might take a cue from the recently-formed Junior Chamber Javcee President Bob Prom tells me that his group picked

up 10 new members in five days last week. Their formula is a little sneaky, but who can argue with the results.

Prom bought a bantam rooster - it's called "Roscoe Rooster, the Roster Booster".

Roscoe is turned over to a Jaycee and becomes his respon sibility until he has successfully enlisted a new member. The Roscoe is turned over to another member, and so on.

They're young men (under 36) who, in the editorial opinion of their official Detroit area publication last week, are "at the Crossroad". It points out the importance of individual thought

tive and enthusiasm, as the mainspring for his activity and thought if he is to walk the individual road. Free thought does not flourish in a crowd." says the Jaycee editorial.

The future of our community depends greatly upon its young men — their enthusiasm and wisdom and interest in community affairs.

It is then, it seems, important that we should encourage and support their projects and hail their enthusiasm.

It is then, it seems, important that we should encourage and support their projects and hail their enthusiasm.

It is then, it seems, important that we should encourage and support their projects and hail their enthusiasm.

It is then, it seems, important that we should encourage against inflation is land, Pacific as have the mineral follows the lines usually means that the integer average was the integer and 1956-55. The name of the nording in 1955-56 the angler's greatest pleasure, and there are some who only include the hardy sport of fishing through the ice.

It is then, it seems, important that we should encourage and other properties with great potential wealth. The only real such portions of the Northern in 1956 and 1957 was well over probably most fishermen take potential wealth. The only real such portions of the Northern Pacific as have the mineral follows.

The future of our community depends greatly upon its declining.

Substitute the increases in 1955-56 the angler's greatest pleasure, and there are some who only vear when the count was taken throughout the increases.

Gain over the previous school like the hardy sport of fishing through the ice.

TREASURE ISLANDS

Natural Gas, the miracle fuel, comes to us from underground storehouses discovered on hazardous mountainsides, in deep forests and searing deserts - now geologists are searching even the floor of the Sea! This underwater exploration takes place from huge, man-made, metal islands called drilling platforms. The islands are built as far as 72 miles offshore in the tidelands and coastal waters. and are supported by long legs reaching to the ocean bottom. These "treasure islands" support tons of equipment, living quarters for the crew, and a helicopter landing platform. When a new reservoir of Natural Gas is discovered, the well is canned and connected with the miles of Natural Gas nine line spread over the nation. This provides millions of people in crowded cities, spacious suburbs, and small towns with a new source of gas, the wonderfuel, for use in home and industry.

This New Boston family's glad it did! Meet the newlyweds Mr. and Mrs. John Brandes (married Jan. 14, 1961) of 38790 Willow Road, New Boston, Michigan Mr. Brandes, Township Supervisor, reports, "I had electric heat installed and then just forgot about it. There's nothing to worry about and nothing to do—it's just like a light bulb. It gives us all the heat we need, and the heat's

much more even. Room temperatures never vary more than a half a degree-even during Only electric heat offers so many advantages

This family knows you can't beat electric heat for a new home, Because it's flameless, electric heat is the cleanest method there is -walls and furnishings stay clean with less care. And with electric heat, you get uniform warmth and comfort at a turn of a dial. There's no need to start up an entire system o get extra warmth in one room. Electric heat may cost more, bu worth every cent in extra comfort, extra convenience. And Edison's Budget Billing Plan equalizes heating costs over the year.

If you're buying, building or-remodeling, you'll find it worth while to check the many exclusive advantages of built-in electric heat. For all the facts, fill out and mail coupon below. We'll send you a copy of the free illustrated booklet "ELECTRIC HOME HEATING."

They Oppose Millage Hike in Novi WE'RE OUT TO SET

NEW RECORDS AT

BROS. WEST

 THE FINEST MERCURY at NEW LOW PRICES!

NOTICE TO OWNERS OF UNLICENSED DOGS

For your convenience a RABIES VACCINATION CLINIC will be held in your area on Saturday, MAY 20, 1961 at the NOVI TOWNSHIP HALL, from 1:00 to 4:00 p.m.

Dog owners are reminded that licenses are now delinquent and most dog owners have received Violation Notices from the Dog Warden or will have received them by the 20th of May.

If you prefer, you may secure a vaccination from your own Veterinarian who will furnish a certificate, which must be brought to the clinic if you want to secure a license. The charge at the clinic for Rabies Vaccination is \$2.00.

Female Licenses — \$4.00 Male Licenses — \$2.00

THIS IS NOT UNDERCOATING!

THIS IS INNERCOATING

This is a completely new rust-proofing method. This method

is not to be confused with common methods such as rustoleum and

undercoating. This is designed to prevent rusting from inside the

car body with a special rust-preventive grease. Areas covered

are door panels, rocker panels, quarter panels, wheel housings,

front fenders, and any area where rusting starts from inside the

THE MOST ECONOMICAL RUST-PREVENTIVE

INNERCOATING

Don't Let This Happen

WRONG USE OF SCRIPTURE

"It must be right, they have scripture to prove it!" "He must be a man of God, he preached from the Bible".
"They use he same Bible we do, they must be right". Such atements are spoken by many

voluminous proofs of the Bible but they never get very far. Instead Satan has used a much different tactic down through the years and his ministers follow in the same path. They loudly profess to honor the Word. They quote it, they preach from it, but they use the World of God deceitfully. Why, Satan even quoted from the O.T. Scriptures in the temptations he used on the Saviour. esus that he ought to sin and yield to him, and made it sound reasonable. One can prove any method is completely new and more effective than any old method it ignorantly and dishonestly of rust-proofing your car hady.

Michigan and its

many wonderful attributes

• Michigan has so many natural advantages

Michigan has the greatest shoreline of any state—3,121 miles—equaling the Atlantic shoreline from Maine to Florida... and it's longer than the whole Pacific from California to northwest Washington.

Michigan has 11,037 lakes for sports pleasure. It's the greatest tourist state in the midwest, attracting 5,000,000 visitors every year.

• Michigan sells more hunting and fishing licenses than any other state.

• Michigan's Achievements Are Monumental

Michigan is first in the nation in value of manufactured products.
 It builds 83% of all cars and trucks. Pre-eminent too, is Michigan's production of tereal foods, metal working, machinery, salt, sporting goods, drugs, rubber, paper, furniture . . . and many other products.

Educationally, Michigan ranks among the nation's top three states.
 It has sixty-nine universities and colleges. Michigan is a leader in adult education, driver training for high school students, vocational education, disabled and handkapped personnel education and established school camps

Michigan's farm production is big—so big, in fact, that it easily surpasses the value of agriculture in 35 other states.

Michigan's highway system is recognized as among the finest in the nation . . . and extensive plans for improvements are greater than those of any other state.

MAY 21 - 27 TURNS THE SPOTLIGHT ON MICHIGAN'S PROGRESS

AND POINTS TO NEW HORIZONS OF ACCOMPLISHMENT

THE CHURCH FOR ALL

ALL FOR THE CHURCH

The Church is the greatest factor on earth for

ne building of character and good citizenship.

It is a storehouse of spiritual values. Without a

trong Church, neither democracy nor civilization

can survive. There are four sound reasons why

every person should attend services regularly and

upport the Church. They are: (1) For his

wn sake. (2) For his children's sake. (3) For

e sake of his community and nation. (4) For

he sake of the Church itself, which needs his

One of the headaches of the salesman's job, especially in the car business, is to find out the customer's REAL desires and his REAL objections.

If may seem that this should be a simple metter of just asking to find out — but it isn's that simple. Sometimes, of course, the buyer isn't quite sure himself.

An example of this was an instance I heard some ago where a dealer had shown a prospective used car buyer several good cars, and he had finally settled on one that suited himself.

An example of this was an instance I heard some time ago where a dealer had shown a prospective used car buyer several good cars, and he had finally settled on one that suited himself.

rolling countryside.

Last week a representative of the Michigan Department of Economic Development program stopped by to ask what, if anything, was being done in our area to promote the economic growth of the community.

He was ready to offer the services of this governmenta department to assist any local program. It would have been a credit to the community to have been able to say that an aggressive organization was actively engaged in seeking out commercial and industrial prospects for the

committee for more than two years but doing nothing about it Since an excellent report was compiled by a study committee ecommending formation of an economic development group, only token efforts have been made to follow through. Some appointments have been made, but no meetings

that they can help themselves with burdening tax problems. The city of Charlotte, a community of about 6,000 has had excellent results in attracting new industries through the efforts of its economic development group. Our neighbors in Plymouth have picked off a few plums, too,

There's no reason — other than the effort it takes to go inderway - that Northville cannot do the same. It's especially appropriate with the approach of Michigan

Veek to think in terms of state and community promotion. Expert advice is at our disposal and crying to lend a hand. Let's quit testing the temperature and wade forth into the on different products bought by of the Michigan Racing com- igan.

Wixom leaders deserve applause for the initiation of a chamber of commerce effort. The answer to the appeal for members was excellent and the new group is certain to play a key role in planned development for the community.

A reminder to Northville city residents: Saturday, May 27 is the day that volunteer crews will haul away that trash Beautify Northville effort by accumulating your "eyesores" and fire hazards so they may be hauled away.

 Wiring for light and power Fluorescent lighting Sales and service for Delco motors No job too large or too small PHONE FI-9-3515

ly HUGH C. BRONAUGH, Manager "MICHIGAN MARCHING FOR-WARD" is the theme of Michigan

Week this year, and all of us at Michigan Bell are proud to be

right in step with it. For example, during the past 10 years Michi gan's population has increased by 23 per cent and the number of telephones we serve has grown 62 per cent. This year we're planning to spend nearly \$87 million on new construction to improve and expand service. And Michigan Bell employees (we're Michigan's fourth largest employer) will earn-and spend mostly right in this State-about \$140 million this year. Our aim: to keep marching forward with Michigan.

IF YOU HAVE two-party or four-party phone service, why not change to a one-party line? A private telephone line is exclusively yours. It lets you talk whenever you wish for as long as you wish, without interruption. Unlike a party line, it's always

ready to make or receive calls. And in an emergency, you can use your telephone at once. You can enjoy the benefits of private line service for only pennies more a day. Just call us here at our business office.

MOST OF US hate to throw anything away that "might come in handy" some day. Your telephone company is like that, too. But Michigan Bell does more than keep worn-out things around. Such as broken shovels. Or damaged screwdrivers. Tools like these, where practical, are repaired and made useful again. That's just one of the many ways we economize-so we can keep giving you good telephone service at the lowest possible cost.
