near the Amerman school on a rainy day, heed this advice and don't go ill-equip-Wear your boots. If you plan to stand in one place for awhile you'd better wear your fishing poots because after a few rainy hours the ground develops "gooey quicksand" characteristics and efore you know it, you're in 'the stuff" up to your ankles. Kiddies like to "plow through' he mud, but think of the added leaning that is involved for the school custodians and mothers! According to Superintendent of Schools Russell Amerman, the situation will not exist any longer than is necessary. "We're try-ing to get the children out of the nud." Amerman said, "At the last school board meeting a Building members are now trying to get TRUDGING in the mud and lagging behind the "big boys", thi The committee, which consists little "covered up" kindergartener is finding out that the last few

(Continued on Page 10) steps of a journey are the hardest to walk, especially in the mud.

you'll know that Ford goes like the Thunder-bird, too. With the new 202-h.p. Thunderbird Y-8 engine, available in Fordomatic Fairlane and Station Wagon models, you'll pass with new confidence, smile at hills. And there's even bigger news! It is Lifeguard Design. With the cooperation of leading univer-

sities medical associations and safety experts, Ford found that most serious accident injuries were caused by the driver being thrown against

the steering post, occupants being thrown forward against hard surfaces, or from the car. So Ford developed a new Lifeguard steering wheel with a deep-center structure to help protect you But wait till you touch the gas pedal! Then from the steering post . . . Lifeguard double-grip door locks to give added protection from doors springing open under shock . . . optional Lifeguard cushioning for instrument panel and sun visors, to help lessen injury from impact . . . optional seat belts that help keep occupants securely in their seats.
