ENROLLMENT FOR BOYS' CAMP IS BIG

Those Who Wish to Go Have No Time to Lose to Get In

The unprecedented early enrollment of boys over the County for the new Y. M. C. A. Camp at Loon Lake necessitates this warning that if any boys of this community are planning to go to this camp their intentions will have to be made known at the headquarters of the Town & Country Association in Masonic Temple Build-

ing at Pontiac on or before June 15. Other sections of the County are asking for an increase in their quota and the Town & Country group has agreed to release the space alloted to them after June 15th if they have no registrations for that space.

Contrary to the general opinion this new camp even though 150 miles away is arousing a great deal of interest. The idea of going north and the possibility of isolation and freedom from other distractions has encouraged a chines providing the passengers and was devoted to election of officers very large registration. > Churchgoing Magpie Going to church on Sunday night is not the habit of magpies but one in Long Gully, Victoria, Australia, did so. It perched on a seat near its owner. Its presence in the church aroused much interest among the younger members of the congregation. Toward the end of the service the magpie left the church and awaited its owner. In the strange surroundings it became confused, and while following its owner across a road in the dark was run over by a motor car and killed.

Popular Old Tune The tune, "Listen to the Mocking

Bird." was composed by Richard Milburn. The story is that Septimus Wenner induced Milburn to whistle this piece while Wenner wrote it down. The song was afterward published by Mr. Wenner in Philadelphia in 1855. It is interesting to know that the 1855 edition of the song reads, "Listen to the Mocking Bird; Music written by Richard Milburn, Words by Alice Hawthorne." Alice Hawthorne was one of the pseudonyms used by Mr. Wenner.

Give Welcome to Joke In these days of modern rapid trans-

portation nothing travels faster and farther than a new joke. Its appearance is as welcome as the birth of an heir in an old-fashioned kingdom, and it is started on a dizzy circulation that sweeps the whole country in concentric rings and then flies off at a tangent to the farthest confines of the jest to the Barbary states and

The new joke, perhaps, comes out modestly and timidly in a newspaper or magazine. It is quickly seized and reproduced by a thousand more. It next appears in radio programs; it is sandwiched in the "talkies"; it passes on to the vaudeville stage, and after it is supposed to have jumped the ocean it fools its old friends by turning up in the daily comic strips. Of course, it never gets away from the afterdinner speakers. There is nothing so much in demand as bright new jokes-the common property of alland there is never overproduction. He is a real benefactor of humanity who contributes to the world a good joke. -Logansport Pharos-Tribune.

Rich Richard

After all these years it is revealed that Ben Franklin—who said it was hard for an empty sack to stand on end, and a stitch in time saves nine, and "early to bed and early to rise makes a man healthy and wealthy and wise," did not abide by his own recommendations. The sly Ben by no means invariably turned in at 9 o'clock and out at 4. He liked to sit up with the boys-and girls-as well as any one, making merry far into the night. He did follow the "Poor Richard" precepts in youth, however-and they

rked. Early to bed and early to rise made him healthy and wealthy first, and then wise enough to stay up and see the fireworks afterward .-

Boy Really Father of Man, Says This Writer

Boys are really fathers of their dad if the latter are conscientious parents, according to Frederic Van de Water, in Woman's Home Companion.

Fathers begin, he explains, by assuming a saintly attitude to impress the youth by example, but they soon find that the youngsters are catching them in the very things they preach

"As months march past I find myself dissembling less," says the writer. "Besides expurgating my speech and standing when women enter, I have acquired other virtues. I fold my napkin after each meal. I am polite over the telephone. I am dressed in time for breakfast. I hang up my overcoat and I wipe out the tub after my bath. My son does few of these things without prompting, but, anyway, he will not be able to say that he observed his father in a similar offense.

"By the time he is twenty he will be pretty much like other men of his age. I have no illusions in that direction. But I am certain of one thing: By the time he is twenty I shall be a well-bred, well-groomed, tolerant, dillgent man and I shall have him to thank for it."

Bridal Bouquets

It is impossible to state when flowers were first used at a wedding, since this is a very ancient custom. Orange blossoms were worn and carried by brides from the earliest times, as they portend luck and happiness. Spenser and Milton were of the opinion that the orange was the golden apple presented to Jupiter by Juno on her wedding day. It was customary for the Anglo-Saxon bride to give her friends small knots and ribbons to wear or carry on the wedding day. This custom still survives in the bouquet of the bridesmaids.

The Cracker Barrel Has Gone

Remember the old cracker barrel in the grocery store? While the grocer wrapped packages, we, his customers, munched away at prunes, crackers and anything else left uncovered.

BUT TIMES HAVE CHANGED! Studies of cost and adoption of better methods have put the wasteful old barrel into the discard. Other lines of business have likewise improved.

The same thing has happened to banking. Time was when many banks gave away their earnings and jeopardized their safety by a multitude of free services. But today, safety and soundness are paramount—factors which make for community prosperity.

We are doing better banking today and proud of it. This means that you get more real value for a dollar of banking service than ever before.

We appreciate your cooperation in making this new era in banking possible.
