Cityhood talk brings officials together

BY JULIE CAMPE
 Clarkston News Staff Writer

An informal special meeting on cityhood last week brought department heads and elected and appointed Independence Township officials together with William

Basinger, spokesperson and trustee on the Clarkston Village Council.

The mood was calm at the Sept. 13 gathering, and discussions included polite references to the frictions between the two bodies of government in addition to answers to lots of questions.

Most township officials voiced veiled opposition to village cityhood, and Clerk Richard Holman suggested incorporating the entire township as a city and designating the village as a historic district to give the downtown area extra protection.

"Everyone in Independence Township identifies with Clarkston," said Holman. "They see the post office, the school district, the downtown area as what this town is all about."

If the entire township were one city, officials could plan for the whole area and avoid the duplication of services, he said. A township cityhood would also mean about an extra million dollars a year in gas and weigh taxes to take care of the roads.

In light of past and current contract disputes between the village and the township over Deer Lake Beach and police coverage, a township cityhood would dispense with the need for double contracts.

"It would minimize the rivalries," said Holman, adding that contracts with a village cityhood could be even more difficult than the present system.

Using the aggressive annexation attempts by Auburn Hills as an example, township officials also voiced concern over annexation by the village or another neighboring municipality.

Steve Secatch, a village resident who serves on the township planning commission, said village residents

WITH APPLE BAGS in hand; buddies Ryan Wilber (left) and Michael Brooks stick together during a kindergarten field trip to

Ashton's Orchards in Brandon Township. The boys are in Bonnie Valuet's class at Pine Knob Elementary School.

Residents invited to M-15 workshop

Residents concerned about property development along M-15 between I-75 and Cranberry Lake Road can have a voice in the planning stages.

A public workshop was suggested by Independence Township planning consultant Richard Carlisle, who said the township has several options for the M-15 area.

The session is scheduled at 7:30 p.m. Thursday, Sept. 29, in the Township Hall annex, 90 N. Main St., Clarkston.

The public workshop would be better than jumping right to the public hearing stage of zoning changes, Carlisle said.

"This gives the residents more advanced warning, and the planning commission can use the input," he said, adding it was better communication in every way.

Carlisle noted that without the workshop phase, the planning commission would have to advertise a formal proposal in order to hold a public hearing.

"People have the impression that once it's published, your mind's made up," he said. "Let's allow the people who are going to be most affected to have some input."

The 1987 changes to the master plan -- a map that shows the desired land uses in the township -- called for reducing the intensity of land use along M-15 between I-75 and Cranberry Lake Road.

Local commercial is planned for south of I-75 on both sides of M-15 -- a change from general commercial that would allow a higher intensity.

North of I-75 and east of Allen Road, a change from research office to high density single family residential is planned to provide a buffer between office and research office and other residential areas.

To implement the reduction, zoning changes would be necessary. Carlisle will present the options at the Sept. 29 public workshop and the planning commission will formulate a course of action.

When Johnny falls asleep on the bus

Teachers aren't the only ones who feel the effects of a rigorous school day.

Pupils, especially the young ones, get so plum tuckered out that they fall asleep on the school bus.

"The drivers really have to watch," says Kevin Bickerstaff, transportation supervisor at the Clarkston schools bus garage.

On the noon runs, it's the kindergartners, accustomed to an afternoon nap, who fall asleep. Once drivers get to know their riders, they notice when "Johnny got on but doesn't get off at his stop," Bickerstaff says. Then, they'll go back and wake up the pupil.

But older elementary pupils fall asleep, too, and it's even harder for the bus drivers, with many students on the route, to spot every one.

Sometimes, at the end of a route, a slumped over pupil, fast asleep, is found when the buses are inspected back at the bus garage.

It's almost an annual event on the first day of school to find a kindergartner asleep on the bus, but by the end of the year, somewhere between six and 12 pupils from all elementary grades sleep through the route.

Back at the bus garage, a worried parent will call and come pick the child up or a bus driver will provide the ride home. Sometimes Bickerstaff, formerly a bus driver himself, performs the task.

"We always get them there," he says.

Board ponders change in CHS honors classes

BY PAT YOUNG
Clarkston News Staff Writer

The emphasis on rigorous academics would continue, but Clarkston High School wants to use nationally recognized Advanced Placement classes rather than the weighted honor-point system put in place five years ago.

The phasing out of weighted honor was proposed to the Clarkston Board of Education in September, but no action will be taken until the October meeting.

Dr. Robert Burek, CHS principal, and Brent Cooley, assistant principal, were on hand to answer questions of the board. Cooley and CHS counselor Bill Hartwell chaired the committee that studied the proposal throughout the last school year.

Problems with weighted honor classes have surfaced in the last two years, Burek said. Seniors who took the classes in their second semester, for instance, didn't get the same class standings benefit as seniors who took them first semester. Class standings are determined at the end of the first semester.

Also, replacement teachers in the classes might have a different content in the class than a previous teacher. Computation of honor points classes and the diluting effect on grades of students in those classes versus regular classes were other problems, according to

Burek.

He recommended that the practice of honor classes be eliminated and in its place the school continue to put emphasis on rigorous academics, broaden the scope of AP classes and recognize students who take on extra academic loads.

AP classes already in place at the high school are English, government and physics. Next year, biology and French will be added. By 1992, when this year's incoming freshmen are seniors, honor classes would no longer be offered. Instead, more AP classes would be in place.

Board President Janet Thomas expressed concern that students be counseled so they know the necessary prerequisites for AP classes. She also said, "I guess I'm not convinced we're changing the approach."

Burek said they started two years ago dealing specifically with those issues, so junior high students would be cognizant before getting to high school. They have also made a concerted effort to meet with parents to get the message across about the AP program.

"AP is a national curriculum. It doesn't depend on a particular teacher," Burek said.

He also said all students would be counseled, whether they were college bound or not, but the program is very selective. Generally the top students are involved.

"The biggest difference between AP and weighted

honor points is how it is driven," Cooley said after the meeting. "AP is a nationally recognized, externally driven curriculum that Clarkston High School follows. The kids compete nationally."

With weighted honor point classes, it was an internal program within the district, he said, but AP classes offer students a challenge and can even give them college credit toward freshmen classes.

"We enjoy a positive reputation with colleges," Cooley added, saying that a large percentage of the students go on to college. "And colleges know what they're getting with AP classes."

Land for library to come from school site

If a bond issue for expanding the Independence Township Library is successful in November, the land will be available.

The Clarkston Board of Education voted Sept. 12 to deed approximately 3 1/2 acres of school district land to the township if voters approve the library bond issue.

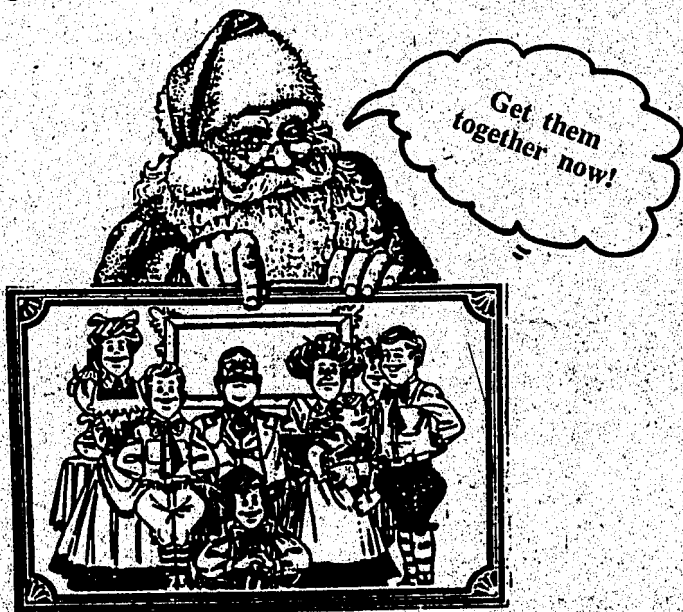

A yes vote in November would allow the township to borrow up to \$2 million and charge the necessary millage to cover it, possibly a half mill. The township is also asking for a half mill for operating the library on the November ballot.

If the bond issue is successful, the school property will be transferred to the township for \$1 plus survey and transfer fees. If the bond issue is turned down by voters, the property will remain with the school district.

The 3 1/2 acres would add about 146 feet more frontage to the library property to the east and would "L" around behind the existing property.

"The school district's feeling was that the district benefits from a more comprehensive library facility," said Janet Thomas, school board president.

Be prepared before emergency strikes

BY JULIE CAMPE
Clarkston News Staff Writer

If your child fell down the stairs or swallowed household cleanser or smashed his thumb, would you know what to do?

The best advice for parents is to be prepared in advance, says Gordon Mason, assistant fire chief in Independence Township.

In emergencies involving their own relatives, some people tend to lose their composure and are unable to perform any first aid they might have learned, said Chief Gar. Wilson.

"They just get excited," he said. "One of the biggest things is just keep your cool."

But certain steps can be taken now, while there's no emergency, to make things easier if an accident occurs.

- Place emergency numbers by the telephone. For fire, call 625-3311 (in Independence) or 634-8611 (in Springfield). For police, call the Oakland County Sheriff's Department at 858-4911. For poison, call the Poison Control Center at 1-800-462-6642. Sometime in November, all Oakland County residents will be able to dial 911 for any emergency.

- Tell the clerk the type of emergency, your name, address of the victim, telephone number and the nearest crossroads. Do not hang up the telephone; follow any instructions given.

- Use bystanders to watch for and flag down emergency vehicles. Put the porch light on and open the

door. Do not move the victim, but stay with him and keep him warm until help arrives.

- Take time to learn basic first aid and cardiopulmonary resuscitation. For cuts, apply direct pressure with a clean cloth, but use anything if the cut is serious.

- Keep matches away from children. Keep medicine and household poisons away from children.

- Don't store flammables inside. Don't use flammables to start a wood burning stove.

- Have your chimney inspected and cleared each year. Put ashes in a covered metal can and put them outside away from the house.

- Plan now for an escape route in case the house ever catches fire. Tell the entire family and practice it.

- Place a fire extinguisher in the garage, kitchen and basement, and have it inspected annually (required by state law in commercial buildings).

- Buy a smoke detector now.

"They've made a dramatic difference," said Mason. "I've seen so many times when they've saved people's lives."

And don't forget to change the batteries once a year. A good way to remember, said Mason, is to change them every Christmas, since smoke detectors are often given as gifts.

Enrollment drop resolves split classroom woes

BY PAT YOUNG
Clarkston News Staff Writer

Several parents were on hand at the Clarkston Board of Education meeting Sept. 12 to voice concerns about a split classroom at North Sashabaw Elementary School.

The problem, fourth and fifth graders sharing the classroom of Anne Rasmussen, has already been resolved, according to North Sashabaw Principal Jack Hayden.

Parents' concerns were that pupils were not getting the same quality of education as their peers in regular classrooms, nor were they getting the same amount of time for each subject.

Hayden pointed out that, while a split class is not

ideal, there was an attempt to keep it smaller in size, and to place children "a little above average" in the splits.

Board President Janet Thomas said that her children had been in split classes, and she did not feel they suffered from the experience.

By the next day, the problem was already resolved, and Hayden said, "I couldn't be happier with the solution."

"We had hired one additional teacher for the second grade, but enrollment (in that grade) was less than anticipated," said Hayden. "Therefore, after review, we determined that we could reduce the second grade classes from four to three, and add a fifth grade class instead."

The teacher, Carol Zorka, was newly hired by the district but has prior teaching experience. On Sept. 19,

she began teaching the new fifth-grade class at North Sashabaw. Rasmussen's class became a fourth grade class.

"You just can't predict all that closely what enrollment will do," Hayden said, "Even though we try very hard, through phone calls during the summer and other channels. You can't tell people when to move and when not to move."

The decision on resolving the split class, even though there were parent concerns, had to wait until the enrollment could be accurately counted, which takes a week or two after school begins, he said.

There was a similar problem with a split class at Andersonville Elementary, but it, too, was resolved once enrollment figures were established.

Notes explain

No demolition in district

BY PETER AUCHTER
Clarkston News Staff Writer

Letters informing all homeowners living in the village's historic district of the anti-demolition ordinance were mailed last last week.

The village historic district, as established by the National Register of Historic Places in 1980, includes buildings from the northern village limits south to one house past Waldon Road and from the west bank of the Mill Pond to the east bank of Parke Lake.

North Holcomb Street, both sides, up to Surrey Lane is included in the historic district; Robertson Court is not.

The anti-demolition ordinance, passed into law last September, deals with substantial alteration of a historic building, meaning more than 30 percent of the structure must be affected, said Trustee William Basinger.

Changes include those to the surface of the wall and the supporting structure underneath. Additions on the rear of the building would not violate the ordinance.

A special consideration was made for additions in the rear since they couldn't be seen from the street, Basinger said.

The village council recently appointed five village residents to the Historic District Commission: Chairman Steve Sitar, Kay Robertson, Jim Russell, Jennifer Arkwright and Susan Basinger.

Letters were sent out to avoid any confusion should the commission ever have to act, President Sharron Catallo said.

"We want people to know about this before anything happens," she said. "We don't want people saying they didn't know about it."

Copies of the ordinance and approval application procedures are available at the village office.

CHS senior hurt in bike crash begins recovery

BY JULIE CAMPE
Clarkston News Staff Writer

As 18-year-old David Bookie summoned the strength inside to recover from multiple injuries suffered in a motorcycle accident Sept. 3, his family gathered around to give support.

Already the CHS senior has regained consciousness and is eating solid food, "but he was banged up pretty good," said his father, Don who resides with his wife, Karen, and family on Dartmouth Road, Independence Township.

In the accident, Bookie fractured his skull, toes, jaw, nose and hand; damaged his knee, which will require surgery; and lost a large part of his calf muscle, which will require skin grafting and muscle rebuilding.

Bookie recognizes most visitors but is forgetful -- normal in a head injury, said his father.

The teen's injuries are difficult on the entire family, particularly since his grandmother suffered a stroke less than a week after the accident, he said.

After Bookie was moved from the intensive care unit (ICU) to the step-down unit at Pontiac Osteopathic Hospital, his grandmother, ironically, was placed in his former ICU room. So the Bookie family spends days at the hospital visiting both, said Don.

It will be weeks before they know when David will be released from the hospital and when he can return to school, said his father.

A good student and experienced motorcycle driver, Bookie also worked for Clarkston Motors on Dixie Highway, and had recently joined the Knights of Columbus.

"He's going to have to spend the rest of the year trying to catch up just to graduate," said Bookie, adding that the whole ordeal is frustrating.

"I don't know how you're supposed to react to this," he said. "You feel so hopeless. Up to this point, most of the things he broke I could fix. I can't do anything about this."

He also expressed anger that the accident occurred at all.

Bookie was injured while motorcycling on Dixie Highway and Frembes, Waterford Township, when an oncoming driver turned in front of him, causing the collision.

After involvement in a second accident while fleeing police who witnessed the entire scene, the driver of the other vehicle, Ronnie Rae Kennedy, was arrested for driving under the influence of alcohol, leaving the scene of a personal injury accident and leaving the scene of a property damage accident.

According to police, it was Kennedy's third offense of driving under the influence of alcohol, and his license had been suspended.

Names in the News/Edward Boutrous

OCCUPATION: Owner of the Boutrous Co., of Troy; and a partner with James Macksey in the development team of Boutrous-Macksey Development. Macksey is currently developing the third phase of Deerwood subdivision off M-15 in Independence Township.

In the development field, there's lots of variety and excitement, Boutrous said.

"It's becoming more challenging all the time, with the amount of government regulation," he said. "But when you have a good partner, it makes things more fun and a lot easier."

CURRENT DEVELOPMENT: Boutrous-Macksey's Clarkston Oaks shopping center received the last approval necessary for an eight-acre site on Dixie Highway across from Maybee Road in Independence Township.

Construction is to begin this year on the 42,000-square-foot Great Scott grocery store in the complex plus about 33,000 square feet for other retail stores. The shopping center's driveway also

leads to Lancaster Apartments behind the site.

The Maybee Road traffic signal provides a safe access to the site, formerly owned by Alex Dandy, owner of Hamady Brothers Food Stores, said Boutrous, adding that the location is excellent for a grocery store.

"Great Scott wanted to go there," he said. "Without them, there's no party."

The food store is scheduled to open before Oct. 1, 1989.

PAST DEVELOPMENTS: For several years, Boutrous developed Kroger grocery stores and shopping centers including Harvard Plaza on Dixie Highway in Waterford Township.

Other ventures include Country Ridge Apartments, 252 units in Farmington Hills; and Country Ridge Commons, a shopping center with 20 stores in Farmington Hills.

AGE: 42

FAMILY: Boutrous and his wife, Pam, have one son, Tom, 16,

Edward Boutrous

who attends Brother Rice High School. They reside in Bloomfield Hills, where Boutrous enjoys coaching youth soccer.

By Julie Campe

Say no to calls for school money

Clarkston area residents are advised to beware of people making bogus calls soliciting money for the Clarkston schools, according to Bill Neff, director of administrative services.

"Someone is making phone calls to persons in the Clarkston school district, saying they represent Clarkston schools and soliciting money to support Say No to Strangers," Neff said.

These callers have no affiliation to the school district, he said. So far, they have been unable to trace the source, but he said calls are being made from a noisy room with other callers apparent in the background.

"In no way is this connected to the schools," he said.

Insight at Colombiere marks first decade

BY JULIE CAMPE
Clarkston News Staff Writer

Smiles and good cheer were given freely during the 10th anniversary celebration of Insight at Colombiere on Big Lake Road in Springfield Township.

"It was a special event for us," said Larry Schmidt, program director of the non-profit Insight, the state's first free-standing residential program treating alcoholism, drug addiction and mental health.

Over 400 past and present clients and their families attended the August celebration.

"It was very emotional, very joyous," Schmidt said. "A lot of celebrating, and it was all drug-free, which was nice."

Since the program opened in 1978, many changes have been instituted, such as the expanded cocaine program necessary to meet today's heavy demand.

"People didn't even think cocaine was an addiction 10 years ago," Schmidt said, adding that it's now one of the most common addictions and also has a high relapse rate.

Now, Tropicamin -- a combination of amino acids -- is used to reduce cravings and allow people to sleep and focus on their treatment.

More attention is paid to after care, to the environment the client faces after release. With the widespread use of the drug, clients could go to work and see cocaine on the assembly line, so support groups are important, he said.

Still, the waiting list at Colombiere continues to be long, and addiction remains a problem that affects every level of society. Statistics show that one or two in 10 Americans have an addiction, so Insight is necessary.

Also changed in the past 10 years is the attitude of society. A slight increase in the openness of discussion lessens the problems of denial, allowing people to more easily seek help.

"Societal changes have let people break through that," said Schmidt.

And afterward, the results are worth all the emotional and physical struggle to fight the addiction, he said.

When a person is truly addicted, he can enact the Dr. Jekyll, Mr. Hyde phenomenon. Loved ones can't understand the drastic behavior changes created by the use of drugs.

"When you get them off the drugs and alcohol, they return back to the person they were," said Schmidt. "It's

an incredible change."

Because addicts can begin their journey back to normalcy at Insight, positive feelings are apparent among clients and staff.

"We're looking forward to another 10 years at least," said Schmidt.

Director calls Clarkston 'remarkable'

BY PAT YOUNG
Clarkston News Staff Writer

When Superintendent Gary Haner introduced the director of staff development/curriculum, he said her decision to take a pay cut and work 20 more days per year in Clarkston spoke highly of her interest in working in the community.

"I am very pleased to come to Clarkston," Dr. Judith Backes told the school board Sept. 12. "(The district) has a very good reputation."

Backes was unanimously appointed as the new director of staff development/curriculum by the Clarkston school board. Chosen from 40 applicants, she replaces Alberta Ellis, who left the district this summer.

Backes will assume her duties with Clarkston Community Schools before the end of September. She is currently principal at Commerce Elementary School in the Walled Lake school district.

In a later interview she said, "The position is a great opportunity for me. And one of the pluses to the position is the remarkable community. I am very excited about coming to Clarkston."

Before becoming the principal at Commerce Elementary six years ago, Backes was assistant principal for curriculum with Kearsley Community Schools in Flint, and before that, served as an elementary principal in that district.

She received her bachelor's and master's degrees at Bowling Green State University in Ohio in 1974 and 1976.

DR. JUDITH BACKES is the new director of staff development/curriculum for the Clarkston school district.

In 1980, she earned an educational specialist degree from Eastern Michigan University, and in 1987, she earned a doctorate at Michigan State University, majoring in K-12 administration and minoring in labor and industrial relations.

Backes resides in Union Lake with her husband, Jim, and their children, 4-year-old Aaron and 6-month-old Elliott.

Opinions

Dreams for sale

Kathy Greenfield

Thoughts over morning coffee:

Right up there near the top of my pet peeve list is that horrible beep on the telephone that comes before a voice that says, "We're sorry, you must first dial a ..."

I'm not sure exactly what else it says because it's my policy to hang up the phone as fast as I can. And I'm not misdialing to find out because I don't feel like being tortured at the moment.

My guess is some expert in behaviorism figured there was a great way to force people not to waste the phone company's time and money by forgetting to dial a one before long-distance numbers.

Pavlov's dogs drooled when they heard the dinner bell; people hang up as fast as they can when they hear the beep. The misdial tone has been around so long that no one except the nuts among us would want to make the mistake.

The question is, why don't they change it? We're all trained now. All of our accidents are honest mistakes. Just think of the good will for the telephone company that would result.

When the Michigan Lottery reached the \$17 million mark, I bought a ticket. It's the first I've purchased in at least a year. I read in a newspaper that I had a one in 7 million chance to win.

Not one of my numbers matched those drawn. I'll bet the odds are far better for that to happen. So when the lottery reached \$33 million, I didn't bother to waste another \$1.

Since I'm trying awfully hard not to do anything socially unacceptable, I may begin buying lottery tickets on a semi-regular basis.

People are having so much fun talking about what they'd do if they won that I want to be able to honestly join in the conversations. After all, if you don't buy a ticket your odds of winning are zero.

Furthermore, hope and dreams are what's really for sale.

'If it Fitz ...'

What a jam!

Jim Fitzgerald

This is a litigious society, with everybody suing everybody for every reason. So it was unsettling to get a phone call from Kenneth M. Mogill, attorney-at-law, associated with the downtown Detroit law firm of Mogill, Posner & Cohen. What had I done to deserve communication from a lawyer I'd never met? Was it something I wrote?

Yes. It was something I wrote about paraffin, more commonly called wax, eight years ago. Hadn't the statute of limitations run out?

Not to worry. Mogill didn't want to sue me on behalf of the beeswax industry. He wanted to give me a jar of jam.

What I wrote in 1980 was that there was a time, long ago, when my wife made her own jam and sealed it in jars with paraffin. My mother and grandmother did the same thing. I always hated paraffin.

Paraffin, a mixture of hydrocarbons obtained from crude petroleum, is used for forming preservative coatings and seals. When paraffin is used in preserving jam, thick disks of it are hardened tightly inside the mouth of the container, thus protecting the contents from contamination by foreign agents, especially domestic spies trying to discover, by eating, whether the jam is strawberry or raspberry.

Today, metal lids are usually used to seal off jam from the rest of the world. Metal tops are comparatively easy for foreign agents to penetrate. Paraffin tops are more resistant to successful invasion because of their scorched-earth policy. If not skillfully dislodged, paraffin disks will crumble and flock into the jam, discouraging invaders from eating it.

Top is very hard to remove

Paraffin can be insidious and, if not inscrutable, certainly unscrewable. Because it is below the top of the jar, a paraffin top can't be removed simply by gripping it firmly and turning counter-clockwise. It also cannot be pried loose. Although the invader's intention is to pick the disk of paraffin up and out of the jar, this can be accomplished only by pushing it down and into the jar. Therein

lies much of the treachery of paraffin tops.

They must be attacked on a flank, and never more than one flank at a time. Attempts to push through the middle of a paraffin disk can be disastrous, resulting in much scorched earth, or flaky jam.

The procedure most often recommended by veteran paraffin-top fighters is to push down firmly on the outer edge of the right flank. Admittedly, this will cause the right side of the disk to plunge down into the jam, but, as you will quickly notice, the left side will protrude into the air, out of the jar. At this point, the jam can be seen, on your fingers and shirt, and can be tasted.

The next move is to grip the paraffin by its exposed flank and carefully remove it without causing crumbling and/or flaking into the jam. Some chemists claim paraffin is tasteless, and, therefore, useless as part of a scorched-earth policy. However, my mother taught me paraffin was yucky stuff, practically poison. I realize now she may simply have been trying to scare me away from the fruit cellar, where her jam was stored, but childhood fears die hard.

Some people still use the wax

To this day, I regard a jar of paraffin-sealed jam as a challenge, hard to open and risky to eat, especially in a dark cellar. My wife no longer makes her own jam. She swipes tiny sealed containers of it from restaurants. Without the aid of a steamroller, it is impossible to open these containers. Life is never easy.

But Monnie Shaughnessy of St. Helen still makes her own jam, and she has a long memory. Her recent note said: "Every time I struggle to get the wax off a jam jar, I think of you. This morning I said I wish jam wasn't so hard to mail, or I'd prove to Jim Fitzgerald that there are still crazy people who put wax on their jam. My son-in-law offered to deliver a jar to you. Enjoy the challenge."

Her son-in-law is Kenneth Mogill. The challenge was more than worth the fear of foreign agents. Monnie Shaughnessy's strawberry jam is nostalgically delicious, without being litigious.

Jim's Jottings

Jim Sherman

Two years ago Pete Kalohn gave me a Detroit Tigers baseball cap. You know, the dark blue cap with the old english D on the front?

With the Tigers in first place, winning with a bunch of hitless wonders, I started wearing the symbol of faith while playing golf in mid-July this year.

Manager Sparky had himself in the limelight, partly because of his commercial making ability, partly because he had so many no-name players, and partly for his managerial ability, but mostly because he doesn't want the press badgering individual players.

That's ok. I like Sparky. And, he is more of a star than the players on the 1988 roster.

Then came the after-hat season. The magic was gone in mid-August. The incredible slide to third place (at this writing) began. No way do I blame it on my hat. I quit wearing it Sept. 1, and the Tigers kept losing.

In a way the plunge from first is a good thing for management. They can wheel and deal freely in the off-season. There are no players on the team, except perhaps Alan Trammell, who are not trade bait. None need protecting.

The Tigers won without the usually good hitting, fine fielding Lou Whitaker, who has appeared less than enthusiastic this year. Catching is fine, hitting isn't. Nokes' had his year in 1987.

Herndon, Lynn, Knight, Evans, Pettis and Salazar are in line for a subscription to The Mature American magazine. And Walewander, Beani, Lousader, and Murphy won't draw fans to the old ball park.

Then there's pitching ... THE part of the team that has held the Tigers up until the fall. Even then, except for Morris, Hernandez, Alexander, and Terrell it hasn't been too bad, except for Henneman, Gibson, King, Seacy, Tanana, Heinkel, Huismann, and Power. Did I miss anyone?

Remember at the beginning of the Spring when Hernandez and Morris were given humongous money to play this boys' game? Maybe it took away their hunger.

Remember, too, when the Tigers didn't pay Kirk Gibson humongous money. The Tigers didn't start winning in 1987 until Gibson got back in the line up, and they aren't winning now without a threat at the plate.

And, where in the world are the minor leaguers? Is there no one in Toledo or Lakeland who can hit the ball past the pitcher?

Now you know how I feel about the Tigers. You should also know that I watch them every chance I get, suffering each defeat with them, recalling Yogi's comment, "It isn't over until it's over."

And, I'm going to keep right on pulling for my Tigers.

Letters to the Editor

Where's the pride?

In regards to the article "Vandals Strike Gazebo" published in last week's edition of The Clarkston News, I am glad that measures are being taken to protect the Depot Park gazebo.

What I can't understand is why anyone would be so thoughtless as to attempt to burn it in the first place. Adding the gazebo to the park is a distinctive characteristic that makes Clarkston a unique place to live.

I am proud to be a member of the Clarkston community and cannot understand why the kids who tried to burn the gazebo wouldn't also take pride in their community.

If they did, they would try to preserve its uniqueness instead of trying to destroy it.

Eileen Keller

Village no threat

I wish to thank Independence Township Supervisor Frank Rönk for allowing me at last week's special township board meeting.

Upon reflection, however, I believe I did not sufficiently elaborate on why the township is not threatened by village cityhood and thus, why cityhood for the township need not be an automatic response.

In that regard, I would like to more clearly reiterate the following points:

1) When a community or group considers petitioning for incorporation as a city, they pose a threat to a neighboring community since they can include any area they wish in an incorporation petition.

This threat arises because cityhood is decided by an undivided vote of the majority of those residing in the area to be incorporated.

Thus, the only way for the village to avoid being absorbed as part of a larger township-wide city, since township voters outnumber those in the village by 30 to 1, is for the village to file for its own cityhood first so that its area cannot be included in any city proposed for the entire township.

2) Since the villagers have now filed incorporation petitions, which include only the area of the village itself, and such petitions must be considered prior to any subsequently filed petitions, a cityhood petition by the township itself, whether it includes or excludes the village, does nothing to further protect the township since no township property was included in the village petitions in the first place.

3) The fact that the current village government and the cityhood petitioners have no designs on the township is supported by the fact that the cityhood petitions they filed did not include any property, it would have been easy to include such land in the village petitions, thus subjecting it to cityhood by a vote largely comprised of village residents.

4) There was nonetheless discussion by some township board members that the township had to incorporate as a city now to protect itself from annexation attempts in the future by a village government which might not be as friendly as the current one. However, this assertion overlooks several fundamental facts.

First, as a village, Clarkston already has the power to seek annexation of township property if it chose to do so.

Second, unlike the village, which has no statutory protection from being annexed itself if the township became a city, the township appears to be protected by state statute from annexation by another city except in limited circumstances.

Most importantly, unlike the situation with the initial incorporation of a city, no part of a township can be annexed without a separate vote by a majority of the entire township or at least a majority of those township residents in the area to be annexed.

Thus, cityhood is necessary to protect the township from annexation by another city only if the township officials believe they cannot trust their own citizens to properly decide whether to be annexed or not.

In summary, while it appears that the township may have other factors to consider, such as the aggressiveness of the City of Auburn Hills or the desire to provide better roads and services, in deciding whether to become a city, the potential of cityhood for the Village of Clarkston does not appear to justify cityhood for the township for that reason alone.

William K. Basinger

Clarkston Village Council Member

The Clarkston News letter policy

We welcome our readers' opinions. Letters to the editor must arrive at The Clarkston News office by noon Monday to be considered for publication in Wednesday's paper. We reserve the right to edit all letters for brevity and clarity and to limit the number of letters from any one individual on any one topic. We discourage copies of letters sent elsewhere, and require all letters be signed and include a phone number and address. We may withhold names on request, but will not publish unsigned letters. Address all letters to: Letters to the Editor, The Clarkston News, 5 S. Main, Clarkston, MI 48018.

The Roads We Travel

County vs. city

Brent Bair

I, too, have been reading articles in recent issues of The Clarkston News indicating that consideration is being given to Independence Township becoming a city (also to the village becoming a city).

I'm sure there are lots of reasons for and against a township becoming a city, many more than I am aware of. One question I can address, however, is: Who is responsible for the roads when a township becomes a city?

The county road commission has one year from the date the township becomes a city to relinquish jurisdiction of any roads it chooses to the new city. The city must accept them in their existing condition.

The Oakland County Road Commission (OCRC) has generally relinquished the jurisdiction of all subdivision streets and the lesser main or mile-type roads, keeping jurisdiction of the more major primary roads that provide service to more regional travel.

For example, the OCRC would probably keep jurisdiction of Sashabaw and Clarkston roads while relinquishing jurisdiction of all subdivision streets and roads such as Cranberry Lake, Deer Lake and Pelton.

Those would become city streets with the new city responsible for maintenance and improvement. Generally, nothing changes in regard to the state highways in the community.

Although the new city would be handed the direct responsibility for most of the roads, it would also be eligible for a part of the city and village share of the Michigan Transportation Funds (state fuel tax and license plate fee revenues).

In fact, it is possible that it might receive more of those funds than the OCRC.

When Avon Township became Rochester Hills, the OCRC relinquished 180 miles of roads. The OCRC experienced an annual loss of about \$440,000 in revenues for the maintenance of the roads, while the new city, because of the way the formulas work, began receiving about \$1,250,000 a year for the very same roads.

The population factor in the city and village formula helped Rochester Hills. Independence would not see a difference that great because it has a considerably smaller population.

It is interesting to note that even with three times the money to work with, Rochester Hills found it necessary to go for a special road millage to accomplish additional road improvements. No wonder the OCRC was not able to provide the level of service they wanted.

Although the new city begins to receive funds monthly to maintain the roads, the city must immediately provide for staff and capital equipment such as snow plows and graders. That can amount to a lot of money up front.

When Pontiac Township became Auburn Hills, it chose to contract with the OCRC to continue to provide maintenance for a year or so to give Auburn Hills time to gear up to handle its system.

So what do I think would be the end result in terms of the roads if the township became a city?

We would have a higher level of service on most of our local roads, but more of our property taxes would go to roads in order to provide that higher level of service.

It is interesting how spending decisions change when there is no longer someone to point to with the statement, "That's their problem."

Brent Bair is chairman of the Independence Township Planning Commission.

Do you have a story idea?
We'd like to hear it!

One Time Ride

By Bruce A. Stewart

On a brazen sky I flew far.
Skylights of cities gone by.
Entire Worlds of life ajar.
Makeshift huts of metal and glass.
Taking nothing and leaving first class.
Bit by a cloud I fall to the ground.
Catching my balance I fight the air.
Sensing an updraft I chance the dare.
Airborne in an ambulance I scream to the heavens.
Stabbed to a stop I fall once again.
Caught by a swan in flight I gain my start.
Riding its back we climb twofold.
Hit by a condor my life seems sold.
Out of danger I find a rainbow of black.
Jumping off I slide my way back.
Touching earth I feel its grasp.
Fixed feet I made it at last.

Bruce A. Stewart resides in Independence Township.

TWO-YEAR-OLD Bobby Carter of Groveland Township doesn't care if the weather outside is bad. He has a train to ride in his living room. He "engineers" it wearing sunglasses, which only stay on upside down. (Photo by Pat Young)

Sheriff's Log

Monday, an \$8,000 car burned on Stickney Road, Independence Township. ***

Monday, an Ennismore Road, Independence Township, resident complained when his daily newspaper delivery girl dumped her extra papers in a field across from his house.

The papers would blow all over the neighborhood, and the girl wouldn't stop dumping when asked. Her supervisor told deputies the mess would be cleaned up and no more dumping would occur. ***

Wednesday, a 25-year-old Independence Township man was arrested for disorderly conduct after he apparently overdosed on drugs at Clarkston High School, Independence Township, and became belligerent to emergency workers and police. ***

Thursday, someone shot a pellet gun at a residence on North Eston, Independence Township, causing \$100 damage to a screen and window. ***

Friday, a windshield was smashed and cassette tapes stolen from a vehicle at Pine Knob Music Theatre. ***

Friday, two intoxicated men were ticketed for loitering at Kurtis Cabinets and the Liquor Cabinet Party Store, Dixie Highway, Independence Township. The men were not allowed to drive home. ***

Friday, a teen stole two 12-packs of beer worth \$22 from Quik Pik, M-15, Independence Township, after swearing at a clerk who tried to make him pay. ***

Friday, \$12.50 worth of gas was stolen from Clark Gas Station, Sashabaw Road, Independence Township. ***

Saturday, a \$90 sign was smashed at the Clarkston Learning Center, Maybee Road, Independence Township. ***

Saturday, someone pumped \$6 worth of gas into her

vehicle without paying at the Shell Gas Station, M-15, Independence Township. ***

Saturday, a \$1,100 car phone was stolen from a vehicle at M & R Drugs parking lot, Sashabaw Road, Independence Township. ***

Saturday, someone threw eggs against aluminum siding and a bay window of a residence on Settlement Square, Independence Township. ***

Sunday, five people were caught trespassing with four-wheel drive trucks on Crosby Lake Road, Springfield Township. ***

Sunday, a \$478 power mower and a \$100 weed trimmer were stolen from a residence on Oak Park, Independence Township. ***

Sunday, 25 yards of sod worth \$75 were stolen from Dixie Highway, Independence Township. ***

Sunday, a hood ornament was stolen from a Cadillac at Deer Lake Racquet Club, White Lake Road, Independence Township. ***

Sunday, a \$259 bicycle was stolen from a residence on Clintonville Road, Independence Township. ***

The above information was compiled from reports at the Oakland County Sheriff's Department.

Schools collaborate to bring back building again

BY PAT YOUNG
Clarkston News Staff Writer

For the first time in five years, a building trades program will be offered to students at Clarkston High School.

The last program offered through CHS was in 1982-83. This year, the program will be offered through the Oakland Technical Center-Northwest Campus, with classes beginning on Sept. 21.

Students from Clarkston High School, Waterford Kettering and Mott high schools, Brandon High School, Holly High School and Our Lady of the Lakes will be involved in the new program.

Bill Neff, director of administrative services for Clarkston schools, made the announcement at the Sept. 12 board of education meeting.

Neff, along with Dan Manthei, principal at the tech center, Gary Tower of Holly schools and Mike Hofer, a

local builder, were part of the committee working for several years to put the program in place. The program will be funded by Oakland Intermediate Schools.

Hofer, of Welcome Homes Inc., will be the host builder, in cooperation with the North Oakland County Builder's Association. He will provide the materials, subcontractors, plans and site in a subdivision currently in progress, Northpointe Subdivision on Clintonville Road, 1/2 mile north of Walton Boulevard in Waterford Township.

Dick Moscovic, formerly in charge of the CHS building program, will be the instructor.

A trailer/classroom will be placed on site for concurrent classroom and hands-on instruction, Manthei said.

Neff said they didn't know until Aug. 24 that the program would go. That is when Waterford, part of the quadrant, decided to go with the new program instead of its own.

This is a new program for the tech center, Manthei said in a later interview, and a shifting of programs for Waterford.

"There is a tremendous amount of interest from the business community," he said, "because there is a severe shortage of skilled tradesmen available right now."

Springfield denies rezoning

BY PAT YOUNG
Clarkston News Staff Writer

A rezoning request to turn 1 1/2-acre residential lots into 1/2-acre lots on the south side of Softwater Lake in Springfield Township was denied by the township board Sept. 8.

The rezoning request by Mark Reis involved 55 acres owned by Louis Jaenichen. Approximately 20 acres of the parcel are under water and the other 35 are usable, according to township Supervisor Collin Walls. The property sits south of Dixie Highway behind the Bavaria apartment and condominium developments.

The board voted not to publish the zoning change for second reading, thereby turning it down. Before the vote, board members expressed their concerns.

"I feel (the zoning) should more closely follow the master plan," said Trustee Glen Vermilye. "It is a section of land in a fairly active part of the township. It should be held to lower density."

Supervisor Collin Walls reiterated a comment made by a local resident at another meeting: The financial expectations of a developer should not determine the zoning.

"I think R-3 (1/2 acre) is wrong around the lake," added Treasurer Pat Kramer, echoing concerns by other board members that the density would have a negative impact on the area.

Several years ago, Reis had appeared before the Springfield Township Planning Commission with a request to rezone the property for multiples, but he withdrew that request and submitted the new request for R-3.

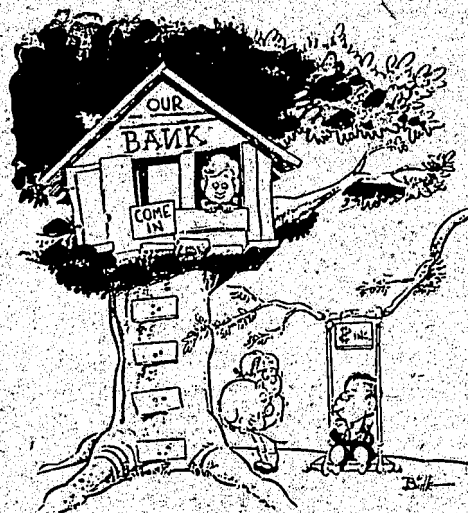

The request was recommended for approval by the planning commission before it was denied by the township board.

Formal cityhood hearing date set

BY PETER AUCHTER
Clarkston News Staff Writer

Two public hearings on Clarkston's bid for cityhood are on the way in the coming months.

The State Boundary Commission found the village's petition for cityhood legally sufficient Sept. 20 and arranged for a public hearing somewhere in Clarkston at 1:30 p.m. on Tuesday, Nov. 22.

Trustee William Basinger attended the boundary commission's meeting and was satisfied with its decision.

"It's good news for the village," he said. "But a final decision is still a long way off."

Village Hall probably won't be host to the boundary commission's hearing because of its small size. Township Hall would be a possibility, Basinger said.

After the hearing, the boundary commission has to determine if cityhood is "reasonable" in light of various legal criteria such as land use, existing development and demand for services as financed by existing and potential financial assets.

A final decision on cityhood probably will come several months after the public hearing in November, he said. Cityhood then would take effect unless 5 percent of the registered voters in the village (about 20 people) sign a petition within 45 days of the decision to force an election.

"I fully expect we will have it on the ballot," he said.

Cemetery fences cost \$39,000

Two new fences, OK'd Sept. 6, are to enclose Lakeview Cemetery on White Lake Road, Independence Township.

The township board unanimously approved the \$39,040 cost from the low bidder, Michigan Fence Co., Sterling Heights.

A chainlink fence is to be installed at the back of the property and a black aluminum fence that looks like wrought iron on the Dixie Highway and White Lake Road sides of the property.

adding that the commission will bring the election petitions to the public hearing for residents to sign.

Just about a month before the boundary commission comes to town, the village council will conduct its own public hearing on Monday, Oct. 24, before its regular meeting in a effort to inform all residents of the pros and cons of cityhood.

In addition, the village council sent letters to all registered voters in Clarkston last week informing them of the

advantages and disadvantages of cityhood. "Theoretically, this should answer all of their questions," Basinger said.

If cityhood is approved by the commission or by election, a Charter Commission would be elected by village voters to draft a city charter outlining the exact form of government village residents want.

If the commission denies cityhood, the decision can be appealed in court.

Mobile home expansion continues

BY PAT YOUNG
Clarkston News Staff Writer

Springfield Estates Mobile Home Park may expand onto another 5.5 acres if the owners are successful in getting the property rezoned.

A month ago, the park owners and the township entered into a consent judgment, a court-sanctioned agreement, to rezone 20 acres that border Oakhill Road and Holly Greenview subdivision off Holly Road.

This month, park attorney Bart Lewis was back at the board meeting to request rezoning of a smaller parcel now surrounded by the rezoned 20 acres and the existing park.

The board agreed to publish the rezoning for second reading at next month's board meeting, but in the meantime will meet with Lewis to work out details on the lot line for the rezoning.

The board preferred to go with the planning commission's recommendation to approve only 4.5 acres, making the western border even with the eastern lot lines of Holly Greenview subdivision.

The parcel under consideration for rezoning lies at the rear of a 10-acre piece of undeveloped land between the subdivision and the trailer park. The planning commission's concern was that the park would be too

close to existing houses in the subdivision.

Lewis asked the board to rezone the entire 5.5 acres because he said it would create a larger buffer zone between the subdivision and the park. He illustrated his point by showing tentative plans for the expansion.

If the smaller parcel is approved, there would be about 132 new mobile home lots in the park. There are 278 homes in the existing park.

Lewis said they would agree to adding the same restrictions of the consent judgment to the smaller parcel of land.

Under the consent judgment, the township board has authority to approve the final site plans for the park and have more control of the park density. State regulations on property zoned for mobile homes normally take that jurisdiction out of the hands of townships.

Pant scam

Man tries to deceive hardware employees with saw in pants

Observant clerks thwarted the attempt of a 31-year-old Pontiac man to steal a hand saw from a hardware store Thursday, Sept. 15, by putting the bulky object in his pants.

At about 11:26 a.m., clerks at Tru Value Hardware on M-15, Independence Township, saw a man enter the store and scurry down an aisle.

When they noticed the man fumbling with his pants and also noticed that a hand-held saw worth \$199 was missing from a display, they decided to question him on

his way out the door, according to the Oakland County Sheriff's Department (OCSD) report.

One clerk asked the man to remove the saw from his pants, which the man did, explaining: "Desperate measures for a desperate man."

Then he ran out the door before police could arrive, but deputies apprehended him the next day in Waterford Township, according to the OCSD report.

The man's name is being withheld pending charges, said OCSD Detective Steven Parker.

Clerk outlines reasons for ballot issues

BY JULIE CAMPE
Clarkston News Staff Writer

Township officials haven't yet discussed the strategy in getting voters to approve three millage proposals and a bond issue on the Nov. 8 ballot, said Clerk Richard Holman.

"We have to be very careful because we can't use public money getting people to vote yes," he said, adding he would use his free time to generate support for the issues.

Voters will be asked to renew 1.5 mills for four years to cover part of the cost of police protection; one-half mill for four years to improve the newly acquired Baycourt Camp park on Andersonville Road; one-half mill for four years to cover library operations should voters approve an addition; and a bond for up to \$2 million to build an addition to the township library on Clarkston Road.

One mill is \$1 for every \$1,000 in assessed property valuation.

The 1.5 mills that would cover part of the current police coverage costs will probably be easiest because it's a renewal, Holman said. If residents want to keep the current enforcement, they'll vote yes.

Trucks pin pedestrian

A 48-year-old Charlevoix man was seriously injured Sept. 14 when he was pinned between two semi-trucks on I-75, Independence Township.

William Russell was in stable condition Monday at Pontiac Osteopathic Hospital, said Dr. Robert Aranosian.

Russell was standing near a semi-truck in the median of I-75 near Sashabaw Road, when the driver of another semi-truck backed into him, pinning him between the two vehicles, according to the Oakland County Sheriff's Department report.

The truck driver drove away, apparently without knowing he hit the man, according to police reports.

Tougher will be the additional one-half mill for improvements to the newly acquired Baycourt Camp park on Andersonville Road.

Acting parks and recreation director Cheryl Stickley-Schreefel will be working with residents to generate support, he said, adding the park will be opened a few times for tours.

"We'd like to have people see that facility before they go to the voting booths," Holman said.

The bond issue for the library addition is an unknown cost, but it could be around one-half mill, which could also be difficult for voters to accept, he said, adding the cost "all depends on how long the bonds go out for."

Officials don't know how many years the township will have to payback the money or how much the addition will cost or what the interest rate will be, he said.

"You want something that would correspond with the useful life of the building. You want new residents who come into this community to share in this cost," he said.

For a community of this size, the library is small; residents have complained for years, and this is their chance to improve it, he said.

The one-half mill operating money would be necessary to furnish the library addition and to hire people to take care of it, he said.

He added that any help from residents on any of the issues would be appreciated.

As an example of possible costs to the taxpayer, the police millage renewal for a homeowner with a \$90,000 home, assessed at half its market value (\$45,000), would continue to cost about \$67.50 a year.

If each of the other issues were also approved, the same homeowner would pay, additionally, about \$22.50 a year for parks improvement, \$22.50 a year to pay off the library addition debt and \$22.50 a year for library operational expenses.

Helping you to cope

The stress of trying to fulfill so many demanding roles in our careers, family and community very often takes its toll. Headaches, backaches, stiff necks and indigestion have become commonplace. What we once would have considered to be an illness, we now accept as "normal."

Chiropractic is a natural healing science that allows your body to begin to function properly and express total health. By releasing impinged nerves within your spinal column, chiropractic health care allows your nervous system to function properly and your body to adapt to all the stresses and strains of your environment.

Scoreboard

Football

Junior high football

Sashabaw 55, Brandon 12

Sept. 14 -- Everybody on the Cougars' side had the opportunity to play as Sashabaw rebounded from a loss against cross-town rival Clarkston last week.

Kevin Heidisch paced the victors with 147 yards rushing and three touchdowns.

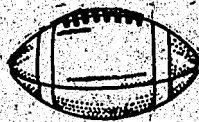

Jon Wyniemko, Mike Binkley and Brian Davis scored a touchdown apiece for Sashabaw. Davis, who rushed for 88 yards on 8 carries, returned a blocked punt for his score.

Scott Morgan and Shawn Flanigan also hit pay dirt for the victors.

Jeremy Burke, Joe Lozano and Davis all converted successful two-point attempts after touchdowns. Dan Lamroux kicked for the other extra point.

On the defensive side of the ball, Davis and Heidisch led the team with seven solo tackles apiece. Dave Hernandez made three solo tackles and Flanigan recorded a sack.

"It was a good win for us after last week," said Coach Mike Stefanski. "Hopefully we can get rolling again."

Wolverines 20, Waterford Mason 8

Sept. 14 -- Will Madison caught a touchdown pass and Dave Smith and Dan Griffiths scored on runs to lead Clarkston to its third straight victory.

Jeremy Valenzula and Craig Garnett, who intercepted a pass to finish off Mason's last scoring chance, were singled out by Coach Steve Himburg for their fine play.

The Wolverines' record is now 3-0.

Clarkston junior varsity

Wolves 14, Waterford Mott 6

Sept. 15 -- Two interceptions by junior John Terpstra, including one for a 54-yard touchdown return, sparked host Clarkston to a narrow victory over Waterford Mott.

Terpstra made his second theft of the evening late in the first quarter and returned it to put Clarkston out in front, 6-0, with 2:17 left in the opening quarter. David Marks kicked the point-after attempt.

Mike Stanton recovered a Mott fumble in the second quarter, but the offense couldn't capitalize.

The second half started out terribly for the Wolves when Mott returned a fumble off the kickoff for a touchdown. The extra-point attempt failed and Clarkston led, 7-6.

Quarterback Jimmy Jenkinson capped an 8 minute, 30 second drive with a 1-yard plunge for the final points in the game. Marks made the kick-after again.

Michael Moller made an interception for Clarkston late in the game to seal the victory.

Eric Hund rushed for 107 yards on 17 carries behind the good blocking of Joel Davis and Matt Howe, said Coach John Craven.

Terpstra topped the team in tackles with 5 1/2. Moller added 4 1/2 tackles. Stanton also played tough defense, the coaches said.

The victory was the 10th straight for the junior varsity team, dating back to the second game of last season.

Clarkston Chiefs freshman

Chiefs 12, Pontiac Panthers 6

Sept. 18 -- Everett Morris scored both touchdowns for the victors including one late in the game off a fake punt play.

Clarkston faced a 4th-and-14 situation late in the game with the score tied at 6-6 when Morris broke free for a 60-yard run and the winning touchdown.

"It was a good defensive game," said Coach Rod Hool. "Nobody on either team could move the ball."

Outstanding defensive players for the Chiefs included Casey McClorey, John Hodges, Chad Buff and Dave Brown.

The victory evened the team's record at 1-1. Both the junior varsity and varsity football games were called off Sunday due to lightning in the area. The games will be rescheduled at a later date.

Soccer

Springfield Christian varsity

Eagles 2, Oakland Christian 1

Sept. 12 -- Dave Marsh and Chad Hine scored goals for the winning team. The victory ups Springfield's record to 5-2.

Greenhills 3, Eagles 2

Sept. 16 -- A late goal in the second half sent the host Springfield Christian club down to defeat for the second straight time last week.

Junior varsity soccer

Wolves 7, Springfield Christian 1

Sept. 13 -- The visiting Wolves routed SCA as Jeremy Deloney kicked in four goals.

Wolves 3, Valley Grand Blanc 2

Sept. 15 -- Chris Weichle scored twice and Deloney added one goal for the Wolves as they slipped past their hosts.

Grand Blanc 3, Wolves 1

Sept. 16 -- Devin Dupree put Clarkston on the board late in the game, scoring with 1:03 left, but it wasn't enough for the hosts.

The game was scoreless at halftime, but three straight goals by Valley Grand Blanc midway through the second half busted the game wide open.

Clarkston High varsity

Waterford Kettering 1, Wolves 0

Sept. 16 -- A penalty kick midway through the first half helped Greater Oakland Activities League rival Kettering top the host Wolves.

The loss drops the team's record to 1-3 overall and 0-1 in league play.

Basketball

Clarkston High varsity

Wolves 40, Milford 36

Sept. 13 -- Susan McKoin scored 16 points and pulled down 12 rebounds to lead the visiting Clarkston Wolves to victory. Rhonda Jokisch added seven points and 10 boards.

The team limited the high-scoring Lori Montante to 25 points, just six in the first half, and played excellent defensively, said Coach Larry Mahrie.

"The key was we played a tough box-and-one on her," he said. "It was a good game for us."

Flint Northwest 83, Wolves 36

Sept. 15 -- McKoin scored 11 points and grabbed nine rebounds in a losing cause for the Wolves against powerhouse Flint.

Clarkston High junior varsity

Wolves 45, Milford 16

Sept. 13 -- Shannon Duby scored a team-high 12 points coming off the bench and Jenny Graham added nine more for the victorious Wolves.

Flint Northwest 50, Wolves 26

Sept. 15 -- Graham was the leading scorer for the visiting Clarkston team with nine points. Flint led 33-19 after three quarters of play.

The loss drops the team's record to 4-2. So far the club has performed satisfactorily for new Coach Debbie Wilson.

"They are improving a lot," she said.

Netters top Pontiac Northern

BY PETER AUCHTER
Clarkston News Staff Writer

Despite losing several top-notch players to graduation, the girls tennis team still manages to keep its head above water.

Its most recent victory was a 6-1 pasting of Pontiac Northern on the road Sept. 14.

"I think this has been a good season so far," said team member Kelly Jones. Debbie Bellows beat Julie Wilk, 6-1, 6-0; Katie Rieman defeated Malaika Griffin, 4-6, 6-0, 6-3; and Nancy Carosella stopped Cindy Bui, 7-5, 8-6, in singles play.

The doubles team of Marla Rieman and Jenny Brown won, 6-3, 6-4, and the combinations of Kathy Krier and Claire Hullenza and Jones and Heather Shaw won by default.

The win upped the team's early season record to 2-1. While the players admit their inexperience will hurt when they face top teams around the state, competing in the Greater Oakland Activities League isn't out of the question.

"Our main problem is that we don't have experience," said Jones. "But as long as we beat the GOAL teams, we will be all right."

On Saturday, Clarkston participated in a four-team tournament at Rochester High. The other two schools were Southfield Lathrup and Utica Eisenhower.

Caroline Allison won, 6-0, 6-1, for the Wolves as did Katie Rieman and Shaw.

Wolves slip past Corsairs on gridiron

BY PETER AUCHTER
Clarkston News Staff Writer

The varsity football team was determined not to lose its first league game in three seasons. And thanks to a couple of lucky breaks, the Wolves didn't.

Two disappointing losses to non-league Grand Blanc and Saginaw Heritage didn't affect the way the defending Greater Oakland Activities League champs played. In fact, it may have provided the needed incentive.

"I think that we were pumped up coming in," said Brett Kinzler, who scored the winning touchdown off a 80-yard kickoff return to open the second half.

Waterford Mott valiantly tried to break the Wolves' GOAL win streak but failed by a point in a 15-14 loss.

Neither team played especially well Friday night at the Waterford Community Center, but the end result put a smile on Coach Kurt Richardson's face.

"A 'W' is a 'W'," he said. "The kids came out with a great attitude. They are great kids."

In the first half, senior Scott Oppman and freshman Dugan Fife played musical chairs in the quarterback slot for the Wolves.

Oppman engineered the team's only offensive scoring drive. Fife led Clarkston through most of the second half -- including all of the fourth quarter.

Mott's defenders cheerfully greeted the freshman quarterback by sacking him the first time he tried to pass. One play later, though, he completed a 9-yard pass to John King.

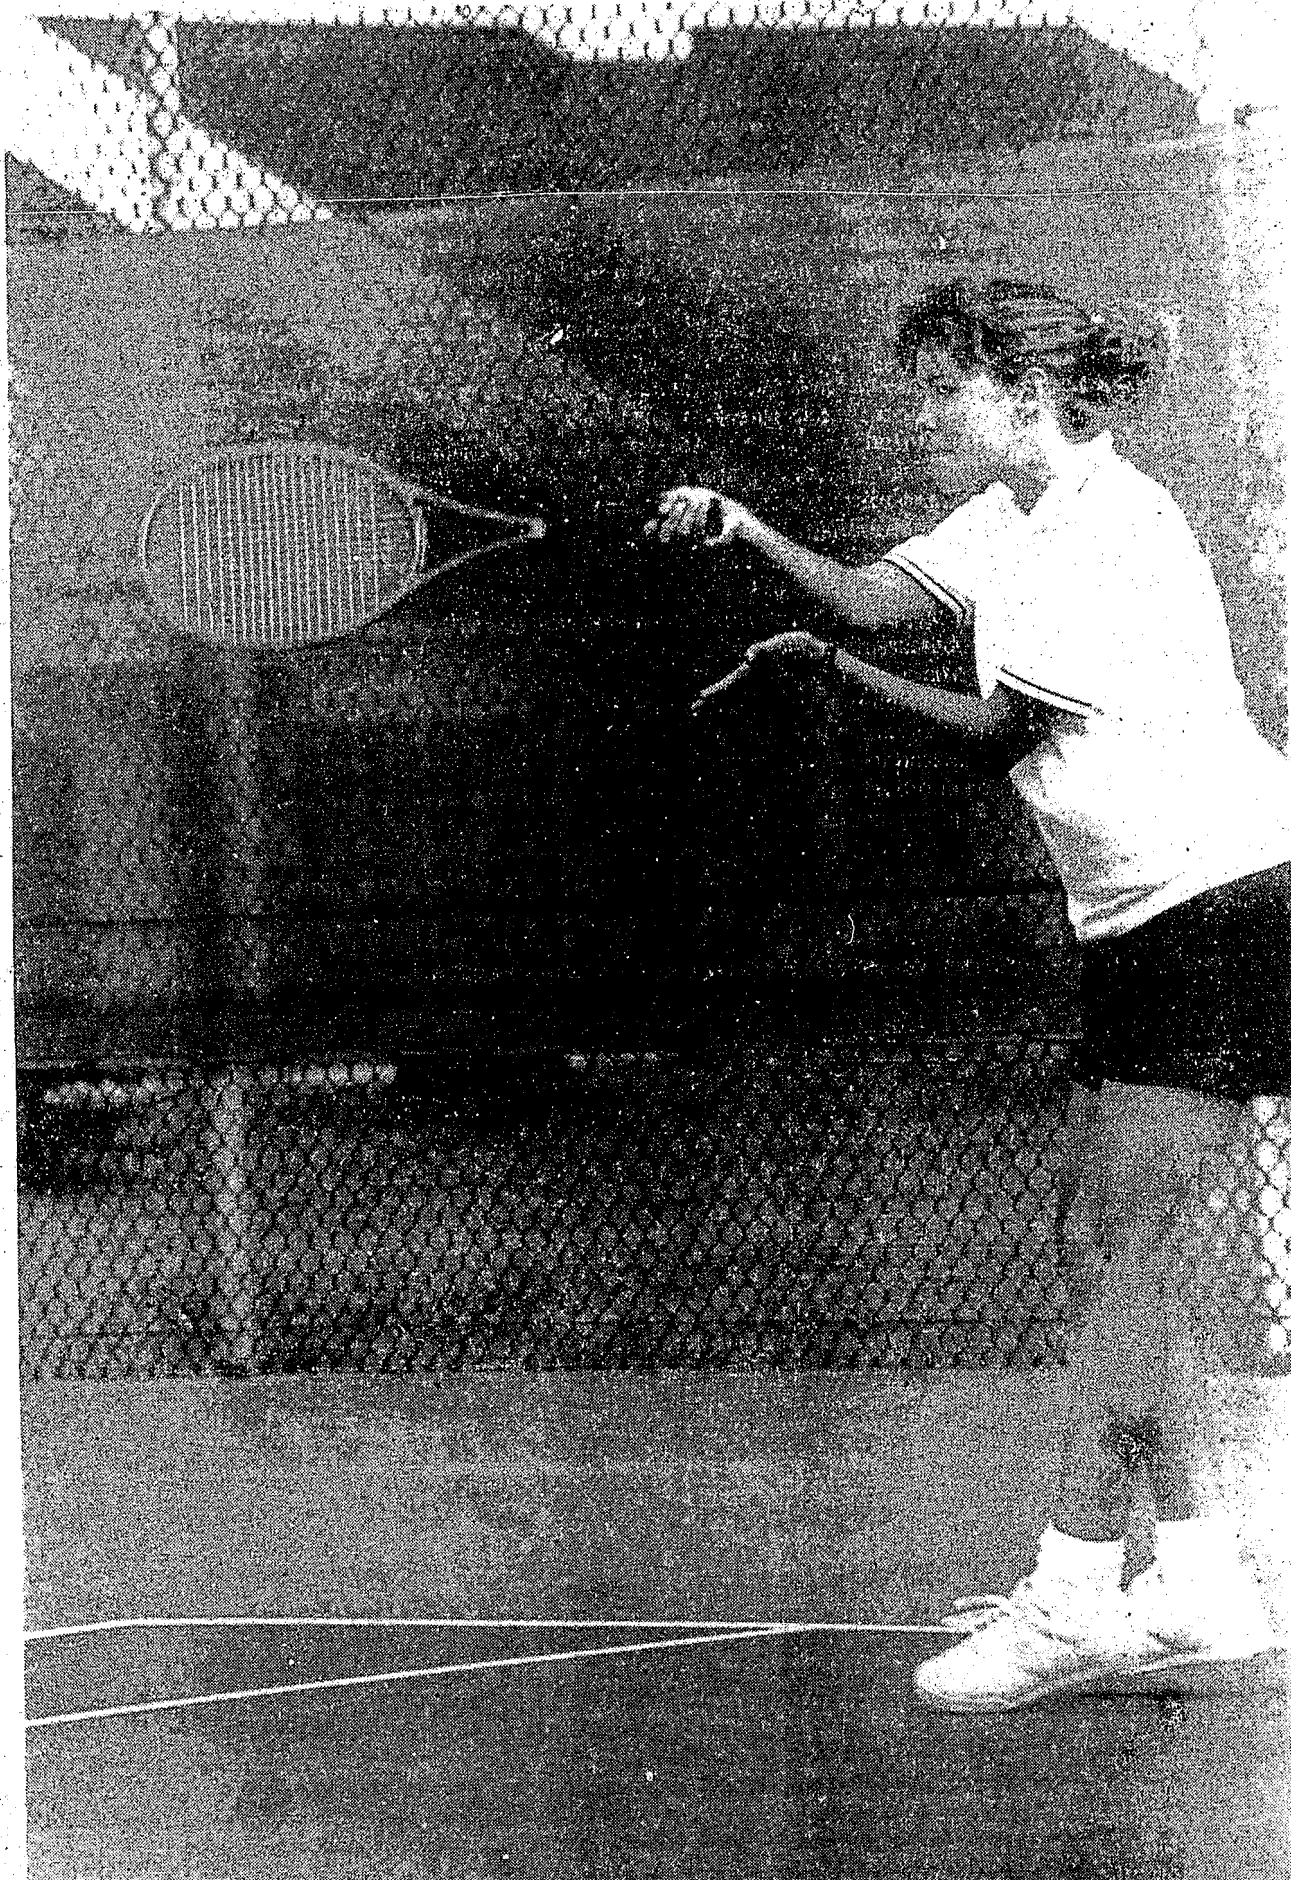

"He showed great composure," the coach said.

Although nervous, the new team leader also was pleased with his first effort at the varsity level.

"I just didn't want to make a mistake," Fife said. "I guess I did all right."

Clarkston gambled on its first possession in the game by going for a first down off a 4th-and-1 play. When the quest failed, Mott had the ball on the Wolves' 25-yard line.

(See KICKOFF, Page 19)

CAROLINE ALLISON was one of the few bright spots for Clarkston's tennis team during a four-team tournament Saturday morning at Rochester High School.

Gyms to open for public use

For a nominal fee, area basketball buffs can exercise during the evening hours in Clarkston schools' gymnasiums.

Gyms at Clarkston High School, Pine Knob, Andersonville, North Sashabaw and Clarkston elementary schools are available for \$1 per person on various days of the week.

Beginning on Sept. 27, Pine Knob will be open to the public from 7 to 10 p.m. on Tuesdays.

Clarkston High will open its doors on Sept. 21 from 7 to 10 p.m. and every Wednesday thereafter. Andersonville also will conduct open gym sessions on Wednesdays, but its starting time is at 8:15 p.m.

Starting on Sept. 22, Clarkston Elementary (6 to 10 p.m.) and North Sashabaw (7 to 10 p.m.) will be open.

Those interesting in using the facilities, mainly for basketball, should call Independence Parks and Recreation Department at 625-8223 on the day they will attend to make sure the gym is still available.

Time out

All wet

Peter Auchter

Not even a torrential downpour during halftime could put a damper on the varsity football team's first victory of the season.

Cheers from the pom-pom and cheerleading squads greeted the team in the parking lot at Clarkston High when the buses rolled in from Waterford after the Wolves escaped with a 15-14 victory over the Corsairs. The conquering heroes were welcomed home with open arms. What a sight for sore eyes!

After it was all said and done, I was glad I stuck it out through thick and thin despite the rainy weather. It was a great game. I just felt sorry for the Waterford Mott marching band. Why did it have to rain on their parade?

The first half of the game went by without much fanfare or nasty weather for that matter. Then comes the popular halftime show and the sky opens up and lets loose with an awesome power shower. Within minutes I was soaked from head to toe and everywhere in between. But the band played on.

After about 10 minutes of standing underneath an umbrella-for-one with two other guys on the sidelines, the rains ceased. I was seriously

contemplating calling it a night.

But I changed my mind when the players raced back on the field for another half of football. I figured if they didn't mind the rain why should I? After all, I was as wet as humanly possible anyway so why not stay? What's the worst that could happen outside of a bad cold?

The rains began again after Brett Kinzler's electrifying runback of a kickoff to start the second half. I raced back to the umbrella man. Yes, folks this is real football weather. Yes, folks once again this guy went unprepared to the game.

Maybe it's some kind of sophomore jinx, but my second season of covering Clarkston football isn't going so great. First the team loses two tough games and now weathers a severe halftime/early third quarter storm.

My first season went as smooth as a baby's behind. No major weather problems, no losses in games I covered. Things couldn't get any better than that. I guess I was in for a letdown this season.

I hope with all my might I've experienced the worst the season has to offer. I don't think I could handle much more, both in the loss column or in the weather department.

First victory

After a winless 1987, every league victory is meaningful for the boys cross country team.

The Wolves picked up that elusive first win in their first try this season at Pontiac Northern. Clarkston won, 20-39.

Jason Wenger topped the club with a time of 18 minutes, 20 seconds. Paul Brisson was next with a clocking of 18:55. Northern took third place and Tom Holliday finished fourth at 20 minutes flat.

Rick Beardsley (20:05) and Mark Leineke (20:44) also ran well for the victors.

"I'm really pleased," said Coach Michael Taylor. "It's the first time we have beaten them in three of four years."

Against Brighton on Sept. 15, the boys lost, 18-44. Wenger again was the best runner on the team with a time of 17:38.

On Saturday at the Holly Invitational, the Wolves finished 17th in a field of 21 teams.

Wenger was the only one to win a medal for Clarkston, taking 25th place.

Kickoff return sparks first victory for Wolves

(KICKOFF, from Page 17)

The Wolves' defense stiffened and shut down the Corsairs. Clarkston escaped its first mistake when Mott missed a 34-yard field goal attempt.

In the second quarter, Oppman led the Wolves on a 58-yard scoring drive. He capped the march down the field with a 1-yard plunge. A 16-yard pass play from Oppman to Matt Misiak highlighted the drive.

The kick for the extra point went wide, but Mott was flagged for a penalty to provide the Wolves with a second chance. Brett Kinzler capitalized on the Corsairs' mistake by scoring the two-point conversion for an 8-0 lead with 20 seconds left in the half.

Clarkston then gambled a bit and went for an on-side kick. Darrin Brandt scooped up the loose ball and cradled it on Mott's 37-yard line. The Wolves got as far as the 28-yard line before time ran out.

After a torrential downpour during halftime, the rains stopped when the players headed out of the locker room for the start of the second half.

Kinzler, along with a few helpful teammates, ripped off his 80-yard jaunt down the field to break Mott's back.

"A nice block from (Kevin) Keilitz opened it up for me," Kinzler said of his game-winning play.

From that point forward, it was all downhill for the Corsairs.

"The kickoff (return) set the pace for the second half," Richardson said.

The only other points scored in the game came off a trick play by Mott with a little more than three minutes to play. The Corsairs lined up to kick the extra-point attempt to tie the score but a high snap forced the holder to scramble to his right and throw an incomplete pass into the end zone.

Mott got the ball back one more time, but failed to move it near the end zone.

Marc Pierson, who threw many good blocks, and King, who ran the ball effectively on a time-consuming drive in the second half, were singled out for their fine play by Richardson.

Booster club to meet

The Clarkston Athletic Boosters will conduct their next meeting in the high school's media center next week. The meeting is set for 7:30 p.m. Wednesday, Sept. 28.

The Punt, Pass and Kick competition will be hosted at Carl Shell Park this year by Independence and Waterford recreation departments.

PPK is free and open to boys and girls ages 8-13 (as of Nov. 1, 1988). The event is scheduled for Monday, Sept. 26, beginning at 7 p.m. with the 8, 9 and 10-year olds and followed by the other competitors at 7:45 p.m.

On-site registration begins at 6:30 p.m. No football shoes are allowed, only gym shoes.

Contact Independence parks and rec at 625-8223 or Waterford at 623-0900 for further information. The park is located on Dixie Highway just north of Sashabaw intersection.

Golf team rolls to victory

Starting where they left off, the varsity golf team hasn't missed a beat despite losing several key players to graduation.

The team's latest conquest was GOAL rival Waterford Kettering, which fell, 163-166, on Friday afternoon.

Top golfers were Rob Wilson who shot a 38, Eric Brockman and Bill Larkin with 41s, and Dan Scribner at 43 for the Wolves. The team now owns a sparkling 5-1 record.

"We're off to a good start," said Coach Jim Chamberlain. "This was supposed to be a rebuilding year but we've gotten a few breaks."

Earlier last week the Wolves defeated host Lakeland, 165-180, on Sept. 12.

Brockman and Scribner paced the team by shooting 40s, Dave Coin was next at 42. Rob Wilson chipped in with a 43. The following day, Clarkston hosted GOAL opponent Pontiac Northern.

The Wolves routed the Huskies, 161-187, with Brockman's 37 leading the way. Wilson and Steve Brown shot 41s and Scribner added a 42 to the winning cause.

While the team is off to a good start, Chamberlain isn't expecting a miracle finish from the Wolves.

"We still have the hard part of the schedule ahead of us," he said.

The Wolves face Brandon on the road Sept. 22 and then host Milford the next day. The team will participate in the Oakland County meet Monday.

Prep Profile: Kim K. Morris

Kim K. Morris is a senior at Clarkston High School and plays on the girls varsity tennis team.

Born: Dec. 15, 1970.

Nickname: Pam.

Favorite sport: Tennis.

Favorite TV show: "Thirtysomething."

Favorite movie: "Ferris Bueller's Day Off."

Favorite music: All kinds.

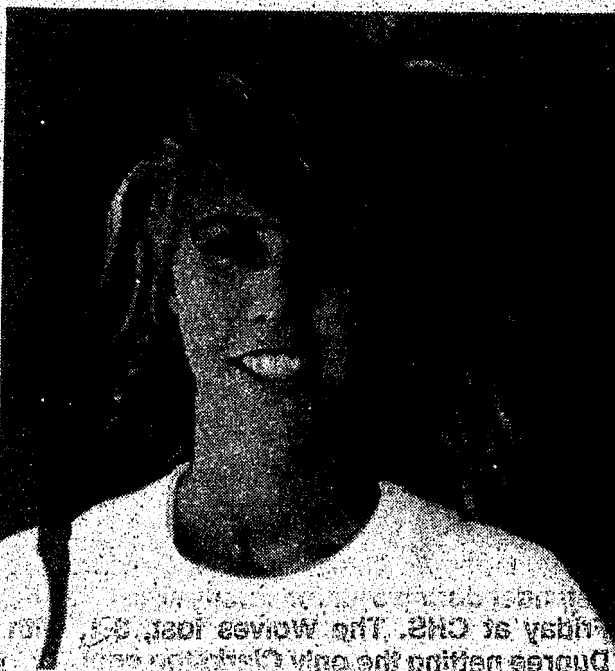

Idol: Gabriela Sabatini.

Goal in life: To be successful.

Most embarrassing moment: While playing softball in ninth-grade gym, she ran to the pitcher's mound instead of first base after a hit.

If she could change one thing about herself, she would be: More confident.

Biggest thrill: Being featured in Prep Profile.

KIM K. MORRIS probably should stick to playing tennis and stay off the softball diamond.

Bus driver travels to Seoul as boxing judge

BY PETER AUCHTER
Clarkston News Staff Writer

Venues as close as the Palace of Auburn Hills and as far as Seoul, South Korea, have become the after-hours workplace for a moonlighting Clarkston school district bus driver.

As the first female to earn a license to judge professional boxing matches in Michigan, Rose Grable of Oak Park Drive, Independence Township, has been fortunate enough to be selected by the World Boxing Association (WBA) for fights across the nation and the world.

Her latest assignment took her to Seoul the last

DEVIN DUPREE chases down a Grand Blanc defender during a junior varsity soccer game Friday at CHS. The Wolves lost, 3-1, with Dupree netting the only Clarkston goal.

week in August to judge a flyweight championship. Not counting the flight -- she had to change planes five times each way -- the experience was worthwhile.

"It was terrible for someone like me who is so scared to fly," she said, adding that finding each plane in the airports also proved difficult. "It seems like all I did was walk."

She enjoyed her week-long stay in Seoul, hitting the various downtown shops for all kinds of low-priced bargains such as hand-made suits for \$60 or a silk shirt for \$10.

"You could spend a million dollars. It was unreal," she said of the wonderful bargains.

She was pleasantly surprised that she didn't see any of the street violence shown almost daily on the network news programs.

Grable first became involved in boxing through her family's association with the ancient sport. Her husband is a trainer as well as a referee. Her sons have boxed and one foster son is currently boxing in the United States Marine Corps.

About 15 years ago, the mother of eight began her career judging amateur fights. The constant traveling wore her down after five years, so she switched to professional boxing.

Some of the notable boxers she has judged include pros Thomas "Hit Man" Hearns, Milton McCrory and George Foreman, who recently fought at the Palace of Auburn Hills.

On top of her bus driving duties and judging, she also has been a boxing commissioner for the state of Michigan during the past four years. The nine-member board meets monthly to regulate the sport and set rules boxers, promoters and all others involved must follow.

For the past 14 years she has managed to squeeze her judging around her fall-through-spring job with the school district. But when conflicts occur, her boss, Kevin Bickerstaff, has always worked something out.

"The school has been really good to allow me the time off," she said.

The WBA selects judges from a large pool of

licensed applicants across the country, provides them with an expenses-paid trip to their destination and pays them for their services. Good judges can expect to get picked for duty about once every six months, she said.

When she first tossed her hat into the ring, so to speak, Grable didn't expect to venture past Las Vegas or Atlantic City for her boxing duties. But now that she has gone to South Korea, she's set her sights on a special far-away destination.

"I'm hoping for a trip to Ireland," she said. "That's where my roots are."

ROSE GRABLE of Independence Township hopes a trip to Ireland lies in her future as a judge for professional boxers.

Sweet sweep

Sweeping the first five places, the girls cross country team wiped out a Greater Oakland Activities League rival last week to start the dual meet season on a high note.

Lisa Palazzola (21:43), Sonya Schaffer (21:47), Nicole Chinavare (23:03), Emily Winfield (24:12) and Bree Michelsen (26:04) all performed well against the Pontiac Northern Huskies.

"We looked good," said Coach Michael Taylor. "They had a full team, too. That was nice to see."

Then the Wolves visited Brighton to face one of the toughest teams in the state, the coach said.

Schaffer, with a time of 20:46, finished highest for Clarkston. She wound up in fourth place. Other finishers included Palazzola (6th), Chinavare (8th), Winfield (13th) and Michelsen (16th) for the Wolves, who lost the meet, 18-41.

Running against 11 other teams in the Holly Invitational Saturday morning, the girls team finished in seventh place with 197 points.

Schaffer, 15th place, Palazzola, 21st, and Chinavare, 22nd, all performed well for the Wolves.

Taylor was especially pleased to note the progress Chinavare has made.

"She has done a real good job," he said. "She's done just what she had to."

Clarkston's first home meet of the season takes place Sept. 27 against Waterford Mott.

Asphalt plans raise questions

BY JULIE CAMPE
Clarkston News Staff Writer

Michael Hofer's 38-lot Waldon Woods subdivision received another OK Sept. 6, but one more approval is necessary before construction can begin.

Before voting unanimously in favor of the tentative preliminary plat on Waldon Road, Independence Township Board members voiced concerns about an asphalt path for school children.

A tentative preliminary plat shows the subdivision layout, including lot sizes, lot configuration, streets, and water and sewer plans.

A dirt path to Middle Lake Road, which leads to Clarkston Elementary School, already exists on the

wooded 18 acres south of Waldon Road between Snowapple and Eastlawn roads.

Hofer said he included the asphalt path along the same route to satisfy the concerns of nearby residents, who did not want their school children to walk along the safety path on busy Waldon Road.

Trustee Dale Stuart said the easement could cause problems for the abutting property owners, such as the problems created from teens congregating on a similar easement in the Deerwood subdivision.

He suggested densely landscaping or fencing around the path to lessen the impact on the adjoining property.

Supervisor Frank Ronk recommended using concrete instead of asphalt to reduce the maintenance problems.

Hofer agreed to the suggestions.

Otherwise, the board voiced approval of the plan for the property zoned single family residential.

Township planning consultant Richard Carlisle commented on the difficulties of the site, which has been four years in the development stages.

"It was satdwiched between two subdivisions and has remained undeveloped for years," Carlisle said. "Given the nature of the property, this is a pretty good plan."

The plat includes a Waldon Road access and a connection to Cramlane.

13-lot subdivision is ready for construction

With little discussion, the 13-lot Independence Valley subdivision on Pine Knob Road received the final OK Sept. 6 from the Independence Township Board.

Dr. John Ylvisaker, a Bloomfield Hills developer, may pull building permits any time to start construction.

Trustee Carol Balzarini cast the only vote against the project and added that local real estate people should be informed of the deed, which restricts the overnight mooring of boats on Round Lake.

In previous meetings, Balzarini objected to the subdivision because the temporary 1,700-foot cul-de-sac is longer than usual township standards.

The board approval included provisions for cul-de-sac maintenance and for the extension of the road if further phases of the project are not completed in 10 years.

Ylvisaker plans two additional phases for a total of 51 lots on the 140 acres east of Pine Knob Road near Sashabaw Road. The board must approve each additional phase.

Paving aid provided

Most of the residents of Clarridge Road in Springfield Township will have a paved road to travel next year, possibly as early as next spring.

The Springfield Township Board agreed to contribute approximately 7 percent of the cost of the paving from the blacktop at Davisburg Road to Cherrywood. Beyond that, not enough residents signed a petition to have the majority needed for approval of a special assessment.

Paving costs for the gravel road are estimated at \$68,000. The township's contribution would amount to \$5,100, which will be included in the 1989 budget.

EXAMINING A HAND-CRAFTED BASKET at Clarkston's Craft and Cider Festival Sept. 17-18 is Joann Seidel of Royal Oak.

Lawsuit ends with cash settlement

BY JULIE CAMPE
Clarkston News Staff Writer

A \$15,000 settlement Sept. 1 resolved a lawsuit against the Spinal Column Newsweekly and Chilton Credit Reporting Service by former Independence Township resident Thomas H. Ritter.

Ritter filed the lawsuit after losing the race for U.S. Representative to Bob Carr.

After about two years of negotiations, all parties agreed to the mediator's decision, which required the Spinal Column to pay \$10,000 for misusing credit information and damaging Ritter's reputation and required the Southfield Credit Reporting Service to pay \$5,000 for failure to assure maximum possible accuracy of information furnished.

David Hohendorf, editor and associate publisher of the Waterford-based Spinal Column, said the paper's only mistake was using the credit information to verify an attorney's statement about Ritter.

"We feel we served the voters well in that district who chose, logically, not to send this man to Congress," said Hohendorf. "Had we \$10,000 to \$20,000 to fight this, I think we could have won this on principle."

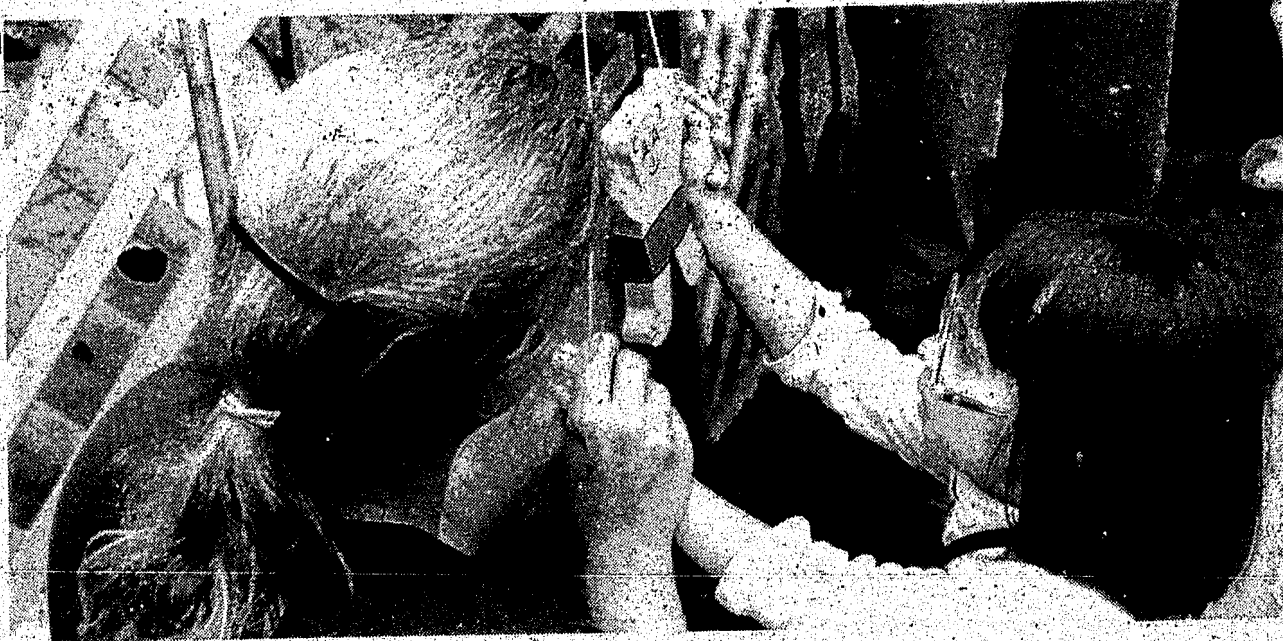

Hohendorf added that the newspaper report had little to do with Ritter's loss in the 1984 election. More damaging were reports that Ritter, who campaigned on strong federal enforcement of child support, was late in child support payments.

Ritter said he also disagreed with the way the Spinal Column handled the child support issue.

"In this particular suit, the child support wasn't the issue," said Ritter. "If we had gone to court, it would have become a part of it."

Ritter was satisfied with the results, he said. "I'm pleased, relieved and also feel that I've been somewhat vindicated," he said. "The money wasn't the issue. The issue was that they printed false and incorrect information."

Ritter, 45, now resides in Farmington Hills.

PAULA PORTER, 4, formerly of Clarkston and now a Bloomfield Hills resident, is taken with a wooden toy at the Applecraft booth

during the Craft and Cider Festival. Craftsper-son Kathy Clawson shows her how to work the toy.

School board OKs 4 group contract

Four employee contracts were ratified Sept. 12 by the Clarkston Board of Education.

The one-year contracts involve 69 non-teaching staff members and are retroactive to July 1, 1988. The agreements are as follows:

Office Personnel Association, with 24 employees spread throughout the district in all school buildings, received a wage increase of 5.1 percent. The contract sets a starting salary of \$295 a week to \$395 in four years.

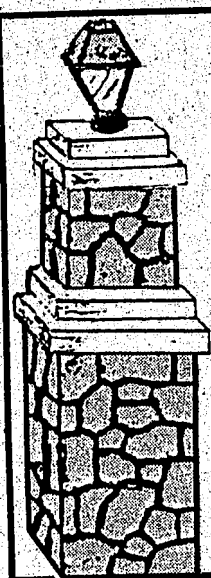

Special Education and Media Paraprofessional Association, with 21 employees affected (13 are special education and eight are media), received a wage increase of 5 percent. Starting salary is now \$6.11 per hour and reaches \$7.29 after three years.

Building Aides, with 10 employees affected (two in each elementary building), received a 5 percent raise.

Salaries will begin at \$5.40 per hour and reach \$6.17. Paraprofessionals Technical Center, with 14 employees affected, received a 5 percent wage increase. Starting salaries will be \$5.87 per hour and after six years will be \$9.84.

Conrad Bruce, director of personnel services for Clarkston schools, presented the contracts to the board. He said current negotiations also involve three additional employee groups, the cafeteria association, cafeteria managers and central office secretaries.

Special meeting on cityhood called by township

(SPECIAL, from Page 1)

would lose their rights in township affairs if cityhood became a reality.

"Now we have a voice in township government," he said. "If we have a problem we can vote on it. Once we become a city, we will have no say on what happens in the township."

Supervisor Frank Ronk, also a village resident, agreed with Secatch.

"I've been here forever, and I like having say-so in the village and township both," he said.

If the village becomes a city, village residents could no longer serve on township boards or commissions, so Ronk would have to resign as would several others.

All township-owned property within the village limits would be jointly owned between the new city and the township, so township offices would not have to move, nor would the fire department, which owns the station on Church Street and a vacant lot on Waldon Road and Main Street.

Basinger said the village would be willing to deed the township's property to the township, so the township could own the land outright.

"We would welcome the township hall staying where it is and continuing the relationships," said Basinger. "We would continue contracting on a friendly basis so the money loss would come right back to you."

Basinger added that the village was not interested in any township property and would not want to annex more property in the future.

"All we're seeking is to control our own destiny," he said.

Township cityhood would not benefit the village because a village resident's voice would change from one in 400 registered village voters to one in 1,400 registered township voters.

While land would be jointly owned if the village became a city, 4.49 percent of township assets in village

city limits would convert to village ownership.

"We're really not stealing anything," said Basinger. "We don't intend to hold anybody up. We just intend to do our own thing in the village."

Basinger also said the village plans to contract with the township for most services, such as fire, parks and recreation, library, assessing and building department.

"There are many services we would have to buy, and we would fully expect to pay for them," he said, adding that the village planned to hire a full-time manager.

Overall, village cityhood could be good for both bodies, said Basinger. Most communities with dual taxation and voting have a lot of problems.

"If we were separate entities, we might have less friction than we do now," he said.

Millard explained that village residents filed a petition for cityhood last spring after hearing a rumor that the township was planning to file.

"This was strictly a defensive move," Millard said, adding cityhood had been discussed in past years by the township, as well as by the village.

If the Michigan Boundary Commission accepts the petitions requesting cityhood Sept. 20, then a public hearing would be scheduled by Dec. 15.

After the hearing, the boundary commission would decide to grant, deny or revise cityhood. If the commission approves, the decision

would become final in 45 days unless the village residents request a vote. Then, the majority of registered voters would decide on cityhood. If the boundary commission denies cityhood, village residents could only appeal in court.

The entire process could take as long as four or five years.

Township attorney Gerald Fisher said township opinion would only be one factor when the boundary commission decides the fate of village cityhood.

"This commission has, in many respects, God-like

authority," he said. "They have a great deal of latitude and deference. ... We should not feel iron-clad strength in the charter township veil."

Whatever the outcome, the discussion is good for the township, he added.

"If nothing else, this has opened up our eyes that this could happen," he said. "Once all the facts are out, ... it may be the township has no objections at all to what the village is proposing."

Trash problems

Overflowing trash bins behind Main Street will soon undergo inspection from the health department in an effort to force business owners to keep the alley clean.

The village council instructed Trustee Frank Millard during its regular meeting of Sept. 12 to contact the health department and ask for a check of violations.

Village trustees agreed something needed to be done to prevent the situation from getting worse.

"We need to get the trash cleaned up," said Trustee Douglas Roeser. "This is a trashland."

Different ways of cleaning up the alley behind the east side of Main Street were discussed. Such things as moving the trash bins, adding lids or building a barrier around them and emptying the cans more often were discussed.

The council finally decided asking the health department would be the smartest move.

"That's a step in the right direction," said village marshal Charles Smalley. "This is something that comes up on a yearly basis. Maybe this (the health department inspection) will throw a little weight behind it."

Millard agreed: "There may be some health hazards. I'd like to see the fire department inspect it. There is a lot of paper trash."

97-year-old shares farmhouse memories

BY PAT YOUNG
Clarkston News Staff Writer

Some people may have seen the old abandoned farmhouse on Reese Road that burned down Sept. 2 as an aging eyesore, a place where teens gathered for no good.

But Bill Sutton remembers the Independence Township house as a grand home, the "high spot of the neighborhood" he lived in 70 years ago.

Sutton, who will be 97 years old in December, has lived in the area since 1917. Retired after 50 years of farming and 23 years of operating a gas station, he resides in an apartment near downtown Ortonville.

"(The Reese home) must have been a beautiful home when it was new. It had hardwood, big rooms, two stories. It was one of the grand old houses -- build big and built good."

"When you sit around and don't have that much to do, you think back to other times," he says, with a smile on a face it's hard to believe has been around nearly a century.

Sutton lived in the Lake Orion area from 1908 until 1914 when he moved to Pontiac with his family. In 1917 he moved to Reese Road in Brandon Township, one-half mile north of Oakhill Road, with his bride of two years, the late Ruth (Hemingway) Sutton.

"Her relatives were pioneers of the Lake Orion

BILL SUTTON has vivid memories of the old Reese home that burned down in Independence Township on Sept. 2. Sutton, who will be

97 in December, is a member of the Ortonville Historical Society and Mt. Bethel United Methodist Church in Groveland Township.

Kids can meet Smokey the Bear

Through Smokey the Bear, children can learn about trees, animals and how to prevent forest fires.

A free "Meet Smokey the Bear" program Sunday, Sept. 25, will be presented at Indian Springs Metropark on White Lake Road in Springfield and White Lake townships.

"Smokey is a good way to impress upon children the importance of trees and the dangers of fire," said Fay Stoner, a park naturalist hosting the event with her colleague Mike Broughton.

Beginning at 1 p.m. in the nature center, the program includes a hike and the identification of trees and animals, a film that tells how the real Smokey the Bear was found by forest rangers in California and an appearance by Smokey himself to discuss forest fire prevention. Coloring pages will be given to the children to take home.

"When we were younger, we knew about Smokey the Bear, but children today don't really know about him," Stoner said. "We wanted to introduce him."

Pre-registration is required. To register or for more information call, 1-800-247-2757. Admission to the park is free.

area," Sutton says. "In fact one of the first Hemingways built the dam that made Lake Orion."

The Suttons moved several times, eventually purchasing a home on Mill Street in Ortonville. They raised three sons and a daughter. Ronald lives in Ortonville, Orra lives east of Goodrich, Bob lives in Florida and Maurine Scramlin lives on the Scramlin Farm at Oakhill and Jossman roads in Groveland Township.

Two of Sutton's grandchildren, Marvin and L.C. Scramlin, still farm there. He has 10 other grandchildren and 23 great-grandchildren.

But it is the time when Sutton lived near Reese and Oakhill roads for a number of years that brings back memories of the Reese Road farmhouse, the one that disappeared in flames nearly three weeks ago.

Sutton says it was already an old home when he moved to the area in 1917. The Clarkston Community Historical Society book, "Heritage," has a plate of the old home on Page 31, identifying it originally as the residence of John and David Reese. Sutton remembers an event that would confirm this.

"One Sunday our family was just sitting out on the front porch of the old farmhouse, and a lady drove up, identifying herself as Mrs. Reese," Sutton recalls. She asked them about the old house down the way on Reese Road, saying that it was her old home. She told them the road was named after her family.

A family by the name of Miller lived in the home when Sutton first moved to the area, a doctor and his family, "a big family with lots of kids," Sutton says.

They sold the home to the Herbert Baines family, Sutton recalls. The Baines family owned land on both sides of Reese Road and sold some property on the east side of the road to the Clarkston school district.

"When the Baines family lived there, we had a neighborhood club called the Oakhill Farmers Club. We'd meet once a month," Sutton says. "We knew Herb and Isabelle (Baines). Their kids went to Oakhill School

with ours."

Oakhill School stood on the northwest corner of Reese and Oakhill roads, Sutton recalls. The old school building was later moved to Ortonville.

The Reese home, he says, "was a really nice place, with lots of pine trees around it."

Some of the trees, scorched from the recent fire, still stand, and so does a nearby barn. It is estimated that the home was built in the early to mid-1800s.

"(The Reese home) must have been a beautiful home when it was new," Sutton says. "It had hardwood, big rooms, two stories. It was one of the grand old houses -- build big and built good."

The home was originally a three-story mansion with mansard roof and gingerbread trim, according to records, but the roof was burned off about 1900 and the home was rebuilt.

Brothers John and Richard Powe at one time contemplated restoring the grand old mansion when they developed nearby Bitterbush subdivision north of Clarkston in Independence Township. The plans never materialized, and the home had deteriorated beyond reasonable hope of restoration at the time it burned down.

Richard Powe and his wife, Linda, live nearby in the Jeremiah Clark home, the family for whom Clarkston was named.

Sutton, sitting in the living room of his Ortonville residence, recalls many other families who lived nearby during the "horse and buggy" days, as he calls them. He remembers the Clyde Tindall family, the Seldon and Cross families.

"You know, I guess what I miss the most is the old community spirit in those days," he says, thinking back to a time long ago. "Then, a neighbor really meant something to you. You helped one another."

Many decades later, neighbors on Reese Road could only watch, in the middle of the night, when a piece of Clarkston history disappeared in smoke.

On stage with the Village Players

BUSINESSMAN Joe Benjamin (played by Jack McCaffery) groups his family together in the living room to tell them why the family's been experiencing such bad luck lately. Sit-

ting on the couch from left are Mady (Sally Kline); and Benjamin's children, Ben (Mike Mattia), Sarah (Peggy Agar) and wife Rose (Sharon Alexander). The play is "God's Fa-

vorite," the latest production of the Clarkston Village Players. The show opens Sept. 30. For details, see Around Town on Page 33. (Photo by Peter Auchter)

Early detection of breast cancer...

It could give you time to enjoy the important things.

A regular breast x-ray is your best defense against breast cancer. Found early enough, 9 out of 10 breast cancers can be cured.

The Breast Center of North Oakland Radiology has been designed especially for women who need a breast x-ray. With the attention of our breast care professionals, your regular breast x-ray will be private, personalized and comfortable.

Our state-of-the-art equipment produces extremely accurate images of breast tissue, using a very low dose of radiation. Our program also includes a

special videotape on breast care, a review of breast self-examination methods and an opportunity to discuss your own breast care with our nurse.

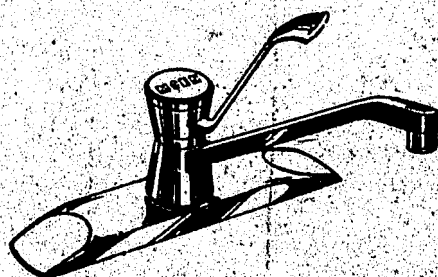

Ask your doctor for a referral to see us. Or call us direct and make your own appointment. We'll forward your test results to the doctor of your choice. To make an appointment or find out more about the Breast Center, call us at 625-7750.

Having a regular breast x-ray is one of the best things you can do for yourself. Because your granddaughter wants you to be around for a long time to come.

Millstream

Grads

Michele Herbert, 21, of Grand Ledge graduated cum laude in August from Central Michigan University, Mt. Pleasant, with a bachelor's degree in business administration. She majored in production operations management and minored in marketing.

Michele is the daughter of Richard and Bobbette Herbert of Grand Ledge and the granddaughter of Oliver and Iola Herbert of Clarkston.

Sandra (Foster) Fisher, formerly of Clarkston, graduated cum laude from the Oregon Institute of Technology in Klamath Falls on June 4 with a bachelor's degree in nursing. Fisher, who lives in Klamath Falls with her husband and three children, returned to school

to earn her degree and is currently working as a registered nurse in a Klamath Falls hospital. A 1969 graduate of Clarkston High School, she is the daughter of Robert and Sybil Foster of Clarkston.

Rowe-Brown exchange wedding vows

Paula Ann Rowe and Daniel Vincent Brown exchanged marriage vows at the Waterford Community Church.

The Rev. Paul Hazlett, the bride's uncle, performed the double-ring ceremony at 2:30 in the afternoon.

White mum floral arrangements and plants adorned the church.

The bride is the daughter of Mr. and Mrs. Dean Rowe of Drayton Plains. She was graduated from the University of Michigan, Ann Arbor, in May.

The bride- **NEWLYWEDS: Paula A. groom's parents are and Daniel V. Brown.**

Dr. and Mrs. Thomas Brown of Muncie, Ind. Also a graduate of U-M, he is currently completing his doctorate degree in chemistry at the university.

For her June 25 wedding, the bride wore a gown she co-designed with Priscilla's Bridal. The taffeta sheath of imported sequined and beaded lace featured tiers of ruffles at the hemline.

The bridal headpiece was made by the bride and her twin sister. She carried a cascading bouquet of stephanotis, pink and white lilies, and trailing ivy.

Maid of honor was Denise Rowe, twin sister of the

bride, of Ann Arbor. Bridesmaid was Wendy Stricklin, sister of the bride. Their pink taffeta tea-length gowns featured dropped waists and lace inserts at the bodice. They carried three long-stemmed white roses.

Best man was Steve Brown, the bridegroom's brother, of Muncie, Ind. Groomsman was Dr. Ty Campbell of Indiana. Ushers were Steve Johns and Todd George, both of Clarkston.

A brass ensemble comprised of friends and relatives of the couple provided the music for the wedding ceremony. John Hazlett, uncle of the bride, came home from teaching in Indonesia to play baritone in the group.

The wedding reception and buffet luncheon were held in the lower level of the church.

Following their honeymoon trip through upstate New York and to New England, the couple are residing in Ann Arbor.

New arrival

Terry and Lora Goyette of Pontiac welcomed their second child into the world Sept. 15. Rebekah Tere weighed in at 7 pounds, 5 ounces.

Rebekah was also welcomed by her 22-month-old sister, Sara.

Grandparents are Norma and Harold Goyette of Clarkston, and Sylvia and Robert Sigler of Waterford. Great-grandparents are Marion Terry of Clarkston, Arthur Goyette of Pontiac, Otis Wallis of Tennessee and Wilson Sigler of Florida.

In service

Cadet Daniel M. Kloc recently received practical work experience in military leadership at the U.S. Army ROTC advanced camp, Fort Lewis, Wash.

The son of former Clarkston area residents Robert A. and Patricia V. Kloc of Auburn Hills, Kloc is a student at the University of Detroit.

Correction

Due to an error in a news release, the city of residence of Patricia Kloc was incorrectly reported in the Sept. 7 edition of The Clarkston News. In fact, Mr. and Mrs. Robert Kloc both reside in Auburn Hills.

The "In service" item has been reprinted with the correction on this week's Millstream page.

LAURIE STEWART, dressed in blue jeans, leads junior high students in a warm-up exercise before presenting a motivational program on self-esteem, getting along with others, and positive peer pressure. The session

took place Friday afternoon, Sept. 16, at Sashabaw Junior High School. That morning, dressed in a gray suit, Stewart presented a seminar on good school climate to junior high teachers during an in-service day. Student

leaders from Sashabaw and Clarkston junior highs participated in the afternoon session. Stewart, of L.A. Stewart Presentations, is from Kalamazoo. (Photo by Pat Young)

Around Town

Local events open to the public are printed in Around Town as a community service. Call 625-3370 or write to The Clarkston News, 5 S. Main, Clarkston, MI 48016 two weeks in advance.

Microwave Plus

Food for good health

Betty Wagner

What do Healthy Burritos have in common with Oat Bran Muffins?

Both are recipes in a practical cookbook, "Menu for Life" by registered dietitian and nutritionist Ellie Smith and food consultant Joan Kaye.

Their easy to use book has the endorsement of Fred W. Stransky, Ph.D., director of the Meadowbrook Health Enhancement Institute, and of Vincent Siragusa, M.D., a cardiologist with the Heart Institute of Nevada.

HEALTHY BURRITOS

- 1 cup cooked kidney beans
- 2 teaspoons Mrs. Dash original blend seasoning

THE PHOTOGRAPHY of W. P. Thayer attracts Arthur Daniels of Waterford to the display at Clarkston's crafts and cider festival Sept. 17.

- 2 tablespoons unsalted tomato sauce
- 1 cup finely chopped tomato, drained of excess juice
- 1 cup finely chopped onion
- 1 cup finely chopped green pepper
- 4 ounces part-skim mozzarella cheese, grated
- 4 tablespoons reduced fat and calorie sour cream
- 2 ounces alfalfa sprouts, washed and patted dry with paper towel
- 4 9-inch flour tortillas
- 8 toothpicks

For quick assembly, steam vegetables early in day; cook beans ahead, mixing with sauce and seasoning.

1. Steam onions and peppers, set aside.
2. In food processor, mix beans, tomato sauce and seasonings.

3. To assemble, spread each tortilla with one-quarter bean mixture, tomatoes, peppers and onions, mozzarella cheese, sour cream and sprouts. Roll up and secure with 2 toothpicks.

4. Spray 10-by-15-inch baking sheet with non-stick coating. Bake in oven preheated to 350 degrees for 8 to 10 minutes or until heated thoroughly and cheese melts. Or, heat on serving plate in microwave oven until cheese melts.

Suggestion: Serve with fresh fruit and vegetable sticks.

OAT BRAN MUFFINS

- 1 cup oat bran
- 1 cup unbleached all-purpose flour
- 2 teaspoons baking powder
- 2 tablespoons grated orange rind
- 1/2 cup finely chopped golden raisins
- or 1/2 cup finely chopped apricots
- or 1/2 cup finely chopped dates
- or 3/4 cup fresh or frozen unsweetened blueberries
- 1/2 cup 1/2 % fat buttermilk
- 1 egg white
- 2 tablespoons vegetable oil
- 1/4 cup raspberry, orange or peach conserve*
- 1/4 cup frozen orange juice concentrate

*A conserve is a jam of 2 or more fruits. I used my homemade low sugar microwave strawberry jam in keeping with healthy eating.

Recipe doubles well. Muffins are best when served fresh but can be frozen. Do-ahead preparations: Follow Step 1, cover measuring cup and refrigerate. At baking time, proceed with Step 2. If preparing Oat Bran Muffins with Blueberries, use fruit directly from freezer, breaking apart before adding to batter.

1. Mix first 4 ingredients in medium bowl. Set aside. In 2-cup measuring cup, combine remaining ingredients (except fruit) and blend with fork until smooth.
2. Mix together wet and dry ingredients. Fold in

fruit.

3. Preheat oven to 400 degrees. Spray 12-cup muffin pan (2 3/4-inch cups) with non-stick coating (I use paper muffin liners). Fill cups evenly and bake 17 to 18 minutes. Remove from pan and serve, or cool and store.

Suggestions: For a great breakfast, serve with Delicious Milkshakes, a recipe on Pages 116-119 in the cookbook. Muffins are a good accompaniment for most meals.

All recipes in the book list exchanges and nutritional information per serving, a big bonus for the health and weight conscious. The recipes are especially geared for people involved in exercise and sports.

Smith and Kaye will present highlights from their book at the Michigan Bean Co. in Fenton on Wednesday, Oct. 28, at 12:30 p.m. For more information, call 629-0440.

Home economist Betty Wagner resides in Independence Township. Her "Microwave Plus" cable-TV show airs on Independence-Clarkston Channel 65.

Explore lineup of state products

Some 50 businesses will march, so to speak, in the Michigan Products on Parade show on Saturday and Sunday, Sept. 24 and 25, at the Summit Place mall. Among participants will be the Davisburg Candle Factory.

Visitors to the show will be able to sample Michigan foods, purchase or order products and sign up for the next edition of the free Michigan Gift Guide, due out in early October.

"We've got everything from dulcimers to mustard to candles and furniture," said Sue Callaway, editor of the Michigan Specialty Food Guide. "It's really quite an eye-opening show, because everything is made in Michigan."

The free show is sponsored by the Office of Product Promotion, Michigan Department of Commerce, which also publishes the Michigan Specialty Food Guide and the Michigan Gift Guide.

Michigan Products on Parade is appearing for the first time at the Summit Place mall, located at the corner of Elizabeth Lake and Telegraph roads, Waterford Township.

An Apple for the Teacher

Debbie Latozas

By Pat Smith

Ever since she was 5 and wanted to play with her mother's old grade and record books, Debbie Latozas has wanted to become a teacher.

Both her parents were Waterford teachers and the tradition of teaching has been particularly strong on her father's side of the family.

Debbie's grandmother was a teacher, and she remembers particularly vividly a great aunt who had been vocational school director in Saginaw during the Depression years.

Debbie's father, formerly a math consultant in Waterford, was director of the Southeastern Michigan Intern Program for Michigan State University until his recent retirement.

It was hardly surprising, then, that Debbie was graduated from Michigan State University and later earned her master's degree there after her teaching career in Clarkston had begun.

Debbie still loves teaching, but it hasn't been easy. She has seen pink slips on three occasions. Twice she was called back two weeks prior to the start of school. The third time she was laid off for two years. Being a one-income family was quite a culture shock, she recalls.

She has taught in three of the elementary buildings and at Clarkston Junior High. Her service to the school system includes mathematics subject area coordinator, the mathematics committee, the K-12 curriculum committee and the interdisciplinary skills committee.

Other professional groups with which she is involved include the Michigan and National Council of Teachers of Mathematics, Phi Kappa Phi Honor Society and Alpha Delta Kappa.

Debbie and Joe Latozas live in Holly with their sons Joey and Jeremy. Much of Debbie's time and energy away from school has been spent remodeling, refurbishing and adding on to her lakeside home.

DEBBIE LATOZAS enjoys crafts, camping and water sports.

Winter weekends may find Joe and Debbie up north snowmobiling. During the rest of the year, she enjoys crafts, camping and water sports on her lake. She even has a water skiing dog, Sadie, who has been a featured item on Channel 7 TV.

She attends the Lutheran church and is active in family related events in the community.

Debbie tries to promote mathematics instruction through teaching problem solving and thinking skills.

"My goal for my students is that they learn to think for themselves, organize themselves and eventually be responsible for their own learning," she said.

Debbie is the cream of the crop, and the teachers at North Sashabaw are proud to have her on the staff.

An Apple for the Teacher is provided through a committee of the Clarkston Education Association. This week's author is Pat Smith, a first-grade teacher at North Sashabaw Elementary School.

Textbooks approved

New textbooks for fourth and fifth grade French and German classes were approved Sept. 12 by the Clarkston school board.

Thirty-five copies of both "In-France" and "In-Germany" were approved. The 70 books will be ordered from E.M.C. Publishing Company in St. Paul, Minn., at a cost of \$324.

The foreign language paperback books will be a roving set used in all elementary schools.

County recognizes women's group

All Oakland County chapters of the American Business Women's Association are recognized for their commitment to the educational advancement of women through a proclamation of Thursday, Sept. 22, as "ABWA Day in Oakland County."

The proclamation was requested by the Inde-Spring Charter Chapter of ABWA and introduced to the Oakland County Board of Commissioners by District 3 County Commissioner Richard D. Kuhn. It was jointly accepted by current chapter president Hilda Bruce and past-president Mary Starkweather.

The local chapter requested "ABWA Day in Oakland County" to make people more aware of the business women's association and the work they do, said Barbara McKeever, chairperson of the public relations committee.

Since its founding in 1949, ABWA has grown to a membership of over 112,000 and supported the advancement of women through a vigorous scholarship program. Last year, over \$3.2 million was awarded in scholarships nationally.

The Inde-Spring chapter, chartered in 1979, has grown to 41 members and awarded 53 scholarships totaling \$40,700. Scholarship money is raised through various fund raising activities including a quilt raffle and Christmas auction.

The 8th Annual Christmas Auction is planned for Nov. 20 at the Spring Lake Country Club, 6060 Maybee Rd. Ticket information may be obtained by contacting Rita at 634-6970 or Ginny at 623-6150. There will be no ticket sales at the door.

Membership in ABWA is open to all working women. Dinner meetings are held monthly, featuring guest speakers on a variety of topics. Further information is available by calling Colleen at 666-3530 or Barb at 625-2495.

David Kwasnick

What I do best

A strange thing happened to me the other day. I was witness to a crime, albeit this was no ordinary crime. I was involved in a tele-crime.

As I sat in front of my television, the offense unfolded before me. It was a heinous, idiotic act. The charge: a No. 201 -- stupidity with intent to ill. The culprit: none other than the "Morton Downey Jr. Show."

I'm going to contradict myself here. For those of you who have never seen Morty in action, I highly recommend you view one of his shows. Seriously. Go ahead, watch it.

It's an unforgettable experience. A lot like the first time your mother forced you to eat a truly disgusting food. You gagged, you spit, you coughed. But more importantly, you gained a deeper insight into what was good and what wasn't.

Morty will make you appreciate Geraldo.

What makes this show so bad? For starters, how about the entire concept. It's no different than, let's say, a cockfight. Place two bitterly opposing forces in a confined area and, for the audience's amusement, watch them have it out.

Who cares who wins or who loses. A fight is a fight, right?

And yes, they do fight. In the course of presenting their respective arguments (which are usually no more than the same unimoving stances repeated over and over again) they trade barbs, hurl insults, yell, curse, spit -- all but brawl right there on the floor beneath them.

It's ridiculous. I have a few distant relatives who act the same when they get together. We do our best to keep them a secret, though.

But that's still not what's most troublesome about

the Morty Show. In a medium that's brought us the likes of professional wrestling and "Divorce Court," a show like Morton Downey Jr.'s isn't that hard to swallow. How it's presented is the real pill.

As Morton Downey Jr. once said, "I'm not a TV host, I'm an advocate." And as Richard M. Nixon once said, "I'm not a crook."

Actually Morton was right on one count, he's definitely not a TV host. And if he wants to play advocate of the airwaves, fine, he's an advocate. He can be whatever he likes.

But no matter how hard he tries or how loud he squawks, that still doesn't make him one.

One final note: This is, incidentally, my final article for The Clarkston News. I had originally planned for it to be a farewell article, but that just wasn't to be.

What I wrote each time wound up sounding artificial, trite. It just wasn't me. Instead, I did what I do best. I wrote an article.

If my articles have provided you with humor, provoked some measure of thought or generally proven enjoyable to read, then they've achieved their goal.

Because to tell you the truth, that's all I ever wanted them to do.

Sincerely,
David Kwasnick

David Kwasnick, a 1988 graduate of Clarkston High School, begins his freshman year at Michigan State University, East Lansing, this week.

NOTICE TO TAXPAYERS

Beginning October 1, 1988, an additional penalty of \$10.00 will be added to each 1986 and prior years delinquent tax that appears unpaid on the records of the county treasurer. This amount is added according to the provisions of Section 211.59 and 211.60 compiled laws of Michigan to cover the expense of sale at the next May tax sale.

Immediate payment will save you this additional penalty and keep your property from appearing in the public list of lands to be offered at tax sale.

Pet of the Week

SUNNY COULD brighten your days. (Photo by Peter Auchter)

Light up your life

A mature lady with no bad habits, Sunny needs a new home. She's a 5-year-old collie mix with black and tan medium-length fur.

Sunny is a fairly large dog, so she would be better with older children, and she's good around other pets. She's housebroken, already spayed and is just an all-around nice pet.

Sunny can be adopted at the Michigan Humane Society, 3600 Auburn Rd., Auburn Heights, 852-7420. Hours at the non-profit shelter are 10 a.m. to 4:30 p.m. Monday through Saturday.

The adoption fee for Sunny is \$35.

— By Pat Young

CLARKSTON HIGH SCHOOL National Merit Semifinalists are (from left) Matthew Plec,

Marie Powell, Jennifer O'Heren and Doug Treder.

4 CHS seniors win national recognition

Four Clarkston High School seniors have been named National Merit Semi-finalists.

Matthew Plec, Marie Powell, Jennifer O'Heren and Doug Treder entered competition for 6,000 merit scholarships, worth approximately \$23 million, by taking a qualifying test as juniors.

"We're extremely excited for these young people," said Dr. Robert Burek, principal at CHS. "It's the most prestigious academic honor for a student in high school."

The four semi-finalists and their parents were honored at special recognition breakfast in the CHS library at 7 a.m. Tuesday.

The qualifying test, the PSAT/NMSQT, was an

initial screen of nearly 1.2 million students from 19,000 high schools across America. To advance to the finalist level of the competition, the students must fulfill additional requirements this year.

Merit scholarship winners will be chosen from the group of about 14,000 semi-finalists who confirm performance on a second test, have outstanding academic records, are endorsed by their schools and complete an application outlining their scholastic and extracurricular accomplishments.

Students will be notified next March if they're finalists. In April they will know if they have won scholarships.

Community Cable Guide

Holiday job tips

Programs on Independence-Clarkston cable-TV Channel 65 air Monday through Saturday. They are broadcast from the United Cable studio on Waldon Road.

Week of Sept. 26 through Oct. 1

MONDAY, WEDNESDAY AND FRIDAY:

7 p.m. - Home Movies and Entertainment: Produced and co-hosted by Dean R. Hallifax, co-hosted by Tom Hoyes of Clarkston.

8 p.m. - Microwave Plus: Microwave cooking tips and more with home economist Betty Wagner.

8:30 p.m. - "This Is the Life: Contemporary drama series sponsored by St. Trinity Lutheran Church. This week: "Winner Take All."

9 p.m. - The Job Show: Employment information

presented by the Michigan Employment Security Commission. This week's topic: "Finding Temporary Jobs at Christmas Time."

TUESDAY, THURSDAY AND SATURDAY:

7 p.m. - Best Medicine Co.: Part two of a three-part series with Joe Butler, missionary to "Stone-age" Amazon Indians in Brazil.

7:30 p.m. - Shirley's World: Discussion of psychic topics with Shirley Lynch of Clarkston.

8 p.m. - Cherie's Craft Corner: Cherie Hartwick demonstrates various craftmaking techniques. This week: "Bakeable Clay Crafts."

8:30 p.m. - For the Love of You: Bible-based teaching and advice with the Rev. James Finn of Good Shepherd Assembly of Clarkston. This week: "Abortion."

9 p.m. - Oakland County Parks and Recreation: Highlights of park facilities and events.

Obituaries

Minnie Mae Adams

Minnie Mae Adams, 93, of Lakeland, Fla., and formerly of Clarkston died Sept. 17. A retired schoolteacher she was a former member of the Clarkston United Methodist Church.

Surviving are her stepson, Chester Adams of Arizona; and niece and nephew, Margaret Cook of Florida and Ellsworth Cook of Elsie. She was preceded in death by her husband, Orrie Adams, and stepson, John Adams.

The funeral was held Sept. 21 at the Lewis E. Wint & Son Funeral Home, Independence Township, with the Rev. Douglas R. Trebilcock officiating. Burial was in Andersonville Cemetery, Springfield Township.

Elsie K. LeVigne

Elsie K. LeVigne, 71, of Independence Township died Sept. 19. A retired schoolteacher, she was a charter member of Calvary Lutheran Church of Independence Township.

Surviving are her husband, Joseph; children, Ralph and his wife Nancy of Drayton Plains, and Tim and his wife Marianne of Grayling; grandchildren, Todd and Scott; brother and sisters, John Sundquist of Minnesota, Hilda Anderson of South Dakota and Lillian Longair of Florida.

The funeral is scheduled at 11 a.m. Thursday, Sept. 22, at Calvary Lutheran Church with the Rev. Robert D. Walters and the Rev. Thomas H. Struck officiating. Burial will be in Lakeview Cemetery, Independence Township. Arrangements were made by the Lewis E. Wint & Son Funeral Home, Independence Township.

Memorials may be made to the Calvary Lutheran Church.

Marguerite E. O'Dea

Marguerite E. O'Dea, 73, of Florida and formerly of Drayton Plains died Sept. 19. She was a charter member of Our Lady of the Lakes Catholic Church, Waterford Township.

Surviving are her husband, Joseph; children, Patricia Whalen of Pennsylvania and Nicholas O'Dea of Clarkston; seven grandchildren; four great-grandchildren; and sisters, Dora Morgan of Clarkston and Vivian DeVault of Omar.

The Mass of the Resurrection is scheduled Thursday, Sept. 22, at 11 a.m. at Our Lady of the Lakes Church with the Rev. James Cronk officiating. Burial will be in Lakeview Cemetery, Independence Township. Arrangements were made by the Lewis E. Wint & Son Funeral Home, Independence Township.

Memorials may be made to the Michigan Cancer Foundation.

Respectfully submitted,

RICHARD A. HOLMAN, CLERK
Linda M. Geo, Secretary

OFFICIAL NOTICE

Charter Township of Springfield

BID NOTICE FIREWOOD - TREE TOPS

The Board of the Charter Township of Springfield will receive bids for the removal of approximately 500 fallen tree tops in the Davisburg, Michigan, area. The tree tops are all hardwood, primarily oak, left from a logging harvest.

Liability and Workmen's Compensation insurance is preferred but Township will consider bids from individuals willing to sign a release of liability and hold harmless clause. Bids must be for all tops. Township prefers removal and cleanup within one (1) year but would consider longer.

Bids are to be returned to the Township Clerk by 4:30 p.m. October 7, 1988.

Springfield Township receives the right to accept or reject any or all bids submitted.

For information or a site visit, please call the Clerk or Supervisor, Springfield Township office, 634-3111 or 625-4802.

J. Calvin Walters, Clerk
Charter Township of Springfield

NOTICE

SECOND READING

NOTICE IS HEREBY GIVEN THAT THE TOWNSHIP BOARD OF THE CHARTER TOWNSHIP OF SPRINGFIELD will hold a SECOND READING at their regular meeting on Wednesday, October 12, 1988, beginning at 7:30 p.m. at the Springfield Township Hall, 650 Broadway, Davisburg, Michigan. The 2ND READING will cover the following changes to Zoning Ordinance #26:

To be added to Article 14 - General Provisions

Section 14.21 - Emergency Temporary Dwellings.

1. When Permitted. Emergency temporary dwellings may be permitted upon finding by the Township that the main or principal residential structure has been destroyed in whole or in part by fire, explosion or natural disaster and therefore is uninhabitable and the standards set forth in Section 14.21.2 have been met.

2. Permit Application and Review.

a. An application for a permit for the emergency temporary use and installation of a mobile home, modular, or prefabricated dwelling unit shall be made to the Township Clerk. The application shall be accompanied by a plot plan showing the location of each proposed structure and water supply and sewage treatment facilities.

b. The application shall be reviewed by a committee composed of the Building Official and two elected Township officers. Approval of the application may be granted by a majority vote of the committee upon a finding that all of the following conditions are met:

(1) The main or principal residential structure has been destroyed in whole or in part by fire, explosion, or natural disaster and therefore is uninhabitable.

(2) The temporary dwelling unit shall be served by approved water supply and sewage treatment facilities.

(3) All applicable setback, area, bulk and other requirements of the Zoning District in which the temporary dwelling unit is located are met.

c. The granting of a permit for an emergency temporary dwelling unit shall be for a period of one year from the date of approval by the committee, or as otherwise specified by the committee. Any conditions of approval shall be specified in writing on the permit.

d. No permit shall be issued until a cash bond has been posted in an amount to be determined by the Township Board to guarantee compliance with the provisions of the Ordinance and removal of the emergency temporary dwelling upon expiration of the permit.

NOTICE IS FURTHER GIVEN that the proposed ordinance amendments are entirely contained in this Notice. Questions may be answered at the Springfield Township Clerk's Office, 650 Broadway, Davisburg, Michigan, during regular office hours Monday through Friday until the date of the 2ND READING.

Charter Township of Springfield NOTICE

SECOND READING

NOTICE IS HEREBY GIVEN THAT THE TOWNSHIP BOARD OF THE CHARTER TOWNSHIP OF SPRINGFIELD will hold a SECOND READING at their regular meeting on Wednesday, October 12, 1988, beginning at 7:30 p.m. at the Springfield Township Hall, 650 Broadway, Davisburg, Michigan. The 2ND READING will cover the following changes to Zoning Ordinance #26:

ARTICLE XVII - ZONING BOARD OF APPEALS

SECTION 17.00 - Creation and Membership.

1. **Creation.** There is hereby established a Board of Appeals, hereinafter called the "Board", which shall perform its duties and exercise its powers as provided in Act 184, of the Public Acts of 1943, as amended, and in such a way that the objectives of this Ordinance shall be observed, public safety and welfare secured, and substantial justice done.

2. **Membership.** The Board shall consist of five members, appointed by the Township Board.

a. The first member shall be a member of the Township Planning Commission.

b. The second member shall be a member of the Township Board.

c. Three additional members shall be selected from among the electors residing in the unincorporated area of the Township.

d. An employee or contractor of the Township Board shall not serve as a member of the Board.

e. The terms of membership for Board members shall be three (3) years, except for members serving because of their membership on the Planning Commission or Township Board, whose terms shall be limited to the time they are members of the Planning Commission or Township Board, respectively, and the period stated in the resolution appointing them.

f. All vacancies for unexpired terms shall be filled by appointment of the Township Board for the remainder of such term.

g. Members of the Board shall be removable by the Township Board for non-performance of duty or misconduct in office upon written charges and after public hearing.

SECTION 17.01 - Powers and Duties.

1. **General.** The Board has the power to act on matters as provided in this Ordinance and Act 184, of the Public Acts of 1943, as amended. The Board shall not have the power to alter or change zoning district boundaries, land use classifications of any property, or Zoning Ordinance text. The specific powers of the Board are enumerated in the following sections of this Article.

2. **Administrative Review.** The Board shall hear and decide appeals where it is alleged by the appellant that there is error in any order, requirement, permit, decision, or refusal made by the Building Inspector or other duly authorized enforcing agent, in enforcing any provision of this Ordinance.

3. Interpretation.

a. The Board shall hear and decide requests for interpretation of this Ordinance or the Zoning Map taking into consideration the intent and purpose of the Ordinance and the Township Master Plan.

b. The Board shall hear and decide whether to permit land uses which are not specifically designated in any Zoning District as a principal use permitted, principal use permitted subject to special conditions, or permitted accessory use.

In making such a finding, the Board shall consider the following:

(1) The recommendation of the Planning Commission.

(2) The specific characteristics of the use in question are clearly similar in nature to the characteristics of the uses expressly permitted in the district. Such characteristics shall include but not be limited to: traffic generation and circulation; type of product sold or manufactured or type of service provided; hours of operation; type and amount of work generated; and impact on natural resources and community character.

(3) The use in question is not permitted in any other Zoning District.

c. A record shall be kept by the Board of all decisions for interpretation of this Ordinance or Zoning Map and land uses which are approved under the terms of this section. The Board shall request the Planning Commission and Township Board to review any ordinance amendment it deems necessary.

4. Variances.

a. The Board shall have the power to hear and decide specific appeals and authorize such variances from the provisions of this Ordinance which will not be contrary to the public interest. A variance may be granted by the Board where, due to special conditions, a literal enforcement of the provisions of this Ordinance would result in practical difficulty. A variance shall not be granted by the Board unless all of the following conditions are met:

(1) Special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same Zoning District.

(2) Literal interpretation of the provisions of this Ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same Zoning District under the terms of this Ordinance.

(3) The special conditions and circumstances referenced in sub-paragraph (1) do not result from the actions of the applicant.

(4) The variance is the minimum variance that will make possible the reasonable use of the land, building, or structure.

(5) The granting of the variance will be in harmony with the general purpose and intent of this Ordinance and Master Plan, and will not be injurious to the neighborhood, or otherwise detrimental to the public welfare.

b. In granting any variance, the Board of Appeals may prescribe appropriate conditions and safeguards pursuant to Section 17.03 (7).

5. Other Specific Powers.

a. The Board shall hear and decide upon requests for temporary buildings and temporary uses in connection with the construction of public utilities or public works or the development of land for which either a site plan or subdivision plat has been approved subject to the following conditions:

(1) Non-residential temporary structures and temporary uses may be permitted primarily for the storage of equipment and materials associated with construction and for other construction purposes, such as a field office. Such non-residential temporary structures and uses shall be limited to the period of construction and located on the construction site.

(2) Non-residential temporary structures may be permitted in a residential development under construction for the purpose of selling leasing or renting new dwelling units within said residential development. Such non-residential temporary structures shall be located on the construction site.

(3) If approved by the Board, a temporary structure shall not be used or occupied until a Certificate of Occupancy has been issued by the Building Inspector. No Certificate of Occupancy shall be issued for a period of more than one (1) year, unless otherwise specified by the Board.

b. The Board shall hear and decide upon the temporary installation of a mobile home, modular, or prefabricated dwelling unit on a single family residential lot or parcel under the following:

(1) In situations where the occupant of the temporary dwelling unit is constructing and intends to occupy a permanent dwelling unit on the same premises.

(2) In any case where the Board permits the temporary installation of a mobile home, modular, or prefabricated dwelling unit the applicant shall comply with all of the following conditions:

(a) Posting of cash bond with the Township in an amount to be determined by the Township Board to guarantee compliance with the provisions of this Ordinance.

(b) Temporary permission under this subsection shall be for a period of one year from the date of approval by the Board, or as otherwise specified by the Board.

(c) Connection to an approved public and/or private sewage and water system.

(d) Compliance with all setback area and bulk requirements for the appropriate residential district in which the land is located.

SECTION 17.02 - Meetings - Compensation - Officers.

1. All meetings of the Board shall be held at the call of the Chairman and at such time and place as the Board shall determine. All meetings of the board shall be open to the public. The Board shall keep a record of its proceedings showing the vote of each member upon each motion or appeal, or if absent, or failing to vote, indicating such fact; and shall also keep records of its hearings and other official action. The record shall be filed in the office of the Township Clerk and shall be a public record. The Board shall have the power to subpoena and require the attendance of witnesses, administer oaths, compel testimony and the production of books, papers, files, and other evidence pertinent to the matters before it.

2. The total amount allowed the Board in any one year period as per diem or as expenses actually incurred shall not exceed a reasonable sum, appropriated annually in advance by the Township Board.

3. The Board shall elect its officers and prescribe the duties thereof.

SECTION 17.03 - Procedure for Appeal.

1. An applicant requesting any action by the Board shall commence such request by filing a notice of appeal, on the form supplied by the Township, accompanied by such appeal fee as determined by the Township Board, and all plans, studies and any other information and data as applicable, all of which shall be made a part of the record.

2. Every appeal from a determination of the Building Inspector or other duly authorized enforcing agent pursuant to Section 17.01 (2) shall be made by the applicant within 30 days of the date of the order issuance or refusal to issue permit, requirement, or refusal.

3. The Board shall fix a time for a hearing on the appeal, and shall notify the parties of the time and place of such hearing. Notice of all public hearings conducted by the Board shall appear in a newspaper of general circulation in the Township at least ten days prior to the hearing where the appeal pertains to a specific parcel(s) of property. Notice of the public hearings shall also be sent by first class mail to all owners of record whose property is located within 300 feet of such property, disclosed from the assessment roll of the Township. A list of those owners mailed notices shall be a part of the record of the board.

4. Any person may appear in person at the public hearing, or be represented by an agent or attorney, and present any evidence in support of their appeal.

5. The Board shall not decide an appeal until after a public hearing. The concurring vote of a majority of the members of the Board shall be necessary to reverse any order, requirement, decision, or determination of the Building Inspector or other duly authorized enforcing agent, or to decide in favor of the applicant any matter upon which they are required to pass under this Ordinance, or to effect any variance from the terms of this Ordinance.

A member shall disqualify himself from a vote in which he has a conflict of interest. Failure of a member to disqualify himself from a vote in which he has a conflict of interest shall constitute misconduct in office.

6. The Board may reverse, affirm, vary, or modify, any order, requirement, or determination, as to which it has the power to consider, and have all the powers of the officer or body from whom the appeal was taken and may issue or direct the issuance of a permit.

7. The Board may impose conditions with any decision. Such conditions imposed shall meet all of the following requirements:

a. Be designed to protect natural resources, the health, safety, and welfare and the social and economic well being of those who will use the land use or activity under consideration; residents and landowners immediately adjacent to the proposed land use or activity, and the community as a whole.

b. Be related to the valid exercise of the police power, and purposes which are affected by the proposed use or activity.

c. Be necessary to meet the intent and purpose of the zoning ordinance, be related to the standards established in the ordinance for the land use or activity under consideration, and be necessary to insure compliance with those standards.

Violations of any of these conditions shall be deemed a violation of this ordinance, enforceable as such, and/or may be grounds for revocation or reversal of such decision.

8. All decisions of the Board shall be in writing and so far as it is practicable, in the form of a general statement or resolution reciting the conditions, facts, and findings of the Board. The applicant shall be advised of the decision after the public hearing unless the Board moves for a continuation of such hearing.

9. Any decision of the Board favorable to the applicant shall

remain valid only as long as the information or data relating thereto are found to be correct, and the conditions upon which the decision was based are maintained.

10. The Board may reconsider an earlier decision, if, in the opinion of the board, circumstances justify taking such action.

11. No order of the Board of Appeals permitting the erection or alteration of a building shall be valid for a period of longer than one (1) year, unless a building permit for such erection or alteration is obtained within such period, and such erection or alteration is started and proceeds to completion in accordance with the terms of such permit.

No order of the Board of Appeals permitting a use of a building or premises shall be valid for a period longer than one (1) year, unless such use is established within such period; provided, however, that such order shall continue in force and effect if a building permit for said erection or alteration is obtained within such period, and such erection or alteration is started and proceeds to completion in accordance with such permit.

12. Any person or persons, or any board or department of the Township having an interest affected by a decision of the Board shall have the right to appeal to the circuit court on questions of law and fact. Such appeal must be taken within 21 days after the date of the Board's decision. A request for reconsideration under subsection (10) above shall not toll the time for taking such appeal.

NOTICE IS FURTHER GIVEN that the proposed ordinance amendments are entirely contained in this Notice. Questions may be answered at the Springfield Township Clerk's Office, 650 Broadway, Davisburg, Michigan, during regular office hours Monday through Friday until the date of the 2ND READING.

Composer wins national award

Gene Grier of Independence Township, an internationally known composer, author and educator recently won, for the ninth consecutive year, a prestigious ASCAP Song Writing Award.

The American Society of Composers, Authors and Publishers makes these awards to distinguished members of the music community on an annual basis.

This year, Grier had over 30 songs published and recorded. Published copies of his music have sold over one million copies. He has written three books, two cantatas and two children's musicals.

As a recording artist, he has worked with Norman Luboff, Fred Waring and other celebrities and personali-

ties in the recording business.

His own singing group, The Gene Grier Singers, does over 100 recordings per year. They are presently working on a new Christmas album and a one-half hour Christmas special for ABC, to be aired on Channel 7 this Christmas.

Grier and his wife, Audrey, who is also a musician and choreographer, recently moved to the Clarkston area. They continue to write and record while teaching at The Academy of Popular Vocal Arts, a private music school in residence on the campus of Oakland University in Rochester.

Friend to Friend

Mom disagrees

Dear Friend to Friend:

I am a junior and I have a group of friends that I hang out with. All of my friends drink and I don't.

That's fine. I don't care if they drink, but they take advantage of the fact that I don't. I always end up being the driver and paying for gas to drive around while my friends get drunk.

Once when my parents weren't home and I was in the shower, my friends let themselves in my house with a case of beer in hand. By the time I got out of the shower, my friends were having a party and proceeded to spill beer on the couch.

I got mad and bawled them out, but it didn't seem to do any good. My parents came home and could smell the beer. I got in trouble -- to say the least.

These girls are my good friends. We go all the way back to elementary school. I want to stay friends with them, but I also want to resolve this problem. What can I do?

JUNIOR

Dear Junior:

Be proud of yourself for being so responsible and for taking care of both yourself and your friends.

People can only take advantage of you if you allow them to. Your friends probably don't mean to use you, they are just not taking responsibility for their own behavior.

We should point out there is a difference between friends needing a ride home due to drinking too much once in a while and this sort of thing happening consistently.

This is called *enabling*. When you take care of your friends when they are drinking, you are enabling them to keep on drinking.

If your friends choose to drink rather than take care of themselves or meet their responsibilities, they could be developing serious problems with alcohol. It may be time you told them how you feel.

The issues surrounding the party at your house makes all of us angry. If these are really your friends, would they put you in that kind of position? How about the seeming apathy when you bawled them out? Which of them were home with you to take the heat when your parents returned?

Tell your friends about your feelings and your concerns. Of course, do it at a time when they are all

sober. If they can't help you resolve this problem, maybe you need new friends who will treat you with the respect you deserve.

Our guess is that you would not have to change all of your friends, but you may need to be selective about the ones who care about you and you want to continue to hang around with.

Finally, we have some closing remarks about this problem: You are not responsible for your friends' behavior. You can not change their behavior. You can only support them if they decide to change.

Most importantly, you need to take care of yourself first. We are proud of you!

Dear Friend to Friend:

I am a mother of teenagers who happens to be a great fan of your column. I've been very impressed with your advice to your peers -- which usually demonstrates wisdom beyond your years.

My reason for writing to you is your answer to Mad Dog in the May 25 issue of The Clarkston News. I was surprised by your response to a child striking a parent.

Perhaps you should rethink your statement. "If a parent provokes a teenager to the point that they are so angry they hit their parent, then that parent has a serious problem."

I'll grant you that when a parent loses his/her cool, it's a problem. But there are so many emotional moments between parent and child, we would have to be

very exceptional parents to remain calm always!

Please let your peers know you really do not condone that kind of behavior. This world does not need any encouragement for violent behavior.

MOM OF TEENS

Dear Mom of Teens:

After rereading our column, we can understand your surprise. However, we still stick by our response, although after reviewing it we believe we did not stress strongly enough the importance of respect for our elders.

In our column we were trying to emphasize that it could be the parents who had the problem, because they were pushing their child to the point of violence.

We do not believe a child should ever strike his or her parents. But, we also believe that a parent should never strike a child (once that child is past the age of five).

This may be a controversial issue, but it is important to put yourself in the other person's shoes. In both instances, hitting another person is a negative release of anger and almost always does more harm than good.

Parents and young people with anger problems need to learn how to release anger in positive ways.

Friend to Friend is provided by a panel of Clarkston High School students working under AWARE, a community organization devoted to action and education against substance abuse. Letters may be addressed in care of The Clarkston News, 5 S. Main, Clarkston, MI 48016.

"The Heartbeat of
 Pontiac, Rochester and Lapeer Area"

PARENTS AND CHILDREN alike learned the proper way to pick an apple without bruising

it. The kindergarten field trip to Ashton's Orchards, Seymour Lake Road, Brandon

Township, is an annual event in Bonnie Valuet's class at Pine Knob Elementary.

A CUP OF CIDER produces a smile from kindergartner Michael Malaga after a morning field trip in an apple orchard.

Orchard outing

USING A JONATHON apple tree, Sharon Ashton shows kindergartners the beginnings of next year's apples on a branch. The or-

chard owner also told them a secret: If you cut an apple across the middle instead of up and down, you will find a star inside.
