No more than one tract or parcel must be valued or taxed on the same line. Two descriptions must not be joined in case valuation or tax unless owned or occurs as one parcel. Personal Estate must be valued and taxed on a different line, as well as column, from Real Estate. Non-resident lands should be entered in numerical order, beginning with section one, and if the name of the owner is not known, they should be entered as "owner unknown." Enter the amount of any Re-assessment with red ink, in the column of taxes to which it belongs, above the tax for the year for which this Roll is used, and in the column for "Remarks," state opposite each parcel for what year the re-assessment was made. In columns 3 enter on the same line as the name of the owner the word "Owner," on the same line as the name of the owner the word "Trustee," and in the same line as the name of the mortgagor enter the name of the trustee or other obligee. In columns 4 and 5 enter the name of the owner in the same line as the name of the mortgagor. In columns 6 and 7 enter the name of the owner in the same line as the name of the mortgagee enter the value of interest represented by mortgage, deed of trust or other obligation. The above directions concerning entries is especially suited to sections 25 to 27 of the Tax Law of 1892, they should be carefully studied and the directions therein contained should be strictly followed.—Almon General's Office, 1888.
