

Assessment Roll for the Township of Ainsworth

Note: No more than one land or forest tract may be valued or taxed on the same plan. Two descriptions must not be joined in one valuation or the values stated and assessed on the property will not be correct and if the name of the owner is not known, they should be recorded as "owner unknown." Since the amount of any re-assessment will affect both, in the column "No. of Assessments," the number of assessments made should be recorded.
