ELIMINATION OF diseased poultry from Michigan Markets is the alm of a program underway in the Michigan Department of Agriculture.

At present there are no Federal laws requiring inspection of poultry. Many of the chickens and turkeys eaten in Michigan come to provide uninspected poultry.

When they must compete with cheap, uninspected poultry comminize possible friction. Finally the globe is taken to the firm's Livonia plant where a gold plating is applied to deflect the sun's heat rays and keep the recording instruments cool.

You use electricity in increasing amounts to do the monotonous, the tiresome, the time-consuming household tasks. It makes life more enjoyable. But there is a problem related to this growing trend.

4 out of 5 homes, including the newest, have electrical systems incapable of supplying all the electricity needed for daily living. The solution is wiring modernization—fortunately, neither a costly nor an involved process. Benefits: a home that operates smoothly and effortlessly because electricity becomes available in efficient abundance. And a house that has greater re-sale value too.

There are electrical contractors especially well qualified to do this sort of work, the HOUSEPOWER Services Contractors. They tailor the mechanics of electrical distribution to your individual needs and living habits.

You seek plenty of horsepower in your car for maximum comfort, convenience and safety. For the same reasons you need plenty of HOUSEPOWER* in your home.

HOUSEPOWER is a simple, one-word way to say . . .

vehicles can't handle!

The Universal 'Jeep' takes ordinary jobs in stride. Then, for the tough ones, with the extra traction of its 4-wheel drive, and a special low gear range when needed, it takes personnel or cargo through mud, snow, sand or soft earthon or off the road, in all kinds of weather. For travel at highway speeds it shifts into conventional 2-wheel drive. This versatile vehicle hauls heavily loaded trailers-and with power take-off operates a wide variety of mobile equipment,

STATEMENT BY FRANK DAVIS TO THE CITIZENS OF NOVI

I said in a previous statement that I would stop at nothing to prevent our township from being cut up like a pie at a Scotchman's picnic. Before I could turn around, a small group of eager beavers whose political ambitions exceed their enowledge of the annexation laws, started claiming a portion of our Northwest section. I want to advise them not to be in so big a hurry and let our courts decide whether a tie vote wins anything or not, for, I, Frank Davis, a citizen of Novi by choice, will file suit to stop this type of bamboozelment.

To get back to my campaign for trustee, I want everyone to know where I stand on the issues that are facing our township today. First, I wish to state that I am a Republican and believe in the principles of our systems of freedom of enterprise. The Commies and their bedfellows the ADA'ers (Associated Demogogs of America) claim that if you're enterprising enough to get a mirror then you are free to watch yourselve starve. I disagree with that interpretation.

I believe it means you are free to get a job, free not to take it, free to go into business, free to make money, free to go broke, free to sell your business, free to try something else

The way some people are talking in Washington I'm getting worried about some of our freedoms. I am for sewers, all other civic improvements, shopping centers and factories. I am in favor of rezoning our Northeast section and let the future decide its use. Now as to the candidates, I wish I could vote for all Republicans, for they are all good men, and whoever is nominated, I'll fight like heck to elect them As I can't vote for all, I must make a choice. I think the following men have done, or will do a good job for our township:

> Supervisor - Frazer Staman Treasurer - Harry Watson Clerk - Arthur Heslip

Trustee – All good men – I would appreciate your support for this

Justice of the Peace - Edmund P. Yerkes

Hoping you can vote for Frank Davis, but if yo him, then vote as you please, but please vote. (Signed) FRANK DAVIS, 22001 Beck Road (Paid Political Adv.)

Colts Win, 43-28,

The Northville Colts made i four in a row Friday night, but like their cousins on the varsity, they had to work for it. Though the final score stood at 43-28 over Milford, the Colts were hard pressed to keep the lead for most of the game. At halftime, the score favored Northville by only 19-18. But the Colts came on to outshoot the Milford squad 24-10 in the final minutes and wrap up the win. In the last period, Northville held Milford to an embarrassing

three points. The victory gave coach Al Jones' team a 7-4 record for the season. With three games left, the Colts stand to make a good season

"The Matchmaker"

At Detroit Theater

Last Thursday evening the 11th and 12th grade English and speech classes of Northville high school, sponsored by Clarence Mason, went to the Schubert theater in Detroit to see Ruth Gordon in "The Matchmaker".

The play was a hilarious comedy concerning a woman's desire to "recreate" the world to an artist's picture. He exagger to and makes more beautiful what he paints, and so does she

fun talking to each other with our different accents.

Saturday, we left after lunch to go to Averlanche, a skiing place near Boyne Mountain. I borrowed ski slacks, boots and skis, since I could not bring my outfit with me. Finally I was to go skiing — I had wished to since it snowed!

After dinner in the evening, we with the new group and will aid them in their work.

Sunday, we had to leave early in the afternoon to get back by night. It took us eight hours and I was very tired the next morning when I had to go to school. I will never forget my skiing in northern Michigan, which I liked very much.

THAT BROKE THE

"low-price" lineup!

This big high-stepping Chieftain started a revolution with a carload of "firsts" and an eye-popping price tag!

The low-price field never looked like this before! The handsome husky you see right here has the boat still rocking . . . with more power, more wheelbase, more room—and more sheer pride of ownership—than ever before possible on a well-trained budget! Just look at what they're making room for now in the low-price lineup: a strapping 347 cu. in., 10 to 1 compression ratio Strato-Streak V-8 . . . a whopping, road-hugging 122 inches of wheelbase and an all-new suspension system for a Level-Line Ride that's next best thing to a magic carpet! And this streamlined beauty takes on the field with more than six dozen "firsts", all proved by 100,000 of the roughest, toughest test miles a group of facts-minded engineers could devise! If this sounds like a wonderful buy—it certainly is! Our advice is to stop dreaming and price it! At a cost less than a lot 🔫 🗢 of the low-price jobs, this newcomer is making big-time buyers out of former "all-three" owners!

SPEAKING

Last week we had coffee with Frank Clark and Frank Davis, Clark is the longtime Novi township trustee. Davis is an Oklahoma Will Rogers-type of philosopher and is running for trustee in the primary Monday.

We didn't talk about politics. Matter of fact, I doubt that either considered the other as an opponent. They were more interested in stories of the old West and early days

Clark recalled that around the turn of the century there were up to 80 different brands registered for cattle in Novi township. According to Clark and Davis, the brands would usually he a clipped or notched ear, either right or left, with any number of notches to indicate the owner. I suppose we should have known this, but we always

thought brands were put on with a hot iron, with the cattle's hide suitably inscribed "Bar X", or something. Fences weren't necessary to keep track of the critters. Even if a stray were sold, a check from the purchaser would often come to the rightful owner.

From cattle, the talk branched into welfare agencies and care of the needy. "Years ago neighbors always cared for anyone down on his luck," said Clark. He quoted a friend rom the Dakotas as saying it's still handled that way in many far west states. "They had a way of enforcing the law too, without hothering law officers," said Davis.

We liked a story Clark related about a buyer at a horse nuction at the farm of the late Sam Spencer many years ago. After listening to the auctioneer describe each animal as it came to the block, the buyer turned to Clark and asked, "why is it that a horse is never older than nine, and a woman more

We had lunch last week with A. T. (Tony) Skover and Kenneth Gipp of the Howard T. Keating company. They're both high on Northville as a ideal location or suburban home development. They like it so well that Skover is already building here, and Gipp is interested. We suspect that Tony may have ulterior motives. New Roads, Less Business?

New Roads, Less Business?

What happens to a town when a major highway is routed around its limits instead of running "down the main street?"

This question will be raised with increasing frequency during the next three years when some 800 miles of new multiple-lane, divided highways are constructed across Michigan.

"Limited access" highways will form a large part of this construction program outlined last week by Highway Commissioner "Everybody decorated their restaurants and stores.
