "L" is now a bedroom for young Mike. It carries the black and white color theme, but has a red vinyl bed spread.

A nautical theme, in red, white and blue sails through Pat's room.

Kevin's room has black and white pillow ticking wallpaper on two walls, gold carpeting, a gold-tone patchwork spread on his bed, black leather topped desk and dresser, and a beautiful black and white lithograph of a kitten and old boot, framed in gold.

When it came time to decorate the master bedroom, Rita had help from two friends. They wallpapered the ceiling in an old fashioned floral and block design.

"We started in the back corner with a square, because I thought it would be the one most people would see first.

Well, it worked out so that all four corners came out with a perfect square. We didn't plan it, it just happened".

The windows have the same wallpaper design on the shades, and they are framed with wood. Rita drew the pattern onto the wood, and another neighbor with a wood router gouged out the design. The same thing was done to the head board of the bed.

The color theme is bittersweet and white and Rita admits that she had a tough time trying to find just the right shade of bittersweet in the bedspread to match the flowers on the wallpaper.

Comfortable living room was formerly a garage.

of  
Home Decor*

**by Boris B. Bronson**

Often, in decorating, you will experience cluttering or stiffness rather than errors of omission. When this occurs, consider what objects and furniture can be rearranged or recombined with other groups. If this fails, begin eliminating minor objects piece by piece. One method of increasing space and decreasing stuffiness caused by too many pieces is by deliberately keeping one wall in a room absolutely plain and devoid of furniture. Your eye will find relaxation in the break from decoration and ornamentation—and so will you!

Compliment your wall design with just the right furniture from HOUSE OF MAPLE, 6605 Dixie Hwy., 625-5200. Our La-Z-Boy rocking and recliner chairs are perfect for relaxing in, and we also feature a wide selection of casual chairs, couches, and easy chairs. We welcome you to browse around for ideas for eye-appealing finishing touches to your rooms. Open: 9:30-9 Mon., Wed., Thurs., Fri.; 9:30-6, Tue., Sat.

**HELPFUL HINT:**

A wall lamp is often the solution when it comes to clearing table surfaces.

*Complete Real Estate Service*

**Real Estate HAPPENINGS**  
by Bob & Marvel White

IF YOU ARE RENEWING AN OLDER HOUSE\* REMEMBER THIS RULE OF THUMB: "ceiling before walls." This is always the right order in renewal of any sort. Almost any wall material can be applied over old ceilings. Also, there is a large assortment of ceiling materials especially designed to reduce the noise in a room by absorbing sound instead of reflecting it. These acoustical panels improve the quality of tone from radio, television, etc., and may make conversation easier.

You'll find buying or selling real estate easier with the capable assistance and advice of the knowledgeable staff at BOB WHITE REAL ESTATE, 5856 S. Main St., 625-5821. We offer sincere personal service and technical skill to meet your every real estate need and urge you to call us today with your listing for prompt action. Open: 9-8 Mon.-Thur.; 9-6 Fri.; 10-4 Sat.; 2-5 Sun.; & by app't.

**HELPFUL HINT:**

Never put light wallpaper over dark because dark paper sometimes bleeds through and causes streaks.

# Case Cemetery -- hidden and forgotten

Names like Shirts and Case adorn the crumbling stones of the now abandoned Case Cemetery, located on Dartmouth Road south of Oak-hill.

Hidden by tall weeds and a steep incline from passers-by, the cemetery reflects a Civil War era. By far the newest of the stones is one placed in 1954.

About a half acre in size, it is visited now only by birds, a stray breeze, and an occasional official of the township.

## Land and people

# What is planning anyway?

by Dr. Roger Marz

Planning, at least as it involves planning the use of land, isn't terribly well understood, not even by the people who do it for a living.

Perhaps we can start by listing some of the things planning isn't.

Planning isn't "visionary"; some plans depend on having new and imaginative ideas, but most don't. In fact, many of the most "imaginative" plans are more accurately described as hallucinatory.

Planning isn't "impractical"; in fact, it is totally impractical to make large-scale decisions without planning, and we do it all the time. Examples will follow.

Planning isn't "zoning." Of all of the tools that may be used to put an intelligent land use program into effect, zoning laws are the weakest, the clumsiest, the easiest to misuse and of the most doubtful legality.

Finally, planning isn't "what planners do." If only land use planners do the plans, you will have bad plans. First, because the land use planner has no particular skill in choosing the purpose

of the plan. He may have his own tastes, but those are no better or worse than anybody else's. Second, if you end up with a plan produced only by the planner, the odds are pretty good that you will have a plan that will not be followed.

If the planning was bad, you may be better off; if it was good, you will probably be worse off; but in any case, you wasted time, money and skills by having it done at all.

Let's talk for awhile about what planning is. Suppose a decision is to be made about how a piece of land is to be used. This is a decision which is made by many different people. The property owner or owners will have one idea. Most intensive developments, like shopping centers, apartments, offices or public arenas require mortgages, so financial institutions like banks, savings and loan companies and insurance firms are participants too. No mortgage - no building, it's as simple as that.

Local governments play something of a role to the degree that they impose or

remove restrictions on the use of land. More important, though, is the impact on land use of other seldom noticed government decisions.

For example, the existence, or lack thereof, of sewer facilities and water supply, the capacity and condition of the existing or proposed road net, the ability of the local government to supply police and fire protection, garbage pick-up and disposal, etc. Even the public utilities are important. Can sufficient power, gas and phone service be brought to the site, at what price and who pays?

All of these questions, asked and unasked, are a part of the development decision.

Another set of questions is seldom asked and ought to be. What does a new shopping center do to other shopping districts? What does a public event center like Pine Knob or Pontiac Stadium do to the people who don't use it but might like to drive past it to get somewhere else?

Let's go back to an earlier point about practicality. The Pine Knob

music festival made a certain amount of economic sense. It extended the period of use of a valuable piece of land from five months of the year to about ten. However, the early days of the festival make it clear that traffic control was abominable, the road net was inadequate, the basic policies of the festival management were sometimes inappropriate and that many real costs of running a music festival at Pine Knob were being paid by its neighbors and other citizens of the county and the state who simply wanted to travel in north Oakland County on nights when there were big attractions.

Any decision that leaves that many loose ends lying around to be tied up in a year or more (and some of them are still loose) is hardly practical. It is more like drawing to an inside straight in poker. Planning is not a cosmetic to be applied after a decision to build a music shed or a stadium is undertaken. It is closer to accounting when it is done correctly. It anticipates problems, suggests alternative solutions, and all estimates, cost and who will pay them.

Neighbors of Mrs. J. P. Hubbard [center], a Clarkston resident for 59 years, got together for a farewell tea for the octogenarian Friday at the home of Mrs. Norman Daniels [left], 73 N. Holcomb. Pouring for the approximately 20 ladies who attended the event was Grace Vaughan. Mrs. Hubbard left Sunday to make her home at the Chelsea United Methodist Retirement Community.

### Farewell to a good friend

Also on hand to bid adieu to Mrs. Hubbard were some of the neighborhood youngsters who represent only one generation of her pals in the community. Here sharing some cookies with her is Mark Westlund, son of Mr. and Mrs. Davis Westlund, 155 N. Holcomb.

Drayton Heights Free Methodist Church

## Spiritual Message

### HIS IMAGE

In Elizabeth O'Connor's book "Eighth Day of Creation" she presents an interesting point of view: "Somewhere I heard of a story about Michelangelo's pushing a huge piece of rock down a street. A curious neighbor

sitting lazily on the porch of his house called to him and inquired why he labored so over an old piece of stone. Michelangelo is reported to have answered, "because there is an angel in that rock that wants to come out".

The Bible informs us that man was "created in the image of God". It also

tells us that this image became distorted because of man's disobedience (sin) to God's will and purpose for man, His creation. Consequently, this distortion or disfiguration has left man (us) unrecognizable so far as the "image of God" is concerned. At this moment, it is most difficult for the American people to see any semblance of the "image of God" in the perverted sex slayings in Texas the confused ethical and moral principles of the governmental leadership of our country--both sides, and the lack of respect toward properties and possessions of private citizens in our communities and everywhere else. Sin, or rebellion against God and rightness completely hides the "image of God" in His creation. What now?

God has not lost sight of that "image". As Michelangelo saw in the rock "an angel" so God has recognized the purpose of His design and original intention in the creation of man. He has done something about it! He purposed the transformation of man. And this plan called for a "Life-saver"--Jesus Christ. The Bible puts it clearly: "If any man be in Christ, he is a new creature; old things (disfiguration) have passed

away; behold all things are new (transformation)." (II Corinthians 5:17) This is a basic transformation which reflects in the outward behavioral patterns of mans living--this type of living becomes God-oriented.

But God still is not finished for the transformation is a beginning. It is the threshold for the development of the qualities which God desires to create in us throughout our lives. The Bible says: "You are living a brand new kind of life that is continually learning more and more of what is right, and trying constantly to be more and more like Christ who created this new life within you".

# Horton House - - Davisburg

... by Connie Lektzian

Hotel owners have ever had much the same problems no matter into what era they are born. Today's host sends a limousine to meet customers at the airport. A century ago he would have had his horse drawn "buss" waiting at the depot for the old steam engine to pull up in a shower of cinders and unload its passengers.

In the early 1800's, one of the most welcome sights to a traveler was the stage coach stop. A ride in an oxcart loaded with the children and farm equipment of a pioneer was not as elegant as the stage coach, but they both came on the same roads, and there wasn't that much difference in comfort. The end of the day found rich and poor alike grateful for a clean bed and warm food.

The stages not only carried richer passengers but usually provided mail and delivery service and the man that ran the coach stop might have been a bit more effusive in his greetings to them. Darwin Horton, however, was nine years old when he came to Michigan with his parents in 1835. It's doubtful that he forgot enough of that bone-wearying journey to ever turn away any weary traveler when he himself became a hotel owner.

When Caleb and Jane Horton left Palmyra, New York they faced more than the usual problems of settlers. Eight of them, in fact. Darwin and his seven brothers and sisters. Onto an Erie Canal barge, the Horton's had to pack eight children along with all the food and clothing necessary to last several weeks. In addition, they traveled with as much household goods and

farm equipment that Caleb's pocket-book could pay freight on.

The Hortons might not have wanted to risk going overland with that many people so at Buffalo they boarded one of the little packets that plyed between that city and Detroit. The purchase of a team and wagon in Detroit got the family to the claim that Caleb had taken up the year before. It could be said that not any minute of their trip was in comfort.

Evidence that Caleb prospered and did well in Michigan is shown by the fact that all his children received better than average schooling. In later years he sent Darwin and several others back to Palmyra for higher education.

Maybe it was the extra book learning that did it, but Darwin wasn't content to be a farmer. In 1860, he traded his farm for land in Davisburg. Here, with his wife Sarah, he began a small hotel.

This proved a shrewd move. Ten years later, he was able to build a four story hotel topped off with a ballroom, a ballroom that became the hub of the area's social life. He named his new establishment the Horton House, and even had livery barns to accommodate the horses of his patrons. This hotel gained a widespread reputation for hospitality.

With a keen eye for business, Darwin situated his hotel near the railroad depot and across the road from the thriving mill. In an atmosphere of conviviality and good food, railroad men and drummers put up here for the night when their routes brought them to Davisburg. Millers and farmers stopped by in the course of waiting for the flour and grist.

# Homecoming

by Diane Leaf

This year's **HOMECOMING FLOAT** theme will be "Living in the Past". Mike Johnson will be calling class meetings for information on the organization for building the floats. The parade will be Friday, October 19.

The Powder Puff game will be Saturday, October 13 at the CHS football field. The "Ugly Man" contest is October 16. Admission is 25c. Applications will be available from Ron Cozadd, who will be the announcer for the contest.

The snake dance and bonfire times are still undecided.

The homecoming dance will be semi-formal with only CHS students allowed. Playing for the dance this year will be the Side Street band.

Try-outs for the **DRAMA CLUB'S** production of "Our Town" are being offered this Wednesday and Thursday. A 50c membership fee is being asked for the purpose of buying needed items, such as paint for the props, make-up, etc.

At last Wednesday's meeting students signed up for committees for publicity, wardrobe, make-up and props.

**LUNCH HOUR PASSES** now make it necessary for anyone who wishes to leave the school to go out somewhere else to eat, to acquire permission first from their parents before leaving the school premises.

An additional service for students needing printed copies of material—they may now be acquired from a **COPY MACHINE** in the library. Price per copy is 10c.

No one should feel this community is lacking in **RECREATIONAL ACTIVITIES**. Independence Township recreation department is making such sports and pastimes as archery, men's winter basketball, girl's teen soccer, teen open gym, ballet lessons, self defense classes for girls and women, tennis, volleyball and bike clubs.

Applications and further information are available in the office and at many stores in town.

Seniors have already begun making plans for their exciting **SENIOR CLASS TRIP**. The four day trip will take them to the Bahamas and Nassau.

Between 165 and 185 seniors are expected to take part in this spring trip, at a cost of \$175. A \$100 security deposit will again be required.

# NOTICE

ORDINANCE NO. 73

## ORDINANCE ESTABLISHING A VILLAGE PLANNING COMMISSION; PROVIDING FOR ITS COMPENSATION AND SETTING FORTH THE POWERS AND DUTIES OF THE COMMISSION

THE VILLAGE OF CLARKSTON ORDAINS:

### SECTION 1: VILLAGE PLANNING COMMISSION, CREATION, NAME.

There is hereby created and established a Village Planning Commission to be known as the "Village of Clarkston Planning Commission".

### SECTION 2: MEMBERS; NUMBER, QUALIFICATIONS, APPOINTMENT, COMPOSITION, TERM, REMOVAL, VACANCIES.

(1) The Village of Clarkston Planning Commission shall consist of 9 members who shall represent insofar as is possible different professions or occupations who shall be appointed by the Village President subject to the approval by a majority vote of the members elect of the Village Council. All members of the Planning Commission may be compensated at a rate to be determined by the Village Council by a majority vote of the members elect of the Village Council. A member shall hold no other municipal office except that one of such members may be a member of the Zoning Board of Appeals. The term of each member shall be 3 years, except that 3 members of the first commission to be so appointed shall serve for the term of 1 year, 3 for a term of 2 years and 3 for a term of 3 years. All members shall hold office until their successors are appointed. Members may, after a public hearing, be removed by the Village President, for inefficiency, neglect of duty or malfeasance in office.

(2) Vacancies occurring otherwise than through the expiration of term shall be filled for the unexpired term by the Village President subject to approval by majority vote of the members elect of the Village Council.

### SECTION 3: MEMBERS, CHAIRMAN, MEETINGS, RULES, RECORDS.

The Commission shall select its Chairman from among the members and create and fill such other of its offices as it may desire. The term of the Chairman shall be for 1 year with eligibility for re-election. The Commission shall hold at least 1 regular meeting each month. It shall adopt rules for transactions of business and shall keep a record of its resolutions, transactions, findings and determinations, which record shall be a public record.

### SECTION 4: EMPLOYEES, CONTRACTS FOR SPECIAL SERVICES, SOURCE AND LIMIT ON EXPENDITURES.

The Commission may appoint such employees as it may deem necessary for its work, whose appointment, promotion, demotion, and removal shall be subject to the same provisions of law as govern other corresponding civil employees of the Village. The Commission may also contract for city planners, engineers, architects, and other consultants for such services as it may require after obtaining approval of the Village Council. The expenditures of the Commission, shall be within the amounts appropriated for the purpose by the Village Council, which shall provide the funds, equipment and accommodations deemed necessary for the commission's work.

### SECTION 5: MASTER PLAN FOR PHYSICAL DEVELOPMENT OF THE VILLAGE; ADOPTION, CONTENTS, PUBLICATION, ALTERATION.

The Commission shall make and adopt a master plan for the physical development of the Village, including any areas outside of its boundaries which in the Commission's judgment bear relation to the planning of the Village. The plan, with the accompanying maps, plats, charts and descriptive matter shall show the Commission's recommendations for the development of the territory, including, among other things, the general location, character and extent of the streets, viaducts, subways, bridges, waterways, flood plains, water fronts, boulevards, parkways, playgrounds and open spaces, the general location of public buildings and other public property, and the general location and extent of public utilities and terminals, whether publicly or privately owned or operated, for water, light, sanitation, transportation, communication, power, and other purposes; also the removal, re-location, widening, narrowing, vacating, abandonment, change of use or extension of any of the foregoing ways, grounds, open spaces, buildings, property, utilities or terminals; the general location, character, layout and extent of community centers and neighborhood units; and the general character, extent and layout of the re-planning and re-development of the blighted districts and slum areas; as well as a zoning plan for control of the height, area, bulk, location and use of buildings and premises. As the work of making the whole master plan progresses, the Commission from time to time, may adopt and publish parts thereof, any such part to cover one or more major sections or divisions of the Village or one or more of the aforesaid or other functional matters to be included in the plan. The Commission from time to time may extend or add to the plan.

### SECTION 6: MASTER PLAN, SURVEYS FOR BASIS, PURPOSE.

In the preparation of such plan, the Commission shall make careful and comprehensive surveys and studies of present conditions and future growth of the village and with due regard to its relation to the neighboring territory. The plan shall be made with the general purpose of guiding and accomplishing a co-ordinated, adjusted, and harmonious development of the Village and its environs which will, in accordance with present and future needs, best promote health, safety, morals, order, convenience, prosperity, and general welfare, as well as efficiency and economy in the process of development; including, among other things, adequate provisions for traffic, the promotion of safety from fire and other dangers, adequate provisions for light and air, the promotion of the healthful and convenient distribution of population, the promotion of good civic design and arrangement, wise and efficient expenditure of public funds, and the adequate provision of public utilities and other public requirements.

### SECTION 7: MASTER PLAN; ADOPTION OF WHOLE OR PARTS BY RESOLUTION OF PLANNING COMMISSION, HEARING, NOTICE, CERTIFICATES TO COUNCIL AND REGISTER OF DEEDS.

The Commission may adopt the plan as a whole by a single resolution, or may be successive resolutions, adopt successive parts of the plan, said parts corresponding with major geographical sections or divisions of the Village or with functional subdivisions of the subject matter of the plan, and may recommend adoption of any amendment or extension thereof, or additions thereto. Before the adoption of the plan or any such part, amendment, extension, or addition, the Commission shall hold at least one public hearing thereon, notice of the time and place of which shall be given, not less than 15 days prior to such hearing, by one publication in a newspaper of general circulation in the Village, and by Registered United States Mail to each public utility company and to each railroad company owning or operating any public utility or railroad within the geographical sections or division of the Village affected. The adoption of the plan or of any such part of amendment or extension, or addition shall be by resolution of the Commission carried by the affirmative votes of not less than 6 members of the Commission. The resolution shall refer expressly to the maps and descriptive and other matter intended by the Commission to form the whole or part of the plan, and the action taken shall be recorded on the map and plan and descriptive matter by the identifying signature of the chairman and/or secretary of the Commission. An attested copy of the plan or part thereof shall be certified to the council and to the County Register of Deeds.

### SECTION 8: PUBLIC WORKS; APPROVAL BY COMMISSION AND COUNCIL OR BODY HAVING JURISDICTION; PLANS FOR FUTURE.

Whenever the Commission shall have adopted the master plan of the Village or of one or more major sections or districts, thereof, no street, square, park, or other public way, ground, or open space, or public building or structure, shall be constructed or authorized in the Village or in such planned section and district until the location, character and extent thereof, shall have been submitted to and approved by the Commission, provided that in case of disapproval, the Commission shall communicate its reasons to the Village Council, which shall have the power to over rule such disapproval by a recorded vote of not less than two-thirds of its entire membership; provided, however, that if the public way, ground, space, building, structure, or utility be one the authorization or financing of which does not under the law or charter provisions governing same, fall within the province of the Village Council, then the submission to the planning commission shall be by the Board, Commission, or body having such jurisdiction, and the planning commission's disapproval may be over-ruled by said Board, Commission, or body by a vote of not less than two-thirds of its members. The failure of the Commission to act within 60 days from and after the date of official submission to the Commission shall be deemed approval. For the purpose of furthering the desirable future development of the Village under the master plan, after the Commission shall have adopted a master plan, shall prepare coordinated and comprehensive programs of public structures and improvements.

The Commission shall annually prepare such a program for the ensuing 6 years, which program shall show those public structures and improvements, in the general order of their priority, which in the Commission's judgment will be needed or desirable and can be undertaken within the 6 year period. The above comprehensive co-ordinated programs shall be based upon requirements of the Village for all types of public improvements, and, to that end, each agency or department of the Village concerned with such improvements shall upon request, furnish the Commission with lists, plans and estimates of time and costs of public structures and improvements within the purview of such department.

### SECTION 9: PUBLIC WORKS; RECISSION OF ACTION BY VILLAGE COUNCIL, PROCEDURE.

Whenever the Village Council shall have ordered the opening, widening or extension of any street, avenue or boulevard, or whenever the Village Council shall have ordered that proceedings be instituted for the acquisition or enlargement of any park, playground, playfield or other public open space, such resolution shall not be rescinded until after the matter has been referred back to the Village Planning Commission for a report and until after a public hearing shall have been held. The Village Council shall have the power to over-rule the recommendation of the Planning Commission by a vote of not less than two-thirds of its entire membership.

### SECTION 10: PLANNING COMMISSION; PUBLICITY AND EDUCATION, RECOMMENDATIONS, GIFTS, COOPERATION FROM PUBLIC OFFICIALS.

The Commission shall have the power to promote public interest in and understanding of the plan and to that end may publish and distribute copies of the plan or of any report and may employ such other means of publicity and education as it may determine. Members of the Commission, when duly authorized by the Commission, may attend Planning Conferences, or meetings of City Planning Institutes, or hearings upon pending Village planning legislation, and the Commission may, by resolution spread upon its minutes, pay the reasonable traveling expenses incident to such attendance upon approval of the Village Council. The Commission shall, from time to time recommend to the appropriate public officials programs for public structures and improvements and for the financing thereof. It shall be part of its duties to consult and advise with public officials and agencies, public utilities, civic, educational, professional and other organizations, and with citizens with relation to the protecting or carrying out the plan. The Commission shall have the right to accept and use gifts for the exercise of its functions. All public officials shall, upon request, furnish to the Commission, within a reasonable time, such available information as it may require for its work. The Commission, its members, officers, and employees, in the performance of their functions, may enter upon any land and make examinations and surveys and place and maintain necessary monuments, and marks thereon. In general, the Commission shall have the powers as may be necessary to enable it to fulfill its functions, promote municipal planning, or carry out the purposes of this ordinance.

### SECTION 11: PLANNING COMMISSION; NECESSITY OF APPROVAL OF PLATS, STREET SYSTEM.

Whenever the Planning Commission shall have adopted that sort of a master plan relating to the major street system of the territory within its subdivision, jurisdiction or part thereof, and shall have filed a certified copy of

# Notice of Public Hearing

The Planning Commission of Independence Township, Oakland County, Michigan will hold a Public Hearing on October 25, 1973 at 7:30 p.m. at the Township Hall, 90 North Main Street, Clarkston, Michigan to consider rezoning the following described property from A (Agricultural to R-1S (Suburban Farms):  
 T4N, R9E, SECTION 3  
 NW FRC 1/4

A detailed map showing the proposed change in zoning districts may be seen at the Township Hall Planning Office during regular office hours.

Mel LeRoy Vaara, Chairman  
 Independence Township Planning Commission

such plan in the office of the Register of Deeds of Oakland County, then no plat of a subdivision of land within such territory or part shall be filed or recorded until it shall have been approved by the Planning Commission and such approval entered in writing on the plat by the chairman or secretary of the Commission.

## SECTION 12: PLANNING COMMISSION; REGULATIONS GOVERNING SUBDIVISION OF LAND, BOND TO SECURE IMPROVEMENTS, PUBLICATION OF REGULATIONS.

Before exercising the powers referred to in Section 11, the Planning Commission shall adopt regulations governing the subdivision of land within its jurisdiction. Such regulations may provide for the proper arrangement of streets in relation to the other existing or planned streets and to the master plan, for adequate and convenient open spaces for traffic, utilities, access of fire fighting apparatus, recreation, light and air, and for the avoidance of congestion of population, including minimum width and area lots.

Such regulations may include provisions as to the extent to which streets and other ways shall be graded and improved and to which water and sewer and other utility mains, piping, or other facilities shall be installed as a condition precedent to the approval of the plat. The regulations or practice of the Commission may provide for a tentative approval of the plat previous to such installation, but any such tentative approval of the plat shall be revocable and shall not be entered on the plat. In lieu of the completion of such improvements and utilities prior to the final approval of the plat, the Planning Commission may accept a bond with surety to secure the village the actual construction and installation of such improvements or utilities at a time and according to specifications fixed by or in accordance with the regulations of the Commission. The Village is hereby granted the power to enforce such bond by all appropriate legal and equitable remedies.

All such regulations shall be published as provided by law for the publication of ordinances, and before adoption, a public hearing shall be held thereon. A copy thereof shall be certified by the Commission to the Register of Deeds office of Oakland County.

## SECTION 13: PLANNING COMMISSION APPROVAL OR DISAPPROVAL OF PLATS PROCEDURE, EFFECT.

The Planning Commission shall approve modify or disapprove a plat within 60 days after the submission thereof to it; otherwise, such plat shall be deemed to have been approved, and a certificate to that effect shall be issued by the Commission on demand; provided, however, that the applicant for the Commission's approval may waive this requirement and consent to an extension of such period. The ground of disapproval of any plat shall be stated upon the records of the Commission. Any plat submitted to the Commission shall contain the name and address of the person to whom notice of a hearing shall be sent; and no plat shall be acted upon by the Commission without affording a hearing thereon. Notice shall be sent to the said address by registered mail of the time and place of such hearing not less than 5 days before the fixed date therefor. Similar notice shall be mailed to owners of land immediately adjoining the platted land, as their names appear upon the plats and records in the office of the County Auditor, and their addresses appear in the directory of the Village or on the tax records of the Village or county. Every plat approved by the Commissioner shall, by virtue of such approval, be deemed to be an amendment of or an addition to or a detail of the Village plan and a part thereof. Approval of a plat shall not be deemed to constitute or effect an acceptance by the public of any street or other open space shown upon the plat. The Planning Commission may, from time to time, recommend to the Village Council amendments of the zoning ordinance or map or additions thereto to conform to the Commission's recommendation for the zoning regulation of the territory comprised within approved subdivisions. The Commission shall have the power to agree with the applicant upon use, height, area or bulk requirements or restrictions governing buildings and premises within the subdivision, provided such requirements or restrictions do not authorize the violation of the then effective zoning ordinance of the village. Such requirements or restrictions shall be stated upon the plat prior to the approval and recording thereof and shall have the same force of law and be enforceable in the same manner and with the same sanctions and penalties and subject to the same power of amendment or repeal as though set out as part of the zoning ordinance or map of the Village.

## SECTION 14: REPEAL.

Sections of the ordinance shall be deemed to be severable and should any section, subsection, sentence, clause or provision of this ordinance be held and declared by the Court to be unconstitutional, void or invalid, the same shall not affect the validity of this ordinance as a whole, or any part thereof other than the part so held or declared to be unconstitutional, void or invalid.

## SECTION 15: REPEAL.

All ordinances or parts of ordinances in conflict herewith are hereby repealed.

## SECTION 16: EFFECTIVE DATE.

This ordinance shall become effective on the 4th day of October, A.D., 1973.

Richard C. Johnston  
 VILLAGE PRESIDENT  
 Bruce E. Rogers  
 VILLAGE CLERK

## Folk Medicine

Much of the sickness on the American frontier had to be treated without medical help. This led to a wide variety of "folklore medicine" recently reported by Anne McNamara, daughter of a Toledo physician, in the Ohio State Medical Journal.

She found frontiersmen and women believed that:

- A baby's birthmark could be erased by rubbing it with the hand of a corpse or the head of a live eel for three mornings in a row, and then burying the eel heads beneath a stone.
- For croup, tie the right foot of a mole around the baby's neck with a blue thread.
- Whooping cough could be controlled by hanging a bag of little live ground bugs around the neck; with white-ant tea; or by passing the child through a horse collar three times.
- An onion carried in one's pocket would prevent small-pox.
- To remove freckles, wash the skin with May Day dew collected from tree stumps.
- For mumps, rub the swelling against a pig trough, or with chips taken from one.
- A moustache would grow better if the lip was covered with sweet cream, which a black cat should lick off on a dark night.

Most people today are too sophisticated to believe such folk lore. But it's surprising how remnants of these beliefs still exist in various parts of our country through which the restless frontiersmen and women once passed.

Rev. and Mrs. Donald Simon of Milford have announced the engagement of their daughter, Linda L. Simon to Craig R. Kottke, son of Mr. and Mrs. Howard Kottke of Clarkston. A June 15 wedding is planned.

## Engaged

Macrina Marie Nicholas will wed Timothy David Fisher October 26 at Our Lady of the Lakes Church. Their engagement has been announced by her parents, Mr. and Mrs. Nick Nicholas of 6628 Northview. Her fiance is the son of Mr. and Mrs. Carl Fisher, 1940 Duck Lake Road, Highland.

## "Springing up"

## World travelers

by Betty Hecker  
625-5726

Pat and Pete Novosel of Simler Drive thoroughly enjoyed their trip to Yugoslavia, Bulgaria, and Greece.

While in Yugoslavia, they took the Riviera Cruise into the Adriatic Sea, and island tour.

When crossing the border into Bulgaria from Yugoslavia (both Communist countries) Pat said, "They (guards) kept us waiting for a long time. We were traveling by coach. There was no reason for the hold up, they were just being unnecessarily slow checking papers."

Pat and Pete both are excited about traveling to Greece, especially to Delphi, where democracy had its beginning, and where most Greek mythology got its start.

A Greek Isle cruise in the Aegean Sea was beautiful. But the armed men in Athens airport were a little scary.

"I had never seen a tommy gun before," recalls Pat. "But we were there just after a skyjacking, so there were armed men all over the place."

She added, "Oh, on the flight home, the plane made a refueling stop in Shannon, Ireland - just a one-hour stop, but that was just the time I needed to go to all the airport shops."

"We hope to go back, and next time we'll take the kids!"

All the employees of Colombiere College in Springfield Township and their spouses wanted to say "Thank you" to their boss, Father John McGrail, S.J., as he was finishing his six-year term as rector of the college. They surprised him with a testimonial

dinner and presented him with a gift.

Father McGrail will be, and is the instructor for the third-year priests at Colombiere for the time being. In December, he will be going to Africa on a teaching assignment for a couple months.

The new rector at Colombiere is Father Reynold Allen, S.J.

There was a PTA Council meeting last Tuesday. The council is made of representatives from all the Clarkston PTA's.

They plan a fund raising event in the spring to bring live theatre to Clarkston children, possible through the Detroit Institute of Arts.

They are organizing an Art and Crafts Show with the people of Keatington Village and will be holding a bake sale.

The council is also organizing a survey of elementary school age children's parents, to find out how well informed they are on our school system, specifically pertaining to school policies, curriculum, and extra school activities.

The next council meeting will be at Bailey Lake School on October 30 at 7:30 p.m.

The 1963 graduating class of Clarkston High school held its ten-year reunion last Saturday night at Addison-Oaks. Fay (Jenks) and Darrell Williams of Orr Road were members of the class and attended the dinner-dance reunion, along with 52 other classmates and their spouses.

Fay said, "Everyone was just like they used to be! We really had a good time

## Town Hall has Buckley & Lerner

The right and the left will share the same platform when Conservative Reid Buckley and Liberal Max Lerner meet at 10:30 a.m. Wednesday, October 10, to engage in debate before Pontiac-Oakland Town Hall at Kingswood Theater, Bloomfield Hills. Series tickets are \$13 and are available by writing PO Box 328, Pontiac, 48056.

Celebrity luncheons will follow each lecture at the Pontiac Elks Club. Proceeds for the past year went to Pontiac-Oakland Symphony Orchestra Inc., Drayton Plains Nature Center, Pontiac Creative Arts Center and Oakland County Pioneer and Historical Society.

## Open house slated

St. Trinity Lutheran Church, 5860 Andersonville Road, will host an open house from 7 to 9 p.m. Monday and Tuesday, October 22 and 23. Programs for the entire family are planned.

Gail Poepppe, 20, daughter of Mr. and Mrs. Ambrose Poepppe of Perry Lake Road was the Detroit Miss Torchy candidate from D'Arcy, McManus and Masius, Bloomfield Hills. Gail, a secretary at the advertising agency, received \$100 for her selection, but she lost out in the finals. She is a 1971 graduate of Clarkston High School.

## Home tour Oct. 7

Clarkston Community Women's Club's Fall Home Tour and Boutique will be Sunday, October 7, 1-5 p.m., starting at independence center. Tickets are \$2 per person; carried babies are free; all other children must have tickets.

Tickets may be purchased at The Clarkston News, Independence Township Library, from Women's Club members, or at the door. Refreshments will be served at the center.

and enjoyed seeing them."

The committee had contacted all the classmates and were prepared to give prizes to those who had accomplished certain feats—like who has the most children in only ten years. The winner has five!

Another little mention went to the gal who was most recently married - only two weeks ago!

Mr. and Mrs. Bill Dennis were invited and attended the festivities. Mr. Dennis was the class's sponsor.

There's a new baby boy for the Edward Boetchers (she's the former Donna Davis) of 4995 Mohawk. Edward Nolen was born Sunday, weighing 8 pounds, 7 ounces. He joins an older sister, Tracey Marie. Grandparents are Mr. and Mrs. Nolen of Pine Knob Road and Mr. and Mrs. Edward Boetcher of Romeo.

Waterford - Clarkston Business and Professional Women have organized for the coming year and set the next meeting for October 25.

Clifford A. VanLoon and John C. Hitchcock have received letters of commendation for their high performance on the 1972 Preliminary Scholastic Aptitude Test/National Merit Scholarship Qualifying Test. The two attend Clarkston High School and are among 38,000 commended students throughout the United States.

Area 4-H Club members are feeling happy with the Service Club's recent donation of \$500 to the Michigan

School for the Deaf and another \$500 to the Rochester Leader Dogs for the Blind. The money was raised at the food trailer during the Oakland County 4-H Fair last summer. All members donated many hours of work to make the contributions possible.

Michelle Lee Sommers is the new daughter of Dennis and Ellen Sommers of Andersonville Road. Already nicknamed "Shelli", she was born on September 24, and weighed seven pounds and four ounces. She was 19 inches long.

And it was reported that when she was born, she looked just like her brother Mark (two years old) when he was born.

Donald J. Coltson, 5863 Dixie Highway, Waterford, will be honored at a three-day convention for outstanding State Farm Insurance agents October 8-11 at the Dunes Hotel in Las Vegas, Nevada.

Nanette Bowman, 175 Surry Lane, has received a master of science degree from Eastern Michigan University.

Diana Fox, 6031 Middle Lake Road, was one of 15 Central Michigan University students who recently attended a retail merchandising trade show at Detroit's Cobo Hall. Diana is studying retail merchandising in CMU's Department of Business Education.
