It's a Whiz at Everything a car should do

Tr turns out that the 1957 Buick is far more Because under you is a massive wide-frame L than just a brand-new automobile

It turns out that this new '57 Buick is winning the raves with a new kind of going and a new kind of stopping-a new kind of handling and a new kind of road sureness-a new kind of safety and a new kind of comfort.

m We'll be specific.

When you press the pedal of a new '57 Buick, the response is literally instant . . .

Because the high-torque power of a new 364cubic-inch V8 engine is delivered in the split of a second through a new full-range Variable Pitch Dynaflow* that's immediate in its oilsmooth action.

When you brake to a stop, you and the car stay on a level plane . . .

Because an ingenious new ball-joint suspension in every '57 Buick virtually ends the down-in-front dip that cars have on sudden

When you take a turn or swing into an "S" curve, you still hug the road like a streamliner on rails—

new chassis that "nests" the whole car inches closer to the road with the lowest center of gravity in Buick history-yet with no change in road clearance.

And when you sit in the deep comfort of those soft wide seats, you can drive with the pleasant ease of a clear conscience, without watching the speedometer . . .

Because only in Buick today can you have an ingenious new Safety-Minder* that acts as a warning sentinel for the miles-per-hour you preset for yourself.

There are many other new things that make this gorgeous Buick a car of limitless wonders -from the bigger and more rakish windshield that makes seeing more relieving, to the extra roominess that's so surprising in this beauty with the sports-car lowness.

But there's nothing like a firsthand sampling , to know how modern the newest thing on wheels really is. Come in today for your meeting with the newest Buick yet.

*New Advanced Variable Pitch Dynaflow is the only Dyna-flow Buick builds today. It is standard on Roadmaster, Super and Century - optional at modest extra cost on the Special. Safety-Minder standard on Roadmaster, optional

His Tenth ... and His Greatest Thrill!

Nine times before he has stood in his dealer's showroom and accepted the keys to a new Cadillac car. And yet, as often as he has re-enacted this glorious event, he knows that there is something very special about today. For this is more than a new Cadillac. This is the

newest and most advanced Cadillac car ever to find its way from drawing board to production line. And imagine, for just a moment, the many wonderful thrills that await him as he takes the keys and starts off on his first journey home. To begin with, there will be his discovery of Cadillac's brilliant new performance. The car is so smooth and responsive that it will be a revelation. Then, as he takes the sweep of the boulevard, there will be the added thrill of those admiring glances that will come from his fellow motorists.

And how satisfying it will be to find that Cadillac owners themselves have a special affection for the man who rides in the new "car of cars". And finally, of course, there will be the joy of that wonderful "welcome home" as he turns into the familiar driveway and comes to a silken stop. For a new 1957 Cadillac is the prize of any family . . . and the pride of any neighborhood!

Why not come in soon for a preview of this thrilling experience? We have a 1957 Cadillac waiting in our showroom—and we will be happy to give you a personal demonstration at any time. Whether it's to be your first or your secondor your fifth or your tenth Cadillac-you're in for

Christmas Reflections BY EMILIE SEQUIN

Christmas...the time of happy laughter and brotherly good cheer. Rosy-cheeked children leading weary parents from one dollar sign to the next. Expectation scenting the Christmascaroled atmosphere.
