CLARKSTON, MICHIGAN, FRIDAY, AUGUST 1, 1930

WHOLE NUMBER, 47

WILLIAM CULHANE HAS PASSED AWAY

Clarkston Mourns the Loss of a Well Known Resident

William A. Culhane, well known citizen of Clarkston, passed away at Caribou Inn Friday morning, July 25, after an illness of several weeks, during which time he gradually failed.

Mr. Culhane, who was 55 years old, was the only son of the late Cornelius and Ellen Culhane, was the last of his family, and had until recent years led a very colorful life. His father, well known in the early lumbering days as Conn Culhane, had extensive lumbering interests near Tawas City and camps in the Upper Peninsula at Taquamenon River, at Newberry, and on the shore of Lake Superior, and the son, known as Billy, learned much of life in the lumber camps. Mr. Culhane Sr. was killed in an accident in one of his own camps, leaving the care of all to the son, who resided with his mother and sister at the family home in Port Austin.

Later they moved to Detroit and while living there, about 18 years ago, came out to Deer Lake Inn, which was then owned by W. J. Barry, for a vacation and were regular visitors from that time on. Later, when his mother and sister had both passed away, Mr. Culhane came to the Barry home at Caribou Inn about 10 years ago, where he remained from that time on, as he had no near relatives living.

After he had disposed of most of his lumbering interests, he was engaged in the real estate business for many years, owning much property in Detroit and various places. Mr. Culhane was a member of the Knights of Columbus of a Detroit chapter and was buried in the faith of the Roman Catholic Church.

The body lay in state at Caribou Inn in a solid bronze casket surrounded by many beautiful floral pieces, the offerings of business men and friends, from Saturday till Monday noon, when short services were held at the Inn by Father Flaherty, assistant priest of St. Michael's church of Pontiac, during which time all business places in the village were closed. Miss Selina Woodward and Dr. C. J. Sutherland sang "Abide with Me", after which the funeral party left for Port Austin, escorted by a representative company of business men and friends, among whom were included Messrs. Ed Seeterlin, Joseph Seeterlin, Benjamin Miller, Frank Leonard, Joseph Alger, George Elliott, Jacob Gulick and W. E. Bellows, who acted as pall bearers. The old family home at Port Austin was opened up and the body lay in state there until 10 a. m. Tuesday morning when high mass was sung by Rev. Father A. Kemka, of the Port Austin Church, assisted by two visiting priests, with burial in the family lot at Port Austin.

A TRIBUTE

Miss Ida A. Pierce, a life-long resident of this community, passed away to 9 a. m., July 23. Her death has taken from this village one of its sterling characters. For many years she followed the calling of practical nursing and for the past 10-12 years she has operated a lying-in hospital in Clarkston, where many mothers received the blessings of her ministering care. Miss Pierce was a working Christian. She believed she could best serve her God by rendering her best aid to her fellow beings and there are but few homes in this vicinity that have not responded to her loving care. She has with open arms received the little newcomers. She has held the hands of our dying friends and whispered words of comfort when their feet were slipping over the brink. Surely we will miss her from our number for of her it may be truly said, "the world was made better for her having lived".

Dr. C. J. Sutherland.

GOLF TOURNAMENT DATE HAS BEEN POSTPONED

The second match in the golf tournament between Cedar lodge, F. & A. M., of Clarkston, and Commerce lodge, scheduled to take place today, has been postponed to a date to be announced later. Commerce members had a community picnic and important lodge work this week, and this, together with the baked condition of the fairways on account of the prolonged drought and extreme hot weather, caused the postponement, which was welcomed by both sides. It is to be hoped that we may have good soaking rains to freshen up the course before the time of the next match, the date of which will be announced in the News next week.

CLARKS'N TO HAVE FINE BUS SERVICE

Through Service to Detroit and Flint Over Two Routes

Within a few days Clarkston will be placed upon the transportation map of Eastern Michigan Motorbuses, the largest bus operating concern in the state.

This announcement is made to the News by P. L. Radcliffe, manager of transportation of the Eastern Michigan company. Service will begin August 4.

Under the operating plan Clarkston will have direct connection to the south with Pontiac and Detroit. Northbound some of the buses will go by way of Holly and Fenton to Flint while the others will reach Flint by way of Ortonville and Goodrich.

All this comes about through the authority of the Michigan Public Utilities Commission, which has granted a new permit from the junction of U. S.-10 along M-15 to M-21, the Lapeer road, and then into Flint.

Co-incident with this permit the commission authorized the consolidation of two other bus lines purchased some months ago by Eastern Michigan Motorbuses, one operating from Pontiac to Fenton and the other from Fenton to Flint.

As is well known the Eastern Michigan has for several years been operating between Detroit and Flint over U. S.-10. For the purpose of serving the several communities on either side of U. S.-10 several of the trips now running on U. S.-10 will be diverted to the new routes. The route by way of Fenton will be over U. S.-10 to M-15, then back to U. S.-10, leaving that road at the junction with M-87 and then to M-23, entering Flint by the Fenton road. By this operation Clarkston obtains the benefits of both routes.

Under the timetable formulated for the combined operation buses for Pontiac and Detroit will leave Clarkston as follows: 8:53 a. m., 10:48 a. m., 12:53 p. m., 2:43 p. m., 5:53 p. m., 7:43 p. m., with an additional bus Saturdays, Sundays and holidays at 9:08 p. m.

Northbound the buses for Flint by way of Holly and Fenton will leave Clarkston at 9:11 a. m., 2:11 p. m., 6:11 p. m., with another one on Sundays and holidays at 9:11 p. m.

Northbound the buses for Flint by way of Ortonville and Goodrich will leave Clarkston at 10:11 a. m., 3:11 p. m. and 7:11 p. m.

The equipment to be used in this service consists of the very latest type of buses made by the General Motors in Pontiac. They seat 33 passengers with all seats facing forward. The engines have dual ignition, dual fuel system, dual carburetion and dual fan belts. Four wheel brakes are part of the equipment and the coaches have hot water heat with fan drive blowers in front and rear. All baggage is carried in inside compartments.

The Clarkston waiting room will be at the Roy Addis Sweet Shop.

The fares from Clarkston to the principle points will be as follows: to Ortonville 40c., to Flint \$1.00, to Holly 45c., to Fenton 60c., to Waterford 15c., to Pontiac 50c., and to Detroit \$1.20.

A BEDTIME STORY THAT IS SAID TO HAVE HAPPENED

It is an old saying that a baby will not be smart unless he falls out of bed before he is a year old. There may be some truth in that, but why should a grown-up man tumble off his sleeping couch? That's the question agitating a number of people in Clarkston just now, mentioning no names, but recording a well verified story that one of our prominent business men, while away from home recently with a party of friends, had such an experience. It may not have been one of those old-fashioned high poster beds, yet it is reported that the unfortunate slumberer received injuries that would have resulted in a doctor being called, had one been available. As it was, so we are told, his brother rendered first aid.

AVIATORS FLY TOO HIGH FOR LOCALS

Detroit Birdmen Win Baseball Game by Shutout Route

Detroit Aviators, 8; Clarkston, 0. That was the score of last Sunday's game. All of the runs except one in the last frame came in the first two innings, so from the third inning on it was a pretty contest. Francis, who started in the box for the home team, was not in form, but Visgatis, who succeeded him, had plenty to fool the visitors. Bradley Miller was behind the bat. The rest of the team was picked from the "Old Timers" and the "Kids", and if they keep together long enough they will make a strong aggregation. The Aviators have had much practice and training and in this way have developed good team work.

Clyde will be here for a game next Sunday at Athletic Field. The visitors have a strong team, including one of the best pitchers in the county.

DIXIE DRIVERS ARE HOLD - UP VICTIMS

Highwaymen Compel Them to Hand Over Money and Ring

Oakland county officers are looking for four bandits who held up and robbed five men, occupants of four cars, on the Dixie Highway, near the Canteen, five miles north of Clarkston, early Wednesday morning. The hold-ups all occurred along a three-mile stretch of the highway and took place within the space of an hour and a quarter.

The bandits secured \$216 in cash and a valuable ring, the latter the property of Julian Didell, of Monroe, who also lost \$150 in money. The balance of the \$216 was contributed by H. Baller, 1357 Cedar Grove avenue, Detroit, \$16; George Dahl, 4157 Chene street, Detroit, \$30; Frank Henry, Owosso, \$18, and Melvin Bentley, Owosso, \$2. Henry and Bentley were riding together.

The thugs drove up alongside their victims in a large Buick car and forced them to proceed to a side road about a mile north of the Canteen and west on the cross road about half a mile. Here the bandits searched the pockets of their victims and then ordered them to proceed on west.

Baller was the first of the victims to report the hold-ups, which he did in a telephone call to the sheriff's office from the Canteen. Oakland county officers then notified Flint officers. The victims of the hold-ups describe the highwaymen as all about 25 years old, dressed in long coats of a rough white material which they wore over dark clothing. They were all armed.

Mrs. Howard Huttenlocker entertained at bridge Thursday evening.

Rev. and Mrs. Joseph Chapman were in Croswell a few days of last week, the guests of their daughter.

COUNTY FAIR FOUR DAYS NEXT WEEK

Event Will Be in Nature of a Golden Jubilee Observance

With August comes the Oakland County Fair, held this year on the sixth, seventh, eighth and ninth of the month when many people are still having their vacations and are in a mood for delightful entertainment. The 1930 exhibition will mark the 50th year since the first fair was held at Milford. Of the original promoters, none are left but the fair has continued and by its yearly exhibitions has furnished information and entertainment to two and three generations of its patrons.

During the past ten years of its history as a county fair, the slogan has been "Better and Bigger" and its growth and improvements have been notable.

For the 1930 fair the management promises the best possible showing of the staple exhibits which form the real reason for a fair, including livestock and farm crops, boys' and girls' club work, ladies' handiwork, school work, children's work, antiques, etc.

For entertainment there will be four days of horse racing, four ball games, three premier platform attractions, band concerts, rides and the ever present midway.

The largest tent on the ground will house the automobile show which is always one of the big features of the fair. Latest models of many makes will be shown.

The feature of the evening program will be the Grand Parade of Progress to be given on Thursday, Friday and Saturday nights. Last year's parade proved to be the most popular feature ever presented at this fair and this year's will be equally fine. About 400 people are needed in the cast and groups are being rehearsed in several communities about the county as well as at Milford.

The fair management have spared neither effort nor expense to produce an exhibition worthy of the approval of the public and they hope to see a large attendance from Clarkston and vicinity.

WATERING A GARDEN

Artificial watering, if properly applied, will prove a decided advantage to the garden during dry periods, but may prove an injury if not properly done. The United States Department of Agriculture says frequent light sprinkling of the garden is injurious. The proper method is to soak the soil thoroughly about once each week, preferably during the evening, and then loosen the surface by cultivation as soon as the soil is dry enough to work. No more water should be applied until absolutely necessary; then another soaking should be given. On a small scale water may be applied with a sprinkling can, or a garden hose. Perhaps the best method is to open slight furrows alongside the rows of plants and allow the water to flow gently along the furrows. After the water has all soaked into the soil the wet earth in the furrows should be covered with dry soil to prevent baking.

WINTER POINTS OUT BEST ALFALFA SEED

First Cutting Confirms the Use
of Hardy Varieties

East Lansing, July 31.—The records of the first cutting this year on the fields where the winter hardiness of the various strains of alfalfa are being tested by the college confirm the previous recommendations that Michigan farmers should use Hardigan, Grimm or Cossack for stands which are to be left several years and to use northern grown common if one of those three is not planted.

Arizona, Argentine or Hairy Peruvian alfalfa seed is not adapted to Michigan conditions and will not survive the winters in this state. On the farm of Edward Donahue, Sterling, where one of the tests is conducted, Argentine alfalfa produced less than one-half ton per acre the first season after seeding and then was a complete failure. Arizona common, on the same farm, never produced a cutting after being seeded in 1928.

Argentine yielded an average of .63 of a ton of alfalfa per year for two years on the Ernest Bailey farm at Prescott; Arizona common yielded .28 of a ton the first year after seeding and nothing the next year.

Hardigan yielded an average of 1.14 tons on the Bailey farm and 2.20 on

ELECTRIFICATION FIELD DAY COMING

Will Be Held on Farm Between
Clarkston and Ortonville

A farm and home electrification field day will be held at the Fred Beckman farm, 3 miles south of Ortonville, the first house west of the Clarkston-Ortonville Road on the Oak Hill Road, on Thursday, August 7. Michigan State College and Detroit Edison Company have outfitted two trucks with the latest practical electric equipment for home and farmstead. The machinery will be at work afternoon and evening at 2:00 and 8:00. Prof. Gallagher and Miss Evelyn Turner of the College will be in charge. There will be educational demonstrations and talks and moving pictures.

The meeting is sponsored by Michigan State College, the County Agricultural and Home Economics Service and the Detroit Edison Company. All farmers, women belonging to Home Economics groups, 4-H Club members and their families are invited to attend this meeting. The exhibit will be the most complete ever shown for home and farm.

NIGHT BASEBALL WILL BE PRESENTED AT PONTIAC

Baseball fans in Oakland County will be given a first opportunity of seeing baseball played at night by electric illumination when the City Employees Team, champion of the Recreation League of Pontiac, meets the California Owls on the High School field at nine p. m. Saturday, August 2. This is the first night baseball game to be played in Oakland County and the proceeds of this game will be used to defray the expenses of the winning team of Pontiac to the World's Sand Lot Championship Baseball Tournament to be held at Cincinnati, September 20-23.

In addition to presenting the night baseball game, the California Owls are rated as one of the fastest road teams in the United States. Starting at California they are playing their way thru to the Eastern Coast. They have defeated some of the best minor league teams in the country. Among the teams they have defeated are the Madison, Wis., Blues and the Racine, Wis., Wildcats.

If There Were No Banks

The bank is a convenience which we take for granted just like friends, health and happiness. Until we stop to think of it, we do not realize the many ways in which the bank has become an indispensable part of our mode of living.

If there were no banks, you would have to pay your bills with cash, or more inconvenient yet, by barter. Without banks, our present money system could not have been perfected.

If there were no banks, you would have to send money to another town by express or registered insured parcel post. This transfer can be done easily by a bank draft or check at reasonable cost.

If there were no banks there very likely would be so such thing as community credit, as there would be no central concern dealing in credit.
