# To the Millions of Americans Who Helped Design the 1959 Ford Family of Fine Cars

A message from Henry Ford II, Benson Ford, and William Clay Ford on the philosophy behind Ford Motor Company's 1959 models -soon to be shown by 8,972 dealers all over the country.

TOR 55 years our family has been in the **P** business of making automobiles for the families of America.

First in our grandfather's and our father's time, and now in our own, we've been associated with the evolution of the American car. We've watched our cars and our ways of living change each other.

Through all these years we've tried to learn the simple secret of success in the car business: Give the people what they want.

Of course, when our grandfather decided to find out what people wanted, it wasn't

very hard. People wanted low-priced, reliable transportation. You didn't have to do much research to learn all about it.

#### How things have changed!

Today, people want far more than transportation from their cars. To most of us Americans, the car is a second home.

We are the most mobile people on earth. We live in one place, work in another, send our children to school in a third, and enjoy our recreation in a fourth. We think nothing of going fifty miles to dinner, or across the country on a holiday. Is it any wonder Americans make such great demands upon our cars – or have so many ideas about them?

How do we find out what these people want - and what their ideas are? At Ford Motor Company we consider car-owner research

one of our most important assignments. We do our best to find out what you like. why you like it, what you need and want, what you take for granted in a car, and what you don't care about.

We ask questions by mail, in person, and by telephone. We get suggestions from a farmer in Arkansas and a housewife on Long Island, a salesman in Arizona, and an Ohio teenager who just got his driver's license.

#### A host of new ideas

Our dealers across the country will soon be showing you the completely new 1959 Fords, Edsels, and Mercurys. Together with the improved 1959 Lincolns, Thunderbirds, and Mark IV Continentals, we believe they're the most beautiful cars we've ever made. Their styling is crisp, functional and well proportioned - every line with a purpose.

Our '59 cars are designed around people.

You'll find, for example, such things as wider doors to make our cars easier to get into and out of, even for ladies in the new tighter skirts; more leg room for the person in the middle, with the hump in the floor cut way down; and, you'll find all of our new cars -both V-8's and 6's-are more economical to

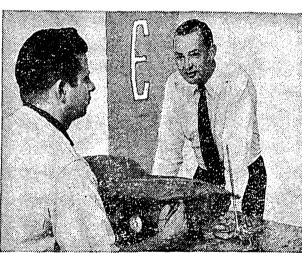

You'll notice all kinds of ideas to make riding safer and easier, more comfortable and convenient - from greatly enlarged window areas to bigger luggage compartments.

Never before has our company devoted so much time, thought, effort and money to finding out, and finding the way to give you the things you want in an automobile. And we make a car for every price range, from about \$2000 to over \$7000. The choice you have is almost unlimited.

#### 6 different makes -60 different models

In the 1959 Ford Family of Fine Cars, we will offer 6 different makes - the Ford. Thunderbird, Edsel, Mercury, Lincoln, and Mark IV Continental. In these 6 makes you get a total of 60 different cars.

And if that's not enough, you can pick from so many different colors, interiors, trims, and other choices in each model that it takes an electronic brain to count them.

William Clay Ford, Vice President, Product Planning and Styling,

We believe you will find, in the 1959 Ford Family of Fine Cars, the car designed for you. In a sense, it was designed by you designed by you and millions of other Americans.

Speaking for the entire Ford Motor Company - its 273,457 stockholders, its 150,000 employees and its 8,972 dealers all over America – may we invite you to see our new cars before you buy? Watch for announcement dates in your newspaper.

UNITED NATIONS DAY - 1958

BY THE MAYOR OF THE CITY OF WIXOM, MICHIGAN

A PROCLAMATION

WHEREAS for the purpose of maintaining International peace and promoting the advancement of all peoples the United States of America joined in founding the United Nations; and WHEREAS in working for a durable world order of freedom and justice, the firm support of the United Nations has always been a fundamental element of our foreign policy; and WHEREAS the United Nations is keenly aware that the world is on the threshold of a new age of scientific technology which holds great hopes and grave perils for mankind; and WHEREAS the United Nations provides an unique International forum and constantly seeks to improve its machinery for collective security and the peaceful settlement of disputes; and WHEREAS the General Assembly of the United Nations has resolved that October twenty-fourth, the anniversary of the coming into force of the United Nations Charter, should be dedicated each year to making known the purposes, principles, and accomplishments of the United Nations:

NOW. Therefore, I, JOSEPH T. STADNIK, Mayor of the City of Wixom, do hereby urge the citizens of this city to observe Friday, October 24, 1958, as United Nations Day by means of community programs which will demonstrate their faith in the United Nations and contribute to a better understanding of its aims, problems, and accomplishments,

complishments,
 I also call upon the officials of the Federal and State government and upon local officials to encourage citizen groups and agencies of the press, radio, television, and motion pletures, to engage in appropriate observance of United Nations Day throughout the land in cooperation with the United States committee for the United Nations.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the City of Wixom to be affixed,

crown. But the win didn't come Fired-up in the first half, the Mustangs grabbed a 20-6 intermission lead and then had to hang on desperately to down a determined West Bloomfield team, 27-26. A capacity homecoming crowd perhaps the largest ever to witness a game at Ford Field — sat glued o the stands until the final gun. They saw the Mustang offensive machine roll at will - on the ground and through the air - during the first half. And in the last half West Bloomfield demonstrated why they are one of the most feared team in the league. Quaterback John Lucadam un

leashed a deadly passing arm hitting on 13 of 20 attempts to completely bewilder the Mustangs. The difference was the accurate toe of Center Wade Deal. Purchase of the Hills' building ended years of dickering by the city and represents a joint effort by the council and certain retail merchants to improve Northville's parking and

While the entire council worked to bring about the purchase, Mayor Allen shouldered most of the negotiation responsibilities and deserves credit for finally closing the

The idea to purchase the 90-year-old building and provide alley and parking area behind the Main and Center street stores began several years ago. The entire plan would call for purchase of another piece of property on Wing between Main and Dunlap to provide a third access and also enlarge the parking space.

In the past several years the city has marched along slowly aquiring property and developing alleys and parking with little participation by the retail merchants. In the case of the Hills' property it is a different story.

The Hills' building cost \$17,000. George Hills received \$10,000 for his two-thirds interest and \$7,000 went to Frank Hills for a one-third share. The latter brother resides and has his real estate office in the building.

Of this amount the city has reasonable assurance that merchants will pick up \$10,000 of the tab.

It's logical to assume that there should be some formula between local business and professional interests in the community and the city to share the financial burden of parking development.

To date the city has spent approximately \$100,000 on its parking-alley programs. There's a limit to how much can be

Actually, the city and merchants both have a stake in parking development. Alert merchants want more customers and they want them to park with easy access to their stores. They also want to be cerain that they are one step ahead of the population increase so that there will always be enough

Similary, the city has a definite interest in the facilities of its business district and a responsibility to see that they are adequate for shoppers of the area.

More inportant, perhaps, is the increased revenue that the city can expect to derive from a thriving business commun-

Despite a survey to the contrary, the city council as well as most merchants realize that Northville's parking facilities are far from sufficient.

In numbers of spaces the total may be adequate today. A good share of these spaces are on private property, however, and could be lost tomorrow.

Moreover, most of the existing facilities either need blacktopping, lighting or both.

In an effort to completely review and analyze the parking set-up as it exists in Northville today and to perhaps introduce suggestions for future development and financing of facilities a joint meeting of interested parties has been

The meeting should be of vital interest to every businessman who, by virtue of doing business locally is responsible for bringing traffic into town. The full city council will attend and the Retail Merchants Association is expected to be well represented. But every business person has been invited and if not, is welcome. The meeting will be held at the VFW building at 8:00 p.m.

We made a slight slip in the reporting of a school board

It seems that we quoted Superintendent Amerman as saying that there would be some \$640,000 left over from the school's \$3 million bond issue when the building was complete. We also hinted that this same amount would remain when the present high school is rejuvenated for junior high school

When the calls of congratulations began pouring in for his financial genius in saving all this money, Superintendent Amerman did some checking.

The story is really this. Some \$640,000 in school bonds remain UNSOLD from the original \$3 million bond issue. Part of this will be needed to complete the high school. Approximately \$150,000 will be used to rehabilitate the old high school. Still more is carmarked for an elementary school

After that, it's anyone's guess as to how much will remain unsold.

Sorry, Russ. But with all that money left over, things looked pretty rosy there for awhile!

TODAY'S CHILDREN LEARN about the value of the telephone almost before they can walk. Here's a story of a six-year-old daughter who knew exactly what to do when she heard a man trying to break into the house. She ran to the phone and got the police. The fact that the intruder turned out to be her father (he had lost his keys) takes nothing away from her prompt action in a crisis.

THE TELEPHONE COMPANY has a special way of recognizing noteworthy deeds by telephone employees in time of crisis. Telephone folks have a long tradition of service to the public; but each year the company makes a practice of giving medals, cash and citations to employees for some particularly outstanding deed beyond the call of duty. This year, for instance, awards were given to a Pontiac telephone man credited with saving the life of an auto accident victim, and to an Ann Arbor repairman who rescued a man from fire.

A SMALL BOY called the Information Operator to ask for a local number. After she had supplied it, the operator suggested to the small boy that he would find it in the telephone directory. "I know," he agreed, "but I can't do that 'cause I'm standing on the directory to reach the tele-
