VOLUME II. NO. 44.

CLARKSTON, MICHIGAN, FRIDAY, JULY 3, 1931

WHOLE NUMBER, 96

WATERFORD GIRL WEDS ON JUNE 27

**Miss Mildred King Become the
Bride of Glen E. Campbell**

The home of Mr. and Mrs. Percy C. King was the scene of a simple but beautifully appointed wedding last Saturday evening, June 27, when their daughter, Mildred Josephine, became the bride of Glen Erwin, son of Mr. and Mrs. Edwin Campbell.

Mrs. William R. King played the wedding march as the bridal party entered and took their places in the bay window that had been transformed into an altar, with wedding bells, yards of floating tulle and banks of pink and white peonies, roses and delphinium.

The bride wore a gown of white chiffon and carried Briarcliff and Rapture roses, with baby breath, and was attended by her sister, Mrs. Fred Muller, as matron of honor, gowned in flowered organdy and also carrying a bouquet of roses and baby breath.

The groom was attended by his brother, Virgin E. Campbell, and Shirley Ann Van Wert and Dorothy May Beattie, small nieces of the groom, made very dainty little flower girls. They wore ruffled pink organdy and carried colonial nosegays.

The service was read by Rev. J. Wallace Jacobus, of Vassar, in the presence of about 60 relatives and close friends.

Supper was served following the ceremony. The bride's table was centered with a huge wedding cake, topped with an emblem of luck from which floated streamers, of pink tulle to low bowls of Briarcliff roses at each end.

Mr. Campbell is one of the young businessmen of the community and a graduate of the U. of M.

Mrs. Campbell has always filled positions of honor in community affairs, especially in athletics, 4-H Club work and Girl Scout work, and has been director of farm girls' camps. She is a graduate of the State Normal College at Ypsilanti and has taught in the Drayton school for the past four years.

Mr. and Mrs. Campbell left immediately following the reception for a trip through northern Michigan and upon their return will make their home at 112 Maplewood street, Sylvan Lake.

Many social affairs preceded the wedding, including a linen shower at Oakwood Manor with an afternoon of bridge, the party being made up of girl friends of the bride; a yellow kitchen shower at Columbiaville was attended by relatives of the groom and was a pleasant social afternoon lawn party; Waterford friends met for a miscellaneous shower and evening of "Bug"; a crystal shower at Stratford Arms, Pontiac, was attended by girl friends, with an evening of Bunco, and an evening spent in sewing useful bits for the household rounded out a full program of festivities. At the last mentioned, the honor guest was presented with their choicest jars of jam.

CLARKSTON

Seymour Miller was taken to the Ford Hospital for treatment the first of the week.

Walter Thompson, of Detroit, has been spending a few days with his family.

Mrs. Florence McVey, of Havre de Grace, Md., is visiting her parents, Mr. and Mrs. W. E. Bellows.

Mr. and Mrs. Harland Walter, of Detroit, have been spending a few days with his parents, Mr. and Mrs. Guy Walter.

David Stewart is laid up with a badly cut foot which he received when he stepped on a broken bottle that had been thrown into the swimming pool at Thendara Park. It has been learned that milk and pop bottles had been thrown into the pool by boys, a practice that is very dangerous, and one which will not be repeated if vigilance is rewarded.

FREE SWIMMING LESSONS FOR GIRLS UNDER TEN

Isabel and Phyllis King are organizing a swimming class for girls under 10, instruction to be given every Tuesday and Thursday at 4 P. M. There will be no charge. The young ladies are both expert swimmers, very much at home in the water, Isabel having passed the senior life saving test at Lansing and was a member of the "Green Splash", the honor lifesaving team of the college. Phyllis is just as efficient, but her college honors are of the future. We are sure many mothers will appreciate this well-directed service. A few proper instructions now are just another form of preventing a fatality with the traditional "ounce of prevention".

ELLIS WILL EXHIBIT AT BIG HORSE SHOW

**Owner of Ingomar Farms Enters
Three in Event at Flint**

Horsemen and women of the state will celebrate Saturday, July 4, in their own way with the annual horse show of Woodcroft Riding and Hunt Club of Flint, set for that date. A fine program has been planned and some of the very finest saddle horses of the state will be there, this vicinity being well represented with 3 entries from the Ingomar farms owned by Glenn Ellis. Norman Ellis will show Lyart Peavine, pride of the stables, in the 3-gaited classes, and Emmalyn will show Marsella, a 2-gaited entry that will be sure to win admiration. Cracksman, 5-gaited, is owned by Mrs. Alfred Marshall, of Flint, and will be shown by her in the ladies' class, local class and stake. Mr. Ellis has given a trophy for the best 5-gaited state, best mare, stallion or gelding.

Mr. and Mrs. Glenn Ellis, son and daughter, Norman and Emmalyn, and Mrs. Mabel Butler will attend the show.

E. D. SPOONER IS GIVEN SURPRISE AT HIS HOME

The farm home of Mr. and Mrs. E. D. Spooner, of Williams Lake Road, was the scene Saturday afternoon and evening of a very pleasant party when about 35 people from Pontiac came out in a body and surprised Mr. Spooner. The beautiful lawn was enjoyed by the group, tables being placed around it and different games played. Croquet and quoits were also played. The supper, which was cooperative in nature, was also served out of doors.

The guests were the following from Pontiac: Mr. and Mrs. Baum, Mr. and Mrs. C. White and daughter, Dorothy, Mrs. C. Bartlett, Mrs. Walter, Mr. and Mrs. Harry Pierce and son, Billy, Mr. and Mrs. Hoffman, Mr. and Mrs. Charles Burreddge, Mr. and Mrs. Charles Newton, Mr. and Mrs. Guy Newton, Mr. and Mrs. Homer Newton and daughters, Mr. and Mrs. Robison, Mr. and Mrs. Marsh and Mr. and Mrs. Garrison.

THESE ARE NEIGHBORS IN FACT AS WELL AS NAME

Allie Johnson, a young farmer at Seymour Lake, is thankful that he has good neighbors. Johnson recently was injured when his truck was struck and demolished by a gravel truck operating at a pit near his home. Unable to do his farm work, his neighbors joined to turn in and take care of his crops. Johnson is getting better but will be unable to do any work for some time. His mother, Mrs. Roy Kern, of Farmington, is caring for him.

Mrs. Josephine Smith has been visiting friends and relatives in Detroit for a couple of weeks.

Leroy Schreck, who has been studying commercial art in San Marino, Calif., has taken a position as illustrator and designer for the Liggett & Owl Drug Co. of that place.

SOCIETY EVENT AT DETROIT BOAT CLUB

**Clarkston Woman Entertains at
Bridge and Luncheon**

At the Detroit Boat Club Tuesday Mrs. E. S. Leonard entertained at luncheon a number of friends from Clarkston and some who spend part of the summer here. The long table was most attractive with its centerpiece of pink roses and delphinium and in the afternoon the guests played bridge on one of the porches. Among those included on this occasion were Mrs. Charles R. Lambert and her daughter-in-law, Mrs. Frank Lambert, who is visiting her at present, Miss Nellie and Miss May Berry, Mrs. Guy Walter, Mrs. Lewis Walter, Miss Zoëa Grant, Mrs. George King, Mrs. David Newlands, Mrs. William Vliet, Mrs. Milan Vliet and Miss Viola Alger, all of Clarkston; Mrs. David Lorimer, Mrs. Frank Goddard, Mrs. Philip Mulkey and Mrs. Walter Thompson, of Detroit, who are frequent visitors in Clarkston during the summertime.

NEW GAS STATION OPENS ON THE DIXIE AT M-15

Ed. ("Red") Williams and Henry Mehlberg, of Waterford, have been placed in charge of a new gas station on the Dixie Highway opposite the Clarks-ton Road. The station is one of several owned by the H. & E. Oil Co., and handles Barnsdall gas and oils (Monamotor oil). The station house is a very pretty and attractive white structure, and has modern rest rooms.

AIRPORT NEWS OF CURRENT INTEREST

**Items Picked Up at Flying Field
by a News Representative**

The polo game of last Sunday was so very one-sided that it was more of an exhibition for the Pontiac Motorcycle team.

The Detroit News Autogyro made the airport a short visit Sunday, but as it was a business stop, no exhibition trips were made, but a good crowd was on hand to see it land and take off. Frank Byerly, the pilot, was accompanied by W. E. Scripps.

William Keasler, formerly with the Municipal Airport, is now co-pilot for the Thompson Aeronautical Corp. on their amphibian run between Detroit and Cleveland.

Kenneth Barber expects to have his Waco plane at the Airport this week ready for flying instruction.

Byron Soultz, of the Milford Fur Farm, is having his Curtiss OX-5 motor biplane overhauled at the Airport.

The Nicholas Beasley Sport Trainer brought in from Marshall, Mo., last week is attracting considerable attention at the Airport. With its wings folded compactly back at its sides it requires but small space for storage. L. J. Hickman, of General Motors Corp., has purchased it for private use and is now taking instructions. It is equipped with a Genet 80 H. P. motor and is considerably less than \$2,000 flyaway at factory.

THREE WERE INJURED IN ACCIDENT NEAR LAPEER

Rounding a sharp curve north of Farmer's Creek, a few miles south of Lapeer, Sunday, Ruthford J. Fay, of Drayton Plains, apparently lost control of his car, which left the travelled portion of the highway and crashed into a tree. In the car with Fay were his wife and two children. All three were injured, but not seriously it was ascertained at the hospital where they were taken.

A collision with another car, driven by William Tompkins, of Detroit, was averted when Tompkins, approaching the curve from the other direction, heard the Fay car and swerved to the other side of the road and stopped. With Tompkins were his wife and three children.

MRS. MARY MATUREN DIES AT HOME OF DAUGHTER

Mrs. Mary Maturen, aged 60 years, died at the home of her daughter, Mrs. George Delap, Farmer avenue, Drayton Plains, Tuesday, June 30. Before coming to Oakland county 15 years ago, Mrs. Maturen lived at Bay City. The body was taken to the Davis Funeral Home. The funeral was held on Thursday at St. Michael's church at 9 a. m., with burial in Mt. Hope cemetery. The deceased is survived by her husband, Timothy Maturen; two sons, Charles E. and Chester J. Herrick, both of Pontiac; and two daughters, Mrs. Charles McGinnis, of Bay City, and Mrs. Delap.

CHURCHES

CLARKSTON BAPTIST CHURCH

H. A. Huey, Pastor

Morning worship is at 10:45. Sermon by the pastor: "The Fruit Bearing Christian". Music is in charge of Miss Hazel Francis. Miss Adelle Gardner, of Deer Lake, will sing.

Sunday School follows at 12. George Van Horn, supt.

WATERFORD COMMUNITY BAPTIST CHURCH

H. A. Huey, Pastor

Sunday School is at 10:30. H. B. Mehlberg, superintendent.

Services are at 8 P. M. Sermon by the pastor: "The Fruit Bearing Christian". Special music by Misses Georgia Johnson and Ethel Mertens.

DRAYTON PLAINS COMMUNITY U. P. CHURCH

Clarence J. Sutton, Minister

Topic: "Divine Supremacy".

Junior Church at 10:30 in the church parlor. Mr. and Mrs. Roland Crawford, leaders.

Sunday School at 11:45. D. D. Garner, superintendent.

The pastor will occupy his pulpit on Sunday.

CLARKSTON

Miss Lucile Grant, of Detroit, is spending the week with her aunt, Mrs. Emma Hoyt.

Tom Parnell is convalescing after an operation for appendicitis at Goodrich Hospital.

Mrs. Frank Harris, of Detroit, spent the week-end with her sister, Mrs. Ed. Seeterlin.

Bonner Crawford, of Mt. Pleasant, was the guest of Miss Phyllis King the latter part of the week.

Mrs. Margaret Jossman and daughter, Esther, of Detroit, are at their farm home for the summer.

LOCAL TEAMS WIN THREE; LOSE ONE

**Waterford and Two Plains Nines
Victors in Sunday Contests**

There were a number of features in Sunday's game at Waterford between Waterford and the Detroit Times, but the multiplicity of errors by both teams led in the counting. There were 22 misplays in all, the visitors contributing 13 and the locals 9. Practically all of the runs were the result of bobbles. As far as hitting was concerned, Waterford had much the better of the argument, getting 14 safe blows to the Times team's six. Barkham again pitched a strong game and also led in hitting with four safe ones. He struck out 11 batters. Lew McAllister, old-time Tiger player, was on first for the locals. The score was Waterford, 14; Detroit Times, 8.

The game at Drayton Plains Sunday between the Automatics and the Gauss Bakers of Pontiac was a close contest, with the locals on the long end of a 3-2 score. The teams were evenly matched and while the game was not particularly exciting it was interesting. Brown and Waterman was the Drayton battery and Ritz and Freeman worked for the visitors.

The Automatics will play at Auburn Heights Saturday, and on Sunday will play the Drayton Kids. The Kids, practically all High School players, defeated Lake Angelus last Sunday, 5 to 0, and Lake Angelus is considered a strong aggregation. Beals, however, had them completely at his mercy, and Willard, behind the bat, held him well. Atwood and Owen worked for Lake Angelus.

This victory has given the Kids confidence and they are going into Sunday's game with the intention of showing the Automatics some class. A big crowd is anticipated and both teams have supporters who will be willing to put up wagers on the outcome.

The Airport team lost a close home game to Berkley Chevrolet, Sunday, 5 to 4. A bad second inning, when Berkley scored four times, caused the defeat. Ridgeway and Shepard was the Airport battery. A return game is scheduled for next Sunday.

THREE FROM HERE JOIN IN COUNTY POTATO PROJECT

K. D. Bailey, county agricultural agent, in furtherance of the state-wide plan to improve the quality of Michigan potatoes, has established 17 demonstration plots in various sections of the county. Each plot is to be given some particular type of attention in order to establish and demonstrate the value of that process. Some plantings are dedicated to fertilizer experiment; others will show the value of close planting; still others are to be used to demonstrate various kinds of soil and disease treatment. These plantings will be used as centers for meetings and discussions during the summer.

Among the farmers in this part of the county who have such plantings are Verne Lockwood, Route 4, Holly; and Fred Beckman, Lewis Galligan and Herbert Baynes, Clarkston.

ALUMNI ASSOCIATION OF ORTONVILLE IN BANQUET

The Bald Eagle Lake Country Club was the scene recently of the annual banquet of the Ortonville High School Alumni Association. An interesting program was presented, with Miss Donna McMullin, of Ferndale, acted as toastmaster. Mrs. W. Lee DeLano, of Ann Arbor, spoke words of welcome to the new members, and the response was given by Miss Lillian Stevens.

Mrs. Eli Fisher returned Saturday from Pontiac, where she has been the past two weeks nursing her daughter, Mrs. L. A. Yarbrough, who has been seriously ill.

SUPERVISOR MORRIS JAY BADLY INJURED IN FALL

Supervisor Morris Jay, of Waterford Township, met with a serious accident at his home on Voorheis Road last Saturday. While repairing the pump house he slipped and fell nine feet, striking his head, cutting a deep gash, and fracturing two ribs. He was unconscious for some time and was taken to the hospital where his wounds were dressed by Dr. Darling. He was then removed to his home, where he is now recovering as rapidly as could be expected.

STORM ON FRIDAY ALMOST CYCLONE

**Roof of Hill House Was Lifted
and Blown to the Ground**

A terrific wind storm visited this section last Friday morning. Before it broke the clouds betokened, to those who had seen one, the approach of a cyclone, and on account of the darkness with which everything was enveloped it has been called "the black storm".

Considerable damage was done around Waterford, the greatest being to the Hill House. The wind, swooping down at great velocity, lifted the roof completely off the building, a brick structure, and deposited it on the ground. A large number of bricks were also dislodged. As soon as possible workmen were secured and the roof was put back in place.

Many trees in this area were uprooted, others were broken down or large branches broken off. Small twigs and branches were scattered far and wide over lawns and upon the streets.

COUNTRY HOME IS SCENE OF PRETTY HOUSE PARTY

A house party in honor of Keith Lovrien, who is spending the summer vacation of the Iowa State College with Mr. and Mrs. Arthur Huth Lovrien, of Detroit, was given Thursday evening by the Misses Margaret and Jean Ayers at their country home, "Old House", near Davisburg. During the evening dancing and games were enjoyed and later supper was served. The guests included Mr. Lovrien, Hugh Rutledge, of Charleston, S. C., who is the house guest of Frederick Ward, Jr., Joseph Mulberg, of Yale University, Kneale Bronson, of Ann Arbor, the house guest of Russell Kneale, of Davisburg, Mr. Ward, Mr. Kneale, Miss Carol and Joseph Pelton, Miss Catherine and Gordon Tinsman, Harry Hoesch, Miss Catherine Corwin, Gordon Reynolds, Miss Elizabeth Linton, Merrill Walls, Miss Madeline Patterson, Thomas Gray and Rodolph Richard.

WATERFORD COUPLE HAVE BEEN MARRIED 44 YEARS

Mr. and Mrs. Frank Byrne Fox, of Maple Leaf Lodge, Grand River Avenue, were married forty-four years ago, June 30, 1887, at the home of her parents, the late Mr. and Mrs. Waterman Phillip Grow, at their farm home, called then Maple Row, but since sold and renamed Maceday Gardens. Mrs. Fox (nee Caroline H. Grow) was born at this home and can remember her father setting out the beautiful maple trees that now grace this historic old place.

Owing to the illness of Mrs. Fox and Mr. Fox's absence from home on business they did not celebrate their anniversary but will at a later date in Detroit on a river trip. Mrs. Fox received many good wishes from friends who were guests at her wedding.

Mrs. Alta Vliet and children returned to Bentley Tuesday after a two weeks visit with relatives.

The Barrows reunion was held Sunday, June 28, at Davisburg Park, with 45 present from Duluth, Minn., Ann Arbor, Flint, Swartz Creek, Birmingham, Royal Oak and Clarkston. Next year's reunion will be held at the same place. Mrs. Vine Barrows attended from Clarkston.

CLARKSTON, MICH., JULY 3, 1931

LEGIONNAIRES ARE NOW IN CONCLAVE

Annual State Convention Being Held in Pontiac This Week

Clarkston veterans of the World War are well represented at the State convention of the American Legion which opened a three-days session in Pontiac Thursday. The first morning was devoted to meetings of committees and fraternizing and in the afternoon a band concert preceded the opening session, at which there were addresses of welcome and responses, and the annual reports of officers. District dinners were held in the evening.

The program today includes reports of committees, and in the evening the annual department banquet, always one of the big features of the convention.

The parade is scheduled for Saturday morning and it is expected that Campbell-Richmond Post, No. 63, of Clarkston, will be in line as a body.

NEW COMBINED COURSE ANNOUNCED BY U. OF M.

Ann Arbor, July 1.—Special training to meet the complex problems of modern business and industry thru a college curriculum which will fuse literary, business administration and law courses, is an innovation announced at the University of Michigan by Clare E. Griffin, Dean of the School of Business Administration. The new program will lead progressively to A.B., M.B.A. and LL.B. or J.D. degrees, and may be completed in seven years and two summer sessions, as compared with nine years if the same work were not taken on the combined curriculum.

LIVELY CONTEST IS ON FOR CLUB WEEK

4-H Boys and Girls Will Meet at East Lansing, July 6 to 10

East Lansing, July 1.—There are at least 600 Michigan boys and girls who are not going to let any superstitions interfere with their efforts to attend the thirteenth annual boys and girls club week held at East Lansing, July 6 to 10, for the purpose of choosing sectional champions to represent their section of the State in the contests held at the Michigan State Fair next fall.

From the 600 who come to Michigan State College, teams to judge sheep, cattle, hogs, poultry and crops will be chosen; and the girls will furnish champions in the making of clothing, in canning fruits and vegetables, and in other household arts. The healthiest boy and girl also will be selected.

The champions from the East Lansing camp compete against those to be chosen at Gaylord August 10 to 14 and at Chatham August 3 to 8. Teams from the sections meet at the State Fair in Detroit in a series of contests to determine who shall be Michigan's representatives at the National Boys and Girls Congress held in Chicago late in November.

State and local bodies aid in bearing the expense of selecting the State champions and of sending them to Detroit and Chicago. Those making the Chicago trip are the survivors from competitions which involve more than 25,000 boys and girls enrolled in the clubs of the State.

To keep the youngsters from becoming disgusted with too many tasks the East Lansing camp program offers them a variety of games and other entertainment.

CLARKSTON

Mrs. Ed Leonard is confined to her home by illness.

Mrs. Herbert Souby and sons are spending the week-end at Columbiaville with relatives.

Fred Vering left Saturday to visit his grandparents in West Virginia.

The Baptist Ladies' Auxiliary will meet Friday, July 10, at the home of Mrs. George Van Horn for a 1:00 o'clock luncheon.

Rev. and Mrs. H. A. Huey and son, Bob, were the dinner guests of Mr. and Mrs. Ed Jencks last Sunday.

Mr. and Mrs. Allan Alban and the latter's mother, Mrs. Ida Carran, have moved into the Frank Leonard cottage for the summer.

Mr. and Mrs. Charles Schaening, Jr., and three children, of Detroit, spent the week-end with the former's parents, Mr. and Mrs. Charles Schaening, Sr.

Owing to the extreme heat the next meeting of Independence Grange will be held at the home of Casper Beardslee, Wednesday, July 8, at 8:00 p. m., instead of the Grange Hall. Meetings are being held once a month.

CLARKSTON

Mrs. W. E. Russell and daughter, Betty June, are in Thornedale, Ontario, attending the Russell family reunion.

The Clarkston State Bank is paying the usual 4 per cent semi-annual dividend to stockholders this week.

Mr. and Mrs. B. Visgatis, of Charleston, W. Va., have returned home after a week's visit with his brother, John Visgatis, and family. Mr. Visgatis is a member of the office force of the Charleston Gazette.

Mrs. Joseph Seeterlin entertained the contract bridge club at her home on Wednesday at a 1 o'clock luncheon. Even though the mercury was soaring, a simple cold luncheon with a leisurely played game in comfortably cool rooms made the afternoon a pleasant one. Prizes were won by Viola Alger and Mrs. Seeterlin.

Frank Leonard, James Beaulclair and son, Drexel, C. G. Huntly and sons, Jack and Junior, and Gus Larion went to Lewiston Saturday for a week's fishing, and some of the party will remain a little longer. Some of their friends are wondering if

they made the trip on the strength of advance information as to the weather.

Saturday Special. Only 50 to be sold. Walnut finish end tables—98c. Winglemire's Warehouse, Holly. No phone orders accepted.

SEEKING UNIFORM LAWS OF TRAFFIC

Conference Is Now Being Held With That End in View

Lansing, Mich., July 2.—Representatives of the Michigan Department of State, the Michigan Utilities Commission and the Michigan Department of Public Safety this week are attending the conference on uniform traffic regulations at French Lick. This is the second of a series of meetings intended to produce laws so that motorists and truck drivers will be subject to the same regulations on trips extending from one state to another.

In Michigan the Department of State allowed motorists until March 1 to secure automobile license plates. In Ohio, where the same limit was not in force,

many Michigan motorists were inconvenienced, the department was informed, by police questioning regarding 1930 plates during the month of February. This question of reciprocal courtesy is being urged strongly by the Michigan delegation.

Besides Michigan the conference is being attended by representatives from Ohio, Wisconsin, Indiana, Illinois, Missouri, Kentucky, Tennessee, Georgia and West Virginia. When an agreement has been reached on all questions, the legislatures of all states involved will be asked to adopt uniform laws.

MICHIGANDERS CAN FISH FREE EXCEPT FOR TROUT

Lansing, July 1.—Residents of Michigan are not required to have a license to take any species of fish in season, except Brook, Brown and Rainbow trout. Recent legislative discussion concerning a general rod license led many people to the impression that Michigan now has such a license. The bill was not adopted and regulations so far as needs for fishing licenses are concerned remain as they have in the past.

The Fish Division of the Conservation Department has been receiving scores of inquiries as to whether a license is necessary to fish for other species than trout.

WHEAT AS FEED IS AS GOOD AS CORN

Trials at State College of Interest to Livestock Growers

East Lansing, July 1.—Michigan wheat growers can derive some consolation, in this year of low prices for that grain, from the results of the feeding trials at Michigan State College which show that wheat is equal to corn as a feed for fattening hogs and that the costs of gains made with wheat are no greater than with corn.

The lots of hogs which were fed wheat ate less tankage than those fed corn, and both lots gained equally rapidly. The wheat was ground and both rations were fed in self-feeders. Each lot of hogs received alfalfa meal, and a supplemental feed of either a mixture of 70 per cent tankage and 30 per cent linseed meal or a straight tankage supplement.

The reports on the hog feeding trials and the results of the experiments with sheep and baby beeves were explained to the 100 livestock feeders who attended Feeders Day at Michigan State College. The beef cattle which were fed barley gained more rapidly and at a lower cost per hundred pound weight of gain than those fed corn.

Each lot of cattle received linseed meal, alfalfa hay and corn silage in addition to the grain. The barley-fed lot gained 2.25 pounds per day, the corn-fed lots gained 2.17 pounds daily; the feed costs per hundredweight of gain for each grain were: barley, \$7.07; corn, \$7.43.

The feeding trials with sheep showed that native medium wool lambs gained more rapidly than western lambs and the gain was made more economically. Feeding corn silage to the lambs increased the rate of gain and decreased feeding costs. Both barley and corn were superior to oats as a fattening ration. Corn and barley were nearly equal in value.

Persian Poet Laureate Kept Reasonably Busy

Persia appears to be the only other country which has maintained a poet laureate in recent years. Until Muzaffer-ed-Din abolished the post in 1896, the court of Teheran had for centuries possessed a poet laureate, whose duties were far more onerous than those of his British equivalent. According to Narcisse Persin, who spent some years in Persia at the beginning of the last century, court etiquette prescribed that whenever the shah traveled outside the capital his suite should include a dwarf, a giant, a jester, a historiographer and the poet laureate—these five being treated on an equal footing among the lesser ministrants to his majesty's pleasure and diversion.

The historiographer had to record for the benefit of posterity all the doings and sayings of his master, and the laureate was called upon to celebrate a large proportion of these in verse. M. Persin highly approved of the custom, which he found rigidly followed, "for the shah, knowing that many of his utterances and deeds would be crystallized in an ode, felt bound on these royal progresses to speak and behave majestically."—Manchester (England) Guardian.

Sweet Stones

Peggy's father had been out of town and when he returned, he brought her some "rock" candy. The following week he was again obliged to leave the city, and just before he left, Peggy kissed him, and said:
"Be sure and bring me some more of those sweet stones, daddy!"

Nobel's Good Work

One of the most wonderful wills in history was that of Alfred Nobel, the Swedish inventor, who left his enormous fortune in trust so that each year five prizes valued at rather more than \$35,000 each should be given to the persons who have made the most important inventions or discoveries in physics, chemistry, physiology or medicine, or have done most for literature or the cause of peace. Many of these awards have been made to poor men who have been enabled to carry on good work by their aid.

No Contrast

The Ritzup hotel was chosen by the Van Wolff's for their second honeymoon trip to New York. Thirty years before they had stopped at the Astor, and ever since had been discouraging on the meals served there.

Two days of Ritzup dining prompted this remark from Mrs. Van Wolff:
"Henry, the meals at this hotel are just simply awful."
"Yes," answered the lesser half, "and we left home for a change, too."

Termites Not Ants

Termites, called white or ghost ants because of their paleness (the little white ants that are likely at any time to make a meal of almost anyone's home) are really not ants at all, but neuropteroid insects. They are by no means confined to tropical regions, some species inhabiting almost every state in the country. The native species, unlike tropical termites, does not construct huge mounds with a royal cell for the king and queen, but lives in comparatively large social colonies in burrows in earth or wood.

Beethoven's Unpaid Debt

How many people know that Beethoven actually died \$500 in debt to the Philharmonic society, which had sent him the money on his death bed, in the hope that they would be able to play his Tenth Symphony? queries an article in the Montreal Family Herald. He acknowledged the advance by telling them that his new symphony was lying in his desk "completely sketched." But the work was destined never to be finished. It was only eight days later that Beethoven died.

Most Difficult

Parson Tenthly and Deacon Dutton were discussing their automobiles and talk gradually took in every detail connected with automotive engineering. The conversation began with tires and ended with the beam of light cast a hundred feet up the road by the spotlight on the windshield.

"What do you find the hardest thing to overcome when driving your car, parson?" the deacon wanted to know.
"The desire to talk back to my wife," the good man answered.

June 3, 1931 4/158-11		CHECK NO. 4217
For taxes due June 1, 1931, per Auditor General's Department statement of May 25, 1931.		CERTIFIED FOR PAYMENT: <i>[Signature]</i>
3,310,971.09		AUDITOR OF DISBURSEMENTS
TO FIRST NATIONAL BANK IN DETROIT, 9-1		VOUCHER NO. 6 12
DETROIT JUN 30 1931		
PAY THREE MILLION, THREE HUNDRED TEN THOUSAND, NINE HUNDRED SEVENTY ONE AND 09/100 \$3,310,971.09 TO THE ORDER OF		
State Treasurer Lansing, Michigan		MICHIGAN BELL TELEPHONE COMPANY

Primary school fund benefits from largest tax payment ever made by Telephone Company. Total of state, federal and local taxes of Michigan Bell amounts to \$5.51 for each telephone in service during last year.

Three million, three hundred ten thousand, nine hundred seventy-one dollars and nine cents was the amount written on the face of a check handed to O. B. Fuller, state auditor general, at Lansing, Tuesday, June 30, by a representative of the Michigan Bell Telephone Company. The check was tendered in payment of the Telephone Company's state tax bill for 1930. Only one other check, representing the joint tax paid by the New York Central railroad and the Michigan Central railroad, was larger.

The Michigan Bell Company's tax payments this year to state, federal and municipal governments represent \$5.51 for each of the average of 681,976 telephones in service during 1930, or the net earnings from approximately two of every five telephones.

According to Walter I. Mizner, treasurer of the Michigan Bell Company, who signed the check, the Telephone Company pays more than 23 per cent of the total amount that will be paid the State of Michigan this year by utility companies. Under the state

law telephone and telegraph companies, railroads, railway car loaning companies, and express companies pay taxes to the state in lieu of local taxes. This money is placed in the primary school fund and later disbursed among school districts in proportion to the number of children of school age residing in the district at the time the annual school census is taken. It is estimated the primary school fund for 1931 will receive from utility taxation approximately \$14,100,000.

FIRE PREVENTION
TAUGHT CHILDREN

Many Schools Helping Decrease
Forest Fire Loss

Lansing, July 1.—The school children of Michigan are playing an important part in keeping down the number of forest fires, and more and more prevention education will be directed to them, according to the Forest Fire Division of the Department of Conservation.

Within recent years many schools, especially those in the northern part of the state, have taught pupils the ways and means of preventing fires. This sort of teaching should be extended to schools in the southern part of the state as well, it was said.

The Division realizes that prevention methods should not be taught only to those living in the districts where forest fires occur frequently. People in these areas realize the real seriousness of fires and know how to prevent them. It is to those living away from the fire area and who go north during the summer that prevention methods should be taught.

Early in the spring the school commissioner of one northern county ordered that short essays on forest fire prevention be read once each morning for a week to the pupils of every grade in every school in the county. Such a program extended to every school in the state should result in an appreciable decrease in the number of forest fires. Children are being taught how to properly extinguish a camp fire. They are being cautioned against setting any fire in the woods. They are being asked to caution their fathers against throwing away lighted tobacco or matches.

Boys' and girls' camps should include in their educational curricula a course in forest fire prevention and control.

W. G. MILLER WILL BE 92
YEARS OLD ON JULY 14TH

W. G. Miller, former supervisor and veteran resident of Rose township, claims the honor of being the oldest man in the county born here. He first saw the light of day in Independence township, July 14, 1839, and will be 92 years old one week from next Tuesday.

Cotton, milk and hogs are the principal cash crops on American farms. Cattle and calves, and eggs and chickens also rank ahead of wheat.

**Adjustments
do not
HURT**

Healthy nerves nourish and vitalize the body.
N. D. NORMAN, D. C.

CHIROPRACTIC adjustments do not hurt or cause the slightest discomfort. When the vertebrae of the spine that is out of alignment is located a swift thrust of the practitioner's hand causes the muscles to function much as a cramp disappears after a smart blow and the vertebrae is pulled into place. The nerve relieved of its pressure supplies the diseased part with the needed nourishing energy.

4-H RADIO BROADCAST IS
ADVANCED TO JULY 3RD

Because of an international broadcast scheduled by the National Broadcasting Company for July 4, it was necessary to advance the date of the National 4-H Radio program to Friday, July 3, according to M. H. Avery, County Club Agent.

The program will consist of the "Stars and Stripes Forever March", by the U. S. Marine Band, a talk by R. W. Dunlap, Assistant Secretary of Agriculture, and patriotic airs from many lands by the band, as well as a talk by a club member from Ohio.

The program will be broadcast over WJR from 12:00 to 1:30 P. M. All club members would enjoy listening in.

NO NEED TO WORRY
ABOUT GRAIN APHID

Parasites Will Destroy Them in
Numbers a Little Later

East Lansing, July 1.—Both the scientists and the humorists say that the wheat crop is lousy this year, but the entomologists at Michigan State College say that farmers of this State need have no serious worries about the presence of unusual numbers of the common grain aphid, or plant louse, on wheat.

Farmers from all sections of Michigan have bombarded the College department with requests for information and advice about this minute insect which is found on the heads or other parts of the wheat plant. This grain aphid is an old resident of the State and is present each year.

It is also known as the apple-bush louse and spends part of its time on apple trees, where it does no harm. From the apple, the insect migrates, in April usually, to grasses or grains. It sucks juice from the plant, but does not inject any toxic substance into the plant to cause serious injury.

This insect has been observed for the past 30 years by the College entomologists, and, during that period of time, natural parasites of the plant lice have always killed most of the aphids before harvest time. This parasitization is expected to occur again this year and the plant lice will be reduced to their ordinary numbers.

The species of plant aphid which causes serious damage to grain crops in some parts of the country has been found in Michigan only once or twice and no specimens of it have been reported this year. This aphid injects a substance into the plant which interferes with the plant's growth.

BIRD STUDY IS ARRANGED
FOR PUPILS IN MICHIGAN

Lansing, July 1.—A new organization for bird study among boys and girls of junior and senior high school age has been announced by the Michigan Audubon Society. The organization, known as the "Recruit Membership", is designed to carry on a serious study of Michigan birds. A specially prepared book, "A Year of Adventure with the Birds", is designed for the use of members. The book contains a check-list of southeastern Michigan birds, a bird bibliography and specifications for bird-house building. The organization is in charge of Miss Geneva Smithe of the University Museum, Ann Arbor.

TO MANUFACTURE
ITS OWN BUMPERS

Chevrolet Motor Co. Announces
Expansion of Industry

Detroit, Mich., July 2.—Operations were started recently in the new bumper manufacturing plant of the Chevrolet Motor Company in this city, W. S. Knudsen, president and general manager of the company, announced today.

Construction of the plant, which has a total floor space of 35,000 square feet, was started early this spring and completed last month. Included in the mechanical installations are several innovations designed to facilitate the handling and fabrication of material.

The plant has an average monthly capacity of 70,000 sets of bumpers, Mr. Knudsen said. Actual production was started May 26, and it is expected that a full normal schedule will be in effect within the next few weeks.

This development is one of the few expansions made within the automobile industry within the past eighteen months and is Chevrolet's second within a year. The other was the purchase and operation of a commercial body building plant at Indianapolis last Fall.

Construction of the bumper plant brings the total number of Chevrolet domestic factories to 21, and enables the company to exercise further supervision over materials, workmanship and design of the features in the current line of sixes.

ANN ARBOR PROFESSOR
IS ON PREFERRED LIST

Ann Arbor, June 25.—Lawrence Gould, Associate Professor of Geology in the University of Michigan and famous for his work in Greenland and as sec-

ond in command with Admiral Byrd in the Antarctic, was praised highly by George Palmer Putnam, New York publisher and explorer.

Asked by a New York paper to nominate an "all star" team of explorers and adventurers, Putnam, who is known by fellow members of the Explorers Club as "president of the explorers' trust", named a team consisting of Sir George Herbert Wilkins, Roy Chapman Andrews, Lawrence Gould, Bernt Balchen, William Beebe and Charles Lindbergh. "Gould is certain to be recognized as an, if not the, outstanding scientific explorer of tomorrow", said Putnam. Wilkins was nominated as an ideal captain for such a group; Andrews, noted for his Asiatic explorations, "is the leading American organizer and administrator of expeditions". Lindbergh was named as expert aviator; Beebe as naturalist and ideal lecturer; Gould as scientist; and Bernt Balchen as one who "can live in the snow, fly, navigate, ski, cook or fight".

Sweetclover can and does make use of nitrogen from the soil but since it is usually grown upon soils poor in nitrogen it depends, more than most legumes, upon nitrogen which is captured from the air. The capture of this "free" air nitrogen is the joint act of the plant and the bacteria which form nodules on its roots. For this reason inoculation is particularly desirable in growing sweetclover. The bacteria that cause nodules on sweet clover are the same as those that inoculate alfalfa, and in the East a field that has not produced alfalfa or sweet clover in recent years should be inoculated before it is planted to sweet clover.

Chemists of the U. S. Dept. of Agriculture have found that the proteins in sweet potatoes are a good source of some of the amino acids which are essential for the growth and nutrition of animals and which are lacking or deficient in the proteins of certain seeds and grains. Sweet potatoes should be a valuable supplement to correct the deficiencies of proteins of corn, wheat and grains in general and some of the legume seeds such as the navy bean, lima bean, cowpea and lentil.

HUNT SWAMPS FOR
HUCKLEBERRIES

Cash Prizes Are Offered for the
Best Native Plants Found

East Lansing, July 1.—Any Michigan resident who can find a huckleberry bush, of the high-bush type, which produces berries one-half inch in diameter or larger and who can resist the temptation to pick the berries long enough to notify the superintendent of the South Haven Experiment Station may be able to sell the plant for \$25.00 which is offered for the best native huckleberry plant found in the State this year.

Ten dollars is offered for the next best plant. The color of the berries may be either blue or black and the plant must be three feet or more in height. Anyone who desires to enter this competition should send a few of the first berries to ripen to the superintendent at South Haven with directions for reaching the marsh where the plant is growing.

The main crop of berries from the bush must not be picked until a representative of the horticultural department at Michigan State College has had an opportunity to examine the bush. Members of the department will inspect each bush from which a promising sample of berries is submitted.

The owner of the bush must agree to allow the College men to make cuttings from the bush. The College has perfected a method of rooting these cuttings so it is now possible to propagate any desirable specimens of huckleberries which may be found.

Michigan's huckleberry crop is worth thousands of dollars and, if better varieties are found, it will be possible to build up a market demand which will make the crop many times more valuable.

To kill loco weeds it is not necessary to dig up the roots. Cut them below the crown of the buds, 2 or 3 inches below the surface.

Clarkston News, \$1.00 a year.

Movie Folk Deny That
Their Life Is All Play

EVALYN KNAPP, featured star of Hollywood and frequent co-star with George Arliss, temporarily deserts the motion picture spotlight for the microphone. As one of the leading players in "The Radio Newsreel of Hollywood," a 52-week radio serial taking listeners behind the scenes on the movie lots, Miss Knapp joins Winnie Lightner, Richard Barthelmess, John Barrymore and others in a feature which shows that Hollywood life is not all play and no work. With a story of love and adventure running throughout, the new playlets present a side of Hollywood life little featured.

DIPPING RIDES SHEEP
OF BAD PARASITES

Control of Pests Means Increase
in Production of Wool

East Lansing, July 1.—One Michigan shepherd found that dipping his flock to kill ticks and lice increased the average production of wool from 4.8 pounds per sheep to 7.5 pounds, according to figures sent to the animal husbandry department at Michigan State College.

Other owners of sheep have become convinced of the effectiveness of this method of increasing the profits from their flocks and now cooperate to build dipping vats which can be used by all the farmers living in the community. More than 800 sheep have been dipped in the vat built at the Carr settlement in Lake county. The agricultural engineering department of the College will furnish plans for building these tanks.

The dip kills the insects by contact and the entire body of the sheep must be covered with the dipping solution. To accomplish this, the animal is completely immersed in the tank while its mouth is held shut by the man who is doing the dipping. Approximately two quarts of solution is absorbed by the fleece of each sheep.

Sheep which have ragged fleeces with strings of wool hanging from it or patches of fleece with second growth wool usually are infested with one or more types of the external parasites, and the poor fleece is caused by the efforts of the animal to rid itself of these tormentors. Dipping in solutions of coal-tar, nicotine sulphate or arsenicals is the only practical way of controlling lice and mites on sheep.

Do not apply a large quantity of nitrogen fertilizer to wheat where epidemics of stem rust occur, says the U. S. Dept. of Agriculture. Excessive nitrogen favors this disease. Excess nitrogen causes luxuriant growth, profuse tillering, weak straw and lodging. Shading, incident to dense growth and lodging, delays evaporation of the dew and thus makes possible the germination of many more rust spores. Nitrogenous fertilizers also delay maturity. Stem rust does not infect ripened wheat. Thus earlier wheat may escape an attack of rust.

Student "Rags" Long Ago
Really Organized Riots

Manchester university students' "rags" are genteel in comparison with those of medieval universities, which usually took the form of violent attacks on the townsmen. These assaults were not mere undergraduate follies, but were supported and even led by university officials.

On a March night of 1326 an Oxford proctor "sate upon a block in the streets afore the shoppe of one Robert Germyns, a barber, having a pole-axe in his hand, a black cloake on his backe," and organized a riot in which many townsmen were "stricken downe and sore beaten." The proctor and his company threatened to burn down the houses. Of 29 coroners' inquests in Oxford which have been preserved for the period 1207-1322 no less than 13 are for murders committed by scholars. Rashdale notes that in the majority of cases they were suitably punished—they were sent to Cambridge!—Manchester (England) Guardian.

Sparrows Wear Raincoats

The sparrows of Queen Charlotte Islands in British Columbia wear raincoats. Because of the extreme humidity of the climate these birds have developed much longer feathers than their kin elsewhere. A number of other species of birds have developed, as a result of countless centuries of existence on these rainy islands, into new varieties clearly marked off by their improved natural protection against mists, showers and gales.

WATERFORD CENTER

Members and friends of the Waterford Center Sunday School will meet at the school Thursday evening to elect a new treasurer and discuss plans for a Sunday School picnic in the near future.

Mr. and Mrs. R. N. Hickson and son, Bobby, of Elizabeth Lake Road, motored to Columbiaville Sunday and visited Leonard Hickson and family.

Mr. and Mrs. Dorcie Cox, of Midland, Mich., and Mr. and Mrs. Perry Cox, of Pontiac, were Sunday guests of Warren Cox and family, of Crescent Lake.

Mrs. Alger Burnham and two daughters, Barbara Jo and Betty Lou, have just returned from a visit in Indianville.

The Crescent Lake Bridge was entertained at the Crescent Lake Park, Mrs. J. Roddewig proving a charming hostess. High score was won by Mrs. Wazmuth and consolation by Mrs. L. W. Pilcher.

Constance Pilcher, little daughter of Mr. and Mrs. L. W. Pilcher, of Crescent Lake, left last Saturday for the girls' camp at Camp Magna, near Hale, Mich.

Mr. and Mrs. Frank Salsavage, of Watkins Lake Road, are rejoicing over an 8½-lb. girl, born Tuesday, June 30.

Mr. and Mrs. Harold Bird, of Hickory Drive Road, are spending a two weeks vacation at Copper Harbor, Mich.

Mary Jane Hudson, daughter of Mr. and Mrs. Beaumont, of Crescent Lake, is ill with whooping cough.

Mr. and Mrs. Frank Hickson and infant son, Eugene Frank, of Airport Road, called at the home of Ralph Anderson, Pontiac, last Sunday. Mr. and Mrs. Anderson left Monday for Minnesota, where they will make their home in the future.

Mr. and Mrs. W. R. Bruhn and Mr. and Mrs. Rudolph Bruhn, of Davenport, Iowa, are house guests of Mr. and Mrs. Gil F. Roddewig and family, of Crescent Lake.

Mr. and Mrs. E. H. Alexander, of Centralia, Ill., are making an extended visit with Mr. and Mrs. L. H. Pilcher, of Crescent Lake.

DAVISBURG

Mrs. E. Bickford's only brother died in Detroit Wednesday, June 24, and was buried in Grand Lawn cemetery Saturday, June 27. Mr. and Mrs. Bickford attended the funeral.

SEYMOUR LAKE

J. La Valley and Mr. and Mrs. Ray Vallen and family were Sunday callers at Metamora.

Miss Beryl Vollen is spending two weeks at Metamora with her aunt, Mrs. John Schuneman.

About 60 were present at the Children's Day exercises at the church Sunday. The young people presented a very interesting and appropriate program.

Mrs. E. Sorrell, a widow, living north of the church, has reported the loss by theft of coops and pens containing turkeys and rabbits. Officers are investigating the matter.

ORTONVILLE

Dr. C. E. Marsh reports that two of his Ortonville boy scouts, Lee Swayne and Nelson Wolfe, captured a 3¼-lb. John Brown trout recently, in a creek where they were catching minnows. The fish was a fine specimen of a species that is very rare in the waters of Michigan.

Gerald and Marvin, attended a school reunion at Lake Pleasant, Mich., Saturday, June 27.

The Junior Garden Club will have a picnic lunch and meeting at the home of their leader, Mrs. A. A. Solomon, Monday, July 6, at 12 o'clock. They will take up the third adventure in Landscape Gardening.

Mrs. O. R. Barnhart, of Fish Hatchery Road, gave a birthday party for her two daughters, June and Junette, and son, Cecil, Saturday, June 27, from 6 to 8 o'clock. Twenty-eight were present. A long table was placed on the lawn where cake and ice cream were served. Roses and nasturtiums were the only table decorations. Several games were played during the evening.

Dr. L. G. Rowley and family arrived home Wednesday night from Hubbard, Iowa. Mrs. Rowley and daughter, Myra Katherine, had been visiting in Iowa for three weeks and the doctor drove out to visit his parental home and bring them back. They were accompanied by the doctor's sister, Miss Alice Hill, who will remain here for the summer.

MICHIGAN REFORESTED
26,617 ACRES LAST YEAR

Lansing, July 1.—Michigan again led all states in 1930 in the number of acres reforested, according to figures issued by the United States Forest Service. This state planted 26,617 of the 138,970 acres planted in the entire United States. The total plants in Michigan for the year, including 8,452 acres planted by the U. S. Forest Service, were 38,302.

Only about 500,000 out of the 23,500,000 cows in the country are on test for milk and butterfat production. The proportion is too small.

week with the former's parents, Mr. and Mrs. Emory Smith, of Andersonville Road.

Lakes around Waterford and vicinity were very popular places for the past week during the intense heat.

Mr. and Mrs. Mortimer Cooper, of 84 Poplar St., were visitors at Mrs. M. C. Friday's Monday, June 29.

Frank Byrne Fox spent Sunday at his home, "Maple Leaf Lodge". He is in Ypsilanti on a business sale but will return Friday as the sale terminates then.

Mr. and Mrs. Andrus Bradley, of Grand River Ave. at Pond St., contemplate a trip to the northern part of the state for over the Fourth with their son-in-law and daughter, Mr. and Mrs. B. Miller, of Clarkston.

Mr. and Mrs. Charles Chamberlain and family, of Royal Oak, and Mr. and Mrs. Cleve Chamberlain and family, of Davisburg, were Sunday guests of Mrs. Fred Chamberlain and Mrs. L. Owen, of Andersonville Road.

Dr. F. M. Thompson, of Garden Place, who has been a patient at the Ford Hospital for the last few weeks, is recovering nicely and is expected to be sufficiently well to return to his home here the latter part of the week.

The contest which has been running in the Waterford Sunday School since the beginning of the year between the "Reds", captained by Jack Pratt, and the "Blues", led by Kenneth Miller, came to a close Sunday morning. The finish found the two sides less than 40 points apart. At the next session of the Sunday School it will be decided what the "Blues", who were the losers, will plan in the shape of a picnic, the time and place.

Mrs. Ralph Lyons, Mrs. Warren Bush and Clarence Porler, of Ferndale, were guests Wednesday of Mrs. E. C. Paulus.

Last Sunday Mr. and Mrs. Henry Neil and son, Frank, and wife were guests of Mrs. E. C. Paulus.

Tuesday, June 30, Rev. and Mrs. H. A. Huey and son, Bob, called on friends at Vernon, Ovid and Durand.

Mr. and Mrs. E. D. Spooner and Mrs. H. B. Mehlberg and family were callers in Holly Thursday night.

Jack Pratt, of Andersonville Road, and Ed Lamberton, of Williams Lake Road, left early Wednesday morning for Galt, Ont., where they visited the former's grandmother, Mrs. John Brown. On Thursday they planned to visit Niagara Falls and they are expected to return to their homes today.

Miss Eleanor Mehlberg accompanied her aunt, Mrs. John Watchpocket, Jr., and son, Ellsworth, of Watkins Lake, on a picnic party north of Clarkston Wednesday. Other guests were Mrs. Jack Hall and daughter, Helen Virginia, also of Watkins Lake, and Mrs. Park Hammond and son, Berry, of Pontiac.

Mr. and Mrs. Glenn Donaldson, of Denver, Colo., Mrs. Robert Rowley, of Detroit, and Mrs. J. M. Donaldson, of Pontiac, were Tuesday evening callers at the home of Mr. and Mrs. E. D. Spooner. Mrs. J. M. Donaldson and Mrs. Spooner are sisters. Mr. and Mrs. Glenn Donaldson are here for a short visit at the home of his mother and also at the home of Mrs. Donaldson's aunts, who also live in Pontiac.

WATERFORD

James Sutton, of Andersonville Road, has been ill at his home with bronchial trouble.

Mr. and Mrs. Arthur Groover and daughters, Constance and Virginia, of Pinecrest Drive, were callers at Mrs. M. C. Friday's June 28.

Mr. and Mrs. Harold Graham, of Detroit, were Sunday evening visitors at the home of the latter's sister, Mrs. H. H. Pratt, and her husband.

Mr. and Mrs. Hawkins, of Pontiac, were callers at the home of Mr. and Mrs. James Sutton Tuesday night. Mr. Hawkins is business manager of the Thompson Aeronautical Corp.

Mr. and Mrs. Kenneth McVitie and family, of Maple St., left Saturday afternoon for a motor tour of Michigan. They went to the west coast and from there north will camp along the way. Mr. and Mrs. H. F. Buck and family accompanied them on this vacation trip. Mr. Buck will visit relatives at Aloha and Cheboygan.

U. S FOREST SERVICE IS
EXTENDING STATE AREA

Lansing, July 1.—The United States Forest Service has completed purchase of 960 acres of lands in Michigan for the purpose of extending areas of the present federal forests in this state, according to the United States Department of Agriculture.

The purchases, which are part of 16,558 acres bought in several of the states, include 40 acres in the Hiawatha purchase unit; 720 acres in the Huron purchase unit; 80 acres in the Marquette purchase unit and 120 acres in the Ottawa purchase unit. Costs of the additional land in Michigan aggregated \$1,946.

Rabbits' feet have not lost their significance as good luck emblems. One commercial rabbitry in Michigan, disposing of from 8,000 to 12,000 rabbits every week, sells all of the front feet to concerns manufacturing good luck charms.
