

Five Novi Leaders Take a Look at '57

What will be the most pressing problems for Novi township during the coming year?

To answer this question, The Novi News has gone to the men who know best — Novi's leaders in government, industry, education, business and church activities.

Here are printed their comments on what Novi township faces in 1957 — and their possible solutions to these questions which, in one way or another, will affect every person who lives in Novi.

FRAZER W. STAMAN Supervisor, Novi Township

I consider that Novi Township's most important undertaking for 1957 is to safeguard its future development by instituting an effective sewer and water program.

Only a few weeks ago in a speech to the Novi Chamber of Commerce, Paul M. Reid, executive director of the Metropolitan Regional Planning Commission, stated that if Novi Township is to keep pace with progress and development in southeastern Michigan we must get to work on our sewer and water problems. He pointed out that adequate sewage and water systems are essential, not only to residential development, but also for industrial growth.

It is very clear to all of us who are now witnessing the phenomenal growth of this area that Mr. Reid's thinking is correct and that some answer must be found before we in Novi Township find ourselves living in the midst of a festering patchwork of septic tanks and private wells, by-passed by the fast developing area around us.

I have spent some time in careful study of this problem and have also investigated the manner in which other communities with similar problems are working them out. As a result a plan for a sewage disposal system designed to serve most of the Township is being prepared. The Township Board should make every effort to put this plan in effect so that the health of our Township citizens will no longer be endangered and the development of our area no longer retarded by obsolete septic tank systems.

For the past few months I have worked with the developers of this area and I believe with their cooperation it would be possible to get a system that would be approved by the Michigan Department of Health without any direct cost to the taxpayer.

If this could be accomplished in the next year, I think it would be one of the outstanding accomplishments of the new year, also of my administration.

LEO HARRAWOOD President, Board of Commerce

Novi has more than one issue for 1957 which is highly important to its proper development. As a businessman, and in my association with the Board of Commerce, I am often made aware of the many items facing the community which each individual considers more important than another.

Therefore, I am listing the six matters most often heard as important to Novi in 1957:

1. The township election of February 18.
2. Closer work between township officials, organizations and citizens of the community.
3. Sewerage and water systems.
4. Shopping center facilities.
5. Recreation facilities for the children.
6. Regulation garbage pick-up service.

I believe each of these to be important considerations for Novi citizens in 1957.

By WILLIAM H. MEDLYN Superintendent of Novi Schools

The beginning of a new year and the end of the old year mean this for Novi schools:

On the one hand, we can pause and reflect upon the accomplishments of the past year, and in turn attempt to predict what the coming year will bring.

Generally speaking, the foremost problem facing the area next year is growth of population. This, of course, is made up of a multiplicity of individual problems. The board of education attempts to isolate the individual problems, study them thoroughly and arrive at a sound solution of the total problem at hand. Some of the problems are these:

- total growth expected.
- number of houses to be built.
- number and ages of children to be educated.
- number of future classrooms needed by the district.
- financial tax growth of the area.
- school staffs for the classrooms.

At the present time we have two forces which complicate the attempt to predict growth. The major fact which will bring about a large growth increase is the location of the Lincoln plant in the area.

However, builders are faced with a tight money market and it will be more difficult to get money for home mortgages. This is further complicated by the expiration of the GI Bill.

Thus we have a factor which will tend to make the area grow rapidly and another factor which will tend to deter such expansion. Total enrollment for 1951 was 349, and to date it is 647. Thus we have almost doubled our enrollment in the past 5 years.

Future planning depends upon factual data and sound interpretation of these data. We are continually studying the problem.

In the past we have been able to meet the growth problem, and now we hope to be able to stay ahead of the growth in enrollments that is expected.

By REV. BYRON E. CHAPMAN Willowbrook Community Church

Progress is the most significant aspect of the Novi and Northville areas.

This progress is excitingly evident wherever one turns. Orchards and pastures are turning into villages, vacant lots are being transformed into lovely homes and country cross roads are becoming busy centers of commerce.

Church leaders are deeply interested in this miracle of community development. Rapid growth is good if it is orderly and well balanced. Communities can grow into horrible deformities if their development is not carefully guarded. Detroit and other large cities have found it necessary to rebuild vast areas. There is a continuous process of building; congestion; then moving out to open country again.

This race for a better community cannot always be won by simply moving out farther and starting over again. It is really a spiritual and moral issue. When a community becomes congested the human spirit cannot get its breath.

This hunger for deeper satisfaction is rooted in the fact that "Man cannot live by bread alone." When men try to live by "things" alone their communities crowd in upon their spirits and destroy them. The fresh air and freedom of the suburban area are prime requisites of happiness. Suburban well-being is not so much a matter of lawns and space as it is escape from moral and spiritual oppression.

It is the desire of church leaders that the future development of the Novi-Northville areas shall be truly balanced — that those who make their home among us here shall find not only good homes, good schools and good jobs; but good churches as well, which together shall be the ultimate guarantee of tomorrow's happiness.

FRANK DEPODESTA President Paragon Construction Company

Novi's future development in so far as industry is concerned depends on the ability of the community to avoid losing its identity.

Perhaps nowhere in the country is there a more ideally located area for industrial expansion. It has excellent arteries, fine rail facilities and a good labor market. It is located in the hub of a activity.

The one cloud on the horizon appears to be division of the area by annexations and incorporations. Novi should do everything within its power to retain its boundaries.

While consolidation presents many problems, failure to consider the possibility could be disastrous.

Water, sewerage and better roads are also important concerns, but perhaps not as imperative. Already the community has made great strides in planning, particularly in proper zoning. Greater industrial development is bound to follow as long as fair treatment and just taxes are combined with the area's natural attractiveness.

33 File for Township Primary

Four Board Members Among Record Field

A total of 33 persons — the largest field in Novi township's history — have filed as candidates for office in the township primary election February 18.

Last-minute petitions, submitted by the deadline last Monday at 4 p.m., raised the total from 16 to the record-breaking 33.

Township Clerk Hadley Bachert said the field is "by far" the largest ever recorded in Novi — possibly three times as large as any previous field.

Novi will vote on the full slate of respective party candidates on February 18. Those nominated in the primary will face each other in the township general election on April 1.

Main struggle in the upcoming primary will be among Republican candidates. A total of 25 candidates have filed for 13 positions.

Democratic candidates are unopposed. Eight Democrats are seeking eight positions, with no candidates for clerk, board of review or constable.

Four of the five township board members have filed for re-election: supervisor Frazer Staman, Clerk Hadley Bachert and Trustees Harold Miller and Frank Treasurer Charles Trickey, Jr. withdrew his petition for re-election last month in order to devote more time to business.

Other incumbent candidates are Kenneth Cook, board of review, and Vern Loeffler, constable. Four candidates have filed for supervisor. On the Republican side, they are: Staman, John Flannery and Herbert J. Guntzville. Lone Democrat is Herbert Koester.

Largest field is the Republican list for trustee — where seven candidates have filed for the two openings. They are: Glen Salow, Jr., Jack E. Tomalis, Harold Miller, Stanley Balon and Gordon Promog.

Novi township board members will appear at a public meeting sponsored by the Novi Board of Commerce on January 10 to discuss past and current official activities. The meeting will begin at 8 p.m. Questions from the floor will be directed to board members by Leo Harrawood, president of the Board of Commerce.

The Board of Commerce also will elect officers. Pontiac, Detroit and Bloomfield. Mr. and Mrs. Don Richmond of McMahons had in a couple of their neighbors Saturday night. They were Mr. and Mrs. Paul Wickham of McMahons and Mr. and Mrs. Robert Flattery of LeBost. Kay and Bill Reiss of LeBost had a holiday party for some out-of-town guests. Those who joined in the festivities were Mr. and Mrs. A. J. Reiss of Encino, California, Mr. and Mrs. N. J. Quist of Cadillac, Michigan, Mr. and Mrs. Keith Reynolds of Livonia and the Fred Bartons of Detroit and their two children. Mr. and Mrs. Dale Henry visited their families in Howell and Hell, Michigan. (Continued on Page 12)

Church To Host Missionary By MRS. LUTHER RIX Phone Northville 245-J Rev. Chester J. Jump, Jr., foreign missionary from Vanga, Belgium Congo, will be the guest speaker at the Novi Baptist church Sunday, January 6. Next Wednesday, January 9 the annual business meeting and election will be held at the Baptist church at 7:30 p.m. Delegates from the Novi Baptist church will attend the mid-year meeting of the Wayne Association at the West Highland Baptist church Thursday, January 10. Mrs. John Klaserner, Sr. was taken suddenly ill Christmas eve and entered Sinai hospital for an emergency appendectomy. It is expected that her friends will be allowed to visit her in the hospital next week. Mrs. Doyce Ward entertained at a pre-nuptial shower honoring Miss Patricia White at the Ward home on Wixom road Wednesday evening. Patricia will be married to Jimmy Allen of Northville Saturday, February 2. Mr. and Mrs. Doyce Ward and family are leaving Friday of this week for a three week's vacation in Florida. They will visit the latter's aunt at Pomona and other places while in Florida. Mr. and Mrs. Fred Mandik had Christmas dinner at their home on West road for 16 members of their family. (Continued on Page 12)

Early-Morning Fire Destroys Home Of Family of Nine

The new year started off tragically for a Novi township family of nine Wednesday morning when their home and all possessions burned to the ground.

Homeless are Mr. and Mrs. Gratis Payton and their seven children.

The Payton's home at 45689 West road was destroyed by a raging fire that apparently started in the attic. Only ashes remained.

The call was answered by the Novi township and Walled Lake fire departments, but all fire trucks ran out of water just as the blaze was nearly conquered. By the time the tankers refilled, the fire had sprung up again and consumed the rest of the building.

The fire was discovered by Mrs. Payton while she was washing dishes with her daughter, May, 14. She bundled up two younger children, David, 4, and Linda, 3, and rushed to the neighbor's home to call the fire department.

Payton, 48, rushed from his job as a butcher with the Lakeside Packing House in Walled Lake, to find his home ablaze. Four other children were in school at the time. They are: Lorene, 16; Joe, 11; Carl, 9, and Jimmie, 8.

Payton said he lost \$2,500 in furnishings in the fire. He rented the home and could not estimate its value.

Mrs. Payton said she first noticed the blaze after smelling "something burning" in the attic. She attempted to go upstairs but was driven back by flames and smoke.

She said firemen believe faulty wiring may have caused it, but added that the complete destruction makes positive determination impossible.

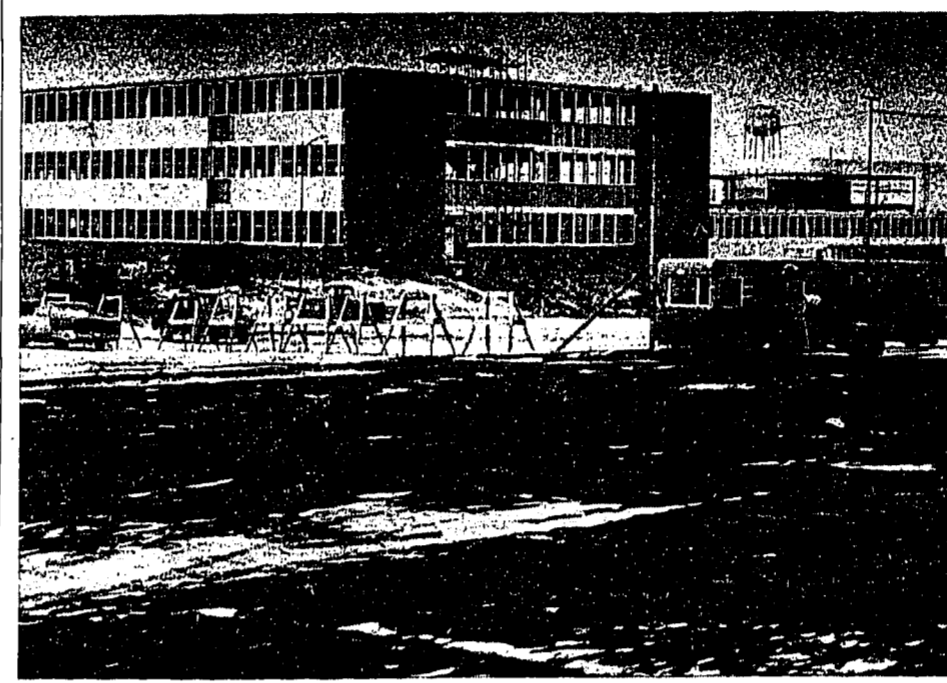

The Paytons and their children are now staying at the home of her mother, Mrs. Jess Middleton, 178 Penhill.

"I don't know what we will do now," Mrs. Payton said. "It's hard to move in with people when you have seven children. And what's worse, some of the children have been very sick this winter — colds, the flu and that sort of thing."

Air Patrol Unit Wants Junior Observers

Youngsters between 12½ and 16 years old interested in being trained as air observers are invited to attend an organizational meeting of the Civil Air Patrol this evening (Thursday) at the Novi Community building.

The unit will be organized by Captain Art Hooper. It is open to boys and girls of the Northville and Novi area. The meeting will begin at 7:30 p.m.

INDUSTRIAL GIANT in Novi township — the new Lincoln plant — is growing fast. During recent months, what was just a skeleton has now become a near-complete auto plant. The assembly plant and general offices are expected to be open in time for '58 models.

Report Tells Novi Trend: Population to Triple by 1980

If current estimates are correct, Novi township will be three times as large in population in 1980 as it is today.

The Detroit Metropolitan Area Planning Commission has predicted that Novi's population will soar from the present 4,400 to 16,400 during the next 25 years.

And it further predicts that the Novi - Commerce - Farmington - Lyon area, which now is home to 27,756, will grow five times as populous by 1980 — reaching a total of 111,400.

The commission, in a recent report, has some other eye-opening predictions about population trends in the six-county area around Detroit for the next 25 years. For example:

—Detroit will grow only 2.5 percent by (49,000 for a total of 2,039,000), but Oakland county will show a whopping 113 percent increase to 1,159,000 — making Oakland more populous than out-county Wayne.

—The six-county area will show a 56 percent gain to 6,050,000 — equal to the entire state's population in 1950.

—The Detroit Metropolitan area (Wayne, Oakland and Macomb counties) will jump 50 percent to 5,450,000 — an increase of 1,935,000 which is equal to adding the entire 1950 Detroit population to the area.

The figures were compiled by the commission by applying ratios to U.S. Census Bureau national estimates, and then breaking the statistics down on a county and community basis.

Though growth in the Novi area will keep eyes popping, other townships and cities will

Wixom Residents Have until Monday For Registration

Residents of the Wixom part of Novi township have until next Monday to register for the February 5 election in which they will decide whether their community becomes an incorporated village.

All residents of Novi sections 4 through 9 — and only those residents — may vote.

Novi registrations will be taken at the following locations: —Novi township hall: Monday through Friday, 2 p.m. to 5 p.m. —Wixom Co-op, 49350 Pontiac Trail: Monday through Friday, 8 a.m. through 8 p.m.

On the final day of registration, Novi township hall will be open until 8 p.m.

Commerce residents may register at either the township hall or fire hall.

The area facing incorporation includes roughly the community of Wixom and the territory lying two miles to the north, two miles to the south, one mile to the east and one mile to the west.

The proposed village would include the site of the new multi-million dollar Lincoln plant and general offices, now under construction near Wixom road and Grand River.

South of Novi, Northville residents to double to about 7,500. And Northville township will have five times as many people as it has now — growing to about 25,000.

Surrounding Northville, the Livonia - Plymouth - Redford - Northville area will jump from the present 107,000 to 334,000.

Commenting on the report, commission spokesmen said the larger figures (six-county and county) are the most reliable, while the smaller figures (cities and townships) may be more variable.

"But by and large, barring another world war or another depression like the 30's, these population projections appear reasonable, desirable and attainable," the report commented.

On the other hand, the report added, "a continued lag in installing adequate water and sewer facilities could result in a much delayed population growth in many parts of the 6 counties."

Everyone Has Twins: It's Just a Family Tradition

NORTHVILLE TWINS — Patricia (left) and Patrick, twins of Mr. and Mrs. Horace Aenebacher, are No. 6 in the line of twins in Mrs. Aenebacher's family.

The story brought a set of a brother has one — all in George — and now one has come to the Aenebacher household.

Mr. and Mrs. Horace Aenebacher, 408 Randolph, are justly proud of little Patrick and Patricia, of course. Any parents would be.

But when there are five other sets of twins in the family, it no longer seems quite so novel.

The twin tradition apparently goes back to Mrs. Aenebacher's father — who had a twin brother and sister. And, though it skipped the next generation, it's now back in force.

Her older sister has two sets of twins, a younger sister has one, comes to twins, the Aenebacher's and their relatives hesitate to make predictions.

After all, they're in the family. The two little "Pats," now two months old, had a rather hard time of it at first. But though they weighed only 3 pounds-12 ounces and 4 pounds 6 ounces at birth, the twins are now healthy and happy.

It's hard to say, but the Aenebacher's daughter — Mrs. Joyce Porter, who with her husband manages a downtown restaurant — has two young boys. And they're not twins.

But that doesn't necessarily mean anything. Because when it comes to twins, the Aenebacher's and their relatives hesitate to make predictions.

After all, they're in the family. The two little "Pats," now two months old, had a rather hard time of it at first. But though they weighed only 3 pounds-12 ounces and 4 pounds 6 ounces at birth, the twins are now healthy and happy.

DEPOSITORS STATE BANK

with MANUFACTURERS NATIONAL BANK

The resources, facilities, personnel and business of Depositors State Bank of Northville and Manufacturers National Bank of Detroit have been consolidated.

This makes it possible for the bank to provide an even wider range of banking and trust services for the residents and business firms of Northville and vicinity. Customers will continue to be served by officers and employees whom they know — and who know them.

Local business and industry will be able to take advantage of greatly expanded commercial banking facilities, provided by an organization having capital, surplus and undivided profits of over \$42,000,000 and total resources in excess of \$790,000,000.

NEW-AND MORE-BANKING HOURS
BANKING HOURS WILL BE AS FOLLOWS:
Monday thru Thursday 9:30 A.M. to 3:00 P.M.
Friday 9:30 A.M. to 7:30 P.M.

This new schedule allows customers 2 1/2 extra hours per week to do their banking. There will be no banking hours on Saturdays — however, this office will be open all day on Wednesdays. This change will enable our Northville staff to share with the employees of other offices the benefits of a five-day week.

Anyone wishing to make deposits on Saturdays — or at any other time after banking hours — may do so by making use of the Day and Night Depository. Located just to the left of the entrance to the bank, this convenient facility is available for depositors at all times.

CHRISTIAN SCIENCE CHURCHES
 Main and Dodge Streets
 Plymouth, Michigan
 The divine answer to human needs will be brought out at Christian Science services Sunday.
 Readings from the King James Version of the Bible and correlative selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will comprise the Lesson-Sermon entitled "God".
 From Philippians (4:13) the following will be read: "My God shall supply all your need according to his riches in glory by Christ Jesus."
 Correlative passages to be read from Science and Health include the following (49:10-11): "Divine Love always has met and always will meet every human need."

Men and Women In Uniform
 Pvt. David E. Young
 Fort Leonard Wood, Missouri—Army Pvt. David E. Young, son of Mr. and Mrs. R. E. Young, 12810 Merriman road, Livonia, recently began six months of active duty training at Fort Leonard Wood, Missouri under the Reserve Forces Act. Young is receiving eight weeks of basic combat training, which will be followed by advanced individual and unit training. Men volunteering for the six-month tour of active duty are permitted to finish their military obligation in local Army Reserve or National Guard units.

Pvt. John R. Radies
 Fort Eustis, Virginia
 John R. Radies, 23, son of Mrs. Donald Ulrich, 35300 Joy road, Livonia, recently was graduated from the Army Artillery School at Fort Eustis, Virginia. Radies completed the aircraft powertrain and engine repair course. Some of the subjects he studied included Army aviation, elementary physics and electricity, aircraft engines and hydraulic systems. Radies, a former employee of the General Motors Corporation in Ypsilanti, entered the Army last March and completed basic training at Fort Leonard Wood, Missouri.

Pvt. Charles T. White
 Fort Sam Houston, Texas
 Pvt. Charles T. White, 18, grandson of Ernest H. Piche, 605 Laguna drive, Walled Lake, completed the final phase of six months active military training December 14 under the Reserve Forces Act program at Fort Sam Houston, Texas. White received 14 weeks of medical training at the fort's Brooke Army Medical Center. He will complete his military service with the 703d Tank Battalion in Pontiac. White is a 1935 graduate of Walled Lake high school.

17 CARE Packages Sent to Hungry By Women's Society
 Seventeen CARE packages were sent to Hungary by the Women's Society of Christian Services of the First Methodist church of Northville from their annual Christmas offering.
 The local church has also designated January 6 which will be the first day of the year when Northville Methodists will have the opportunity of contributing to a fund for medical supplies, food, clothing and the resettlement of Hungarian refugees.
 They will cooperate with other Protestant agencies through the World Council of Churches in raising two million dollars for this fund of mercy.

Even heat head to feet with an automatic blanket
 You get all-over warmth all night long when you use an automatic blanket. Set the control to suit your personal comfort, then snuggle down to a good night's sleep. A thermostat keeps blanket just right, no matter how room temperatures change.
 Here's a tip: Turn on your blanket a few minutes before bedtime. Your bed will be comfortably warm when you crawl in. And no waking in the wee, small hours to grope for extra covers. Just the most restful night's sleep you ever had!

See your dealer or Detroit Edison
CONSUMERS POWER COMPANY

from the PASTOR'S STUDY
 The Rev. John O. Taxis, Pastor
 First Presbyterian Church, Northville

At the beginning of the New Year it seems quite appropriate for all of us to read Paul's point-of-view suggestion:
 "Not that I have already obtained this (that is, a resurrection from death) or am already perfect, but I press on to make it my own, because Christ Jesus has made me his own. Brethren, I do not consider that I have made it my own, but one thing I do, FORGETTING WHAT LIES BEHIND AND STRAINING FORWARD TO WHAT LIES AHEAD, I PRESS ON toward the goal for the prize of the upward call of God in Christ Jesus"
 (Philippians 3:12-14)

Here in the simplicity of his words, Paul shows us the path of living that will help us to overcome those nagging frustrations of failure in the past and points out the immensity of the active PRESENT under the power of an omnipotent God revealed in Jesus Christ.

Paul shows us what some have called "The Fine Art of Forgetting." How we should clear out our cluttered minds by an active anticipation and participation in the Present. Further he shows us ourselves in that each of us knows we too are not "perfect" nor that we have "arrived" in the fulfillment of life's destiny.

Paul then makes this suggestion for a guide in this New Year: Forget the Past... Act in the Present... Press on to fulfill your human function within the framework of the Divine plan.

Natural GAS YOUR SILENT SERVANT
 "Lung" Checkups Keep Gas Meters Accurate
 Your gas meter is similar to a healthy lung. It actually goes through the motions of breathing—inhaling and exhaling gas by means of little diaphragms of leather or plastic. At each intake of "breath," the meter registers how much gas is consumed.
 The "lung" and other vital parts of your gas meter are regularly inspected to insure accurate measurement of gas consumption. More than 300 gas meters a day go through the scientific test and repair cycle at Consumers' General Meter Building in Jackson.
 Here gas meters are tested, adjusted and repaired. Even new meters, fresh from the manufacturer, must undergo rigid tests before going into service. Only a meter of demonstrated accuracy is permitted to measure the gas that serves you.

Only GAS does so much, so well... the modern fuel for automatic cooking... refrigeration... water-heating... house-heating... air conditioning... clothes-drying... incineration.

Mustangs to Meet Clarenceville
 The Northville Mustangs will go after their fifth consecutive league victory without a defeat next Tuesday when they meet Clarenceville on the Trojan's home court.
 The Northville-Clarenceville encounter will be the key game of the night, as six of the seven Wayne-Oakland teams resume play after a two-week holiday layoff.
 League-leading Northville has not yet lost a conference game, while Clarenceville is tied for third with a 2-1 league record.
 But both clubs have season's records of 4-1 with the Trojans' only defeat being a 69-59 thriller against Clarkson.
 The Mustangs didn't relax completely during their vacation, however. Coach Stan Johnson kept the team in top form with his charges through intensive drills several times last week, emphasizing their man-to-man work in an effort to reduce opponents' scoring, which at times has been higher than Johnson likes to see.
 Also on Monday, the Mustangs journeyed to Redford Union for a night scrimmage session.
 Brighten hopes next Tuesday will find second-place Brighton still clinging after Northville's victory two weeks ago, aiming at Holy.
 Brighton has lost only to the Mustangs this year, while Holy has a 1-2 league record and a 3-3 season's slate.
 Also on the card is an encounter in which dangerous Clarkson will seek to upset an winless West Bloomfield. The Wolves have a 2-1 league record and have proved strong throughout the season, while West Bloomfield has lost all four starts this season.
 In a non-conference affair, Milford will complete its Rochester Milford—defending champion of the league—has lost four straight, while Rochester, which whomed West Bloomfield, 70-61, in its only other game against a W-O team.

TUESDAY'S GAMES
 NORTHVILLE at Clarenceville
 Brighton at Holy
 W. Bloomfield at Clarkson
 Milford at Rochester

Standings
 NORTHVILLE 4 0
 Brighton 3 1
 Clarkson 2 2
 Clarenceville 2 1

Ex-NHS Grider Wins Wayne Letter
 Gerald G. Heaton, a 1936 graduate of Northville high school, has been awarded his second major varsity letter for his play on Wayne State university's 1936 football team.
 A junior in Wayne's college of education, Heaton was a co-captain of the 1936 football squad.
 A veteran of three years in the Marines, Heaton first entered Wayne State in September, 1934. During the period 1948-50, he lettered seven times in three sports at Northville high.

Victorious Cage Season Has Been a Team Effort
 It's been a team effort so far in the Northville Mustangs' five-game basketball season.
 Figures compiled this week show that the Mustangs have shared all scoring honors among the five starters, and that no single player has dominated Northville play for more than one game.
 Among the points of interest shown by statistics are:
 —all five starters are above the 10-point-per-game mark.
 —each of the five has been the leading scorer in one game.
 —four of the five starters lead in at least one scoring department.
 In the individual scoring race, guard Bud Bell paces the Mustangs with a 14 point average per game. But he is only slightly ahead of center Bill Yahnke (13.6) and forward Dick Yery (13.2).
 Also above the 10 point mark are forward Jeff Goodrich (10.6), with a helping hand from his 25 point effort in the Mustangs' last game, and guard Mac Burns (10.0).
 Together, the five starters have averaged 61.4 points a game—enough to win most contests with little trouble.
 The five also have taken turns in leading the Mustangs in the five games played to date. The high scorers in each game:
 —Plymouth: Burns 12
 —Holy: Yery 21
 —West Bloomfield: Bell 21
 —Milford: Yahnke 17
 —Brighton: Goodrich 25

Literature Comes Alive

Imaginations had free range recently when Northville high school English students por-

trayed in three dimensions the people, places and things they had been reading about.

The ninth grade students of Miss Patricia Dorian covered topics from the space world of science fiction to the Texas of Edna Ferber's "Giant".

Turning in exceptionally good projects were Dean Herman, Chuck Hix, Jon Batzer, Chuck Yerkes, Martin Klerkx, Carolyn Millington, Carol Kresel, Carol Tabor, Mary Bell, Bob Stuber and Barbara Kruger.

The list continues with Harold Hartley, Mike Eastland, Ed Proctor, Carolyn VanAtta, Terry Cherny, Joe Goto, Chris Krauser, Joann Himman and Dennis Wilson.

Those who also gave book reports include Carol Tabor, Carol Kresel, Cee Newton, Bill Scherkey, Chuck Hix, Stephanie Brown and Crispin Hammond.

Also giving reports orally were Jon Batzer, Bob Stuber, Dean Herman, David Nash, Martin Klerkx and Jay Ann Wittenberg.

Goodness and philanthropy begin with work and never stop working. — Mary Baker Eddy

SYMBOLS OF WEALTH — an oil well and the carefree living that can accompany it — a sportscar — were incorporated into this project by Chuck Yerkes for his illustration of "Giant" by Edna Ferber.

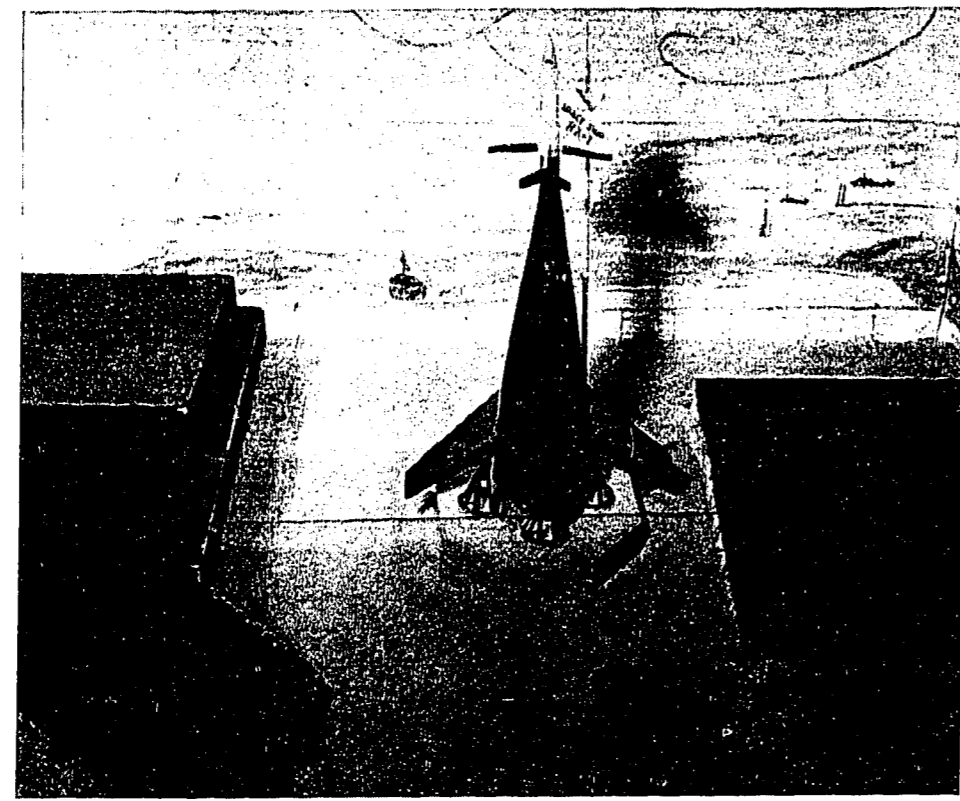

AN UNUSUAL SHIP MODEL — or shall we say raft — was built by Dean Herman to portray "Kon Tiki" by Thor Heyerdal, the story of a strange ocean voyage.

SMILING BACK AT Chuck Hix is a character named "Goggle", brought to life after Chuck read "This Is Goggle" by Bentz Plegemann.

Motorists Warned Of Winter Hazards

The first day of winter has come and gone, and although streets have been fine for driving a heavy snow can hit without any warning.

Northville motorists are warned by Chief of Police Joseph Denton to make sure their cars are equipped with necessary equipment for safe and efficient operation. He also listed the following rules for safe winter driving:

1. Get the "feel" of the road when starting out. Don't wait for a narrow escape to warn you that the road is slippery.
2. Drive at reduced speed, allowing plenty of distance between cars.
3. Anticipate stops. Don't jam on the brakes at the last instant, even if you have a good set of tire chains working for you.
4. Let other drivers and pedestrians know what you intend to do by giving appropriate signals, because you need the cooperation of others to prevent accidents.
5. In a snow storm, avoid parking for a long period of time on main streets and avoid restrictions on overnight parking. This way you will help speed up snow-clearing operations, and will avoid becoming plowed in and marooned in a curbside snow bank.

Model Train Table Has "Peg-Board" Top

A MODEL train table has been designed to permit the wiring underneath to be brought to the surface at any point. This flexibility of wiring enables the young owner of the model train (and his Dad) to have utmost flexibility of track arrangements and accessories.

Directions for making the sturdy table, as well as putting up a "Peg-Board" panel on the wall for keeping accessories of the model train, handy, are given in a free plan, No. A1-328. For a copy, send a postal to the Home Service Bureau, Suite 2037, 111 W. Washington St., Chicago 2, Ill.

A perspective in the plan shows a typical train layout in a boy's room, including a handy workbench adjacent to it. The bench is covered with Tempered Presswood which, like the perforated panel, is splinter-free and therefore safe for the hands.

Protect Yourself

Polio is still a threat to health and life in Michigan. Polio caused 16 deaths in this state during the first 50 weeks of 1956.

Anti-polio vaccine has proved 90 per cent effective in preventing paralytic polio, the only form of the disease which can result in death. This means a person cuts his chances of getting paralytic polio by 90 per cent when he receives the three-shot series.

Now that an effective vaccine is available and polio evidently has been knocked against the ropes, the problem at hand is to get the people into doctors' offices or into local health departments and then to get the vaccine into the people.

Most of us tend to become complacent and apathetic as soon as a danger appears to subside. And yet, no one can say for certain that polio actually has subsided in Michigan.

Before polio vaccine became available, polio normally ran in seven-year cycles in Michigan, causing comparatively large numbers of cases and deaths every seventh year. The disease still may be running such a course, and the decline in cases during the last few years may represent the trough portion of the polio curve.

Until enough time elapses for health workers to learn exactly what polio is doing in relation to the vaccine, the wisest course for persons of all ages is to take advantage of the best protection at hand by being vaccinated against polio.

And the sooner the better. A minimum of seven months is required to obtain maximum protection from the vaccine because of waiting periods between shots. And in seven months Michigan will be entering another summer and approaching the peak of another polio season.

Reduce your chances of getting polio next summer. Make an appointment today with your physician. Do the same for other members of your family until all are immunized. Urge your friends and neighbors to do the same.

Science has given us a powerful weapon against polio. Let's use it.

State's Problem Runs Into 5 Digits: M-O-N-E-Y

AN OLD PROBLEM faces Michigan in the new year? "Where is the money coming from — and where is it going?" Much more often than not in past years, both state and city governments have had more expenses than bankroll. This has led to a higher and higher tax bill for the man on the street.

Between \$40 million and \$50 million more will be needed to operate the state next year, according to present estimates by legislators. An accurate figure will not be available until the Governor outlines his ideas in his message to the Legislature due within 10 days after the new group convenes.

His programs will indicate how much more must be raised in the fiscal year beginning July 1, 1957, not whether there will be a deficit.

Already apparent are some of the needs. About \$10 million more will be needed to cover salary increases granted by the Civil Service Commission. Because income to school funds from state sales taxes are considerably less than was estimated, the Legislature must dip into its general fund to the tune of about \$18 million.

More than \$18 million more is needed by state's universities if they are to accommodate young people seeking college education. Operating costs for state buildings are increasing and must be covered. Everytime the state opens a new office, or improves an existing service, there is an inevitable price tag.

What are other needs in 1957? A long recommendations made to the Legislature by Gov. G. Mennen Williams are expected to be the following, none very expensive to the state treasury: a campaign to promote industrial safety; more emphasis on highway safety; higher (and more expensive to the employer) unemployment compensation; increased workman's compensation.

The tax problem is in the lap of the House. According to law, bills to raise revenue must originate there. This means the Representatives will spend much time trying to find ways to make ends meet in 1957 — and new methods to raise tax money. This is never a pleasant task, and usually a thankless one.

WHILE LEGISLATORS wrestle the financial problems of the state, they will hear cries from the cities. Michigan municipalities, particularly the larger ones, are hard pressed for some new sources of revenue.

This problem was underlined by Dr. Arthur W. Bromage, political scientist and professor from U-M, in an article in "Municipal Review." Prof. Bromage points out that cities and villages can follow only three courses. They can keep increasing property taxes, dependent on the state collected taxes rebated to individual communities, or levy local, non-property taxes.

If they are to do the latter, they must have specific authority from the Legislature. Cities in other states have "successfully" taxed income, utilities and admissions to theaters and athletic events. If Michigan cities are to do this, existing law must be changed.

MICHIGAN'S "Four Under Forty" are said to be one of the big hopes for the state's Republican organization. "Four under forty" is the catchy reference to the four young Republicans who are beginning their first terms as Congressmen in Washington. They are William S. Broomfield, Oakland county; Charles E. Chamberlin, Lansing-Flint area; Robert P. Griffin from the north-

February 18 Rezoning Vote May Face Challenge

Novi will vote February 18 on its so-called "race track rezoning" amendments unless—as appears likely to happen—an effort is made to block it because of irregular petitions.

The township board confirmed that election date Monday night, after it had been tentatively scheduled two weeks ago.

The board's action came after the owner of the property in question and his attorney requested the board to cancel the election because petitions calling it contained irregularities.

For most of the hour-long discussion, however, it appeared doubtful that the election would be called on February 18. At one point, it seemed the election would be postponed until April 1 or possibly even until June.

But upon a written resolution read by clerk Hadley Bachter, the board voted 4-0 to call the election February 18.

The election was made necessary on December 26 when petitions were submitted to the board on a zoning amendment changing a Grand River-Meadowbrook road site from light industry to heavy industry.

The rezoning has been opposed by many township residents on belief that a multi-million dollar race track would be built on the property.

Whether the election date will be challenged remains to be seen. Dr. August Holcomb, owner of the property, said he had no statement after the election was called.

Attorney Tom Foley, representing the doctor, indicated during the meeting, however, that the election might be challenged in court.

Dr. Holcomb's request for denial of the election, read to the board, specified alleged irregularities in the petitions.

Petitioners stated a belief that race track was under consideration for Dr. Holcomb's property.

Township attorney Archie Leonard countered by saying that a statement of belief is not an irregularity, and that the petitions contain enough signatures of property owners.

But township attorney Archie Leonard countered by saying that a statement of belief is not an irregularity, and that the petitions contain enough signatures of property owners.

That was the prediction this week of building inspector Cameron Lodge in commenting on his report of building, electrical and heating activities in Novi last year.

Lodge's report showed new construction was valued at \$28,250,000 during 1956—a figure more than 10 times normal.

The difference was in the multi-million dollar Lincoln-Muskegon expressway, some newly completed Grand River and Wixom road.

Lodge said he will have more than \$50,000 in new construction this year. Lodge said, "Of course, there may be some factories planned that no one knows about yet."

The question arbitrated by the Oakland county civil court through the county prosecutor. This was agreeable to Foley and Dr. Holcomb.

It would have delayed the election past February 18, however. Board members wavered momentarily in their decision.

Smann suggested having the question arbitrated in order to avoid a possible invalid election.

But Trickey, Bachter, and several spectators argued against it.

"I don't think we should take a chance on not calling the election," Trickey said. "These petitioners have acted in good faith, and we should honor their petitions."

"The petitions seem to be in order, and I don't see why we should wait," Bachter said.

"The burden of proving the petitions valid does not lie with the board," said Herbert Koester, president of the Novi township Democratic club.

Smann asked to hear the opinions of trustees Harold Miller and Frank Clark. Both agreed that the election should be called without waiting for arbitration.

Trickey suggested it be called to coincide with the township primary on February 18 to save expenses. Bachter agreed.

Clark suggested a special election be called. But Bachter, getting a special election book from his office, pointed out that a special election cannot be called within 60 days of a regularly scheduled election.

"So if we don't call it for February 18 (the primary) or April 1 (the township election), we can't schedule it until at least June 1," Bachter said.

Smann suggested the April 1 date in hopes that the state legislature would vote by then on a law limiting the Detroit area to three business tracks and thus eliminating the possibility of a track in Novi.

"That would make all parties happy," Smann said. "On one hand, no one would have to worry about a track. And on the other hand, there would be no objection to the rezoning of Dr. Holcomb's property for heavy industry as he has requested."

Bachter, however, read his resolution calling for the February 18 date. It was seconded and approved unanimously.

THE NOVI NEWS

Serving A Growing Community Volume 2, Number 34, 16 Pages Novi, Michigan, Thursday, January 10, 1957 10c Per Copy, \$3.00 Per Year In Advance

Await Decision in Annexation Case

The entire Farmington-Brighton expressway is expected to be open to traffic by next fall. That was the word this week in the year-end news summary of the Michigan State Highway Department.

Novi township had the biggest building year in its history in 1956—and chances are it will be the biggest for some time to come.

That was the prediction this week of building inspector Cameron Lodge in commenting on his report of building, electrical and heating activities in Novi last year.

Lodge's report showed new construction was valued at \$28,250,000 during 1956—a figure more than 10 times normal.

Northville, Warren To File Final Briefs

One more delay blocked the path to settlement in the Warren Products-Northville suit after the books were closed on the two-day trial last week.

The controversy centers around 100 acres of land in Novi township, north of Baseline and west of Novi road. The area, formerly known as the Yeates Farm was annexed to the city of Northville last June by a majority vote of Northville residents and by a 5-1 vote of the Oakland county Board of Supervisors.

Warren attorneys, who claimed the agreement of the townships to "procure and vote for annexation of property" as part of their arrangement to sell their 17-acre farm to the building company constituted a violation of the corrupt practices act.

Warren attorneys, who claimed the agreement of the townships to "procure and vote for annexation of property" as part of their arrangement to sell their 17-acre farm to the building company constituted a violation of the corrupt practices act.
