Teachers Salary

One of the basic reasons for the increase is to provide additional sums of money for a new teachers salary schedule.

Teachers Present Salary Study Ronald Schipper and LaGene Quay, co-chairmen of the professional problems committee o the Northville Teachers club, presented a salary study and a proposed salary schedule to the school board. The salary study, prepared

from information obtained from Wesley Thomas, assistant executive secretary Michigan Educa tion Assn. included 42 schools in the Detroit area. The following three_items were included in the report: the trend

is to establish increments between \$250 and \$300; the trend lis to set a \$4,200 minimum with a BA degree, and many schools in the area are requesting \$7,000 to \$7,500 maximums with MA degrees for this next year. Salaries Here Hit Bottom Of the 42 schools listed in the report Northville had the lowest starting salary schedule: \$3,350

with a BA as compared to an average of \$3,850; \$3,550 with a MA as compared to the average of \$4,000. Amerman Presents Budget Supt. Amerman presented his

tudy of a proposed budget report for the coming school year. The report included the followschedules: \$4.000 for BA degree 4,200 for MA degree; \$170 yeared), and also included the hiring of five additional teachers. Amerman stated that the budget was based on the assumption that the 8 mill levy will pass. f the millage increase does not pass there probably will be no salary increase. Total figures in the report showed that the budget was figured to a close margin: \$535,000 Expenses, and \$538,000

The salary schedule will be discussed further at the March

NOTICE OF ADOPTION OF ORDINANCES

2ti PLEASE TAKE NOTICE That the following ordinances were adopted by the Council of the City of Northville, Michigan, on

Amendment To Zoning Ordinance No. 123 The City of Northville ordains:

That the Zoning Ordinance for the City of Northville be amended as follows: 1. That those portions of Lots 230 and 231 of Assedsor's Northville Plat No. 3, which lie more than 450 feet west of the center line of Sheldon Road, be re-classified and re-zoned from R-1 to T-1 classification, subject, however, to the following re-

a. That said property revert to R-1 classification when there is no longer a race track in Northville. b. That the use of said property be restricted to the period of time allocated for the conducting of racing at the Northville Downs Race Track, plus 15 days prior and 15.

days subsequent to said racing dates. 2. That Section 20:02, Use Restrictions of the Zoning Ordinance be amended to add thereto, the following: Provided further, that the use of all property within this T-1 District for the wintering of horses be limited to the capacity of 250 horses at any one time

THIS ORDINANCE to become effective ten (10) days after actment. Motion was made by Councilman Reed, seconded by ouncilman Stubenvoll, that the above ordinance be adopted. Yes: Allen, Stubenvoll, Ely, Reed and Canterbury.

Ordinance No. 131

The City of Northville Ordains: That it shall be unlawful to install, erect, or cause or permit be installed or erected, any permanent structure on or across an assement dedicated or reserved for the use of public utilities.

Permanent structure means and includes a garage or other ldings, or trees which will prevent or interfere with the free right or accessibility of the said easement. This ordinance to become effective ten (10) days after en-

Motion by Councilman Allen, seconded by Mayor Ely, that ne foregoing ordinance be adopted. Yeas: Ely, Reed, Stubenvoll, Allen and Canterbury, Navs: None.

THIST THING you need in a car, of course, is power to spark performance. And you get that in a 1956 Buick in plenty -

from big 322-cubic-inch V8 engines that hit new highs in horsepower and compression. But the power under the hood must be carried to the rear driving wheels in the form of twist-

ing force on the drive shaft. That's torque - the end-product of your transmission,

And the higher the torque build-up-the greater the "torque multiplication" in starting and accelerating - the better the getaway and response. So if you want to feel take-off that leaves your breath behind you, come try a '56 Buick $w^{*\mathrm{th}}$

Variable Pitch Dynaslow.* For in this airplane-principled transmission,

They did it with something they call "double regeneration"-a new way to make flowing oil

add to its own velocity. And when you use the full torque of a Buick beauty like the one pictured above, you're using the highest torque multiplication to be had in

JACK SELLE BUICK

200 Ann Arbor Rd.

PLYMOUTH, MICH.

I THINK I'll pretend I'm the lady of the house today. First I'll check the budget and see if we can't spend more money for cookies, candy, rubber balls, dolls, and such necessities.

Then I'll make out my shopping list. And when I go shopping, I'll do it just like my mother does - right here in our own community. Mom wasn't always that smart. I've heard her tell how she used to chase off to the big city stores . . . crawling through traffic . . . hunting parking places . . . struggling through the crowds, trying to get waited on. Then coming home, all worn out, with something she could have bought right near home without all the aggravation and expense of miles of driving.

After I came along Mom realized she just couldn't

spare the time for that wasteful kind of shopping, so she started doing her buying at the local stores. She says it's pleasant and relaxing . . . she meets her friends and neighbors . . . she gets a lot of personal service from the local businessmen who really go out of their way to build up patronage among the people in this vicinity. And she's saving money, too! The prices here are just as low as anywhere else . . . and she's saving the money that used to be spent on useless mileage back and forth to the bigcity stores.

So I'll shop just like Mom does. It's smart and thrifty. And we both like the idea of doing business with the local folks who pay for our police and fire departments... our schools and parks . . . our churches, charities, and civic organizations.
