

SPEAKING for the Record

By Bill Sliger

Northville made the front page of the Miami Herald last week right along with the newly inaugurated president and his wife.

In a wire-service story dated Northville, the birth of twins "John Fitzgerald and Jacqueline Lee" Scazulek at Community General Hospital here on inauguration day was carried in connection with other highlights of the Washington, D.C. festivities.

The edition was sent along to us by Carl Langfield, Northville Laboratories president, who is vacationing with Mrs. Langfield in Florida and throughout the Bahamas aboard their yacht "No-La-Va-11".

He reports good fishing but some rough weather in the Gulf Stream.

Northville city and township clerks have reason to fret these days.

On February 20 they must conduct a primary election — that will probably go down in local history as the smallest total vote ever recorded.

It's for one office — on the county board of auditors.

Both township precincts will be open, but only two of the city's three precincts are in Wayne county — so Clerk Mary Alexander can rest that much less, at least.

Figures released after a "careful study" by a special tax committee of the Wayne county association of school boards make the findings of Northville's preliminary economic development group look amazingly accurate.

In making a pilot study preparatory to recommending establishment of a full-time economic development committee the local study group predicted that county and school taxes would increase by 70 percent in 1968.

The county study predicts that the cost of operating schools will go up 64 percent in 10 years.

Current cost of operating Wayne county schools is \$203 million. By 1970, the study shows, the cost will be \$333 million.

This should be reason enough for businessmen and home-owning taxpayers to want to lend their support to the proposed economic development project.

One of the funniest — and most appropriate — suggestions read in a long time was made last week by one of the owners of the two rival professional football teams in Dallas.

Pointing out that the city should be a one-team town, he suggested (in typical Texas fashion) that the two teams play a game and "the loser get out of town!"

MICHIGAN IS SKILLED LABOR

The success of Michigan industry and the rewards of working in Michigan have developed a great supply of skilled workers in our state.

Michigan's workers are recognized for the ability to produce well above the national level. Recent government figures place their output at 18 percent above.

Our workers are a highly diversified labor force, manning 365 different types of industry found in Michigan.

Whatever the challenge from specialization to mass production, Michigan's skilled labor has the know-how to meet it.

Help carry Michigan's message to the nation. Clip this ad and mail it to someone in another state with your own comment. Let's talk up Michigan and its advantages for industry. Together, we can assure a greater future for all of us.

Cuba Break a Mistake

Key West, Florida. I am writing this in Florida. — Cuba is not just a "stone's throw" from Key West (100 miles). My first reaction is for every reader to get his child's geography and study Cuba.

Cuba is a wonderfully rich country. It possesses marvelous soil. It enjoys plenty of rain at the mouth of a body of water between Key West, U.S., and Yucatan, Mexico. It may truly be said that whoever controls Cuba will control the Gulf of Mexico. This means that our great asset to these sections, the Kennedy money, is a new bulwark for Florida. I am on all shipping on the Mississippi River, our Texas ports of Galveston and Corpus Christi, as well as the leading Mexican ports, as he knows Cuba from his winters at Palm Beach.

For several reasons Russia would not go to war with us to get Cuba, and Castro knows it. There are several reasons, but the chief one is that this is Cuba's great shipping port for sugar. At one time this state was wanted to protect our Panama Canal, but the latter has been written off since the Atomic Era. What country controls Cuba controls the gateway to the heart of the U.S. There is no force in the world that can be sure to think of Russia taking over Cuba with our Guantanamo Bay forces being among the strongest in the world.

President Kennedy wants most to make a good President. Second, he wants to develop some kind of an understanding with Russia so as to honestly face even if Russia is friendly. Third, he wants to have a good stock market and to have the Dow-Jones Averages in 1960 higher than they are today. If friends may let prices fall at during 1961 as a part of the "let the recession come and get excited. They love to threaten and fight by propaganda. This is what Castro is now doing. We should not take

little interest in our stock market, but the Kennedy family is stock-market minded. It always was and surely will be during the next two years. It is very possible that Cuba could be used to develop another bull market. Castro may be bought off — or shot off. Kennedy could make a spectacular play by restoring diplomatic relations, which I think he will do. Just now Cuba is playing the U.S. against the U.S. It is a great game of poker and I am ready to bet on President Kennedy. Hence, I am now bulwark for Florida. I am on all shipping on the Mississippi River, our Texas ports of Galveston and Corpus Christi, as well as the leading Mexican ports, as he knows Cuba from his winters at Palm Beach.

Atom Tests Affect Lakes

State of Michigan scientists keep a sort of long range eye on atom bomb testing through the world.

Their aim is to make sure surface waters in the Water Resources Commission do not accumulate excessive amounts of radioactivity. Actually, the men of the Water Resources Commission check the lakes and streams have no real connection with the testing of nuclear weapons.

But the number of atomic devices exploded around the world are reflected in the Michigan waters.

Latest report from the Commission showed only one-tenth the amount of radioactivity recorded in surface water during the latter part of 1959 was present during 1960.

Loring F. Oeming, chief engineer for the Water Resources Commission, said the lower levels of radioactivity in 1960 stemmed from the fact that there was no nuclear bomb testing since 1958.

He said that during the five years that regular tests have been made, radioactivity levels have fluctuated in direct relation to the extent of atomic weapons testing by the United States and other countries of the world.

Even at their peak, radiation levels were well below recognized permissible concentrations.

The Water Resources Commission maintains 32 sampling stations with 12 of them located on the Great Lakes or connecting waters, he said. Fourteen municipal water supplies are also constantly checked.

Cities which have their water supplies watched are Benton Harbor, Grand Rapids, Charlevoix, Petoskey, Escanaba, Marquette, Alpena, Sault Ste. Marie, and Montmorency, Port Huron, Mount Clemens, Detroit, Monroe, Flat Rock and Dundee.

All testing stations are at public water supply intakes or other strategic locations.

Plants and animals taken from the water at the Charlevoix and Monroe testing stations are checked further to determine how much radioactivity is absorbed, Oeming said.

Data which comes out of the monitoring program is used by federal, state and local governments in a variety of ways, and by private concerns, he said.

Federal funds which Michigan schools profit from are also used to help pay for the monitoring program.

Under 1951 law, part-mutual tickets bought by thoughtful wagers on horses

to the editor:

It has been more than a pleasure to have been able to serve as a director of the Novich Development Commission for the past year. I do wish the incoming board a hearty

In looking over this Commission's past accomplishments, it may appear that their work time and effort was done in vain. I cannot share in this feeling. Nor do I believe that village officials should be criticized for not using the results of the survey in laying plans for the future of Novich as Mr. Smith pointed out.

Truthfully it really wasn't dissatisfied too much by the report. In fact, the only report we received from a non-committee member was a set of figures representing the returns from the survey. I did not feel that the returns were of very much value to the planning

A few weeks ago when the planning board revealed plans for Novich of tomorrow in joint session with the council, it pleased me to no end. I couldn't help from thinking that many hard hours of work that have been put in by the planning board to master such a unique plan.

If the past directors of the Citizens Development Committee accomplished nothing else than getting a workable organization on solid footing, then I say their work was not done in vain.

News Around Northville

Mr. and Mrs. J. E. Strauss, 2385 Beck road, were among the several Northville couples attending the 11th annual Square Dance Roundup held at Lincoln high school, Ferndale, Saturday night.

Burt Itall, who used to do stunts in Northville, directed the round-up sponsored by the Ferndale Recreation department.

Dinner guests at the Beck road home of the J. E. Strauss on Sunday were Mrs. and Mrs. Ralph Closson of Garden City.

Mrs. Dewey Horsing, 4005 West Nine Mile road, is entertaining Mrs. Maxwell Austin, Mrs. Waldo Johnson and Mrs. Paul Austin at a bridge luncheon today.

University of Michigan freshman David Sillison will have a long weekend at home before second semester classes start in Ann Arbor. David spent part of the semester break vacationing in Chicago. His parents are Mr. and Mrs. Raymond Sillison, 300 South Ely drive.

The Hugh Conners of 21710 Rathbone logged over to Chicago for four days last week to see the Builders' show that was in progress in the Windy City.

Mr. and Mrs. Ernest H. Wood are back from a trip to their former home city in the South. Hollywood, Florida. Accompanied by their daughter, Mrs. Andrew Coughrough of Birmingham, they spent two weeks in the sun.

The Woods live at 4189 Eight Mile road.

Tuesday was a big day for the Duane Butters of Summer side lane. It was the couple's 20th wedding anniversary. This Saturday they'll entertain about 100 guests at a party which is

Mr. and Mrs. J. E. Strauss, 2385 Beck road, were among the several Northville couples attending the 11th annual Square Dance Roundup held at Lincoln high school, Ferndale, Saturday night.

Performances will be given at 8:30 and 10:30 p.m. Ticket sales in the schools are scheduled on Thursday mornings, February 9 and 10 from 9:30 to 5:00 p.m. Mrs. Tom Cummings will sell at Main Street elementary and Mrs. Don Schwendemann at the American school. Mrs. John Robertson may also be contacted for tickets by phoning FI 9-0549.

OLV Moms Slate Big 'Fun Day'

The Our Lady of Victory Mother's club is sponsoring a "Fun Day" Saturday from 11 a.m. to 5 p.m. at the church social hall.

Ticket sales in the schools are scheduled on Thursday mornings, February 9 and 10 from 9:30 to 5:00 p.m. Mrs. Tom Cummings will sell at Main Street elementary and Mrs. Don Schwendemann at the American school. Mrs. John Robertson may also be contacted for tickets by phoning FI 9-0549.

Games and prizes for all ages will be on tap, including a raffle, cake walk, darts and fish ponds. There'll also be refreshments — hot dogs, chips, pop, fudge, cookies, cupcakes and popcorn.

Nothing will cost more than a dime, according to the Mother's club.

Area children, high school students and parents are invited to attend.

Past Matrons Club To Meet Wednesday

Past Matrons club of Orient Chapter 77, O.E.S., will meet Wednesday, February 15, at 12:30 p.m. in the home of Mrs. H. A. Boyden, 280 First street. Mrs. Edward Mollema will assist the hostess.

GOOD THINGS HAPPEN WHEN YOU SEND

TEMPORARY VALENTINES

PAPES' HOUSE OF GIFTS

852 W. ANN ARBOR TRAIL PLYMOUTH

BUNDLE DAYS — Northville students began their annual collection of used clothing this week for the "Save the Children Bundle Days" drive. Each year this nationwide organization conducts a clothing campaign for needy children and adults in the southern mountains and overseas. The federation was founded in 1922 and affords important opportunities for increased understanding amongst peoples of our own and other lands.

Garden Club Card Party Helps Pay Scholarships

There are still some tickets left for the Valentine Card party to be given by the Northville branch of the Women's National Farm and Garden association on Monday in the Wayne County Training school gymnasium.

A gift of the Kresge Foundation, the structure houses UP offices and facilities on its upper five floors. The main floor will eventually be occupied by private businesses.

The building, located at 1238 Woodward, is the foundation's first permanent headquarters.

E.V. Ellison Takes Part In Confab

Northville high school Principal E. V. Ellison will join about 60 of his Michigan secondary school colleagues at the annual conference of the National Association of Secondary School Principals (NASPP) in Detroit, February 11-15.

This will mark the first time the NASPP, a department of the National Education association, has convened nationally in Michigan since its organization 40 years ago.

Themed "Individual Competence and the National Welfare," the conference is expected to attract a record attendance of more than 7,000 secondary school principals from throughout the nation.

NEWCOMER'S CORNER

"I look upon every day to be lost, and I do not make a new acquaintance."

— Samuel Johnson

"It's nuts about the Tigers." Newcomer Harry E. Warning isn't referring to the quadruped members of the cat family — like at the zoo. He's talking about the Bengals of baseball, the Detroit Tigers.

Warning and his wife Shanna ("She can quote batting averages pretty well," says he) have been baseball fans for years. They've followed the Tigers down to Lakeland, Florida, for spring training, and remained loyal while the team shuttled up and down the American League standings during the regular season.

A note of optimism crept into the newcomers' voice when he contemplated Detroit's chances this year . . .

KITCHEN DIARY

fold corners over. Place on ungreased baking sheet and bake at 425 degrees for 15-20 minutes.

Cooks Alter Menu Plans For Coming Lent Season

This week's Kitchen Diary cook, Mrs. Gerald David of 4520 Severn Mills road, has come up with two suggestions that merit consideration in any meat-free menu.

The first is for a wholesome and succulent seafood casserole that's a blend of cheddar cheese, cream sauce and "meaty" seafoods, topped with appropriate garnish.

Mrs. David's Cottage Cheese Tart is jam or marmalade centers for a colorful touch of sweetness.

GOLDEN SEAFOOD CASSEROLE

3 hard-cooked eggs, sliced
2 cups medium cream sauce (seasoned with salt, pepper and monosodium glutamate)
1 can shrimp, cut in halves
1 can tuna, rinsed with hot water
1 can mushrooms
1 can crabmeat
1/4 lb. cheddar cheese, grated
2 cups bread crumbs
1/4 lb. melted butter

In a greased baking dish, arrange a layer of sliced hard-cooked eggs and cover with cream sauce, then a layer of shrimp and cream sauce, then tuna and sauce, mushrooms and sauce, and crabmeat and sauce. Sprinkle with grated cheese. Mix bread crumbs with melted butter and sprinkle over the top. Bake in a moderate (350) oven for 1 1/2 hours. Serves 4.

COTTAGE CHEESE TARTS

1 cup shortening
1 t. salt
1 t. vanilla
1 cup cottage cheese
2 cups enriched flour
1/4 cup jam or marmalade
Cream shortening. Add vanilla and salt, then cheese; mix well. Add flour. Chill three hours. Roll 1/4-inch thick; cut in three-inch squares. Place one teaspoon of jam in center

of each. Bake at 350° for 15 minutes.

HOW TO LOOK "SIMPLY DEVINE"

Start with you. That final deft touch to the hair-do. A dab of bewitchment from the perfume bottle. A hint of color to the cheek. Then, don apparel that's fresh as a breeze, bright as a blossom . . . clothes dry-cleaned by Ritchie Bros.

You'll look . . . you'll be . . . "simply devine". Call us.

Strike Up The Band!

Northville's Junior High school band will give its first public concert of the year Wednesday, February 15 at 7:30 p.m. in the Community building.

Student musicians will direct concert music for the most part.

Although there will be no admission charge, donations will be accepted.

Learn Life Saving

Swimming Classes Make A Big Splash With Local Girl Scouts

If they can churn their wayward senior life saving certified, interested girls came through a qualifying night with flying Brownies as well as scouts with junior certificates.

The one-and-a-half hour sessions they attend on Wednesday nights were arranged by Mrs. M. L. Utley, chairman of the local Girl Scout council.

The advanced swim training course is part of a big program of life saving instruction for the girls. The girls are working on the fundamentals of swimming and floating. Third-year girls will be eligible for their swimmer's badge.

One spring offering would be for the girls to work on their swimmer's badge.

As yet they haven't been arranged, Mrs. Utley pointed out, but as soon as something is worked out we'll see older scouts are working to the scouts and some other in-

Cold Weather Increases Fire Threat

Roy Terrill Farm House Completely Destroyed

These unusual night fire pictures were taken last Thursday as fire units from three area departments fought flames that destroyed a West Six Mile road farm house.

Close to zero temperatures made the task more difficult for the firefighters, who managed to keep the fire confined to the house thus saving nearby farm buildings.

Owned by Northville Township Treasurer Roy Terrill, the house was rented to Mr. and Mrs. Jack Priest, who were not at home at the time of the fire.

The seven-room house and all the Priests' belongings were destroyed by the fire. Located just east of the well-known large, brick Terrill home at 5640 West Six Mile road, the house was engulfed in flames before neighbors noticed the fire and called the Salem department. Units from the House of Correction and Northville were also summoned.

It wasn't until the Salem truck arrived that the Terrills were aware the farm house was on fire.

Another possible tragedy was averted in the same area when neighbors noted fire arising from the chimney of the August Prince residence at Six Mile and Napier road Saturday evening. Firemen were summoned and discovered a plugged nozzle on an oil furnace. The Prince family was away at the time.

Fire officials noted that extreme low temperatures often overtax heating units and

SPEAKING for the Record

By Bill Slinger

Whenever someone is involved in a fire, whether property damage has been heavy or light, it's inevitable that the work of the fire department will be mentioned.

"Don't forget to commend the firemen for the job they did." It's the unanimous comment.

"It's not just a polite phrase. But to appreciate firefighters who have to need their services."

It's like the arrival of the doctor when your small child is sick.

Last week in the early hours of Wednesday morning fire broke out in the pressroom of this newspaper.

Aroused by Officer Frank Heintz and informed that two units were fighting a fire at The Record I could only imagine the worse.

I fully expected to see a gutted shell when we arrived on the scene minutes later.

Instead Bill McGee and Alex Lyke and their crew had the flames under control and confined to one section of the ceiling in the rear of the pressroom.

Their work in the smoke-filled building was completely professional. A ton of worry was lifted off my shoulders when I watched them perform.

Township Treasurer Roy Terrill expressed the same sentiments to me this week. Fire struck his farm destroying a tenant house last week. Fast action of the Salem, House of Correction and Northville departments saved adjoining buildings from damage.

So to volunteers who answer the fire call — and usually at a most inconvenient hour — go our profound thanks.

The coordination between city departments in the case of fire is also worthy of commendation.

On hand at The Record fire was Public Works Superintendent Earl Hartner in case his department was needed, while Officer Heintz handled all police problems.

We expected to hear some comments last week on the change in the appearance of the newspaper.

But not a word.

The change is from eight columns to nine columns per page.

It's hardly noticeable in the general appearance of the paper even to an experienced eye unless you bother to start counting.

The nine-column newspaper is quite common with weeklies using a flat bed press and newspaper. The extra column is gained by reducing the column width to the same size as the daily papers using rotary presses.

We were happy to have received several calls approving of our new compilation classified advertising pages. The callers liked the idea of more want ads with wider coverage and said they received better results.

Residents accustomed to parking in front of their homes but with their cars headed in the wrong direction better take warning.

Police are ticketing vehicles parked in this manner. It's a traffic hazard, says Chief Eugene King.

To keep the public informed on other city police ordinances and the purpose they serve, the chief will write a column, "Police Review" on a fairly regular basis. His first article appears on page 11 this week.

NOTICE TO DOG OWNERS

OAKLAND COUNTY, MICHIGAN

It is necessary that all dog owners in Oakland County must produce a certificate that their dog (or dogs) has been vaccinated against rabies within the last 12 months with Tissue Vaccines or within 24 months if vaccinated with modified live virus in order to secure a 1961 dog license.

If such owners do not possess such a certificate, one may be obtained from their local Veterinarian or at one of the County or Township operated clinics which will be held at the following listed locations:

SUNDAY, FEBRUARY 19, 1961 - 1:00 TO 4:00 P.M.

NOVI TOWNSHIP HALL - 25650 NOVI ROAD, NOVI.

SUNDAY, FEBRUARY 26, 1961 - WIXOM AREA - WIXOM MUNICIPAL BUILDING - 49045 PONTIAC TRAIL - 1:00 TO 4:00 P.M.

-1961 DOG LICENSES WILL BE AVAILABLE AT CLINICS- FEE FOR RABIES VACCINATION IS \$2.00

Unemployment Pinch Hurts

Beliefs of unemployment in the federal Congress, life thinkings.

we have fruitful training ground in Michigan for testing such a state offers from this type

Since most goods and services are produced by the state on weight taxes, payments from people who pay

people in the state are consumers. They would be a weight tax, payments from people who pay

ed at a higher rate by working they would be a weight tax, payments from people who pay

everybody feels the effect of unemployment. They registered their vehicles, they registered their vehicles,

unemployment. The year 1961 has started out as if it were going to turn into a

less than satisfactory one. The year 1961 has started out as if it were going to turn into a

from the employment standpoint. The year 1961 has started out as if it were going to turn into a

Though some economists and politicians too, hopefully predict an upturn in the final

half year of 1961, the fact is any period of poor economic conditions is felt for a long

time after things improve. The year 1961 has started out as if it were going to turn into a

Take two of Michigan's major, non-manufacturing industries, for example.

Farmers don't sell as much food when Michigan factories workers are out of jobs. While

most farm produce is shipped out of the state, the biggest market is still at home.

Tourist and resort operations don't bring prosperity to the owners of hotels, motels, shops, and restaurants.

But out-of-state people alone don't bring prosperity to the owners of hotels, motels, shops, and restaurants.

Michigan is not alone, of course, as a state with recurring unemployment problems.

However, the problem here is with us time and time again. It's not just a one-time thing, it's a recurring problem.

It's like an athlete who has a 100-yard dash, but falls into a hole every 25 yards.

Things race along between unemployment seizures, but every time the state falls into a hole, it's a recurring problem.

It's like an athlete who has a 100-yard dash, but falls into a hole every 25 yards.

Things race along between unemployment seizures, but every time the state falls into a hole, it's a recurring problem.

It's like an athlete who has a 100-yard dash, but falls into a hole every 25 yards.
