PLANT SALES RESULTS

BELL STARTS EXTRA PHONE DRIVE-Michigan Bell Telephone has begun an all-out sales

campaign designed to put at least one extension telephone in every Northville home. Dubbed as

"Operation Step Saver", the drive will run from now until June 15. According to Ed Devine, plant

chief, the local crew is "going out after a new Bell System sales record for extension telephones."

"Operation Step Saver" was kicked off at a luncheon at the Mayflower hotel in Plymouth at-

tended by William M. Day, Michigan Bell's vice-president and general manager; W. T. Kirk, gen-

eral plant manager; and other top officials of the company and the local men who will carry out

the project. Al Derks, division plant sales supervisor, said the keynote of the sales drive will be

demonstrations by the installers and repairmen of the convenience and safety features of an

adequate telephone arrangement in the home. Shown in the picture above, from left: Day, Wil-

The cost of the permits is a . | follows: structures costing up to and any structure costing more than \$1,000 is charged \$4 for the first thousand and \$1 for each additional thousand.

PROGRESS SLOWED-Work on the new \$200,000 addition to the Novi Grade school has been proceeding at a snail's pace during the past few weeks due to an acute steel supply shortage. Part of the structural steel arrived a month later than promised, according to Wallace Construction Co., Farmington general contractors. As soon as the additional steel becomes available, work will again progress at a rapid rate, the contractors said. However, the completion date for the new 10-room addition, which was originally set for early fall, will be delayed several months.

Most Modern Engine

in Apy Car

THE STRATO-STREAK V-8

Here's where all that wonderful performance begins!

you hear about Pontiac's great performance. The way it sweeps uphill or down with the same effortless case. The tremendous burst of passing power that answers the nudge of your toe. The thought-quick response in stopand-go traffic that makes the car seem part of you. The smooth, quiet way it goes about its business however hard or far you drive.

Lift the hood of a Pontiac and you'll be face to face with the reason. That compact power plant nested there may look much like other V-8's—but that's where your eyes deceive you! The Strato-Streak V-8 is in a class all by itself-filled with engineering "firsts" that make it the mightiest engine ever to appear

They're all true—all the wonderful things in Pontiac's price field. And it's one of the many Pontiac advantages you can't get anywhere else. Pontiac alone gives you the terrific drive of Strato-Streak performance.

† This sensational performance, remember comes in a distinguished, future-fashioned beauty that is tagged with a price any newcar buyer can readily afford. Here's your wide-open invitation to come in and try the result—the fastest-selling Pontiac of all time. The car is ready whenever you

nembers that this same worker ness this new automation so that turn out 51,500 valves or more and behind the counters. per day and also that he was responsible for every valve that

Industrial improvement is wonvided everyone benefits from top to bottom of the company, Just what does this one worker have to do to operate these six machines to the Company's satisfaction? Our union shop committee has been notified by the company that the one operator must walk the length of these six machines in four and one-half minutes, plus operating the machines. These six machines cover a floor space of 50 feet in length so it is easy to understand that the operator is going to be doing | a terrific amount of galloping in an eight hour day.

Some experts in the automation field disagree on what will happen to the local and national economy once this industrial automation gets into full swing. Some uphold the Ford Motor Co.'s position that it will not cause widespread unemployment. However, the union shop com mittee and the members of local 396 have become fully aware of high level of production is cut back to what we have come to revill be drastic lay-offs which will cut deep into our seniority lists

Biggest Savings in WATER HEATING

ONLY GAS HEATS PLENTY OF WATER

TIMES **FASTER** AT LESS COST

National sales records show on over-whelming preference for automatic gas water-heaters over any other type run by an all-automatic fuel. Gas does a better job ... actually replaces hot water 3 times faster.

An automatic clothes washer (and what modern home doesn't have one, or plan to have one?), definitely needs the speedy recovery of the gas heater. More than 75 manufacturers make gas heaters. You can find every type of construction, every sort of tank lin-ing, every product advantage you can think of . . . in gas.

Yet automatic gas water-heaters cost less to buy, use and install.

Notice is hereby given that a public hearing upon this petition to rezone will be held in the Village Hall, Village of Northville, Michigan, on Tuesday, June 14, 1955 at 8:00 o'clock

NORTHVILLE TOWNSHIP ZONING BOARD

PLAN

before you <u>plant</u> a tree

One common mistake in planting is putting a new tree too close to the house, garage, other plantings, sewer or other vital household services. Usually several years go by before you discover your error and then there's trouble.

Take a tall tree that's growing under power lines, or very near them. Its branches, during a storm, can break power lines and cause electric service interruptions. And you may not be the only one affected when this happens. Fire and police signal systems, even hospital service in the vicinity, can be seriously hampered-sometimes completely cut off. Even without a storm, there is the potential hazard of having treeclimbing boys touch live wires.

We have prepared a colorful 16-page booklet to help you select the best trees for your home and community. Ask for 'Planting for Permanent Beauty" at your Edison office or write Detroit Edison, 2000 Second, Detroit 26, Michigan.

"OPERATION BRUSH CUT." An Edison Tree Control Program Designed to Guard Against Interruptions to Your Electric Service:

constantly to keep 81,000 miles of lines in service, bringing electric power They systematically trim or remove probess growing under or near power

When the "OPERATION BRUSH CUT" crew is in your neighborhood . . . if some of your trees near power lines need attention, your permission will be requested.

A really modern kitchen includes an extension telephone

Think of all the hours you spend in your kitchen! How many times a day do you have to make "a 50-yard dash" to go and answer the telephone?

Does it make sense when you can have a kitchen extension telephone for only a few cents a day?

It will save you time, steps and energy, make you a more efficient home manager. You'll find its value far beyond its price. No home is truly modern without an extension telephone in the kitchen and another beside your bed.

Order yours today, from our Business Office or any telephone service man.

You'll see this poster on every telephone vehicle in town,
