MABEL L. BRONDIGE  
Deputy Register

THE work in this office is done by the Register of Deeds, a deputy and six clerks, with an additional number of three in the photostat department, where the actual recording is done, excepting a few papers which cannot be photographed.

The routine work of the office consists of receiving papers, timing them, entering in the entry book, numbering the pages preparatory to photographing, checking papers sent to photostat department off entry book, photographing, checking off entry book when returned from photostat department with photo copies, indexing, writing addresses to which papers are mailed in entry book and date mailed, and then mailing; posting marginals of releases, assignments and discharges. All extra time of clerks is put on tract index work to bring that work up to date.

The following is a table showing the number of papers and amount of money received each month and the average number of papers received each day.

In addition to the above, 2,909 pages of recording for the County Clerk have been done in the photostate department, which, at the rate of 50 cents per page, would have brought in to this office \$1,454.50 in addition to the above, from the first of January to August 25th:
