## What ever happened to the self-made man?

There's nothing wrong with digging ditches. It's healthy, and these days, it pays well. Too bad it doesn't often lead to something better. It's not as easy as it used to be to work your way up from scratch. Today the really good jobs go to those who have the background to get them.

So whatever chance you have for more training and education, take it.

If you dig ditches in the summer, get ahead by studying civil engineering in the fall. If you plan to work in an office, take night courses. If you have a newspaper route, sock some dough away for more schooling.

Remember what happened to the self-made man . . . he got educated.  
How about you?

# Expressions

These are the expressions of Clarkston High School. Many and varied, they tell the story of an unforgettable year. We of the Hilltopper staff hope that we've captured this story for you.

Putting together a yearbook is neither the simplest of tasks nor, at times, the most enjoyable; but here is the finished product. Despite missed deadlines, trying disagreements, untimely absences, and other unfortunate occurrences, we feel this year's book with its new ideas and innovations will be one to be remembered.

We'd like to express sincere gratitude to the Clarkston News, the Pontiac Press, and the Waterford Township "Waterlog" for their photographic contributions, especially in the field of athletics. We would also like to extend our thanks to Mrs. Harold Weston and Miss Janet Gabier for their many hours of proofreading. And finally, we would like to thank our sponsor, Mrs. Ralph Kenyon, for the help and encouragement she has given us all.

The 1967 Hilltopper Staff
