New 2-stage rear LOOKING FOR THE Take a tip from the men who buy trucks every year!

The big truck fleets buy more Fords than any other make!

The big fleets have the cost records. They know which trucks cost less to buy and run. They know which trucks are the most dependable. And official registration figures show that more big fleets choose Ford than any other make.

When you decide to go Ford, you certainly get comforting assurance that you've picked the right truck!

Low truck costs are just as important to big fleet users as they are to you. And, when fleet buyers favor Ford, you can be sure they've checked all cost factors. You can be sure they've found that Ford trucks cost less.

First cost is low. Resale values are high. Ford's modern Short Stroke engines keep running costs down. And a 10-million truck study proves that Ford trucks last longer.

See your Ford Dealer soon. Buy with confidence, drive with confidence, and SAVE with confidence.

Ford's rugged T-800 is a real money-maker! Choose from two heavy-duty V-8's, developing 200 and 212 horsepower. Both are equipped with sodium-cooled exhaust valves that last as much as five times longer! Power steering and tachometer standard at no extra cost.
