Last week a representative of the Michigan Department of Economic Development program stopped by to ask what, if anything, was being done in our area to promote the economic growth of the community.

He was ready to offer the services of this governmenta department to assist any local program. It would have been a credit to the community to have been able to say that an aggressive organization was actively engaged in seeking out commercial and industrial prospects for the

committee for more than two years but doing nothing about it Since an excellent report was compiled by a study committee ecommending formation of an economic development group, only token efforts have been made to follow through. Some appointments have been made, but no meetings

that they can help themselves with burdening tax problems. The city of Charlotte, a community of about 6,000 has had excellent results in attracting new industries through the efforts of its economic development group. Our neighbors in Plymouth have picked off a few plums, too,

There's no reason — other than the effort it takes to go inderway - that Northville cannot do the same. It's especially appropriate with the approach of Michigan

Veek to think in terms of state and community promotion. Expert advice is at our disposal and crying to lend a hand. Let's quit testing the temperature and wade forth into the on different products bought by of the Michigan Racing com- igan.

Wixom leaders deserve applause for the initiation of a chamber of commerce effort. The answer to the appeal for members was excellent and the new group is certain to play a key role in planned development for the community.

A reminder to Northville city residents: Saturday, May 27 is the day that volunteer crews will haul away that trash that is cluttering your backyards, garages, basements and attics. "MICHIGAN MARCHING FOR-WARD" is the theme of Michigan Week this year, and all of us at Michigan Bell are proud to be right in step with it. For example,

during the past 10 years Michi gan's population has increased by 23 per cent and the number of telephones we serve has grown 62 per cent. This year we're planning to spend nearly \$87 million on new construction to improve and expand service. And Michigan Bell employees (we're Michigan's fourth largest employer) will earn-and spend mostly right in this State-about \$140 million this year. Our aim: to keep marching forward with Michigan.

IF YOU HAVE two-party or four-party phone service, why not change to a one-party line? A private telephone line is exclusively yours. It lets you talk whenever you wish for as long as you wish, without interruption. Unlike a party line, it's always

ready to make or receive calls. And in an emergency, you can use your telephone at once. You can enjoy the benefits of private line service for only pennies more a day. Just call us here at our business office.

MOST OF US hate to throw anything away that "might come in handy" some day. Your telephone company is like that, too. But Michigan Bell does more than keep worn-out things around. Such as broken shovels. Or damaged screwdrivers. Tools like these, where practical, are repaired and made useful again. That's just one of the many ways we economize-so we can keep giving you good telephone service at the lowest possible cost.

The survey lowed that 68% of American ouseholds are in debt in on form or another. 48% of the families are saddled with periodic installment deht renavments: 31% owe mortgage debts; 24% owe on non-install-ment debt. According to the study, 14% of the families owing for over \$1,000 - double the portion only five years ago.

The survey had one encouraging note. Namely, that about one-third of the familes owing installment debt report that they have enough savings t offset their debt. For those who rationalize that installment buying keeps their savings in tact would like to point out that statistics show this is a very costly practice.
