

# Ex-Northville Man Weds in New York

Dalice Frances Haug and Charles Conrad Yost exchanged vows in a double-ring ceremony Saturday, April 27, in the Methodist Church of Floral Park, New York.

The bride is the daughter of Mr. and Mrs. Eugene F. Haug of Floral Park, and the bridegroom's parents are Mr. and Mrs. Peter F. Yost of Plymouth, formerly of Northville.

The Reverend Richard Guice officiated at the ceremony.

The bride, given in marriage by her father, wore a white peau de sole gown with a tulle train, both appliqued with Swiss cotton lace. Her silk illusion veil was fastened by a seed pearl crown, and she carried a bouquet of Stephanotis with an orchid center.

Mrs. Steven Weber of Waburua, Kansas, was matron of honor for her sister. The bridesmaids were Karen Ann Haug of Ozone Park, New York and Mary Frances Yost of Plymouth. All wore floor length buttercup yellow linen dresses with chiffon trains and carried bouquets of multi-colored sprig flowers.

James Peter Yost of Jackson was his brother's best man, and the guests were seated by ushers William Harper Yost of Plymouth, George Eckhardt of Staten Island, New York, and floral ushers Donald Henry Haug of Floral Park and Edward Allen Haug of Ozone Park, New York.

Mrs. Haug chose a mint green linen dress with lace insets, and Mrs. Yost wore a beige sheath embroidered in white.

The reception was held in the New Hyde Park Inn, New York. After honeymooning in Bermuda, the couple are now residing in Westland.

The new Mrs. Yost is a graduate of the Methodist Hospital School of Nursing in Brooklyn and will begin her duties on the staff of St. Mary Hospital in June. Her husband, a Navy veteran, studied at Cleary college and is now in management training at Chrysler corporation in Dearborn.

# DAR to Present Student Awards

The annual awards given by the Sarah Ann Cochran chapter, Daughters of the American Revolution, to the high school student and the eighth graders who have done excellent work in American history will be presented this year at local school assemblies.

The Medal of Merit award was to be presented to Pamela Witke, daughter of Mr. and Mrs. Arthur E. Witke, by Miss Florence Keith, a Northville teacher and DAR member, at an assembly dinner Tuesday, May 28. Pamela is a junior at Northville high school.

A Certificate of Recognition is to be awarded to Peter Kunt, son of Mr. and Mrs. Eugene S. Kunt, June 8 at Our Lady of Victory school.

Lola Rosenbeck, daughter of Mr. and Mrs. Egon H. Rosenbeck, will receive a Certificate of Recognition at St. Paul's Lutheran school June 6.

Three Northville junior high students will be honored with Certificates of Recognition at the Cooke junior high assembly June 11. They are Guy Dixon, son of Mr. and Mrs. Sanford Dixon; Randy LeFevre, son of Mr. and Mrs. Ryerson LeFevre; and Peter Bedford, son of Mr. and Mrs. Michael Bedford.

**A BARREL OF ANTIQUE** goods is being filled for Northville's first flea market to be held June 5 on Main street by Miss Eleanor Lowell, market chairman, left, Mrs. Catherine Hartley and Walter Carroll, who plan to have booths of the all-day event. (See In Our Town.)

# In Our Town

By JEAN D'AY

NORTHVILLE'S Main street from Center to Hutton will be closed to regular traffic next Wednesday, June 5, as it becomes "the scene" of an antique-and-arts flea market sponsored by the Northville retail merchants association.

About 25 antique dealers have taken booths for this Northville "first." There also will be 10 arts and crafts booths at which demonstrations of silk screening and furniture antiquing will be successful.

A successful outdoor activity in other communities (Rochester led the way last Saturday), the flea market is under the chairmanship of Eleanor Lowell of the Barn Door antique shop.

There will be no admission charge, but proceeds from the sale of booths will be used for the annual Santa's workshop and for downtown Christmas decorations. The market will be open from 9:30 a.m. to 3 p.m. in event of rain, it will be postponed to May 12.

Because the market is outdoors, events scheduled are under "weather control." But unless winds are too strong the silk screen demonstration will be given by Margaret Cramer, a professional artist whose works have been on display at the Hartley Gallery for several years.

The furniture antiquing demonstration will be given at Stone's Gamble store both by Joanne Gasaway of Livonia.

All in-town antique dealers will have their wares out. Assisting in the market is one of the newcomers, Walter Carroll of the Littlefield Gallery.

HERE AND THERE: This - and every - Memorial Day has a unique personal meaning for Dr. Russell Atchison and his family. Colonel John McCrae who wrote the verse, "In Flanders' Fields" the poppies blow - was a cousin of Dr. Atchison's.

Dr. Atchison has a framed copy in Colonel McCrae's handwriting of the famous verse. It originally was given to a nurse who later presented it to Dr. Atchison. Colonel McCrae, a Canadian doctor, also was the nephew of Mrs. R. E. Atchison of Wing street.

After the poem gained world-wide popularity the poppy was adopted as the flower in the annual Poppy Day sale, which was sponsored locally by the Northville VFW last Thursday to raise money for needy and disabled veterans.

FIRST PAINTINGS of a local adult art class in oils will be on display in the Northville library for two weeks beginning this Saturday.

Adel to Adel of parent school helps Mrs. Constance Barnes, Mrs. Joanne Keys and Mr. and Mrs. Eugene Olewnik. The four will chaperone the approximately 80 Northville high school seniors who will be leaving at 4 a.m. Memorial Day for New York City by bus. In NYC they will be accompanying the seniors to "Hello Dolly," Lincoln Center, Staten Island, etc.

FALL FABRIC showings took Mr. and Mrs. Fred W. McLean to New York City last week. With friends, Mr. and Mrs. Eugene Karrer, they also made it a pleasure trip, staying at the Waldorf and seeing "Flame" as well as the new Radio City Music Hall show, a tribute to Irving Berlin.

They also viewed three floors of fabrics and notions at the Sheraton-Atlantic and report it will be a "feminine fall" with much lace trim and also a season of vinyl-that-really-seems-like-leather. (It will be easy for home sewers to work with, predicts Fred McLean.)

ANKARA, Turkey, will be visited next month by Dr. and Mrs. Omer K. Sombay and their four children on a three-week vacation. As Turkey is Dr. Sombay's native land, the trip will include visits with family and friends. This will be the first time three of the children will have seen their Turkish family.

# about Women and the family

## Frank Cochran Feted at Dinner

Frank Cochran, first employe to retire under the Northville school district retirement allowance system, was honored by 150 friends, neighbors, fellow workers and old acquaintances at a retirement dinner Saturday evening in the Junior high school cafeteria.

Cochran, who lives with his wife at 626 Thayer boulevard, has been with the Northville schools for 21 years and was superintendent of buildings and grounds at his retirement.

A Northville resident for 50 years, he first served as a school custodian at the old high school for nine years. Cochran, who will celebrate his 70th birthday next month, plans to remain a Northville resident.

Among those present to honor him at the banquet were his daughter, Mrs. Dwight (Marlene) Miller, and her husband. Others included former Northville schools superintendent Russell Amerman, who had just returned from a Rotary International convention in Mexico; Mrs. Ida B. Cooke, Fred Stefanski, Elroy Ellison, and present board of education members, Robert Froelich, Eugene Cook and Andrew Orphan.

Cochran was honored also with the surprise presentation of a religious picture and a purse.

**CLEAN-UP CHAMPS** - On hand for the presentation of trophies to winners of the Moraine elementary school clean-up, fix-up contest was Northville's Councilwoman Mrs. Beatrice Carlson of the city's Beautification commission. The winners are (l to r) Michele Free, fourth grade; Bruce Bailey, kindergarten; and William Houck, third grade. Below, Lynne Prichard, Gregg Hillsbrand, and Tim Kelly take part in tree planting at Moraine as part of the school's Michigan Week observance.

## Historical Society Elects Jack Hoffman

Northville Historical society elected Jack Hoffman, The Northville Record editor, as its president at the final meeting of the season May 21.

Other new officers are Mrs. W. H. Canfield, vice-president; Mrs. Hurd Sutherland, secretary; Mrs. William Crump, treasurer. Elected to the board of directors were Mrs. Jack Scantlin, Mrs. Catherine Hartley and Mrs. Rhea Wilcox.

The club met earlier than usual and at 8 p.m. to the community building to view Michigan Week displays, including the society's own. Members also held a sneak preview of the new filmstrip of the old Northville library building, the Wing street structure now housing Northville township offices. The filmstrip is in process of being completed professionally for the purpose of trying to save the library building. The project is under chairmanship of Francis Gazlay.

Plans also were made to have a float in the Fourth of July parade.

Next meeting will be September 17 with everyone interested in historical Northville invited.

## Piano Students To Give Recital

Piano students of Mrs. Leland Mills will be presented in a recital at 7:30 p.m. Tuesday, June 4, in the Northville First Methodist church.

The program will include compositions by contemporary American composers as well as standard works. A concert arrangement of Gregig's Piano Concerto in A Minor will be played by Dorothy Shipley. Wendy Wheaton will play "Malaguena" by Laocuna.

Piano solos also will be played by Jill Angle, John and Marjell Bedford, Bruce, Clark and Susan Edwards, Ann Frogner, Martha Gazlay, Kathy Hixon, Mary Hubbard, Shannon Lovett, Sandy Perry, Julia and Mark McDaniel, Marla Owen, Lisa Willis and Beverly Wistert.

The public, as well as family and friends of participants, is invited to attend.

## King's Mill

Weather-cooperating, Kings Mill Townhouse residents will dive into their new, heated pool tomorrow. Open swimming is scheduled from 1 to 6 p.m. Memorial Day with an adults-only splash party and buffet to begin at 6 p.m.

In event of rainy weather, the party will be held on the next nice day of the weekend.

Fashions for Father, the style show to provide Father's Day gift ideas, will be held at the poolside at 8 p.m. Monday, June 3. Del's shoe store and Lapham's men's store will show fashions. Dewey Gardner of Lila's Flowers is supplying both background decorations and organ music for the show.

## Moraine Pupils Spruce Up Homes, School in Contest

The grounds of Moraine elementary school were picked as clean as a putting green last week as the various classrooms competed for prizes in a contest as to which room could collect the most paper, stones, bottles, and other litter from the area.

The homes of children in the school's service area also came in for some attention as the contest was extended and credit given for work done at home. It was a part of the Clean-up, Fix-up campaign. Parents were involved by having to sign check off sheets of work performed to enter the homework to the contest.

At the end of the clean-up work, the administration rewarded the youngsters with a surprise ice-cream treat.

Mrs. Cynthia Pringle's fourth-grade room took down first prize for collecting the most trash. Mrs. Diane Hedeman's third-grade group was second, while Mrs. Mary Jane Honecker's kindergarten group finished third.

# Over Memorial Weekend Kent Park Braces for Opening

A wide variety of recreation, including swimming, will be available at Kensington Metropolitan Park, a 4,800-acre site near Milford, over the four-day holiday from Memorial Day, Thursday, May 30 through Sunday, June 2.

Beach sites have large lots for parking, well-kept grounds for rest and relaxation, sandy beaches, food service, first aid stations, heated showers, dressing rooms, restrooms, coin-operated lockers for clothes checking. The showers and dressing rooms are free, however, there is a 25-cent charge for the use of coin-operated lockers.

Over 11 large picnic areas are provided throughout the park, all with stoves and tables and many also have shelters and play equipment. Groups of 50 or more persons should register at the park office, although no picnic reservations are accepted. This park rangers know where large picnic groups can be found should emergencies develop or other persons are seeking a group.

A popular attraction with many visitors is the "Island Queen", a replica of an old Mississippi Riverboat, which makes 45-minute tours around Kent Lake from noon through 6 p.m. daily. Over 200,000 persons have enjoyed the water cruises since the Island Queen started its Kent Lake cruises in 1958. Charges are 50 cents for adults and 25 cents for children under 12.

Golfers can test their skill at the 6,400-yard, 18-hole Par 71 golf course. Family groups find many interesting exhibits at the Nature Center and on self-guided hikes along the Nature Trails. Bluegills, crappies and bass inhabit Kent Lake one of the most popular fishing sites in southeastern Michigan. Fishermen may use the boat launching ramps or the rental craft available at the Boat Rental Building at nominal charges. Motors are limited to 7 1/2 horsepower on rental boats and there is a maximum speed limit of 10 miles per hour on Kent Lake. No water skiing is permitted. Gasoline and bait are not available at the park.

Kensington Metropolitan Park, which marks 20 years of service on Memorial Day, is one of eight recreation sites developed and maintained by the Huron-Clinton Metropolitan Authority, a five-county regional park agency serving the counties of Livingston, Macomb, Oakland, Washtenaw and Wayne.

The HCMA parks include Metropolitan Beach near Mr. Clemens, Stony Creek Metropolitan Park near Ulica, Marshbank Metropolitan Park near Pontiac, Kensington Metropolitan Park near Milford, Lower Huron Metropolitan Park near Belleville and Delhi, Dexter-Huron and Hudson Mills Metropolitan Parks near Ann Arbor.

A free map showing the location and facilities of all HCMA parks is available by writing to METROPARK GUIDE, Huron-Clinton Metropolitan Authority, 1750 Guardian Building, Detroit, Michigan, 48226, or phone 961-5865 (Detroit).

GREET ROCKEFELLER—On hand to greet New York's Governor Nelson Rockefeller, as he appeared to address the Economic Club of Detroit was William McLaughlin and E. O. Weber (center), both of Northville, who are alternate delegates to the National Republican convention.

McLaughlin also is first vice-president of the Michigan Republican party and Weber is chairman of the Wayne county portion of the Second Congressional district. "Governor Rockefeller was most impressive as well as candid," said Weber. "He's probably aided his candidacy, although the Michigan delegation is, of course, committed to Governor Romney, as its favorite son, on the first ballot."

McLaughlin also is first vice-president of the Michigan Republican party and Weber is chairman of the Wayne county portion of the Second Congressional district. "Governor Rockefeller was most impressive as well as candid," said Weber. "He's probably aided his candidacy, although the Michigan delegation is, of course, committed to Governor Romney, as its favorite son, on the first ballot."

## Interrupts ABC Service Novi Water Main Ruptures

The critical importance of water for industry surfaced during a council meeting last week Tuesday when Village Manager Harold Ackley informed council members of ruptures to a water main on Nine Mile road that supplies the ABC Photo plant.

Interruption of service caused interruptions of production at the plant, which processes film for a large number of retail stations in Michigan and Ohio. Ackley described a plan for extension of a water main that would include a loop to permit an alternate flow into the plant if one main should have to be shut down for service for housing development that will occur in areas south of the plant, Ackley said.

The council approved Ackley's request to have the village engineer prepare plans for the extended water main and the loop to insure a constant supply of water to the plant.

Novi Township Justice of the Peace Emery Jacques was in the audience at the meeting last Tuesday, the day after Novi citizens voted in favor of the city form of government for Novi. A discussion of how the village could avoid paying twice for justice court services on cases turned over to Jacques from former Justice of the Peace Robert Anderson focused on a problem of how to handle old cases. It was noted that in some cases transferred from Anderson's court sufficient time had elapsed so that there might be a question involving statutes of time limitations.

In previous meetings council members had expressed concern about a statement of billing from Anderson that sought payment for all the cases turned over to Jacques for final processing. Bond informed the council that he had met with Anderson and had prepared a master check-off list so that payment could be in accord with the rate at which the cases are completed. Jacques and Bond agreed to meet to review the master list and make some determination about the cases of long tenure.

## First Church of Christ Holds Dedication Services

First Church of Christ, Scientist, Plymouth, held two services on Sunday, May 26, in dedication of the church edifice at 1100 West Ann Arbor Trail. The first service was held at the regular hour of 10:30 a.m., and the second at 4:00 p.m. Many out-of-town guests were present at both.

Earl J. Philip, First Reader, read a letter from the Christian Science Board of Directors in Boston, which said in part: "On this joyous day of dedication, you meet together to praise God for the light of the Christ—the idea of man's sonship with the Father—which has touched your hearts, bringing healing and regeneration into your lives. As workers in the Father's vineyard, you have the opportunity, through this loved branch of The Mother Church, to spread the truths of Christian Science in your community day by day...May you feel assured of our good wishes and sincere interest in the fruition of your work. Faithfully yours, The Christian Science Board of Directors."

Philip then read a brief resume of Christian Science history in Plymouth, concluding: "A Christian Science church may be dedicated only when free of debt. It is my privilege to announce that this church is now free of debt, and is hereby formally dedicated on May 26, 1968."

Plymouth's original Christian Science church, on the site of the present City Hall, was Michigan's first church of this denomination erected expressly as a church. It was built in 1902. The present church was occupied in 1958.

DEUTSCH ONLY - Visitors to the German House for women on Albion college's campus receive fair warning before they enter that "Deutsch" is the only language spoken within. The "German only" rule is a special trait for Heidi Christiansen (right), Miss Hildebrant, who lives in the German House, is the daughter of Ardyce E. Hildebrant, 17071 Franklin road.

Heidi Christiansen (right), Miss Hildebrant, who lives in the German House, is the daughter of Ardyce E. Hildebrant, 17071 Franklin road.

## About Boy Scouts

Last Saturday with fair weather once again, grading their efforts the Boy Scouts of Troop 731, sponsored by the First Methodist Church of Northville, took part in the annual "Rogue River Clean-Up."

### Kurt D. Kinde Wins Honors

Kurt David Kinde, 139 West Dunlap, has been named to the Dean's List at Western Michigan university for outstanding academic performance.

To qualify for the honors title, a student must maintain a 3.5 grade point average on a 4.0 scale while enrolled in at least 14 hours. Four Plymouth area students also were named to the list. They are: William M. Arnold, 4500 North Forest; Sally Ann McConaha, 11449 Haggerty road; Nancy Ann Miller, 11021 Haggerty road; and Wendy Gladys Stokes, 12731 Beck road.

**NORTHVILLE LODGE NO. 186**  
F. & A.M.  
Regular Meeting Second Monday, Herbert Fomander, W.M. R. F. Coolman, Sec.

Leaving home bright and early with words of encouragement ringing in their ears, such as "Dads! Hurry home so you can mow the lawn", "Moms! Don't get your feet wet", and "Sisters! Did you have to make so much noise?", the boys embarked in trucks to their starting point.

The boys approached their formidable task with great gusto, which was only slightly diminished when they set foot in the icy water. After working for about three hours a halt was called to give the boys a chance to dry out, and an impromptu baseball game was started with a bat and ball found in the river.

At this point, because of the unusual depth and cold temperature of the river, Scoutmaster, Andrew Pello, decided to curtail the work schedule, and the group adjourned to partake of a sumptuous lunch prepared for them by Girl Scout Troop 371, with an able assist from Girl Scout Troop 407. A large vote of thanks to the girls and their leaders for a job well done.

Following lunch the boys and girls played basketball, after which they disbanded, concluding a very successful work day which turned out to be a fun day.

## Northville Planners Approve Zoning Change Requests

Two rezoning requests involving existing businesses received unanimous approval of the Northville planning commission last week Tuesday.

They included: property of Mr. and Mrs. Harvey P. Ritoble (Northville Laundry), located on the west side of Center street, 350 feet north of Bancroft; and property of Sidney and Cyril Frid, located at the southwest corner of Main street and Park Place.

The former, rezoned from C-2 (general commercial) to C-1 (local business), will permit enlargement of the laundry for vehicle loading and unloading near the rear, while the latter provides for the rebuilding and enlargement of the Gulf Oil company service station now located at the corner.

The Frid zoning change went uncontested, but the other zoning request met opposition from James Cutler, who argued the zoning change constituted "spot zoning".

Ritoble, a member of the commission, excused himself from council deliberation and his decision concerning his business.

In other business, the planners resolved questions of citizens who live near the Convent Food Mart shopping center, Allen Drive and Novi road. Specifically, the citizens were referred to the planners by the city council to learn what requirements the commission desired in connection with the proposed greenbelt between subdivision homes and the shopping center.

Den mother Mrs. Per V. Iverson says that the boys decided to buy the kits for convalescing soldiers in the DaNang Naval hospital in Vietnam when they read of the lack of projects for bed-ridden patients.

Other plans in the kit pack have been added with the project, Mrs. Iverson added.

Other plans in the kit pack have been added with the project, Mrs. Iverson added.

## You'll love it! A history-riding Peche island pre-opening ferryboat cruise

Be one of the first to enjoy the return of ferryboat rides to our magnificent and richly historical Detroit River.

Exactly 26 years ago Ferryboat Service was discontinued on the Detroit River.

The Peche Island ferryboat fleet is new... safe... clean... comfortable... and painted bright Peche Island red to tell the whole world that Windsor and Detroit have once again opened the beautiful Detroit River to residents and visitors who would like to see how our cities look from the water.

Salet boats in service anywhere... all steel construction. The Peche Island Ferryboats are the safest, most modern craft in use on the Great Lakes. Powering the boats by the most advanced turbo-charged diesel engines and built of steel, the Peche Island Ferryboats surpass the strictest safety requirements of the Department of Transport. Each boat is operated by a licensed captain and first mate.

Where, When and How to Board Ferryboats for the One-Hour Peche Island Pre-Opening Cruise, beginning 9 a.m., Thursday, May 30.

From Windsor: The boats leave downtown Windsor at the foot of Ouellette Street from 9 a.m. to midnight. This dock is located directly behind the British-American Hotel. Parking is available in the immediate area in public and private parking lots.

From Detroit: Passengers boarding the ferryboats in downtown Detroit may park in the Cobo Hall area parking lots. The Peche Island Pre-Opening Cruise dock site is located at the River on the Civic Center Drive at the West end of Cobo Hall, approximately 500 feet east of the foot of Third Street.

Tickets will be sold on the Ferryboats from 9 a.m. to midnight.

The one-hour round trip Peche Island Pre-Opening Cruise fare is \$1.95 for adults and \$1.00 for children between 5 and 12.

For additional information on the Detroit cruise, call (1-313) 963-9555.

Each boat has a sundeck which seats 60 passengers on roomy contour fiberglass seats. The lower level accommodates 140 people on comfortable vinyl covered foam seats. Two rest rooms serve passengers. A snack bar features sandwiches, cold and hot drinks and other food items.

describe how a small group of Frenchmen in 1701 founded Windsor and Detroit... how the cities were named... interesting facts about the River, the Great Lakes, the Tunnel, the Bridge... how the two cities were one until 1796... how a British Commander settled the International Boundary problem... how the Indians lived on Peche Island... David Dunbar Buick's brilliant plan to celebrate Detroit's 200th birthday... the life of Hiram Walker... 1968 Plans for the International-Freedom Festival and hundreds of other historical facts and anecdotes that will make your unusual Peche Island Pre-Opening Cruise an event you will always remember.

Because the Peche Island Ferryboats do not stop until your return to the downtown Windsor or Detroit dock where you boarded, there is no customs or immigration inspection.

You will be given a passing visit and description of the facilities being readied on exciting and historic Peche Island, which will be opened to the public for the first time in history, July 1, 1968.

You'll love it! Make your plans NOW to be among the first to enjoy a Peche Island Pre-Opening Cruise. Reservations are now being accepted for Special Group Programs on Peche Island beginning July 1. Phone: Detroit (1-313) 963-9555 and Windsor (1-519) 735-2157 for details.

What facilities are offered on the Peche Island Ferryboats?

Does a guide point out sights along the river?

Does the ferryboat stop? What custom and immigration problems are there?

Does the ferryboat stop? What custom and immigration problems are there?

## Relations Council Plans Third Meeting

Third meeting of the recently reactivated Northville Human Relations Council will be held at 8 p.m. Wednesday, June 5, at the main building of Northville State Hospital on Seven Mile road. Everyone interested is invited to attend.

The council, which is in process of forming resolutions and getting acquainted, plans to continue to meet throughout the summer.

## Schools Report Measles Cases

A "light rash" of measles is being reported in some of Northville's schools. In most instances the measles are said to be a very light variety with only slight temperatures and rash.

It is being termed "Hungarian measles" by laymen, but Dr. Russell Atchison of Northville Doctors' Clinic states that the term is purely a lay one used to describe a strain of German measles. Since the cases seem to be light ones, he said he has seen none of them. He adds encouragingly that with the advent of immunizations during recent years the few cases being reported in the schools do not compare with the two-to-three hundred of a few years ago.

Almost all cases have been reported at Moraine elementary school which has had about 15 to 20 measles or "rash" reports during the past two weeks. News was reported at Amerman on Main street elementary although a case of chicken pox has been called in to Main street by a parent this week.

**CITY-SCHOOL SESSION**—Members of the Northville city council and board of education and their administrators met Tuesday evening at school board offices to discuss mutual problems. Reports were given by City Manager Frank Ollendorff on the status of the Taft road paving, Eight Mile at Center street traffic light, and city-township unification study. The school board reported that it questions the future need of the community building for school use and indicated consideration of sale of the facility to private interests. Mayor A.M. Allen pointed to possible need of the building for public use and the bodies finally agreed to a joint study to determine a "best use for the most people". The

board reserved, however, the right to dispose of the property as it sees fit, as owner. The possibility of the community recreation program coming under school direction was then discussed, but the board expressed reluctance at the undertaking based on anticipated costs. Again it was agreed, however, that a study by the recreation committee setting forth a future plan for the recreation program would be considered. Finally, the board and council discussed with Northville Community Chamber of Commerce representatives several possible plans for correcting traffic problems at the entrance to the high school. Among them was improvement of old Baseline road leading to the rear of the

high school off High street. The city manager was instructed to draft such a proposal along with cost estimates. Pictured at the meeting (l. to r.) are: City Manager Frank Ollendorff, Councilman Charles Layman and Wallace Nichols, Mayor A. M. Allen, School Board President Eugene Cook, Board Vice President Stanley Johnston, Board Trustee James Kiefer, School Superintendent Edward Spear, Superintendent's Secretary Mrs. Winifred Proctor, School Business Manager Earl Busard, Board Secretary Glenn Deibert, Board Trustees Andrew Orphan, Robert Froelich and Richard Martin. Councilmembers Del Black and Mrs. Beatrice Carlson were absent.

## 2 Mills Called Modest Increase by Administrator

**EDITOR'S NOTE:** Following is the third of four articles concerning the operational millage election slated for June 10 in Northville. It was written by Curriculum Coordinator Miss Florence Panontri.

In today's world there is little if any disagreement about the importance of each school system providing the highest quality of educational services, including teacher performance, physical facilities, equipment, supplies, supportive services and leadership effort. The Northville Community, The Northville Board of Education, the administrators and the teachers have cooperated effectively to give form and substance to the educational program. As a result of this solidarity, the Northville Public School have attained a highly quality program. This is not to imply that we stand still and coast. Education today is dynamic—a challenge to the student, the teacher, the administrator, and above all to the community that, in the final analysis, determines the kind of educational program the community can boast.

The united Board of Education determined that two (2) mills is necessary to retain this kind of educational program. What is the program you are being asked to support? You are being asked to support an educational system that recognizes every child as important, but, at the same time, a system that can claim numerous college students on dean's lists and is recognized in all areas whether it be athletics, model United Nations, young authors, musical productions, dramatic, speech activities, science fairs or mechanical drawing exhibits. The Northville Public Schools have not failed the community.

A comparison of the Northville Public Schools today with our schools five or ten years ago would reveal many changes. However, the world today is not what it was five or ten years ago. We've learned much more about why and how children learn than we knew—even a few years ago. Five or ten years ago, the number of students entering the 7th grade was considerably larger than the number graduating from high school seven years later. Today, the Northville Public Schools, have less than a 3% drop-out rate, one of the very lowest in the state.

The reason is that we've learned that all students have the ability to learn if we have the methodology, the programs, the structures, the equipment and the leadership that permits learning. Citizens of Northville have not failed their young people, they provided the means.

When it was recognized that some children experienced difficulty in learning to read, reading specialists were placed in your schools. The widely accepted concept of new mathematics resulted in teacher training and programs instituted. Northville children have the opportunity to visit museums, attend lectures, concerts, and attend sport teams. When educational research proved that certain audio-visual equipment facilitated learning, the hardware was made available. The importance of motivation at the elementary level brought high interest supplementary materials into the

classroom and changes in methods of teaching. Teachers who enjoy spending time beyond the classroom hours with their students and who are willing to give up lunch hours, meet after school, attend conferences in the evening and on Saturdays in order to update their knowledge of meeting children's needs staffed the classrooms. Effective leadership was provided.

Your Board of Education President, Mr. Eugene Cook, in his article on May 16, 1968 and your Superintendent, Mr. Ray Spear, in his article on May 23, 1968, spoke to the quality of our school system. I agree with them in their opinions. If you've visited our schools in action, I'm certain you agree to this. In one classroom, I talked with some excited and proud young people who related with enthusiasm their joint efforts to present a program and provide the refreshments for a parent evening. I attended a P.T.A. program

in one of our schools that made me proud to be a part of the system. When youngsters unite their talents, to present an instrumental, vocal and art program of that caliber, we can be proud of students and the personnel who guided them. Recently, two third grade boys took me on a tour of the museum they're building; they're involved in a team teaching program in music, art, social studies and English. As a result, these youngsters write the necessary letters, read, visit museums, relate, sing about, and talk in archaeological terminology that I'm certain I didn't know existed when I was at that level.

Yes, the educational program in the Northville Public Schools is dynamic because the Northville Community made it that way. We urge you to keep it that way.

When one sees some thirty teachers

## Teachers Suggest 2 Mills May be Too Little

**EDITOR'S NOTE:** Following is the fourth of a series of articles written by the Northville Education Association on education as it affects Northville.

Last week, we urged the citizens of Northville to vote "yes" on the request for a millage increase. We pointed out that the request was modest and the need great.

Without wishing to discourage taxpayers, the Northville Education Association must go on record at this time as having doubts about the adequacy of two mills. After studying past budgets and the projected budget for '68-'69, we wonder how long the schools can be operated on an additional two mills.

In these inflationary times costs are rising fast that many communities have increased school taxes four or five mills this year. Just recently, as we reported last week, South Lyon passed an eight mill increase. Other communities such as Inkster have raised taxes as much as 13 mills.

Northville, more than many other districts, has a large residential area with a consequent school population potential that will require expanded facilities and programs. Obviously this means further millage increases. But our concern is that perhaps in the very near future the two mills we hope will be voted June 10th may prove inadequate to meet foreseeable increases in expense. If this develops, will another millage vote be necessary?

Of course, it is not possible to do much now. Two mills has been asked and we support it because even that little will make a great difference. As for the future, we are unsure.

It may be said that the Northville Education Association should have spoken sooner—perhaps before the Board set the proposed increase at two mills. But school budgets are very complex matters which require more study than full-time teachers can properly give them. The Board employs an expert in finance and supporting staff to handle the difficult task of balancing revenues and expenditures. Consequently, teachers hesitate even now to question or challenge the decision of the Board, acting on the advice of its staff, to seek such a modest increase.

However, if the two mill increase is voted and it is immediately apparent that this is too little, we do not wish to join those who made the decision in having to explain or apologize. Rather, we wish to be on record as having supported the increase, but having questioned its adequacy.

## Car Smashes Pole, Young Driver Killed

A young man, a lifetime resident of the area, was killed at 1:55 a.m. Sunday when his car ran off the road and hit a telephone pole.

Michael Kidd, 19, of 40 Woodland Place in Country Estates on West Eight Mile road, was pronounced dead on arrival at St. Joseph's hospital, Ann Arbor. The fatal accident occurred at the sharp curve near the Pettengill homes on Pontiac trail southwest of New Hudson.

State police investigated the accident and reported Kidd was alone in the car. Cause of the crash was not determined.

Michael Earnest Kidd was born October 28, 1948, the son of Charles B. and Rachel Haskins Kidd of New Hudson. He and Lauren Savage were married in New Hudson March 6, 1965. He graduated from Northville high school in 1966 and was a member of the New Hudson Methodist church. He was employed at Western Electric company.

Besides his wife, Lauren, he is survived by a son, Jeffrey Michael and a daughter, Rachelle Lauren, both at home; his parents, and two brothers, Eugene of St. Louis and Stephen in the service.

Funeral services are today (Wednesday) at 2 p.m. at Phillips Funeral Home in South Lyon with the Rev. Robert Hutchinson of the New Hudson Methodist church officiating. Burial is to be in the New Hudson cemetery.

In Livonia Invitational

Northville Nine Wins Opener

Playing what may have been their finest game of the season Saturday, Northville's W-O champions advanced to the second round of the Livonia Invitational tournament by clipping Redford Union's Class "A" nine, 6-1.

The Mustangs, now billed as the dark horse in the tourney, take on Livonia Franklin Thursday at 1 p.m. If they get past Franklin, they'll play again Friday in hopes of making the championship round on Saturday.

"Our boys were up," said Coach Dick Willing concerning his squad's performance Saturday. "About 16 big league scouts were on hand for the game and all of them seemed to agree that our boys were really hustling. I'd say it was our best game of the season."

Sophomore Fred Holdsworth, mixing up curves and fast balls, was tagged for only two scratch singles, walked once, and fanned six batters. Northville, on the other hand, came up with seven hits and scored two runs from the mound before a Redford reliever put out the fire.

Aside from Holdsworth's superlative mound performance, the action of Jeff Taylor at the plate was the high point of the game. Normally a pitcher, Taylor replaced Joe Donner at

the plate, and he drove home three runs in the process. Redford scored first in the top of the second on a single, wild throw to first, and a successful suicide squeeze.

But the Mustangs came back in their half of the second to tie the score. Randy Pohlman walked, advanced to second on a sacrifice bunt off the bat

of Barry Deal, and scored on a single to left by Taylor. The big Northville blitz came in the bottom of the third. Holdsworth led off with a single to left, Doug Anglin singled to left, and both advanced on a wild pitch. Dennis Primeau filled the bases. Pohlman walked and forced home the Mustangs' second tally.

In checking his swing, Deal ground-rod to first and Redford's first baseman

ed to first and Redford's first baseman slipped from the bottom of the third. The Mustangs had to settle for fourth place in a field of seven teams.

Coach Fred Hanert volunteered no excuses for his squad, although when pressed for an explanation he noted that the Wildcats' normally superlative star, Jon VanWagner, failed to come close to his high-water mark "probably because in pole vault and high jump athletes were not permitted to wear cleats. They had to wear tennis shoes."

Neither team was able to produce much at the plate thereafter, although the Mustangs stranded men at second and third in the fifth. Redford's coach may have cost him his squad's victory, according to some observers, by not starting his number-one pitcher. The coach, citing his squad's league championship game Monday, decided to keep his top hurler in the wings for the Monday game, figuring any of his hurlers, all highly rated, could set down the Class "B" Northville squad.

"Their top pitcher might have done better," conceded Willing, "but the way our boys were playing I'm sure they would have beaten anyone, if they do as well the rest of the way out we've got a good chance to take the tournament."

Champions of the Lakeside "C" meet were the Grass Lake athletes,

who early in the season swamped the Wildcats. They compiled a total of 62 points, Whitmore Lake, which lost out to Novi earlier by a hair, finished second with 37. Third was Columbia Central with 36 1/2, Novi took fourth with 31 1/2, Roosevelt was fifth with 21, Clinton sixth with 20 and Manchester seventh with 10.

First place finishes entirely escaped the young Novi team, but VanWagner managed to take second in the high jump with a jump of 5' 8". Ken Osborn took fourth with the same mark but with more misses, and the Wildcats' 880 relay team took second with a time of 1:39.7. Members of the relay squad are John Davey, Don Maki, Gary Boyer, and Farrah. Still another second was turned in by Farrah in the long jump (9' 11").

Among the Novi third-place finishers were: Van Wagner, high hurdles (16.4); Tom Boyer, 880-yard run (2:11.2); Rich Hill, 440 yard dash (54.3); and the mile relay, Tom Boyer, Steve Pomeroy, Lemmie Beadle, and Rick Hill (5:48.3).

VanWagner also took fifth in the pole vault with a vault of 10' 6" and Mark Earl ran fourth in the two-mile run with a time of 10:58.5.

General Filters No. 2, Rexall, and the Party Store are each holding down first-place positions as Novi Little League action heads into the second month.

Filters No. 2 is leading the Farm League with a 3-0 mark. Rexall is on top of the Red Division with a 6-0 record, and the Party Store took first in the Blue Division with a 5-1 mark.

Results of action this past week: Carl's Shell came up with fewer hits but edged Wroten Brothers, 9-8, on May 25. The big hit of the game came off the bat of Ricky Gault, who blasted a round-tripper.

Novi Party Store collected 14 hits in downing Carl's Shell, 10-6 on May 24. Doubles were picked up by Pete Anderson, Ron Buck, and Jack Colburn.

Tim Assemany came up with his first homer of the season on May 24 as Michigan Tractor swamped Wroten Brothers, 13-1. Rick Gault tripled, and Don Ling, Sean O'Brien, and Ron Wilendus each doubled.

Kevin LeFleche gave up only two hits as the Jayhawks smashed past Paragon, 19-5. On their way to the victory, the Jayhawks collected 11 hits. Ken Mobarak and Brownie doubled for the winners.

Dave Brown fired a no-hitter to help Rexall Drags to a 7-0 victory over B-V Earthmovers on May 24. R. Peitch tripled twice and Eddie Brown came up with another triple and a double for the winners.

The Jayhawks downed B-V Earthmovers, 12-5, with doubles by LaFleche and Ron Frisbee, on May 20. The Jayhawks picked up nine hits, the Earthmovers five.

The Eastern Michigan University student and twice state high school champion fired 147 for 36 holes over Forest Lake and Indian Woods courses to finish high among the 24 professional and amateur golfers who qualified in a field of 170.

Next step will be the sectional qualifying round at Knott's Country club June 4. Top finishers in the sectional will be eligible to participate in golf's biggest tournament, scheduled this year for Oak Hill Country Club, Rochester, N.Y., June 10-16.

St. Germain shot a steady 71 at Forest Lake and then "played it safe" with a 76 at Indian Woods for a sure qualifying spot.

# Butterflies aren't Human

Our 9A biology trip was a huge success. After we saw the museum's collection of rare lepidoptera, we went outside to collect specimens. Then we ate lunch, and took pictures. Here's one with me, on the left, laughing at Eddie. We were in a big discussion about whether or not butterflies can feel.

While our teacher exchanged notes with the curator, we sat around and talked. About butterflies, we started on missiles and rockets, and whether or not there's life on the stars. Somehow, don't ask me how, we got on the subject of God.

You know, I didn't realize how ignorant some kids are about Him! All of a sudden, I found out how good it is to have some ideas about where, what, and why, I am. A few of those kids were really way out in left field.

Now it's up to me to show them what they have been missing. I think I've talked them all into going to church with me Sunday.

# from the Pastor's Study

Reverend Gib Clark, Pastor  
First Baptist Church of Novi

I should like to point out some of the ways which the Bible becomes food for growth. Life is one thing, but health is another. The Christian life is similar to the natural life in this respect. Yesterdays food will not sustain growth for tomorrow. Malnutrition may occur in the spiritual realm as well as in the physical. For instance, a woman once said "All that you can hope to get out of life is what you can eat and what you can wear." The same woman also said, "We have never left any of our children to go to church; then they are free to join whatever church they marry into." We all are dependent on God for good health as well as for the new birth. The Bible is our guide for doctrinal truth. Some people try to make the distinction between practical and doctrinal religion, but the whole truth - as revealed in Christ, for example - was written down because it was essential to spiritual life. To cut out the parts which seem not to agree with our case is hardly an act of humility. The early Christians contended "For the faith which was once delivered unto the saints." Jude 3, Jesus himself said, "Heaven and earth shall pass away, but my words shall not pass away." Matthew 24:35. Today, there is a return to what is called biblical theology, in many groups it is a good sign when people turn to the Bible in search of truth may stand a good chance of hearing the voice of God whether they heed or not will depend on openness of mind and humility of heart.

Another function of the Bible in the believers life is that of overcoming doubt and fear. The words are mentioned together because they are of the same cloth. Both stem from a feeling of rejection which grows out of our own sense of guilt. When little children are afraid or expect to be rejected, we talk to them and re-assure them. What we actually do is to communicate our love to them. This is exactly what God is trying to do to us.

The history of the Bible is the record of God's actions in trying to redeem men. One look at the life of Christ, for example, and we see a divine person, "full of grace and truth" John 1:14. Our whole confidence in the resurrection and in immortality is based upon the power of God as manifested in the living Christ. No mysticism can bring man the assurance which God can speak through His Word. "These things have I written unto you," said John, "that you may know that you have eternal life." I John 5:13. Similar to the overcoming of doubt and fear, perhaps even the other side of it, is our growth in love.

The primary method of teaching love in this world is to love. No lessons explaining it will take the place of genuine acts of love. In the Bible we have every possible approach to love. There are examples given, direct commandments, explanations of how love works. But most of all, when I read the Bible I feel that God is loving me. I feel secure in His love. That's why the Bible is spoken of as "God's Love-Letters to man." When the love of God really accepted two things happen. First, the person who really enters into this experience can no longer be covered by insulation against fear. Saying affirmations to yourself every morning is not fundamentally different from the pagan beating tom-toms to ward off evil spirits. But when love comes in fear goes out the window.

It would be futile to try to build a world of love if the "ultimate reality" is either cruel or indifferent. The second effect of God's love is to cause us to love others. This commandment have we from Him, "that he who loveth God love his brother also." I John 4:21. When people read the Bible regularly and allow God to speak through them, love grows. It is a book of love it rebukes our small hearts. God becomes very real to us.

When one of the disciples asked Jesus how he would make Himself known to them after He went away the word seeing Him, he said, "If a man love me, he will keep my words; and my Father will love him, and we will come unto him, and make our abode with him." John 14:23. Notice that keeping His Words, is both the result of love and the condition of greater love. "For God so loved the world that He gave His only begotten Son that whosoever believeth in Him should not perish, but have everlasting life." John 3:16. Have you believed? Do you love?

# Witnesses To Convene

Jehovah's Witnesses from 16 congregations in southeastern Michigan will be traveling to Hillsdale, Michigan, the week-end of June 14-16 for their semi-annual circuit assembly.

All of the estimated 1,200 delegates are looking forward to the event with keen anticipation, especially since it has been several years since Hillsdale has been the host city for one of their assemblies. The Hillsdale High School, 30 S. Norwood, has been selected as the meeting place.

All of the assemblies of Jehovah's Witnesses are guided by a theme. This time the theme will be "Strengthening One Another to Remain in the Faith" (Acts 14:22).

# Like Sterling on Silver

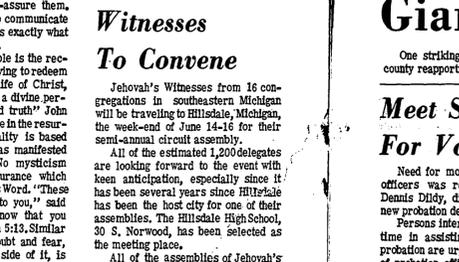

Just as Sterling on Silver is a hallmark of quality, so The Protecting Hand emblem on contracts of life and health insurance issued by my Company is recognized as a sign of sound protection and reliable service.

Check these "Hallmarks of Quality" . . .

- more than \$129,900,000.00 paid in benefits since 1890.
- \$591,115,000.00 of life insurance in force.
- \$73,446,000.00 in Assets with \$10,770,000.00 in Surplus and \$62,675,000.00 in Liabilities.
- 2,225,000 policies issued since 1890.

more "Plus" factors

- A mutual legal reserve company.
- \$1.17 in assets for each \$1 of liabilities.
- Specializing in all forms of personal insurance - Life, Health, Hospital, Major Medical and Group Insurance.

# Novi, Wixom Share Giant New District

One striking feature of the Oakland county reapportionment plan for election officers is that it has created a new district which will include Novi and Wixom.

Need for more volunteer probation officers was revealed this week by Dennis Dildy, director of Northville's new probation department.

Persons interested in donating their time in assisting persons placed on probation are urged to attend a meeting of probation officers slated for Wednesday, June 5 at the city hall beginning at 8 p.m.

Dildy, in issuing his plea for more volunteers, noted that police department officials have noticed a marked reduction of violations-particularly in the minors in possession category - since the launching of the voluntary probation program.

During the past month, the probation department has had an active case load of 22. Three persons were assigned to volunteer work details, and only one violation of probation was recorded.

Probation office activity included presentence investigation of nine males, and received on probation 10 males for a total of 19.

Of the 22 active probationers, 14 were in the 17 to 20 age group; one in the 21 to 30 group; three in the 31 to 40 group; one in the 41 to 50 group; and three in the 51 and over group.

# Meet Slated For Volunteers

Persons interested in donating their time in assisting persons placed on probation are urged to attend a meeting of probation officers slated for Wednesday, June 5 at the city hall beginning at 8 p.m.

Dildy, in issuing his plea for more volunteers, noted that police department officials have noticed a marked reduction of violations-particularly in the minors in possession category - since the launching of the voluntary probation program.

# Wayne County 26 District Plan Survives

It appears that a 26 district plan adopted by the Wayne county reapportionment commission has passed most of the legal hurdles and will be the plan under which a board will be elected in November.

Reapportionment and the 26-district plan promise a drastic revision in administration of the vast operations, including Metropolitan Airport, under Wayne county jurisdiction.

It provides for direct election of a supervisor by the voters in each district. The 26-member elected board replaces a 130-member board, of which only a few were elected and the vast majority held seats by virtue of appointment.

The plan is described as meeting the requirements of having districts of near equal size as is possible while respecting voting precinct boundaries. The districts range in size from 104, 488 for the largest district to the smallest of 99,186. Average size population for the 26 districts is 102,566.

Henry Sladek, Wayne county Republican party chairman and member of the commission that adopted the plan, said that although the plan is based on 1960 census figures it holds up under recent population studies.

Sladek said that the plan provides for about 61.6 representation on the board for the city of Detroit and 38.4 percent for suburban communities. He cited a 1965 population study that showed percentages showing a slight change to 53.4 percent Detroit population with suburban communities making up about 46 percent of the Wayne county total.

Although the dates have been set and the office machinery is already humming in Wayne county, the Oakland county clerk's office is marking time as primary election time nears for reorganized county boards of supervisors.

A spokesman for the Oakland county office told this newspaper it is prepared to distribute nominating petitions at the instance of candidates but that the office prefers to wait results of court challenges to the board of supervisors reapportionment plan and final clarification on whether or not township officers must stand for election this year.

In Wayne county, the clerk's office indicated that candidates for partisan election to the Wayne board of supervisors may qualify for the primary ballot either by paying a \$100 filing fee or by returning completed petitions. June 17 is the last day for filing for those candidates choosing the fee method, while June 18 is the deadline to qualify by filing signed petitions, Wayne county officials said.

A Wayne county spokesman said the required number of signatures on nominating petitions will vary from district to district. Candidates who qualify via petitions must collect signatures of registered electors in their own districts.

The signature requirement imposed upon the party label under which the candidate is running and the vote recorded for his party's candidate for secretary of state in the November, 1968 general election, must not be more than four percent of the vote cast and not less than one percent.

# Wayne Petitions Ready; Oakland Treads Water

# NOVI HIGHLIGHTS

**FI-9-2428**  
 Mr. and Mrs. Wardell Lyke are taking a two weeks plane trip through the western states and visiting places of interest. During their absence Mr. Lyke's mother, Mrs. Geneva Lyke of Traverse City, is staying with their three daughters.  
 Roy Callan, son of Mr. and Mrs. William Callan, although recuperating from a recent emergency appendectomy was able to return to school last week. Mr. and Mrs. Glen Salow, Sr., had dinner with the latter son and family, Mr. and Mrs. Paul Profit, on South Commerce road Friday evening. After dinner they all attended a play at Huron Street School in Pontiac, in which the Profit's daughter, Glenda was a ballet dancer.  
 Mr. and Mrs. Harold Miller spent a few days of last week as guests of Mr. and Mrs. Frank Dotterer at the Thunderbird Resort at Robitaville, North Carolina.  
 Mr. and Mrs. John Klaserer Sr. returned to their home on Beck road after spending five months at Denidia, Florida. Before they left Mr. and Mrs. William Klaserer and Mike, Steve, and Mark visited their parents. They also visited many places of interest before returning to Michigan.  
 Mrs. Fred Mandlik is entertaining her sister, Mrs. Lettie Sproule from Dawn Township, Ontario, Canada.  
 Mr. Louis Tank has returned to his home after spending eleven days in Redford Community Hospital.  
 Mr. and Mrs. J. D. Mitchell visited friends and the former relatives in Northern Michigan at Big Rapids, and Barryton this past weekend.  
 The next regular meeting of the Board of County Road Commissioners of the County of Wayne, Michigan, will be held on Thursday, June 6, 1968, at 10:00 a.m. in the County Board Room, 1000 North Main Street, Detroit, Michigan. The agenda for the meeting is as follows:  
 1. Report of the regular meeting of the Board of County Road Commissioners of the County of Wayne, Michigan, held on May 22, 1968.  
 2. Report of the regular meeting of the Board of County Road Commissioners of the County of Wayne, Michigan, held on May 22, 1968.  
 3. Report of the regular meeting of the Board of County Road Commissioners of the County of Wayne, Michigan, held on May 22, 1968.  
 4. Report of the regular meeting of the Board of County Road Commissioners of the County of Wayne, Michigan, held on May 22, 1968.  
 5. Report of the regular meeting of the Board of County Road Commissioners of the County of Wayne, Michigan, held on May 22, 1968.  
 6. Report of the regular meeting of the Board of County Road Commissioners of the County of Wayne, Michigan, held on May 22, 1968.  
 7. Report of the regular meeting of the Board of County Road Commissioners of the County of Wayne, Michigan, held on May 22, 1968.  
 8. Report of the regular meeting of the Board of County Road Commissioners of the County of Wayne, Michigan, held on May 22, 1968.  
 9. Report of the regular meeting of the Board of County Road Commissioners of the County of Wayne, Michigan, held on May 22, 1968.  
 10. Report of the regular meeting of the Board of County Road Commissioners of the County of Wayne, Michigan, held on May 22, 1968.

**WILLIAMS UNITED METHODIST CHURCH**  
 Sunday, June 2nd the Willowbrook Church will begin the summer worship schedule, beginning at 10 a.m. with a unified service. The children will be with their parents and will then be dismissed for classes during the singing of the second hymn.  
 The Willowbrook Woman Society of Christian Service and the Novi Church Evening Group had a combined meeting in the Novi Church Monday evening, June 11th. The next Rebekeh meeting will be held Thursday, June 13th. The Rebekeh held their first Lodge meeting downstairs this past Thursday evening. All seemed to think it a good place for future meetings.  
 Sunday, June 9th, the Novi Rebekeh and Oddfellows will have Memorial Services at the Novi Methodist Church. Also on the regular lodge night June 13th, the Rebekeh will have a memorial service.  
 The Independent Rebekeh Club will meet at the hall on Monday, June 3rd. A visitation will be held at Hamburg on Wednesday, June 5th.  
 Novi Visitation will be held at the Community Hall, December 12, 1968. Saturday evening the Rebekeh and L.O.O.F. and their friends had a card party at the hall. A beautiful lunch was served.  
**BLUE STAR MOTHERS**  
 Novi Chapter 47, Blue Star Mothers feel they had a very successful card party and dessert luncheon at the community hall last Tuesday. Approximately 90 were present.  
 The Mothers wish to thank the bus-

## News Around Schoolcraft

Low bids totaling \$2,701,186 for construction of a 97,000 square foot physical education plant at Schoolcraft college have been received and await a decision by the college board of trustees to award a construction contract.  
 The decision of the board, scheduled within the next few weeks, is contingent on the sale of a \$3.7 million bond issue by mid-June. A portion of the proceeds of the issue will be used to supplement the college's share of the construction cost.  
 The project attracted a total of 31 bidders to the public opening at the college on Wednesday, May 15.  
 Hyatt Construction Company, Wayne, was lowest among eight bidders on the general construction contract, with a price of \$1,792,000. Bidding ranged up to \$3,346,677 among the general contractors.  
 Gilles Mechanical Contractors, Inc., Livonia, was apparent low bidder among 11 contractors who bid on the plumbing, heating, and air-conditioning work, with a price of \$611,880. Next low bidder was John F. McCarthy company, Dearborn, with a price of \$612,000. Bids ranged up to \$682,200.  
 Fred W. Moore Electrical Contractors, Inc., Livonia, was apparent low bidder among 12 electrical contractors, with a price of \$297,256. The bids ranged up to \$389,100.  
 The total of the low bids was about \$170,000 below the pre-bidding estimate of project architect Charles M. Smith Associates, Inc., Detroit. But the bids were \$149,340 higher than those opened last September before the project stalled for lack of local funding.  
 Assuming an award of construction contracts next month, the project could get under way during the summer after striking construction trades return to work. An 18-month construction period is expected for the project, which could make the plant available for instructional use at the start of the winter term in January, 1970.  
 As designed by the architects, the plant will provide a main gymnasium which will seat about 2,500; an auxiliary gymnasium; a swimming pool with a diving area and balcony seating for 400; a wrestling and corrective exercise room, handball courts, a gymnasium, classrooms, faculty offices, and other facilities for a complete physical education program.  
 Cost of the construction will be shared by the college and the state, including a \$1,178,500 total appropriation from the state.

# Out of THE PAST

**FIVE YEARS AGO...**  
 ...The 1963 Northville graduation speaker was Russell Wentworth, assistant director of Michigan State university's admissions office.  
 ...Northville Towns opened its gates for its 20th season with an earlier starting time and one extra race event nightly.  
 ...A grand opening of the completely remodeled and renamed Noder's Jewelry, 101 1/2 East Main street, was planned by owner Ray Noder.  
 ...An okay on Northville's plans for a new city hall-library-fire hall was received from the federal government.  
 ...With the community college question as an added attraction school district voters were expected to turn out at the polls in numbers "slightly above average"—but below the 916 record set in 1960.  
 ...John Hopkins of Northville, a French language teacher at Plymouth high school, was awarded a National Defense Education Act grant for the study of the French language.  
 ...Northville's varsity nine wrapped up its 1968 season with a 13-6 win loss record while grabbing consolation honors in the Pontiac Press tournament.  
**TEN YEARS AGO...**  
 ...A vacancy on the Novi township board was filled quickly and quietly with the appointment of Gordon Prono, a Willowbrook village resident, as trustee. He succeeded Stan Balon, who was required by state law to resign when Wisconsin became a city two weeks earlier. Only one other person was nominated for the post: David Fried, also a resident of Willowbrook.  
 ...The Novi school year ended for hundreds of students including 38 eighth graders who were graduated.  
 ...A hunting trip in Canada proved successful for Dr. L. W. Snow and C. A. Hoffman, each of whom killed their black bear with a single shot. Dr. Snow's prize weighed in at more than 300 pounds.  
 ...Still another photography award was received by 16-year-old Harold Hartley, a student at Northville high school.  
 ...Jim Hammond warmed up for the state tennis finals when he won his 13th straight match of the year to lead Northville to a 4-3 win over Plymouth.  
 ...Attorney Cliff Hill and Carl Johnson, owner of Johnson's Jewelry and Gift Shop, returned from a five-weeks' tour of Europe, including Russia.

**FIFTEEN YEARS AGO...**  
 ...Before a crowd of 4,000 people, the fifth annual Northville Junior Horse Show's 22 classes were run off with the precision of a big time circus.  
 ...Scholarships were awarded to six Northville seniors: Barbara Boylston, Richard Somers, Eva White, Marlene Weiss, Walter Newton, and Theresa Duchesneau.  
 ...The Northville village commission approved the 1963 assessment.

## With Our Servicemen

Corporal John Sharp, Jr.

Camp Books, Vietnam (HTNC) May 10—Marine Corporal John Sharp Jr., son of Mr. and Mrs. John Sharp of 7586 Chubb road, and husband of the former Miss Barbara A. Copeland of 29603 Milford road, New Hudson, has completed a three-day course in accounting at Camp Books, Vietnam, where he is a member of Force Logistics Command.  
 During the course he received instruction in requisitioning procedures and supply directives and publications. The course was designed to improve his capabilities in helping to supply Marines fighting in Vietnam's five northernmost provinces.

CONVENTIONITES—Mr. and Mrs. Paul Folino, 210 South Center street attended a three-day convention for outstanding State Farm insurance agents at the Queen Elizabeth Hotel in Montreal, Canada recently. In a series of meetings and panel discussions, more than 1,500 agents, agency managers, and wives from Connecticut, Maine, Massachusetts, Michigan, New Hampshire, Rhode Island, New York, New Jersey, Vermont.

**Northville Teacher Convention Attends**  
 Norma Hannevald, science teacher at Ida B. Cook junior high school, recently attended the 16th Annual National Science Teachers Association convention held in Washington, D.C. The National Science Teachers association serves as the science department of the National Education association and prints several magazines plus other helpful materials for science teachers throughout the United States. Regional conferences are held throughout the year, but the highlight for the association is the national convention held each spring.  
 Hannevald presented a display on the making of Latex Rubber Models which are extremely useful in the classroom. Different rubber models of plants and animals can be made by the teacher or can be made as projects by interested students. These models make excellent teaching aids and stimulate interest in plant and animal life.  
 The technique for making rubber models is quite simple, he explained.  
 "Using a freshly killed specimen, place the plant or animal into a natural pose. Next pour plaster of paris over the specimen making sure the plaster is under the legs. Now let the plaster dry for two to three hours, then simply turn the plaster mold over and remove the specimen. After this removal the mold can be filled with liquid Latex Rubber. After doing so let the mold set for one-half hour. Pour the excess rubber out of the mold and let it dry for twelve hours. Then remove the rubber model from the mold.

# NOTICE ANNUAL SCHOOL ELECTION

**NOTICE OF ANNUAL ELECTION OF THE QUALIFIED ELECTORS OF NORTHVILLE PUBLIC SCHOOLS SCHOOL DISTRICT WAYNE, OAKLAND AND WASHENAW COUNTIES, MICHIGAN TO BE HELD JUNE 10, 1968**  
 TO THE QUALIFIED ELECTORS OF SAID SCHOOL DISTRICT:  
 Please Take Notice that the Annual Election of the qualified electors of said School District will be held in the Board of Education Office, Northville School Building, 405 W. Main Street, in the City of Northville, Michigan, on Monday, June 10, 1968.  
 THE POLLS OF ELECTION WILL OPEN AT 7:00 O'CLOCK, A.M., AND CLOSE AT 8:00 O'CLOCK, P.M.  
 At said Annual Election there will be elected two (2) members to the Board of Education of said district for full terms of four (4) years, ending in 1972.  
 THE FOLLOWING PERSONS HAVE BEEN NOMINATED TO FILL SUCH VACANCIES:  
 Eugene K. Cook  
 Robert E. Desley  
 Reginald D. Holloman  
 Roger E. Rinaldi  
 Oris J. Robinson  
 John J. Seales  
 Robert A. Stenger

**TAKE FURTHER NOTICE THAT the following propositions will be submitted to the vote of the electors qualified to vote thereon at said annual election:**  
 I. Shall the limitation on the total amount of taxes which may be assessed against all property in Northville Public Schools School District, Wayne, Oakland and Washenaw Counties, Michigan, be increased by two mills on each dollar (\$2.00 on each \$1,000) of the assessed valuation, as equalized, of all property in said school district for a period of five (5) years, from 1968 to 1972, both inclusive, for the purpose of providing additional funds for operating expenses?  
 II. Shall Northville Public Schools School District, Wayne, Oakland and Washenaw Counties, Michigan, be reclassified and become a school district of the third class?  
 Only resident qualified electors who are registered with the city or township clerk of the city or township in which they reside are eligible to vote at this election.

**OPERATION CLEAN-UP—Northville Boy Scouts, in cooperation of the Northville Jaycees' observance of Youth Day during Michigan Week Saturday, waded along the bed of the Rouge River branch in Cass Benton park, cleaning out the rubbish, trees and branches that had accumulated since Scouts last cleaned the river last year. It was cold, tough work, but at noon the Scouts were rewarded with a tasty lunch served up by Northville Girl Scouts. It was the Scouts way of saying, "Let's Keep Northville Clean." According to the Jaycees, who sponsor the annual event, the enthusiasm and work of the Scouts is another reason why "Northville should be proud of its youth."**

## Smart Seeks Re-election

Clifford H. Smart, Republican state representative from the 60th District, has announced that he is a candidate for re-election.  
 Representative Smart was the chief architect and sponsor of the 1968-69 state school aid bill which incorporated some substantial formula changes. It also provided a \$80 million increase in state support for local school districts throughout the state.  
 Smart, who lives in Walled Lake, indicated that although the new state aid formula provides substantial improvements that additional study and changes are essential. Property taxes can no longer provide the funds essential for quality education. It is the intent of the taxation and education committees of the House to concentrate on this problem during the present session. Hopefully, some substantial recommendations will be made to the 1969 legislature which, if adopted, will put the financing of school on a better foundation.  
 Representative Smart was first elected to the State Legislature in 1964 after serving for nineteen and one half years as superintendent of schools in Walled Lake. He presently chairs the of the important House education committee and also serves as a committee member on the conservation, elections and retirement committees.  
 The 60th District includes all of the townships of Mundy, Argentine and Fenon in Genesee county and the townships of Holly, Groveland, Brandon, Rose, Highland, Milford, Commerce, Lyon and Novi in Oakland county. Representative and Mrs. Smart reside at 555 West Walled Lake drive.

## St. John's Seminary To Make Faculty Shifts

Some shifts in faculty assignments are scheduled for St. John's Provincial Seminary here when the Ordination Days of June complete the scholastic year. Three members of the faculty will be leaving, but two are expected to return after one year.  
 Father Thomas Doyle, associate professor of Sacramental Theology, has been given a sabbatical year for further study. He will spend the year at the University of Ottawa, Canada, to complete his doctoral studies. He is expected to rejoin the academic faculty in September of 1969.  
 Also expected to return, and at the same time, is Father Robert T. Callahan, associate professor of Sacred Liturgy. Father Callahan's sabbatical will be spent in parish work, seeking ways in which his mastery of the liturgical spirit can best be applied in the normal parish situation. Upon his return, St. John's students, all candidates for the five Roman Catholic dioceses of Michigan, will learn the effective methods for today's liturgical worship.  
 Father Maurice Shea, professor of Canon Law, leaves here after only two years, exchanging posts with Father Charles A. Kerin, who returns to St. John's after an absence of 10 years.  
 All are members of the society of Priests of St. Sulice, specialist in seminary work.

## 8 Area Students Get U-M Degrees

Eight area residents received degrees from the University of Michigan in spring commencement ceremonies held April 27 in the university's new events building where graduates heard Secretary Robert Weaver of the department of housing and urban development.  
 Last week the U-M board of regents officially confirmed the 5,200 degrees awarded.  
 Three from the Northville area receiving master degrees are Dennis R. Dilday, 429 Lake street, M.S. in education; Radhakrishnan Nair, 41001 West Seven Mile, M.S. in psychiatry; Darrell J. Schwamy, 38287 Traile Trail, master of public health degree in environmental health.  
 Bachelor degrees were awarded to Anne Hembrey Hemstra, 9300 Napier, B. A. Honors English; Carol Ann Kloufonski, 20145 Beck, Terrill J. LaRue, 18212 Jamestown circle, B.A. speech; Susan E. Grieger, 16080 Northville road, B.A. German; and Robert D. Bosak, son of Mr. and Mrs. Frank Bosak of Nine Mile road, B.S. in chemistry.

Raymond Spear

## Spear Receives Specialist

Northville Superintendent of Schools Raymond E. Spear has been awarded the education specialist degree from the University of Michigan.  
 A former elementary principal here, Spear received his bachelor of education degree from Plymouth State college in Plymouth, New Hampshire in 1955 and his master's degree from the University of Michigan in 1959. Spear and his family reside at 22304 Conzemara drive, Novi.

## Municipal Court

Two drivers who failed to respond to summons issued for driving violations made appearances in court last week after being served with warrants.  
 Muhammad Ibrahim Farraj, 605 Grace street, was arraigned on a speeding violation after being served with a warrant. Farraj pleaded guilty to speeding 45 in a 25 miles-per-hour zone and was sentenced to pay a \$45 fine, and \$5 costs or serve 10 days in jail.  
 Leonard E. Barney, Plymouth, appeared after being served with a warrant to answer to a charge of driving after his license had expired. He was cited for the violation on March 22 last year. After pleading guilty, Barney was sentenced to pay a \$30 fine and \$10 costs or serve eight days.  
 Three drivers initially charged with drunk driving pleaded guilty to reduced charges.  
 Gerald D. Cowan 540 Carpenter street Northville, pleaded guilty to driving while ability was impaired by alcohol. He drew a \$100 fine and was placed on probation for one year.  
 Jay D. Foote, Plymouth, pleaded guilty to driving while his ability was impaired, a charge reduced from driving while under the influence. He was sentenced to a \$70 fine or 14 days.  
 Carson E. Copeland, South Lyon, pleaded not guilty when arraigned on a drunk driving charge but pleaded guilty to a reduced charge of driving while ability was impaired. He was sentenced to pay a \$75 fine or serve 15 days.  
 James W. Strange, 19, Detroit, pleaded guilty when arraigned on a charge of being a minor in possession. His sentence was a \$20 fine plus \$5 costs or five days and \$2 costs.

## John H. Munn Conducts Band

John H. Munn, son of Mrs. Roberta Munn, 46150 Neeson, participated in the traditional outdoor concert as the final appearance of the year given by the Eastern Michigan university bands yesterday (Tuesday).  
 The Northville student, an EMU senior, conducted "Touion Overture" by Pares.  
 The concert featured both the Symphonic Band and the combined Symphonic and Concert bands.

SPEAKING for The Record

By BILL SLIGER

A few years ago (quite a few) an advertisement in my hometown newspaper caught my eye. It promised a set of golfing irons for only \$7.95.

The set included a mid-iron, niblick, mashie, mashie-niblick and putter, all wood shafts, of course.

A clever copywriter made the iron set as well made as Bobby Jones' own set—specially hewed hickory shafts, forged steel heads, leather handles. All guaranteed to make the ball "click" on every swing.

I still remember the anticipation as I counted out the seven-ninety-five in bills and small change to the man at the jewelry-variety store counter. No, I didn't need a golf bag, I had one. I lied. And who bought golf balls, anyway. You found the strays in the fields that lined the local links.

Although I didn't recognize it at the time, that purchase was one of the best lessons I ever learned.

Less than a week later I went back to the store to display one broken shaft and one head and shaft that had parted company just as I was in the middle of my Bobby Jones' swing.

The man made some uncomplimentary remarks about my golf ability. But my mother made some stronger observations about my merchandise. The embarrassment was enough to make a 13-year-old want to walk out and forget it. But not mother. She persisted and I got one new and one repaired club.

I think the matter lasted a full season. But the other irons soon departed. I remember wondering on every shot whether or not the head would fly off. And none of my buddies would stand within 20 yards of me.

The lesson learned, of course, was that you get exactly what you pay for—and \$7.95 wouldn't buy a quality set of irons even during depression days.

Today we're being told by our school administrators and board that Northville cannot maintain its present level of education at the current millage rate.

On June 10 voters will be asked to approve a two mill increase. In dollars and cents, that's a hike of \$2 per thousand dollars of assessed valuation to property owners. It will bring the total tax levy in the Northville school district—both for operating and building funds—to 34.90 mills, or \$34.90 per thousand dollars of assessed valuation.

The size of the increase is not important, although taxpayers may find this a point of contention. The important fact to be determined is what do we want for our money.

Historically, Northville residents have demanded a program of excellence in their school system. We want good teachers, so we must pay them; we like as much individual attention for our students as possible, so we must keep classroom loads to a desirable minimum; we ask for a variety of programs, so we must obtain the teachers and facilities to provide the variety; we like music, athletics, dramatics, home economics, debate, speech; we want help for slow readers and challenges for fast readers.

We have set the guidelines for the type of school system we want. And we can believe our administrators, that to continue the program we must pay higher taxes, then we should support the request at the polls.

I do believe the increase is genuinely needed. Only a big boost in property valuations last year kept the request as low as two mills.

I'll vote "YES" for two mills for Northville's public schools on June 10.

Education is still the best buy we receive for our tax dollars. And if we want quality and dependability, we should be willing to pay for it.

Top of the Deck

by JACK W. HOFFMAN

"You went about it all wrong. Now, if you had put on some good top soil first, and if you had put in your seed in the fall you'd have had plenty of grass seed in the spring..."

That's typical of the salty advice that kind but flippant friends rub into my green thumb wounds after a spring inspection of the crop of weeds I've managed to raise around my home.

It isn't bad enough that my vigorous, blue-headed weeds have choked out twenty-five dollars worth of sure-grow grass seed and specially aged fertilizer. Or that my weeds sneak across lot lines at night and reproduce on the neighbor's green.

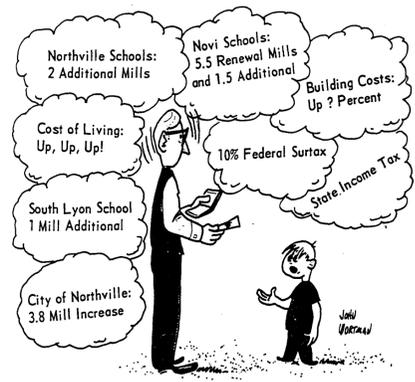

But these so-called friends must riddle me with "ifs".

If I would have done this or had done that. Sure, and if I had tried to raise weeds, I'd end up harvesting a quarter-acre of Merion every other week.

The truth of the matter is that I'm simply not a landscaper, or a carpenter, or a mason, or a putter-around-the-house. Fact is, I leave much to be desired while puttering around Bob 'O Link.

Now this inability to do it all wrongness is something that I'd probably be able to take in stride, but it has made me the target of a good deal of ridicule at home.

Getting Squeezed From All Sides

Northville Schools: 2 Additional Mills; Novi Schools: 5.5 Renewal Mills and 1.5 Additional; Building Costs: Up? Percent; Cost of Living: Up, Up, Up!; 10% Federal Surtax; State Income Tax; South Lyon School: 1 Mill Additional; City of Northville: 3.8 Mill Increase

"ONLY A BUCK, PEP? WE DON'T WANT THE OTHER FELLOWS TO THINK I'M A TIGHTWAD... DO WE!"

The Northville Record The NOVI NEWS

NATIONAL NEWSPAPER ASSOCIATION AFFILIATE MEMBER; Superintendent: Robert Blough; Advertising Manager: Samuel K. Stephens; Managing Editor: Jack Hoffman; Publisher: William C. Sliger

LETTERS TO THE EDITOR

Didn't Supervisor Get The Message?

To the Editor: It appears that the Novi Township supervisor didn't get the message at the Novi village election last Monday. All of the people who voted, live in Novi township as well as the village. Since the majority of the township voters decided that they want to get rid of the Township government, why are the township officials still going to waste our tax money fighting the results?

Do they think that a judge would rule against the vote of the people? I think the township voters should sue them for wasting our tax dollars. I for one am sick of their attitude.

I am very sorry that they have to go out and get new jobs but I don't think the people of Novi should support them forever.

Very truly yours, Dean H. Lenheiser 45095 Mayo Court

A LOOSE LEAF

By ROLLY PETERSON

It was a bright day in the city, and by the priest's light step, his smile as he greeted children with a pat on the head, you could tell he was happy. When a mini-skirted girl walked by, the priest permitted himself a backward glance, a surprising but not shocking thing these days for a man of the faith.

He retrieved a ball and threw it back to a boy, then entered an apartment building. As he mounted the stairs, he said, "Top of the morning" to the attractive young woman on her way out of the building.

Finally, he reached his destination and rapped on the apartment door and was greeted by a widow who introduced herself as Alice Mulloy. He introduced himself as Father McDowell, declined a cup of tea, asked for wine and got a glass of blood-red port.

The conversation swung, naturally enough, to talk of the priest's mother, quite a woman, who, by Father McDowell's description, had one sensitive spot, near the left ribs. When tickled there, Father McDowell's mother laughed incessantly.

Suddenly, father McDowell began tickling Mrs. Mulloy, with more and more vigor. Then he placed his hands around her neck, squeezed, and Mrs. Mulloy slowly slumped in the chair, dead.

This was no normal priest. But for Rod Steiger, this was his usual role—that of the villain. Rather than a later-day Father Riley, a chip off the old Barney stone, Steiger was a madman murderer, who changed costumes as frequently as a chameleon changes colors.

In the movie, "No Way to Treat a Lady," Steiger, this year's academy award winning best actor, matches wits with the police as he murders five women. Why? All because his mother-hatred, as one detective calls it.

The linkup between Steiger and his mother is clearly established. Every one of the victims is a woman, a stand-in for mother, who apparently neglected her talented, yet sensitive son. "Lady," in fact, is a Freudian dream.

Strangling women is not enough for Christopher Gill. Afterward he draws petulant red lips on the foreheads of his victims (for whatever that's worth), and carries on a running repartee with his favorite detective, Morris Brummel.

Played by George Segal, Brummel is the fair-haired boy detective who's tenderly in love with a beautiful girl, Kate Palmer (Lee Remick), has a mother, and thus escapes the image of the hardened, sadistic city detective. After all, the movie says, detectives are people, too.

Now murder—especially five macabre murders—usually excites unremitting horror and suspense. But not in today's murder flicks, with Hitchcock written all over them, and not in "Lady." There is a strong undercurrent of humor.

It's hallmark is flippancy, which, no matter how you cut it, is a callous sort of backhand. It's in keeping with the rationale—today we laugh for tomorrow we die.

For Steiger, "Lady" is another first-rate performance, another in a long list of successes that began with "On the Waterfront." Otherwise, "Lady" is luke warm.

To the Editor: As secretary of the Novi Goodfellow's I can definitely shed light on the controversy. Our minutes of the April 29th dinner meeting clearly state and I quote from them "Mrs. Florence Harris informed the Chairman Lee BeGole that she had personally invited Mr. Fred Buck to speak to us on cityhood for Novi."

I, as secretary, informed Mr. BeGole that we could not take part in politics and he agreed, in his statement to the people at the dinner table, and adjourned the meeting.

Mr. Buck was then introduced as Mr. Fred Buck who will speak on cityhood for Novi...he was not introduced as Mr. Fred Buck a future potential member of the Goodfellow's who will speak on the benefits of voting...therefore when he got up to speak I was the one who shook his hand and told him I did not believe in Cityhood for Novi at this time and left.

How could he confuse the issue by saying he was invited and attended the meeting as a "Goodfellow" for he has never been a member of this organization since it's founding in 1954 and is not to this day. To be a Novi Goodfellow you have to be voted in according to our by-laws filed with the State of Michigan.

I ask myself at this time if he was personally invited by Mr. BeGole why he was introduced as being invited by Mrs. Harris.

Let us call a spade and admit a "faux pas" was made and let it go at that.

Sincerely, Eugenie Choquet, Secretary

To the Editor: We the undersigned would like to thank the citizens of Northville for their

New Ship Studies Great Lakes Marine Life

LANSING—Problems and behavior of Great Lakes marine life can be studied with greater precision because of a new Michigan Department of Conservation work vessel. The ship, christened "Steelhead" May 2, is a 63 ft., steel hulled, floating laboratory.

It is equipped with modern electronic gear, has a range of 1,000 miles and can remain at sea for five days. The Steelhead has a crew of three: a captain, a marine biologist and a fisheries aide who also serves as a deck hand. The ship is permanently assigned to the department's fisheries division.

REHABILITATION of sport fish in Great Lakes waters prompted construction of the vessel. According to Conservation Director R. A. MacMullan, scientific management of such a large-scale program encompasses far more than just planting fish from

state hatcheries. "We need to know about migration patterns, food utilization habits of fish, survival levels of planted fish and contributions to fish population made by hatcheries as compared to natural reproduction," he said.

Location and numbers of forage fish, such as the alewife, must be determined if sport fish like the coho, chinook and lake trout are to have an adequate food supply. Data collected on the Steelhead will provide this information.

A BIOLOGICAL laboratory on the enclosed deck is equipped to handle dissection and other tests necessary to determine age and growth of fish, parasitic activity, food analysis, egg and scale examination. A freezer preserves tissue samples for later investigation of pesticide residues.

MacMullan points out that the Great Lakes suffered virtual elimination of all sport fish in recent years. The lamprey, coupled with exploitations by

some commercial fisheries, set the stage for an explosion of alewives and other forage fish.

The primary objective of introducing new predators to the Great Lakes waters is to reverse this biological imbalance and develop new game fish for Michigan sportsmen.

SOME LEGISLATORS question the value of the Steelhead at her \$105,000 price tag. MacMullan recalls numerous "jokes" passed among some of the lawmakers. "They weren't very funny," he says.

Michigan is the second Great Lake state to have such a vessel. Ohio already has one in operation and MacMullan expects others to follow suit. The Steelhead will be based at Charlevoix and will operate in Lakes Michigan, Huron and Superior.

ANOTHER WARNING was issued by Attorney General Frank J. Kelley to Michigan residents. Kelley notes that two promotional schemes which defraud consumers are gaining momentum in the state.

Home fire alarm systems and "free" stereos are the latest gimmicks used by fast-talk artists and unscrupulous operators.

Fire alarm systems can be of value when sold and installed by reputable companies. But the confidence man goes door to door, usually using the "old referral sales pitch," Kelley says, and tries to wear down the consumer with high pressure scare tactics. Kelley cites one case where such an alarm, mounted directly above the furnace, failed to function even when the furnace blew up.

"Lucky winners" of "free" stereos need only purchase four LP records a month for fifteen months to receive

worthless, sometimes even harmful. The confidence man plays on three human frailties, Kelley points out: "Fear, insecurity and greed. These human failings cost Michigan residents thousands of dollars each year as susceptible citizens are bilked by fast-talk artists and unscrupulous operators."

Roger Babson

Reuther Cast In Renegade Role

BABSON PARK, Massachusetts, Walter Reuther, dynamic leader of the United Auto Workers, has long been planning to withdraw from the AFL-CIO and take his membership with him. Now he has done it by the simple strategy of refusing to pay the UAW monthly dues into the Federation's coffers. The AFL-CIO's constitution provides for suspension of any affiliate failing more than three months behind—and the UAW stopped payment early this year.

The break has been in the cards for a long while. Thirteen years ago Reuther aided Meany in bringing together the long-separated Federation and the CIO to formulate the AFL-CIO. Reuther hoped that his powerful position as President of the UAW would eventually lead him into a line of succession for leader of the union movement when Meany stepped down. But this never came about. Nor did Meany ever encourage his ambitious lieutenant at all in this direction.

Fundamentally, the two have always been irreconcilable rivals. The UAW head has leaned strongly to the left and has eagerly urged liberal reforms for the Federation. He has termed Meany's leadership "stagnant" and "undemocratic." Actually, Meany's views have always been more conservative, and he has shown reluctance to alter his more moderate pattern of action in organizing, negotiating, and running his establishment. These ideological differences became more intense with the passage of time until frustration drove Reuther to his plan for splitting off from the AFL-CIO.

THE INTENTIONS of the UAW chief-tain are undoubtedly more impressive than may be immediately apparent. By leaving the Federation he has brought out of the Meany fold more than a million and half members and better than \$1 million annually in dues. According to insiders, however, this is only Step One for the aspiring "renegade". His aim is said to be the construction of a federation of his own, and a number of union officials within the AFL-CIO may well be interested in seeing whether he has more to offer than they might attain by staying with Meany.

Mentioned among those at least interested in Reuther's siren call are the Rubber Workers, Chemical Workers, Woodworkers, American Federation of Government Workers, and the Teachers Union. If all of these groups should pull out, it would add close to 600,000 more members to the emerging separate house of labor. And, of course, it would mean a substantial addition to the income from dues. Bruted about, also, have been reports that Reuther would welcome the enormous and wealthy Teamsters Union into his organization. This division of unionism has been independent since it was cast out of the Federation some years ago for corrupt practices and Red infiltration.

IF FATE should smile on Reuther and most of these prospective groups actually join up with him, it could have a smashing impact on labor relations. For one thing, there would be enough money from dues to implement Reuther's plans to rev up organizing and bargaining tactics. Should he be successful with a smoothly streamlined approach, some of the younger leaders of AFL-CIO segments might decide later to throw in their lots with the new mini-federation.

Rivalry between the AFL-CIO and its pernicious offshoot could bring serious woes to employers in the affected fields. Competition for the unorganized might easily become rambunctious as it was in the old days when the CIO and the AFL were separate and hostile. There would in-

SILVER ANNIVERSARY YEAR

TOP VFW OFFICERS - Recently installed as commander and president of the Northville Post No. 4012 and its auxiliary, respectively, were Mr. and Mrs. William E. Widmaier of 41412 Holmbury, Northville Estates.

### VFW Installs Its New Officers

Mr. and Mrs. William (Dorothy) Widmaier have been installed as commander and president of Northville Post No. 4012 and Northville Auxiliary No. 4012 of the Veterans of Foreign Wars here. They succeed Ray Paquin and Ilene Sousa. Installation ceremonies, conducted May 19 at the post headquarters, were conducted by Clayton and Beatrice Myers, past post commander and past auxiliary president (1965-66). Other post officers are: William Durham, senior vice-commander; Louis Lanning, junior vice-commander; Myron Utley, quartermaster; Lawrence McArthur, adjutant; Walter Sousa, post-advocate; Ross Schlabach, chaplain; Jerry Rotta, surgeon; Joe Gotro, public relations officer; William Durham, patriotic officer; William Switzer, post-historian; Robert Miller, service officer; William Durham, community service officer; Walter Sousa, National Home representative; Tom Moxie, Buddy Poppy chairman; William Durham, youth activities; Walter Sousa Children's Camp representative; Lawrence McArthur, legislative officer; Jerry Rotta, officer of the day; Ray Spornowski, trustee, one year; Ernest Ash, trustee, two years; Clayton Myers, trustee, three years; Everett McCollum, guard; Tom Moxie Voice of Democracy chairman; Walter Sousa, building committee, one year; Tom Moxie, building committee, one year; Ray Paquin, building committee, two years; and Warren Bogart, building committee, two years. Officers of the auxiliary are: Jean Utley, senior vice-president; Beverly Lanning, junior vice-president; Lena McArthur, treasurer; Beatrice Myers, secretary; Margaret Rager, conductress; Mary Bongiovanni, guard; Doris Paquin, trustee, one year; Bebe Myers, trustee, two years; Eileen Sousa, trustee three years, and patriotic instructor; Wilma Hamlin, color bearer no. 1; Judy Utley, color bearer no. 2; Madeline McLean, color bearer no. 3; Fran Bissa, color bearer no. 4; Betty Kupsky, flag bearer; and Eileen Sousa, banner bearer. Installing conductress is Juliette Swartbut, assistant installing conductress Clara Broda, and installing musician Karen Myers.

### Northville Man Gets Red Cross Position

Retiring chapter chairman, S. F. Leahy, Orchard Lake, will remain an active member of the board of directors, according to Blanton. Taking over Blanton's previous post as chairman of the executive committee is Roderic V. Wiley, Birmingham, who is national business manager, Pontiac Motor Division. The Northville director is Ray Shapiro, 40100 West Eight Mile road, president of Cunningham Drug Stores, Inc. Principal speaker at the annual meeting was Samuel Krakow, Director of International Relations for the American National Red Cross, and an active negotiator in recent prisoner exchange programs, particularly those of the Arab-Israeli conflict and the Bay of Pigs invasion.

## Regional Study Reveals Northville: White Collar Town With Lots of School Age Children

The Northville-Plymouth-Nowi complex of communities is vigorous and ready-to-grow, according to Irving J. Rubin, director of TALUS. Reporting on data TALUS (Detroit Regional Transportation and Land Use Study) compiled following a 1965-66 survey to develop a fact base for future regional planning Rubin said: "The communities in this area—Northville and Northville township, Plymouth and Northville township, and Novi and Novi township have a lot in common both in terms of potential and in terms of problems. "In all communities, auto availability and travel action exceed the average for the Detroit region. "Other data indicated a relatively high percentage of households have school age children. "Income statistics indicate that while there is considerable variation in family income levels, there are a substantial number of middle-income families in this sector. Rubin described the TALUS data base as the most comprehensive gathered by any of some 200 metropolitan area planning projects presently underway in the United States. He said the information was needed by TALUS to develop a comprehensive long-range plan for growth and development of the seven counties of Southeastern Michigan through 1990. TALUS is a special project of the planning division of the Southeast Michigan Council of Governments. A four-year, \$4.8 million effort financed jointly with federal, state and local funds, TALUS is scheduled to make final recommendations for a land use plan and transportation network by late 1969. Among the items of data assembled by TALUS concerning Northville-Nowi were population approximations based on the '65-'66 surveys. These showed: —Northville: 4,600 persons (in about 1,400 housing units). —Northville township: 3,500 (in about 900 housing units). —Plymouth: 12,000 (in about 3,500 housing units). —Plymouth township: 8,000 (in about 2,200 housing units). —Novi and Novi township: 6,700 (in about 1,800 housing units). The average number of persons-per-household varies as follows: Northville, 3.4; Plymouth, 3.5; Plymouth township, 3.7; Both Northville township and Novi 3.8. The average for all SEM is 3.5 persons-per-household. Median annual income in four of the five area communities exceeds the SEM median of \$7,760. In Northville, the median is \$9,690. In Northville township, it's \$9,610; in Plymouth, \$9,000; in Plymouth township, \$10,400; and in the Novi area the median income is \$8,780. Area households average a high number of trips-per-household-per-day. In all SEM, the average is 8.0. For the area communities, the averages are: Plymouth township, 11.6 trips-per-day; Novi and Novi township, 11.5; Plymouth, 10.8; Northville township, 9.6; and Northville, 8.8. "Car availability" is unusually high in two of the five area communities. Three or more cars are available to 11.5 percent of Novi households.

—Northville township, 13.6 percent; 25 percent. —Plymouth, 20.7 percent; 27.7 percent. —Plymouth township, 23.8 percent; 32.9 percent. —Novi and Novi township, 19.1 percent; 36.8 percent. The area has a high percentage of household heads who are college graduates. In Northville, 18 percent of the heads of households have college diplomas, Northville township, 26.5 percent; Plymouth, 21.4 percent; Plymouth township, 21.2 percent; Novi and Novi township, 10.9 percent. In all SEM, the average is 11.3 percent. A majority of the heads of households in four of the five area communities are in "white collar" occupations. In Northville, 58 percent of household heads are in "white collar" jobs, 42 percent are in blue collar. In Northville township the ratio is 71.3 percent "white collar", 28.7 percent "blue collar". Only in Novi and Novi township is the ratio different. 35.2 percent of household heads have "white collar" jobs and 64.8 percent have "blue collar". In all SEM, 38.2 percent of residents have lived in their present homes ten years or more. In Northville, the comparable statistic is 38.6 percent. Other figures are Northville township, 47.1 percent; Plymouth, 33.5 percent; Plymouth township, 16.5 percent; Novi and Novi township, 43.8 percent.

### L.I.T. To Honor William B. Crump

BE GROOVY WITH THE CHUNKY CUT!

CALL WILLIAM 349-9871

William B. Crump, a Northville resident, will receive an alumni achievement award from the Lawrence Institute of Technology on Sunday. Crump, president of Flow Engineering Inc. of Troy, will be presented with the award during the 36th annual L.I.T. commencement exercises at 3 p.m. in the Ford Auditorium in Detroit's Civic Center. The award is given annually to L.I.T. graduates who have made outstanding contributions of their professions, community and college. Crump has been a registered professional engineer in Michigan since 1960. He was graduated from L.I.T. with highest honors in 1943 receiving a bachelor of science in mechanical engineering degree. He has contributed to the design and development of heavy duty conveyor systems for handling scrap materials through automatic shredding machines which his company manufactures. Crump recently received an award for long service as trustee and president of the Northville school board. He lives with his wife, Marion, at 46755 Timberlane in Northville. They have two children: Constance, 20 and Allison, 15.

How to raise your sights without raising your new-car investment.

Olds advertisement with image of a car and text: Just do one simple thing many low-priced-car buyers should do, and don't. Price check on Olds 88. You'll discover a lot of so-called low-price cars cost as much or more. Suddenly, you can raise your sights to a full size Olds 88 and all its benefits. You'll gain Olds big-car room. Big-car stability. Big-car comfort from a full 123-inch wheelbase. Plus the extra assurance that's yours in an Oldsmobile. You'll also be rid of some problems, too. Like paying extra for a big V-8 engine. (And our Rocket 350 runs smooth and easy on regular gas.) That's a pretty good return on no increase in investment, isn't it?
