# **INTRODUCTION**

OAKLAND COUNTY  
2012-2013-2014 BUDGET

Board of Commissioners - Transmittal Letter

To the Citizens of Oakland County, Michigan  
October 10, 2011

On September 22, 2011, the Oakland County Board of Commissioners adopted the 2012-13-14 Triennial Budget and General Appropriations Act under the authority of Section 45.556(d) of Public Act 139 of 1973, (as amended by Public Act 100 of 1980), entitled the *Optional Unified Form of County Government Act*, and in compliance with Public Act 621 of 1978 entitled the *Uniform Budgeting and Accounting Act*. Total appropriations in 2012 will be \$759,262,409, with \$416,237,573 of that amount for General Fund/General Purpose Funds. Approval of the 2012-13-14 Adopted Budget and General Appropriations Act represents the culmination of many months of effort on the part of a host of county officials and employees, particularly the Finance and Human Resources Committees, the Board of Commissioners and their staff, the County Executive and the Management & Budget and Human Resources Departments. By approving a Triennial Budget, both the Board of Commissioners and the County Administration are informing citizens of the measures Oakland County plans to take to keep the budget balanced. Advising the public of our long-term budgeting plans eliminates fear of the unknown, thus providing some security for individuals and corporations as they plan their own budgets for the next few years. In addition, each county department or agency will know well in advance of any cuts that will be coming, enabling them to adjust their budgets and carryover any unspent allocations from prior years, should they foresee a need for more funds in 2013 or 2014.

Since 1993, the Oakland County Board of Commissioners has worked diligently to keep county expenditures from growing. The current consensus of the Board and Administration is that the days of 7.5% average annual revenue expansion are over. Instead, they see looming on the horizon a negative revenue growth through 2014. In the budget, most line items are impacted by the rate of inflation or such market fluctuations as energy, health care and postage costs, and are hard to contain. This creates a budget gap and mandates that we find a way to use less of those resources. County elected officials have met and/or exceeded budget tasks the last three years to bridge that gap.

To be sure, the 2012-2014 Triennial Budget is balanced, as required by law. However, continued diligence and forward planning is essential to maintain balance after those three years. The continuing weakness in the State of Michigan's economy, declining property values, and consequent cutbacks in Lansing present Oakland County with recurring challenges to balancing our own budget. Two years ago we predicted that by 2010, the gap between revenues and expenses would be ten million dollars. We took steps to close that gap - not only in 2010, but also in the years immediately following. Failure to take proactive measures would have resulted in a revenue shortfall of more than \$50 million by 2014. As you can see, it will take continued leadership and continued vigilance to maintain services within a balanced budget.

Oakland County leadership has reacted swiftly and decisively to cope with revenue declines. For example, decreases in County property tax revenue have been offset by the adoption of sensible belt-tightening measures. Among them, the County continues its policy of not creating new positions unless new funding is provided to support them. Employees took a 2.5% pay cut in 2010 and a 1.5% pay cut in 2011. They will continue to make increased contributions to their health care. Elected officials refunded 2.5% of their salaries in 2010, and 1.5% pay cut in 2011. The Board of Commissioners has eliminated automobiles for all elected officials and their deputies. Those passing through the criminal justice system will be required to pay more in fees and court costs. As a result, all ongoing budget tasks for fiscal years 2012-14 have been met. Solutions like these have enabled Oakland County to weather current budget challenges without layoffs, while preserving our AAA bond rating.

The FY 2012-2014 budget holds the line, but addresses such major challenges as current employee health benefits and retiree health care. This fiscal obligation has seriously and adversely impacted major corporations like Ford, General Motors and Chrysler. Making the issue acute are changes required by the Government Accounting Standards Board (GASB) in Statements 43 and 45. These mandates require all governmental units to report actuarially estimated retiree costs on balance sheets as liabilities.

A simple “pay as you go” cash basis statement will no longer suffice. Oakland County has long addressed these legacy costs, but rising health care expenditures and, more recently, two actuarial reports have required we move more forcefully. We are also closely monitoring the new federal health care law, and how its rising premiums will adversely affect Oakland County. Retiree benefits, however, are taken care of.

In 2007, Oakland County issued Trust Certificates in the amount of \$557 million, at a low interest rate, and invested the funds in permissible long-term investments. Oakland County was able to secure the most favorable interest rates possible because of its AAA bond rating. Other post-employment benefits (OPEB) funding was implemented in a timely fashion, capping retiree health benefit costs, thus eliminating future budget difficulties due to retiree benefit expenses. Because of this forward thinking, the County’s retiree health care will be fully funded – an enviable situation few other governments can claim. Our commitment to our workers will be met, and the County will not experience a crisis while doing so.

The line has been held on new positions. Budget restrictions mean no new full time eligible General Fund/General Purpose positions will be authorized. One hundred fifty-two senior employees took advantage of the county’s retirement incentive package. These retirees have been replaced by department reorganizations or part-time employees, or not at all.

A continuing challenge has been the uncertainty about funds from the state and federal governments. All manner of grants and state payments are at risk. The Board’s policy known as the “Gosling Amendment,” specifying that when grant money is accepted, the program or position funded by that grant will discontinue upon the grant’s termination, has been a vital tool in holding the budget line.

The following table identifies Oakland County’s unreserved fund equity since 2001

\* Fund Balance numbers do not include funds designated for Property Tax which were designated for one quarter of the year.

\*\* Source: Prior Year End Report

Oakland County has been able to maintain a sufficient fund balance while once again having one of the lowest general operating tax rates of any county in the State. The increase in designated funds represents savings by County Departments designated to prepare for additional reductions in the taxable value of real property.

It is clear from the data in the following section that Oakland County has been guided by a rational, well-grounded fiscal policy, and is well positioned to keep navigating these turbulent waters. The Board of Commissioners will endeavor to uphold conservative fiscal policies that have produced such a healthy, viable financial condition; and will continue its commitment to provide responsive programs and services of the highest quality – a standard of excellence that has come to symbolize Oakland County government.

## 2012 BUDGET OVERVIEW

The 2012 Adopted Budget includes total appropriations of \$759,262,409 million. The 2011 tax levy will generate \$198.3 million in general fund revenue, and is based on a millage rate of 4.1900, unchanged since 1998. This current County tax rate is 0.034 mil below the maximum allowable tax levy. The budget was formulated with the determination to continue providing the same level of service as the previous year.

Property taxes account for 47.6% of the County's governmental funds budget, a percentage comparable to that of other counties in southeast Michigan, thus illustrating the County's reliance upon property taxes to fund governmental operations.

Oakland County's millage rate has decreased over the past 30 years, from 5.2600 in 1972 to 4.19 in 1998 and remains unchanged again in 2012. A ten-year summary of the changes in State Equalized Value (SEV), Taxable Value, Millage Rates and Property Tax Revenues are identified in the table that follows. According to the 2011 Oakland County Equalization Report, the SEV decreased by 9.16% in 2011, resulting in a decrease in taxable value of 7.78%.

LEVY YEAR	SEV (STATE EQUALIZED VALUE)	TAXABLE VALUE	MILLAGE RATE	GROSS TAX LEVY*
2002	62,829,530,422	47,656,729,878	4.1900	199,681,698
2003	67,085,441,782	50,688,809,599	4.1900	212,386,112
2004	70,296,996,641	53,179,886,010	4.1900	222,823,722

2010	57,745,076,507	55,081,707,586	4.1900	230,792,357
2011	52,453,460,343	50,798,540,257	4.1900	212,845,883

\*Actual Tax Collections are less due to TIFA/DDA funds.

Until 2008, Oakland County experienced a decade of significant SEV growth. Proposal A, approved by the voters in 1994, capped "taxable value" of real property to the rate of inflation or 5%, whichever is less for each year. The difference between SEV and Taxable Value, as shown on the chart, historically represents significant savings to taxpayers, although in the last three years that gap has narrowed dramatically. Ever mindful of the tax burden of its constituents, the Board of Commissioners will continue to establish means by which to control the growth of expenditures.

**REVENUES**

Oakland County's financial resources are traditionally divided into two classifications, Governmental and Special Revenue & Proprietary Funds. Revenues are further categorized to facilitate planning, control and evaluation of governmental processes. The following table presents a summary of the Governmental revenue categories budgeted for 2012.

**OAKLAND COUNTY, MICHIGAN  
REVENUES BY CATEGORY, 2012  
General Fund/General Purpose Funds Only**

REVENUES	2012 ADOPTED	% OF TOTAL
PROPERTY TAXES	\$198,329,187	47.6%
INTERGOVERNMENTAL REV	31,957,802	7.7%
CHARGES FOR SERVICES	109,173,693	26.2%
INVESTMENT INCOME	3,256,500	0.8%
MISC REV/RES CRD FWRD	73,520,391	17.7%
<b>TOTAL REVENUES</b>	<b>\$416,237,573</b>	<b>100.0%</b>

The Headlee Amendment will impact future revenues, and removes the potential to modify millage rates without voter approval. However, the continuing weak Michigan economy has resulted in decreasing property values, which has led to a downturn in property tax revenues. This is a serious issue of which we must be wary. Also, while millages levied in the past few years have been well below the allowable maximum, that allowable maximum has been decreasing due to the mechanisms put in place by Headlee. In other words, if the need arises to fund a major project such as a jail or courthouse construction, the ability to provide funds for such a project may be severely constrained.

The Board of Commissioners must be alert to other revenue sources, preferably those that provide greater tax relief for Oakland County residents, and to vigorously re-examine County programs and services to determine their continued value and effectiveness.

The following chart illustrates County revenues by their sources in the 2012 Budget.

#### APPROPRIATIONS

Oakland County has traditionally categorized its operations by functional area with respect to appropriations. These functional areas are: Administration of Justice, which includes the Circuit, District and Probate Courts; Law Enforcement, which is comprised of the Sheriff's Office and Prosecutor's Office; General Government, which consists of the Board of Commissioners, Treasurer, Clerk/Register, and the Water Resources Commissioner; County Executive, which includes a variety of administrative departments; and Non-Departmental, which includes remaining appropriations not budgeted to specific county departments.

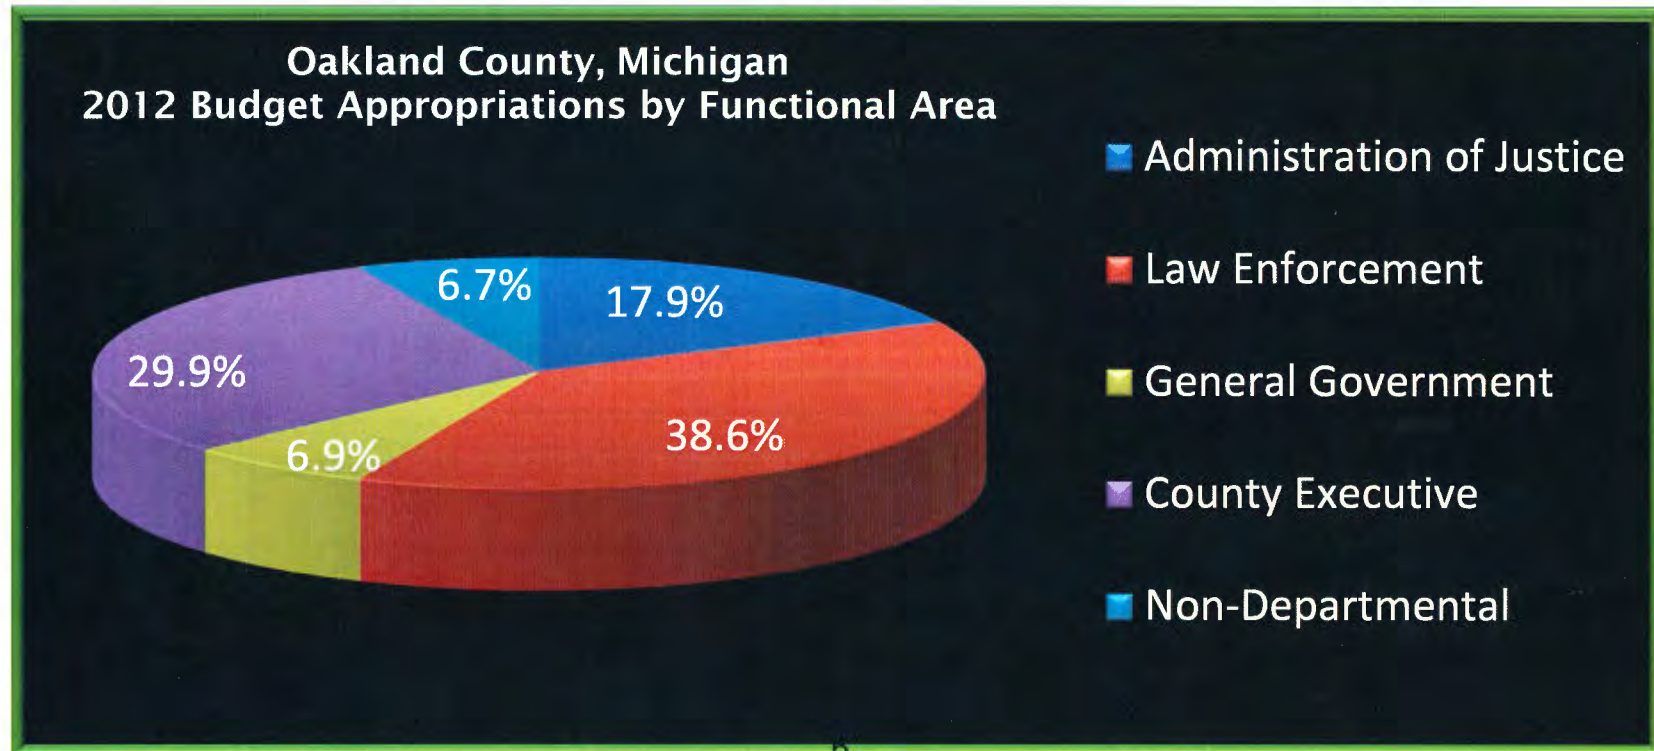

At the top of the next page is a summary of funds appropriated for these categories in 2012.

**OAKLAND COUNTY, MICHIGAN

FUNCTIONAL AREA	2012 ADOPTED	% OF TOTAL
ADMIN OF JUSTICE	\$ 74,658,965	17.9%

The chart below symbolizes the allocations of resources to functional areas in the 2012 Fiscal Year Budget.

## HUMAN RESOURCES

Incorporated into the 2012 Adopted Budget are gross salary and fringe benefit appropriations of more than \$357.6 million, or 48 percent of the total budget, to support a total work force of 4,310 employees. Oakland County Government remains one of the top employers in Oakland County.

Personnel costs remain the driver behind the County's budget. These costs, particularly fringe benefits and especially health care, have risen sharply in recent years and will continue to do so. Total personnel costs in the General Fund have been generally stable, but since 2007 have decreased each year. The number of workers supported by Special Revenue fluctuates as Grant Funding comes and goes. The number of employees actually increased in 2011, as the county contracted to provide police services to the City of Pontiac. Seventy-four police positions and six dispatchers were added, all paid for by Pontiac.

The Human Resources Committee closely studies staffing levels, salary changes and fringe benefits in an effort to further constrain rising personnel costs. This year, the only approved position requests were those where funding offsets exist to fully cover the cost of the position on an ongoing basis. In addition, the "Gosling Amendment" concerning grant positions (when grant funding goes away, the position goes away) is strictly adhered to.

The graph below illustrates the trend in County positions over the past ten years. The graph shows total positions, the percentage of Special Revenue/Proprietary positions and the percentage of Governmental positions.

## COUNTY INITIATIVES

Once again, the County was awarded the highest possible bond rating, AAA, by both major bond rating agencies, Standard & Poors and Moody's Investor Service. This benefit to the County taxpayers is a result of sound fiscal practices, as evidenced by the fund balance shown on an earlier page. The AAA bond rating allows the County to fund infrastructure and other capital improvements at the lowest interest rate available.

As an example, in real terms, of the significance of a AAA bond rating, the Oakland County Building Authority in 2010 issued bonds to refinance the debt on two municipal buildings in the City of Keego Harbor. Because of the AAA rating, Keego Harbor will save \$60,000 per year – *enough money to save one job.*

In 2011, employees and elected county officials again took a pay cut - 1.5% - and employees continue contributing to their own health benefits. These contributions enable the County to continue offering first-rate health care insurance to employees at the lowest possible cost.

Oakland County has issued Trust Certificates totaling \$557 million, at a low interest rate. County officials in turn invested that money in secure, permissible higher paying long-term investments. Oakland's AAA bond rating is what enabled the County to get the lowest interest rate available. The dividends from this arrangement are being used to fund post-employment benefits. This reliable unearned income, along with capped retiree health benefit costs, eliminates future budget difficulties due to retiree benefit expenses.

The new E-File system enables attorneys to file court documents from their own office computers for a small fee. This is a win-win for everybody. Attorneys no longer have to make a trip to the Courthouse to file necessary documents, and the County now has another source of revenue.

New contracts for the successful Fire Records Management program continue to be approved. Plans to offer the program to municipalities outside of Oakland County are still being considered.

In the past 24 months, five new communities have contracted with the Oakland County Equalization Department for assessing and equalization services. These communities benefit by not having to support Assessing Departments. The County was able to absorb the five new communities without increasing staff. The total number of communities now served by Oakland County's Equalization Department for commercial and/or personal property assessing is 34.

To assist in the County's ongoing efforts to help businesses and communities, DDA/TIFA approval continues for outlying communities like Wixom and the Automation Alley Smartzone - including Troy and Southfield.

The banking, mortgage, insurance and real estate sectors of Oakland County's economy benefit from Board approval of new rate structures for @CCESS Oakland, making this service even more useful and affordable to those enterprises, while generating revenue for the County.

A new institution - another first for Oakland County - can be found on campus: in 2011, Oakland University opened the first medical school in the County, and admitted its first class of 50 future doctors who began their studies in the fall.

Finally, the Board of Commissioners reaffirmed its decision in fiscal year 2010 to adopt a triennial budget. The advantages of a three-year budget plan are significant. By continuing to use a three year fiscal plan through 2014, the various county departments are able to adopt budget tasks that allow for cash flow variations created by abrupt changes in the economic environment. These budget tasks are being met and result in a reduction of the General Fund budget each year: 2012, 2013 and 2014. In some cases, departments may exceed the current fiscal year budget task [identifying savings in excess of that which was assigned], enabling them to carry a balance forward to fiscal year 2013 or 2014, where they foresee a need for increased funds to meet their budget tasks for that year.

## PENDING PROJECTS AND ISSUES

County government, including the environment within which it functions, is not static, but is ever changing and emerging to meet the challenges and opportunities that present themselves. With this in mind, the Board of Commissioners, in conjunction with the County Executive, has identified several significant projects and issues that will be continued, considered or implemented in 2012.

Continuing into 2012, for example, Oakland County will initiate and support clean water and other green projects. The issue of water and sewer rates is an ongoing concern of many Oakland County communities, and continues to be a high priority for the coming year.

Job growth and new, diverse businesses must be priority number one if Oakland County is to continue to be the economic engine of the State of Michigan. The Emerging Sectors Unit, in the Department of Economic Development and Community Affairs, was created to make that happen. The ESU has more than proved its worth. Since it was established in 2009, through FY 2011, the ESU has brought to Oakland County 194 new companies that have invested almost \$2 Billion, created 25,834 new jobs and retained 13,271 jobs. In 2011, the Emerging Sectors Unit brought Oakland County 45 new and diverse emerging sector companies, which invested \$286,548,000, created 3976 new jobs, and retained 4078 jobs. In the traditional category, 52 companies were brought in, or kept from leaving Oakland County, by the Emerging Sectors Unit. These companies invested \$260,574,000, created 849 jobs, and retained 737. These are accurate numbers, provided by the businesses themselves.

Traditionally, the Board of Commissioners, in conjunction with other County officials, has been responsive to the needs of Oakland County residents, and has been aggressive in developing and maintaining programs and services that provide the greatest possible benefits and affords the highest possible quality of life. An example is the addition of Bushman Lake to Independence Oaks Park.

The State of Michigan's long-term financial problems continue to impact the Oakland County Budget, requiring constant planning for revenue decreases and budget adjustments: the tax acceleration and revenue sharing loss that began in 2009 - and is projected to continue - illustrates the uncertain nature of Lansing's funding support, while debate over Community Development Block Grants (CDBG) does the same for Federal funds. We must remain ready to react swiftly to changes in our financial picture during Fiscal Years 2012-2014 and beyond, and are prepared to do so.

Oakland County is well into a period of constant dynamic change and uncertainty requiring full effort and cooperation between the Board, County-wide elected officials, and the Executive. So far, such cooperation and coordination have occurred. Everyone involved considers the welfare of Oakland County citizens to be their highest priority.

In addition, our County has avoided the deficits and layoffs plaguing our neighbors. While our employees have had to accept lower pay and assume more cost-sharing with health care co-pays, we have preserved their jobs and retiree benefits. That's a deal that laid-off workers would envy. The storm is still swirling about, but we're riding it out, and we intend to maintain the highest standards of financial responsibility that our citizens have come to expect.

Accordingly, on behalf of the Oakland County Board of Commissioners, I present the FY 2012-2013-2014 Oakland County Adopted Budget.

Respectfully submitted,

Thomas F. Middleton, Chairman  
Finance Committee  
Commissioner, District #4

**OAKLAND COUNTY, MICHIGAN  
COUNTY EXECUTIVE BUDGET MESSAGE  
FISCAL YEARS 2012, 2013, AND 2014 TRIENNIAL  
OPERATING AND CAPITAL BUDGETS**

To the Board of Commissioners and Citizens of Oakland County:

I am pleased to present the Fiscal Year 2012-2014 Triennial Budget Recommendation for your review and approval. Promulgated in accordance with the Unified Form of County Government Act, 1973 P.A. 139, and the Uniform Budgeting and Accounting Act for Local Units of Government, 1978 P.A. 621, the General Fund/General Purpose Estimated Revenue and Appropriations are balanced at \$412,030,613 for Fiscal Year 2012, \$413,929,349 for Fiscal Year 2013, and \$421,175,394 for Fiscal Year 2014. The total budget for all funds amounts to \$795,193,397 for Fiscal Year 2012, \$784,066,992 for Fiscal Year 2013, and \$791,342,225 for Fiscal Year 2014.

For several decades, Oakland County was one of the few governments in America to operate on a biennial budget. Two years ago we expanded our biennial planning efforts and established a triennial approach, adopting a three-year line item budget. Continuing that effort, this budget recommendation presents a balanced triennial budget for FY 2012 through FY 2014. If I had to identify the primary factors responsible for our financial management successes, they would be our committed adherence to long range planning and budgeting practices. It is forward planning coupled with action that separates Oakland County from the other counties in Michigan and the nation. Our forward planning coupled with action is why we are recognized by Moody's Investors Service and Standard & Poor's as the very best at maintaining fiscal stability, even in turbulent economic times.

**INTRODUCTION**

The National Advisory Council on State and Local Budgeting (NACSLB) defines the budget process as a set of activities that encompass the development, implementation, and evaluation of a plan for the provision of services and capital assets. A good budget process consists of far more than the preparation of a legal document appropriating funds for a series of line-items. Instead, a good budget process involves political, managerial, planning, communication, and financial dimensions. Accordingly, Oakland County's nationally recognized budget process is characterized by the following essential features:

- Incorporates a long-term perspective
- Establishes linkages to broad organizational goals

- Focuses budget decisions on results and outcomes
- Involves and promotes effective communication with stakeholders
- Provides incentives to government management and employees

These five features are characteristic of a budget process that moves beyond the traditional concept of line item expenditure control, providing incentives and flexibility to managers that can lead to improved program efficiency and effectiveness.

The Government Finance Officers Association (GFOA) of the United States and Canada has established an Award Program for Distinguished Budget Presentation. The GFOA Award Program recognizes budget publications that adhere to a strict set of criteria leading to exemplary budget documents. Eligible budgets are evaluated by three independent out-of-state practitioners who are members of GFOA's Budget Review Panel. Eligible budgets are evaluated based on four categorical guidelines:

- The budget as a Policy Document
- The budget as a Financial Plan
- The budget as an Operations Guide
- The budget as a Communications Device

Oakland County is proud to be one of the 32 units of Michigan government, out of a total of 1,861 governmental units that have been accorded the Award for Distinguished Budget Presentation by the GFOA. We can all be proud that in 1984 when the GFOA award program was first initiated, Oakland County was the first governmental unit in Michigan, and only the 11<sup>th</sup> in the nation, to achieve this distinction. Even more impressively, Oakland County has received the Distinguished Budget Presentation Award for every multi-year budget submitted since that time, 26 years' recognition of excellence. Oakland County's continuing commitment to budgeting excellence is further demonstrated by the County's support of the GFOA national program for improved budget development practices as evidenced by the involvement of the Department of Management & Budget staff as Budget Review Panel members.

The hallmark of the County's focus on long-term financial planning is preparation and adoption of a Triennial Budget which includes a summarized five-year forecast. However, the budget process does not stop with the adoption of the Triennial Budget. Our frequent analyses and budget amendment process ensures that the budget and long-term financial plan remains current. In accordance with PA 139 of 1973, the County Executive is required to report the current financial condition of the County to the Board of Commissioners on a quarterly basis. We exceed this requirement by not only reporting the current financial condition of the County each quarter, but we also provide a quarterly forecast of the projected financial condition of the County at the close of the current fiscal year. These reports include a comparison of the amended budget to the forecasted amounts and explanations for major variances. Any recommended budget amendments are presented at that time. Oakland County's budget is unique in comparison with other government budgets because it is a "rolling" Triennial Budget. Upon adoption of the detailed line-item budget for the next three fiscal years, the Triennial Budget is considered a "rolling" budget – when the budget is amended (with quarterly forecasts and also by individual resolutions), the detailed amendment reflects the impact by line item for both the remainder of the current fiscal year and the subsequent two fiscal years. This process ensures that the budget remains current for all

three years. Ultimately, during next year's budget process, the budget as amended for the two subsequent years (e.g. FY 2013 and FY 2014 for this Recommended Triennial Budget) will simply “roll” forward and the third year will be added (e.g. FY 2015).

In addition to the Distinguished Budget Presentation Award, Oakland County has also received the GFOA Certificate of Achievement for Excellence in Financial Reporting for its Comprehensive Annual Financial Report (CAFR) and the GFOA Popular Annual Financial Reporting Award. This is truly an outstanding achievement as Oakland County is one of only seven units of government in the entire state to receive all three awards. All three Oakland County GFOA award-winning reports can be viewed on the internet at [http://www.oakgov.com/fiscal/info\\_pub/](http://www.oakgov.com/fiscal/info_pub/).

These three award-winning official annual reports are readily available to the public which can be accessed through the County’s Dashboard at the following web site: <http://www.oakgov.com/dashboard>. At Oakland County we believe government should be transparent, accountable, and always strive to lead the way in fiscal responsibility. The County’s Dashboard includes a variety of reports, expanding on the budget documents. The interim financial reports are updated monthly and residents can sign up to be automatically notified by email when new information and reports are published.

## **FINANCIAL OUTLOOK**

### ***OAKLAND COUNTY’S ECONOMY***

#### ***Overview***

Incorporated in 1820, Oakland County covers an area of approximately 910 square miles with a population of 1.2 million. The County’s reputation as a world class community is due not only to its renowned business environment, but is also due to many attributes that contribute to an excellent quality of life. For example, the County has multiple institutions of higher-learning, abounds with cultural entertainment venues, parks and golf courses, and offers a wide variety of shopping experiences ranging from small boutiques along quaint village main streets to large high-end multi-level malls. Oakland County is home to a diverse mix of urban and rural communities with thriving downtown communities and many scenic natural settings. Within the County’s borders there are more than 89,000 acres of recreational property, over 1,400 lakes and the headwaters of five major rivers.

Oakland County has been recognized as one of the most prosperous counties in the nation. Over half of the County’s residents have a college degree with over 24% having attained a bachelor’s degree and nearly 18% have post-graduate degrees. In comparing Oakland County with 32 other prosperous counties of similar size in terms of population, economists rank Oakland County eighth overall with respect to number of residents with higher education, lower occurrence of child poverty, higher income levels, and number of residents working in professional and managerial occupations for local general government administration.

### ***After a Painful Decade, Early Indications of Economic Recovery***

When the new millennium began in 2000, Oakland County was an economic juggernaut enjoying a historically low unemployment rate of only 2.9% after emerging from the 1990's decade-long boom with a 33% increase in jobs. The biggest challenge at that time was recruiting workforce from outside the County's borders in order to meet the employment demand of businesses located within the County.

The recession that occurred in the early 2000's eventually recovered nationally after three years. However, Michigan's economy did not recover at that time simultaneously with the national recovery and instead suffered from a single-state recession. Michigan's prolonged economic distress was compounded when the nation entered another recession at the end of 2007, one which continued and deepened through 2009, resulting in the most severe economic decline since the 1930's. To say that Michigan and Oakland County have faced some serious hurdles these past few years would be a gross understatement. We witnessed the bankruptcy of two auto companies, General Motors Corporation, formerly the County's largest employer and Chrysler LLC, headquartered within Oakland County's City of Auburn Hills. Their failures adversely affected thousands of our residents and taxpayers contributing greatly to higher unemployment rates and a significant increase in home foreclosures.

Economists have opined that the nation is now in a period of recovery, although it will be slow and take many years until there is full recovery. Worries about a possible double-dip recession dominate headlines worldwide due to a myriad of problems with serious economic and political consequences that could last for several generations. The problems facing the world today are of historical proportion such as: Japan's suffering after the record-setting earthquake and tsunami in the Tokyo region; simultaneous military conflicts and citizens uprising against political leaders in multiple countries; and the impact on the International Monetary Fund from the threatened financial collapse of entire governments in countries such as Greece, Ireland and Portugal.

Unbelievably, amid all the unrest and upheaval worldwide, there are initial signs that an economic recovery has begun here in Michigan. Similar to the national recovery, Michigan's economic recovery is also forecasted to be a slow one which will take many years to restore lost jobs and property values. We are grateful that after a very difficult decade, our economy is finally turning in the right direction. We look forward to the promising economic prospects on the horizon for our County.

### ***First Step on the Journey to Economic Recovery - Jobs***

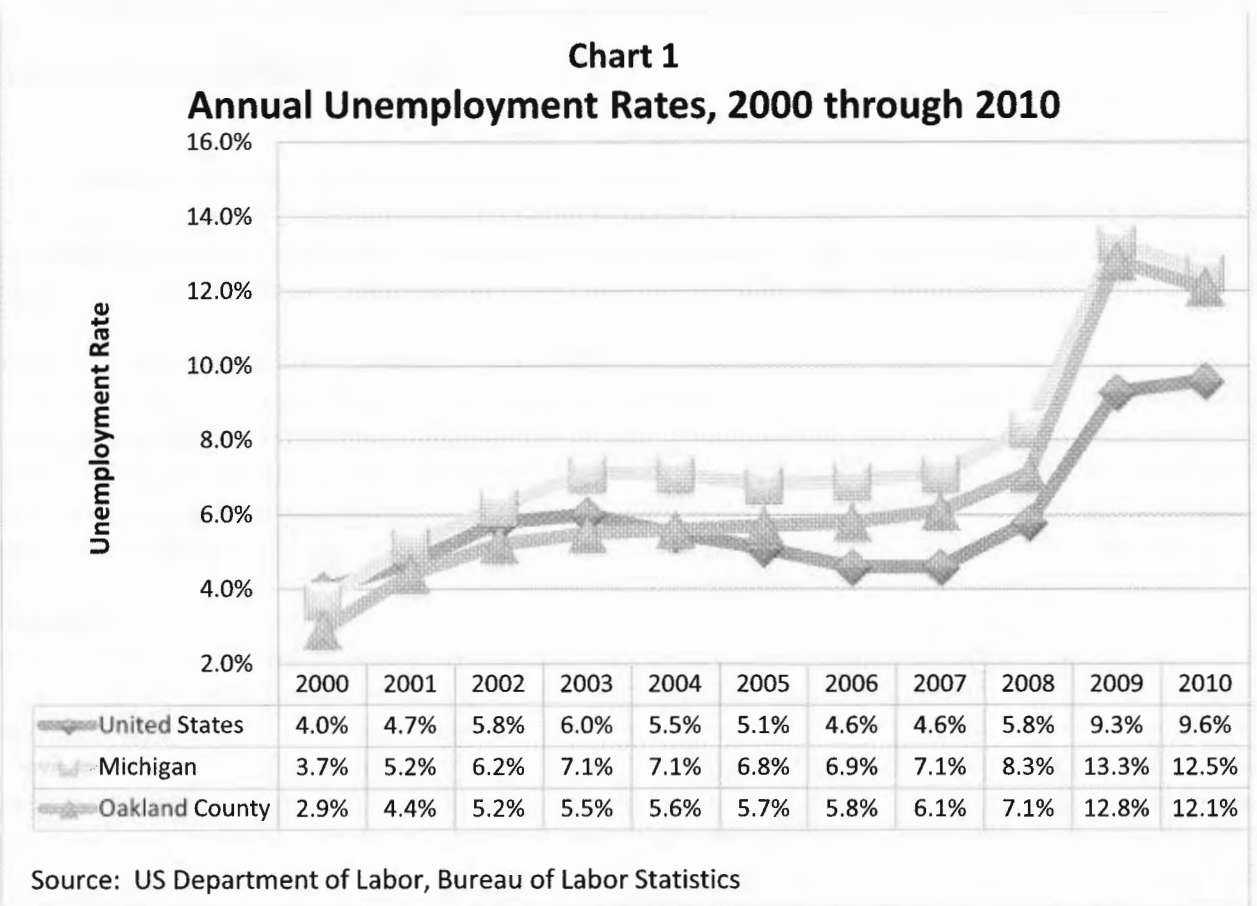

Michigan's unemployment rate was below the national average in 2000, but in 2001 the State's unemployment rate rose above the national rate and stayed higher than the national average through the remainder of the decade. Midway through the decade, Oakland County's unemployment rate began exceeding the national average, with a dramatic rise in 2009 when the unemployment rate increased to 12.8%.

The prolonged Michigan economic downturn eventually resulted in our state having the highest annual unemployment rate in the nation from 2006 through 2009. Fortunately, in May 2010 Michigan's status of having the highest unemployment rate finally ended after 49 consecutive

months when it dropped to second highest. One year later in May 2011, Michigan's unemployment ranking has improved somewhat further with four other states now having an unemployment rate higher than Michigan's.

One optimistic sign which indicates this region's economy is beginning to recover: the average annual unemployment rate decreased in 2010 for both Oakland County and Michigan while the national unemployment rate continued to increase. In fact, Michigan was one of two states (the other, Minnesota) with the largest decline in the 2010 average unemployment rate with a decrease of .8% from 13.3% in 2009 down to 12.5% in 2010. Since 2010, Michigan's unemployment rate continues to improve; the May 2011 unemployment rate was 10.3%. Likewise, thus far in 2011, Oakland County's unemployment rate also shows improvement.

From 2000 through 2010, the number of employed people in Michigan decreased by over 760,000 with the largest loss occurring in 2009. Over the last decade Oakland County lost more than 156,000 jobs. The largest annual job loss in the County's history occurred in 2009 when 9% of the workforce countywide was affected with nearly 60,000 jobs lost.

Most of the statewide job loss occurred in the construction and manufacturing sectors, particularly in automotive manufacturing. The domestic auto companies lost significant market share of light vehicle sales, steadily declining from its peak in the mid-1990's with 75% of the market share to about 40% by the end of the decade. In the spring of 2009, General Motors Corporation, Chrysler Corporation and several automobile suppliers filed for Chapter 11 bankruptcy. With our economy having its roots deeply planted in the automotive industry since the invention of the automobile, the bankruptcies resulted in the record-setting job losses in 2009 for Oakland County and Michigan.

Long recognizing the risks inherent in Michigan's economic dependency on the automotive industry, a primary focus of my administration since taking office in 1993 has been to work to diversify Oakland County's economic base. While diversifying the economic base will not make Oakland County recession proof, it will help to make the County recession resistant. Aided by the commitment and support of the Board of Commissioners, this focus has resulted in the establishment and execution in Oakland County of programs that address the transformational change occurring in Michigan's private employment sector, economic development programs we believe will pay dividends well into the future.

Perhaps the primary forward-looking economic development program is Oakland County's Emerging Sectors initiative. Looking out 10, 20, and in some cases 30 years, our researchers endeavored to identify those areas that promised to be at the core of the twenty-first century's thriving economic growth. The top emerging sectors were identified and chosen to be the targets of our program, which include:

- Advanced Electronics & Controls • Advanced Materials & Chemicals • Aerospace • Alternative Energy & Power Generation
- Communications & Information Technology • Defense & Homeland Security • Film & Digital Media
- Finance, Insurance & Real Estate • Medical Main Street • Robotics & Automation • Water Technologies

Oakland's Emerging Sector initiative is proving to be an unqualified success. Since the inception of the Program in 2004, there has been \$1.7 billion of new investment in the targeted sectors, creating over 24,300 new jobs and retaining more than 10,500 jobs. While we have more work ahead of us in the execution of this transformational initiative, our impressive start gives us a roadmap to a brighter future.

Automation Alley is another award-winning economic development initiative founded by Oakland County Administration in 1999 as part of the Administration's efforts to preserve and grow our economic base. The Alley was recognized in 2008 by President George W. Bush with the Presidential E Award for Excellence in Exporting. The E Award was established in 1961 by President John F. Kennedy to recognize the achievements of individuals and organizations in promoting and increasing American exports and is the highest honor the Federal government can bestow in that particular area.

Automation Alley began with 44 members located in Oakland County. Its primary purpose is to retain and attract the skilled workforce required by the region's technology companies. It is a partnership between business, government, and education. Since its inception, the

Alley has evolved to become regional in focus and membership. Having established its headquarters in the City of Troy, an Oakland County community, the Alley works to promote, support and develop high tech industries throughout southeastern Michigan. Since its beginning in 1999, Automation Alley has grown to over 1,000 members spanning an eight county area. It has attained national and global recognition as a technology consortium capable of competing with the world's best and brightest. The Alley has conducted 12 trade missions around the world, garnering more than \$150 million in contracts for the participating companies. For more information, visit their website at [automationalley.com](http://automationalley.com).

Both of these programs, Emerging Sectors and Automation Alley, are bound together by the common denominator of high-tech, high-quality, and high-paying jobs. These jobs naturally fit with Oakland County demographics of highly skilled, educated professionals. And while the domestic automotive industry went through an unprecedented restructuring in the past year which resulted in fewer manufacturing jobs locally, much of the automotive research and development remains because of the education, talent, and experience that resides locally.

Since I began as County Executive in 1993, the focus of my administration has been to diversify Oakland County's economic base to hedge against downturns in single sectors, such as what occurred in the automotive sector. While it is unrealistic to believe that our local economy will ever be recession-proof, our goal is to become more recession-resistant. Clearly, our future is tied to the knowledge based economy.

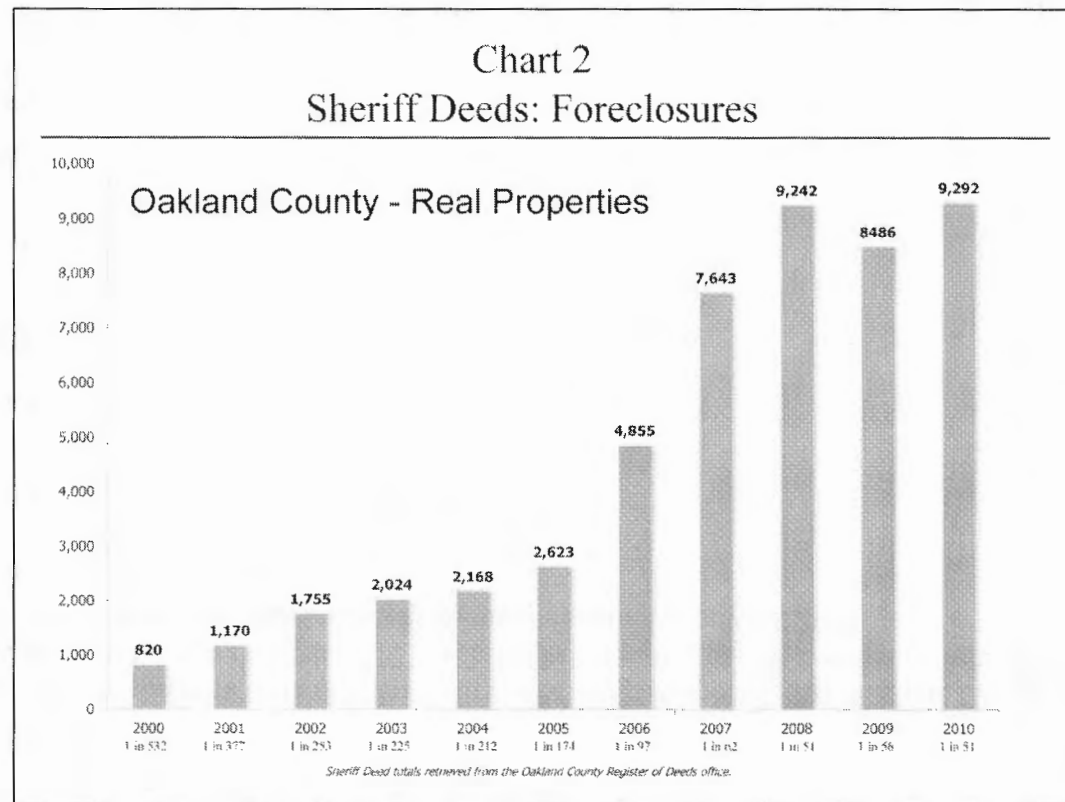

### ***Real Estate Value Decline / Impact on Oakland County's Tax Base***

Oakland County has not escaped the adverse impact the negative real estate market has had on our state and nation. The real estate downturn has proven to be a severe problem nationally, causing record-setting numbers of property foreclosures and declining property values. In comparison with the rest of the country, the real estate market began trending downward earlier in southeast Michigan because of the magnitude of job losses in the region.

Oakland County's centralized land record system, maintained on behalf of its cities, villages and townships, has allowed County managers to recognize the negative impact on Oakland County's tax base caused by declining property values well before almost any other governmental entity in Michigan. In 2006, our financial managers recognized that housing foreclosures were increasing and realized that the trend, if it continued, would create downward pressure on the real estate market, particularly in the residential segment. Recognizing that foreclosures are one of the leading indicators of changes in the housing market, the County began closely monitoring foreclosure rates on a monthly basis at that time.

As seen in Chart 2, the number of property foreclosures in Oakland County has increased dramatically since 2000. The 9,292 foreclosures in 2010 exceeded the prior record that was set in 2008. The increase in foreclosures in 2010 was expected considering the substantial number of Oakland County residents who became unemployed in 2009. It is likely that home foreclosures will continue at an above-normal pace for a couple more years as those who remain jobless exhaust their savings and unemployment benefits. With nearly 60,000 jobs lost in Oakland County in 2009, even if we assume that prior to losing their jobs many of today's unemployed had savings accumulated after long-term careers in the automotive and construction sectors, it still could be awhile before completion of the foreclosure process. While in 2011 there

are still a large number of foreclosures occurring (nearly 3,400 Sheriff deeds year-to-date as of May 2011), thus far the number of foreclosures appears to be dropping below the levels experienced over the past three years, but still in excess of “normal” levels by far.

A chain of events started with the increase in foreclosed properties in 2006. The foreclosures created a large inventory of homes for sale, an increase in supply. The situation became worse with the sudden decrease in the demand for real estate due to rising unemployment. It became difficult for employed potential homebuyers to obtain mortgage loans after the credit freeze following the 2008 financial panic and the consequential tighter mortgage regulations. With the supply of homes on the market vastly exceeding demand, there was a dramatic drop in real estate values. As real estate values fell and as distressed property sales increasingly dominated the already-weak housing market, it became difficult for homebuyers to obtain a sufficiently valued home appraisal to satisfy the lender, putting further downward pressure on the market.

Total assessed property values in Oakland County began a decline beginning in 2008. In Michigan, assessed value approximates 50% of market value. It is important to note that values for governmental assessing purposes lag real estate sales by up to two years, meaning that the real estate market value decline began before being recognized in 2008 for assessment purposes. Based on the most recent values published

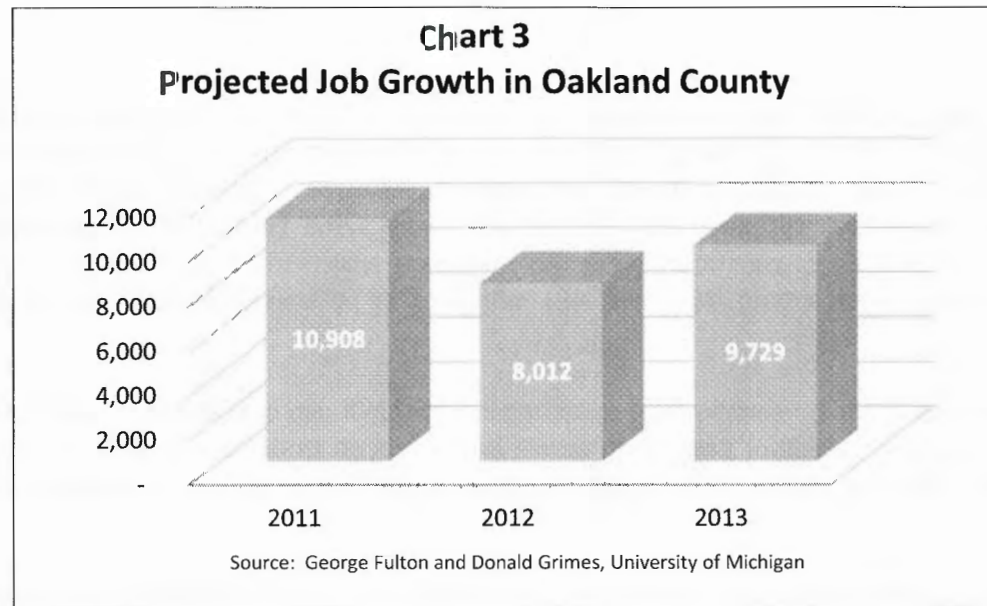

in the 2011 Oakland County Equalization Report, total assessed value in the County has fallen by 32.1% since 2007. The decline is expected to moderate over the next few years with future decreases in assessed values estimated to total approximately 9% over the next three years. (Equalization Reports are available on the County's website at [http://www.oakgov.com/equal/info\\_pub/equal\\_equal\\_rpt.html](http://www.oakgov.com/equal/info_pub/equal_equal_rpt.html).)

***After a Difficult Decade, Oakland County is Poised for Economic Recovery***

While the economic pain is undeniable and difficult to endure, in the longer-term the dramatic price reduction of property becomes an asset in terms of affordable housing. The key to recovery is to increase the number of jobs by continuing the County's focus and investment in business attraction programs. As these efforts bear fruit, more jobs will be added and that will help turn the housing market around. As the recovery takes hold, there will be enhanced opportunities to purchase affordable homes in our communities that offer a diverse array of lifestyles featuring beautiful homes in desirable neighborhoods having quality schools and an abundance of lakes, parks, golf courses, and quaint downtowns.

While some may be pessimistic as a result of the jobs that have already been lost, there is still much to be optimistic about. Oakland County has invested in the right programs to diversify its economy, to position itself for a strong rebound and to remain an economic engine of Michigan for the long-term.

Economists George Fulton and Donald Grimes from the University of Michigan reported that Oakland County will experience job growth this year in 2011 which is expected to continue through 2013. While they caution that the recovery will be slower when compared to past recoveries, they anticipate that the County's growth trajectory should be sustained beyond 2013.

When they presented their Oakland County Economic Outlook to business and government leaders in April 2011, Fulton and Grimes said:

*“The resurgence in the Oakland County economy appears to be no fluke, not related to any unusual events, but rather is backed by improvements in the U.S. economy, a reborn auto industry, and the county’s still-strong economic fundamentals and forward-looking policy initiatives.”*

Included in the list of assets which promises a long-term positive economic outlook for Oakland County:

- General Motors Corporation and Chrysler LLC quickly emerged from bankruptcy with lower debt and a lower operating cost structure. Ford Motor Company was able to downsize without going into bankruptcy and returned to profitability in the first quarter of 2010. As a result of restructuring their operations, the domestic auto companies now are able to sustain operations at a reduced break-even sales level.
- Market share of U.S. light vehicle sales for the three Detroit auto companies is estimated to increase from 43.3% in 2009 to 44.9% in 2011, expected to remain at this level for the long-term. Meanwhile, total U.S. light vehicle sales are estimated to increase from 10.4 million units sold in 2009 to 13.4 million units in 2011. U.S. light vehicle sales are expected to continue to increase to 15.8 million total units by 2013. Thus, sales for the Detroit auto companies are expected to improve with both an increase in market share and a higher volume of total light vehicle sales.
- General Motors Corporation reopened its Lake Orion plant located within the County for their next-generation small car assembly.

- Oakland County's recent economic development initiative, Medical Main Street, capitalizes on the vast amount of life science and health care resources that exist within the County. The Anderson Economic Group confirmed that life science and health care is the fastest growing sector in the County and that Medical Main Street has the potential to create an additional 45,000 new jobs in its first ten years. Additional information about Oakland County's Medical Main Street can be obtained at [www.medicalmainstreet.org](http://www.medicalmainstreet.org).
- Oakland County is home to a new medical school. Oakland University's William Beaumont School of Medicine inaugural class begins its Medical Degree program in September 2011. This new medical school is projected to have a multi-billion dollar economic impact, creating 11,000 new jobs including 600 clinical specialists.
- With its highly educated and skilled workforce, Oakland County is well poised to attract the high paying professional service jobs in demand by emerging sector businesses.

### ***THE FINANCIAL CONDITION OF OAKLAND COUNTY GOVERNMENT***

Oakland County employs policies and practices designed to ensure its continuing ability to provide quality services despite economic or budgetary challenges. Oakland County government's strong financial position is primarily a reflection of its adherence to policies and practices that result in strong long-term financial planning, low debt obligations, and maintaining responsible fund balance amounts in conformance with GFOA Recommended Practices.

Under Michigan law, the maximum amount of debt that could have been issued by Oakland County in 2010 was \$5.8 billion or 10% of its State Equalized Value. However, operating under the fiscally conservative policies of the County Executive, County Treasurer, and Board of Commissioners, as of the close of Fiscal Year 2010 Oakland County had incurred outstanding debt of \$810.0 million, only 14% of the permissible level. Of the total amount of debt issued, \$664.4 million was issued by the County as the primary governmental unit. In addition to the County's primary debt, the County pledged its full faith and credit as secondary obligor in the amount of \$145.6 million for Drainage District component unit debt.

With the exception of the annual issuance of limited taxing authority notes related to delinquent tax receivables, Oakland County's practice is to issue debt only for the purchase and/or construction of long-lived assets or to fund long-term liabilities such as the retirees' healthcare obligation. Any decision to issue debt, as opposed to using current resources or fund balance, is made only after it is determined to be fiscally advantageous to do so.

The majority of Oakland's pledged debt, approximately \$171.3 million, was issued to finance water, sewer, lake level, and drainage district projects. That debt will be repaid from special assessments levied by the local communities against the users of those systems. Another \$50 million of the total debt represents short-term tax notes issued to purchase delinquent tax receivables from governments within Oakland County. That debt is repaid from the interest and penalties associated with those delinquent taxes. Of approximately \$86.7 million debt outstanding through the Building Authority, \$3.4 million was issued on behalf of the City of Rochester Hills for the Sheriff Substation, \$19.2 million was issued on behalf of the City of Pontiac to refinance debt outstanding and complete the Phoenix Center, and \$5.5 million

was issued to assist the Oakland County Community Mental Health Authority (OCCMHA) purchase homes to support developmentally disabled individuals. The remainder of the debt issued through the Building Authority was for facilities utilized directly for daily County operations. The Building Authority debt for County-specific facilities will be repaid from either resources set aside in the County's Delinquent Tax Revolving Fund (see further discussion below), from the Airport Fund for construction of the new LEED certified terminal, or from Parks and Recreation funding (for the clubhouse at Lyon Oaks golf course) which has a dedicated millage separate from the County's general operating millage.

In addition to the pledged debt, in 2007 Oakland County issued \$557 million in Trust Certificates of Participation (COPs) which is taxable no-pledge debt. Taking advantage of the County's low amount of debt and its AAA credit rating, in July 2007 the COPs were issued to fully fund the remaining amount of unfunded accrued liability for "other post-employment benefits" (OPEB) which is primarily retiree health care. As a result of this action, Oakland County is the first county in the nation to fully fund its long-term retiree health care obligation. Conservatively, it is estimated that net present value savings in the range of \$100 million to \$150 million will be realized over the 30-year amortization of the OPEB liability. The anticipated savings result from the projected investment income that will be earned over the long-term from the COPs proceeds which exceed the locked-in interest rate paid on the debt for the COPs. As of September 30, 2010, the remaining balance on this debt was approximately \$502 million.

Much of Oakland County's financial success has resulted from its focus on long-term financial planning. For the past two decades, the County has gone beyond the requirement of adopting an annual budget by operating under a two-year "rolling budget." Two years ago, the effort was expanded to a three-year line item budget. This practice requires continuous financial planning that looks at least three fiscal years into the future. That continuous, forward-looking focus enables the County to anticipate problems and to take appropriate action well in advance of major budgetary fluctuations.

The County also maintains a strong position control and position budgeting system, and follows the practice of budgeting for full employment. Should vacancies occur or positions become filled at a level lower than the maximum authorized, the resulting favorable budget variance falls to fund balance.

Maintenance of a favorable fund balance is an indicator of a healthy operating environment. Favorable variances falling to fund balance are created as part of an intentional financial management strategy (for example, budgeting for full employment) and are relied upon to ensure that adequate fund equities are maintained to pay employees and vendors throughout the year, particularly in the General Fund.

The General Fund is the principal fund used to record the operations of typical government functions. The fund's primary source of revenue is the property tax. For the fiscal year ended on September 30, 2010, the total fund balance in Oakland County's General Fund was \$149.0 million, of which all but \$516,356 is reserved, designated, or otherwise earmarked for specific purposes. The total fund balance in the General Fund represents approximately 38.9% of the General Fund/General Purpose (GF/GP) Adopted Budget for Fiscal Year 2011. This level of fund balance exceeds the minimum amount of two months' operating reserves (approximately 17%) recommended as a best practice by the Government Finance Officers Association (GFOA).

The Delinquent Tax Revolving Fund (DTRF) is another fund meriting discussion. The DTRF was established in 1974 to help stabilize annual revenues for local taxing units. It does this by paying our local communities 100% of their share of delinquent property taxes in anticipation of the collection of those taxes by the County Treasurer. The County funds the DTRF by borrowing money and issuing revolving fund notes. Payment of the notes is made from the proceeds of delinquent tax collections. Once the notes are paid in full, any surplus in the fund may be transferred to the County General Fund by action of the Board of Commissioners.

Upon recommendation of my Administration and with the support of the County Treasurer, in 2001 the Board of Commissioners adopted the DTRF Fiscal Responsibility Plan. The purpose of the Fiscal Responsibility Plan is to guide the prudent use of surplus fund balance in the DTRF without jeopardizing the fund's primary mission of providing a timely, stable revenue stream to the local taxing units. At the close of Fiscal Year 2010, the total DTRF fund balance reported was \$225 million.

The foremost rule of the Fiscal Responsibility Plan is that the DTRF must maintain a sufficient corpus in the fund to guarantee timely payment of outstanding notes and acquisition of delinquent property tax receivables from governmental units. Accordingly, \$135 million of the fund balance was designated (set aside) to provide the cash flow necessary for the purchase of delinquent tax receivables and note repayment.

Beyond protecting the fund's primary purpose, Oakland County's Fiscal Responsibility Plan includes a strict policy for accessing funds from the DTRF. Any appropriation from unrestricted DTRF funds, except penalties and investment interest, are limited to one-time expenditures. This avoids reliance on the DTRF for the general and recurring operating costs of the County. Instead, the DTRF provides a funding mechanism for major capital projects, which are generally one-time expenditures. Use of DTRF funds for even one-time expenditures requires an affirmative vote by two-thirds of the Board of Commissioners. As of September 30, 2010, approximately \$66.3 million of the DTRF fund balance has been restricted to fund debt service payments on bonds issued for Board-approved major capital projects. Projects secured by the DTRF debt service funding program include the Work Release Facility, the Video Conferencing System, the Jail Management System, the Rochester Hills District Court, and the purchase and renovation of the former Oakland Intermediate Schools building which is now the Executive Office Building.

Oakland County's strong economic base, solid tax base, and responsible financial policies and practices have been acknowledged by the financial investment community. In recognition of Oakland County's financial strength and superior managerial performance, the County has continued to earn the highest bond rating achievable, AAA, from Standard & Poor's and Moody's Investors Service. This AAA bond rating allows the County to borrow at the lowest possible interest rate, saving County taxpayers millions of dollars in future borrowing costs. Local governments within Oakland County benefit from this bond rating for certain projects as well (such as water and sewer projects).

## ***CURRENT BUDGET ISSUES AND RECOMMENDATIONS***

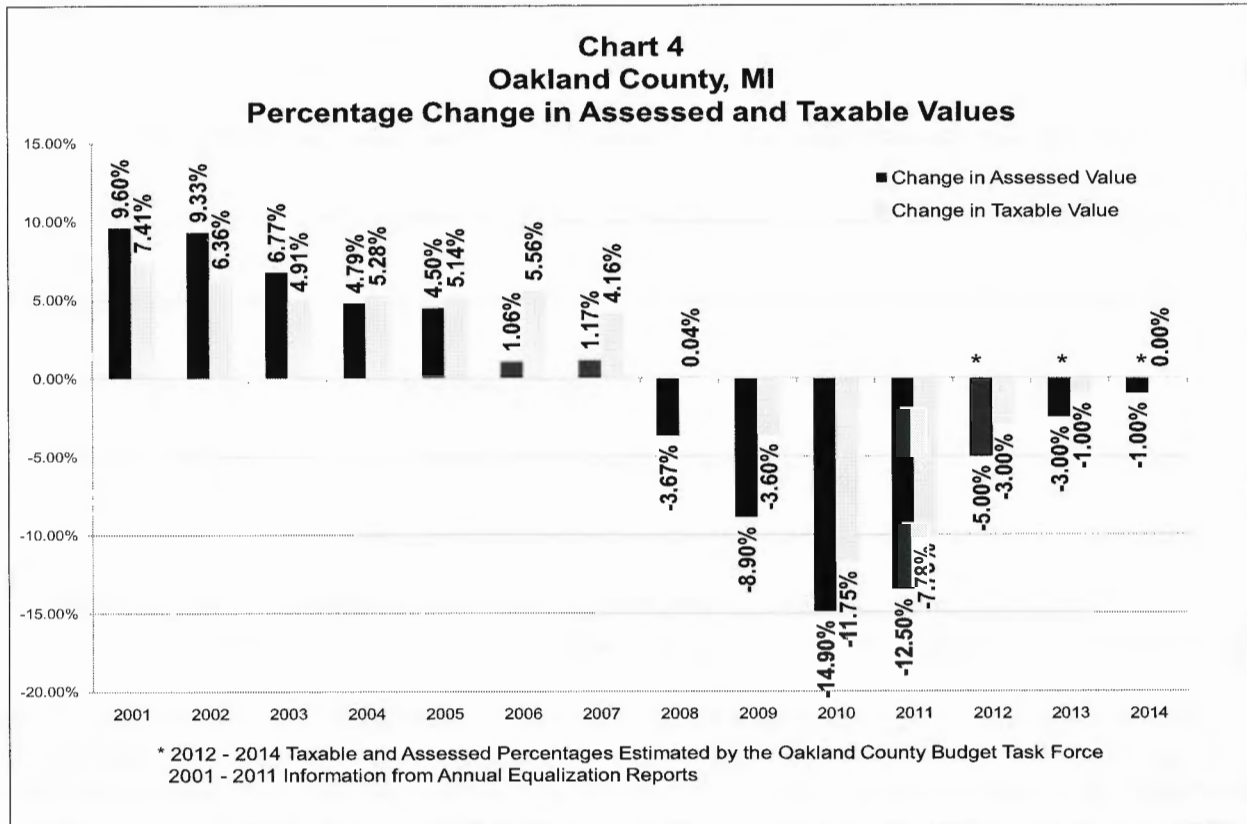

As previously covered in the “Financial Outlook” section of this message, Michigan has been economically challenged for the past decade. The state economy affects Oakland County’s budget in many ways, but the single largest budgetary impact is on our property tax revenue. Like many across the country, most local units of government in Michigan are heavily dependent on property taxes for their primary source of General Fund revenue. Oakland County has not been immune to the need to initiate budget reductions as a result of declining property values and reduced property tax revenue.

### ***Property Tax Revenue***

In the four-year period from 2007-2011, property values in Oakland County fell by 32.1%. Given Michigan’s enduring recession, it is projected that property values will continue to fall over the next few years although not as steeply. After 2014 it is expected that county-wide assessed values will stabilize, however, it is estimated by that point in time assessed values will have fallen in total by nearly half when compared to 2007 values.

As assessed values are dropping, taxable values are also falling. (Note: in Michigan, taxable value is calculated differently than assessed value; for more information regarding how these values are determined, refer to the County’s Equalization website at <http://www.oakgov.com/equal/assets/doc/PropAinfo/ProposalAGuide12-14-10.pdf>.) Taxable value is the base upon which property taxes are calculated. Property tax is the primary source of revenue for the County’s GF/GP operations (currently in FY 2011, property tax revenue represents 48% of the total GF/GP budget; in comparison, 60% of total GF/GP revenues in 2008 came from property taxes).

The effect of the declining real estate market has been a total reduction of 23.09% County-wide taxable value since 2007. Chart 4 illustrates historical and projected annual percentage changes for both assessed and taxable values.

While a decline in County property taxes is still anticipated, it is less of a decline for FY 2011 through FY 2014 than projected last year when the Triennial Budget was being developed, thus an improvement in anticipated tax revenues as can be seen in the chart 5.

### *Approach to Balancing the Budget*

The current economy and loss of tax revenues require governments to restructure service delivery. Annual budgets and year-after-year of short-term or one-time fixes are not only fatiguing, but can become an impediment to restructuring for long-term sustainability. Restructuring should consider how to get the most out of the limited available resources. Beyond simply reducing the workforce, alternative service delivery options should be explored which include partnering with the private sector or non-profit agencies, sharing services with other governmental units, and utilizing technology. These efforts usually take time to plan and implement and can extend beyond a government's current fiscal year. A multiple-year budget can lead to meaningful restructuring and result in improved government services over the long-term. Long-term budgeting may not totally prevent the need for difficult budget cuts, but it can serve to minimize the severity of cuts and help protect essential core government services. In the design and execution of an effective long term budget, it is also essential to have the commitment and cooperation of all elected officials. Oakland County government enjoys that commitment and cooperation.

Oakland County's methodical budget process has mitigated the impacts of the fiscal turmoil caused by events outside its control (i.e., unemployment, property value declines, automobile industry restructuring, and budget turmoil at all levels of government – Federal, State, and local). To date, Oakland County has successfully balanced its budget while mindful of the following goals and practices:

- Avoid increasing taxes and fees which burden County residents and businesses.
- Retain stable and essential services while minimizing involuntary employee separations.
- Grant programs are restructured and/or reduced as needed consistent with reductions in special revenue grant funds, which prevents assuming new program obligations within the General Fund and potential "crowding out" of general resources.
- Retain the County's financial strength in stable fund equity and cash positions, provide adequate cash flows throughout the year, and maintain low outstanding debt.
- Restrict the use and reliance on equity and other 'one-time' budget "sources" in solving **structural** operating shortfalls.
- Rely heavily on strong accounting, budgeting and other business practices in achieving long-range planning efforts.
- All new major capital and technology projects undergo a rigorous return on investment process before they are launched. Projects are to be funded out of current operations to the extent feasible.

- Provide continuous communication with County-wide elected officials concerning the status of the operating budget with emphasis on obtaining commitment from the County-wide elected officials to solve their share of budget task and avoid unnecessary interference in their respective programs by the County Administration and Board of Commissioners.

Oakland County has been preparing multiple-year budgets for over two decades. With the budget adopted by the Board of Commissioners in September 2009, Oakland County expanded its detailed line-item budget from a Biennial Budget to a Triennial Budget. Throughout most of the past decade, since the onset of the previous national recession in the early 2000's, Oakland County's elected officials, department heads and managers have been diligently adjusting the budget so that spending does not exceed the constrained revenues. We have been able to do this using various initiatives: technology enhancements; restructuring and downsizing; retirement incentives; hiring freezes; fringe benefit changes; privatization of some programs; as well as reducing or closing some programs. Because the County has been continually focused on budget reductions for the past nine years, *it has become an embedded part of the County's culture throughout all organization levels to continuously search for service and process enhancements.*

### ***Cumulative Results through Incremental Changes***

Budgetary challenges that have been addressed and resolved during this past decade include: the general economic effects from two national recessions, reduced State funding, increased costs for juvenile institutions, and specific areas with rapidly rising costs (such as health care for employees and retirees and fuel costs). The long-term financial planning efforts have paid off, and the efforts of the past decade have resulted in significant budget reductions keeping the finances of Oakland County in excellent condition. Simultaneously, employee layoffs have been rare, and essential County services have been maintained.

Oakland County's approach to restructuring programs and service delivery through long-term financial planning has yielded extraordinary results thus far. What we have accomplished to balance our budgets over multiple years has required significant teamwork and cooperation from Oakland County's elected officials, managers, and employees. The below list summarizes some of the major accomplishments achieved as a result of our focus on long-term planning and savings from incremental changes over time:

- Over 300 full-time positions cut since 2008 with less than 10 layoffs
- 2.5% general salary reduction in 2010 and an additional 1.5% general salary reduction in 2011
- Selective outsourcing of services produced \$7.6 million of annual recurring savings and cumulative savings of over \$50 million
- Implementation of a new retiree health care plan for newly hired employees in 2006 (long-term savings estimated to be \$400 million)
- Implementation of an employee wellness program in 2007
  - Health care costs through 2010 remained flat
  - \$12 million in cost avoidance had health care continued to rise at an annual rate of 9%
- Retirement separation incentive offered in 2008 resulted in 152 retirements and produced \$10 million in ongoing yearly savings from position reductions and other structural changes
- Pension plan fully funded since 1997
- Retiree health care obligation fully funded since 2007

### ***Long-Term Sustainability: Balancing Revenues and Expenditures While Maintaining a Healthy Fund Balance***

Oakland County sees long-term fiscal stability as a process which is not simply based upon balancing annual appropriations with available revenues, but a process designed to maintain a healthy balance sheet. The County Executive Administration's benchmark for a "healthy balance sheet" would include a General Fund balance that equals at least 20% of GF/GP revenues. The 20% figure is slightly above the best practice recommendation by the Government Finance Officers Association (GFOA) to maintain a minimum two months of revenues in fund balance (approximately 17%). It is prudent for Michigan counties to maintain a level of fund balance above the minimum amount recommended by GFOA due to fact that counties must collect property taxes in arrears (i.e. expenditures are paid months ahead of the related property tax collections), pursuant to Public Act 357 of 2004. By maintaining a healthy balance sheet, in addition to a balanced budget, the County's elected officials can ensure the continuation of vital services to County residents.

Oakland County's FY 2012 – FY 2014 Executive Recommended Budget, therefore, should not be viewed in isolation but as one portion of our ongoing financial planning process. The linchpin of this process is the constant review of new information and early implementation of budgetary/fiscal actions which adjusts for the new information. Therefore, to fully understand the actions taken to balance the FY 2012 – FY 2014 Executive Recommended Budget, one must review the actions taken during previous budget cycles.

Over the past several years, in developing the "rolling" Triennial Budget, elected officials are allocated an apportioned budget reduction task amount targeted for each of the subsequent three fiscal year periods. These tasks are assigned to each elected official based on their portion of the GF/GP budget. An incentive is also provided: should an elected official reduce their budget by an amount which exceeds their task for any given year, the "surplus" savings are designated in a fund balance account which is earmarked for that elected official and can be used as an offset against their future budget tasks. These designated fund balances ("credits") are designed to be a one-time source of budget transition funds, permitting the County's leaders with sufficient time to plan and implement permanent, structural budget reductions. Once these budget transition credits are exhausted, structural permanent reductions are expected to be implemented for long-term sustainability.

Efforts of the types described above enabled our General Fund balance to increase from \$43 million as of fiscal year-end 2000 to \$149 million by fiscal year-end 2010, which is remarkable considering that the past decade has been the most financially challenging as discussed throughout this budget message. This growth in fund balance was deliberate and planned as part of Oakland County's approach to sustainability and balancing the budget for the long term. Ideally, our long-term sustained fund balance target is \$85 million. Over the next several years, fund balance will be drawn down gradually as programs are further restructured for ongoing permanent savings.

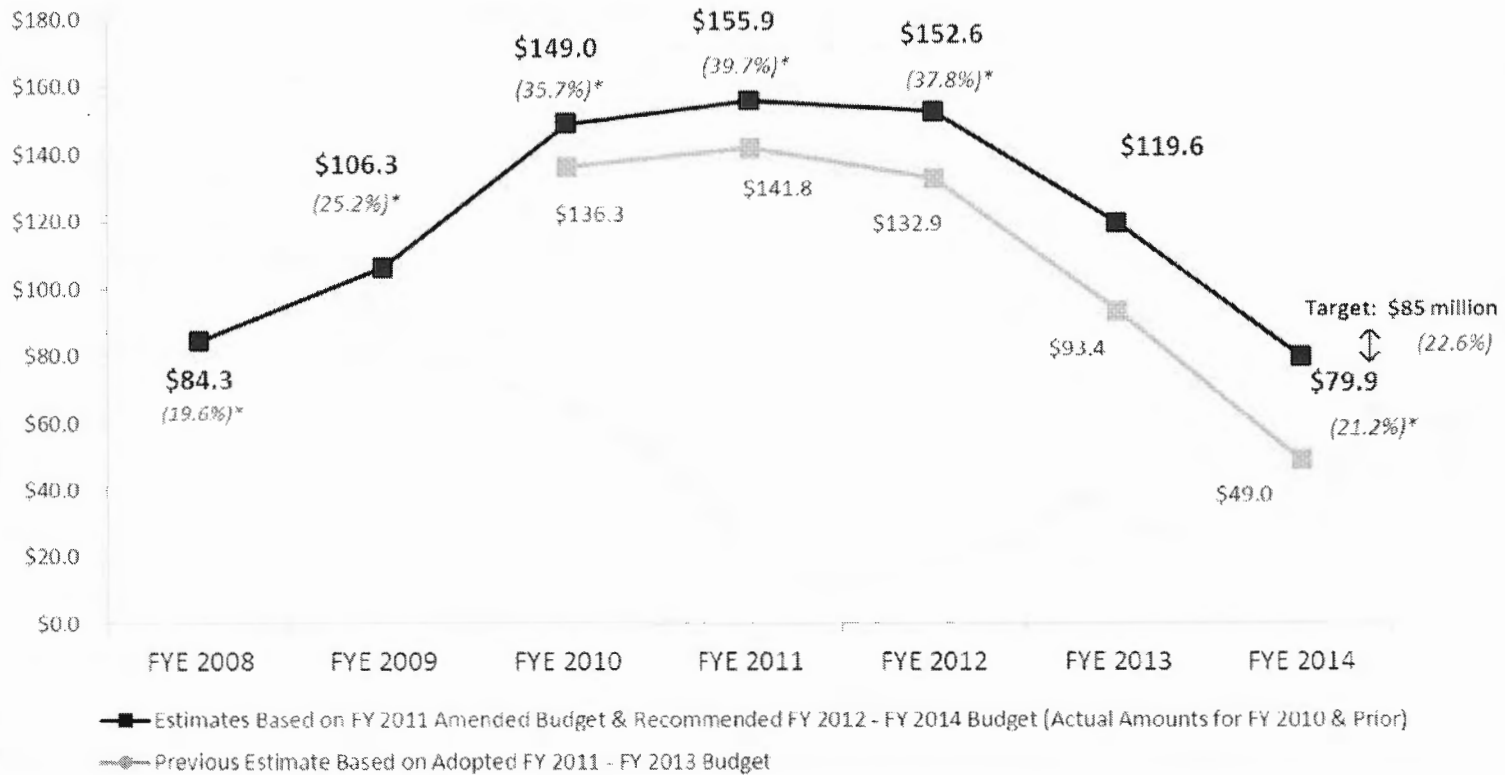

As can be seen in Chart 6, as a result of continued planning for early implementation of budget reductions, based on the current FY 2011 amended budget and forecasted operating favorability, fund balance is projected to increase to \$155.9 million. Thereafter, if the County's elected officials took no further action beyond the planned reductions contained in this recommended budget through FY 2014, the General Fund balance would eventually decrease over the next three years to \$79.9 million, equivalent to 21.2% of ongoing operating revenue. However, while still a healthy level of fund balance, operating shortfalls are still projected in the long-term for FY 2015 and FY 2016 as will be discussed subsequently in the "Future Outlook" section of this message. And, because a county must collect its property tax levy in

arrears, as was discussed previously in this message, Oakland County's long-term goal is a sustained fund balance of \$85 million to avoid a potential cash flow problem in the future. It is worth repeating that the eventual short-term use of General Fund balance has been a planned event, designed to allow the County's elected officials flexibility in redesigning their operations for the long-term so that services can be maintained during this period of shrinking property taxes.

It is apparent from Chart 6 that the County's long-term fiscal stability plan is designed for significant growth in fund balance through FY 2011 before accumulated budget transition credits are used as planned in FY 2012 through FY 2014. There is a concern about the inability to rely on use of General Fund balance beyond FY 2014. However, as can also be seen in Chart 6 is that the County's long-term financial planning process works. Last year, when the Triennial Budget for FY 2011 – FY 2013 was adopted, it was forecasted that the General Fund balance by the end of FY 2014 *could* fall to \$49 million which would have been a \$100 million reduction from FY 2010's balance. That could have been the case if the County team had decided to take a "wait and see" approach and stopped budget restructuring efforts. That obviously did not happen. Instead, even after the budget was adopted last year and even though we were balanced through FY 2013, work on the budget continued non-stop by all elected officials. Oakland County has been able to achieve remarkable budget reduction results year after year because of the continuous efforts and cooperation from all its elected officials.

Additional budget task amounts were calculated in early January of this year and a portion of the total task was allocated to each elected official which has become the practice over the past several years. In fact, some elected officials were anxious to begin preparing reductions for the FY 2012 – FY 2014 budget and began asking for their new task amounts in fall of 2010. The total additional County-wide task amounts were as follows: \$700,000 additional reductions in FY 2011; plus \$900,000 more in reductions for FY 2012; plus another \$1 million in reductions for FY 2013 and again in FY 2014. It should be noted that FY 2011 – FY 2013 was already balanced with the adoption of last year's budget. However, our effort is to balance for the long-term and our focus was on balancing FY 2014 and maintaining a health fund balance while at the same time. Once again, every elected official met their additional assigned budget task. As a result of these efforts and the fact that property taxes are not expected to decline as much as estimated when the budget was adopted last year, the projected fund balance for end of FY 2014 improved by nearly \$40 million to \$79.9 million which is very near our \$85 million long-term target. I have no doubt that as we continue with our "rolling" triennial budget planning process, we will have no problem meeting our long-term target.

**Chart 6**  
**Estimated General Fund Balance**  
 (in millions)

\* Percentage = fund balance at year-end/fiscal year total revenues less planned use of fund balance

Note: The above chart represents the estimated level of General Fund balance based on the County Executive Recommended Budget for FY 2012 - FY 2014. As the County continues to reduce the budget for long-term sustainability and accelerates those efforts, it will continue to have a positive impact on future projected General Fund balance. These estimates reflect planned use of fund balance and assumed personnel turnover savings of \$5 million annually.

The projected levels of future fund balance contained in Chart 6 include the following assumptions: no future changes to County operations other than the reductions included in the County Executive FY 2012 – FY 2014 Recommended Budget; all elected officials honor their budget reduction commitments as contained in this budget recommendation, and a nominal operating surplus of

\$5 million each year from employee turnover savings which normally contributes to fund balance each year since the County budgets all positions based on 100% full employment.

### ***FUTURE BUDGET OUTLOOK AND CONSIDERATIONS***

Oakland County goes beyond the legal requirement of adopting an annual budget as evidenced by our three-year budget plan. Beyond developing the three-year budget plan, Oakland County looks for potential future budgetary issues by projecting future revenue and expenditure trends. The budget for Fiscal Years 2012, 2013, and 2014 has been balanced through the acceleration of cost reduction efforts proposed by the County’s elected officials and by the short-term use of surplus made available as a result of the accelerated efforts. Unfortunately, due to the permanently lowered threshold of property tax revenue resulting from the economic decline and in anticipation of reduced state revenue sharing, structural budget shortfalls are projected for FY 2015 and FY 2016. Given our existing revenue structure and current programs, it is clear that *if* preemptive action were not taken, Oakland County would have serious budget shortfalls in the long-term as illustrated in Chart 7 which compares historical and projected GF/GP revenues to expenditures.

### *Governmental Budgets in Michigan and Intergovernmental Cooperative Efforts*

One significant change in estimated revenue for FY 2015 and beyond is an assumed 1/3 reduction in State revenue sharing payments (\$8.2 million reduction). As historical background information on this issue, State revenue sharing payments to counties were eliminated with the passage of the State's FY 2005 budget. As a temporary replacement for these state payments, the legislature imposed a summer county tax across the state, which transitioned over a three-year period beginning in July 2005. The end result after the three years was a permanent date shift in the county tax collection period from winter to summer. The intentional result by the State was an additional year of property tax collections over the three years. In essence, four years of property taxes were levied within three fiscal periods. The additional year's worth of property tax revenue was required by State law to be placed in a restricted Revenue Sharing Reserve Fund (RSRF). The RSRF dollars are used to replace the State suspended revenue sharing payments to counties – in Oakland County's case, over eleven (11) years into 2015. The RSRF will be depleted in FY 2015 as planned and intended by the State. At that time, it is expected that the State will honor its promise to once again provide revenue sharing payments to the County as it already has to the other counties that have depleted their RSRF dollars. However, because the recently passed State budget for FY 2012 includes a 1/3 reduction for revenue sharing payments, we are assuming that our funding will be reduced likewise when State revenue sharing is restored to Oakland County in FY 2015.

As evidenced through previous budgetary actions throughout most of this past decade, Oakland County has and will continue to operate within its limited resources. This will be accomplished by continuation of our successful financial planning practices which include long-term financial forecasting, monitoring of the economic conditions and their impact on the budget, identifying opportunities for increased efficiencies, and continuous efforts toward reducing expenditures.

What is not included in the Recommended Budget and long-term forecast are the impacts that are certain to be imposed by the State of Michigan upon local units of government including Oakland County. When the new Governor, Rick Snyder, took office in January of this year, he hit the ground running, and dramatic changes are already occurring. Governor Snyder delivered his budget to the legislature in mid-February, one month ahead of schedule. As promised, the legislature completed its work on the budget this year well ahead of schedule with final passage before the end of May.

The State budget for FY 2012 primarily focused on significant changes to the business tax and personal income tax structures; expenditure reductions primarily impacted revenue sharing payments to local units of government as mentioned previously as well as funding for K-12 and higher education. There has been minimal impact on Oakland County's budget in the near-term thus far since we currently do not receive State revenue sharing payments as already discussed.

The Governor and State Legislators continue their review of the overall tax structure within Michigan, and future changes are possible that will directly impact revenue for local governments. Currently, the most significant discussion pertains to personal property tax (PPT) which is imposed on business equipment and machinery. In an effort to encourage business expansion and thus additional jobs in Michigan, there are discussions at the State level about how to phase out and/or eliminate the PPT. For some communities where major manufacturing plants are dominant, PPT may account for 50% or more of their total property tax revenue. Thus, the State is analyzing how it can revise the PPT

without devastating results for local governments. For Oakland County, approximately 7.3% of total taxable value or approximately \$14.5 million of property tax revenue is from the PPT.

There are other proposals being considered at the State that will impact Oakland County's budget and its workforce. Most of these proposals are aimed at reducing the cost of public employee compensation within Michigan at all levels of government - State, local, schools, and universities. For example, most recently Public Act 54 was enacted which prohibits retroactive pay when bargained contracts expire; this same Act requires any increase in employee benefit costs, during the period of an expired contract, to be passed on to the represented employees. Currently, there is much effort at the State level to cap the cost and/or employer match for employee health care. When the impact from these initiatives is known and can be quantified, the County Executive Administration will present recommended budget amendments to the Board of Commissioners for incorporation into the Triennial Budget and future forecast.

This Recommended Budget does include two significant programmatic changes as a direct result of the State FY 2012 budget. First, in an effort to reduce its prison costs, the State has initiated discussions with selected county jails to potentially house State prisoners. The Oakland County Sheriff is negotiating with the State Department of Corrections to house short-term medium security prisoners in an existing available County facility. This contractual arrangement should result in an estimated net financial benefit for the County in the amount of \$1 million which is included in the Recommended Budget. Since the anticipated State contract was credited against the Sheriff's budget task allocation, if for some reason a contract is not executed with the State, the Sheriff has committed to providing alternative reductions in his budget. Second, the State Court Administrative Office reviewed judicial needs throughout Michigan; as a result, there will be one less Judge in the 52<sup>nd</sup> District Court, IV Division (Troy). The State pays for the salary and fringe benefits of the Judge while the County pays for the judicial support staff. This will result in annual savings of approximately \$155,000 to the County for the deletion of one Court Clerk and one District Court Recorder.

The Governor also established funding incentives in the FY 2012 State budget to encourage collaboration and shared service agreements between independent governmental entities within Michigan. For cities, villages, and townships (CVTs), a portion of their allocated revenue sharing payment will require a plan to increase levels of cooperation, collaboration and consolidation within their jurisdictions or with other jurisdictions. The goal is to attain cost savings through economies of scale and reducing duplication of efforts.

Oakland County has long been a leader in collaborative initiatives, not just among CVTs within our County's borders but also regionally beyond our borders. Automation Alley is a highly successful collaborative initiative highlighted previously in this document while discussing our economic development initiatives. A premiere example of collaboration is our Courts and Law Enforcement Management Information System (CLEMIS) program. CLEMIS provides data sharing and low-cost access to criminal information through cutting-edge computer technology. Over the past 35 years it has evolved from its roots as a service provider to Oakland County local police agencies to an award-winning program that is one of the largest law enforcement consortiums in the nation, The CLEMIS membership includes over 200 public safety agencies across five Southeastern Michigan counties: Oakland, Macomb, Washtenaw, Wayne and Genesee. CLEMIS products, which are developed and managed by Oakland County, include: computer aided dispatch, records management, digital mugshots and fingerprints, crime analysis mapping, and numerous other applications.

Most recently, at the request of the Emergency Manager for the City of Pontiac, the Oakland County Board of Commissioners approved a contract for the Sheriff to provide police and dispatch services on behalf of the City. This contract will provide approximately \$2.2 million in savings annually to assist the City in its deficit-elimination efforts. Pontiac citizens will benefit with an increased number of police officers (increasing from 51 to 74) and enhanced dispatch services.

Many of our CVTs contract with Oakland County for services, such as animal control services, real property assessing and personal property appraisal services, Information Technology services, water and sewer services, and collection of delinquent taxes, just to name a few. Oakland County also provides free support to its local communities such as community planning services, support of the Main Street program which includes 11 downtown areas, and free internet to CVTs in the County. For further information regarding Oakland County's commitment to intergovernmental cooperation, visit its web site: [http://www.oakgov.com/services\\_index/government/cvt\\_services.html](http://www.oakgov.com/services_index/government/cvt_services.html).

Oakland County is excited about a public-private partnership to provide competitively priced wireless broadband services in the northern and western tiers of the county, where none are available today. As part of the Wireless Oakland initiative, we are going to provide to our private-sector partner, Air Advantage, access to our strategically placed towers. Air Advantage has received federal financing allocated for the development of rural broadband networks. Here is the important trade-off: in exchange for access to our towers, Air Advantage will offer free Wi-Fi services in some of our downtown areas. The first three downtown communities that are currently being engineered for free Wi-Fi are the Village of Holly, the Village of Oxford, and the City of Clarkston. We expect to add other downtown communities in the near future. For additional information about Wireless Oakland, please visit our website at: <http://www.oakgov.com/wireless>.

In May 2009, I announced the formation of the Economic Growth Alliance (EGA). The EGA consists of six counties: Oakland, Livingston, Genesee, Lapeer, St. Clair, and Macomb. All six counties collaborate on joint opportunities for economic growth, diversification and positive legislation that may impact the counties. This collaboration brings together several key assets that will fuel business development opportunities, including: the Blue Water Bridge in Port Huron; Interstate 69 and the I-96/U.S. 23/M-59 corridors; Flint Bishop International Airport; Oakland County's Medical Main Street initiative; and Macomb's international border with Canada as well as its dynamic and expanding defense industry sector. When all of the assets and potential for growth are combined in EGA region, it is an economic development force to be reckoned with.

### ***Property Tax Limitations***

Going forward, it is clear that ongoing budget challenges will remain for some time primarily as a result of less revenue. There has been much discussion in this budget message regarding the daunting and unprecedented decline in property tax revenues. It might not be understood by everyone that even when the economy recovers in the future and property values begin to increase again, taxable values and thus tax revenue will not return to the 2007 peak level for a very long time. This is because in Michigan there is a constitutional limitation on the growth of taxable value on existing properties which cannot be greater than the rate of inflation or 5%, whichever is less. In contrast, expenditures required to sustain County operations are not capped. This is why Oakland County must remain diligent by focusing on the long-term financial outlook. We must continue to make incremental expenditure reductions until, ultimately, we are structurally aligned with the reduced level of revenues, which because of constitutional limitations will not bounce back when the economy eventually does fully recover.

Since adoption of the Headlee Constitutional Tax Limitation Amendment in 1978, Oakland County has been in the position of being able to consistently levy a millage rate well within the Maximum Allowable Tax Rate. When the economy is robust and property values are increasing above the inflationary rate, the impact from the Headlee Amendment usually results in a required “roll-back” in the maximum authorized rate. Without a vote of the people that rate can never be “rolled up.” In the case of declining values as being experienced in the current economy, the result is merely a temporary halt of the roll-back. Due to the cumulative impact of the Headlee Amendment, the differential between the County’s current levy of 4.19 mills and the maximum allowable rate is diminishing, as illustrated in Chart 8.

Translated into property tax dollars that otherwise could have been levied during the 14-year period displayed, Chart 8 shows that Oakland County taxpayers were spared in tax collection more than \$60 million because County government opted to levy a reduced rate rather than the maximum millage rate allowed by law. However, even given our past ability to levy a rate well within the Maximum Allowable Tax Rate, the County is still not immune to millage rollbacks in the future. The calculation of the rollback depends on several factors, including:

- Inflation as measured by the Consumer's Price Index
- Increase in taxable value of existing property
- Additions and deletions to the County's assessment roll

Ironically, since real estate sales have been suppressed and there has been very little uncapping of taxable value for the past few years on existing properties for ownership transfers, no rollback has been required since 2005. However, once the economy and property sales normalize in Michigan, the Headlee Amendment will eventually require the Maximum Allowable Tax Rate to be rolled back below the current millage rate levied by Oakland County. This is not likely to happen for several years beyond an economic recovery. The only growth in the property tax revenue base beyond the lesser of the rate of inflation or 5% would come from new construction, which is entered onto the tax rolls at its current market value. Because of the surplus of residential and commercial property, new construction allowing for the growth of taxable value outside the Headlee Amendment is not likely in the near future. The Headlee Amendment limitation may one day adversely impact the ability of the Board of Commissioners to raise future taxes for a demonstrated need, such as a new jail or courthouse.

### *CONCLUSION*

We in Oakland County have much to be proud of. While tough decisions have been and will continue to be made, because we are planning ahead we are able to make those decisions in a manner that will ensure long-term financial sustainability for the services that we provide to our citizens. Our history of diligent financial planning and demonstrated ability to manage our budget over this difficult past decade demonstrates the talent and leadership of Oakland County's elected officials and the ability to work as a team - something that we can and should be proud of.

In an effort to share the County's best financial planning practices with neighboring governmental units, Oakland County has hosted Budget Symposiums to provide local government leaders with long-term financial planning tools. (The video-taped presentations and presentation materials from the symposiums can be accessed on Oakland County's web site at: <http://www.oakgov.com/exec/budget>.) As a result of the symposiums, many local governments have reported to the County that their leaders have begun the process of developing a long-term financial forecast and multiple-year budgets. Our goal is to ensure not only the long-term fiscal strength of the County but also the long-term viability of our local governments. Not only is Oakland County one of the rare AAA counties that exist in the nation, it also has within its borders the only four Standard & Poor's rated AAA municipalities in the entire State of Michigan: the Cities of Birmingham, Bloomfield Hills, Troy and the Township of Oakland.

I want to take this opportunity to thank the Oakland County employees for their dedication and hard work. Most of them understand the financial challenges imposed by the economy, and they have accepted bearing some of the burden to reduce costs. This includes a 2.5% pay reduction in FY 2010 and another 1.5% reduction in FY 2011, which the elected officials voluntarily accepted as well. This budget recommendation includes no general salary increase (0%) for FY 2012 and FY 2013 and a 1% general salary increase for FY 2014.

This budget recommendation embodies the principles that are important to Oakland County and have long been voiced by those of us who are elected to serve its citizens. This budget was balanced without a tax increase. It preserves jobs, which are necessary to ensure delivery of needed services to the Oakland County citizens. It is flexible enough and manageable enough to get us through the next three years which will prove to be the most financially difficult yet for Michigan governmental units. And, it was accomplished through a partnership of all Oakland County elected officials who have embraced the prospect of reshaping our County government to become stronger and even more efficient in the long run.

I am confident that Oakland County will continue to rank as a premier County, both financially and programmatically. Wall Street shares this confidence, having affirmed the County's AAA bond rating for the past 14 years. After a recent visit with Wall Street analysts, Moody's included the following comment in a recent analysis: *"While the county faces significant economic and financial challenges, Moody's is confident that management has identified important ways to maintain a healthy financial position. Despite expected declines in taxable valuation, the county has identified specific ways to close the projected budget gaps through 2013."*

WHEREAS the Finance Committee received budget requests from all County Departments, and has reviewed in detail the County Executive's Fiscal Year 2012 Budget Recommendation; and

WHEREAS the Finance Committee, after due deliberation, has formulated a Recommended General Appropriations Act balancing total appropriations with available resources at \$796,178,345 for Fiscal Year 2012, a summary of which was included in the Notice of Public Hearing published in newspapers of general circulation; and

- 2) To that end, at no time shall funds be diverted from the DTRF that would cause the unrestricted balance to fall below a level that would assure a prompt payment of all current and future outstanding General Obligation Limited Tax Notes, as well as assure the continued operation of the DTRF as specified in the preceding paragraph.
- 3) Penalties and investment interest generated by the DTRF may be transferred, in whole or in part, to the General Fund of the County upon majority vote of the Board of Commissioners so long as such transfer(s) meets the provisions of paragraph #2 above.
- 4) Any and all appropriations from unrestricted DTRF funds, excepting penalties and investment interest, shall be limited to one-time expenditures, as opposed to recurring operations.
- 5) Unless otherwise specified, appropriations from the DTRF shall be considered long- or short-term advances (with specific time frames detailed in the authorizing resolution), to be repaid with interest as specified below.
- 6) Any appropriations from unrestricted DTRF funds, excepting penalties and investment interest, not considered advances to be repaid within a time certain shall require a two-thirds majority vote of the Board of Commissioners.
- 7) All appropriations from unrestricted DTRF funds considered to be advances to be repaid within a time certain shall require a majority vote of the Board of Commissioners.
- 8) Terms and conditions of any and all advances from the DTRF shall be specified in the authorizing resolution, including interest obligations detailed as follows:

- a. Interest on each payment will be based on the average monthly rate paid during the term of the agreement by the agent of the DTRF for that year's outstanding borrowing, or
- b. In the event no borrowing occurs for the DTRF, principal and interest payments will be made in accordance with the previously established "Loan of County Funds Policy" (Miscellaneous Resolution #89276) which requires Board approval of repayment terms at an interest rate no less than the prevailing six-month Treasury Bill rate and that such rates shall be computed and compounded quarterly.

17. In order to amend the General Appropriations Act the amendment must specifically identify the fund, department, division, unit, program and account affected by the amendment. Additionally, if the amendment increases an appropriation, the source of funding for that additional appropriation, whether an increase in revenue or an offsetting decrease in expenditure, must be presented as part of the amendment.
18. The Fiscal Officer shall maintain, for all budgeted funds, appropriation ledger accounts in which are to be recorded such expenditure encumbrances and obligations for the future payment of appropriated funds as the Fiscal Officer may approve.
19. Each purchase order, voucher or contract of Oakland County shall specify the funds and appropriation designated by number assigned in the accounting system classification from which it is payable and shall be paid from no other fund or appropriation. The necessary amount of the appropriation from such account shall be transferred pursuant to the provisions of this resolution to the appropriate general appropriation account and the expenditure then charged thereto.
20. No obligation shall be incurred against, and no payment shall be made from, any appropriation account unless there is a sufficient unencumbered balance in the appropriation and sufficient funds are or will be available to meet the obligation. All capital projects funded from the Capital Improvement Fund shall require approval of the Board of Commissioners on recommendation of the appropriate liaison committee (Planning and Building Committee) prior to initiation of the project. Any obligation incurred or payment authorized in violation of this resolution shall be void and any payment so made illegal except those otherwise ordered by court judgment or decree.
21. The Fiscal Officer, after the end of each quarter, shall transmit to the Board of Commissioners a report depicting the financial condition of budgeted operations, including, but not limited to:
  - (a) A forecast of actual revenues by major source compared with budgeted revenues accompanied by an explanation of any significant variances,
  - (b) A forecast of actual expenditures and encumbrances by department compared with authorized appropriations accompanied by an explanation of any significant variances, and
  - (c) A forecast of actual expenditures, encumbrances and transfers from each of the several non-departmental appropriations accounts compared with authorized appropriations accompanied by an explanation of any significant variances.
22. Direct expenditure and/or transfers of any unencumbered balance or any portion thereof in any appropriation for transfer account to any other appropriations account may not be made without amendment of the general appropriation measure as provided for in this resolution, except that

transfers within and between budgeted funds and departments may be made by the Fiscal Officer in the following instances:

- (a) Transfers may be made from the non-departmental overtime account and fringe benefit adjustment account to the appropriate departmental budget as specific overtime requests are reviewed and approved by the Fiscal Services Division. Additionally, overtime appropriations may be transferred between divisions within a department at the request of the Department Head, if authorized by the Fiscal Officer or his designee.
- (b) Transfers may be made from the non-departmental appropriation accounts for Maintenance Department Charges and Miscellaneous Capital Outlay to the appropriate departmental budget as specific requests for these items are reviewed and approved by the Fiscal Officer.
- (c) Transfers may be made from the non-departmental appropriation accounts Emergency Salaries and Summer Help as specific requests for these items are reviewed and approved by the Human Resources Department.
- (d) Transfers may be made from salary and fringe benefit savings, resulting from use of Merit System Administrative Leave without Pay provisions, from departmental budgets to a non-departmental Administrative Leave account. Quarterly reports identifying such transfers and detailing the status of the non-departmental Administrative Leave account shall be provided to the appropriate Board committees.
- (e) Fringe benefit rates shall be established annually in the budget process to charge all General Fund/General Purpose, Special Revenue and Proprietary funds for actual employer fringe benefit costs. Such rates shall be sufficient to meet all fringe benefit costs including sick leave and annual leave accumulations, tuition reimbursement, employee training, retirees' medical, required debt service on the Intermediate Retiree Medical Benefit Trust established pursuant to M.R. 07147, and retirement administration. All funds collected for Retirement, Tuition Reimbursement, Social Security (FICA), Medical for active and retired employees, Disability, Dental, Optical, and Life and Accident Insurance shall be transferred to the Employee Fringe Benefit Fund as established by Miscellaneous Resolution #81-312. Sufficient funds shall be maintained in the Employee Fringe Benefit Fund liability account for sick leave and annual leave to cover the accumulated liability at an amount equal to 50% of the sick leave accumulation and 100% of the annual leave accumulation, including applicable Social Security (FICA) taxes thereon. All funds collected by Workers' Compensation and Unemployment Compensation shall be transferred to the Fringe Benefit Fund as established by Miscellaneous Resolution #81-012 and modified by Miscellaneous Resolution #96-024.

- (f) The transfer of funds to the Capital Improvement Fund and Building Fund shall not be made prior to September 30, without approval from the Finance Committee of the Board of Commissioners.
- (g) Transfers (advances) may be made as necessary from the Drain Revolving Fund to Drain Construction Funds and Drain Maintenance Funds as short term advances for costs incurred such as preliminary engineering fees and ongoing maintenance costs. Costs incurred by Drain Maintenance Funds and Drain Construction Funds will be repaid by the Drain Fund through assessments. Specific requests will be reviewed and approved by the Fiscal Officer.
- (h) A transfer of any or all of the appropriation allocated under the Non-Departmental account for Legislative Expense (#10100-9090101-196030-731080) shall not be made to any departmental budget without adoption of an Oakland County Board of Commissioners resolution.

23. The Board of Commissioners may make supplemental appropriations by amending this general appropriations measure as provided by this resolution, provided that revenues in excess of those anticipated in the original general appropriations measure become available due to:
- (a) An unobligated surplus from prior years becoming available;
  - (b) Current year revenue exceeding original estimate in amounts sufficient enough to finance increased appropriations. The Board of Commissioners may make a supplemental appropriation by increasing the dollar amount of an appropriation item in the original general appropriations measure or by adding additional items. At the same time the estimated amount from the source of revenue to which the increase in revenue may be attributed shall be increased, or other source and amount added in a sum sufficient to equal the supplemental expenditure amount. In no case may such appropriations cause total estimated expenditures, including an accrued deficit, to exceed total estimated revenues, including an unappropriated surplus.
24. Whenever it appears to the County Executive or the Board of Commissioners that actual and probable revenues in any fund will be less than the estimated revenues upon which appropriations from such fund were based, the County Executive shall present to the Board of Commissioners recommendations which, if adopted, will prevent expenditures from exceeding available revenues for the current fiscal year. Such recommendations shall include proposals for reducing appropriations, increasing revenues, or both. After receiving the recommendations of the County Executive for bringing appropriations into balance with estimated revenues, the Board of Commissioners shall amend the general appropriations measure to reduce appropriations or shall approve such measures necessary to provide revenues sufficient to equal appropriations, or both.
25. All appropriations are annual and the unexpended portion shall lapse at year-end. Encumbrances and appropriations carried forward shall be recorded

as a designated fund balance, and the subsequent year's budget amended to provide authority to complete these transactions. Appropriations shall not be carried forward for more than six (6) months into the budget year following the year in which they were originally appropriated. A status report on Appropriations Carried Forward, as required by Miscellaneous Resolution #93-156, will be incorporated as an integral part of the ensuing year's Second Quarter Financial Forecast for the purposes of determining their continuation for the remainder of the year. The recommended year-end budget amendment shall be supported with a statement of revenues and expenditures and operating surplus or deficit which shall contain the following data: (1) budget as adopted; (2) budget amendments; (3) budget as adjusted; (4) revenues and expenditures, operating surplus or deficit; (5) accrued revenue and expenditures; (6) transfers; (7) total revenues and expenditures and transfers, operating surplus or deficit, including accruals and transfers; (8) encumbrances; (9) appropriations carried forward; (10) total revenues and appropriations utilized, operating surplus or deficit, including encumbrances and appropriations carried forward; (11) balance of revenues not collected, unencumbered appropriation balance, operating surplus or deficit; (12) detail of adjustments to designated and undesignated fund balance, detail of adjustment to reserves and/or any other utilization of surplus; (13) final surplus or deficit or undesignated fund balance carried forward to the subsequent year's budget.

26. A member of the Board of Commissioners, the County Executive, any elected officer, the Fiscal Officer, any other administrative officer or employee of Oakland County shall not: (1) create a debt, incur a financial obligation on behalf of the County against an appropriation account in excess of the amount authorized, (2) apply or divert money of the County for purposes inconsistent with those specified in this general appropriations measure as approved and amended by the Board of Commissioners, nor (3) forgive a debt or write off an account receivable without appropriate authorization of the Board of Commissioners, as described in Miscellaneous Resolution #93-135. Specifically, application of the foregoing Bad Debt Write Off Policy shall be invoked for all amounts in excess of \$1,000; transactions of a lesser amount shall be considered within the administrative authority of the Fiscal Officer. Furthermore, the Fiscal Services Division must submit to the Board of Commissioners, as part of the quarterly financial report, a listing of all bad debt write offs occurring during the preceding three months. In addition, transactions relating to Inmate Prisoner Billings which are billed in excess of ability to pay, as determined by the Fiscal Services Division, are hereby authorized to be adjusted in accordance with Public Act 212 of 1994 with the resultant amount of the write-off subsequently reported to the Board of Commissioners as part of the Quarterly Financial Report. Also, within the administrative authority of the Fiscal Officer and with the general approval of the Court, Circuit Court and Probate Court financial orders for \$2,500 or less may be reduced and amended by the Fiscal Services Division based on an individual's ability to pay. Waiver of fees in excess of \$2,500 shall require the approval of the Court. Except as otherwise stated in the General Appropriations Act, funds shall not be expended without specific appropriation or other appropriate action by the Board of Commissioners from reserved, designated or undesignated fund equity; from balance sheet accounts for the

purchase of fixed assets not cited in paragraph 26 of the General Appropriations Act, non-routine prepaid items or non-routine obligations related to a specific appropriation; or from funds not budgeted.

27. All Internal Service Fund budgets that have depreciable assets shall have a capital budget with detail supporting the amount of annual depreciation therein included, as well as a fiscal plan for replacing, upgrading or disposing of those assets.
28. The budgetary system shall be maintained on the same basis of accounting (generally accepted accounting principles) as the actual financial information is maintained.
29. Any violation of the general appropriations measure by the County Executive, the Fiscal Officer, any administrative officer, employee or member of the Board of Commissioners detected through application of generally accepted accounting procedures utilized by Oakland County or disclosed in an audit of the financial records and accounts of the County shall be filed with the State Treasurer and reported by the State Treasurer to the Attorney General. Pursuant to Public Act 621 of 1978, the Uniform Budgeting Act, the Attorney General shall review the report and initiate appropriate action against the person or persons in violation. For use and benefit of the County of Oakland, the Attorney General or Prosecuting Attorney may institute a civil and/or criminal action in a court of competent jurisdiction for the recovery of County funds disclosed by an examination to have been illegally expended or collected as a result of malfeasance, and for the recovery of public property disclosed to have been converted or misappropriated.
30. The provisions of this act shall be applied to the General Fund and all Special Revenue and Proprietary Funds of the County, including Enterprise Funds and Internal Service Funds.

BE IT FURTHER RESOLVED that as a condition of appropriation to a Community Mental Health Authority, the Community Mental Health Authority shall submit to an annual performance audit by an entity to be selected by the Board of Commissioners with the parameters of said annual performance audit to be determined by the County's Audit Committee.

## FY 2012 - FY 2014 BUDGET FINANCIAL / BUDGETARY INFORMATION

### I. FORM OF GOVERNMENT

Oakland County is organized under the authority of Michigan Public Act 139 of 1973 (as amended by Public Act 493 of 2000) the optional Unified Form of County Government Act. Policy formulation is a function of the twenty-five member Board of Commissioners, a partisan elected-body representing equally populated districts and serving a two-year term. Administrative responsibilities are a function of the County Executive, an elected official serving a four-year term. The Executive has veto authority over Board action, which requires a two-thirds majority vote to override.

### II. ORGANIZATION AND FINANCIAL STRUCTURE

The County Budget is prepared in such a way as to maintain accountability both by programmatic cost center and by source of funds. Organizationally, the budget parallels the service delivery structure of Oakland County government including the following programs and departments:

#### Administration of Justice

Circuit Court  
District Court  
Probate Court

#### Law Enforcement

Sheriff  
Prosecutor

#### General Government

Clerk/Register  
Treasurer  
Water Resources Commissioner  
Board of Commissioners  
Parks and Recreation

#### County Executive

Administration  
Management & Budget  
Central Services  
Facilities Management  
Human Resources  
Health and Human Services  
Public Services  
Information Technology  
Economic Development and Community Affairs

#### Non-Dept. Appropriations

The County's financial resources are budgeted by two major categories: General Fund/General Purpose and Special Revenue & Proprietary Funds. The former includes:

- General Fund
- Child Care Fund
- Social Welfare Foster Care Fund

Special Revenue & Proprietary Funds include all Grant Funds, Internal Service Funds, and Enterprise Funds.

Revenues are further categorized by Taxes, Federal Grants, State Grants, Other Intergovernmental Revenues, Charges for Services, Investment Income, Contributions, Indirect Cost, Other Revenues and Transfers In.

Expenditures are controlled at the Department level by three appropriation categories:

- Personnel Expenditures
- Operating Expenditures
- Internal Support Expenditures (Internal Service Funds)

### **III. BASIS OF ACCOUNTING**

The accounting records of the County are maintained according to Generally Accepted Accounting Procedures (GAAP) as pronounced by the Government Accounting Standards Board (GASB) and its predecessors. Specifically, the County uses a modified accrual basis of accounting for the General Fund, Special Revenue Funds, Debt Service Funds, and Capital Projects Funds. A full accrual basis of accounting is used for Enterprise Funds, Internal Service Funds, Agency Funds, and Pension Trust Funds.

In general, under the modified accrual accounting, revenues are recognized when they are available to pay obligations of the fiscal period, and expenditures are recognized when they are due and able to be paid from available resources. The budget is prepared in conjunction with the modified accrual accounting policies practiced by Oakland County.

### **IV. FUND DESCRIPTIONS**

Following Generally Accepted Accounting Principles (GAAP), Oakland County budgets and accounts for financial activities by fund. A fund is a self-balancing set of accounts, recording cash and other financial resources together with all related liabilities and balances, which are segregated for the purpose of carrying out specific activities. All County financial activity is recorded in one of nine fund types: General Fund/General Purpose, Special Revenue, Debt Service, Capital Project, Enterprise, Internal Service, Investment Trust, Pension Trust and Agency.

County financial activity is recorded in one of these fund types, but not all fund types are included in the budget, e.g., authorized for expenditure. However, those funds which are included in the Oakland County Budget fall into two main categories. The first category is General Fund/General Purpose, which includes the General Fund as well as three (3) Special Revenue Funds: the Public Health Fund, the Child Care Fund, and the Social Welfare/Foster Care Fund. These three (3) particular Special Revenue Funds are titled "General Purpose" because it is the County's intention to make up any revenue shortfall with General Fund monies. The second category includes all the other Special Revenue Funds as well as the Proprietary Funds. The fund types whereby County financial activity is recorded, but not budgeted are Capital Projects Fund, Debt Service Fund, and Fiduciary Funds.

## **GENERAL FUND/GENERAL PURPOSE FUNDS**

The General Fund/General Purpose operations are those supported by the County property tax levy and fees generated by activities supported by the property tax levy. Included in this category is the General Fund, which covers all activity not specifically assigned to any other fund, and those Special Revenue Funds where the General Fund has pledged to cover all expenditures not covered by individual fund revenue. The Board of Commissioners exercises their greatest level of discretion over the level of appropriation and activity within these funds.

General Fund is used to account for all County financial activity that is not specifically assigned to any other fund. It is the primary vehicle by which the property tax levy is used to provide services. Unless otherwise noted, the General Fund is the sole resource for all governmental funded activity.

Child Care Fund is used to account for activity related to the placement of children in foster care homes and for the detention of children at Children's Village as ordered by Circuit/Family Court. The existence of this separate fund is required by the Michigan Social Welfare Act and assists in obtaining Child Care reimbursement from the Michigan Department of Human Services. The organizations supported by this fund include portions of the Health and Human Services Administration Division, Children's Village, and the Circuit Court's Family Division.

Social Welfare Foster Care Fund is used to reimburse agencies and individuals for board and care expenditures of foster care children awaiting adoption, under the supervision of the State Department of Human Services. Partial reimbursement of these expenditures is received from the State of Michigan. A portion of the Health and Human Services Administration Division is supported by this fund.

## **SPECIAL REVENUE AND PROPRIETARY FUNDS**

Special Revenue and Proprietary Funds form a composite category which includes all fund types not primarily supported by the County property tax levy. Included in this designation are Special Revenue Funds, including Grants, as well as Proprietary Funds defined as Internal Service or Enterprise.

### **SPECIAL REVENUE FUNDS**

Special Revenue funds are used to account for proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes such as special assessment revenues, non-capital grants, and other earmarked revenues not included within other fund categories.

#### **Special Revenue - Grants**

The County has several separate grants budgeted in FY 2012 - FY 2014. Obviously, such a large number precludes listing and describing all the applicable funds. Below please find the list of grants and the number of each in a category:

Costs include training, education, and transportation, funded through state and federal grants.

The Law Enforcement Grants Fund - consists of grants used to record costs of various law enforcement programs utilizing federal, state, and local funds.

The Housing and Community Development Fund - accounts for block grants received from the U.S. Department of Housing and Urban Development for the use of low to moderate-income home improvement loans, municipal projects, and homeless-assistance projects, including counseling. Also included are CDBG-R and the Neighborhood Stabilization Program.

The Human Service Grants Fund - accounts for the cost of various health-related/grant-funded programs.

The Other Grants Fund - consist of grants whereby the function does not relate specifically to one of the other areas. They include:

- Tornado Siren, which utilizes County and municipal funds in the procurement and installation of tornado siren units used in the tornado warning system.
- Grants for programs such as Arts, Culture and Film, Domestic Preparedness Equipment, Homeland Security grants and Friend of the Court Access, Visitation grants, and Energy Efficiency Conservation Grants.

The Judicial Grants Fund - accounts for drug court programs through Oakland County Circuit and 52<sup>nd</sup> District Courts.

The Oakland Brownfield Initiative Fund - is used to account for grant revenue and administration/management costs incurred in assisting the redevelopment of tax reverted properties through Brownfield Cleanup Revolving Loan Fund programs.

The Lake Improvements Act 345 Fund - is used to account for special assessment revenues collected to oversee the improvement (i.e., weed control) of various lakes in Oakland County. Efforts are in progress whereby the lake improvement board will name the treasurer of the local municipality (as opposed to the former arrangement with the Oakland County Treasurer) as treasurer of the respective improvement board. This will remove accounting and reporting responsibility from Oakland County (3 remaining as of 9/30/2010). This fund is not included in the County's budget.

Revenue sources include federal and state funding and charges for services.

## **PROPRIETARY FUNDS**

Proprietary Funds operate as private businesses whose purpose is to provide services either to customers within the County government (Internal Services) or to customers outside the County government (Enterprise). Revenue to operate the fund is generated by charges for the services provided.

### **Proprietary – Internal Service Funds**

Internal Service funds account for the financing of goods or services provided by one County department to other departments or agencies on a cost-reimbursed basis.

Facilities Maintenance and Operations Fund accumulates the costs of operating and maintaining the County's buildings, grounds, and utilities. The fund recovers costs by developing rates and billing user departments. This fund absorbed the cost of operation of the Farmers' Market Fund (Enterprise Fund) in Fiscal Year 2008.

Information Technology Fund accounts for the operations of the Department of Information Technology, a service bureau that provides services to other County departments and divisions, local governmental units, private sector and @access Oakland customers. Drain Equipment Fund accounts for the cost of vehicles and other equipment used for the construction and maintenance of various drain, water, and sewer systems. The fund is reimbursed as the accumulated costs are distributed to specific projects or funds.

Motor Pool Fund accumulates the costs of purchasing, servicing, and operating County-owned vehicles. The fund recovers these costs by developing rates and billing user departments.

Telephone Communications Fund accumulates the costs of operating the County telephone system. The fund is reimbursed for the accumulated costs by distributing the charges to the specific fund or department.

Building and Liability Insurance Fund was established to accumulate monies which are available to settle claims against the County when no insurance coverage exists and to make insurance premium payments. The fund is reimbursed by the user departments for insurance premiums paid and monies accumulated for self-insurance.

Fringe Benefits Fund is used as a clearing account for the County's employee fringe benefits. Monies are accumulated in this fund as a result of payroll allocations made on a departmental and/or bargaining unit basis. This fund also accumulates and disburses monies related to workers' compensation and unemployment compensation claims, and performs as the debt service fund for the County's Interim Retiree Medical Benefits Trust effective with Fiscal Year 2008.

### **Proprietary – Enterprise Funds**

Enterprise funds account for operations and services provided for County residents and are financed primarily through user charges.

Delinquent Personal Tax Administration Fund - is used to account for the collection of delinquent personal property taxes and their subsequent disbursement to various municipalities, school districts, and other governmental units. Cost-related activities involving the collection of taxes are also recorded in this fund. Per State of Michigan statutes, money collected in excess of costs shall be intermittently transferred to the County General Fund.

These systems include the Clinton-Oakland S.D.S., Huron-Rouge S.D.S., Evergreen-Farmington S.D.S., and Southeastern Oakland County S.D.S (George W. Kuhn Drain). Costs are recovered by developing rates and billing the municipalities being serviced.

Water and Sewer Trust Fund is used to account for monies received from those County residents whose water and sewer systems are maintained for their respective cities, villages, or townships by Oakland County. There are currently 22 municipal water systems and 16 municipal sewer systems that are operated under these contractual agreements. The water and sewer systems are operated and maintained by the Oakland County Water Resources Commissioner.

This includes costs of purchasing, servicing, and operating mobile data terminals and base stations.

## **V. BUDGET POLICY AND PROCEDURES**

Budgeting policies and procedures are delineated in the General Appropriations Act adopted annually by the Board of Commissioners which complies with Public Act 621 of 1978, the Uniform Budgeting and Accounting Act for Local Units of Government in Michigan. This act mandates a balanced budget, designates the County Executive as the Chief Administrative Officer and the Director of Management & Budget as the Chief Fiscal Officer. The act further spells out the fiduciary responsibilities of all County employees, elected and appointed, specifies the minimum required contents of the budget document and prescribes appropriate actions in the event of violation.

## **VI. BUDGET PROCESS**

The Oakland County Budget Process is typically divided into four (4) phases and functions on a Triennial basis, which began in 2009 for processing the FY 2010-2013 budget.

With the recent economic downturn and the need to plan further into the future, the County will continue with the "triennial budget", projecting out to three fiscal years (FY 2012, FY 2013, and FY 2014). By preparing a three-year budget we hope to gain more advanced notice, better long-term planning and greater

opportunities to react before a crisis arises, thereby easing the fear of the unknown.

### **Phase I - Development of Budget Preparation Materials**

This first phase begins with Fiscal Services Division staff, working with the operating departments, developing preliminary General Fund/ General Purpose revenue estimates. This work is undertaken during January and early February. The staff members involved will use a number of techniques in developing these revenue estimates. Some of the techniques include reviewing historical revenue patterns; analyzing economic information such as the local consumer price index, construction activity, land sale activity, etc; reviewing property value information provided by the County's Equalization Division; and reviewing revenue estimates provided by the Michigan Department of Treasury. The result of this activity is the compilation of Estimated County General Fund/General Purpose Revenue for the upcoming triennial period. This information is shared with the Board of Commissioners' Finance Committee, as well as County Administration.

The primary purpose of estimating revenues is the development of the budget parameters for the next triennial period. The level of projected revenue growth will determine whether an inflation factor will be allowed for existing programs, what level of salary and wage increases will be proposed by the Executive, and the level of resources which will be available for program expansion. The budget parameters are communicated through a letter signed by the Director of Management and Budget and the Director of Human Resources. The letter is included and discussed during the Budget Orientation Sessions.

Upon completion of the revenue estimation function, Fiscal Services Division staff develop materials for the departments to use in requesting a budget for the next triennial period. This includes gathering historical expenditure information so the departments have some rational basis to make their requests, preparing the financial system to enter budget data, and developing the salary forecast, which provides the detailed costs of salaries and fringe benefits for each authorized position within the County departments. Aside from revenue estimates, generating an accurate salary forecast is perhaps the most crucial part of the budget process, as personnel costs account for nearly half of the County's entire budget.

The final step in Phase I is the Budget Orientation session. These sessions, attended by all operating departments and administered by Fiscal Services and Human Resource Department staff, are designed to emphasize the budget parameters; go over the budget calendar and instructions, and provide departments with information useful to the development of their budget requests including current and historical expenditure information and an annualized salary and fringe benefit forecast.

### **Phase II - Development of Department Budget Requests**

At this stage, the normal process would be for departments to develop their budget allocation requests and submit them to the Fiscal Services Division and Human Resources Department by end of April, for each of the following categories:

1. Current Programs - Departments may request inflation adjustments or other known increases in allocations to operate at their current program levels.
2. Program Change - Departments may request an allocation to fund any new program, innovation, requirement, or other substantial change in their operation.

Economic recessive factors have resulted in a significant shortfall in revenue and the need to reduce personnel and operating expenses. Therefore, each Elected Official of the County has been assigned a Budget Task as a means to reduce expenditures in order to balance the budget for the next three fiscal periods. These tasks were assigned based upon the individual percentage of the General Fund/General Purpose budget for FY 2012, FY 2013 and FY 2014, as well as any carried forward credit and remaining structural budget issues from the FY 2011 Budget.

Each Elected Official is required to develop a structural plan to resolve the Budget Task assigned to them by producing NEW revenue and not merely increasing revenue based upon activity levels, and/or by specific structural reductions in expenditures. It is at the discretion of the Elected Official as to how the task will be distributed among the departments he or she oversees. The plans are to be submitted to the County Executive's Budget Task Force by late April. The Budget Task Force consists of the five (5) Deputy County Executives, with staff support provided by the Directors of Management and Budget and Human Resources.

### **Phase III - Development of the County Executive's Recommended Budget**

The initial activity during this phase is the analysis of the Elected Officials' plans to meet the Budget Task. There may be a meeting between the Elected Officials and the Budget Task Force for questioning, clarification, and possible negotiation if needed. Analysts from Fiscal Services and Human Resources are usually on hand and called upon to assist with the analysis process in order for the Budget Task Force to make a decision about budget plans submitted. Once the Budget Task Force has reviewed the plans and given approval for its recommendation, the Fiscal Services and Human Resources staff begins developing the County Executive's Recommended Budget, which usually occurs during the months of May and June.

The County Executive Recommended Budget is produced in line-item document form and must be submitted to the Board of Commissioners by July 1, or ninety days before the start of the triennial period. State law and the County General Appropriations Act require that this Recommended Budget be "balanced" with revenues equaling expenditures.

### **Phase IV - Board of Commissioners' Process for Budget Adoption**

Upon receipt of the County Executive Recommended Budget, the Board of Commissioners review the recommendation. The Board has the authority to accept the County Executive Recommendation in total, reject it in total, or to modify the Recommendation. In almost all situations, the latter option is implemented.

Although not required by any statute, typically the Board of Commissioners will utilize its Finance Committee (lead committee on the budget) and Human Resources Committee (support committee) to conduct budget hearings on the County Executive Recommendation. The committees have options as to how they conduct the hearings and who is requested to be present to defend the recommendation. Generally, Fiscal Services staff and Human Resources staff appear at each hearing as well as specific departments as requested by the committees.

During the budget hearing process a number of amendments to the County Executive Recommendation may be introduced. Some of the recommended amendments may be initiated by the Administration as a result of continued negotiations with the operating departments. The Commissioners recommend other amendments. The recommended amendments are not voted on during the hearing process. Rather they are placed on an "amendment list". At their last meeting in August, the Finance Committee will vote on each item on the list, and any other proposed amendments brought during that meeting. The result of these actions will produce a Finance Committee Recommended Budget. State law and the County General Appropriations Act also require that this Recommended Budget be "balanced" with revenues equaling expenditures.

The Finance Committee Recommended Budget is then moved to the full Board of Commissioners for action at their last meeting in September. A public hearing on the Finance Committee Recommended Budget is also scheduled for that day. Public Notice regarding the Finance Committee Recommended Budget (including a brief summary of the recommended budget) and the budget hearing is placed in one general circulation newspapers throughout the County at least seven (7) days prior to the hearing date. A copy of the Finance Committee Recommended Budget is placed with the County Clerk for public inspection.

At the final meeting in September, the full Board of Commissioners will first conduct a public hearing on the Finance Committee Recommended Budget. After the hearing, the Board may entertain any amendments from Commissioners. Each amendment is voted on separately. After consideration of any amendments, the Board adopts the Triennial Budget, which again must be balanced.

#### **VIII. BUDGET AMENDMENT PROCESS**

In Oakland County, the budget is a living document which can be adjusted to meet the changing demand for services during the fiscal year. Accordingly, the budget amendment process is part of a larger on-going budget monitoring process. Rather than hold budget changes to one or two specific times in the fiscal year, the County's Administration and policy makers prefer to deal with issues as they arise, making appropriate budget adjustments.

Oakland County operates with a three-year "rolling budget". This means that unless an adjustment is a one-time circumstance, all budget amendments modify the current fiscal year budget and the two subsequent fiscal year budgets. This practice allows the County to not only anticipate but to allocate the impact of adjustments over a multi-year time frame.

With few exceptions, a resolution adopted by the Board of Commissioners is required to amend the budget. All requests for budget amendments must be approved by the Board of Commissioner's Finance Committee prior to full Board approval. Any operating department or elected official may request a budget amendment. All requested amendments are reviewed by Management and Budget which, in turn, recommends (in the name of the County Executive) approval or disapproval of the requested amendment.

The exceptions, as listed in the General Appropriations Act, allows the Chief Fiscal Officer (Director of Management and Budget) to transfer funds from budgeted reserve accounts into a departmental budget to cover overtime needs, capital outlay requests, and maintenance department charges. The Chief Fiscal Officer is required to report the Finance Committee when such transfers are made.

In addition, the Department of Management and Budget prepares quarterly financial forecasts that project budget performance through the end of the fiscal year.

Section 24 of the General Appropriations Act provides that:

Whenever it appears to the County Executive or the Board of Commissioners that actual and probable revenues in any fund will be less than the estimated revenues upon which appropriations from such fund were based, the County Executive shall present to the Board of Commissioners recommendations which, if adopted, will prevent expenditures from exceeding available revenues for the current fiscal year. Such recommendations shall include proposals for reducing appropriations, increasing revenues, or both. After receiving the recommendations of the County Executive for bringing appropriations into balance with estimated revenues, the Board of Commissioners shall amend the general appropriations measure to reduce appropriations or shall approve such measures necessary to provide revenues sufficient to equal appropriations, or both.

Section 23 of the General Appropriations Act provides that:

The Board of Commissioners may make supplemental appropriations by amending this general appropriations measure as provided by this resolution, provided that revenues in excess of those anticipated in the original general appropriations measure become available due to:

- (a) An unobligated surplus from prior years becoming available; or
- (b) Current year revenue exceeding original estimate in amounts sufficient enough to finance increased appropriations.

The Board of Commissioners may make a supplemental appropriation by increasing the dollar amount of an appropriation item in the original general appropriations measure or by adding additional items. At the same time, the estimated amount from the source of revenue to which the increase in revenue may be attributed shall be increased, or other source and amount added in a sum sufficient to equal the supplemental expenditure amount. In no case, may such an appropriation cause total estimated expenditures, including an accrued deficit, to exceed total estimated revenue, including an unappropriated surplus.

Section 22 of the General Appropriations Act provides that:

Direct expenditure and/or transfers of any unencumbered balance or any portion thereof in any appropriation for transfer account to any other appropriation account may not be made without amendment of the general appropriations measure as provided for in this resolution, except that transfers within and between budgeted funds and departments may be made by the Fiscal Officer in certain specified instances.

**IX. USE OF FUND BALANCES**

Oakland County's goal is to reserve, at the end of a fiscal year, an amount equivalent to 10% to 20% of General Fund/General Purpose revenues, in General Fund balance. This has been accomplished through conservative budgeting practices and prudent management of the County's resources. The presence of a healthy General Fund balance provides not only a blanket of fiscal security for citizens and investors; it also provides policy makers with flexibility in meeting the pressing demands for services.

Generally, fund balance is not used to offset on-going expenditures in a subsequent year. Rather, the County uses fund balance to cover the cost of one-time extraordinary projects. For example, during FY 2010, a portion of the General Fund balance was used to fund various municipal road construction, maintenance, and/or repair projects as part of the cost participation agreement in the Tri-Party Road Improvement Program, whereby the County, County Road Commissioner, and municipality each provide one-third share of the costs. Other projects included funding for the installation of Audio Video Digital Court Recording Systems in the Circuit Court and Probate Court in replacement of Court Reporters to improve the quality and efficiency of their operations, Interactive Video Hearing Pilot Program, and funding to start up Microloan Program to cover loans for small businesses. Future uses of fund balance include funding to cover an anticipated shortfall in State revenue funds and Homeland Security Enhancements and other Tri-Party Road Improvement Program projects. The use of General Fund balance in these circumstances (one-time expenditures) allows the County to meet expansion needs without jeopardizing on-going operations.

The General Fund balance also includes \$68.7 million designated for "Budget Transition". These funds will be used for short-term, limited relief to allow the County to thoughtfully and prudently plan for major budget reductions. A portion of these funds will also be used to balance the FY 2012, FY 2013, and FY 2014 Budget.

**REVENUE DESCRIPTIONS  
GENERAL FUND / GENERAL PURPOSE FUNDS**

**TAXES (NON-DEPARTMENTAL)**

**PROPERTY TAX LEVY:** For Fiscal Year 2012, the Ad Valorem Tax Levy (levy) is based on the anticipated December 31, 2011 State Taxable Value (STV) of **\$49,274,584,049** multiplied by the County's authorized millage rate of **4.2240** mills. For Fiscal Year 2013, the levy is based upon the estimated December 31, 2012, STV of **\$48,781,838,209** (1% decrease) by the County-authorized millage rate of **4.2240** mills. For Fiscal Year 2014, the levy is based upon the estimated December 31, 2013, STV of **\$48,781,838,209** (no change) by the County-authorized millage rate of **4.2240** mills. The Property Tax levy conforms to the Headlee Constitutional Tax Limitation Amendment as well as P.A. 4 of 1982, Truth in Taxation requirements.

## **TUITION REIMBURSEMENT**

FY 2011 Allocation: \$260,000

FY 2012-2014 Allocation: \$260,000

Merit Rule 20 provides tuition reimbursement to County employees eligible for fringe benefits for successfully completing coursework related to their present or probable future County job. This benefit provides for up to \$800 per semester, with an annual limit of \$2,400 per fiscal year. Current rate of reimbursement was established by the Board of Commissioners as part of the FY2000 budget. The Human Resources Department provides uniform coordination of the program and compliance with Merit System Tuition Reimbursement policy. Employees invest their own time to complete the course work.

Tuition Reimbursement has become increasingly important as the County seeks to prepare employees to meet future needs in terms of succession planning in the years ahead.

The following is an historical breakdown of the program budgets and expenditures.

## **EMERGENCY SALARIES**

FY 2011 Allocation: \$1,309,945

FY 2012-2014 Allocation: \$1,310,000

The Emergency Salaries Fund was established in 1981 and is administered by the Human Resources Department to provide the most economical and efficient means of temporary staff replacement to accomplish essential County work. Use of Emergency Salaries is an economical alternative to the addition of permanent positions to accommodate fluctuating workloads.

The Human Resources Department maintains a number of emergency salary clerical employees (commonly referred to as the clerical pool) who are available on short notice to fill in for emergency clerical situations. A number of emergency salary positions are also created for Children's Village to provide flexibility in staffing coverage where dependent wards of the Court require around-the-clock supervision as occupancy varies. Other departments utilize this resource for absences resulting from long-term illnesses, injuries, family leave or special projects. Emergency Salaries are not intended to cover functions or positions requested but not approved in the budget process.

The Emergency Salaries fund continues to be an economical method of meeting temporary emergency staffing needs.

## **SUMMER EMPLOYMENT**

FY 2011 Allocation: \$250,000

FY 2012 - 2014 Allocation: \$250,000

Oakland County has traditionally hired part-time non-eligible seasonal employees to perform a variety of routine jobs during the summer months. The Human Resources Department administers the program with departments submitting requests during each budget process. Summer applications are accepted from mid-February until the first of March. Summer employment is from mid-April until mid-September. Summer employees perform routine office duties and seasonal work in the maintenance of County grounds and the operations of County parks. In addition to the amounts recommended here for the governmental summer employment fund, costs for Proprietary/Special Revenue summer employees are recovered through charges to departments and/or park user fees.

## REPORT

**BY: Human Resources Committee, John Scott, Chairperson**

**IN RE: FISCAL YEAR 2012 SALARY RECOMMENDATIONS**

To The Oakland County Board of Commissioners

Chairperson, Ladies and Gentlemen:

The Human Resources Committee recommends the following actions:

1. Maintain the current salary ranges for salary grades 1 - 21 by recommending a 0% salary adjustment for fiscal year 2012, which begins September 24, 2011.
2. Maintain all remaining classifications not represented by bargaining units by recommending a 0% salary adjustment for fiscal year 2012, including appointed officials\*, classes designated as exceptions to salary grades 1 - 21, part-time and hourly classes, students, and summer and seasonal classes but excluding:
  - a. Circuit, Probate and District Court Judges which are currently at the maximum rate allowed; and
  - b. Appointed Board and Commission members; and
  - c. Commissioners addressed by Miscellaneous Resolution #10025.
3. Provide a salary adjustment for the County Executive, Prosecuting Attorney, County Clerk/Register of Deeds, Water Resources Commissioner, Sheriff and County Treasurer of 0% effective September 24, 2011.\*
4. Delete the following classifications from the County's Salary Schedule.

Chief Pharmacist	Photo Map Technician
Court Service Officer Supervisor	Senior Tax Description Technician
Pharmacist	Sewer Meter Supervisor
Pharmacy Technician	Victim Rights Leader

*\*Note: Given the continuing economic situation facing the State and County it is recommended that the Elected Officials (excluding the County Executive whose salary was reduced by 2.5% in 2010 and 1.5% in 2011) and Assistant Prosecuting Attorneys continue to voluntarily donate an amount equivalent to 4% of their salary back to the County. This is consistent with the salary reductions experienced by most County employees during fiscal years 2010 and 2011.*

Chairperson, on behalf of the Human Resources Committee, I move the acceptance of the foregoing report.

**OAKLAND COUNTY, MICHIGAN  
CAPITAL IMPROVEMENT PROGRAM  
FY 2012 through FY 2016**

*This Capital Improvement Plan is meant to identify projects that MAY be executed in FY 2012 through FY 2016. Presently, Oakland County, as are other governmental units, is experiencing economic pressures not ever seen before. To that end, the project prioritization addresses asset maintenance and preservation and those assets that support direct services to the public. Other projects may be appropriate for consideration under normal circumstances, but must be delayed until the economic recovery occurs.*

*It must be understood that inclusion in this plan does not indicate approval for a project to go forward. No project will go forward without first receiving the express recommendation of the County Executive followed by a full review and approval by the Board of Commissioners. No project will be recommended by the County Executive without a funding source first being identified for both the project's capital and on-going operating components.*

**Building Space Cost Allocation**

The Facilities Maintenance and Operations Fund accumulates the costs of operating and maintaining the County's buildings, grounds and utilities. The building space rates are calculated by taking the costs by building (tracked through the Operating Unit chartfield), adding admin/overhead costs, and then dividing by the building square footage to get the cost per square foot for each building. The occupants of the buildings are then charged by taking the building square footage rate and multiplying it by the assigned square footage. These amounts are used for the budget and for the amount billed to the customers/departments; which means that there is usually no variance between budget and actual charges for building space. The costs/rates are reviewed on an annual basis and adjusted in the following fiscal year.

**OAKLAND COUNTY, MICHIGAN  
CAPITAL IMPROVEMENT PROGRAM  
FY 2012 through FY 2016**

*This Capital Improvement Plan is meant to identify projects that MAY be executed in FY 2012 through FY 2016. Presently, Oakland County, as are other governmental units, is experiencing economic pressures not ever seen before. To that end, the project prioritization addresses asset maintenance and preservation and those assets that support direct services to the public. Other projects may be appropriate for consideration under normal circumstances, but must be delayed until the economic recovery occurs.*

*It must be understood that inclusion in this plan does not indicate approval for a project to go forward. No project will go forward without first receiving the express recommendation of the County Executive followed by a full review and approval by the Board of Commissioners. No project will be recommended by the County Executive without a funding source first being identified for both the project's capital and on-going operating components.*

IN RE: FACILITIES MANAGEMENT/FACILITIES PLANNING & ENGINEERING – WATER TOWER RESTORATION PROJECT

To the Oakland County Board of Commissioners  
Chairperson, Ladies and Gentlemen:

WHEREAS the Service Center Water Tower is located on the west side of the Service Center adjacent to the IT building and was constructed in 1961 to provide water pressure to the Courthouse Tower building, and

WHEREAS since that time water pressure by the City of Pontiac has improved and the water tower now serves as a valuable back-up for possible loss of water pressure or pump malfunction; and

WHEREAS the water tower also serves as a structure for several antenna sites utilized by Radio Communications, the Sheriff's Office, and the Water Resources Commissioner; and

WHEREAS the water tower was inspected in 2005 and the resulting report indicated that significant maintenance would be needed for it to remain functional and would require repair/replacement of the steel parts as well as safety upgrades to meet current safety regulations; and

WHEREAS the project was bid twice and each time only one bid response was received, likely due to the fact that Federal mandates have resulted in significant workloads for most contractors this year; and

WHEREAS the bids received were higher than the \$350,000 estimate that was included in the Capital Improvement Program; and

WHEREAS re-bidding the tank and superstructure restoration this Fall to vendors (including those that service clients of our size and complexity to a better degree) with a year's timeframe to schedule the project will likely increase the number of responses and decrease bid prices; and

WHEREAS having the foundation restored as a maintenance project by an annual contractor will further reduce ~~total~~ costs and bid prices; and

WHEREAS it was also decided to replace only the interior safety upgrades leaving the exterior safety equipment, which is grandfathered, in place; and

WHEREAS funding in the amount of \$60,000 is available for transfer from the FY 2011 Capital Improvement Program/Building Fund (#40100) to the Project Work Order Fund (#40400) for the Water Tower Restoration Project.

NOW THEREFORE BE IT RESOLVED that the Board of Commissioners authorizes the Water Tower Restoration Project in the amount of \$60,000.

BE IT FURTHER RESOLVED that the Board of Commissioners authorizes the restoration of the foundation and the re-bidding of the tank and superstructure restoration.

BE IT FURTHER RESOLVED that the Board of Commissioners authorizes transfer of funding in the amount of \$60,000 from the Capital Improvement Program/Building Improvement Fund (#40100) to the Project Work Order Fund (#40400) for the Water Tower Restoration Project (#100000001513) as detailed below:

REPORT (MISC. #11227)

BY: Human Resources Committee, John Scott, Chairperson

IN RE: FISCAL YEAR 2012 SALARY RECOMMENDATIONS

To the Oakland County Board of Commissioners

Chairperson, Ladies and Gentlemen:

The Human Resources Committee recommends the following actions:

1. Maintain the current salary ranges for salary grades 1 - 21 by recommending a 0% salary adjustment for fiscal year 2012, which begins September 24, 2011

2. Maintain all remaining classifications not represented by bargaining units by recommending a 0% salary adjustment for fiscal year 2012, including appointed officials, classes designated as exceptions to salary grades 1 - 21, part-time and hourly classes, students, and summer and seasonal classes but excluding:

a. Circuit, Probate and District Court Judges which are currently at the maximum rate allowed; and

b. Appointed Board and Commission members; and

c. Commissioners addressed by Miscellaneous Resolution #10005.

3. Provide a salary adjustment for the County Executive, Prosecuting Attorney, County Clerk/Registrar of Deeds, Water Resources Commissioner, Sheriff and County Treasurer by 0% effective September 24, 2011.

Note: Given the continuing economic situation facing the State and County it is recommended that the Elected Officials (excluding the County Executive whose salary was reduced by 2.5% in 2010 and 1.5% in 2011) and Assistant Prosecuting Attorneys continue to voluntarily donate an amount equivalent to 4% of their salary back to the County. This is consistent with the salary reductions experienced by most County employees during fiscal years 2010 and 2011.

4. Delete the following classifications from the County's Salary Schedule:

- Chief Pharmacist
- Photo Map Technician
- Senior Tax Description Technician
- Pharmacist
- Senior Water Supervisor
- Pharmacy Technician
- Victim Rights Leader

Chairperson, on behalf of the Human Resources Committee, I move the acceptance of the foregoing report.

IN RE: BOARD OF COMMISSIONERS - SUPPORT FOR FRAC ACT, H.R. 10845, SB 7440 AND BREATHE ACT, H.R. 1204

To the Oakland County Board of Commissioners  
Chairperson, Ladies and Gentlemen:

WHEREAS the hydraulic fracturing (fracking) for natural gas involves the use of chemicals and hazardous materials during construction, drilling, hydraulic fracturing, gas production and delivery, well maintenance, and well operations; and

WHEREAS hydraulic fracturing of underground geologic formation is often accomplished by injecting a complex mix of fluids and chemicals, including large volumes of water, on average 4.5 million gallons per well, under very high pressure to create fractures in gas bearing geologic formations; and

WHEREAS many of the chemical constituents injected during hydraulic fracturing have documented adverse health effects and/or adverse environmental impacts; and

WHEREAS there have been more than a 1,000 documented cases of water contamination near fracking sites, some people and livestock near these sites can now drink their drinking water on the

WHEREAS wastewater from fracking can contain radioactive elements, and has been discharged into rivers and supply drinking water for millions, according to the New York Times; and

WHEREAS use of these hydraulic fracturing mixes exposed adjacent and surface waters to the risk of contamination through open oil storage, truck transport, on roadways, and activities during well development; and

WHEREAS the pollution of water caused by fracking threatens the long term economic well-being of communities, as businesses and consumers depend on clean drinking water; and

WHEREAS in 2005, as part of the Federal Energy Policy Act and over objections of health care, scientific, environmental, and conservation communities, regulation of hydraulic fracturing fluids under the Safe Drinking Water Act by the Environmental Protection Agency was extended, thereby allowing oil and gas companies to use these substances without federal oversight or standards; and

WHEREAS the oil and gas industry is not required by federal law to publicly disclose chemical formulas of hydraulic fracturing fluids to the information is publicly available for health and safety purposes; and

WHEREAS Former President George W. Bush's EPA post person or water now admits fracking should never have been exempted from regulation; and

WHEREAS the Fracturing Responsibility and Awareness of Chemicals Act (FRAC Act), which is currently pending in Congress, would repeal the fracking exemption to the Safe Drinking Water Act and require disclosure of chemicals used in fracking; and

WHEREAS the Bringing Regulations to Energy's Airborne Toxic Health Effects Act (BREATHE Act), which is currently pending in Congress, would repeal the exception to the Clean Air Act for aggregation of emissions from oil and gas development sources; and

WHEREAS the wise stewardship of our natural resources involves protection of Oakland County's water supplies and water resources for generations to come; and

WHEREAS protection of Oakland County's water supplies and resources is better accomplished by prevention of contamination and environmental degradation, rather than attempting cleaning up contamination and restoring degraded environments after the fact; and

NOW THEREFORE BE IT RESOLVED that the Oakland County Board of Commissioners supports a statewide moratorium on the issuance of new permits for the extraction of natural gas using hydraulic fracturing until adequate environmental studies are completed regarding the potential risks of hydraulic fracturing to our natural resources including local water supplies within the State of Michigan and until regulations and safeguards are in place to fully protect our state's water supply and environment from such operations.

BE IT FURTHER RESOLVED that a copy of this resolution with cover letter be sent to our county's state representatives and state senators in Lansing, the Governor, and to our national members of Congress.

Chairperson, Ladies and Gentlemen:

WHEREAS Oakland County has a large population of United States Military veterans, from current conflicts and past; and a large number of families of service members still deployed overseas; and

WHEREAS veterans as a group have made great sacrifices for our nation and we have more and practical responsibilities to serve their needs on return and, as they age, help with their changing needs throughout life; and

WHEREAS veterans in Oakland County and across the nation are more likely than the general population to suffer stress and depression, attempt suicide, have serious health issues and disabilities, have housing issues, and far too many are involved in the criminal justice system; and

WHEREAS nationally the unemployment rate among veterans is alarmingly high, especially among former soldiers who have often learned a highly technical skill in the modern military and possess a strong sense of collaboration and discipline developed through the service they have given all of us; and

WHEREAS all the issues listed above also affect the families of veterans and those of service members still deployed on foreign missions; and

WHEREAS veterans and the families of currently deployed soldiers who reside in Oakland County are due our respect and the most effective and efficient system of care possible, including helping families of those serving make it easier to obtain life easier for newly returned soldiers, and helping those who served in past conflicts who need help now; and

BY: Commissioner Jim Nash, District #15

IN RE: BOARD OF COMMISSIONERS - URGING MICHIGAN LEGISLATURE TO OPPOSE ELIMINATING MICHIGAN'S AUTOMOBILE NO-FAULT INSURANCE SYSTEM

To the Oakland County Board of Commissioners, Chairperson, Ladies and Gentlemen:

WHEREAS the Constitutional duty of government is to protect the health and welfare of its citizens, and WHEREAS Michigan's No-Fault Automobile Insurance system does just that by protecting individuals who have suffered traumatic injuries from auto accidents, thus ensuring they have the expert medical care they need to recover, receive long-term care if necessary and live fulfilling lives, and

WHEREAS former Governor William Milliken signed Michigan's No-Fault Auto Insurance Act in 1973, to ensure accident victims receive due care, reduce litigation and ensure fair insurance premiums. This has resulted in Michigan ranking 50<sup>th</sup> in auto accident litigation and first in care for auto accident victims, and WHEREAS the No-Fault Automobile Insurance Act is more legislation because it protects citizens' health at minimal costs, by supporting needed medical care and in-home care for the life of the injured individual, and

WHEREAS this coverage includes emergency airlift from the accident site, an emergency and surgical medical care, rehabilitation, home modifications, motorized wheelchairs and 24 hour home nursing care for as long as reasonably necessary, and

WHEREAS the cost to policyholders for this catastrophic coverage is currently \$12 a month, for coverage that pays reasonable and appropriate benefits to auto accident victims that last a lifetime, and

WHEREAS legislation has been introduced in Lansing, House Bill 4836, to eliminate the comprehensive coverage and limit coverage to a maximum of \$8 million and a minimum of \$250,000, depending on what an individual would purchase, often without understanding the consequences, and

WHEREAS there are many Oakland County residents and their families, who are currently benefiting or would in the future, from this program because of auto accidents and who would be directly affected if the current law is changed, and

WHEREAS significant numbers of Oakland County medical and rehabilitation businesses that serve accident victims who are covered under this law would suffer income loss and could be forced to lay-off employees or even close up entirely if this reform passes, and

WHEREAS even the legislator's sponsor, Rep. Peter Lund, could not say what the lost savings would be for the average citizen's insurance coverage, or the effect it would have on future auto accident victims, in a recent radio interview. In fact, he suggested they could get on Medicare at 65, and

WHEREAS any savings in personal injury protection costs by this regulation may be exceeded by increases in liability insurance increases because their only access to needed medical coverage would be through litigation, while leaving many accident victims vulnerable to the costs incurred by uncovered medical expenses, and

WHEREAS this regulation would force those whose needs exceed this coverage to declare bankruptcy and go on Medicaid, which would not cover most of the currently covered expenses, or use Medicare, and thus force the taxpayers to pay the costs, and

WHEREAS there is a broad coalition of groups and individuals who are working to protect the No-Fault insurance program, including the Brain Injury Association of Michigan, Michigan Paralyzed Veterans of America, Disability Network of Michigan, Michigan College of Emergency Physicians, Michigan State Medical Society, Michigan Nurses Association, Michigan Rehabilitation Association, among many others.

NOW THEREFORE BE IT RESOLVED that the Oakland County Board of Commissioners hereby opposes House Bill 4936, which would repeal the Michigan Auto No-Fault insurance system and replace it with a fully voluntary system that would leave accident victims with reduced coverage, increase Medicaid and Medicare costs to support victims and produce no proven savings for insurance coverage. BE IT FURTHER RESOLVED that the Oakland County Clerk is requested to forward copies of this adopted resolution to Oakland County Executive L. Brooks Patterson, the Board of Commissioners Liaison for the Oakland County Legislative delegation and Governor Rick Snyder. Chairperson, we move the adoption of the foregoing Resolution

By: Finance Committee, Tom Mabeaton, Chairperson  
IN RE: BOARD OF COMMISSIONERS - REQUEST FOR ADDITIONAL \$97,650 LOAN FROM THE LONG TERM REVOLVING FUND FOR CONSTRUCTION OF THE LAKE NEVA LAKE LEVEL CONTROL STRUCTURE  
To the Oakland County Board of Commissioners  
Chairperson, Ladies and Gentlemen:  
Pursuant to Rule XII-C of this Board, the Finance Committee has reviewed the above referenced resolution and finds:

1. The resolution authorizes an additional \$97,650 loan from the Long-Term Revolving Fund for the Lake Neva Lake Level Control Structure Project.
2. The County Board of Commissioners previously approved \$150,000 for the Lake Neva Lake Level control structure pursuant to Miscellaneous Resolution #11173, an additional \$97,650 is necessary to complete the project for a loan amount that shall not exceed \$247,650.
3. Miscellaneous Resolution No. C0019 authorized that monies be made available for loans to local units for amounts up to \$150,000 and an extension is being requested to authorize a loan to the Charter Township of White Lake for Lake Neva Lake Level Control Structure in an amount not to exceed \$247,650.
4. The full repayment of the loan with applicable interest will come from the 5 year special assessment mill prepared by the Charter Township of White Lake.
5. None of the \$150,000 loan amount previously authorized in Miscellaneous Resolution #11173 has been released to the project to date, therefore applicable interest charges will be based on the updated total loan amount of \$247,650.
6. Also, Miscellaneous Resolution #93276 states that an interest rate no less than the prevailing six-month Treasury Bill rate should be charged. The six-month Treasury Bill rate is quite a bit lower than the average interest rate from the Treasurer's pooled investments and therefore the rate to be charged will be the last published Treasurer's pooled investment average monthly rate for the month of August 2011 is 1.121%.
7. Funding is currently available in the Long-Term Revolving Fund to issue a loan in the amount of \$247,650 for the Lake Neva Lake Level Control Structure Project.

**IN RE: RESOLUTION IN SUPPORT OF REGIONAL TRANSIT AUTHORITY**

To the Oakland County Board of Commissioners

Chairperson, Ladies and Gentlemen:

WHEREAS southeastern Michigan's Regional Transportation Authority, the Regional Transit Coordinating Council (RTCC) was established by the Michigan Legislature in 1967 P.A. 204 (Act 204) and

WHEREAS Act 204 states that the RTCC was created for the purpose of establishing and directing public transportation policy within its metropolitan area, an area that today includes the counties of Macomb, Wayne, Oakland and Wayne; and

WHEREAS the Legislature explicitly provided that the RTCC be considered a transportation authority for the sole purpose of receiving transportation operating and capital assistance grants; and

WHEREAS the Legislature expressly denied the RTCC power to employ operating personnel, denied the RTCC power to negotiate collective bargaining agreements with operating personnel, and denied the RTCC authority to own operating assets of a public transportation service within the metropolitan area; and

WHEREAS the legislative restrictions placed on the RTCC stripped it of any meaningful ability to act as an effective regional transportation authority; and

WHEREAS an attempt unanimously succeeded by the Mayor of the City of Detroit, the Chairperson of Macomb County Board of Commissioners and the County Executives of Oakland County and Wayne County to resolve the RTCC failed on December 31, 2002, after their Governor Sigler vetoed Enacted House Bill 5487, a bill to create the Detroit Area Regional Transportation Authority (DARTTA); and

WHEREAS a second attempt to create a more effective regional transportation authority was made on May 12, 2003 by the members of the RTCC, i.e. the Mayor of the City of Detroit, the Chairperson of the Macomb County Board of Commissioners and the elected Executives of both Oakland and Wayne Counties, who joined with then Governor Granholm to create a new DARTTA via the execution of an interlocal and intergovernmental agreement; and

WHEREAS the American Federation of State, County and Municipal Employees (AFSCME) objected to the state and local regional effort to form a new regional transportation authority by suing, in 2003, the RTCC and its members and asking the Michigan Courts to declare the interlocal and intergovernmental null and void;

WHEREAS on July 5, 2005, the Michigan Court of Appeals, in *AFSCME v RTCC*, et al, declared the interlocal and intergovernmental agreement entered into by Governor Granholm and the RTCC to be null and void because the agreement was not necessary for the RTCC to receive transportation operating and capital assistance grants; and

WHEREAS subsequent attempts to amend Act 204 and cure the barriers identified by the Court of Appeals in *AFSCME v RTCC*, et al, to RTCC participation in a DARTTA interlocal and intergovernmental agreement failed in 2005 and 2006 after the Governor's Office failed to follow-through on promised support; and

WHEREAS in June 2006, acting pursuant to authority granted in Act 204 to develop and adopt public transportation plans for its metropolitan area, the RTCC Board unanimously directed its General Manager to develop a Detroit Area Regional Mass Transit Plan; and

WHEREAS supported by state and federal grant funding, the RTCC developed a comprehensive regional transportation plan for the metropolitan area and that plan attached hereto and incorporated herein was unanimously adopted by the RTCC on December 8, 2008; and

WHEREAS the adopted RTCC Comprehensive Regional Transit Service Plan incorporates the following key elements:

1. A review of current regional transit performance in Southeast Michigan; and  
(2) An assessment and series of recommendations for proposed enhancements and areas for improved coordination of services for the three prominent service providers in the region: DODOT, SMART, and DTC (People Mover), and

(3) A recommendation for a phased approach to implementation of a new Regional Transit Network consisting of a mix of enhancements to existing services, At-Risk Rapid Transit, Bus Rapid Transit, Light Rail, and Commuter Rail. The adopted plan provides that corridors will move to a higher level of service if and only if ridership warrants the improvements and if state and local funding mechanisms are established to support those improvements and if density characteristics are sufficient to leverage the Federal funds needed for capital construction; and

WHEREAS in adopting the Comprehensive Plan, the RTCC specifically noted that the viability of the Comprehensive Regional Transit Service Plan was dependent upon future legislative actions including: a.) the legislative establishment of a regional authority to run the system; b.) the legislative establishment of state and local funding mechanisms requiring a vote of the People for adoption; and c. the identification and adoption of funding sources for both operating and capital costs and a federal match on capital costs.

NOW THEREFORE BE IT RESOLVED that the Oakland County Board of Commissioners calls upon the Michigan Legislature and Governor to enact legislation that establishes an effective regional transportation authority for southeastern Michigan that support the RTA and transit system by establishing state and local funding mechanisms adopted by a vote of the People and that those funding sources be eligible for federal matching for both operating and capital purposes.

BE IT FURTHER RESOLVED that the Oakland County Clerk shall send copies of this resolution to the Governor of the State of Michigan, the Speaker of the House, the Senate Majority Leader and to all of the Members of the Oakland County Michigan Legislative Delegation.
