Senior center approved, funds coming

By Bob Sherefkin
Associate Editor

Independence Township officials are cautiously predicting a final approval for a senior citizen center now that the township has put down over \$40,000 of its own money to secure the planned site and building.

The preliminary purchase agreement on the five acre parcel of land and its building was signed Monday, Township Supervisor Floyd Tower said.

Township officials now have their fingers crossed that there will be no bureaucratic foul-ups delaying federal funds to finish paying off the planned site, located next to Clintonwood Park on Clarkston Road.

After months of delay, action of the senior center began Friday when Community Development executive John Madole assured Tower the \$55,000 purchase price of the land was approved.

While federal funds are expected this week, Tower moved to begin closing the purchase of the property and

two story brick building before its owner backed out of the deal with the township.

Instead of waiting until federal funds arrived later this week, Tower moved to close the land deal with owner Mrs. Nancy Smith by paying "\$40,000 to \$45,000" of the purchase price with township money. Federal funds will reimburse the township and complete the contract balance, Tower said.

"We are assured of the funds," he explained. "On Friday we received an official letter designating the funds."

"We signed the preliminary papers and have the commitments for the money," Tower said, "and we are tickled about it."

When the township takes final possession of the property, crews from the department of public works and parks and recreation will set to work cleaning up both the property and building.

Revenue sharing funds, earmarked by the township for upgrading the building, are expected to begin soon.

Hawke's Cove revised, but okay, planners say

By Rhea Lodge
of The Clarkston News

Clarkston planning commissioners went through the Hawke's Cove site plan step by step, Monday night before recommending its approval by the village council.

The vote for recommendation was unanimous, subject to three revisions that must be considered by the Zoning Board of Appeals and eight stipulations agreed on informally by the commissioners and Frank Walker, Hawke's Cove representative.

The site plan vote came at Walker's request so that work could proceed on the mini-mall project.

In voicing its accord with the site plan, subject to the stipula-

tions, Chairman Ted Thompson said the commission was "once more trusting in the integrity of the Hawke's Cove developers" and noted that "Frank Walker has leaned over backwards to be cooperative."

Walker in turn praised the commission and the Clarkston Village Council. Admitting that his first venture into remodeling was extremely difficult, he said extra effort had been put forth "because we want to become part of the village."

Chuck Cairns of Vilcan-Leman & Associates, planning consultants retained by the village of Clarkston, suggested many of the revisions that were subsequently considered and informally voted upon.

He voiced concern over loading and unloading facilities in two areas. One would require a truck to back up 145 to 150 feet before being able to turn around, posing a potential safety problem.

In the other area, there was a possibility of trucks blocking access to emergency vehicles and to handicapped parking spaces as noted on the present site plan.

Cairns also said the requirement of a six-foot masonry wall between the commercial structure and the residential area next to it and similar walls around the parking lots was unrealistic and "not good or needed in this case."

He suggested asking a waiver of this requirement from the

Zoning Board of Appeals and substituting adequate landscape screening in its place.

An apparent discrepancy in the number of parking spaces required and the total indicated on the site plan can be easily remedied, according to Walker.

One lot is required for each 110 square feet of usable area at a business enterprise. Usable area in Hawke's Cove building totals no more than 16,000 square feet, he said, instead of the original 20,000 square foot estimate. Not more than seven spaces are involved in the total of 144 projected.

In considering the Vilcan-Leman recommendations, the planning board agreed that some revision was needed in the

proposed lighting for the parking lots and in the seating for the amphitheatre and that passenger loading and unloading turnout on Washington street would not be required at this time.

A turnaround area for restaurant supply deliveries would not be required either. "Let's see how it works first," said one member.

The site plan will be redrawn to indicate the proposed changes and Walker's plan to relocate parking spaces for the handicapped at a more accessible site.

The exit to the parking lot nearest the alley will be moved 20 feet farther away and parking lot traffic will be changed to one

Proclamation asks family sharing

A proclamation aimed at bringing the family away from the TV and back together, was signed by Clarkston Village President Keith Hallman Thursday.

Proclaiming Thanksgiving as Family Time Week, representatives of the Greater Oakland Life Underwriters Association are donating time and money to bringing the message of family togetherness.

Public Service Chairman Robert Grant, representing the underwriters in North Oakland County, said the aim is to get the family together on a weekly basis whether working, playing or simply talking.

The underwriters are donating copies of a booklet, Family Time, to local libraries and schools throughout the area. The Million Dollar Round Table, made up of underwriters writing over one million dollars of insurance per year, is distributing the books to help

families, Grant explained.

The book is also available at cost by writing to Family Time,

P.O. Box 269, Pontiac, Mi. 48056. Enclose \$1.35 for cost and mailing.

Signing a proclamation proclaiming Thanksgiving Week as Family Time Week is Clarkston Village President Keith Hallman. On hand were members of local underwriters. From left to right: Gerald Chores, Dave Van Horn, Robert Grant and Hallman.

Jr. Miss Pageant Friday

The annual Jaycees sponsored Junior Miss Pageant promises to be bigger and better than ever this year.

With 22 young women competing the pageant will require a two night program. Friday night at 8 p.m. half of the contenders

will perform their talent acts while the other half does the physical fitness routine. Saturday night the acts switch. Tickets for both performances, at the Clarkston High School Little Theater, November 11 and 12, are \$5 per person. Tickets for one performance only are \$3 per person.

Junior Miss hopefuls practice physical fitness routine.

Students cook and learn

NOVEC get a taste of education

By Hilda Bruce
of The Clarkston News

Where can you get lunch for less than \$2 and endless cups of coffee for 25 cents? At the Northwest Dining Room that's where.

How about a Maurice Salad with hot bread for \$1.50? or a fruit plate with cottage cheese and nut bread sandwich? or chicken fricassee on a hot tea biscuit with tossed greens? or could you have a French dip sandwich served with fresh broccoli spears and salad—and it would all be prepared and served by students.

Next week the menu will change but it will still be offered by the quality foods classes at the Northwest Oakland Vocational Education Center on Big Lake Road just off of Dixie Highway.

The dining room overlooks the parking lot but the view includes frolicking horses in a paddock beyond. The scene is not much different than that found in travelers' dining rooms around the nation.

In this, the first year of the two year program students are learning job entry level skills—how to operate equipment,

personal hygiene, preparation techniques, sanitation, serving and hostessing.

At the Northwest Dining Room waiters and waitresses will not pour coffee while the cup sits in front of you. Neither will they handle silver, cups and glasses where diners' lips will touch.

Mary Stedman, head of the quality foods program, is a stern taskmaster (fondly called "Mom" by her students) who keeps an ever watchful eye on her students.

Mrs. Stedman began setting up her program with the help of the Oakland County Intermediate School district in May.

"It's been quite a year," she noted. "Just ordering equipment pots and pans, scales, measures dishes, serving scoops. And just how do you determine how many waste baskets are going to be needed in the kitchen or how many garbage cans?"

Both Mrs. Stedman and her co-worker Lynne Mead have had experience in the practical world of food service. Both stress the service as a profession.

"Food service requires many skills including management and purchasing ability, as well as personnel relations," Mrs.

Stedman said.

Besides the knowledge that the instructors and aides, Roberta (Bert) Allen and Barb Stelmach the program benefits from a twice yearly input from an advisory committee made of businessmen in the field who help plan and guide.

When the committee comes to visit the 64 students involved will get experience in continental breakfasts.

When the Clarkston Business Women visit the center November 10 the students will prepare and serve a party type menu.

Once the dining room is rolling smoothly specials will be added on a reservation and order ahead basis and students will get practice with prime rib dinner, preparing fresh oysters and shrimp. Buffets will also become part of the regular program later on.

"The great part about being in a skill center is the interaction between departments," Mrs. Stedman said. "For instance the students named their cafeteria the Trans Am and art teacher Larry Keech found a billboard

Continued on page 4

Roberta (Bert) Allen demonstrates salad decoration for student Denise Fleming of Waterford. Bert was cafeteria supervisor in the Clarkston Schools before becoming an aide in the food services program at NOVEC.

Independent view

SCAMP (Summer Camp 78) had a successful 15 mile walk-a-thon several weeks ago enlisting a lot of community support. But according to several irate people the SCAMPers know how to enlist support and publicity, but are short on thanks now that their project is over.

Now that the papers have been signed on the property for the Senior Citizen center, township officials expect stories of Whitey Tower's alleged "Footdragging" to subside.

The Independence Township Supervisor, according to rumor, was against the center and attempted to block it. One official called the story nonsense. Tower has worked harder than anyone for it, he said. In fact, the official said, Tower was far more effective than the seniors who harrassed Community Development officials in an attempt to secure federal approval of the planned senior center.

At the recommendation of Supervisor Collin Walls the Springfield Township Board voted not to become involved with Maureen Lowe's personal conflicts with Oakland County.

Mrs. Lowe had requested a letter to the effect she had been helpful to the township when handling Community Development Act Office matters.

Plans of a Southern Baptist Church in Ohio to burn sinful items such as bikinis, television sets, hard rock records and certain publications were halted by city officials because open air burning is forbidden in the area. Undaunted, the Cleveland suburban church hired a garbage truck to haul away and crunch the offending items that 400 parishioners turned in last Sunday night, the dramatic opening of a six-day revival.

CDA offer local control on grants, loans program

Springfield and Independence Townships along with 24 other communities have been given the option of administering the C.D.A. loans and grants program in their townships.

Representatives of the local governing bodies met with Oakland County C.D.A. Director John Madole Tuesday, Nov. 2 and were told that since the county office is understaffed and there is a backlog of 160 applications to be reviewed that local administration would be desirable.

It would also allow the C.D.A. (Community Development Act) office to continue accepting applications. Oakland County has \$1½ million to be allocated

to local governments for loans and grants in their areas.

"It was refreshing that Madole noted local bodies could administer the program quicker, better and cheaper than the county," said Springfield Township Supervisor Collin Walls.

The Springfield Township Board supported the move at its November 2 meeting.

Independence Township Supervisor Floyd Tower said he would ask for the consensus of the township board but felt that the township should try administering the program.

"After all, it is one of the few programs offered to township control," he said.

The administration would

entail:

- Local review of applications before being sent to the county for approval based on the C.D.A. guidelines.

- Township bidding procedure

- Local supervision of work. The local bodies would be compensated for such administration.

If the work load becomes too heavy for local building departments the townships can turn the administration back to the county.

The Springfield Township Board approved the hiring of two new C.E.T.A. employees

way.

The revised drawings will also show lawn seating for the proposed amphitheatre in place of bleachers or stationary seats.

Motion to recommend approval of the site plan was given by Dean Smith and seconded by

NOVEC

poster that his students will install.

The office skills class typed the menus," she added. "Later when we have developed a theme for the dining room the print shop will print a permanent menu. The horticultural department made the centerpieces for the tables."

Not to be forgotten is the special help students receive from other teachers in weights and measurements and terminology.

"We have been welcomed with open arms because until we

Doug Roeser Roeser, \$

Street lighting concepts, changes in street signs and further discussion of historical site rules and regulations will be taken up at the next meeting.

continued from page 3

opened teachers and students had no dining facilities here," Mrs. Stedman added.

And no wonder everyone smiles as he picks up lunch. How many school lunches offer stuffed cabbage, submarine sandwiches, banana nut salad, cottage cheese, tossed salad, dutch apple pie and raisin custard. Of course there are hot dogs too.

Besides the fun and the food, students receive three hours of credit for the two and a half hour class, four credits if they

No service, no pay

Last week the Springfield Township Board voted not to pay a bill submitted by the township engineering firm Johnson and Anderson.

According to Supervisor Colin Walls there is no written record of authorization of the services performed.

The \$919 bill was for engineering services—surveying, layout and project engineering—for the parking lot behind the Township Hall.

The survey was billed at \$280 for seven hours, the proposed lot layout (free hand on letter head) by draftsmen at \$342 for 19 hours and the project engineering at \$297 for 11 hours spent.

The Township Board had at one time considered paying the gravel lot using Community Development Act Funds. The project did not meet the program guidelines.

Springfield fills local positions

CDA

Continued from page 3

Wednesday, Nov. 2.

Charles Stackpoole was hired at a salary of \$8,500 as maintenance employee, and Joannie (Martha) Schultz as building department secretary at a salary of \$6,720.

After January 1, 1978 the salaries may be raised to \$8,800 and \$7,200 respectively.

Former building department secretary Marge Mallet has been transferred to the assessing department at a salary of \$8,400.

The Springfield Township Board made appointments November 2 to fill vacancies created by the resignation of George Thompson from the Parks and Recreation Commission and the resignation of Walt Cattin, chairman of the Township Planning Commission.

Steve Dice, Davisburg resident, was appointed to the parks commission. Dice has a degree in parks and recreation resources administration. In the

past he has worked for the Michigan State Parks system, spent three years as an arboretum specialist with Genesee County parks and recreation and has given time and service to the Springfield Township Parks and Recreation Commission.

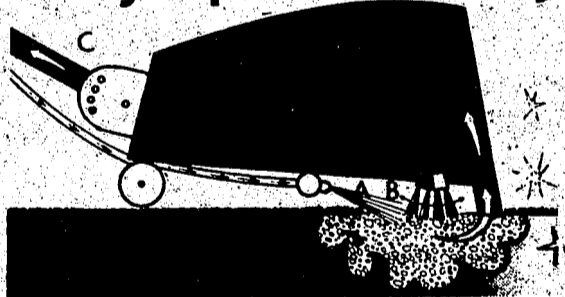

Dice owns Davisburg Building and Landscaping.

Mrs. Robert (Betty) Hecker was appointed to fill the vacancy on the planning commission.

Mrs. Hecker is a 22 year resident of the township. She was a reporter for the Clarkston News for three years, and has been in real estate for the last two years. She is currently manager of the Clarkston office of McAnnally Real Estate.

The planning commission will elect a new chairman (Cattin's position), or designate vice chairman Al Lopez as chairman at its next meeting.

The ultimate in steam cleaning is only a phone call away!

Note this bottom-side view of the Rug Doctor Vibra Brush method carpet cleaner in action.

- Hot water and cleaning solution jets into the carpet.
- Vibra Brush (like electric tooth brush) agitates carpet back and forth 3,400 times each minute. This breaks soil loose and polishes each carpet fiber to a clean, brilliant finish. This type of brush does not distort pile.
- Powerful suction extracts hot water and loosened soil back up to waste tank.

We are the only cleaner in the area that has the VIBRA-VAC METHOD.

With the increasing popularity of jogging has come an increasing interest in Marathon running. A Marathon is a foot race of just over 26 miles and is usually run through local streets. Perhaps the most famous marathon in the United States is the Boston Marathon, run through Boston and some of its suburbs on Patriot's Day in April each year. It is such a well-known race, that it attracts marathoners from all over the world and winners in Boston are acknowledged to be among the best marathoners in the world and have

a good chance at Olympic gold.

Want to jog? Be sure you are properly fitted to shoes before starting by coming to us at COACH'S CORNER, 31 S. Main, 625-8457. We handle Adidas shoes and will fit you to the right size for your needs. We also have socks for every sport and an assortment of equipment bags for various sports. Bags available in school colors with name. Hours: Daily 9:30am-6pm, Sat until 5pm.

SPORTS TIP:

Talk of the Times

My shoulders are bent

By Bob Sherefkin

Gray Robertson died last month. To some, he was just a harmless old fellow often seen weeding his garden. And his passing an obituary in the paper.

To many of the old time residents of Clarkston his passing was a severance in the heritage of the community. His family was part of the founders of Clarkston. The street on which he lived was named after his grandfather.

He was 79 at his passing and even the youngsters on Robertson Ct., understood. The kids in town had grown up around him, neighbor Donna Fahrner recalled.

"Gray was the type of gentle and kind man whom the kids instinctively liked and brought cookies and ice cream cones to," she said. "Gray was the man youngsters grew up with but didn't forget when they became young men."

A slim figure with grey-white hair, and accompanied by his grey-colored dog, Robertson worked until the last year of his life in the family feed and seed store. He remained a meticulous man, his grass and garden manicured. He always had a minute and a friendly word. His mind remained sharp and alert.

Sometime before he died, he wrote—some loose verse about his feelings toward the community. The message was discovered by his wife shortly after his death. Lucille thinks Gray wanted his words printed—during the Christmas season.

His words may sound overly optimistic and maudlin. Perhaps. But he approached his death without bitterness.

"I am growing old I know, My shoulders are bent, my step is

slow.

And a glance in the mirror convinces me that I'm not as young as I used to be.

It comes to my mind that the happy life I've had is due in no small part to the fact that my home has been Clarkston. My grandfather practiced medicine here, my father grew to manhood here and my wife and I have lived here for almost half a century.

My roots are indeed very deep in Clarkston.

It is high time that I express my regards for this village—a very gem of a place to live.

Our weekly paper, our township personnel, our village officials, our bank, our post office, our fire department, all so efficient and devoted to duty; yet with all so friendly and concerned.

Daily I went down and was

greeted from every side with kindness and friendship.

I can truthfully say that of all the people I know, there is not a single one that doesn't command my love and respect.

In my immediate neighborhood I am surrounded by a dozen great families, and in all these many years not a misunderstanding or a single cross word."

Letters to the Editor

Thanks

Dear Mrs. Lodge,
Just a note to say thank you for your article. I certainly

don't rate front page coverage but the first time it happens (in a positive way) one has to feel pleased.

Just had Dr. O'Neill offer

to help in any way he could—said the subject was near and dear to him. Perhaps he might not have noticed otherwise, busy as he

is.
I hope I can make some worth while contributions. Certainly you did a great job in providing local support. Thank you very much.

Carolyn Place.

Censorship

Dear Editor,
In regard to the memo to PTA members in the Independent View last week.

You have misinterpreted what we are trying to do. We don't wish to censor anyone. If people wish to buy Playboy, Hustler, etc., that's certainly their business.

Our goal is to persuade store owners to put these magazines behind the counter or to cover them, therefore our children will not be subject to them.

Sincerely,
Carol West

'If it Fitz. . .'

Didn't give Carter his pitch

by Jim Fitzgerald

WASHINGTON—I sat in the White House and looked Jimmy Carter right in the eye.

He looked away. I wasn't surprised. From the way I was waving my pitching arm over my head, coming from way behind my right ear, the president could tell I wanted to play hardball.

Jimmy Carter's game is softball, usually played with the White House press corps, which pitches underhanded. He knew he wasn't in shape to bat against a hard-throwing columnist from Detroit. So he ignored me.

I spent a day in the White House to take part in something called Regional Columnists Briefing. Thirty columnists, from all over the nation, were invited to hear wise words spoken by President Carter and several members of his staff. I was the Michigan representative.

You have a right to ask the same surprised question I heard from my family and friends: "Why did the White House pick YOU?"

The implication of the question is as plain as it is nasty. There are hundreds of heavier columnists in Michigan; learned persons who write dazzlingly

about domestic politics, international crisis and Amy Carter's tree house. I usually write about dumb cats, unreasonable wives and greedy morticians.

So why me? I put the question to Patricia Bario, who is associate press secretary at the White House. Mrs. Bario is a native of Kinde, Mich., and she used to be a newspaper reporter in Detroit. Before taking the White House job, she worked 14 years as a press assistant to the late Sen. Philip Hart. She knows how to stroke the massive egos which so often smoke pipes and write newspaper columns.

"One of our staff members read many newspapers from many states and asked many questions in an effort to select the nation's leading columnists," she said. "We also talked with congressional offices."

That last sentence is the truth. Columnists also eat from pork barrels. When the Democratic administration wants to kiss a columnist from Michigan, or wherever, the same procedure is followed as when appointing a U.S. attorney. A recommendation is sought from the

Democratic senator from Michigan, or wherever.

Michigan's Democratic senator is Don Riegle. We have been friends for many years, since before he went to Washington. I once wrote that someday he might be president. Now you know how I became one of the nation's leading columnists for a day, and how I got to Washington to play hardball with Jimmy Carter.

I know I should be serious about this thing. A month before I sat down with Carter, I had to cough up my Social Security number and submit to an investigation by the Secret Service. I had to show my driver's license and pin on a plastic badge before I got inside the White House. I had to leave my wife back in the hotel room because she never wrote that Riegle might be president someday.

It was obviously a big deal for a dummy who spent most of his newspaper career working for a country weekly. Just a few months ago I had trouble getting an interview with the township zoning administrator. I really wanted to be properly awestruck, mouth agape and palms asweat.

BUT INSTEAD, I-KEPT laughing. Not at the president, but at all those preening columnists vying for his attention. Those clowns didn't want to ask questions; they wanted to make speeches.

They made it easy for Carter to ignore my overhand attempts to catch his attention. The columnists kept jumping in front of me to ask complex questions concerning sewer projects in their hometowns. Each question was prefaced by the columnist's opinions on the world's most distressing sewers, blah, blah, blah.

Obviously, the president was lucky he could spend the press conference hitting those soft lobbs rather than facing my hardball. I was going to ask him why he was wasting time playing softball with a lot of peacock columnists when he could be working on a program which would create jobs for the millions of unemployed persons who can't afford to buy newspapers to read whatever dumb things the columnists write.

I'm angry that I never got to ask that question. But what really gripes me is the \$200 I wasted on a sharp tweed suit to wear while I stood up to ask it.

Of Cabbages & Kings

Figi is a state of mind

By Rhea Lodge

Travel is broadening, in girth as well as insight and I've gained in both ways. I started my column soon after takeoff from Metro Airport, not knowing that by the time it was finished and ready to mail home, the airport workers would be on strike at Nadi, Fiji where we were based for nine days.

Since the copy would arrive sometime in December, I knew I would precede it. In the interests of getting it to a polite but figeting editor who should have had it in his hands on Friday, I'll give it to you now.

It begins on Saturday, October 22.

We're cruising along at 35,000 feet on the first leg of our flight to Hawaii before

going the final 3438 miles to Fiji. My seatmate has been regaling me with stories about an old fashioned candy called "Hale's Fad" since one of our Nomads group came down the aisle distributing Tootsie Rolls and selling chances on a prize steer back home.

The captain is standing at the front of the cabin talking to us on the intercom and promising snorkel and scuba diving lessons when we get to the Fiji Islands.

There's a striking looking redhead across the aisle and a man behind her who looks like a union official. This is their first trip, so Captain Bill Moody explains why we always clap when our Convair 990 jet gets off the ground. (It began with the first flight for

the Nomads after they scraped up enough money to buy a plane.)

It's sunny up here above the clouds and the chill in the cabin has worn off. We've just had Danish pastries and coffee somewhere over Iowa. We will be served a hot meal after we refuel in San Francisco and start our 2445 mile trip across the Pacific to Honolulu.

We've seen several familiar faces; Mary from Rochester who got lost and left behind in Tel Aviv during our stay in Israel a few months ago; the pilot and his wife who were with us on the trip to San Andres Island, Columbia, last fall, and Charmaine who went deep sea fishing with us off Palm Beach on our first Nomads trip.

The co-pilot is at the controls, so Bill, a veteran airlines pilot, has been walking back from the cockpit, chatting along the way, and giving us more information than we can absorb.

"Fiji," he says, is a state of mind, where time is unimportant. Things come to pass a little bit late or maybe a little bit early." He tells me that if I can float or swim I can learn to snorkel off the coral reefs, and I'm determined to try it.

Meanwhile it's a 2110 mile jaunt from Detroit to San Francisco. We're cruising along at 525 miles per hour or about 80 percent of the normal speed of sound.

Over Nebraska, we see circles on the ground. Bill tells us it is a new method of

irrigating 160 acres of farm land at a time. A mechanical arm extends from the middle of a circle which surrounds a well. The device turns gradually, watering all but the farthest corners. The fields receive 1½ inches of water when the slowly rotating sprinkler completes the circle in a 36-hour period. Each system costs \$60,000 but is economical considering the areas that can now be irrigated to produce profitable crops, he says.

Time to buckle the seat belts, make sure our hand luggage is stowed securely under the seat in front of us, and stop smoking as we make the approach to San Francisco airport.

It's taken us less than four hours. Now the adventure begins.

Andrew Arakelian of Clarkston spends six hours a day working in his yard—all eight acres of it. The 82 year old gent, who recently retired from his grocery business in Detroit, finds it a rewarding pastime.

Some of the rewards are unexpected and exciting, like his recent discovery of a headstone.

While working in a flower bed at his Whipple Lake home Arakelian uncovered some concrete. A little digging revealed the gravestone. Arakelian washed it off to find that it reads, Joseph, son of W. E. and M. C. Hoyt. Died June 29, 1880/aged 9 years/SM.s. 18D.

What the last letters and numerals mean is unknown. According to the 1872 plat map of Independence Township, W. E. Hoyt owned 40 acres where Mr. Arakelian and others now live along Whipple Lake's shore.

The property is near the intersection of Sashabaw and the former Hoyt Road, now a service drive for the Independence Oaks county park.

Arakelian has owned his retirement home for over 20 years. But until his retirement he and his wife spent only weekends and an occasional vacation at the lakeside site.

SPORTS WATCH

Wolves end 9-0

By Anne Vaara

If they were playing a football game to keep fans on their toes and the edge of their seats, they succeeded.

They were the Clarkston Wolves and the game was the 30-19 thrashing of Port Huron Northern.

Northern fell prey to the Wolves who scored three touchdowns in the final period to hold their undefeated record in nine games.

The sizzling heroics of Craig Grable, a five foot seven inch, 140 pound senior, put the game in a complete turn around.

Port Huron had a 19-18 edge over Clarkston with three minutes and forty five seconds left on the clock.

It was fourth down and 11 yards to go in a do or die situation for the Wolves when Grable sprang up to grab a pass from quarterback Tim Fogg.

He then dashed 54 yards

before being stopped on the one yard line. From there Fogg squeezed in for a touchdown.

Ed Eaglen snared a key interception on Northern's 25 yard line, setting up a 15 yard touchdown run by senior full-back Chris Campe that clinched the game.

Campe and Fogg both scored in the first half to put Clarkston ahead 12-6.

The only other scorer was runningback John Baker with a three yard touchdown run.

The fourth quarter grand finale stunned Port Huron Northern, even baffled Clarkston fans, but the confident, strong-willed White's Army knew they would be triumphant in the end.

The Wolves travel to Wisner Stadium to face Birmingham brother Rice this Saturday, Nov. 12 at 1:30 p.m. for the quarter-final playoffs.

Clarkston's fans turned out with high spirits and loud support for the team

Varsity cagers second in league

The Varsity girl cagers at C.H.S. played two League games last week and came out with a win over Milford and a loss to Kettering. Throughout the week the team was not able to perform at 100 percent capability, due to several player injuries and illnesses. The Wolves currently

have a 9-6 record and are in second place in G.O.A.L. standings behind Bloomfield Hills Andover.

On Tuesday of last week the Clarkston cagers traveled to Milford, where they encountered a very physical contest. Clarkston led 22-15 at the half, but

allowed Milford to come back and take the lead at the end of the third quarter, 31-32. Clarkston came on in the final stanza with a lot of desire and determination. Anne Vaara and Jane Tatu combined to score 14 of Clarkston's 15 points in the fourth quarter, as they led the Wolves to a victory over the Redskins, 46-40.

Jane Tatu led all scorers with 17 points, and Anne Vaara drilled in 11 points.

In Thursday's contest with Kettering, Clarkston was play-

ing without the services of its two leading scorers and the Captains were playing to win their first League game of the season. The teams were tied at 9-9 for the first quarter, but Kettering took a 21-15 lead at the half. Despite several opportunities to do so, Clarkston did not take advantage of Kettering in the second half and lost to the Captains by the score of 29-33.

Clarkston played below their average in nearly all aspects of the game. They shot poorly from both the field and the free-throw

line, they were out-rebounded by Kettering, and they suffered too many turn-overs.

Marcia Mason topped all Clarkston scorers with 10 points, and Pat Killian poured in 8 points.

On Tuesday of this week, the Wolves traveled to Bloomfield Hills Andover to play the Barons in the final League game of the season. On Friday night (tomorrow) the Wolves will play a home contest against Madison Heights-Bishop Foley.

Loose one, win one

Last week the girls JV basketball team lost to Milford 26-23 and defeated Waterford Kettering 39-25.

Clarkston played poorly at Milford. Trailing throughout the game, the Wolves played a strong fourth quarter, almost upsetting the first place Red-

skins.

Leading scorers in the game were Dawn Reis, nine points and Lisa Steele, eight points.

Clarkston had no trouble with Kettering as they outscored their opponent in all four quarters. Lisa Steele lead all scorers with 14 points.

White's Wolves

by
Rob White
Varsity
coach

Clarkston's first 9-0 football season was quite an accomplishment for 35 dedicated young men. Many times this season the odds were against us and defeat looked inevitable. But the team came through everytime and we have no regrets about the 1977 season.

Thanks for the support of the band, cheerleaders, parents, students and our special fans who decorated the restaurant and Port Huron stadium for the team. Without fans it would hardly be worth the effort to perform every week.

Our performance at Port Huron was not the finest of the year. We did show our mental and physical discipline by coming back to win in the final three minutes of the game.

The play of the game came with three minutes left in the fourth quarter when Tim Fogg hit Craig Grable on a fourth down with 11 yards to go. The line blocked well and Fogg threw a perfect pass. Grable did an exceptional job of running the ball to the one yard line.

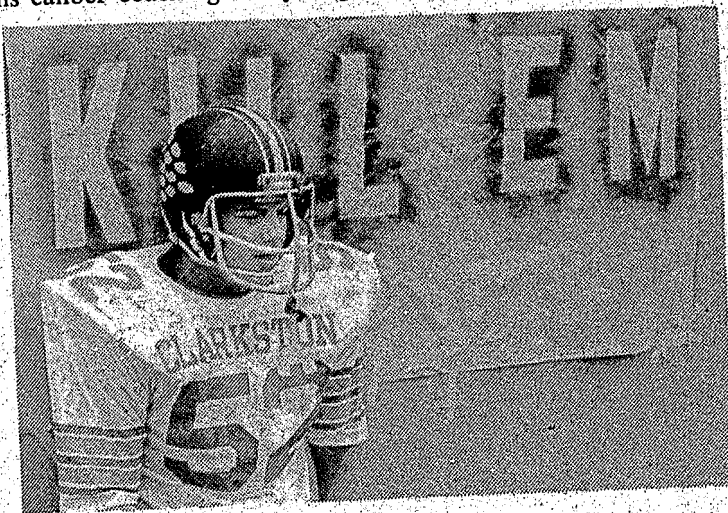

The winning touchdown came on the next play.

Throughout this season we have stressed the importance of self-discipline, team pride and togetherness. It paid off Saturday.

There are four unsung heroes who deserve recognition—our assistant coaches, Bill Johnson, Gary Warner, Roy Warner and Kurt Richardson.

Their dedication is responsible for our winning season. Without these men there would be no league championship or perfect season for Clarkston.

The community, school and team is fortunate to have men of this caliber coaching our young men.

We have now qualified for the State Football Playoffs and will be playing Birmingham Brother Rice at Wisner Stadium this Saturday at 1:30 p.m.

Racquet Club wins in Canada

Fourteen youth representing the Junior Excellence Program at Deer Lake Racquet Club traveled to London, Ontario where they took on the Middlesex Racquet Club team and came home with a winning team total 56-32.

Kim and Brad Vergiver won their mixed doubles match 8-1, Roger Craig Jr., prevailed in boys singles, 8-2.

Twelve-year-old Mary Smith lost a tie breaker to a 16-year-old Canadian in a "tough match", said Larry Peterson of Deer Lake.

"She came back from being down 6-3 to tie seven all before losing in the eighth game," he explained.

Also contending in the play were Fory Milzow, Greg Hall, Robbie Warrington, Bill Rachwal, Brent Volberding, Kathy Williamson, Lisa Mran, Sara Pidd, Ann Rademacher.

While in Canada the tennis enthusiasts toured the London Free Press, City Hall (Where they sat in the mayors' chair and

observed London from the deck.) and the Storybook Gardens.

The youths also celebrated Kim Vergiver's 14th birthday Saturday night.

Village Players rehearse

Rehearsals are in progress for the Clarkston Village Players second production of the season, "Me and Thee". The six member cast of the adult comedy is being directed by Cheri Broome.

The roles of Alice and Paul Carter are being portrayed by Sue Lalone and Jim MacArthur.

The Carter's son Roger is played by Len Loveless while their psychiatrist friend Grant Reeves is played by Denny LaLone.

The unusual role of Lela, the newfound friend of the Carters, will be enacted by Miriam Paar. Sally Inman portrays the role of the meter maid.

Judy Rood is assisting in

direction. Denny Colwell is the producer of the play.

"Me and Thee" opens Dec. 2 and runs Dec. 3, 4, 8, 9, and 10. Tickets are available at Tierra Arts, at the door, or by calling 625-5716.

Thursday, Dec. 8 is a benefit performance for the American Cancer Society.

CJH first in league

The junior high harriers' records proceeded to climb to 10 wins and one loss when they won victories from Lake Orion East and West on Wednesday. Clarkston's win was spurred with a first place finish by Eric Olafsson. Close on his heels were Brad Cullins, Dan Hahn, Bob Cattin and Dion Smith. Other members of the team who put in a fine performance were John McInnis, Pat Glowzinsky, Ed McInnis, Paul Birch, Jim Moffit, John Robenault, Rick Walsch, David Lewis and Dave Carland.

With their victory Clarkston also maintained their unbeaten status in the league.

The Wolverines capped the season by beating all the other teams in the league at their own invitational.

Think of us as part of the family.

Family. Community. Whatever you'd like to call it. We're part of it up here in Northern Oakland County.

You see, a family is something people count on. Like us.

We've got a family way of doing business. Our prices and our deals always have you in mind. We slick up our new cars and trucks (and our used cars, too) like we were delivering them to a favorite aunt.

We handle our service the same way. Because we've been around long enough to know that's where the family squabble can start.

So here we are. A big happy family ourselves. Just down the street — instead of 20 or 30 traffic-jammed miles away. Right where you need us — with as fine a selection of Chevrolet cars, trucks and recreational vehicles you'll find anywhere. All at prices that'll beat anything your brother-in-law says he can fix you up with.

Places to go

The Annual Kingswood School Cranbrook Gift-a-rama, sponsored by the Alumni Association, begins Friday evening, Nov. 11 with a champagne opening, 6 p.m.-9 p.m. Tickets are \$8 per person.

Saturday's festivities are 10 a.m.-5 p.m. at no charge. Luncheon will be available.

Daisy Dowling's Main Street Antiques, Clarkston, will be among the shops offering items for sale. Gifts range from \$2 to \$200 in price.

Proceeds of the event will provide scholarship and school enrichment program funding.

Parking is available at Christ Church Cranbrook with continuous shuttle bus service to the school.

The Waterford Book Review will meet at the Waterford

Historical Church on Andersonville Rd. at one o'clock November 21.

Mrs. Tull Lasswell and Mrs. K.B. Valentine will act in the 12-Pound Look, a play by Sir James Barrie.

Herb fanciers can browse or buy dried herbs for cooking and arranging, live herbs for window sill gardens, herb condiments, plus a fragrant array of herb wall hangings and wreaths at a Harvest of Herbs, November 11 and 12 at Pontiac Mall Shopping Center, Water-

ford Township. The two-day show and sale of herbs, located in the south mall, is presented by the Southern Michigan Unit of the Herb Society of America to benefit the National Herb Garden in Washington, D.C.

Novice craftsmen can learn how to make herb wreaths at free demonstrations set for 11 a.m. and 2 p.m. daily on Friday and Saturday in the south mall.

The Pontiac Mall is located at the corner of Telegraph and Elizabeth Lake Roads.

The Oakland County Parks

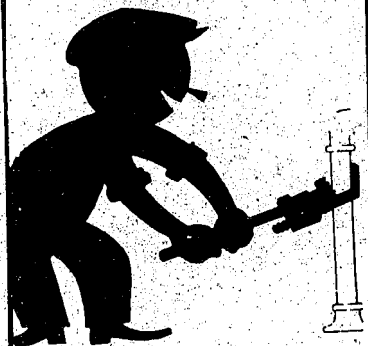

and Recreation Commission and Bike & Sport, Ltd., will jointly sponsor a Cross Country Skiing Presentation on Sunday, November 13, 1977, 3 p.m. to 5 p.m., at Waterford-Oaks Activities Center, 2800 Watkins Lake Rd., Pontiac.

NOTICE

THE NEXT REGULAR MEETING OF THE BOARD OF EDUCATION OF THE CLARKSTON SCHOOL DISTRICT WILL BE MONDAY, Nov. 14 AT 8 P.M. AT THE BOARD OFFICE, 6389 CLARKSTON ROAD.

ENTERTAINMENT 1978

CL/ENTERTAINMENT SEC—

Entertainment abounds in and around Clarkston with a little something for everyone.

The matchbook cover of the Clarkston Cafe describes "quaint country dining" but many patrons come after dinner simply to enjoy the entertainment which generally begins around 9 p.m.

Many of the cafe's entertainers have some connection with the Clarkston Conservatory of Music, she said, explaining they were trying to appeal to a good cross section of the community.

For the 18 to 25 year old who likes an exciting atmosphere, there is Heaven on Dixie Highway in Drayton Plains. Although most is local business, said owner Joe Puertas, some come from Detroit and Canada to listen and dance to live rock and roll.

Live bands playing rock or the top 40 at the French Cellar at Howe's Lanes Wednesday through Saturday attract all ages from Ortonville, Waterford and the Clarkston area.

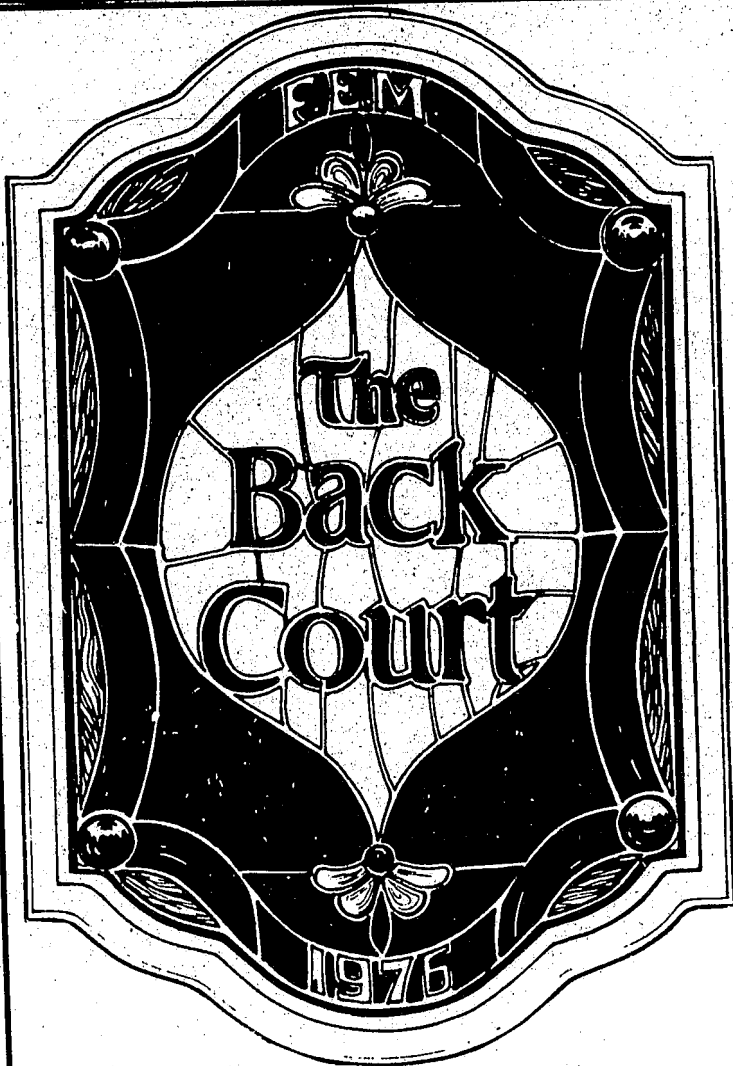

You can listen to the bartenders "play the bottles" at the Tin Pan Alley Tuesday through Saturday or you can join in with an instrument yourself.

Joanie Allen at the piano brings with her 20-25 instruments to pass around for those who will.

"We consider ourselves the cheapest baby sitter in Clarkston," said owner Ron Horecki, explaining that when they have a family matinee on the weekend, all seats are \$1.25.

"During the winter months we try to get a matinee for the kids every Saturday and Sunday," he said.

And for those who enjoy a quiet, relaxing evening accompanied with easy dinner music, perhaps a couple of guitarists with a drummer, The Back Court at the Deer Lake Racquet Club on White Lake Road provides the setting nightly.

Enjoy relaxed dining in the country.

The Calibogue Cafe

Hitting the bottle at Tin Pan Alley

Reminiscent of days gone by, with stained glass windows and barnwood paneling, the Tin Pan Alley, in the Old Mill, offers more from the bar than just drinks.

Every Tuesday through Saturday, with Joanie Allen at the

piano, and an assortment of instruments passed among the patrons, the bartenders roll up their sleeves and play the bottles.

"Every now and then we hit a flat note," said Les Cooper, night manager, who has tried his hand at it. "Square bottles tend

to sound like a gong," he said.

But it can be an evening of sing-along, play-along, or just sitting back and listening, said Cooper, depending on whatever's your pleasure.

Attracting mostly couples in their thirties and forties the Tin Pan Alley offers a tavern style menu of hamburger, ribs, chicken and fish.

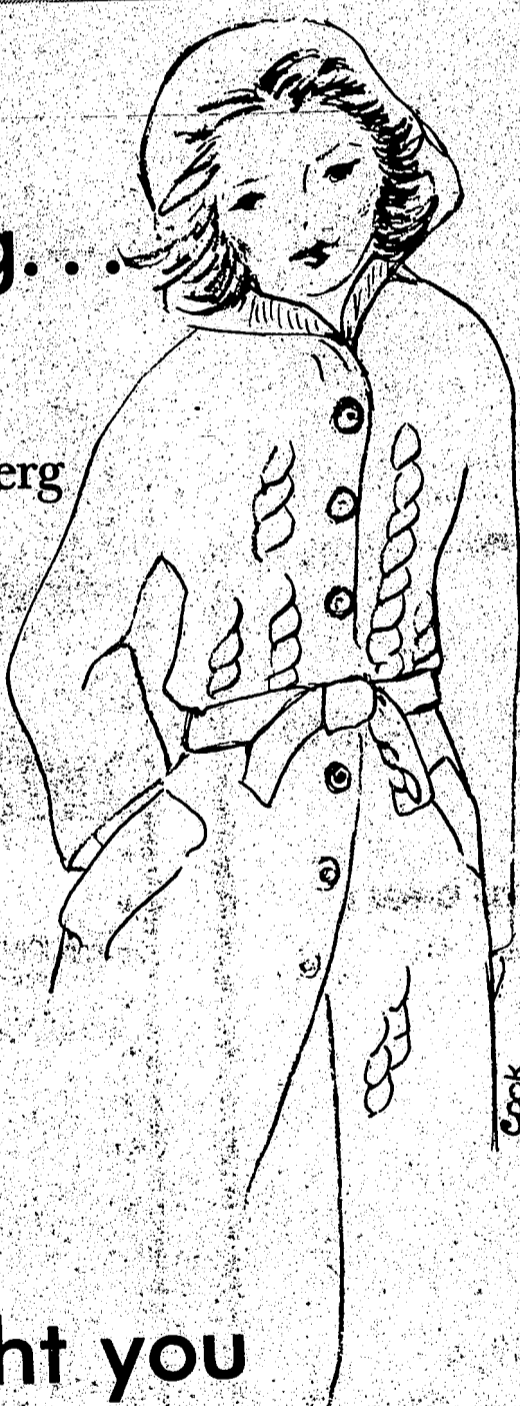

Come in for the evening, or stop in after a show. There are no set times when the bottles are played.

Regular patrons at the Old Mill's Tin Pan Alley wait for the event of evening—the playing of the bar. Here bartender Remi Zecman takes mallets to Jim Beam and all the rest as Joni plays "Java". He was joined by Les Cooper at the other end of the bar.

'PG' is our style

I never promised you an 'X'

For good family entertainment the Clarkston Cinema places an emphasis on 'G' and 'PG' rated movies.

"We don't like to play an 'R' and we will never play an 'X'" promises owner, Ron Horecki.

He explained they get movies through a booker, who receives a weekly fee. "He tells us what's available and we have a choice whether we want to bid for the movie or not," he said.

"R-rated movies fell flat on their face," he said. "I can see by the grosses that the people don't want it."

Being a smaller theater with only 266 seats, Horecki said that it's hard to compete with larger houses for the movies, indicating the bids are quite high.

"I just bid on 'Smokey and the Bandit' and we got it," he said sounding pleased. "It's the first one. Generally we do not."

The Clarkston Cinema features second run movies, picking them up after they have played the first run houses, Horecki said. In playing second run movies, no guarantee is needed. They pay only a percentage of the gross, he explained.

"If I had to pay \$50,000 to get a big movie, I'd have to run it for

nine months," he laughed. And after a six-week run in Clarkston, who would be left to see it, he asked.

Horecki had been a partner in the theater business for over four years, and became sole owner with his wife, Georgie, last August. Now, he says, the business is breaking even.

As father of two teen-agers himself, Horecki said he wouldn't want to live near an 'X'-rated movie house. "There's enough of those places," he said, "and if anyone wants them, they can drive downtown to see them."

Occasionally he will be "Stuck" with an 'R'-rated

movie, he admitted, and it may attract a few kids. But if a movie has the approval of the parent, he said, not only will he get the business of the teen-agers, but also the younger children as well as the parents.

Movies lined up for the month of November include, Herbie Goes to Monte Carlo, Smokey and the Bandit, Journey Back to Oz, Race for Your Life Charlie Brown, and The Three Stooges, Pardon My Scratch.

Tickets for adults are \$2.50, students (12-18) \$2.00, and children under 12 \$1.00, except for family matinees on Saturday and Sunday when all seats are \$1.25.

Bidding for first run movies is very expensive.

Back Court a tranquil setting

In a word, the restaurant is eclectic, said Chris Cucksey, manager of The Back Court Restaurant adjoining Deer Lake Racquet Club on White Lake Road.

Golds and browns are pre-

dominant in the room decorated with heavy leather chairs, tiffany lamps, old paddle fans, and a brass top bar.

If you enjoy dining in an easy relaxed atmosphere choosing from a moderately priced menu of steak, fish and poultry, than an evening at The Back Court is

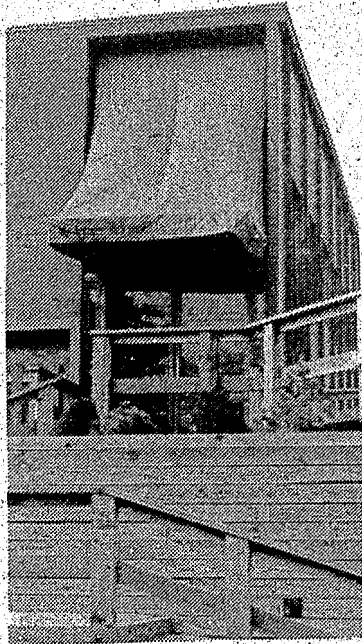

in order.

Opened in June, 1976, The Back Court welcomes everyone, young and old, singles and couples. "We accept everyone who comes through the door," said Cucksey, "and we treat them as though they were guests in our home."

With easy dinner music provided by guitarists and drummer, The Back Court offers a tranquil ending to hectic

days.

Sundays will find families as well as tennis players dining from 2 to 9 p.m.

Opening Thanksgiving Day

Food and skiing

If you like to ski, if you like to watch skiers, or if you're just interested in some good entertainment, you'll be glad to hear Pine Knob Restaurant and Lounge is planning to open on Thanksgiving Day.

"We cater to the skier aged 12 to 70," said Art Ruth, manager of Ogden Food Service Corporation which leases the food and bar service at Pine Knob Ski Resort, off Sashabaw Rd., near I-75. But it's open to anyone and the dress is "anything goes."

With an Italian menu available in the restaurant, and

sandwiches in the Lounge, the Restaurant and Lounge will offer a live band from 8 until 1 during the week, and 8:30 until 1:30 on week-ends. Entertainment provided for the Sunday brunch will begin at 2:00 p.m.

One side of the lounge and dining room overlooks the slopes for a full view of the skiers. And whether you prefer the dance floor or the ski slopes both are available.

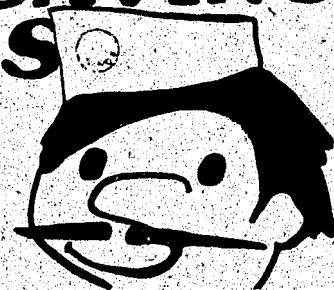

Re-decorated from the "rustic" to the "modern", the Restaurant and Lounge now has walls covered with carpeting,

vinyl, and mirrors.

Valet Parking is available and reservations, while recommended, are not always necessary.

At Heaven on Dixie Highway in Drayton Plains, South Shore [the band from South Bend, Indiana] played while dancers gyrated.

Heaven to Betsy

Make a bowling alley into a dance floor, throw in live rock and roll bands, add pin ball and pool tables and carpet the bleachers. Mix well with several hundred energetic participants and the result is Heaven.

Located on Dixie Highway in Drayton Plains, Heaven attracts the 18 to 25-year-old age group who do not go into a bar to sit, said owner Joe Puertas.

Presently appearing at Heaven is a group from Chicago called South Shore. The type of music preferred is like that of Fog Hat,

the Doobie Brothers, and Led Zeppelin. A local group, Storm Warning, plays at Heaven about twice a month.

During the week the crowd consists of singles, said Puertas, with the couples appearing on weekends. "The band really gets them moving at a high pitch," he said.

The dance floor that holds 400 to 500 kids gets so crowded, he said, that they can hardly dance.

While meals are not served, Puertas said that sandwiches are available.

So for a \$1.00 cover charge, the energetic soul is given an evening at Heaven.

French cellar rocks

It's not necessary to be a bowler to enjoy the entertainment in the French Cellar of Howe's Lanes on Dixie Highway.

For fourteen years, Lester Howe has owned and operated the bowling alley and the Cellar downstairs, said daughter, Linda Howe.

If you like to dance, if you like to meet people, then on Wednesday through Saturday,

from 9 until 2, you can listen and dance to live bands playing rock or the top 40.

Single people as well as couples from ages 18 to 30 enjoy the music and the socializing in the Cellar that holds 185 people, Linda said.

Local groups such as Emphasis from the Pontiac area, or Orion (pronounced O-rye-on) from Lake Orion, are regulars playing at the Cellar.

Peyote provides music for listening and dancing at the French Cellar in Howe's Lanes just off Dixie Highway in Clarkston.

Clarkston Cafe offers mood

Antique cupboards line the barnwood paneled walls. Lanterns, horse collars, and old farm implements of years ago help set the theme of rustic Americana in the Clarkston Cafe on Main Street in Clarkston.

Don and Gloria Hayes with daughter, Lee, and husband Patrick McNew have owned and operated the Cafe for the past year.

Appealing to a good cross section of the community, the Cafe presents entertainment in a variety of musical forms around 9:00 Thursday through Saturday nights.

In the past they have had folk singers, classical guitarists, pianists, and at present are presenting the Aging Children, a man and wife team who play a variety of unusual instruments including the concertina and mouth organ.

Many of the musicians have some connections with the Clarkston Conservatory of Music, Lee McNew said.

The Cafe accepts no reservations for after 7:00, but serve full dinners until 10 p.m. during the week and 11 p.m. on Fridays and Saturdays.

Church seeking ways to keep pipe organ

If you have \$15,000 to spare you could do a big service for the public and for the members of Calvary Lutheran Church in particular.

The church has in its possession an Aeolian residential pipe organ but the \$24,387 expense to get it into operation for their new church is beyond the means of the congregation.

An adequate five rank pipe organ would cost only \$13,500. Adding the \$1,500 it cost to remove and store the organ from the Sydney Waldon Mansion to that cost would yield \$15,000, freeing the church of its \$1,500 debt and making a new organ possible.

National advertisement of the organ has resulted in a \$15,000 offer from the East Coast. Rev. Robert Walters would like to keep the organ, estimated at a value of \$75,000 to \$90,000, in Michigan.

In particular, he would like to see it in Fairlane, the last home of Henry Ford.

The University of Michigan, Dearborn, now has possession of the Ford home and would like the organ. The original organ at

Fairlane was removed before the university inherited the mansion.

However, U of M was unable to raise the necessary funds to buy the organ.

Called one of the better instruments by one of the best organ companies in the world fifty years ago, by an area organ builder, the organ features 25 ranks of 1,784 speaking pipes

ranging from a few in inches to 16 feet in length. It also has a percussion harp and chimes and is a player organ. It can be played by rolls like a player piano, as well as with the two keyboards and the pedal keyboard.

The organ console is hand carved with relief panels of Mozart, Liszt, Wagner and Beethoven.

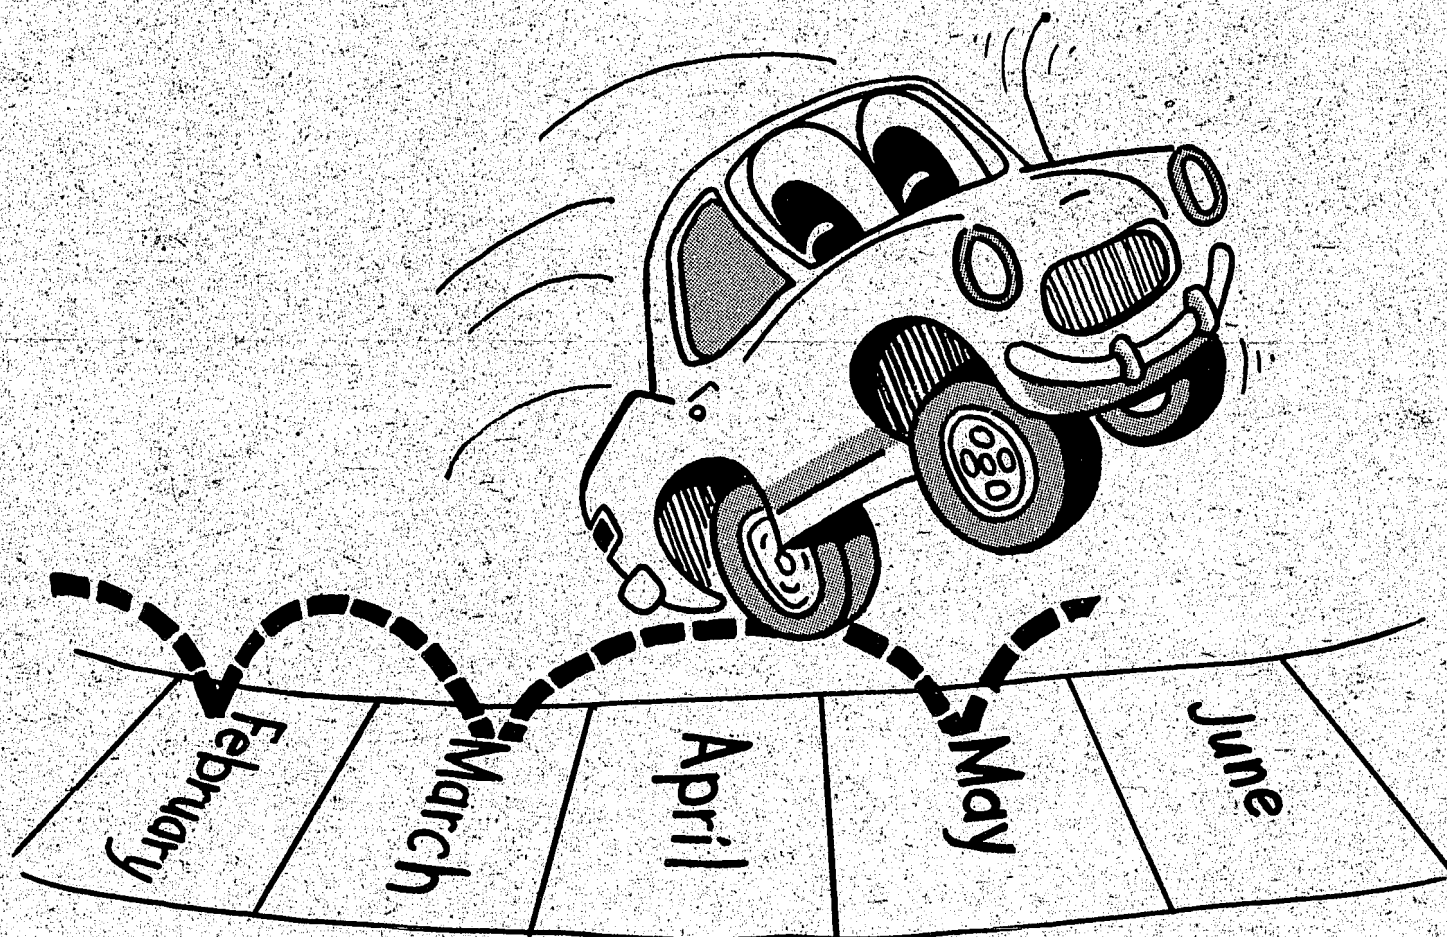

Springfield Board hits registration bills in Lansing

The Springfield Township Board has approved a resolution on House Bill 5064 and 4898 stating their objection to the measures. Both bills advocate voter registration take place at the polling place and HB 4898 advocates registration by post card.

The resolution will be sent to other local governmental units and to legislators.

"The practice could become a monstrosity," said Supervisor Collin Walls. "There has to be a point at which we can determine that those voting have the right to do so."

Free Auto Loan Special

Skip a month if you please

Emergencies can happen to anybody. And that's when you need relief from your bills.

So PSB has a new idea for auto loans. We'll let you skip a month in your payments almost anytime you choose.

There's no increase in the interest . . . no extra charges . . . no penalty of any kind. This is a special for October and November only, and so we offer it free.

When you take out your loan, we give you a "Skip-a-Month" coupon. Perhaps you'll never use it, but who knows? It might be welcome when Christmas bills come in. Or

next April when your income tax is due. Or during an illness . . . a lay-off . . . or emergencies. After the first two payments on a loan in good standing, you can postpone any other payment at no cost at all to you.

If you plan to buy a 1978 car, van or truck, call us now for details. Find out how much you can save on a PSB loan at our regular rates and receive your "Skip-a-Month" privilege free.

This special offer expires on November 30, 1977. Call 857-5865 or any PSB service center today.

Learning just a game, teacher says

At a recent workshop parent volunteers at Pine Knob Elementary joined reading support teacher Bernice Rynders and her husband, Pete, reading consultant from the Oakland County Intermediate School District (Oakland Schools), in making games to be used to teach reading skills. The games were devised during a 10 day Instructional Material Development Project at Oakland Schools last summer.

"We played them all and reworked them until they would produce the desired objective," the Rynders said. "They are focused to develop specific skills."

After the games are finished Mrs. Rynders will teach classroom teachers to play the games so they can be used in the classroom and the teachers will know the processes taking place as the children play the games.

The second phase will be parent involvement. Those parents willing to work with the

teachers and children will also learn the games before being assigned to classrooms.

"When teachers and parents work together children benefit," Mrs. Rynders noted.

Mr. Rynders note that another benefit of developing and

making games for classroom use is the economy factor.

"We (Oakland Schools) paid \$144 for 15 games—and there is always something wrong with commercial games—total material costs for these games was \$6."

**Give
the world
a little
gift today.
Blood.**

Gerry Atkinson and Jackie Larkin, parent volunteers at Pine Knob Elementary school help make games to be used in Bernice Rynders reading support classes. Later the games will be used in regular classrooms as well.

Hawke's Cove construction racing winter

Careful. The new face of Hawke's cove rises quickly

The stacks of construction materials at Hawke's Cove two weeks ago was proof of the old saw—"Things have to get worse, before they get better."

"We are five to 10 percent into the construction stage," said Frank Walker, developer.

Now the exterior is at least looking better. The gaping hole left where the windows were knocked out have been blocked up and the brick veneer is going up on the front. Soon it will wrap around the ends and continue down the alley side and around the west end of the original Ford structure.

"We hope to have the exterior work completed by the middle of December," Walker said.

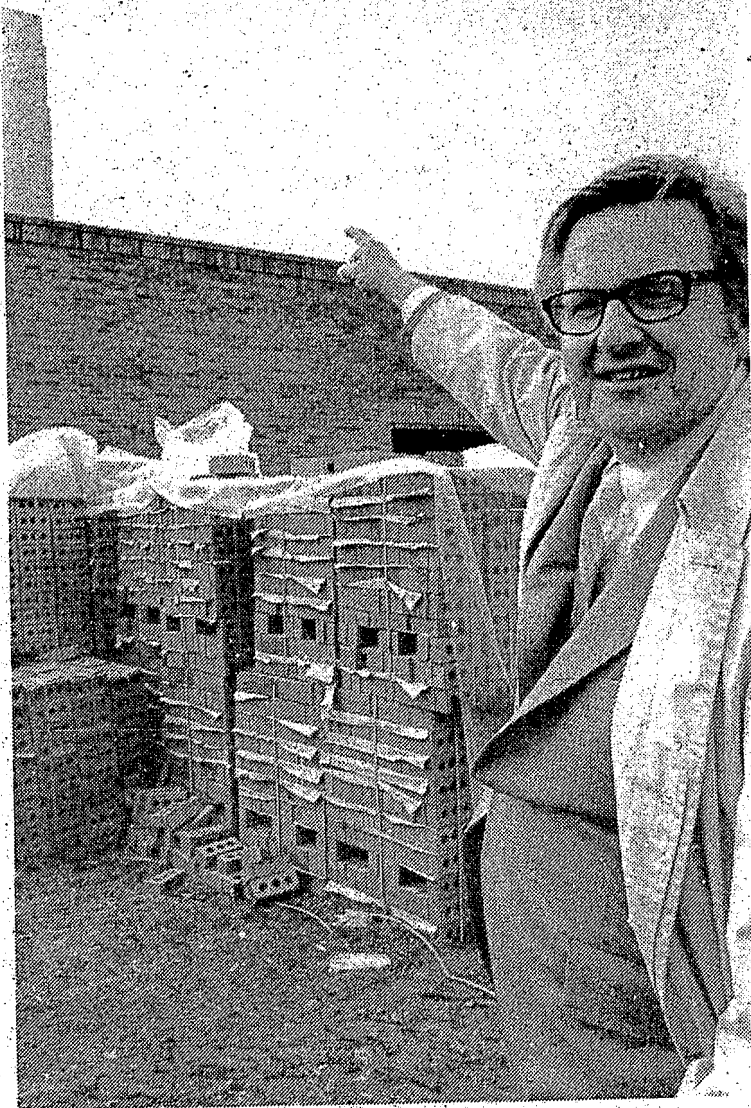

That work will include the entrances at front, side and rear. The front entrance with its portico will be at the eastern side of the building. The side entrance will be recessed opposite Mill Street (more commonly known as Rudy's parking lot.)

The rear entrance, or Millstream entrance as Walker prefers to call it, will include a glass elevator allowing a view of the grounds as it ascends.

There will also be an exit down existing stairs from one of the two planned restaurants that will lead to a bridge over the creek complete with seating area.

Part of the plan is to entice patrons to walk the grounds after enjoying the view from the family style dining rooms through the large expanses of glass.

"We want to promote the romantic atmosphere of Clarkston. Here people can go for a stroll on the grounds, visit other businesses

Marc Alan, clock buff and owner of Hawke's cove, plans a four face clock for the existing tower. Of a traditional design, it will be in keeping with the character of the community, he says.

Clarkston News

The Clarkston (Mich.) News

Thurs., Nov. 10, 1977 25

in the village or just a walk down historic streets," Walker noted, "It isn't possible in Detroit."

In the attempt to bring the natural beauty of the property and the mill pond opposite the new enterprise the mall shops on the upper level will have windows overlooking those sites.

There will also be skylights allowing natural light into the complex.

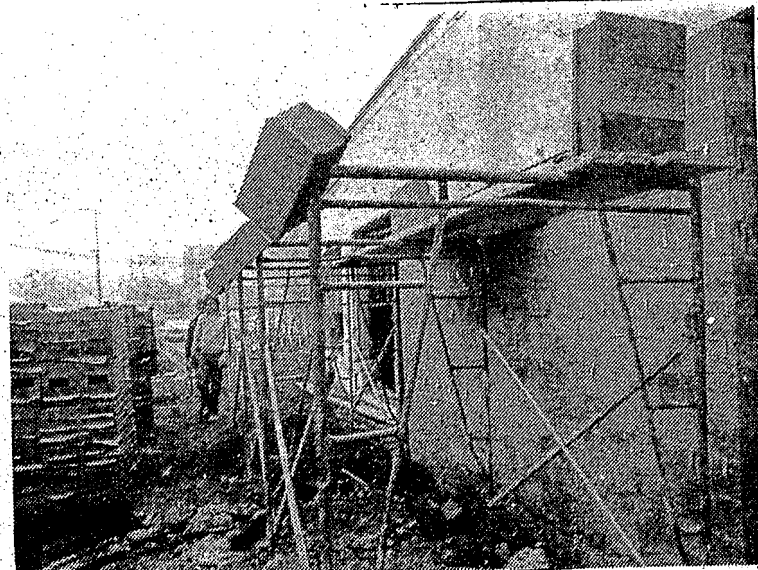

The leasing program is to start within the next month, Walker said. It is hoped that the 16 shops, ranging in size from 460 square feet to 2200 square feet, will include men and women's clothing shops, a jewelry store, a gift shop and a fashion shoe store.

"There will definitely be a wine and cheese shop," Walker said. "It is planned for the lower level and with its exposed beams it will have that wine cellar look."

"The architect, Bidigare Bublys of Birmingham, is working on a small model complex of the interior that will be used for the leasing program," he added.

And before the renovation is complete a clock of Marc Alan's (Cove owner) design will grace the tower on the west side of the structure.

Alan is a clock buff whose Mack Avenue office in Grosse Pointe Woods is known by its street clock. The Engass clock now 90 to 100 years old was originally in downtown Detroit.

Construction workers begin work early when heavy mists still cover the village.

Loads of cement are mixed daily and moved to meet the waiting piles of bricks that line the front of the renovated building. The alley side of Hawke's will also have a new brick face.

Storm warnings

Country Living

A truck load of insulation is a guaranteed sale. This load will be sold out shortly after news

of its arrival is announced. There are reports of insulation hijackings as the demand increases.

BY Sharon Hahn

As the temperatures drop, heating costs begin to rise.

With thoughts of last year's heating bills brought back to mind, township people are preparing their homes for winter.

While new Michigan energy codes have forced construction of new homes to meet specific guidelines on insulation, older homes built prior to 1940 have little or no insulation at all.

"We moved from a home with twice as much floor space," said Kathy Greenfield, whose present home in the village is 53 years old. She and her husband, Dick, had a new furnace installed when they moved in and expected heating bills smaller than what they had been paying. "They weren't," Mrs. Greenfield said. "They were the same."

"Our living room is freezing in the winter," she said. "The

outside walls are always cold."

She noted that not only do older homes have less insulation, but they also have a lot of windows.

Preparing for the winter, the Greenfields this summer insulated their attic, and crawl space under the living room, including wrapping the heat ducts that ran under the floor.

This winter will tell if they've done enough.

Living in a large older home on Main Street for over twenty-three years, Mrs. Jerome Wilford said her home is relatively easy to heat. She said that the blow-in type insulation was in the home when she and her husband bought it.

"It worked everywhere except the kitchen," she said, explaining that the kitchen with a large fireplace has always been cold.

This year Mrs. Wilford is going to try something new. "It's something I saw being done in a friend's home in Ohio," she said.

Her friend has a very large fireplace that is sealed off, when not in use, with a removable piece of plywood or masonite cut to the size of the fireplace opening and painted black. The insert is simply set in place with angle irons keeping it in standing position.

Copying this idea, Mrs. Wilford hopes to prevent the cold air from coming in through the fireplace and to keep the heated air in the house.

Another energy saving technique she uses is to keep the registers closed in upstairs bedrooms. "These old houses have been built with the chimney up through the central part of the house," she said, explaining that as the heat goes up the chimney, it tends to warm the rooms around it.

With the onset of cooler temperatures, Burke's Lumber on Dixie Highway in Drayton Plains has seen an increase in

sales of insulation and visqueen, said Charles Renschik, sales representative.

"Insulation is getting really hard to get," said Renschik. "We haven't seen the increase in prices yet, but we will."

"It's like prohibition," laughed Frank Gough in Marketing Service at Detroit Edison, "with bootlegging and hijacking" of insulation.

He said that even he had been offered gratuities for insulation.

"We've been preaching the necessity of insulating for years," he said. "They finally hear us."

shutters reduces the loss of heat through windows.

"Storm windows are important," said Ron Lockhart, Public Affairs Supervisor of Consumers Power. And, he added, the visqueen being used on many home windows helps reduce heat loss.

He suggested wooden frames for the visqueen could be used on the inside of the window, making them unnoticeable from the outside, and enabling them to be used again, year after year.

"There is nothing wrong with doing the same thing over an insulated type window, giving it

"These old houses have been built with the chimney up through the central part of the house and as the heat goes up the chimney it tends to warm the rooms around it."

An entire truck load of 6" attic insulation was available at K-Mart's in Drayton Plains last Friday morning. Salesperson Randy Robinson explained, "Nobody knows we have it yet."

He expected that within a week of the announcement, the stock would be depleted.

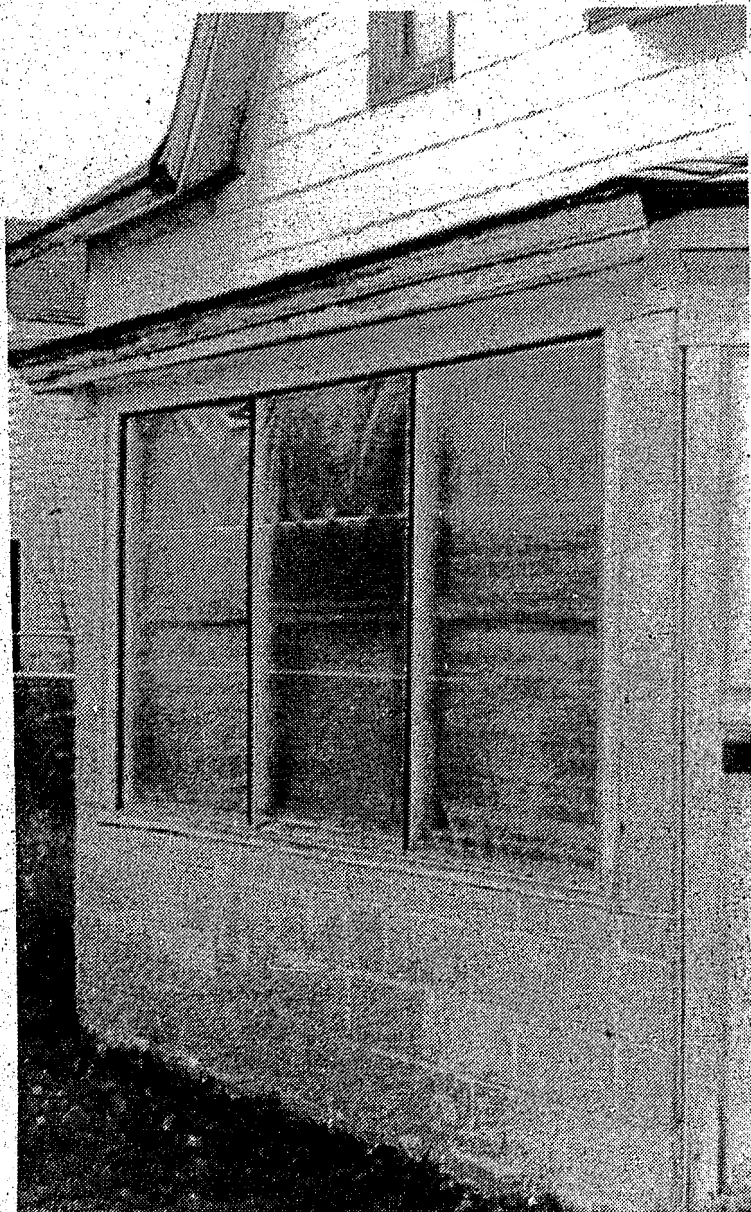

Therman Nichols of Nichols Home Services (furnace cleaning and repair) reminds homeowners to have their furnaces checked. "Make sure they are burning right," he said, "not only for energy conservation, but for safety."

Nichols also said that the use of insulated drapes or wooden

a three-glass effect," he said, noting that the double glazed windows with aluminum frames lose heat through the aluminum.

Dialing down the thermostat has been promoted by both Detroit Edison and Consumers Power as an economical step. For those who would turn it down at night but dread the cold mornings on rising, there is an automatic temperature setback control.

Available in both electric or battery operated models, it will reduce the heat in your home after you have gone to bed and return the house to normal temperature before you arise.

Plastic for the windows keeps cold air out and warm air in.

Weatherstripping closes up those small holes cold air is likely to find.

Wall hanging class

Seven Ponds Nature Center is offering a wall-hanging class on Saturday, November 12, from 10 a.m. to 2 p.m. The wall hanging will be constructed on a back-strap waist loom provided by the nature center. Other materials will also be provided,

such as dried grasses and plants, and natural-dyed wool. This form of weaving can be mastered in one session, even with no previous experience.

Wear old clothes and bring a sack lunch. Cost is \$10 for members; \$12 for non-members.

Reservations should be made as soon as possible, as class size is limited.

Write the Nature Center at 3854 Crawford Rd., Dryden, Mich. 48428, or call (313) 796-3419 to hold your reservation.

OCC mail-in

Mail-in registration processing for the winter semester at Oakland Community College will begin November 14 and continue through November 25. Students who previously attended OCC may take advantage of this time-saving method of registration.

Persons interested in attending OCC for the first time are encouraged to make an appointment with a counselor as soon as possible. Regular registration for the semester will be held January 4, 5 and 6 with classes scheduled to begin on Monday, January 9.

Persons wishing to obtain either a schedule of classes or an appointment with a counselor should contact the counseling department on the campus they wish to attend: Auburn Hills in Auburn Heights, 852-1000; Highland Lakes in Union Lake, 363-7191; Orchard Ridge in Farmington, 476-9400; Oak Park, 548-1252; or Royal Oak, 548-5595.

License tabs for 1978

Prepared license plate tab applications have been mailed to Michigan motorists and for the first time, those owning more than one vehicle are receiving their forms in a single envelope, according to Automobile Club of Michigan.

The issuance of tabs instead of new plates and the single-envelope mailing for more than one application form will save the state approximately \$3.35 million.

Starting Nov. 15, motorists will be able to buy 1978 tabs at Department of State and 51 Auto Club offices across Michigan. One tab will be issued for each vehicle and it should be placed on top of last year's tab in the upper right corner of the rear plate.

Cost of the tab is printed on the prepared form. Vehicle owners who purchase tabs in Wayne, Oakland and Macomb counties and residents of those three counties who order tabs by mail are paying \$2.50 more than other Michiganders. The added revenue will be used to build and upgrade mass transportation in those counties.

Approximately one million tab orders are expected to be filled by mail this year, compared to some 860,000 last year.

Deadline for tabs being ordered by mail is Feb. 1 for commercial vehicles and trailers and March 1 for passenger cars and motorcycles. The deadline for having 1978 tabs on commercial vehicles is March 1 while it is April 1 for passenger cars.

Vehicle owners are advised to check the prepared license plate tab application closely for errors, fill in missing information and sign the certification. Mail the completed application back to the Department of State, which will begin filling orders after Nov. 15.

To obtain a tab at Department of State or Auto Club offices, motorists must bring in either the prepared renewal form, the 1977 registration or the certificate of vehicle title plus proof of public liability and property damage insurance.

Auto Club points out that motorists using their vehicle title for proof must know their license plate number.

Notice

ADOPTED: October 25, 1977

ORDINANCE NO. 92
(Effective Date: Dec. 3, 1977)
TOWNSHIP OF INDEPENDENCE

AMENDMENTS TO THE 1975 EDITION OF THE NATIONAL ELECTRICAL CODE

Rule 1. Circuit Interconnection.

Section 210-4 is amended to read as follows:

210-4. Multiwire Branch Circuits

(a) Branch circuits recognized by this Article shall be permitted as multiwire circuits. Multiwire branch circuits shall supply line to neutral load only.
Exception No. 1: A multiwire branch circuit supplying a single appliance.
Exception No. 2: Where all ungrounded conductors of the multiwire branch circuit are opened simultaneously by the branch-circuit over-current device.
(b) Circuit interconnection. Neutral and ungrounded circuit conductors for two, three, or four wire circuits shall originate at the same outlet or panel. Neutral and/or ungrounded conductors for circuits shall not be tapped from different locations in the wiring system.

Rule 2. Motor-Operated and Combination Loads.

Section 210-22 (a) is amended to read as follows:

210-22(a) Motor-Operated and Combination Loads. Where a circuit supplies only motor-operated loads, Article 430 shall apply. Where a circuit supplies only air conditioning and/or refrigerating equipment, Article 440 shall apply. Fixed appliances with motors larger than 1/8 HP rating shall be connected to circuits supplying motors only.

Rule 3. Branch Circuit Requirements - Summary.

Section 210-24 is amended to read as follows:

210-24. Branch-Circuit Requirements - Summary. The requirements for circuits having two or more outlets, other than the receptacle circuits of section 220-3 (b) as specifically provided for above, are summarized in Table 210-24. Branch Circuits in dwelling type occupancies shall not be connected to serve more than one dwelling unit.

Rule 4. Dwelling Type Occupancies.

Section 210-25 (b) is amended to read as follows:

210-25 (b) Dwelling-Type Occupancies. In every kitchen, family room, dining room, breakfast room, living room, parlor, library, den, sun room, bedroom, recreation room, or similar rooms, receptacle outlets shall be installed so that no point along the floor line in any wall space is more than 6 feet, measured horizontally, from an outlet in that space, including any wall space 2 feet or more in width and the wall space occupied by sliding panels in exterior walls. The wall space afforded by fixed room dividers, such as free-standing bar-type counters, shall be included in the 6 foot measurement.

In kitchen and dining areas a receptacle outlet shall be installed at each counter space wider than 12 inches. Counter top spaces separated by range tops, refrigerators, or sinks shall be considered as separate counter top spaces. Receptacles rendered inaccessible by the installation of stationary appliances shall not be considered as these required outlets. Receptacle outlets shall, in so far as practicable, be spaced equal distances apart. Receptacle outlets in floors shall not be counted as part of the required number of receptacle outlets unless located close to the wall.

At least one wall receptacle outlet shall be installed in the bathroom adjacent to the basin location.

For a one-family dwelling, at least one receptacle outlet shall be installed outdoors. At least one receptacle outlet shall be installed in each basement and attached garage. Laundry equipment duplex receptacle in dwelling type occupancies shall be mounted on the wall not higher than forty-eight (48) inches above the floor within 6 feet of the intended location of the equipment. A laundry lift pump of less than one-sixth (1/6) HP shall be permitted to be connected to the laundry circuit.

At least one receptacle outlet shall be installed for the laundry.
Exception No. 1: In a dwelling unit that is an apartment or living area in a multi family building where laundry facilities are provided on the premises that are available to all building occupants, a laundry receptacle shall not be required.

Exception No. 2: In other than single-family dwellings where laundry facilities are not to be installed or permitted, a laundry receptacle shall not be required.
Exception No. 3: A dwelling that is a unit in a hotel, motel, motor court, or motor hotel, a laundry receptacle shall not be required.

As used in this Section a "wall space" shall be considered a wall unbroken along the floor line by doorways, fireplaces, and similar openings. Each wall space two or more feet wide shall be treated individually and separately from other wall spaces within the room. A wall space shall be permitted to include two or more walls of a room (around corners) where unbroken at the floor line.

The purpose of this requirement is to minimize the use of cords across doorways, fireplaces, and similar openings. The receptacle outlets required by this Section shall be in addition to any receptacle that is part of any lighting fixture or appliance, located within cabinets or cupboards, or located over 5 1/2 feet above the floor.

Lavatory: At least one duplex receptacle outlet shall be installed on the same wall as the wash basin or on a wall immediately adjacent to the wash basin. The receptacle shall not be more than four (4) feet from any wash basin and shall be installed not less than thirty (30) inches and not more than forty-eight (48) inches above the floor and rated 15 amperes, 125 volts.

Halls, corridors, etc., multifamily dwellings shall have at least one receptacle outlet for each twenty-five (25) linear feet or major fraction of hall length.

Receptacle outlets located more than twenty-four (24) inches above the floor or more than twenty-four (24) inches above a fixed work surface they are intended to serve and pendant receptacle outlets are not to be counted as any of the receptacle outlets required by Section 210-25 (b) and (c) of the National Electrical Code except as provided for in lavatories.

Unfinished attic space in dwelling type occupancies adaptable for living which is accessible by permanent stairs shall be provided with at least one receptacle outlet which shall be wired on an independent circuit of at least 15 ampere capacity.

Rule 5. Receptacle Outlets (in other than dwelling type occupancies).

Section 210-25 (e) is added as follows:

210-25 (e) Receptacle Outlets (in other than dwelling type occupancies).

(a) Receptacle outlets shall be supplied by a circuit of minimum 20 ampere capacity in industrial plants, machine shops, service garages, gasoline stations or similar occupancies.
(b) Receptacle outlets in commercial buildings shall include not more than nine (9) on circuits of 20 ampere capacity and not more than six (6) on circuits of 15 ampere capacity.
(c) Receptacle outlets shall not be connected to circuits supplying general lighting including office portions of buildings.

(d) A readily accessible duplex receptacle, fed from any 115 volt receptacle circuit, shall be installed on the roof within twenty-five (25) feet of each roof top heating, air conditioning and refrigeration unit or any combination of these units.

Rule 6. Dwelling type occupancies.

Section 210-26 (a) is amended to read as follows:

210-26(a) Dwelling Type Occupancies. At least one wall switch controlled lighting outlet shall be installed in every habitable room; in hallways, stairways, and attached garages; and at outdoor entrances.

At least one lighting outlet shall be installed in an attic, underfloor space, utility room and basement where used for storage or containing equipment requiring servicing. Wall switches located for convenient and readily accessible use shall be required for all ceiling lighting outlets, except closets, storage spaces and unfinished basements. Lighting outlets over sink and dinette portions of kitchens, in halls, vestibules, and at outdoor entrances, shall not be combined in any manner and shall be switched separately. If more than one lighting outlet is installed in any one of these areas, such lighting outlets shall be permitted to be combined on a single switch.

Laundry lighting outlet in dwelling type occupancies shall be provided for use in the laundry area and shall be permitted to be connected to the same circuit which supplies the laundry equipment receptacle outlet.

Exception No. 1: In habitable rooms, other than kitchens or bathrooms, one or more receptacles controlled by a wall switch shall be permitted in lieu of lighting outlets.
Exception No. 2: In hallways, stairways, and at outdoor entrances remote, central, or automatic control of lighting shall be permitted.

Rule 7. Basement Lighting.

Section 210-26(d) is added to read as follows:

210-26(d) Basement Lighting. Basements in dwelling type occupancies shall be wired for a minimum of one lighting outlet in each 200 square feet or major fraction of area for use as general illumination. All enclosed areas that may be walked into such as toilet rooms, fruit storage rooms, utility rooms, excavated areas under porches, etc., shall be provided with at least one lighting outlet (except coal bins).

Rule 8. Stairways and Hallways (in dwelling type occupancies).

Section 210-26(e) is added to read as follows:

210-26(e) Stairways and Hallways (in dwelling type occupancies).
(1) Stairways shall be provided with a lighting outlet or outlets so placed that each stair section shall be adequately illuminated. Such lighting outlets for basement, second floor or attic stairs shall be located directly over stairway section or at head or foot of stairs. These lighting outlets shall not be counted as comprising any of the required lighting outlets for basement, attic rooms, etc.
(2) All stairway lighting outlets shall have multiple switch control at head and foot of stairway unless supplied by house meter and controlled by time clock or controls accessible to

authorized persons only.

(3) Unless served from separate house meter, stairway lighting outlets shall be supplied from circuits of the dwelling units using the stairway.

(4) Hallway lighting. A minimum of one lighting outlet shall be installed for each twenty-five (25) feet or major fraction thereof.

Rule 9. Switches (in other than dwelling type occupancies).

Section 210-28 is added to read as follows:

210-28. Switches (in other than dwelling type occupancies).

(a) Switches shall be installed to control general lighting outlets. These switches may be wall switches or disconnecting means incorporated in a readily accessible distribution panel. Individual switches to control specific fixtures shall be permitted to be installed if desired. A switch adjacent to entrances to all areas that may be walked into shall be provided to control a fixture or fixtures located so as to furnish sufficient illumination for persons to see their way into those areas.
(b) All stairway lighting outlets shall have multiple switch control at head and foot of stairway unless supplied by house meter and controlled by time clock or controls accessible to authorized persons only.

Rule 10. Space Heating Equipment (other than electric heat).

Section 220-3(e) is added to read as follows:

220-3(e) Space Heating Equipment (other than electric heat).

(1) At least one (1) individual branch circuit of not less than 15 ampere capacity shall be installed for the heating equipment.
(2) Only those motors which are an integral part of the heating equipment shall be permitted to be connected to the circuit required by (1).

Rule 11. Location of Service Equipment and Distribution Panels.

Section 230-72(c) is amended to include the following:

230-72(c) Location of Service Equipment and Distribution Panels. In dwelling type occupancies, service equipment and distribution panels shall not be located in coal bins, bathrooms, lavatories or clothes closets. Where practicable, they shall be located in the basement, utility room or garage. In single and two-family dwellings, this equipment shall be at least four (4) feet from the floor and shall not be subject to mechanical injury or shall be provided with suitable protection. Sufficient clearance and accessibility shall be provided when installed near laundry trays, oil tanks, or other permanently installed obstructions.

Rule 12. Wiring in Attics.

Section 334-13 is amended to read as follows:

334-13 Wiring in attics. Non-metallic sheathed cable and armored cable installed in attics of dwelling type occupancies shall conform to Section 338-9 National Electrical Code except, if headroom in any portion of the attic is four (4) feet or over, wiring shall be installed as concealed wiring at least to the point where headroom is reduced to three (3) feet. In livable attics, or attics adaptable under the Building Code for future living, wiring shall be installed as concealed wiring at least to a point of one (1) foot clearance of roof rafters and attic floor joists.

Rule 13. Non-metallic Sheathed Cable. Uses permitted or not permitted.

Section 336-3 is amended to read as follows:

336-3 Uses Permitted or Not Permitted. Type NM and Type NMC Cables shall be permitted to be used in one and two-family dwellings, or multi-family dwellings and other structures.

(a) Type NM. This type of non-metallic sheathed cable shall be permitted to be installed for both exposed and concealed work in normally dry locations. It shall be permissible to install or fish type NM cable in air voids in masonry block or tile walls where such walls are not exposed or subject to excessive moisture or dampness.

Type NM cable shall not be installed where exposed to corrosive fumes or vapors; nor shall it be imbedded in masonry, concrete, fill, or plaster; nor run in a shallow chase in masonry or concrete and covered with plaster or similar finish.

(b) Type NMC. Type NMC cable shall be permitted for both exposed and concealed work in dry, moist, damp, or corrosive locations, and in outside and inside walls of masonry block or tile.

(c) Uses Not Permitted for Either Type NM or NMC. Types NM and NMC cables shall not be used as: (1) service-entrance cable, (2) in commercial garages, (3) in theaters and similar locations, except as provided in Article 518, places of assembly, (4) in motion-picture studios, (5) in storage battery rooms, (6) in hoistways, (7) in any hazardous location, (8) embedded in poured cement, concrete, or aggregate.

Rule 14. Lampholders.

Section 410-49 is amended to read as follows:

410-49 Lampholders

(a) Lampholders installed in wet or damp locations shall be of the weatherproof type.
(b) Porcelain or metal shell sockets used as cord pendant lighting outlets shall not be permitted within reach of grounded portion of buildings.

Rule 15. Residential Food Waste Disposers.

Section 422-8(d) is added to read as follows:

422-8(d) Residential Food Waste Disposers. All such equipment and controls in dwelling type occupancies shall be provided with an independent disconnecting means within sight of the equipment and it shall be readily accessible. Food waste disposers of one-half horsepower or less shall be wired only with heavy duty 3-wire minimum No. 16 hard service cord and approved cap and three wire "U" slot grounding type receptacles. On new construction, a disconnect switch shall be mounted in the wall adjacent to the sink.

Rule 16. Space Heating Equipment (other than electric heat).

Section 422-21(c) is added to read as follows:

422-21(c) Space Heating equipment (other than electric heat).
(1) A readily accessible disconnect switch shall be mounted on the exterior of the heating equipment or on a surface adjacent to the heating equipment.
(2) Heating equipment which is not readily accessible shall have an additional disconnect installed at the nearest readily accessible location.

Rule 17. Circuits in Anesthetizing Locations.

Section 517-63(f) is amended to read as follows:

517-63(f) Circuits in anesthetizing locations. (1) A general purpose lighting circuit connected to the normal grounded service shall be installed in each operating room. Exception: Where connected to any alternate source permitted in 700-8 which is separate from the source serving the emergency system.

Rule 18. Elevator Rooms.

Section 620-73 is added to read as follows:

620-73 Elevator Rooms shall be wired for at least one lighting outlet controlled by a wall switch, and one receptacle outlet.

Rule 19. Conductor Physical Protection

Section 725-18 shall be amended to read as follows:

725-18 Conductor Physical Protection

(a) Where damage to remote-control circuits of safety control equipment would introduce a hazard, as covered in Section 725-4, all conductors of such remote-control circuits shall be installed in rigid metal conduit, intermediate metal conduit, electrical metallic tubing, Type MI cable, Type ALS cable, Type CS cable, or be otherwise suitably protected from physical damage.

(b) Low Energy Wiring. Remote control, signaling, and power limited circuits.

(1) Conductors shall run parallel to or through joists.

(2) Conductors shall run parallel to beams and/or pipes if within one (1) inch, or shall be run on sill plates.

(3) Low energy wiring shall comply with (1) and (2). Vertical drops of conductors to furnaces, heaters, etc., shall be mechanically protected by securing to gas or oil pipes or electrical raceways, or securing to ducts, frame structures or back boards, or installing in metallic or non-metallic raceways, or forming in spiral coils for vertical drops of eighteen (18) inches or less.

Rule 20. Minimum Standards for Existing Dwelling Units.

Chapter 10 of the code is added as follows:

1000-1 Inspection

If inspection reveals that the wiring system of an existing dwelling type occupancy is inadequate, or if certification, as a habitable dwelling is requested, the following minimum requirements shall be complied with:

(a) Entrances and exits: Where two (2) or more entrances and/or exits exist, at least two (2) entrances and/or exits shall be illuminated by exterior lights. Lighting outlets shall be controlled by interior wall switches, located for convenient and readily accessible use.

(b) Living Room: Living room shall be provided with illumination. Lighting outlet shall be controlled by a wall switch, located for convenient and readily accessible use, one of the receptacle outlets controlled by a wall switch in lieu of ceiling lighting outlet is acceptable. Convenience duplex receptacle outlets shall be provided. Receptacle outlets shall be equally spaced around the room with at least one duplex receptacle outlet on each wall.

(c) Kitchen: Kitchen shall be provided with illumination. Lighting outlet shall be controlled by a wall switch located for convenient and readily accessible use.

A separate kitchen appliance circuit shall be provided, supplying a minimum of three (3) grounding type duplex receptacle outlets. Two (2) of these receptacles shall be readily accessible for convenient use of portable appliances; New appliance circuits shall be twenty ampere capacity.

(d) Bathroom: Bathrooms shall be illuminated. Lighting outlet shall be controlled by a wall switch. A receptacle outlet separate from the light fixtures, shall be provided and shall be located at least thirty (30) and not more than forty-eight (48) inches above the floor adjacent to the wash basin and not more than four (4) feet from the basin.

(e) All other Habitable Rooms: Illumination for each habitable room shall be provided. Lighting outlet shall be controlled by a wall switch. Wall switches shall be located for convenient and readily accessible use. Convenience duplex receptacle outlets shall be provided a minimum of two (2) receptacle outlets equally spaced around the room. An additional receptacle outlet controlled by a wall switch is acceptable in lieu of a lighting outlet.

(f) Basement. Basement shall be wired for a minimum of one lighting outlet in each 200 square feet or major fraction of area for use as general illumination. All enclosed areas that may be walked into, such as toilet rooms, fruit storage rooms, utility rooms, excavated areas under porches, etc., shall be provided with at least one lighting outlet (except coal bins).

\$ Million director

When Valerie Phaup joined Max Broock, Inc. as training director in July she came well recommended and all by her own effort.

In June she hit the Million Dollars sales mark for the third time in her five year career in real estate.

"It's not quite as exciting now as it was the first time," she said.

Besides the Million Dollar Club designations Mrs. Phaup has many other awards indicating her ability to sell real estate. She can no longer remember how many times she won the top salesman of the month award, but she was a top producer in Macomb County.

Mrs. Phaup was awarded the Macomb County Leadership Award as well.

"My greatest tribute was the fact that eight out of 12 sales people I once trained became million dollars sales people within the first 12 months after their training," she said.

To see the training objectives met and working for salespeople is a great reward, she added.

Of real estate she said, "I just love it. It's an opportunity to feel like an individual, to feel a certain self-worth. It's rewarding and very lucrative."

"It is a profession where there are no limits except those that are self imposed."

"It is also a business in which you can really help people. I'm very protective of young mar-

Valerie Phaup

rieds because they don't know anything about real estate and the older people who are relocating because they are on limited incomes."

Mrs. Phaup trained in real estate at Oakland University, the University of Michigan and

at the Donna Middleton School of Real Estate in Southfield.

In January she will study management at Dale Carnegie Institute.

"I've really just been too busy selling to go to school recently," she noted.

LAWN CARE AND DESIGN

Con't from page 31

Stairwell and laundry area lighting outlets shall not be counted as part of the required basement lighting outlets.

(g) Laundry Areas: Laundry areas shall be provided with illumination. Laundry circuit shall be an individual circuit. A wall-mounted grounding type duplex receptacle outlet shall be provided, located near the laundry equipment.

An existing drop cord receptacle outlet on a separate circuit shall be acceptable providing it is a grounding type receptacle outlet not more than five (5) feet six (6) inches above the floor.

(h) Space Heating System: Heating equipment requiring electrical energy for operation and/or control shall be provided with an individual circuit. A disconnect switch shall be provided on or adjacent to the heating equipment. (Exception: Thermo-Pile controlled furnaces).

(i) Stairwells: Stairwells shall be adequately illuminated. Lighting outlets shall be controlled by wall switches. Wall switches shall be located for convenient and readily accessible use. Switches shall not be located where it is necessary to use darkened stair sections for their operation. All stairwells to finished portions of dwelling shall be provided with multiple switch control, one at the head, the other at the foot of the stairwell.

(j) Service and/or Feeder: Service to existing dwelling unit shall be a minimum of one hundred ampere, three wire capacity. Service equipment shall be dead front having no live parts exposed whereby accidental contact could be made. Type "S" fuses shall be installed when fused equipment is used.

Exception: Existing service of fifty-five ampere three wire capacity, and feeders of thirty ampere or larger two or three wire capacity shall be accepted if adequate for the electrical load being served.

(k) Existing Wiring and Equipment: Existing wiring and equipment shall be in good repair. Circuit extensions made with flexible cord wiring in lieu of permanent wiring shall be eliminated.

1000-2 New Work: All new work shall conform to the National Electrical Code and these rules.

1000-3 Evidence of Inadequacy: Evidence of inadequacy shall be any of the following:

- Use of cords in lieu of permanent wiring.
- Oversizing of overcurrent protection of circuits, feeders or service.
- Illegal extensions to the wiring system in order to provide light, heat or power.
- Electrical overload.
- Misuse of electrical equipment.
- Lack of lighting fixtures in bathroom, laundry room, furnace room, stairway or basement.

Pete celebrated 79 with friends

Millstream

by Hilda Bruce, 625-3370

Engaged

Mr. and Mrs. Roy D. Taylor, Big Lake Road, announce the engagement of their daughter, Patricia Ann, of Pontiac, to Kirt Keenan Stalker, son of Mr. and Mrs. Neil Stalker of Warbler Street. The bride-to-be graduated from Clarkston High School in 1970 and is currently a junior accountant with Eugene Moore. Her fiancé graduated from Clarkston in 1971 and is now employed at Machine Engineering. December 17 has been selected for the wedding.

Clarkston's Pete Peterson had a pretty big day Monday, Nov. 7. He celebrated his 79th birthday all day long at the Oakland County Medical Care Facility. "I've never known people to be so nice," said Mrs. Peterson of the doctors and nurses at the hospital.

During the afternoon Pete's friends and neighbors joined him for cake and ice cream along with the staff and those patients who can eat sweets.

According to Mrs. Peterson he received many, many cards not only from Clarkston but all over Michigan, Georgia, Florida, Mississippi, Denmark and Germany.

"He even got a phone call from friends in Germany," she said.

In the evening the hospital staff allowed Pete's family to hold another party for him and again the gifts, cards, cake and ice cream filled the room and neighboring patients joined in the fun.

Among the visitors were his daughter Solvey Waggoner and her family, Silvia and Takao Kojima and Marie Wilmut.

Pete has been in the hospital for five months now and the end of his confinement is not in sight, Mrs. Peterson said. He does enjoy the cards that reach him in room 137, Oakland County Medical Care Facility, 2200 N. Telegraph, Pontiac, 48054.

Bailey Lake P.T.A. is busy this week. Thursday night, Nov. 10 is the general membership meeting at 7:30 p.m. at the school. Jerry Reeves of the Oakland County Sheriff's Department will speak on Child Awareness.

Friday, Nov. 11 the group holds its annual Winter Sport Equipment Sale 5 p.m. - 9 p.m. Those who have items to sell should take them to Bailey Lake Elementary School office during the week appropriately marked with name and price tag. One third of the price will benefit the P.T.A.

Oakland County Heart Information Center of the Michigan Heart Association will conduct a free Blood Pressure Clinic, November 15 from 10:00 to 3:00 p.m. at independence center 5331 Maybee Road, Clarkston. This is a free clinic and open to all ages.

Independence Center is having an A & P Donation Day, November 15 at the A & P Store on M-15. A full 5% of the amount of your purchase will go to the center IF you have the specified card at the time of purchase.

Why not stop by the center and pick one up or call 673-1219 and we will mail one to you.

When Mr. and Mrs. Henry Kerzykowski of Norman Road visited their daughter and

Engaged

Mr. and Mrs. John H. Christie announce the engagement of their daughter, Claudia Rae, to Don Michael Key, son of Joanne Key of Pontiac and Donald Key of Waterford. The bride-to-be graduated from Clarkston High School and Central Michigan University. She is a teacher of the emotionally impaired and learning disabled in the Fenton Area Public Schools. Her fiancé graduated from Waterford Kettering and is a supervisor for Carr Brothers Construction Company. December 17 has been selected for the wedding.

Mr. and Mrs. James Cairo

Smith-Cairo take vows

Rebecca Ann Smith and James Cairo recently exchanged nuptial vows during a high mass (folk) officiated by Rev. Fr. Wayne Wociewieski at the Siebert Chapel at Carthage College, Kenosha, Wisconsin.

The bride was given in marriage by her mother, Laura Smith. She is the daughter of the late Thomas L. Smith of Clarkston and a graduate of Carthage College.

The groom is the son of Frank and Carmella Cairo of Kenosha, Wisc. and a graduate of Black Hills State College.

Caroline Smith served her sister as maid of honor. Also

attending her were Linda DeArmond of Clarkston and Linda Richter. Karrie Ann Smith, the bride's niece, was the flower girl.

Neno Martini of Winthrop Harbor, Ill. was best man. Ushers included Kip Evans, Ingleside, Ill., and Steve and Mike Smith, brothers of the bride, of Clarkston.

After the ceremony the newlyweds were feted by 300 friends and relatives at the Elks Temple in Kenosha before leaving on a wedding trip to Lake Geneva, Wisconsin. They now reside in Phoenix, Arizona.

Engaged

Mrs. Ida Caverly of Clarkston announces the engagement of her daughter, Vicky Ann Mick, to Reginald Ray Alexander, son of Mr. and Mrs. Ray Alexander of Davisburg. A November 18 wedding is planned.

son-in-law Mr. and Mrs. Ted Wagg. Flemings Lake Road Saturday night they were caught completely off guard. They walked right into a surprise 30th anniversary party and were "totally surprised" by some 25 guests.

"I would have preferred to have been dressed up a little more," said Mrs. Kerzykowski, who had donned a simple slack and sweater combination. "But it was very nice of them."

Some 600 students received their degrees at Oakland University commencement exercises September 17. Clarkston students included Nancy L. Callahan, 5322 Chanto, M.A.T., reading; Cynthia A. Petiprin, 6489 Snow Apple, M.A.T., reading; Patricia S. Osmond, 5627 Hummingbird, M.A.T., early childhood; Robert G. Raymer, 6048 Waldon Road, M.A.T., special education.

More Millstream

Cooking school at Solley's

The wave of the future is the micro wave, according to Al Solley, Solley Appliance, 3779 M-15 north of Oak Hill Road.

Tomorrow, Nov. 11 Solley is serving free coffee while a home economist demonstrates micro wave cooking, 2 p.m.-6 p.m.

"This is the new way and housewives should learn how to do it," Solley said. "All cooking will be done this way in the near

future because it is more economical. The micro wave oven uses 50 to 75 percent less energy than to cook the same meal in a conventional range or oven and does it a lot faster too," Solley explained.

Another advantage of the micro wave over the conventional range is the five year guarantee, Solley said.

Curtis Robertson, son of Mr. and Mrs. W.C. Robertson of 6042 Sunnydale, will graduate from pharmacy school in Big Rapids next month. He will be employed at Robertson Pharmacy, Linden, Michigan.

Robertson is a 1971 graduate of Clarkston High School who has taken up flying as a hobby. He will soon receive his pilot's license.

Some 2,000 persons are included in the official list of those who received bachelor's master's or specialist's degrees from Western Michigan University, including Charles Thompson of 8535 Woumegan who received a B.S.

The timeless charm of antique dolls, doll houses, and old fashioned pull toys will lure the serious antique collector, nostalgic mothers, and little girls to a three-day Antique Doll and Toy Show, November 18 through 20 at Pontiac Mall Shopping Center, Waterford Township.

Turn of the century dolls from Europe and America will be exhibited along side popular character dolls, doll houses, and doll house miniatures daily from 9:30 to 9:30 and Sunday 11 to 6. All items will be for sale for those doll fanciers who wish to add to or start a collection. Admission is free.

The Pontiac Mall is located at the corner of Telegraph and Elizabeth Lake Roads in Waterford Township.

Campaign has impact

The "Kids—Don't Go With Strangers!" campaign launched some six months ago by the Michigan Fraternal Order of Police is having its impact, according to Jack Brown, State FOP president.

"Thanks to the support of both manpower and funds from our more than 60 local FOP lodges and that of 80 Michigan businesses, we've distributed nearly a half million pieces of personal safety educational materials into Michigan schools since mid-April," said Brown, a lieutenant for the Ferndale Police Department.

It was during this period that the series of unsolved violent crimes against children by friendly strangers came to a halt. Considering the scope of the FOP program, to reach all 1.2 million K-6 school youngsters with these life-saving messages, "that fact is more than coincidence," said Brown.

"This program has received tremendous visibility and recognition across the country and is serving as a guide of information for possible use by FOP Lodges in other states," said Brown.

The FOP materials include a 16-page story booklet, an eight-page coloring book and a bumper sticker. They are designed to help parents and teachers impress upon their children the inherent danger of going with a stranger.

Most impressive, said Brown, has been the support of Michigan businesses, which so far have contributed more than \$32,000 to the FOP's own \$20,000 underwriting of the educational program.

The Michigan Fraternal Order of Police is a statewide association of some 8,500 law enforcement officers dedicated to greater police professionalism. The organization was founded in the state in 1942 and is affiliated with the National FOP which has some 150,000 members.

NOTICE

AMENDMENT TO ORDINANCE NO. 21

THE TOWNSHIP OF SPRINGFIELD ORDAINS:

The following sections of Ordinance No. 21 are hereby amended to read as follows:

Section 1. CODE ADOPTED

The National Electrical Code, 1975 Addition, as promulgated by the National Fire Protection Association under the auspices of the United States of America Standards Institute, is hereby adopted by reference as in this ordinance modified.

In addition to the Code the rules as set forth in Schedule A are hereby adopted in their entirety.

Section 4. FEES

The Township of Springfield hereby adopts the fee schedule attached hereto and incorporated and made a part of this ordinance.

Section 6. PERMITS

No alterations or additions shall be made in the existing wiring of any building, nor shall any building be wired for the placing of any electric lights, motors, heating devices or any apparatus requiring the use of electrical current at a potential over 30 volts, nor shall any alterations be made in the wiring in any building after inspection, without first notifying the Electrical Inspector and securing a permit therefore. Applications for such permit, describing such work, shall be made by the person, firm or corporation installing same and the permit, when issued, shall be to such applicant.

This section shall not apply to maintenance and repairs on the premises of a person, firm or corporation regularly employing qualified electricians for that purpose, nor such minor repair work as repairing flush and snap switches, replacing fuses, changing lamp sockets and receptacles, taping bare joints or repairing dropped cords.

Permits shall not be transferrable nor fee refunded. Permits shall become void after six months from date of issue unless construction shall have been commenced. The installer is required to call for inspections.

Section 12. LICENSE FOR ELECTRICAL WORK

It shall be unlawful for any person, form or corporation to engage as an independent contractor in the installation, alteration, maintenance or repair of electrical wiring, equipment, apparatus or fixtures for light, heat or power purposes where the electromotive force exceeds 30 volts in or about buildings and/or structures located within the Township of Springfield without first having procured a license.

Persons making applications shall have, held a license as a journeyman electrician for a period of at least 2 years, and shall have passed a suitable examination for Contractor's License. Persons, firms or corporations applying for Contractor's License must have at least one member of the firm with the above qualifications and experience or may have one or more men employed with the above qualifications and experience.

Permits shall be issued to authorized individuals as prescribed by the Electrical Ordinance. All such individuals shall register with the Township and pay the following fees:

| | |
|-----------------------|------|
| Electrical Contractor | 5.00 |
| Master Electrician | 3.00 |
| Journeyman | 1.00 |

Section 16. REPEAL OF PREVIOUS ORDINANCES

Any previous ordinance or portions of ordinances inconsistent with or conflicting with the provisions of this ordinance, are to the extent of such inconsistency hereby repealed.

Made and passed by the Township Board of the township of Springfield, Oakland County, Michigan on the 2nd day of November, 1977.

AYE VOTES: Kramer, Walls, Walters, Vermilye and Underwood.

NAY VOTES: None. ABSENT: None.

Collin W. Walls, SUPERVISOR
J. Calvin Walters, Clerk

SCHEDULE A

R 408.30810. Scope.

Rule 810. Section 90-2 (a) (1) and 90-2 (b) (1) of the code is amended to read as follows:

90-2. Scope.

(a) Covered. This code covers:

(1) Electrical conductors and equipment installed within, or on, public and private buildings or other structures, including mobile homes, as well as other premises, such as yards, carnival, parking, and other lots, and industrial substations.

(b) Not covered. This code does not cover:

(1) Installations of electrical equipment in automotive vehicles, other than mobile homes, ships, watercraft, railway rolling stock, or aircraft.

R 408.30812. Enforcement.

Rule 812. Section 90-4 of the code is amended to read as follows:

90-4. Enforcement. The administrative authority shall make interpretations of the rules, deciding upon approval of listed equipment and materials, and shall grant any special permission required by these rules. In industrial establishments and in research and testing facilities, the administrative authority may waive specific requirements in this code, or may permit alternate methods, where it is assured that equivalent objectives can be achieved by establishing and maintaining effective safety and maintenance procedures.

R 408.30815. Maintenance of existing wiring.

Rule 815. Section 90-8 of the code is added to read as follows:

90.8. Maintenance of existing wiring. Every building, structure, or part thereof shall be kept in good electrical repair by the owner.

R 408.30816. Responsibility of persons.

Rule 816. Section 90-9 of the code is added to read as follows:

90-9. Responsibility of persons. A person shall not install, alter, maintain, service, or repair, or cause or permit the installation, altering, maintaining, servicing, or repairing of electrical equipment in or on any building, structure, or part thereof, or on any premises, if by the person's action the work does not conform to the provisions of the code.

R 408.30817. Disconnection of dangerous electrical equipment.

Rule 817. Section 90-10 of the code is added to read as follows:

90-10. Disconnection of dangerous electrical equipment. Can't be page 37

follows:

90-10. Disconnection of dangerous electrical equipment. When the use of any electrical equipment is found imminently dangerous to human life or property, the administrative authority is hereby empowered to condemn it or disconnect it from its source of electric supply, except that the service entrance equipment or utility service drop wires shall not be disconnected unless such entrance equipment or utility wires in themselves constitute a hazard to life or property. When such equipment is so condemned or disconnected, a red tag shall be placed thereon listing the causes for the condemnation or disconnection and the penalty under the act for the unlawful use thereof. Written notice of condemnation or disconnection, and the causes therefore, shall be given to the owner or the occupant of the building, structure, or premises. A person shall not remove the tag or reconnect the electrical equipment to its source of electric supply, or use or permit to be used electrical current in any such electrical equipment, until such causes for the condemnation or disconnection are remedied and a permit for the electrical repairs thereof is obtained from the administrative authority.

R 408.30818. Permits and certificates.

Rule 818. Sections 90-11, 90-12, 90-13, 90-14, 90-15 90-16, 90-17, 90-18, 90-19, and 90-20 of the code are added to read as follows:

90-11. Permits and certificates. A person shall not equip a building with electrical equipment or make an alteration of, change in, or addition to electrical equipment without receiving a written permit to do the work described. When such electrical equipment, changes, or additions thereto are found to conform to the provisions of the code, and the work has passed inspection of the administrative authority, the administrative authority shall issue a certificate of final electrical inspection upon request of the permit holder to whom the permit was issued, that the provisions of the code have been complied with. However, such certificate shall not be granted until the electrical equipment is made to conform to the code. This section shall not apply to installations referred to in R 538.887.

90-12. Persons to whom permits shall be issued:

- (1) A holder of a class 1 license.
- (2) A person employing a licensed electrical journeyman to actively supervise the new installation of electrical equipment on premises owned or occupied, and used, by the applicant in the conduct of his business, and at which premises the licensed electrician performs his duties in those instances where business or industrial procedure requires the regular employment of a licensed electrical journeyman. However, an affidavit form furnished by the administrative authority shall be signed by both the employer and the licensed journeyman. This affidavit shall be signed by both the employer and the licensed journeyman. This affidavit shall be kept on file in the offices of the administrative authority, and shall contain the following:
 - (a) Name and business address of the person employing the licensed electrical journeyman.
 - (b) Name, address, and current license number of the licensed electrical journeyman.
 - (c) License numbers of 2 previous years, and the name of licensing authority in order to establish the holding of a license for not less than 2 years.
 - (d) Statement to the effect that the employer and the licensed electrical journeyman will comply with the provisions of the code regulating installation of electrical equipment in the state. A new affidavit shall be filed before permits are issued if the licensed electrical journeyman terminates his employment.
- (3) A homeowner who comes under the jurisdiction of the code.

90-13. Permit application forms. Applications for a permit under the code shall be on forms furnished by the administrative authority and shall be signed by the electrical contractor of his authorized agent.

90-14. Revocation of permits. A permit issued in violation of the laws of this state, or as a result of false or fraudulent information or misinterpretation of conditions, is subject to revocation at the direction of the administrative authority. The person holding the permit shall be notified to appear and show cause why the permit should not be revoked. Failure to appear shall be deemed sufficient grounds for revocation of the permit.

90-15. Lapsed and expired permits. If work for which a permit is issued is not started within six (6) months of the date of issue, or if work is abandoned for a period of six (6) months, the permit shall lapse and cease to be in effect. The administrative authority may reinstate an expired permit within one (1) year of its date of issue. A permit which has expired, lapsed, or been abandoned one (1) year or more may be reinstated only by action of the Bureau of Construction Codes in each case.

90-16. Permit holder quitting installation. If a person to whom a permit is issued for the installation and inspection of electrical equipment quits the installation for any reason, that person shall notify the administrative authority.

90-17. Partial completion of work. If an installation is partially completed, the permit holder, upon quitting the

installation, shall notify the administrative authority and request an inspection. Acceptance of, or violations against, the work installed shall be recorded by the inspector on the permit record according to the findings of the inspector. A refund shall not be granted to the permit holder of the permit fee covering electrical equipment installed and inspected.

90-18. Owner hiring another licensed contractor to complete work. If a permit holder quits an installation after the electrical equipment is installed, and fails to notify the administrative authority, the owner or his agent may notify the administrative authority and request inspection. Upon inspection, the permit holder shall be sent a notice of any violation. The owner may then secure another licensed contractor to proceed with the work, when properly covered by a permit.

90-19. Transfer of electrical permit. If the permit holder gives written permission, or appears in person with another licensed contractor and grants permission, the permit shall be transferred to the licensed contractor. If permission is not granted by the original permit holder, the licensed contractor who completes the installation shall secure a permit covering the work he does, and such licensed contractor shall be responsible in either case for all work done under his supervision.

90-20. Additional permits. Additional permits shall be required as follows:

- (1) If more than one (1) inspection is necessary on any violation notice.
- (2) For special inspections required for the investigation of a violation of the code.
- (3) For additional work not included on the original permit.

R 408.30819. Plans and Specifications.

Rule 819. Section 90-21 of the code is added to read as follows:

90-21. Plans and specifications. A detailed set of plans and specifications shall be submitted with the application for an electrical permit for any wiring or alteration to the electrical system in all buildings using more than six (6) circuits, except single and 2-family dwellings. The electrical drawings shall include such details as lighting layout, circuiting, switching, conductor and raceway sizes, wattage schedule, service location and riser diagram, calculations, and a proposed method of construction drawn with symbols of a standard form. All conductors are assumed to be copper, unless otherwise stated on the plan. Specifications, when provided, shall also include the foregoing information. The selection of suitable disconnect and over current devices to provide proper coordination and interrupting capacity for a wiring system is the responsibility of the designer. The administrative authority, when approving electrical plans, assumes no responsibility for the design or for any deviations from any applicable codes not explicitly agreed upon at the time of approval of electrical drawings. Plans and specifications approved by the administrative authority, or a certified copy thereof, where required, shall be available for the use of the administrative authority, or a certified copy thereof, where required, shall be available for the use of the administrative authority on the job.

R 408.30820. Representative on job site.

Rule 820. Section 90-22 of the code is added to read as follows:

90-22. Representative on job site. The administrative authority reserves the right to require a representative of the contractor to be on the job when an inspection is made.

R 408.30821. Safeguarding electrical equipment.

Rule 821. Section 90-23 of the code is added to read as follows:

90-23. Safeguarding electrical equipment. Electrical contractors shall not install electrical equipment that may be damaged by exposure or construction.

R 408.30822. Scheduling inspection.

Rule 822. Sections 90-24, 90-25, and 90-26 of the code are added to read as follows:

90-24. Scheduling inspection. Not less than 24 hours notice shall be given the administrative authority before inspection is required.

90-25. Inspection notices. Any notice of inspection of electrical equipment shall be posted, or removed, at the job site by the administrative authority only.

90-26. Inspection before concealing. A person shall not conceal, or cause to be concealed, any electrical equipment before such equipment is approved by the administrative authority.

R 408.30823. Inspection and copying of records.

Rule 823. Section 90-27 of the code is added to read as follows:

90-27. Inspection and copying of records. Upon request in writing, the administrative authority shall make available for public inspection and copying, during its business hours, final orders or decisions in contested cases and the records on which such orders or decisions were made. Advance notice is required where these records are stored outside the immediate office area. Promulgated rules and written statements which interpret law, rules, or policy shall be

Need a 1903 Dodge gas cap

Are you an antique car buff? Do you need parts for renovating your prize possession? Do you have parts you don't need?

Then circle Sunday, Nov. 20 on your calendar. When the date rolls around load up what you don't need and head on out to Springfield Oaks on Andersonville Road for the Antique Auto Parts Flea Market where you can swap and sell or buy those parts.

If you would like to rent a table to display your parts rental

is \$6. Outside space for car sale is available at \$1 per car. Set up time for the event is 7:30 a.m. Doors open at 9 a.m. and close at 4 p.m.

To register your auto parts and antiques send the appropriate rental payable to Detroit Chapter VMCCA to Jack Virga, 21229 Frazho, St. Clair Shores, 48081.

General admission is \$1 for adults. Children under 12 are free when accompanied by an adult.

Need a unique or special birthday, Christmas or friendship gift? The gifts were made with love—you can give them with love. You can also win a beautiful handmade quilt being given away in a drawing.

The full size quilt, in pink and white sunbonnet design, resembling a Holly Hobbie, will be on display and tickets available for it at the Holiday Bazaar sponsored by the Ladies Guild of Gethsemane Lutheran Church, Holly.

Admission is free, and a lunch counter will be provided throughout both days November

18 and 19. On Friday, the hours will be 10 to 6:00, and Saturday 10 to 2:00. The drawing for the quilt will take place on the second day at 1:30. Tickets for the quilt can be purchased prior to the Bazaar at Hamiltons of Holly and Billmeier Studio in

Fenton.

A large assortment of Christmas gift items will be available including a Dollar Table for people who need to give a gift that just cost a dollar. There will also be a Surprise Package Table just for the fun of it.

Continued from page 37

available upon request during business hours. The administrative authority may change not more than cost for each copy of any document.

R 408.30824. Methods of obtaining information.

Rule 824. Section 90-28 of the code is added to read as follows:

90-28. Methods of obtaining information. The administrative authority is not responsible for code interpretations or other information relative to electrical installations given over the telephone. Requests for such information shall be made in person or in writing.

R 408.30825. Advertising.

Rule 825. Section 90-29 of the code is added as follows:

90-29. Advertising. A person shall not use any word or words in a sign, display, business form or document, or advertising medium which indicates, or tends to indicate, that a person is qualified to supervise, install, repair, replace, remove, or service any electrical equipment which requires a permit or inspection, or both, pursuant to these rules from the administrative authority, unless such is uttered, published, or displayed by authority of a licensed electrical contractor (class 1 licensee).

R 408.30826. Violations.

Rule 826. Section 90-30 of the code is added to read as follows:

90-30. Violations. If it is found that any electrical equipment does not conform to the provisions of the code, the person installing or responsible for installing such electrical equipment shall be notified in writing of such defect, misuse, or violation, and all such violations, defects, or misuses of such electrical equipment shall be corrected within a reasonable length of time, not to exceed 10 working days. When the corrections have been made, that person shall notify the administrative authority in writing not less than 24 hours prior to the time reinspection is desired. Any person failing to make correction of a violation within the time specified herein shall be denied the right to file any further permits to do electrical work until the corrections are made.

R 408.30830. Definitions.

Rule 830. Article 100, Part A, of the code is amended to read as follows:

"Administrative authority defined." "Administrative authority" means the individual official, board, department, agency established and authorized by a state, county, city, or other political subdivision created by law to administer and enforce the provisions of the electrical code as adopted or amended. (All other definitions within Article 100, Part A, of the code shall remain the same.)

R 408.30865. Nonmetallic sheathed cable; uses permitted or not permitted.

Rule 865. Section 336-3 is amended to read as follows:

336-3. Uses permitted or not permitted. Type NM and Type NMC Cables shall be permitted to be used in one and two family dwellings, or multi-family dwellings and other structures:

(a) Type NM. This type of nonmetallic sheathed cable shall be permitted to be installed for both exposed and concealed work in normally dry locations. It shall be permissible to install or fish type NM cable in air voids in masonry block or tile walls where such walls are not exposed or subject to excessive moisture or dampness.

Type NM cable shall not be installed where exposed or corrosive fumes or vapors; nor shall it be imbedded in masonry, concrete, fill, or plaster; nor run in a shallow chase in masonry or concrete and covered with plaster or similar finish.

(b) Type NMC. Type NMC cable shall be permitted for both exposed and concealed work in dry, moist, damp, or corrosive locations, and in outside and inside walls of masonry block or tile.

(c) Uses not permitted for either Type NM or NMC. Types NM or NMC cables shall not be used as: (1) service entrance cable, (2) in commercial garages, (3) in theaters and similar locations, except as provided in Article 518, places of assembly, (4) in motion picture studios, (5) in storage battery rooms, (6) in hoistways, (7) in any hazardous locations, (8) embedded in poured cement, concrete, or aggregate.

R 408.30880. Circuits in anesthetizing locations.

Rule 880. Section 517-63 (f) is amended to read as follows:

517-63(f). Circuits in anesthetizing locations. (1) A general purpose lighting circuit connected to the normal grounded service shall be installed in each operating room. Exception: Where connected to any alternate source permitted in 700-6 which is separate from the source serving the emergency system.

Girl Scout calendars on sale

Northern Oakland County Girl Scout Council has scheduled the kick-off for the annual Girl Scout Calendar Sale on November 11.

Participating in the neighborhood sales will be Girl Scouts of all ages. They will be offering a choice of two calendars for the first time. The popular desk-

wall calendar will be available, as well as a new item, a pocket calendar called The Pocket Planner. The planner is a convenient-sized calendar designed to be carried in a coat pocket or purse. Both calendars are priced at \$1 each.

Money raised from the sale of these calendars will benefit Girl Scouts of all ages. A small portion of the profits revert to the council to help maintain the high quality programs associated with Scouting. The remainder goes to individual troops so that local troop activities may be broadened.

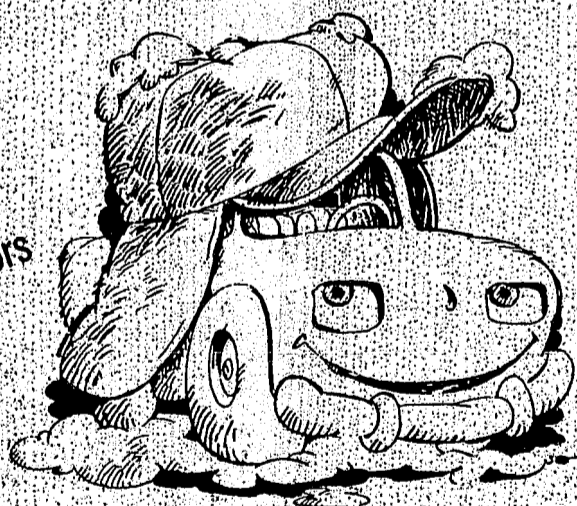

Calendars will be available from neighborhood Girl Scouts. If you are not contacted by a Girl Scout and wish to purchase one of the calendars, you may do so by calling the council office at 332-9282.

Band-O-rama planned

The instrumental music department at Clarkston Senior High School will be presenting its first in a series of programs Wednesday, November 16 at 8 p.m. in the high school auditorium.

Entitled "Band-O-Rama '77," the concert will feature the CHS Symphonic Band, Jazz Ensemble, Marching Band, and Color Guard.

The Symphonic Band will perform three selections representing contemporary styles from a British traditional concert march to the concert jazz of George Gershwin.

The program includes "Moor-

side March" by Gustav Holst, "Overture in B Flat" by Caesar Giovanni, and Gershwin's "An American in Paris."

For their premiere performance, the CHS Jazz Ensemble will be playing "The Opener," "Nadia's Theme," and Chuck Mangione's popular "Hill Where the Lord Hides."

The Jazz ensemble is patterned in instrumentation after the "Big Bands" of the 30's and 40's with the added color and driving force found in the current bands of Stan Kenton, Maynard Ferguson, Don Ellis and many others.

This group will be presenting several programs of their own

throughout the school year, as well as participating in the M.S.B.O.A. regional Jazz Festival in the spring.

As a finale for their fall season, and for the evening, the CHS Marching Band will present their fall repertoire on stage, featuring Scott Turnbull and Chris Mills as trumpet soloists under the direction of drum major Douglas Roosa.

For an evening of musical variety and excitement, as well as an opportunity to view a cross section of Clarkston's High School Band Program, attend the first annual fall "Band-O-Rama." Admission is complimentary.

SYNOPSIS

REGULAR MEETING

SPRINGFIELD TOWNSHIP BOARD

NOVEMBER 2, 1977

Meeting called to order at 8:00 P.M.

All Officers present.

The following items were discussed or acted upon by the Township Board.

COMMUNICATIONS:

1. No objections were expressed to the Holly Band members Annual Tag Day Saturday, November 5, 1977 for collection in Springfield Township.
2. Letter from the Oakland County Clerk regarding Fixed Millage adopted by the Oakland County Tax Allocation Board to place the question on the August, 1978 Primary Ballot.
3. A letter from Kay E. Karla, Director, Oakland County Youth Assistance Program introducing Miss Karen Schneider who will be working with Mr. Gary Pullins as a new worker with the Clarkston Area Youth Assistance Program.

OLD BUSINESS:

1. Authorized the purchase of a Radar Unit from Decatur Electronics, Inc.
2. Amendment to the Township Zoning Ordinance allowing a variance on set backs to the ratio of actual frontage divided by required frontage.
3. Amendment to the Electrical Code Ordinance #21 was adopted.

NEW BUSINESS:

1. Rezoning of a parcel formerly Boucard Greenhouse from R-3 to C-2 was approved by the Township Board for the applicant Bruce Bordine of Rochester.
 2. Tentative Preliminary Plat approval was given for Greentree Farms in section 1 & 2 of Springfield Township.
 3. Tentative Preliminary Plat approval was given for Harbortowne Village in Section 11 of Springfield Township, with special conditions.
 4. Townsend Estates — Drainage Easement and Maintenance Agreement was tabled til the December meeting.
 5. Regulation for Blasting of Dynamite was discussed, Supervisor Walls to pursue State, County and local guide lines.
 6. Anti-Recession Act Funds of \$3,623.00 had not been allocated. Supervisor Walls recommends allocation of \$1,097.71 for the road Chloride program. This recommendation was accepted by the board.
 7. Authorization to purchase new Aerial Photos was granted.
 8. Salaries of C.E.T.A. employees were accepted as presented by Supervisor Walls.
 9. Appointment of Steve Dice to the Park Commission to fill the vacancy of George Thompson was approved.
 10. Letter or resignation received from Walt Cattin, member of the Township Planning Commission was read. Supervisor Walls recommended Betty Hecker to be appointed to fill the vacancy. This appointment was approved.
 11. Certificates of Deposit will be reinvested on the due date 11-8-77.
 12. Approval was granted to have the roof of the Township Bldgs. repaired.
 13. Resolution opposing HB 4898 & 5064 was adopted by the Township Board.
 14. Approval for the Township to administer the Loan and Grant Program was approved.
- Bills for the General Fund for \$10,808.20 were approved for payment.
- Bills for the Fire Department Fund for \$135.90 were approved for payment.
- Meeting adjourned at 10:30 P.M.
- Next Township Board meeting to be held December 7, 1977.

J. Calvin Walters

The Facts In Sharp Focus!

In the spring of 1958 EARL KEIM REALTY began with a single office. Since that time, the number of offices has grown until EARL KEIM REALTY is now one of the largest real estate organizations in Michigan. And more offices are planned for the expanding EARL KEIM REALTY network.

Our main concern at EARL KEIM REALTY is to offer all the many services people expect from a growing dynamic firm. The larger we get the more services we can offer.

Over one-half billion dollars in real estate has been SOLD through 1976. In fact, 1976 volume alone was a record breaking \$154,300,000—a 31% increase over 1975. With our many offices and hundreds of full time Realtor-associates to serve you, it is our desire to represent you in the finest, most ethical manner possible. We are constantly improving our methods in order to remain one of the most up-to-date firms in the Midwest. While our accomplishments speak for themselves, it is you—our customers—who have made this success possible. We sincerely want to say to you... "Thank you!"

Some of our services include...

- Realtor-MLS—Membership in 10 MULTILIST Systems means greater exposure in selling your home, and more convenience in buying your new home. Everything "For Sale" at your fingertips.
- Out of State TRADE-INS... we can work our plan here or anywhere. If your home is in Kansas, it's OK with us.
- Interim financing... temporary house loan to buy your "dream" home.
- Guardian Home Warranty... protects you against unexpected major repair costs.
- Representing PINEHURST, North Carolina... one of the world's fine golf and resort communities.
- Computer service to assist buyers and sellers in quick, efficient and thorough "look see" at the real estate market.
- If you're in the HOME market, buying or selling, contact the nearest office of EARL KEIM REALTY.
- Guaranteed TRADE-IN Plan... unlocks prospects with tied-up equities... makes them buyers.
- Inter-State Referrals... we've got the cities in United States and Canada covered.
- ONE CALL... does it all.

Computer service to assist buyers and sellers in quick, efficient and thorough "look see" at the real estate market.

Inter-State Referrals... we've got the cities in United States and Canada covered.

Cindy Langdon

Good Citizen

Cindy Langdon, daughter of Mr. and Mrs. Gerald Langdon, Maybee Road, has been selected as this year's DAR good citizen. The Clarkston High School senior was chosen for her qualities of dependability, service, leadership and patriotism as indicated by her interests and community involvement.

Cindy is president of the student government, a first-class Girl Scout (president of troop 124), a member of the high school drama club and a member of the Gingelville Baptist Church. She is also a reading aide at the high school. Cindy plans to attend college and major in sociology or psychology and would like to work with children. She has one brother, two sisters, two dogs and a cat.

Since 1934 the National Society of the Daughters of the American Revolution has conducted a contest in each state to select one student in the senior class of each high school who has demonstrated the best qualities of good citizenship.

Being Clarkston's Good Citizen insures Cindy the chance to become the state Good Citizen.

In the scholarship level of the competition the State Good Citizens will compete with each other through their questionnaires, transcripts of grades and personal recommendations.

The National Society award includes a \$1,000 scholarship to the college of choice and a sterling silver Paul Revere type bowl, engraved "National DAR Good Citizen 1978".

Fed funds for roads

Springfield Township will use \$1,797 of \$3,623 in Anti-Recession Act funds to pay for chloride applied to township roads by the Oakland County Road Commission. The balance of the funds will be allocated later.

Mary's attic

Rendezvous in Quebec

by Mary Butterfield

While our farmhouse was being built, we lived in Waterford close to Aunt Mary Anne and Uncle Dave who were my dear friends. The year was 1914. I was three years old, and my little world was bright and beautiful.

This idyll came to an abrupt end one day with the intrusion of a squirming, squalling, red-faced mite who, people said, was my baby sister. I didn't feel the need for such a one and let it be known. The trouble brewing in Europe could not compare with the dust I raised.

I struck out for myself, but in a town of three streets and a few hundred people I didn't get very far before I was brought home and confined to barracks. It seemed to be a good time to wash my doll clothes and I started a small fire in the kitchen when I pulled a chair too close to the stove. Things went from bad to worse. Then one day

I noticed that my baby sister was no longer red-faced and squalling, that she could smile and be friendly. Our relationship improved from that day on.

The early war years did not affect our immediate family. In 1916 my oldest brother was rejected for military service because of defective eyesight. At the age of seventeen the brother who was my special friend won my father's consent to enlist. At the recruiting office my father's pride in his English ancestry was dealt a severe blow by a British office who referred to the Canadian enlistees as "Colonials".

My brother reported for basic training and came home on leave resplendent in World War I uniform. My little sister and I learned how to polish brass buttons and wrap puttees. He whittled small wooden guns for us and we marched up and down and saluted smartly and were

rewarded with a stick of chewing gum.

Wearing the insignia of the Corps of Engineers, he came home for final leave. His regiment was ordered overseas, and a final letter from St. Jean, Quebec stated that he would be shipping out very soon. Then silence.

Days turned into weeks and became months and the silence persisted. It seemed that he had vanished. Official inquiry was of no value, and there was small comfort in the fact that his name did not appear in the casualty lists published in the daily newspapers.

He came home one day and his story in the light of present day communications is incredible.

When he reached St. Jean he was running a fever. There had been a few cases of typhoid in the barracks, and he was quarantined on the assumption that he had contracted it. But he had rheumatic fever, which was untreated for several weeks and he became very sick. His condition was so poor that he could not write a letter, and the army took no responsibility for notifying his next of kin.

In spite of all the bungling, he recovered to the point where the army considered him fit to travel. He was given a disability discharge and sent home alone, half way across the country, a pale and trembling shadow.

Under my mother's expert care, he gradually recovered, and it was a happy day in our house when he was well enough to resume work in his carpentry shop. We knew he was himself again when he sang and whistled while he worked in his best off-key voice. He loved music, but he couldn't carry a tune in a basket.

Make room for daddy with a garage sale. Use a News ad. Phone 625-3370.

The Independence Township Board of Appeals will meet Wednesday, November 16, 1977, 7:30 P.M. at the Independence Township Hall, 90 North Main Street, Clarkston, MI to hear the following cases:

1) CASE #719 - JAMES RICHARDSON, 6282 Peach, Lot 131, Clarkston Gardens. Applicant requests a rear yard set back variance of 9 feet to erect a shed. #08-21-329-008.

2) CASE #720 - REGGIE DEDRICK, Parcel C, Parke Lake Drive. Applicant requests a front yard setback variance of 15 feet to erect a new home.

3) CASE #721 - JAMES ZELENIK, PARCEL D, Rattalee Lake Road. Applicant requests a side yard variance of 15 feet to erect a new home. #08-07-100-002.

NOTICE IS FURTHER GIVEN that the proposed variances may be examined at the Independence Township Building Department, 90 North Main, Clarkston, MI during regular office hours, each day Monday thru Friday until the date of the public hearing.

PUBLIC NOTICE TOWNSHIP OF INDEPENDENCE

COUNTY OF OAKLAND, STATE OF MICHIGAN

ADOPTED: Nov. 1, 1977
EFFECTIVE: Dec. 10, 1977

TITLE: AN AMENDMENT TO THE INDEPENDENCE TOWNSHIP ZONING ORDINANCE NO. 83

THE BOARD OF INDEPENDENCE TOWNSHIP, OF THE COUNTY OF OAKLAND, OF THE STATE OF MICHIGAN, ORDAINS:

That the Zoning Ordinance No. 83 of Independence Township is hereby amended as follows:
TO WIT:

ARTICLE XXXII BOARD OF APPEALS

Section 32.01. CREATION OF BOARD OF APPEALS; MEMBERSHIP; EXPENSES; REMOVAL OF MEMBERS; DISQUALIFICATION FOR CONFLICT OF INTEREST; TERMS OF OFFICE. There is hereby established a Board of Appeals, which shall perform its duties and exercise its powers as provided by Act 184 of the Public Acts of 1943, as amended, in such a way that the objectives of this Ordinance shall be observed, public safety, morals and general welfare assured, and substantial justice done. The Board of Appeals shall consist of five (5) members appointed by the Township Board as follows:

1. The first member shall be a member of the Planning Commission.
2. The second member may be a member of the Township Board.
3. The remaining members of the board of appeals shall be selected from the electors of the township residing outside of incorporated cities and villages. The members selected shall be representative of the population distribution and of the various interests present in the township. An elected officer of the township shall not serve as chairman of the board of appeals. An employee or contractor of the township board may not serve as a member or an employee of the township board of appeals.
4. The total amount allowed the board of appeals in any 1 year as per diem or expenses actually incurred in the discharge of their duties shall not exceed a reasonable sum which sum shall be appropriated annually in advance by the Township board. Members of the board of appeals shall be removable by the township board for nonperformance of duty or misconduct in office upon written charges and after public hearing. A member shall disqualify himself from a vote in which he has a conflict of interest. Failure of a member to disqualify himself from a vote in which he has a conflict of interest shall constitute misconduct in office.
5. The term of each member shall be for 3 years, except that of the members first appointed, 2 shall serve for 2 years and the remaining members for 3 years. A successor shall be appointed not more than 1 month after the term of the preceding member has expired. All vacancies for unexpired terms shall be filled for the remainder of the term.

Section 32.02. MEETINGS; MINUTES; QUORUM. The Board of Appeals shall hold regular meetings at least two (2) times per month in accordance with a prepublished calendar. In addition, the Board of Appeals shall hold such special meetings as are necessary to expeditiously rule on appeals brought before it. All special meetings shall be held at the call of the Chairman of the Board of Appeals and notice posted in conformance with the Open Meetings Act. All Meetings of the Board of Appeals shall be open to the public. The Board of Appeals shall keep minutes of its proceedings, showing the vote of each member on each question, or if absent or failing to vote, indicating such fact, and shall keep records of its finding, proceedings at hearings, and other official actions, all of which shall be immediately filed in the office of the Township Clerk and shall be a public record. The Township Clerk shall post said minutes as required by the Open Meetings Act. The Township Board of Appeals shall not conduct business unless a majority of the members of the Board are present.

Passed this 1st day of November, 1977, A.D., by the Independence Township Board. Ayes: Hallman, Powell, Ritter, Rose, Tower; Nay: None.

Christopher L. Rose, Clerk

Nov. 10, 1977

Snowbirds follow crops

Once again we have joined the "migrants" or the "snowbirds" for another winter season in South Florida. As usual the trip South is fascinating to anyone who is interested in the crops and livestock to be seen along the way.

Our route south follows Interstate Highway 75. Through northern Ohio's fertile farmlands the soybean harvest was being completed and in a few fields corn grain harvest was beginning. It looked like crops had been excellent.

The I-75 route does not traverse the best agricultural areas of Kentucky and Tennessee. One does get glimpses of the famous race horse farms in the bluegrass area as you by-pass the city of Lexington.

Tobacco crops had been harvested and stored in the curing barns so common along the highway. In Tennessee the agriculture one sees is largely dairying and one gets glimpses of an occasional herd of Jersey cattle. This breed of beautiful animals is now rarely seen on our Michigan farms.

The profuse blooms of the dogwood we saw last spring had been replaced by the brilliant red of their autumn leaves making the landscape very colorful.

Georgia's farms are interspersed with miles and miles of pine forests. There are fields of cotton plants, most of which have been stripped of their fluffy white bolls.

Near Perry, Georgia we passed a very extensive hydroponic vegetable growing establishment. Here plants are grown without soil, receiving their

plant food from a liquid solution of nutrients.

In this same area are the extensive pecan groves. No peanuts seen at this season of the year. They have been harvested. Nor does the I-75 route take one through the Georgia peach growing areas.

Among the new ventures in Central Florida's agriculture are the very extensive plantings of peach trees that have very recently been established near Ocala.

We were amazed by the vigorous growth that had taken place during the time when we saw the same trees last spring—several feet of new growth since April! Ocala is also the center of many purebred horse farms.

Further south in Florida one begins to see some of their extensive herds of beef cattle. This state now ranks close to Texas in the number of beef cattle raised annually.

There is a large feed lot near Bartow where by-products of the citrus juice industry are blended with grain to become "Western grain fed beef."

In the extreme south of Florida one comes on the winter vegetable crops of tomatoes, squash, beans, cucumbers and others.

This industry centers around the Lake Okechobee region but there are large acreages near our home base at Fort Myers and semi-loads of these vegetables will soon be coming in to the Farmers' Market here.

Fort Myers is the nation's "Gladiolus Capital" and one can see hundreds of acres of glads being grown for sale to the florist trade throughout the

nation.

At this season Florida citrus are not ready for market. Most of the trees seem to be well set with fruit again this year.

As to our tiny Florida winter "garden," we have planted tomatoes, beans, broccoli, onions and radishes. Hopefully we will be harvesting some of these crops soon after the first weeks of 1978.

One garden chore we have found necessary to do is to fumigate the soil to control nematodes. We used the old system of covering the loosened soil with a sheet of plastic under which Methyl Bromide gas was released. We hope it works!

This will be the final item in the "Growing Things" corner for 1977. It is hoped you have found something of interest and possibly of use in the season's writings. Have a good winter!

NOTICE Springfield Township

AN AMENDMENT AMENDING THE ZONING ORDINANCE OF SPRINGFIELD TOWNSHIP, OAKLAND COUNTY, MICHIGAN, Known as Springfield Township Zoning Ordinance #26, 1973. By Amending the Springfield Township Zoning Map and Text.

The Township Board of Springfield Township, Oakland County, Michigan hereby ordains:

SECTION 1.

The Springfield Township Zoning Map, which by Article V is made a part of the zoning ordinance of Springfield Township, Oakland County, Michigan be and the same is hereby amended so as to fix the zoning classification of the following described property, to wit:

1. Bruce A. Bordine, 1835 S. Rochester Road, Rochester, Michigan to rezone the following described property from R-3 to C-2 district, to wit:

a. Lots 4 and 5 of Springfield Estates, a subdivision of part of the North 1/2 of Section 24, Town 4 North, Range 8 East, Springfield Township, Oakland County, Michigan.

2. Amend Schedule of Regulations, Article 23.00 by adding a new footnote "i" as follows:

In all Residential Single Family Zoning Districts where individual lots and/or parcels are classified as non-conforming as to the minimum lot area and/or minimum lot frontage, the side, front, and rear yard setbacks may be reduced by the same percentage ratio as is determined by dividing the actual frontage of the lot or parcel by the required frontage for the district provided however that the minimum side yard set back on one side shall be at least ten (10) feet in width.

SECTION II.

This Amendment shall be effective from and after December 10, 1977.

I, J. CALVIN WALTERS, hereby certify that the foregoing amendment was adopted by the Springfield Township Board on the 2nd day of November 1977. Members of the said Township Board voting thereon and their respective votes are as follows:

1. Ayes: Kramer, Walls, Vermilye, Underwood and Walters. Nays: None.

2. Ayes: Kramer, Walls, Vermilye, Underwood and Walters. Nays: None.

J. Calvin Walters
Springfield Township Clerk
Oakland County, Michigan

Notice

ADOPTED: Nov. 1, 1977
EFFECTIVE: Dec. 10, 1977

TOWNSHIP OF INDEPENDENCE AIRCRAFT CONTROL ORDINANCE ORDINANCE NO. 93

PREAMBLE

An ordinance to provide for the regulations of the operation, use and storage of aircraft within the Township of Independence and of facilities maintained in conjunction therewith. This ordinance is enacted in order to provide uniform regulations with respect to the operation, use and storage of aircraft and with respect to facilities maintained in conjunction therewith and to provide for the health, safety and welfare of persons associated with the same, as well as the general public.

ARTICLE 1. Definitions

Sec. 1.1 Aircraft. An aircraft is any contrivance now known or hereafter invented, used, or designed for navigation of or flight in the air and capable of being occupied by persons, excluding helicopters.

Sec. 1.2. Airport. An airport is any location, either on land or water, whether public or private, which is used for the landing or takeoff of aircraft and which provides facilities for the shelter, supply or care of aircraft, or for receiving or discharging pilots, passengers or cargo, and all appurtenant areas used or suitable for airport buildings or other airport facilities, and all appurtenant rights of way, whether heretofore or hereafter established. Infrequent, casual landing or waterways shall not be deemed an "airport".

Sec. 1.3. Hazards to air navigation. A hazard to air navigation is any obstruction of whatever character, object of natural growth, or use of land, upon or surrounding or adjacent to an airport, landing field, or other aeronautical facility, which prevents the safe use of such facilities for the takeoff or landing of aircraft.

Sec. 1.4. Landing field. A landing field is any location, public or private, either on land or water, which shall be used for the landing or takeoff of aircraft but which is not equipped with facilities for the shelter, supply and repair of aircraft.

Sec. 1.5. Navigable airspace. Navigable airspace is space in the air over the lands and waters of the Township of Independence, above the minimum altitudes of flight prescribed by the laws of the State of Michigan or by the rules and regulations of the Michigan Aeronautics Commission.

Sec. 1.16. Operation of aircraft. The operation of aircraft includes the use of aircraft for the purpose of air navigation, including the flying, navigation or piloting of aircraft. Any person who causes or authorizes or permits or allows the operation of aircraft under his control, whether with or without the right of legal control (in the capacity of owner, lessee, or otherwise) of the aircraft, shall be deemed to be engaged in the operation of aircraft within the meaning of this ordinance.

Sec. 1.7. Operation of airport or landing field. The operation of an airport or a landing field shall consist of the use of any real property within the township of Independence upon which aircraft takeoff, land or taxi. Any person who owns any interest, legal or equitable, in any real property in Independence Township upon which aircraft takes off or lands shall be deemed to be engaged in the operation of an airport or landing field within the meaning of this ordinance. However, in no event shall any landing resulting from equipment or personnel failure be deemed a violation hereof.

Sec. 1.8. Person. A person is any individual, firm partnership, corporation, company, association, joint stock association, or body politic and includes any trustee, receiver, assignee, or other similar representative thereof.

ARTICLE 2. General Regulations

Sec. 2.1. No person shall construct or operate an airport or landing field within Independence Township unless and until that person has obtained a permit pursuant to the requirements of this ordinance.

Sec. 2.2. No person shall construct or operate an airport in Independence Township with a permit unless that person continues to maintain such airport or landing strip in a manner such that the requirements for obtaining a permit are met.

Sec. 2.3. No person shall construct or operate an airport within Independence Township or within the airspace of Independence Township unless that person meets all the requirements of the laws, rules and regulations of the United States, the Federal Aviation Administration, the State of Michigan and the Michigan Aeronautics Commission for the operation of an airport.

Sec. 2.4. No person shall construct or operate an airport within Independence Township except in the zoning district or districts which specifically permit such use.

ARTICLE 3. Permit for the operation of airport or landing field.

Sec. 3.1. Any person desiring a permit for the construction or operation of an airport or landing field may apply for the same by filing a written application with the Independence Township Clerk.

Sec. 3.2. An application for a permit or renewal to construct or operate an airport or landing field shall contain the following:

- The name, age, and address of the applicant;
- The legal description of the real property upon which the airport or landing field will be maintained;
- A survey, prepared by a licensed surveyor, of the subject property, which delineates the location and dimensions of the runway or runways, storage areas, monuments, wind indicators, and all natural and unnatural objects extending into the air more than five feet, including, but not limited to, buildings, fences, utility poles, utility lines, antennae, trees, shrubs and bushes;
- The estimated amount of aircraft traffic contemplated by the applicant for the proposed airport or landing field;
- The type and size of aircraft to be operated upon the airport or landing field;

f. An application fee as set by the Independence Township Board.

g. A copy of the applicable Federal Airspace permit, where required.

Sec. 3.3. Upon receipt of an application for a permit or a renewal to construct or operate an airport or landing field, the Township Clerk shall review same to determine whether the application comports with the requirements of this Ordinance:

a. In the event that the application does not comport with the requirements of this ordinance, the Township Clerk shall return the application to the applicant with a statement in writing indicating the reasons that the applicant does not comport with this ordinance;

b. In the event that the application comports with the requirements of this ordinance, the Township Clerk shall schedule a hearing before the Township Board for the purpose of determining whether or not to issue a permit to construct and operate said airport;

c. In the event the Township Board votes to permit the construction of the airport, the Clerk shall deliver the application to the Independence Township Building Inspector.

Sec. 3.4. Upon receipt of an application for a permit or renewal from the Township Clerk, the Building Inspector, or his duly authorized representative, shall cause inspections to be made of the proposed or existing airport or landing field. Upon such inspections, the Building Inspector, or his duly authorized representative, shall determine whether the following minimum requirements are provided and maintained:

a. At least one runway with a 1,200 foot landing length in each direction from a clear approach of 20:1 and a 50 foot usable width, with an additional 25 foot minimum on each side free of obstructions. The approach slope shall be based on clearance of all objects within the approach area, including a roadway clearance of 15 feet (17 feet over an interstate highway), a railway clearance of 25 feet, and clearance at the boundary of the airport property interest of 25 feet. Runway lights are not considered an obstruction in the runway width required to be free of obstruction;

b. Runway well-defined either by mowing, use of markers or the like;

c. Runway in a permanent location and not moved from one area to another;

d. Wind indicator;

e. Telephone available at or near the airport. Directions shall be posted indicating the location of the nearest telephone.

Sec. 3.5. In the event that the Building Inspector or his authorized representative determines that the above requirements have been met by the applicant, the Building Inspector shall notify the Township Clerk who shall refer the matter to the Township Board for the purpose of making the permit operational.

Sec. 3.6. In the event that the Building Inspector or his duly authorized representative determines that the above requirements are not met, he shall notify the applicant and the Township Clerk in writing, specifying the reasons upon which such a determination is made. In the event that an applicant is aggrieved by the denial of his application to make a permit operational, or in his application for permit, he may appeal such a determination to the Township Board. Such an appeal shall be filed with the Clerk of the Independence Township Board of trustees within 20 days after receipt of the letter from the Building Inspector referred to in this section. The appeal shall state the facts and reasons upon which the applicant bases his appeal. Upon receipt of such appeal, the Clerk shall place the appeal on the agenda for the next regularly scheduled Township Board meeting and so notify the applicant.

Sec. 3.7. At the meeting of the Township Board of Trustees where the permit request or appeal is heard, the applicant may present testimony or other evidence in support of his contentions that he has met the requirements set forth in Sec. 3.4 above.

Sec. 3.8. In determining whether or not to issue a permit for either construction or operation, the Township Board shall consider the requirements of this ordinance, and such other requirements as the Board may deem necessary to the public, health, safety and welfare. In no event shall a permit be issued where the airport will constitute a nuisance in fact.

Sec. 3.9. If a majority of the members of the Board of Trustees votes to grant the permit to construct or the appeal of the applicant for such permit, or to make a permit operational, the Township Clerk shall issue a permit pursuant to this ordinance.

ARTICLE 4. Permits

Sec. 4.1. A permit for the operation of an airport or landing field pursuant to this ordinance must be renewed within three years of the date of issuance or the date of the most recent renewal. To renew a permit, an applicant must notify the Township Clerk in

College Night Nov. 14

Julie Whiteman, Anne Johnston and Sandi Ball were first in line to sign up for College Night at Clarkston High School on November 14. Registration for the annual event co-sponsored by Clarkston and Brandon High Schools is open until November 11. Some 50 Michigan colleges have been invited. Three out-of-state colleges and the Armed Services Academies will be represented as well. Junior and Senior students and their parents are invited to peruse the offerings of the institutions during three one-half hour sessions beginning at 7:30 p.m.

writing of any changes in circumstances which would make the information on the applicant's original application incorrect, incomplete, inadequate or untrue. Following the application for a renewal, the procedure for renewing a permit shall be the same procedure as that for obtaining an initial permit pursuant to this ordinance.

ARTICLE 5. Penalties, Injunctive Relief

Sec. 5.1. Any violation hereof shall be punished by a fine not exceeding Five Hundred (\$500.00) Dollars, or by imprisonment in the Oakland County Jail for a period not exceeding ninety (90) days or by both such fine and imprisonment.

Sec. 5.2. Every day that a business continues to operate in violation hereof shall be deemed a separate offense and may be punished by a separate fine or a separate jail term.

Sec. 5.3. In addition to the other remedies provided for in the event of violation hereof, the Township may, at the discretion of the Township Board, seek injunctive relief in Circuit Court restraining the continued violation hereof.

ARTICLE 6. Severability

Sec. 6.1. If any section, provision, phrase or word of the ordinance shall be declared void, ineffectual or unconstitutional by a Court of competent jurisdiction, then such finding shall not affect the validity of the remaining sections, provisions, or phrases or words of this ordinance.

ARTICLE 7. Effective Date

Sec. 7.1. This ordinance is hereby declared to have been adopted by the Township Board of the Township of Independence, Oakland County, Michigan, at a meeting thereof duly called and held on the 1st day of November, A.D., 1977, and shall become effective thirty (30) days following publication in the manner described by law.

Ayes: Hallman, Powell, Ritter, Rose, Tower.
Nays: None.

Jim's Jottings

We're not cynical

by Jim Sherman

When your favorite professional sports team is not putting forth their best effort and getting pushed around rather badly, do you find yourself urging the opponent to pour it on?

We do with the hope the owners will retaliate by changing personnel. With the figures we've seen for television rights, however, owners can make a good return on their investment without fielding a winner.

Fans can react by not going to games, but the dollars are there anyway.

We haven't seen a professional team (U of M football doesn't count) play any sport in about three years.

That doesn't give owners much to worry about. Our retaliation is in this column or by not listening.

As far as the Lions go it's getting easy to not listen. Wings hockey games are more interesting this year. The Pistons are only fair. I'm only talking of radio listening. None of these three attract me to the tube with any regularity.

But when the Lions, Pistons, Wings and Tigers start even a modest winning streak, we'll be right back with them. We're strictly fair weather fans.

Writing of winners is much more fun than writing of the pro sports losers. This is especially true when

the winners are us.

I'm certainly happy we went into a business where awards can be earned for achievement, even if they are plaques rather than pay.

A panel of judges chose the Oxford Leader's 1976 centennial edition as the best newspaper in the nation for "advertising idea".

Number 1 in the nation. Above all weeklies. Above all dailies. Regardless of their circulation, the Leader was tops in the land in this department last year.

Had we gone to the National Newspaper Association convention in Houston, Texas last week to accept the award we could have also brought back a second first place

plaque.

Pat Braunagel, associate editor of our Lake Orion Review, earned the top place in the "best feature story" category for newspapers of less than 3,000 circulation.

There are more newspapers in this category than any other. Pat has written many excellent stories in her years with us and it's great to see one of her pieces gain recognition nationally.

Cynical editors (the losers) say the only award they want is to be wanted by the hometown readers. Of course, we want that, too. And, we think we are wanted... more people are taking the Leader and Review than ever before.
