LIKE THE housewife who shops for all sorts of things to keep her home running smoothly, your phone company buys many "housekeeping" items of its own. Last year, for example, Michigan Bell and

Western Electric Company, the Bell System's manufacturing and supply division, bought about \$62 million worth of supplies-ranging from trucks to work gloves-from about 1,400 Michigan suppliers. Add to that the wages and salaries of our employees, our construction expenditures and state and local taxes, and the total benefit to Michigan's economy was one-quarter billion dollars.

YOU'RE GOING to be hearing more and more about Bell Telephone scientists' work with a revolutionary device called the Optical Maser. It transmits the narrowest light beam ever achieved, along which can be sent enormous numbers of messages—many, many times more than by wire, cable, or raadio. Light may become a whole new medium for telephone talk, TV images and data communication. It's constant research like this that makes possible the latest telephone service improvements for our customers at the earliest possible time and a

GOOD IDEAS are valuable and at Michigan Bell our Employee Suggestion Plan is providing lots of good ideas on how we can serve you better, faster and even more economically. Last year, for instance, Michigan Bell employees came up with over 2,500 suggestions on how to do things better. For each one accepted the employee gets a cash award. So good ideas pay off in three ways: to the employee.

LOOKING FOR A PUMPKIN? Richard Rateliffe, a student in Novi schools, seems to have found a goodly number of them. He's probably getting ready for the annual Halloween party to be held next Tuesday evening at the community building. Youngsters up to 11 years old are invited to attend between 7:00 and 8:30 p.m. at the board of commercesponsored event, and teen-agers will have a dance party from 9 p.m. on. There will be

games, contests, costume judging and prizes,
