

# SPEAKING for The Record

By BILL SLIGER

There's a chimpanzee down at a Wayne State university laboratory who has become an adept cigarette smoker. He's been taught to inhale and now enjoys the habit at the rate of a pack-a-day. He's also developed lung cancer.

And if we want to adopt an ostrich attitude on the subject, we can pretend there's no connection between the two aforementioned facts.

I'd also suggest that you don't read "Cigarette Smoking and Cancer," a new booklet issued by the American Cancer Society.

The facts aren't pleasant. Certainly no cigarette advertisement can boast: "smoke our brand, they're good for you."

It isn't my intent to spoil the pleasure a confirmed cigarette smoker gets from "dragging a tag." I have my own problems in this regard. Cigarette smoking is a personal habit and the risk involved is the option of the individual.

But I believe the risks should be made perfectly clear to our teenagers so that they may reach an educated decision.

This is the position the American Cancer Society has taken. A filmstrip, "To Smoke or Not to Smoke" and a movie, "Is Smoking Worth It?" have been made available by the Society and shown in thousands of high schools (although not locally, I am told).

The number of cigarette-smoking teenagers is unbelievable.

An administrator of our local school system estimates that 20 per cent of the youngsters in grades nine through 12 smoke cigarettes.

An official of the American Cancer Society would like to bet him a package of chewing gum he's wrong.

Here are the figures gathered by the Society in a study taken at Highland Park high school:

- 12th grade—50.60 per cent;
- 11th grade—45.50 per cent;
- 10th grade—40 per cent;
- grades 7 through 9—over 20 per cent.

And these youngsters are not "smoking one out behind the barn." They're smoking at least one pack of cigarettes per day.

One million of these youngsters will die from lung cancer. That's not a figure at random—it's an inescapable statistic.

Here are a few more:

- Lung cancer is rare among non-smoking males and practically non-existent among non-smokers living in rural areas;
- 41,000 Americans die yearly from lung cancer: 35,500 men, 5,500 women—10 times the rate of 30 years ago;
- the likelihood of death before 65 for men aged 35 is nearly twice as great for heavy smokers as non-smokers;
- cancer of other sites besides the lung is far higher in cigarette smokers than non-smokers;
- lung cancer is increasing more rapidly than any other cancer in the body—paralleling the consumption of cigarettes;
- lung cancer death rates are lower in ex-cigarette smokers than in persons who continue to smoke cigarettes, and except for individuals who have prolonged occupational exposure to certain dusts, fumes, or gases, lung cancer is rare in persons who have never smoked cigarettes.

The American Cancer Society believes that cigarette advertising today is directed to a large degree at teen-agers (65 per cent of the TV cigarette ads appear before 9 p.m.).

But take away the pretty girl walking beside a rippling stream, the rugged mountain climber scaling a peak, or the handsome athlete rounding third...

...and you still find more than 10 cancer producing agents in cigarette smoke.

## Employers Rank Drop-Outs Low

Babson Park, Mass.,—In an important study on the part of employers, many workers feel that their job is of no real importance. They think of it only as a source of income, and they don't care much whether they do their best or not.

Naturally, this attitude doesn't afflict all workers, but I do think that far too many employed men and women consider their jobs as no more than a means to the end of just plain living. If anything should go wrong with that job, they would quit.

So, if you happen to be the man making that small switch, don't think that you are less important than the big-salaried engineer. If you are not responsible on your part of the team, it won't do the engineer any good to be brilliantly responsible on his part of that team.

A good many young people today are not naturally aware of the necessity of discipline, and unfortunately their families and school teachers often fail to make this need plain to them. That is the reason for the innumerable dropouts from junior high schools and high schools throughout the nation.

If these children have no sense of responsibility toward their own education, it is not likely that they will assume any when they go into the business world. Such children grow into adults who consider their jobs of no real value, who do not take the meaning of their work seriously.

Let me warn the parents of today's youngsters that the dropouts from junior high schools and high schools throughout the nation are not likely to be the ones who will be the backbone of our country.

In an automotive company, for example, all steps are equally important. Manufacturing of the various materials, assembling of the parts, painting, cleaning, and showing and demonstrating. Necessary and significant, too, is the inspection of each step in the complicated process of taking an automobile or truck from its initial stages through the final stages of production.

Let me warn the parents of today's youngsters that the dropouts from junior high schools and high schools throughout the nation are not likely to be the ones who will be the backbone of our country.

### State Studies Delta Plan

Controversy over creation of a junior-senior year college in the Saginaw Valley rages on despite a blue ribbon committee's recommendations.

Now the interests seeking some method of providing the senior college facilities for students at Delta College are hoping that a blue ribbon committee appointed by Gov. George Romney will solve the problem.

A legislative committee which undertook an extensive study of the needs of the Saginaw Valley population last summer thought its conclusion was a valid one. It sponsored and gained House approval of a measure to create a two-year state-supported institution in the area.

The college would have been established in the same way Grand Valley College was created two years ago, with an initial \$1 million coming from individual and group contributions.

At Romney's urging, however, the Senate refused to approve the House-initiated bill. Romney said he wanted his committee on higher education to come up with a comprehensive plan for the state rather than to continue patchwork development of college units in single areas as the need arose.

Eventually, all 600,000 copies of the map printed this year will find their way into the glove compartments of cars throughout the nation, and many of these will return to Michigan as the heavy tourist season approaches.

Swindle schemes designed to rob senior citizens of their life savings are many, warns Gary D. Hansen, director of the Michigan Commission on Aging.

Hansen urges retirees "to be on the alert against promoters and salesmen who offer 'get-rich-quick' investments and 'cures' for various diseases, such as arthritis.

Among the major frauds being perpetrated on senior citizens are:

- TB is not licked although great strides in detecting and curing the disease have been made in recent years, says State Health Commissioner Albert E. Heustis.
- Still have a lot to be concerned about," Heustis said. "There were 2,314 new active and probably active cases of tuberculosis reported in Michigan last year."
- Since the introduction of nursing in the early 1950's, however, the death rate from tuberculosis has been dramatically reduced. As a result, the length of hospitalization has also been reduced. These most patients to return home after a relatively short period of isolation and treatment in sanatoriums.
- New advances in treatment are continuing, Heustis noted, with the prospect of reducing the number of beds needed for tuberculosis care will continue to decrease, but this is no indication that the disease is on the way out.
- We need a new yardstick to measure the importance

## School Board Okays New Screening Plan

Some of Novi's pre-kindergarten youngsters will have a sneak preview of school late this summer.

The youngsters will be participating in a screening program approved last week by the board of education.

Superintendent of Schools Tom Culbert explained that the one-week, pre-kindergarten session scheduled for this summer is being set up "to observe and evaluate" the youngsters.

He stressed that it is not the intent to exclude any child from enrollment. If he showed evidence of school readiness, rather, he added, the parents of children who are doubtful about the readiness of their child or who may not realize that in comparison to the group he will be attending in school, he is immature.

Pre-kindergarten youngsters not scheduled to participate in the screening program will be registered on Friday, May 24, at either the Orchard Hills or Novi schools.

Registration that day will be limited to those children with a birth certificate for verification of the child's birth date. Available for consultation that day will be the school nurse, kindergarten teacher and principal.

Parents are asked to bring a photograph of the child to the screening. The screening will be held from 9 a.m. to 1:30 p.m., last names L through Z.

Parents are asked to bring a photograph of the child to the screening. The screening will be held from 9 a.m. to 1:30 p.m., last names L through Z.

## Ambinder, MacBride Decline to Run Again

Bingham is a state production manager for State Protective Mutual. He has not held an elective office in the past.

Those wishing to file petitions for the two school board vacancies have until tomorrow (Friday) at 5 p.m. to do so in the superintendent's office.

All petitions for the three-year board positions must bear the signatures of 50 registered school electors.

Last day for voter registration for the June 10 school election is May 13. The township clerk will be at the township hall, that day until 5 p.m. to take registrations.

Both Dr. Walter Ambinder and John MacBride, whose terms expire this June, said this week that they would not seek re-election. MacBride is currently serving as board president; Dr. Ambinder, secretary.

## Youth Protective Members Plan Summer Fun for 300

Summer's drawing closer. And so is a new recreation program designed to keep the hands of some 300 Novi youngsters busy during the summer.

The program, sponsored by the Novi Youth Protective committee, will run for seven weeks, beginning the week of June 23.

On the agenda are classes in arts and crafts, canoeing, golf, physical fitness, swimming, and tennis. Also tentatively scheduled are field trips to ball games and for nature study.

Program registration is planned for the first week in June.

Committee officials note that registration will keep the amount of time which can be devoted to each activity.

Program limits will be set, according to a committee spokesman by "the amount of volunteer help we receive."

As of this week, the committee has employed a swimming instructor and a field day coordinator. The committee is still looking for an arts and crafts instructor.

Volunteers have been found to head the golf, softball and canoeing programs. Chairmanships in the other areas are still open.

Facilities the committee will be using for the program include Novi Township's beach, the community building and schools.

Bob O'Leary, Golf course and Kensington Park.

The committee has budgeted \$375 for the program—money earned last year by Youth Protective benefits. "It's a tight budget, the spokesman said, "but we feel we can successfully provide a program with it."

Plans are to close the program with a public swimming regatta and field day. At that time, the committee expects to summarize the accomplishments of the recreation program.

Co-chairmen of the program are Mrs. Allen Harris and Mrs. Richard Ritter. Other committee members include Mr. and Mrs. Charles Cometo, Earl Dorsey, Emory Jacques, Leon Drolet, Mrs. Frank Moberg, Mrs. Carl Rowley, Charles Stewart and Edward Vasch.

## Council Okays Raises For Police Department

Unanimous approval was given a record \$212,520 village budget Tuesday night following a public hearing.

Councilmen made no changes in the budget Tuesday.

In dollars, the budget is up \$24,820 over the 1962-63 budget with the general fund estimated at \$146,920 and the highway fund, \$66,000.

An increase in general fund revenues such as liquor license fees will offset increased expenses, holding the tax levy at five mills for the coming fiscal year.

Approximately \$8,000 of the total increase in the budget is earmarked for one additional salary for an administrative trainee and several increases.

Council President Joseph Crupi explained Tuesday night that the salary increases, particularly those in the police department, are part of a long-term plan to bring Novi's salaries in line with those in surrounding communities.

Crupi said that the council will try to start all policemen at \$4,000 a year, rather than at the current rate of \$3,200.

Our plan, he continued, is to give policemen \$400 a year in merit raises yearly, until they reach a top salary of \$5,200. After that, he added, police raises will be at the order of \$100.

Councilmen used the plan in determining police raises for the coming year.

Gilbert and Sullivan, will be granted \$400 raises. At the top, the police chief received a \$100 raise, bringing his salary up to \$6,000.

The council briefly discussed including provision for a police life insurance policy in the new budget, but decided to investigate insurance possibilities before taking action.

Currently, the village carries no life insurance on its policemen, but does provide a \$500 benefit for firemen.

It was pointed out that should the council decide to purchase police insurance, such insurance could be paid for out of a \$2,800 unimpaired contingency fund.

Other major budget increases include \$30,000 earmarked for engineering costs; \$2,000 for the legal fund to bring it more in line with costs. Another \$7,000 has been set aside for part of the village's share in the Oakland county DPW survey of Walled Lake sewer possibilities.

Expenditures

Administrative	\$ 79,200
Police department	58,120
Fire department	12,130
Highway department	200
Village hall expense	5,850
Unknown contingencies	2,050
Street construction	2,775
Engineering fees	7,000
Total	\$146,920

## Council Appoints Bailey 'Trainee'

Earl Bailey, a Novi policeman for two years, was officially appointed "administrative trainee" at a meeting of the village council Monday night.

Bailey will assume his new position as trainee under Harry Crupi, chief of police and building inspector, Tuesday at 8 p.m. in the community building.

Showing the slides will be Miss Lois Hall singing and playing her ukulele. Refreshments will follow.

The program will conclude with a presentation of a certificate to Bailey by Crupi.

Since the company had planned to open the dance hall tomorrow (Friday), the council set a special meeting for today at 7 p.m. in the village hall to act on the application.

The council did, however, approve an application for Walled Lake Park to transfer stock interest in its 1962 tavern resort license. The application was given council approval with the stipulation that, if a dance hall is begun at the park, beer and wine not be served on the premises during the hours teenagers are invited to visit the bloodmobile.

## Friends Plan Public Meeting

European slides will be featured at the Friends of the Library general public meeting Tuesday at 8 p.m. in the community building.

The program will conclude with a presentation of a certificate to Bailey by Crupi.

Since the company had planned to open the dance hall tomorrow (Friday), the council set a special meeting for today at 7 p.m. in the village hall to act on the application.

The council did, however, approve an application for Walled Lake Park to transfer stock interest in its 1962 tavern resort license. The application was given council approval with the stipulation that, if a dance hall is begun at the park, beer and wine not be served on the premises during the hours teenagers are invited to visit the bloodmobile.

## Hospital Drive Halts Briefly

The Novi portion of the Huron Valley Hospital Association's fund-raising drive has come to a temporary standstill.

The professional fund-raisers conducting the drive said this week that they were instead concentrating all efforts on raising money in Milford where the proposed 100-bed hospital will be located.

The plan, according to a campaign spokesman, is to return to the Novi area after the campaign "gets rolling" in Milford. At that time, a campaign will also be set up in Walled Lake.

To date, \$3,104 has been raised in the Novi drive which began March 2, according to local Chairman Mrs. Florence Harris.

No announcement of amounts raised in the entire drive will be made, a spokesman said this week, until 15 to 20 per cent of the \$75,000 goal is reached.

However, the spokesman added, pledges are coming in with a high level of giving, a low level of refusal being evidenced.

## Bloodmobile In Northville

The bloodmobile will be at the Northville Methodist church, 189 Dunlap, from 9 to 5 p.m. today and tomorrow.

The bloodmobile will be at the Northville Methodist church, 189 Dunlap, from 9 to 5 p.m. today and tomorrow.

## 1963-64 Budget

Revenues

Property taxes (current)	\$ 50,220
Property taxes (delinquent)	3,600
Liquor license fees	3,000
Sales tax diversion	44,600
Intangible taxes	7,000
Justice court fees and fees	20,000
Licenses and permits	9,000
Highway fund	60,000
Other sources	500
Total	\$212,520

THE LEADS in the two-night performance of "Patience" will be played by (bottom to top) Gail Hartner, Christine Boretli, Jim Drew and Dave Lane.

"Patience," that gay and melodious opera written by Gilbert and Sullivan, will be presented by the Northville high school music department in the auditorium tonight and Friday at 8 p.m.

Principle parts will be played and sung by Gail Hartner, Christine Boretli, Marcia Clum, Gretchen Schmelzer, Nancy Christensen, Donna Williams, Diana McIsaac, Sue Hicks, Jim Drew, Dave Lane, Robert Turnbull, Larry Dear, Ralph Kornd and William "Cargo" Linda Line will play the piano accompaniment.

Original scenery for the opera has been designed and painted by Mr. Roy Peterson, Mr. O. F. Reng, Anna Martin, Sharon O'Connell, Sally Mallette, Micki Lonn, and Stan Schief. Miss Pat Dorrian is in charge of costumes.

Peggy Moore and her committee will do the make-up, while James Riley and David Chalut will handle the lights. The sprightly satire on the aesthetic rage of the eighties presents a "Fleishy Poet" and an "Idyllic Poet"—Bunhorne and Grosvenor, who are rivals for the affections of the Milk Maid, Patience. A train of handmaid ladies and their former mistress, the Milkmaid, are also featured.

Officers of the Dragon Guards complete the picture.

## Swim Club OK's Construction Bid

Members of Northville's new swim club voted last Thursday to go ahead with plans for an olympic-size pool and awarded a contract for construction of the pool, wading area and bath houses at the city water tower behind the high school.

The winning bid was \$60,000. Construction of the facility will get underway within two or three weeks with the pool opening planned for early July.

# Thieves Break In Dairy, Bowling Alley

Burglars broke into two Northville businesses early Sunday morning. Sites of the burglaries were the Guernsey Dairy at 125 Center street and the Northville Bowling Alley at 126 Center street. Approximately \$250 was stolen from the bowling alley.

Police said that the Guernsey Dairy and the Northville Bowling Alley were broken into early Sunday morning. Sites of the burglaries were the Guernsey Dairy at 125 Center street and the Northville Bowling Alley at 126 Center street.

Burglars didn't find any money in the safe and left a small change in a drawer untouched, noted police.  
 The burglars didn't find any money in the safe and left a small change in a drawer untouched, noted police.

**LOCAL SPEEDSTER** — One of the top sophomores on Central Michigan university's track squad this year is Tom Darling. During the indoor track season, he posted a .51:1 440-yard dash time, best on the team. He's expected to do even better outdoors. A graduate of Northville high school, Darling is the son of Mr. and Mrs. Floyd Darling of 26510 Taft road, Novi.

**OUT OF THE PAST**

ONE YEAR AGO  
 May 18, 1962

The Wayne county board of supervisors placed Northville representatives on the following committees: Township Supervisor George Clark, chairman of the library committee; Mayor & M. Allen, member of the Wayne County Training school and parks and parkways committee.

**PANORAMA**  
 Chris Flynn received his badge as an official member of the Northville police department.

**THE BID OF THE 'A'**  
 Asphalt company of \$8.816 to pave East-High-Elim and Walnut streets was almost \$5,000 less than the estimate for paving by city Engineer Harold Penn. The street will be paved by the 45 cent assessment method.

**THE NOVI ROAD-SOUTH MAIN STREET CONNECTION**  
 Northville city planners last February was turned down by the Wayne county road commission not feasible, it was revealed Monday. The plan, which would extend South Main street northward from a point at Park Place to Novi road, north of the Eight Mile road cut-off, would present too many traffic operational problems, county officials stated.

**FIVE YEARS AGO**  
 May 8, 1957

Mrs. Arthur Carlson was named Northville's "Citizen of the Year" Monday night. The award was presented at the annual Michigan Week Dinner by American Legion Commander James Madigan.

# SPEAKING for The Record

By BILL SLIGER

Relocated Eight Mile road, the Novi road entrance into Northville and Henry Center street traffic have become a nightmare to local officials. The five-year-old project has been called an engineering folly — and worse.

Monday night the city council learned that the Oakland County Road Commission also takes a dim view of the arrangement.

(It must be with some embarrassment. Oakland road authorities approved the original plan, although it was designed and installed by the Wayne County Road Commission).

At any rate, a letter from the Oakland road commission to their Wayne county counterparts was read to the council here Monday. It prompted the council to call a special meeting to review the entire problem.

Here are some of the proposals by Oakland: — remove stop signs for east and west bound traffic at Center street on the 8 Mile road cut-off; — remove the stop sign on Center street at the old 8 Mile road intersection;

— relieve the sharp curve on Novi road immediately east of Novi street and provide additional warning, such as flashers, for southbound Novi road traffic;

— determine method whereby southbound Novi road traffic need not be delayed by northbound Novi street traffic;

— either widen the section of road that is common to both Novi road and Novi street (at the entrance to the cut-off) to four lanes or rebuild the section with a median and two lanes in each direction;

— consider removing existing stop sign on relocated 8 Mile road for east bound traffic where it intersects Griswold and install it on Griswold so east bound traffic on old 8 Mile must stop;

— urge Northville officials to consider removing all parking on North Center street south of the relocated 8 Mile road.

The Oakland county letter pointed out that surveys prove there is several times as much traffic using Novi road attempting to travel in a north and south direction as compared to traffic on the relocated 8 Mile road. Their letter, therefore, is aimed at alleviating this flow.

While it would be difficult to argue with any of its points, it would seem that the Oakland road commission is more concerned with its motorists than it is with Northville's pedestrians and general traffic congestion.

Even so, each recommendation could be considered worthy of trial if the Oakland authorities had placed more emphasis on the real solution — an alternate north-south route.

As every pedestrian or motorist who has ever crossed the Main and Center street intersection well knows, north-south bound vehicles of all descriptions and sizes must now be channeled through this busy commercial section.

The alternate route is now filled with tons of earth. Oakland authorities point to the possibility of connecting Novi road with Griswold again, but conclude that "this would be very expensive and does not seem necessary at this time particularly if the improvements suggested above can be made."

The traffic will become heavier, the problem more acute until the day an alternate route is provided.

Inquiries keep coming in: "what's happened to the Old Spring?"

The favorite watering spot for thousands of residents from miles around, Northville's spring is down to a trickle.

Nobody really knows the answer, but City Engineer Harold Penn can only conclude that it's the water table level. Whether spring rains (if they come) will return the flow is unknown.

## Roger Babson Cuban Crisis

Babson Park, Mass. — Although this week's column will be mailed from Babson Park, Mass. as usual, it is being written in Florida less than 300 miles from Cuba. Furthermore, select the six sons of the Kennedys have been staying much of the winter — is much closer to Cuba.

No one really knows how many Russian soldiers, technicians, and engineers are in Cuba. The estimates range from a low of about 2,000 to a high of 15,000.

When the Russians leave Cuba, they will be taking their "offensive weapons" but they will be leaving a large number of Cuban citizens who are classified as "defensive." These would be able to "blow up areas in Florida, but only on large American cities elsewhere.

Our Intelligence is trying to get the facts by photographing this in part a reason why certain camera company stocks sell at very much higher prices than in 1962.

Although we own permanent rights in Guantanamo on the southeast corner of Cuba, we are very difficult to help Cuba or any of the South or Central American countries. Russia knows this. President Kennedy also knows it. But does not know the real answer.

It is rumored that Castro has a tunnel under Guantanamo, and threatens, in case of war, to blow it up.

Khrushchev will not allow Castro to destroy Cuba, as the Russians are urging Mr. Kennedy to do. He knows that such an event could well start a world war. Further, more, President Kennedy knows that the American people would much rather lose Cuba than start World War III. Consequently, Russia seems to be "sitting in the driver's seat" at present.

I further believe that Mr. Kennedy wants to go to the voters in 1964. He knows "I keep you out of war."

"I also believe that if any Republican candidate for the 1964 election urges that we now "clean up Cuba," he will surely be defeated. Russia is thing to remember is that the Cuban people are 90% Catholic and that the Pope is working for a friendly settlement.

## NOTICE OF PUBLIC HEARING

NOTICE IS HEREBY GIVEN that the Northville Planning Commission will hold a Public Hearing on the 14th of May, 1963, at 8:00 P.M. at the Northville Township Hall, located at 16860 Franklin Road, Northville, Michigan, on the following proposed Amendment to the Zoning Map.

To rezone from an Ag, Agricultural District to an R-3, Mobile Home District, Items 1881b and 1881c, being a part of the S.E. 1/4 of Section 18, Northville Township; being located north of the Detroit House of Correction property and on the west side of Ridge Road.

A copy of the tentative Zoning Map may be examined on any week day during the hours of 1:00 P.M. to 5:00 P.M. until date of Public Hearing.

NORTHVILLE TOWNSHIP PLANNING COMMISSION  
Gunnar D. Stromberg, Chairman

## Michigan Mirror Planned Community Attracts Business

Officials in many Michigan communities are looking for the answer to an important question and planning specialists at Michigan State University think they have it.

The question, foremost in the minds of city planners today, is this: What does the business executive look for when locating a new plant?

Site, available labor and market proximity are obviously part of the answer, MSU experts say. There is much more to be considered, however. Many communities can provide these features so the competition is greatly cancelled out in these categories.

"Executives are placing more emphasis on recreation facilities, schools, shopping centers and other factors that contribute to the 'good life,'" the trouble with these nations is that they have no "middle class"; they are either very rich or very poor; and whether rich or poor, they are temperamental.

I repeat that we will not get into a war with Russia over Cuba. On the other hand, I know the Latin American people, and also to enter the Communist bloc. I know the Communist bloc, and especially Brazil. All these and the other countries of Central and South America are being visited. In fact, the Babson Institute once had a mission in Guatemala. I own a fine stone building which was destroyed by an earthquake. Fortunately, I was not there. I had been there. I would have been killed.

This executive wants the "fringe benefits" of a well planned community, according to Twardzik.

The MSU specialist contends that subsidies for new industry will not necessarily provide the drawing power the suggest that subsidies tend to attract unstable businesses, while the well-established industries, the kind all communities really want, are more likely to locate with an eye on these "fringe benefits."

Twardzik stresses the value of well-developed and managed open spaces; playgrounds, sports areas; community centers, parks, and swimming facilities. He also points to the value of well-planned and managed open spaces; playgrounds, sports areas; community centers, parks, and swimming facilities.

"We are making a continuing study of freeway signing," says Highway Commissioner John C. Mackie. "Our goal is to provide the motorist, whether he be a Michigan citizen or a visitor from another state, with signs that will help him to reach his destination quickly."

"All too many cases, local industrial efforts completely miss the idea that the town should be a pleasant place in which to live," he said.

In advising local planners, Twardzik's primary recommendation is that they view their community by asking themselves the question, "Is this the kind of town where strangers would want to invest and live?"

Bells will ring throughout the state on July 4 if Gov. George Romney has his way. Calling for a slight change from the traditional fireworks or sounding on the anniversary of Independent Day, Romney hopes civic leaders will

join in getting bells chimed in every church, government and school building simultaneously. From May 18th through May 23rd, Wixom will be celebrating Novi, however, has chosen to participate in only one facet of the annual observance: Government Day schools.

That day, the village will be bubbling with enthusiasm as entertaining the mayor of Wixom, Robert E. Teifer, Sr. He'll be greeted at 9 a.m. at the village hall, served a continental breakfast courtesy of the ladies of the Methodist church, told about local government and shown the local

An important part of Novi Mayor's Day agenda in Novi will be a tour of the prize-winning Erwin Farms of Novi and South Lyon.

Earlier, the farms were given a top award in the region at Michigan Week contest for the development of controlled atmospheric storage facilities at the Lyon township farm, located on Silver Lake road just west of Pontiac Trail.

After stopping for a lunch break at Rosewood restaurant the visiting mayor will be escorted to the afternoon tour. Stors planned in Brookfield Farms, General Fillers Incorporated, Novi library and Hall Lake casino.

From 4 to 6:30 p.m., "Peller" will be entertained at a cocktail party given by Chairman Mrs. Florence Harris in her home. He'll then be escorted to a smorgasbord dinner in the community building, sponsored by 17 local civic groups, and a square dance.

In Wixom, festivities are planned throughout the week. Days there, as throughout the area, will be devoted to Spiritual Foundations (Sunday), Government (Monday), Hospitality (Tuesday), Livelihood (Wednesday), Education (Thursday), Heritage (Friday) and Youth (Saturday).

Monday, David J. Johnson, president of Sparks, will be welcomed by city officials and given breakfast at the Chuck Wixom Motor Club.

He'll then watch a flag ceremony at city hall, tour local places of employment and patronize the Novi Motor Club.

Highlights of the week-long celebration will include the 10-day and open house at Wixom Elementary school Thursday.

Wednesday, senior or retired citizens will be meeting at 1:30 p.m. at the city hall and will then tour Ford Motor company and be guests at a tea at Handling Equipment.

All senior citizens interested in participating are asked to call city hall as soon as possible.

Chairman for the Wixom celebration is Mrs. Pearl Willis, city clerk.

Heading the committee for Spiritual Day is Marvin Wagner. Other chairmen include Government Day, Mrs. Vern Spencer; Mrs. Joseph Stankin and Marc Puccio; Livelihood, Ted Carlson; Education, Miss Ethel Magler; Hospitality, Mrs. Oscar Simmons Jr. and Marc Puccio; and Heritage, Mrs. Frank Russell.

Working in cooperation with the Wixom Chamber of Commerce, the council also drafted a letter outlining limited parking conditions the merchants desired on the proposed widened section of Pontiac Trail.

Specifically, the letter stated that the merchants with the approval of the city council, will enforce the 3 a.m. to 7 a.m. and 3 to 4 p.m. parking ban and that the Wixom police would enforce the regulations.

These no-parking hours, if youngsters who've accumulated three passes will be admitted free Saturday; others will be charged a quarter.

State police said apparently

Teifer, Sr. He'll be greeted at 9 a.m. at the village hall, served a continental breakfast courtesy of the ladies of the Methodist church, told about local government and shown the local

Wixom's Michigan Week chairman, Mrs. Pearl Willis, takes a break from planning next week's gala festivities to pin a button, announcing it's state celebration time, on Novi's chairman, Mrs. Florence Harris.

## Reveal Plans to Begin Willowbrook Addition

A purchase plan which had been called by the village council last week was revealed at a special village assessment hearing last week.

Joseph Staub, a Plymouth developer, made known to the village council his intention to purchase an undeveloped section of Willowbrook, known as Plat 4, from the current owner, Paul LeBost.

Staub said purchase of the property by himself and his partner, Fred Greenstein, is contingent on:

—Development of the Novi sewer line in the Middle Rouge Interceptor system;

—Resolving the water situation;

—Approval for plat number 4.

The state board of health refused earlier this year to approve a water purchase agreement between LeBost and the village. LeBost had said he would provide water, giving the village the option of taking the system over in five years.

The state board of health would not approve such a contract because they noted, the village had no firm commitment to buy the system nor control over the system in the interim.

Approval of plat number 4 is currently being held up by the Oakland county road commission. The reason is that the commission claims LeBost has posted a faulty bond.

Staub told the council that if the way is paved for purchase, he would provide water, giving the village the option of taking the system over in five years.

"I got started, the better," Staub continued. "I'm not going by fall, I'll lose a whole year," he added. The special assessment hearing

## Novi, Wixom to Vote on College

The Blissfield driver of the truck-trailer shown above burned to death Friday afternoon when he was pinned in his flaming cab after colliding with a road grader on I-96 near Wixom.

The Blissfield driver of the truck-trailer shown above burned to death Friday afternoon when he was pinned in his flaming cab after colliding with a road grader on I-96 near Wixom.

## Three Tragedies Hit Area; Murder Victim Found Here

Three tragedies, each and a Blissfield man burned to death when his truck-trailer collided with a road grader near Wixom.

Dead are Preston Anderson, 24, of 790 Horton, Northville; Walter Flory, 47, of 34792 Fendt road, Farmington, and Jerry Genz, 21, of Blissfield.

According to State police, the grader driver, escaped the accident with a fractured left leg.

Funeral services for Preston Anderson were held Monday in Casterline Funeral home, 122 West Dunlap, with the Reverend Robert Spradling, pastor of First Baptist church, officiating. Burial was in Anderson cemetery, Jackson, Kentucky.

Flory's body was found at 4:15 a.m. Saturday in the middle of 12 Mile road near Meadowbrook by a motorist who summoned Novi police. Novi police, noticing the man's stab wounds, called state police.

Novi investigating officers were Patrolmen Ralph Arbour and Roy Hallock.

Late Saturday, Mrs. Virginia Ann Martin of 34792 Fendt, Farmington, confessed to state police she stabbed and killed Flory Wednesday night when he threatened to kill her 10-year-old son Arthur.

Mrs. Martin, who also has a six-year-old daughter, told police she hid the body in her garage until 9 a.m. Saturday when she put it in her car and took it to the Novi intersection.

Mrs. Martin, who is separated from her husband, explained Flory threatened to kill the boy when they became involved in an argument after Flory's collection with a road grader on I-96 west of Wixom near Old Plank road.

At 8 p.m. in Novi school's library, the committee members chosen last Thursday by Fred Loynes, representing Novi's civic organizations; Mrs. Robert Skellenger, representing children's organizations; and Erwin Branch, fraternal. Flory represents benevolent groups.

Next meeting of clubs interested in the publishing move is set for Friday, June 7, at 8 p.m. in Novi school's library.

Rotary chairman planning Thursday's meeting were Lee Helman and Reverend Marvin Rickett.

Plans for actual publishing and possible activities coordination of Novi organizations began to take shape last week with the appointment of a steering committee. Convenor of the committee, selected at a Thursday night meeting called by the Rotary club, is Douglas Foley.

Committee responsibilities, drawn up by over 30 representatives of local clubs, will include plans for implementation and organization. Eventually, the committee may be called upon to submit proposals for financing the venture.

Other committee members chosen last Thursday by Fred Loynes, representing Novi's civic organizations; Mrs. Robert Skellenger, representing children's organizations; and Erwin Branch, fraternal. Flory represents benevolent groups.

Plans for actual publishing and possible activities coordination of Novi organizations began to take shape last week with the appointment of a steering committee. Convenor of the committee, selected at a Thursday night meeting called by the Rotary club, is Douglas Foley.

Committee responsibilities, drawn up by over 30 representatives of local clubs, will include plans for implementation and organization. Eventually, the committee may be called upon to submit proposals for financing the venture.

Other committee members chosen last Thursday by Fred Loynes, representing Novi's civic organizations; Mrs. Robert Skellenger, representing children's organizations; and Erwin Branch, fraternal. Flory represents benevolent groups.

Next meeting of clubs interested in the publishing move is set for Friday, June 7, at 8 p.m. in Novi school's library.

Rotary chairman planning Thursday's meeting were Lee Helman and Reverend Marvin Rickett.
