APPROXIMATELY THIRTY Northville high school commercial students heard Mrs. John Stenson, BPW president, explain the IBM training program last week. All commercial students in the 1956 graduating class who can type 35 wpm, are being given the opportunity to take a two Amarylis Blooms On weeks training course for a specialized position as Card Punch Operator. Arrangements for this training have been made by the Northyille Business and Professional Women's Club. Listening to the talk and looking at sample IBM cards are, left to right, E. V. Ellison, high school principal;

In our news stories we have tried to tell what w

happening without letting our opinions sway us. opinion, and we are saying what we think.

First of all, a series of articles which began concurrently in another Detroit paper is, for all we know at this moment, still running. We don't have any

We do believe it has placed too much emphasis on "over-utilization"-that is, the complaint that some people either stay too long in the hospital, or get in under Blue Cross when they shouldn't-when they aren't really sick.

The Times reported that, We can take you back in newspaper to report these was some of this chiseling going on. It should be halted. We think it is being

Is it hospitals for operating inefficiently? Is it the remainder of the hospital stay. The saving of but physicians who find it convenient to group patients in hospitals for quick and lucrative rounds of call that require only an hour or so each morning? Is it patients who unnecessarily demand and get from their doctors a hospital bed and costly care? Is it Blue Cross for permitting such known abuses to

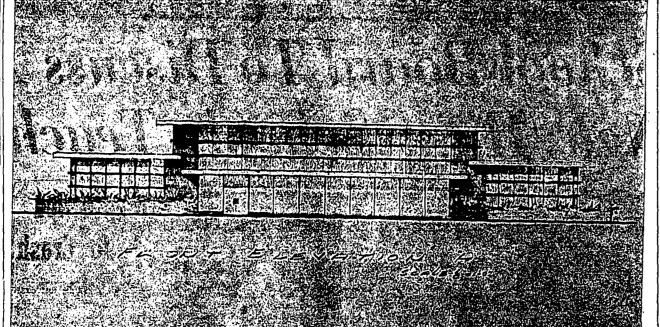

Frankly, we suspect the answer to all such questions may be "Yes!" At least one offered solution appears to be precipitous and short-sighted. A bill introduced in the Michigan Legislature suggests a deductible plan similar to auto insurance. The proposal to make subscribers pay for the first day of hospitalization and and because voluntary plans were their answer in a

It also would greatly reduce the value of the service. It would not, we believe, strike hard enough at the The public wholeheartedly accepted the voluntary plans. Blue Cross has such a plan, in which the patient ness, the entire problem should be thoroughly pays the cost of the first two days and \$2 a day for examined, calmly, circumspectly and publicly.

It would, however, seem logical to offer optional

# Two Editorials on Michigan Blue Cross

Featured below are the full texts of two editorials which appeared in The DETROIT TIMES on February 26, 1956 and in The DETROIT FREE PRESS on February 27, 1956. Because they present the considered editorial judgment of two of Michigan's great newspapers, we are reprinting them in full as a public service for the information of our 3,600,000 Blue Cross members and all the people of Michigan

From The Detroit Times, February 26

We didn't suspect a week are today, when we started a series of articles on Blue Cross, that the fuss over hospital prepayment would attain the intensity it has now reached The amount of hullabaloo, frankly, is getting out

Rep. Allison Green has a bill for the Legislature, which he fondly hopes will solve everything. It won't. Insurance Commissioner Joseph A. Navarre has been quoted with some remarks which we suspect he will regret when he begins to realize what he has said. A group of unions in Detroit and Flint is proposing to set up a rival "Blue Cross plan," which is entirely within their rights, even though we doubt it will look as simple to them once they have gotten into what is

a very complicated problem. Of the three-Rep. Allison, Commissioner Navarre, and the unions-we think the unions are behavingmost reasonably. We differ with them only in our opinion as to whether they CAN produce what they

But of the whole lot, we think Blue Cross and its present managers are the most capable of providing what we want. We think Blue Cross is getting a

But this is the editorial page, and this is our

quarrel with the facts in it.

"over-utilization" while it does happen, is not occurring to the extent that it makes any vast difference in

Why do we think "over-utilization" is not as great as some people try to suggest?

First, because a Blue Cross study group itself was the first to dig into the matter. No attempt to hide anything. Just an effort to correct the situation, since chiseling by one subscriber is paid for by all the Second. Blue Cross, by subsequent and continuous

inquiry, thinks that this evil is under good control. even though there is still an occasional violation. Third, because Michigan isn't the only Blue Cross plan. The same general plan exists in all the states, ach under its own laws and its own management,

way, it is hardly possible that all the states would be Somewhere in the country we would find that Blue Cross rates were markedly lower-we would find it, But you can't slap economics in the face. that is, if Michigan's Blue Cross were letting the customers get away with murder.

Somebody would have found a solution, and would. be bragging about it. But nc, rates are pretty comparable anywhere you go. Therefore, we suspect this "over-utilization" has been publicized into a bigger fault than it really is. We don't think very many people get much fun out of going to, or staying in, a hospital.

Now Rep. Green thinks he could bring about lower. rates, and thwart all the chiselers (such as there are -most people are honest) by a law making Blue Cross change its policy.

He would make everyone who uses Blue Cross pay the whole cost of the first day in the hospital (the most expensive day, because then you have all the tests, and usually the operation if you need one) and the files a couple of years and show we were the first walso pay 15 per cent of the cost after the seventh day. Of course that would reduce the premium you pay for Blue Cross-but you'd soon find it didn't save any money. Furthermore, it would put the biggest burden

on the people who are most seriously ill. Who wants

Rep. Green, with the best of intentions, has oversimplified the situation. Besides, he wants to make give subscribers a choice of which way they'd rather

We wonder, too, why Navarre has questioned the sincerity of the Blue Cross in offering a so-called

Blue Cross hasn't been doing a good job. Its prices haven't gone up any faster than factory wages. It has been so good that it now has 3 600 000 people, or half of the whole state, using Blue Cross

Trying to make out, all of a sudden, that something is "wrong," or that some simple little bill in the Legislature can turn time backward and make things cost less-that's nonsense. We don't think this union group can do it, either,

but we'll concede their right to try. At least they aren't trying to tell everybody else how to do it. They're undertaking to show how to do it. We think, flatly, that Blue Cross is a fine thing, and

### BLUE CROSS FUSS But it makes a rather sensational subject to write about-and some people talk too much about it. This

us, has indorsed Rep. Green's notion. We suspect some politics somewhere, because we think Navarre ought to know better.

People have been able, if they chose, to buy such policy from Blue Cross for upwards of the last year. Blue Cross made no secret of the fact that such a policy was being offered. People could have it, at a lower price, if they wanted it. They didn't want it. To get back to the unions, now, They'd like a policy which gives more benefits at lower cost. Who doesn't like the idea? Who doesn't want the good five-cent cigar back, or the \$700 automobile, or the

And so far as we are concerned, you can't say that

we hope all the noise won't fool the people and Blue Cross is merely a victim of our rising econ-

# From The Detroit Free Press, February 27

## Hospital Insurance Costs

TRYING TO SPOT THE REAL VILLAIN Old melodramas had their advantages. It was easy

to identify the villain. This is not so, in the current uproar about hospitalization insurance. Rates have skyrocketed. Many think Blue Cross has thrust its hand too deeply into the pockets of its 3,600,000 Michigan subscribers. Investigations are being made, bills are being submitted to the legislature, and the air is blue with charges. Much is still being learned, but we think some

observations can be made now. The public's demand in the last decade for better medical and hospital care has been great. Therefore, on top of inflation must be added the cost of this improved care. An increase in Blue Cross rates might,

reflect only inflation and improved care? Ample proof to the contrary appears in surveys of pospital cases covered by hospitalization insurance The studies indicate clearly that alarming abuses have cropped up. These take the form of unnecessary hospitalization, prolonged stays for convenience or comfort and excessive use of drugs and laboratory

16 per cent in premiums does not seem adequate, considering that the average stay is seven days. Blue Cross also is readying a "catastrophe" policy, but if the saving is no greater than offered under the yearold deductible plan it too probably will not be widely

One additional thought stands out prominently. Physicians, through their dealings with patients and because they control both the hospitals and the Blue Cross organization, have failed, in our estimation, to take an active public stand on the abuses under the voluntary hospitalization insurance plans, Because they are so closely involved in the abuses

corner, they should be available to counsel the public. plans and should have the wise advice of doctors. Since Blue Cross is a \$100,000,000-a-year busi-

of chewing tobacco. This interesting fact was brought to light

with it. We spent quite a few the situation and found the wheel to be getting married about that

We thought that they would come up with characters who lived a glamorous, adventurous life with an unlimited amount of one in the well-known profesions. They fooled us. The teenagers did have one thing in common...they all wanted to be famous persons: current sports stars and the girls chose women who have made history.

team and although he is 5' 11" WATCH THOSE WAISTLINES. If members of the Northville high school basketball team look like they're putting on a little weight we won't be surprised, considering the way they've and can out-jump guys 6' 7". He's a good all-around sportsman," Dave said, "and has a great career ahead of him."

been "treated" lately. The group above were photographed last Monday at Paul's Sweet Shop eating a spaghetti and pizza dinner paid for by their coach, Stan Johnston. The week before Paul Folino treated the players to a banana split. The team has clinched second place in the league.

JANICE DIXON, 15, sophomore, said, "Queen Elizabeth of England because she is so gracious, pretty and holds a high position." Asked whether the Duke had anything to do with her decision, she said, "I don't care about him. He's good look."

EVERETT ANGELL, 15, sophomore, said, "I would like to do something as important as Floring if I had to make a choice it would be Joan of Arc. She did something great."

While a man is wondering how her would be Joan of Arc. She did something great."

Scabbard and Blade

Scabbard and Blade

Duke had anything to do with her decision, she said, "I don't care about him. He's good looking, but I wouldn't change places for that reason."

RON MOODY, 18, senior, would like to change places with a baseball star, Al Kaline. "He's got a good arm and a great batting average," Ron said. When told that sports stars usually have a short active-playing-life, Ron said, "I'd make a record as a player and then become a manager. Managers really clean-up. They don't don't depth don't with her i'd get a postscript..."some easy job."

# 4-Door Hardtops?

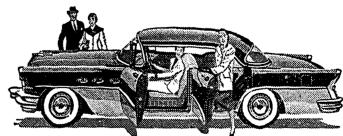

# BEST CHOICE YET

THE SUPER 4-Door Riviera, Model 53-Buick's extra-spacious medium-price b

THE CENTURY 4-Door Riviera, Model 63-Buick's top power buy

Dig news in hardtops these days is the 4-door model. And the biggest news of all is Buick's 4-Door Riviera. Ever since its introduction, this Buick hardtop has taken the country by storm.

But the newest note about this newest of models is the price choice Buick offers you. Now you can have this much-wanted model in four different price series-and that's a choice you'll get nowhere else. Now you can have the 4-Door Riviera in the custom-built ROADMASTER, the extra-spacious Super, the supremely-powered CENTURY, or the bedrock-priced Special.

What follows from there? Plenty-really plenty. For in every 1956 Buick there's a wealth of thrills-a spirited gaita trim maneuverability-a sheer enchantment in styling. In power, it's a pistol. Every Buick packs a 322-cubic-inch V8 engine—with Buick's highest horsepower and compression ratios yet.

In take-off, it's trigger quick. A new Variable Pitch Dynaflow\* betters the best Buick getaway on record—with instantaneous response at the very first inch of pedal pressure. In emergency, it's double-barreled-with that new Dynaslow chang-

ing to full-power safety-surge acceleration the instant you floor the pedal and switch the pitch. And in roominess, in luxury, in handling case, in ride steadiness, in directional sense-you'll discover a literal truth:

This is the best Buick yet.  $\mathbf{C}$ an you come in tomorrow to see and sample the greatest Buick ever

-and to note the prices that make this the best buy yet? \* New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is

Farmington Lawyer To Act As Novi Twp. Legal Counsel

Archie Leonard, Pontiac lawyer, was appointed attorney for Novi township at Monday night's board meeting.

In addition to the new appointment, the board gave tentative approval to a subdivision, discussed real estate, awarded a print-ing contract and pondered the problem of what to do with the township cemeteries. "Leonard (a Farmington resident) is very familiar with town-

Staman said, "and at the present time he is also handling the legal affairs of Farmington and Troy townships." Highlights township attorney, resigned because of the pressure of other
