DEADLINE TUESDAY NOON

1-Card of Thanks

We certainly appreciate the cooperation of the Northville Lake and Ann Arbor Township Fire Departments, volunteers, and many friends in our recent fire. Many thanks to our neighbors Mr. and Mrs. Freeman Flynn, for serving hot coffee to the firemen in zero weather. Mr. & Mrs. Howard Knowler, Miss Lorraine Hutchinson.

A warm thank you to my friends and neighbors for the calls, inquiries, and many kindnesses extended to me during my stay in the hospital.

F. J. Friesen

I wish to thank everyone for their cards, inquiries and kindnesses extended to me during my stay in the hospital and since my return home.

Clara Breda

High School Girls Are Still Bowling 'Em Over

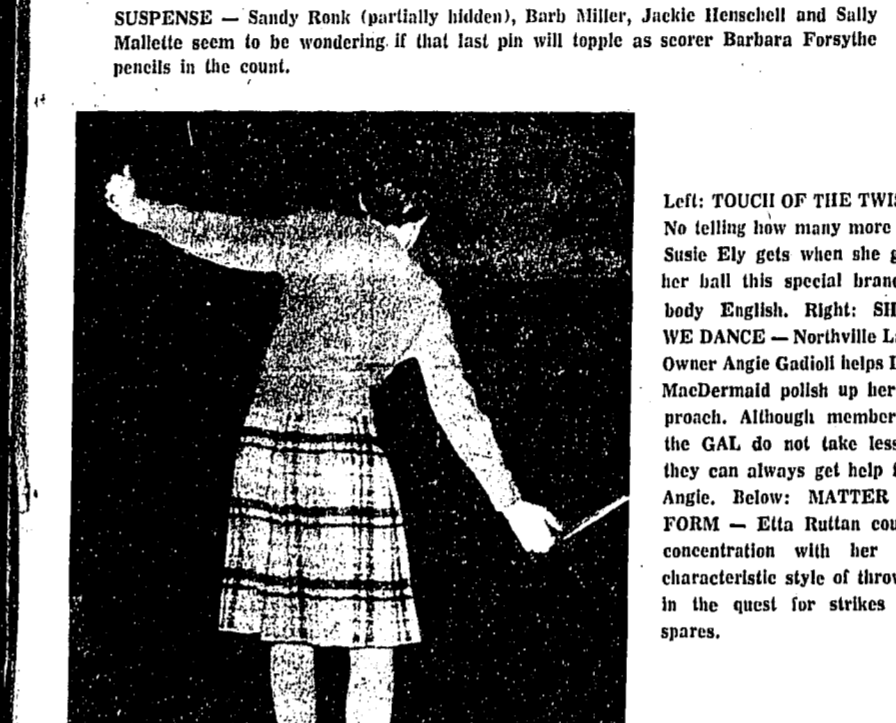

If you want to know where the girls are - where the high school girls are - on Wednesday...

THE NOVI NEWS

Thursday, January 25, 1962 Section Two - Page One

SUSPENSE - Sandy Ronk (partially hidden), Barb Miller, Jackie Henschel and Sally Mallette seem to be wondering if that last pin will topple as scorer Barbara Forsythe pencils in the count.

Left: TOUCH OF THE TWIST - Not letting how many more pins Sissy Ely gets when she gives her ball this special brand of body English. Right: SHALL WE DANCE - Northville Lanes Owner Angie Gaddell helps Lynn MacDonnell polish up her approach. Although members of the GAL do not take lessons, they can always get help from Angie. Below: MATTER OF FORM - Ella Rutan couples concentration with her own characteristic style of throwing in the quest for strikes and spares.

While the girls take charge of the business end of the bowling league, there is help when they need it from Mrs. Carolyn Neff and Miss Patricia Dorfman, teacher-sponsors.

WHY'S AHEAD? - Cheryl Hanley and Marlon Slens (seated) figure their team's pitfall under the watchful eyes of Diana Harrowood, business manager of the league's sponsors, and Mrs. Carolyn Neff, high school commercial teacher who is one of the league's sponsors.

Today's demand for progress
has led to a true comprehension
of God's stress and all-powerful
will be stressed Sunday at
Christian Science church ser-
vice.
Highlighting the Lesson Ser-
mon on the subject of "Truth
is the Golden Tread from Psalm
119: "Thou art near, O Lord,
and all thy commandments are
truth... The word is true from
the beginning."
One of the citations to be
read from "Science and Health
with Key to the Scriptures" by
Mary Baker Eddy states (Fred
vii): "The time for thinkers
has come. Truth, time-honored
doctrines and time-honored sys-
tems, known at the portals of
humanity, contentment with the
past and the cold conventional-
ity of materialism are crum-
bling away. Humanity is no
longer the stepping-stone to
faith."

from the PASTOR'S STUDY

By the Rev. James F. Andrews
Full Salvation Union Chapel

So long as one remains clothed in a physical body and surrounded with a material world it seems necessary to have some outward form in connection with the soul's religious expression; but it should always be remembered that God's life in the soul is primary and that in its expression all outward form in itself is secondary and relatively unimportant. Because of a recognition of this self-evident fact the New Testament has sought purposefully to avoid any exact forms or ceremonies to be perpetually observed in the Christian Church.

The life of God, beating in the souls of men, will always seek expression and so long long as a materialistic environment surrounds the souls of men that expression must be clothed in outward form; but that outward form should be determined by the spontaneous leadership of the life of God seeking expression rather than to attempt to standardize a fixed ceremony for such expression. No truth in the New Testament can calmly be inter-

READERS SPEAK:

On Federal Aid, Novi Schools

To the Editor:
To the School Board of the Novi District, Members Am-
binder, MacBride, and Fried-
As members of the School Board, representing the tax payers of this school district, you voted for Federal Aid to Education.

Do you believe that we cannot support our own schools? That the tax payers of this district are so disinterested in the education of our children that we would deny them a sound and practical education? As a taxpayer, I resent this! You have not given us a chance. In the last election, when Mr. Fried ran for his position, he campaigned against the millage increase. Come now, all conscientious tax payers realize that our schools need our support. Perhaps Mr. Fried, you are in favor of deficit spending and that our plunging our school into debt is sound administration?

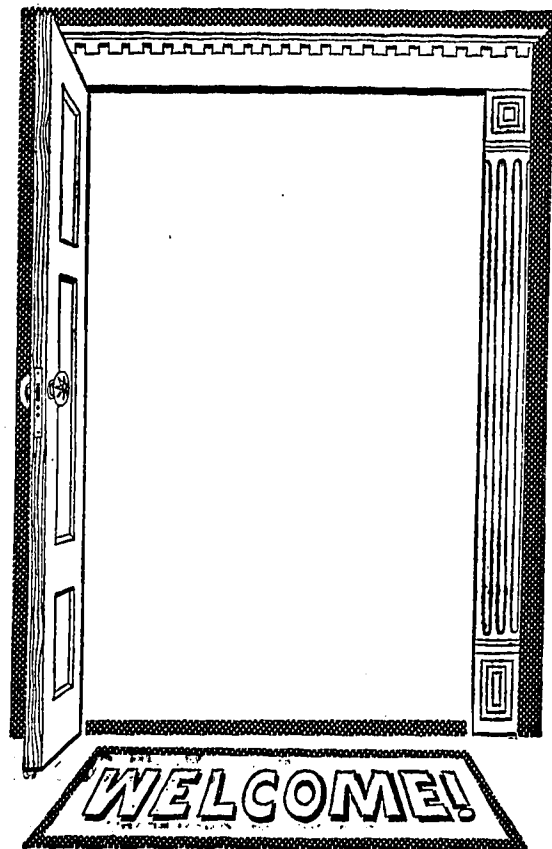

Evidently, those voters who supported you also believe in deficit spending and unsound administration. Tell me, what was your intention when you told us you did not need our money to run our schools? From what source did you intend to draw the necessary funds to operate our schools? I realize that there is a fund set aside for the future building of a Junior High School, which we are very fortunate to have. When you ask for another millage to build the Junior High School, and we ask you what has happened to the fund that was already set aside, what will be your answer? You will have given us our money. Our schools cannot operate without funds and remain sound. This is what you told us last year, is it?

It is my sincere thought that instead of a millage increase, we need a new and more sound administration, members on our board who have confidence in our conscientious tax payers, who are not being in deficit spending and who will give us a chance to prove that we will support and cooperate with a board which will provide a better administration and also a sound and practical education for our children. If Federal Aid to Education is offered in this district, Mr. Fried, Mr. Ambinder, and Mr. MacBride, why must you ask us to support our schools, let us wait and let the government do it for us!!! The support goes to those board members who rejected the Federal Aid to Education proposal. Mr. Taylor and Mr. Harlin. A Conscientious Tax Payer

To the Editor:
Dear Tax Payers:
It is a very distressing situation for many years has existed in this district which is the education of our children, who realize that a growing community must support an extravagant school administration because such a program will force tax payers to seek Government aid in supporting our schools, whose parents installed in her not the responsibility of her children's education belongs to her not to the government, which places this obligation on the wrong shoulders.

She believes that her parents accepted their responsibility and should not be forced to do it again. She sincerely wants her children to have a firm religious background such as her husband and to be proud of their country and most of all to fight for what they believe! The other day I received a call and was told that "I am persecuting Christ again!" This prompted this letter... I am this mother, and because I believe this is the way I want my children to be educated, I am called a bigot, prejudice, etc. Mrs. Claude Earl 4070 10 Mile Rd., Novi, Michigan

SCHOOL BOARD
MINUTES**

The regular meeting of the Board of Education was called to order by the president, Dr. Ambinder, at 8:10 p.m. on Wednesday, December 13, 1961.

Present were Dr. Ambinder, Mr. Taylor, Mr. Heslip, Mr. Fried, Mr. MacBride, Mr. Galt, and a group of interested citizens.

It was moved by Mr. MacBride, and seconded by Mr. Fried that the secretary's minutes be accepted as presented. The motion carried.

The treasurer's report of the fund balances was read and accepted.

The superintendent contacted the original architects, Colvin, Robinson and Wright, on the problem of heat loss in the 1961 addition.

The school board minutes will be published after they have been approved by the board of education.

The final payment on the Secondary School Property is payable on January 15, 1962.

It was moved by Mr. Fried, and seconded by Mr. MacBride that a security bond be secured from Mr. Hadley Eschenet covering the Supt., Principal, 2 Secretaries and 2 lunchroom personnel. The motion carried.

Dr. Tom Stone, curriculum consultant, reported on his work with the Novi Teachers. The teachers are using books and film strip from the Wayne State university, these materials have been made available by Dr. Stone. An experimental workshop for 5th and 6th grades at the Orchard Hills school is being developed. This was made possible through a grant from the Ford Foundation.

It was moved by Mr. Fried, and seconded by Mr. MacBride that the partition be removed from the library in the 55 addition, restoring the library to its original size. The motion carried.

It was moved by Mr. Heslip, and seconded by Mr. Fried that the board give the Superintendent authority to accept the lowest bid to complete this work. The motion carried.

Wayne State university will schedule a 2 hr. college credit course here at the Novi School if 25 or more students are enrolled. This course, "Local School Curriculum Planning," would be taught on Mondays at 4 p.m.

It was moved by Mr. Fried, and seconded by Mr. MacBride that the Con-Con resolution be adopted with a few minor changes being made. The motion carried.

It was moved by Mr. Fried, and seconded by Mr. MacBride that a tape recorder be purchased, the price not to exceed \$200. The motion carried.

It was moved by Mr. Heslip, and seconded by Mr. Fried, that a food freezer be purchased for the kitchen at the Orchard Hills school. Also if there is enough money in the lunch fund at the end of the school year the money for this freezer will be reimbursed to the building and site fund. The motion carried.

It was moved by Mr. Heslip, and seconded by Mr. Taylor that the discussion of purchasing an electric mimeograph machine be tabled until next month. This motion did not carry.

It was moved by Mr. MacBride and seconded by Mr. Heslip that an electric mimeograph machine be purchased, priced approx. \$350. Mr. Heslip asked for a roll call vote on this: Yes vote: Mr. Fried, Mr. MacBride and Dr. Ambinder. No vote: Mr. Heslip and Mr. Taylor. The motion carried. Mr. Heslip objected to purchasing from building and site fund.

Mr. and Mrs. Lyons have asked for the board's cooperation in erecting a fence along the south and part of the east boundary of the school property. The superintendent was instructed to contact Mr. and Mrs. Lyons and other property owners that might be on our eastern property line and to bring his findings to the next board meeting.

It was moved by Mr. Taylor, and seconded by Mr. Heslip that the bills be paid as presented. The motion carried.

General Fund, \$4,888.95; Building and Site Fund, \$468.81; and Lunch Fund Bills: \$1,145.31.

The superintendent was asked to contact our suppliers to see if some arrangements can be made so that we can take advantage of discounting our monthly bills.

The meeting was adjourned at 11 p.m.

SPEAKING for the Record

James W. Bushong is the superintendent of schools at Grosse Pointe, a man who many residents may remember as speaker at the dedication program for Northville high school two years ago.

He is a good friend of Northville's Superintendent Russell Amerson and described by Amerson as an outstanding administrator, a man of deep conviction, extremely steady and not easily shaken by adverse events.

Last week he spoke to members of the Northville Rotary club at the annual Ladies' Night banquet.

His subject was Russia.

And the events that Bushong observed during his months' stay there as part of a study conducted by a group of educators obviously stirred his very soul.

Bushong has a message for every American and he tells it with an urgency of a man who is deeply afraid that his audience might not listen hard enough, might not believe, might become too complacent, and finally, might not care.

"We must be determined REALLY that we would rather be dead than live!" Bushong said.

More than any super-bomb, Bushong said that he feared the Russian social system.

"Not because it is superior to ours — it is not. Their teachers do not compare to ours — they are forging a chain of half-face lies that are poisoning the minds of the students. He noted, ironically, that education — normally used to free the mind and permit it to make its own conclusions — is being used effectively to accomplish the very opposite.

Bushong quoted from Russian text books written in English in which the students translated the lessons into Russian.

Typical sentences included: "The struggle for peace by the Soviet Union is carried on all over the world"; and another, "Life of workers in capitalist countries is very hard."

One story for translation was entitled "The True Picture of Denmark, Michigan." It described Denmark as a city covered by the Ford Motor company. The lesson said that "Ford controls all jobs, movies, owns the newspapers, determines the hour of retirement for people of the community and employs conveyor belts of such high speed that men are greatly overworked and that at least one man is killed every day, but this is unimportant because Ford controls the press."

Life in Denmark was described as an "inferno of fear."

Bushong spoke of religion in Russia. He called it a "religion of hate." He said that all school lessons were concluded with "and these are the words of Lenin."

"They have substituted Lenin for God — even the children sing 'Lenin loves me this I know for the party tells me so,'" he commented sadly.

But Bushong saw one ray of hope — beyond our ability to stand up against the Russian propaganda machine.

"If anything ever brings world peace, Christianity will lead the way," he said.

To support this Bushong described a Baptist church service — one of very few in a large Russian city he visited. He said that the church was filled to capacity and that some people even leaned through the windows to hear the services.

As he left the church with several other American educators, he said the Russians lined up outside and cheered "viva America" and "pray for us."

"They reached out and grasped our hands warmly and wept. And my religion was bolstered in a God-less country by people I couldn't understand."

But Bushong noted sadly that the young people were not at church. "They laugh at the capitalist idea that there is a God," he concluded.

James W. Bushong — "Better dead than red."

Michigan Mirror See Busy Session

Election year in Michigan, usually brings forth an unpropitious non-controversial legislative session, but there are several indications that 1962 will be an exception.

Pressure to finance expanding government operations with increasing revenue income grows hard and continuously. Attempts to remove the \$71.5 million-plus deficit also are being made.

Gov. John B. Swainson has indicated to the Republican-controlled legislature he is ready for a fight over ways to increase revenue.

The fight in the legislature this year could well center over who will take credit during the fall campaign for whatever is done.

One story for translation was entitled "The True Picture of Denmark, Michigan." It described Denmark as a city covered by the Ford Motor company.

Typical sentences included: "The struggle for peace by the Soviet Union is carried on all over the world"; and another, "Life of workers in capitalist countries is very hard."

Bushong quoted from Russian text books written in English in which the students translated the lessons into Russian.

Typical sentences included: "The struggle for peace by the Soviet Union is carried on all over the world"; and another, "Life of workers in capitalist countries is very hard."

But Bushong saw one ray of hope — beyond our ability to stand up against the Russian propaganda machine.

"If anything ever brings world peace, Christianity will lead the way," he said.

To support this Bushong described a Baptist church service — one of very few in a large Russian city he visited.

As he left the church with several other American educators, he said the Russians lined up outside and cheered "viva America" and "pray for us."

"They reached out and grasped our hands warmly and wept. And my religion was bolstered in a God-less country by people I couldn't understand."

But Bushong noted sadly that the young people were not at church. "They laugh at the capitalist idea that there is a God," he concluded.

Several other changes in Swainson's organization since he took office gave him the beginnings of a strong machine for the November election.

Romney's entry into the election picture raised hopes of fear on the backs of Democrats. Many thought he never would run and indications they have strong doubts that Swainson or any other candidate they might have could beat him.

The American Motors Corporation which have been of use to a delegate to the Con-Con might give him a strong edge for the fall campaign.

It will be his aim in the coming months to take credit for the document presented to the legislature.

Michigan motorists now driving on 80 miles of freeway linking 12 of the state's largest cities. This is among the reasons why the state highway department ranks among the top in the nation.

I wish someone would see this idea through the storm of publicity which is bound to arise so that this demonstration becomes part of the driver instruction course which have been of such value in reducing the highway carnage which occurs daily.

Very sincerely yours,
Sander Mudd, M.D.

(NOTE: Below Dr. Mudd asks to his comments last week on steady dating by teens.)
Dear D.M.:
You should write more articles like the last few on adolescents. One area in particular? You didn't say anything about the fact that it is a very important area. Lots of teenagers get into trouble just because they go on dates and get liquor and then do all sorts of things they would never do otherwise. I'd like to see your views in print.
"Gary"
Dear Gary:
The use of alcohol has been so long associated among the young people of the world that there is no doubt it is here to stay. Its consumption can neither be legislated nor taxed out of existence, nor would it, in my opinion, be a desirable thing to do so. Alcohol has been called by some very recently "the normal tranquilizer" — and it is a very good one indeed. Much of the efficacy of the various forms of former was to be found in their alcoholic content.
So there is little doubt that alcohol is here to stay. It is a useful and important function in people's lives. But like fire, its use must be controlled. The most stores of unutilized energy, are prone to excesses of all kinds. And alcohol may be one of the most powerful. Alcohol is a depressant and the first of the clinical functions of the mind to be dissolved in it is regimen. When this occurs in an individual, adolescent or adult, whose basic personality has defective control of the mind, who only superficially appears to be like the rest of us, then we can expect displays of the most primitive and savage kinds of behavior from time to time.
I feel that adolescents require to be taught how to use alcohol appropriately, just as when children they had to be taught how to light matches without burning themselves and how, somewhat later, they have to learn to drive cars without injuring others.
I think it might be desirable for the schools to take the responsibility of teaching adolescents the effect of alcohol on the human being. In medical school we were required to experience the effects of various drugs upon ourselves. This was a very valuable experience. I think, for example, that having demonstrated to them the effects of alcohol on the body of just one drink would go far in getting adolescents to grasp more fully the significance of the effects of alcohol on the body. I wish someone would see this idea through the storm of publicity which is bound to arise so that this demonstration becomes part of the driver instruction course which have been of such value in reducing the highway carnage which occurs daily.
Very sincerely yours,
Sander Mudd, M.D.

Roger Babson Era of Big Labor Unions

Babson Park, Mass., One of the big developments in the Lake Wales, Florida is the Indian Lake Estates, which was started by Leon Ackerman. It includes 7,000 acres with hard roads, 6,500 residential lots, and a beautiful waterfront.

The original promoter "bit off more than he could chew" and either sold out or went into partnership with an Alaskan Company which was to furnish the money to complete the project. The money was not forthcoming, and the project was abandoned.

This probably means that the big money is going to be made by the banks.

The big money is going to be made by the banks.

MUTUAL FUNDS • STOCKS • BONDS

IT'S WONDERFUL TO BE FREE OF FINANCIAL WORRIES AS YOU GROW OLDER. There is a way to do this. May we discuss it with you?

RAY WESTPHALL, Representing Schmidt, Ellis & Associates, Inc. MEMBER DETROIT STOCK EXCHANGE 125 E. Main Northville MI-92130

These funds are organized by certain famous lawyers under the laws of Delaware. These were the findings of what are now known as "holding companies" but they were unsupervised. Among the most prominent were Haverly (sugar), Harriman (railroads), Rockefeller (oil), and Duke (tobacco).

Following these, the great life insurance companies which had money to invest in every market and "un-supervised banks" became powerful.

The third great era of combining and accumulating large aggregates of capital, in which the small investor could buy shares, was that of the Mutual Funds.

These have grown greatly during the past few years since they have been sponsored by many of the best New York Stock Exchange houses which need a market for all over the country. Before the Mutual Funds became popular, the stock exchanges houses could not sell more than one or two shares of a company.

These funds now control \$24,000,000,000 in stocks and bonds. As their salesmen sell mutual shares, the Mutual companies buy stock to protect the shareholders. As the Mutual companies sell, the Mutual companies must sell stocks.

Meanwhile, labor unions, with membership dues coming in every month, are building up large reserves and may soon become the leading banks of the U.S.

The finance committees of these labor unions have two objectives: (1) labor unions are the only corporations now exempt from the anti-trust laws; (2) labor unions have some advantage in connection with income and other taxes. Whether government ownership or something else will follow the labor unions, we do not now know, but history shows that "every dog has its day."

Lahli pointed out that Clark is merely sending Clark his monthly certified public accountant's fees as called for in the charter. Attorney David Uley explained that if he were asked, as the city's bookkeeper, he could not perform an annual independent audit, because he would be checking his own figures.

Lahli replied that he had been under the impression that Clark was no longer the city's bookkeeper. He explained that although Clark had originally been bookkeeper, he had helped train Mrs. Marie Young to take over his duties, and was now doing nothing but the annual audit of the city's regular bookkeeping, and was not receiving for his annual report.

The National Foundation, she added, has the dual roles of the treasurer and financial assistant. Its programs are aimed at both preventing the diseases, and providing aid and assistance to the victims of the diseases.

Mayor Donald Brooks reported that Saturday the city manager had the most progress yet in his year-and-a-half-long struggle with the Walled Lake school board to obtain school bus service on Beck road.

He explained that all but two board members spent about two hours Saturday afternoon at the railroad crossing on Beck road that has served as the main bone of contention in the school board's recent refusal to establish the bus service.

Trainmen from the railroad arrived and the city by running switch engines up and down the track to demonstrate visibility at the crossing, Brooks said. He added that the board voiced the least objections to running the bus from north to south.

The board is now waiting for a written report from the railroad spring term. The maximum distance from the track that trains will be parked, he said. He added that the board has agreed to train 600 feet, but the trainmen said they could only stay about 200 feet away from the road during their switching operations.

In other action, the council might see to investigate the possibility of tax exemptions for retirees who live on a pension. Councilman Oscar Simms proposed checking into the costs and legality of such exemptions.

Each council member agreed to help find how many persons in the city would be affected in order to determine the cost or loss of tax revenues, and Uley was directed to study the legality of the proposal.

Receipts from ticket sales (\$1,500, \$150 down) will be added to the March of Dimes, Mrs. Marchetti said.

Dance music will be furnished by John Clark and Tom Thatcher, she said, and recording artist Tommy Fontana will entertain.

Mrs. Marchetti added that teenagers from the surrounding area are invited to the semi-annual event, including recording artist Tommy Fontana will entertain.

Tickets will be available at the door, or can now be purchased at both school offices or from P-T-A board members. Prices include jacket shirt for the boys and good dresses for the girls, she said. Refreshments will be served.

NEW TRUCK — Village Administrative Assistant Harold Achley stands beside the latest addition to Novi's stable of DPW trucks. The 11-ton capacity dump truck is the largest made by Ford. It cost the village approximately \$5,000, and will be used for routine DPW work, such as road sanding and gravel hauling.

Proposed rezoning of Councilman H. Salvo's Walnut Hills and Munro subdivisions brought objections at Monday night's Novi village planning board hearing.

Objections came from residents of Munro subdivision, located on the southeast corner of 10 and 11 Mile roads. They questioned the board's plan to hold a public hearing next month on the rezoning of Munro from its present agricultural district to a suburban residential district.

Planning Board Vice-Chairman Don Fuller explained that village Building Inspector Harold Achley had suggested rezoning of several subdivisions to provide protection of the residential character of the area.

Although Achley hadn't specifically mentioned Munro subdivision as among those he thought should be rezoned, Fuller said, the board had included it in the rezoning plan.

Fuller stated that the board had included it in the rezoning plan.

Willowbrook subdivision number four, a 104-home development which will be adjacent to the existing Willowbrook number three. LeBost's plans, as presented by his engineer John McMahon, of McMahon Engineering, Detroit, call for development and land just east of Willowbrook Lane into a 104-lot subdivision. All lots would be of 10,000 square feet or larger size, and would be served by three roads with two cut-outs each.

The development would begin at 10 call for development and land just east of Willowbrook Lane into a 104-lot subdivision. All lots would be of 10,000 square feet or larger size, and would be served by three roads with two cut-outs each.
