WATERFORD SCHOOL NOTES

The box social last Friday evening was a big success in every way. The program was opened by the school orchestra and

several soloists were featured. Archie Allen, of Pontiac, appeared in a mystifying exhibition of legerdemain. William Jacober installed a radio for the occasion which provided entertainment for the remainder of the evening.

The sale of boxes, conducted by Percy King, netted the Boys' Athletic Fund \$45, and some much needed equipment has already been purchased. The boys wish to thank everyone for their kind assistance and cooperation.

The P. T. A. will meet next Thursday, April 2, at the High School and at that time the year's handicraft work of the two 4-H boys' clubs will be exhibited. A motion picture will also be a feature of the program.

On Friday at 1:00 o'clock there will be a spelling contest to determine the school champion for the annual Detroit News contest.

Chevrolet is the world's largest builder of six-cylinder trucks

Wherever you go—on city street or country road—you find Chevrolet six-cylinder trucks very much in evidence. Tens of thousands of these sturdy workers are on the job daily, delivering goods, moving supplies, doing all types of light and heavy hauling.

Large fleets of Chevrolets are covering the nation for prominent public utility firms. Nationally known packers, oil companies and manufacturers are using Chevrolets in steadily growing numbers. Every line of business, every field of industry is coming to rely more and more on these big, powerful Sixes.

Indeed, the demand for Chevrolet trucks during recent years has been such that Chevrolet ranks today as the world's largest builder of six-cylinder trucks and commercial cars.

MAKE SAVINGS AT CO. TB SANATORIUM

Trustees Effecting Economies In the Management

The Board of Trustees of the Oakland County Tuberculosis Sanatorium, of which Dr. C. J. Sutherland, of Clarkston, is chairman, met at the Sanatorium Thursday, Mar. 19. There was a discussion of the plan of insurance used on the Sanatorium buildings. Mr. Goepfert, chief county accountant, explained in detail, saying a 90% co. insurance was used on all county buildings. The board agreed the plan a satisfactory one to them.

Leon Forsythe, chief engineer for county buildings under the new maintenance department set up, explained the workings of that department and the board passed a resolution to continue the services of Mr. Forsythe under the direction of Dr. Werner, medical director of the Sanatorium, so long as the plan proves efficient and economical. Harry Mothers, also of the maintenance dept., was engaged to do the necessary grounds work for the Sanatorium under the direction of Dr. Werner.

A resolution was passed commending Dr. W. J. Werner for the cooperation with the board of trustees and the excellent work he is doing in making every effort to get expenses down to the proper limits and to have the Sanatorium on a 100% basis. The board also expressed its appreciation to the employees thruout the Sanatorium for the splendid spirit shown in working out the readjustments. Dr. Sutherland is vitally interested in the management of the Sanatorium and thru his sound business judgment many substantial savings have been effected.

Howard Warner, of Farmington, and Mrs. O. W. Dawson, of Ferndale, are the other members of the board. It is the purpose of the board of trustees of the Oakland County Tuberculosis Sanatorium to use the funds for the operation of the institution as carefully as possible.

ALFALFA AND SOILS WILL BE DISCUSSED

Two of the Meetings to Be Held In This Part of County

Final plans are being completed for the series of soils and alfalfa meetings to be held in Oakland County on March 30 and

31. Meetings have been scheduled by County Agricultural Agent K. D. Bailey as follows:

March 30, 1:30 P. M., Goodison Gleaner Hall; 7:30 P. M., Town Hall, Ortonville.

March 31, 9:30 A. M., Mrs. Clara Miller's Farm, Andersonville; 1:30 P. M., Town Hall, Highland; 7:30 P. M., New Hudson High School.

The Federal Farm Board has not had to give any thought on how to take care of any surplus alfalfa hay and they certainly will not be worrying about such a problem in Michigan for a few years.

People recognize the crop as being a dependable, high yielding, high protein feed crop. All livestock men can use it. The poultry man finds it to be the best summer green feed. An alfalfa sod plowed up will usually produce a very high yield of corn or potatoes.

In some parts of Michigan, when farmers reach the point where their alfalfa acreage is greater than their hay requirements they are working on alfalfa seed production. This promises to be another possible income from the crop.

Alfalfa growing and all its different problems will be discussed at these coming meetings. You can add to them by attending and being prepared to tell your experiences with the crop. "Enough alfalfa for all the livestock on my farm" would be a good motto for any farmer to adopt.

Farmers are asked to bring in samples of soil and marl for testing.
