

PONTIAC BILL POSTER

Mr. Carpenter retired from active farming in 1862, giving the business entirely into the hands of his sons. Having abundant means outside and independent of his real estate, he has sat down quietly to enjoy the accumulations of many busy years. Since 1862 he has given considerable attention to the cultivation of bees, of which his average stock is from twenty to fifty colonies of the common or black variety. He has been very successful in this pursuit, of which he makes a sort of specialty and takes great delight in the employment. Mr. Carpenter has never been a politician, in the strict interpretation of the term, but has always had an opinion, and has filled various offices in the gift of his fellow-citizens, and has been nominated on the Republican ticket for the representative branch of the State legislature, though the hopeless minority of the party in the district rendered success impossible.
